(*b.*) The air-tight compartments must be so distributed as to give the boat good buoyancy and stability; whether a part of the air-tight buoyancy apparatus should be under the thwarts, or whether it should be in the ends and along the sides, will be, so long as an efficient life-boat is obtained, left to the option of the maker or owner, but the Inspector must be satisfied that the life-boat is efficient.

(*c.*) Spaces filled with or containing any material are not to be deemed air spaces.

(*d.*) A square stern boat is not to be passed as a life-boat.

(*e.*) Suitable life lines with sustaining buoys shall be securely attached to the sides or gunwales of the life-boats.

Sec. 3. The life-boats must be provided with the full complement of oars, one for each rowlock, and two spare oars, all securely lashed inside ready for use.

(*a.*) With two plugs for each plug hole, attached with lanyards or chains, and one and one half sets of thole pins or crutches attached to the boat by lanyards and ready to slip in place.

(*b.*) With a sea anchor, a rudder and tiller, or yoke and yoke lines, a painter of sufficient length to reach from the davits to the boat when in the water and to tow her, a bailer, a hatchet in each end of boat, and a boat-hook each attached to the boat with a good sound lanyard.

(*c.*) If the steam-boat is plying at sea (on salt water) a vessel must be kept in each boat filled with fresh water, (and at least one life-boat must be fitted with a mast or masts, and sail or sails and proper gear for each), and an efficient compass and one gallon of vegetable or animal oil, and a vessel or apparatus of approved pattern for distributing it on the water in rough weather, and with a lantern trimmed with oil in its receiver sufficient to burn eight hours.

(*d.*) Means for detaching quickly the life-boat from the lower blocks of the davits must be provided, an ordinary fixed hook in the lower block should not be allowed, the boat's davits must be strong enough and so spaced that the boat can be swung out readily, so that the boat's chocks can be readily removed, and that the boat will not foul the ship's sides in lowering when the ship has no list, and that the whole of the tackling, davits, falls, blocks, eye bolts, and apparatus are of sufficient strength to lower the boat with its full complement of crew and apparatus on board.

Sec. 4. Every boat shall be kept in good condition, water tight and ready for immediate use; when wood is used as fuel for heating the boilers of high pressure (non condensing) steam-boats, the covers of such boats shall be made of wood covered with zinc; and every boat shall have the name of the steam-boat to which it belongs, and the name of her port of registry, legibly painted on her bows and stern.

Sec. 5. Every such steam-boat shall be provided with sufficient means for lowering from on board safely and expeditiously the boats hereinbefore required to be on board of or attached to such steam-boat; and Masters of steam-boats shall detail their crews and exercise them in lowering and handling the said boats, and life-boats at least once a week, alternately.

Sec. 6. Every such boat shall be hung in separate davits, with lowering apparatus complete and ready for instant lowering; provided, that in any case where any such steam-boat carries two life-boats, one of the other boats may be carried on the hurricane deck without davits.

Sec. 7. No steamboat employed chiefly in the carriage of freight, when carrying not more than twenty-five passengers, shall be required to have on board or attached to such steam-boat more than two boats in addition to a life-boat.

Sec. 8. The Minister of Marine and Fisheries may authorize the use in individual, specified cases, of a greater or less number of boats, or of different dimensions from those hereinbefore specified, and upon such authorization being granted, it shall be sufficient for any such steam-boat to carry and be provided with boats of the dimensions specified in such authorization:

Sec. 9. Steam-boats confined to the navigation of the River St. John above Fredericton, the waters in the District of Muskoka, the County of Victoria, and the County of Peterborough, in the Province of Ontario, and the waters of the Ottawa river and its tributaries above the City of Ottawa, or of lakes or rivers not exceeding one mile in width at any point on the route of such steam-boat, and which are employed in the carriage of passengers, shall carry at least one good boat provided with four oars, and of sufficient capacity to carry not less than twelve persons besides the crew.

Sec. 10. Every steam-boat employed in the carriage of passengers, and used only in the navigation of rivers or inland waters, other than the rivers and inland waters hereinbefore provided for, shall, if such steam-boat exceeds one hundred and fifty tons registered tonnage, carry at least two good boats provided with four oars each, and of sufficient capacity to carry with safety at least twelve persons besides the crew; and if such steam-boat does not exceed one hundred and fifty tons and is not less than fifty tons registered tonnage, she shall not be required to carry more than one such boat; and if such steam-boat is less than fifty tons registered tonnage, she shall carry one good boat of the size and description, and provided in the manner approved of in each case by the Inspector.

Sec. 11. Every steam-boat not employed in the carriage of passengers, and every steam-boat to which the foregoing provisions of this section do not apply, shall at all times, when the crew thereof is on board, be provided with and have on board or attached to such steam-boat in some convenient place a good, suitable and sufficient boat, or good, suitable and sufficient boats, in good condition and properly equipped, and provided with oars in sufficient number and other necessary tackle, and of sufficient capacity to carry all the crew of such steam-boat, and with sufficient means for lowering such boat or boats from on board safely and expeditiously.

Sec. 12. The carrying capacity in the number of persons of boats shall be determined by multiplying the length of keel by the breadth outside, and by the depth from top of keel to bottom of rowlock in feet, and divide by 10, the quotient being the number of persons allowed to each boat.

Life-Rafts and Life-Buoys.

Sec. 13. Life-rafts must be approved by the Board of Steam-boat Inspection before the number of persons they may be allowed to carry can be determined, provided that not less than three cubic feet of strong serviceable inclosed air-tight compartments, constructed so that water cannot find its way into them, shall be the amount of air space to each person carried on the raft.

Sec. 14. Approved buoyant apparatus must not require to be inflated before use, shall be of approved construction and marked in such a way as to plainly indicate the number of adult persons it can carry.

The buoyancy of such apparatus for the number of persons to be carried may be ascertained by dividing the number of pounds of iron it is capable of supporting in fresh water by 32.

Sec. 15. An approved life-buoy may be built of solid cork capable of floating in the water for at least 24 hours with 32 pounds of iron suspended from it; or—

(*a.*) A strong life-buoy of any other approved pattern and material, provided that it is capable of floating in

the water for at least 24 hours with 32 pounds of iron suspended from it, and provided that it is not stuffed with rushes, cork shavings, or other shavings, or loose granulated cork or other loose material, and does not require inflation before use. There must not be a less number than two life-buoys on each passenger steamboat carrying by law two boats, with good line of suitable length attached to each buoy and kept at all times ready for instant use.

(*b.*) The air cases for life-rafts are not to exceed the length approved by the Board (four feet), with hooked, hammered and soldered joints, or riveted, and if made of iron to be galvanized, to be substantially enclosed with wood to be close-jointed.

The covering of the air cases in boats should be fastened with brass screws so they can be readily taken off to examine the air cases.

Collapsible boats may be used if approved by an Inspector, with the consent of the Chairman.

Sec. 16. No new pattern of or material in life-boats, life-rafts or life-buoys is to be passed unless approved by the Board of Steam-boat Inspection.

Life-Preservers.

Sec. 17. No steam-boat carrying passengers shall proceed to sea from any port or place in Canada, or depart from any port or place, or ply on any of the Lakes St. John, Memphremagog, Ontario, Erie, Huron, Georgian Bay, Simcoe, or Superior, or on the River St. Lawrence, or on the Rivers Ottawa or St. John, or on any lake or river in Manitoba, British Columbia, or the North-west Territories, or the District of Keewatin, which is, at any point on the route of such steamer, more than one mile broad, or shall navigate in a bay or arm of the sea in Canada, unless she is provided with and carries on board thereof on every such voyage,—

(*a.*) Two hundred life-preservers (life-belts), if such steam-boat is of the registered tonnage of two hundred tons and upwards; or (*b*) three life-preservers for every five tons, if such steam-boat is of less than two hundred tons registered tonnage.

Sec. 18. Every steam-boat carrying passengers on rivers or inland waters other than the lakes and rivers provided for in the next preceding section, if of the registered tonnage of two hundred tons and upwards, shall be provided with and shall carry on board thereof on every voyage, not less than one hundred life-preservers, and if of less than two hundred tons registered tonnage, such steam-boat shall be provided with and shall carry on board thereof on every voyage fifty life-preservers.

Sec. 19. Provided always, that the maximum number of such life-preservers required on any steam-boat shall not exceed two hundred; but in any steam-boat, as to which the boat capacity, and the number of life-preservers together, fall short of the number of passengers she is allowed to carry by her certificate of inspection, such deficiency shall be supplied by a number of wooden floats, each equal in buoyancy to one cubic foot of seasoned white pine, equal to the number of passengers and crew not provided for in the boats, together with the life-preservers.

Sec. 20. No steam-boat employed chiefly in the carriage of freight, when carrying not more than sixty passengers, shall be required to be provided with or carry on board on any voyage, more than one life-preserver for each passenger, and one life-preserver for each of the crew then on board of such steam-boat.

Sec. 21. Every steam-boat not employed in the carriage of passengers, and every steam-boat to which the preceding sections 17, 18, 19 and 20, do not apply, shall, at all times when the crew thereof is on board, be provided with a life-preserver for each one of the crew.

Sec. 22. Each of such life-preservers (life-belts) shall be capable of floating in fresh water for 24 hours with 15 pounds of iron suspended from it. It should be cut out 2 inches under the arm-pits, and fitted and secured so as to remain securely in its place when put on, with shoulder straps and waist belt, or by other means approved by the Inspector. When any other material than solid cork is use for buoyancy it must first be specially approved by the Board of Steam-boat Inspection, and the life-preservers (life-belts) shall at all times be kept in convenient and accessible places in the state rooms or on the deck of such steam-boat, under cover and in readiness for immediate use.

Sec. 23. A cork jacket with shoulder straps and waist lines for fastening the same around the body, or such other description of life-preserver as the Governor in Council may approve, shall be the form of life-preserver to be used on passenger steam-boats.

Passenger Barges, Towed.

Sec. 24. Any barge, boat, bateau, scow, or undecked vessel having passengers on board, towed by a tug. before being granted a certificate of inspection, must be equipped with a boat or boats, life-preservers, life-buoys, and life-rafts, or any or all of the equipment named herein in addition to the equipment named in section 9 of the Act of the Parliament of Canada, intituled: "An Act further to amend the Steam-boat Inspection Act," and assented to on the 10th May, 1892, to the satisfaction of the Steam-boat Inspector who inspects her, who shall require her to be equipped with suitable life-saving equipment for the waters on which she is to ply, as well as suitable private conveniences or closets for the use of passengers.

(*a.*) The boats and boat equipment required must not be less than specified in section 1 (*b.*) of these rules, and in order to have the capacity required to carry twelve adult persons with the crew, or seventeen persons in all, on 17 feet length of keel must be 5 feet beam, by 2 feet depth, the capacity being found by multiplying length, breadth and depth, and dividing by 10. 8–4

NOTICE TO MARINERS.

No. 33 of 1892.

CHANGE IN DESCRIPTION OF ENTRANCE ISLAND LIGHT.

The catoptric light hitherto shown from Entrance Island Lighthouse, Strait of Georgia, British Columbia, has been replaced by a fifth order dioptric fixed white light with a red sector.

Lat. N. 49° 12' 50"
Long. W. 123° 48' 45"

The light shows fixed white or bright from all points seaward, except through an arc of 7½ degrees, between the bearings of W. (N. 67° W. true) and W. by N. ⅓ N. (N. 59½° W. true), which is covered by a sector of red light shown over Gabriola Reef. On the last-named bearing, and from points to the southward of it, the light is obscured by Flat Top Islands and Gabriola Island. The red light is intended as a guide to vessels coming from the southward which, when near Gabriola Reef should not alter their course to the westward until the light changes from red to white. The light will change when bearing west, this bearing clearing Gabriola Reef Buoy, moored one cable north-east of Thrasher Rock, half a mile to the northward.

In all other respects the light and station will remain as heretofore.

This notice affects Admiralty charts Nos. 579 and 1917, and Canadian List of Lights and Fog Signals No. 506.

WM. SMITH,
Deputy Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 13th August, 1892.

☞ All bearings are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy Minister of Marine, Ottawa, Canada. 9-3

NOTICE TO MARINERS.

No. 34 of 1892.

CHANGE IN CAPE FOURCHU LIGHT.

Referring to Notice to Mariners No. 6 of 1892, notice is hereby given that the improvement in the illuminating apparatus of Cape Fourchu Lighthouse, in the County of Yarmouth, on the Bay of Fundy coast of Nova Scotia, has been completed, and the changed light will be put in operation for the first time on the night of the 20th instant.

Lat. N. 43° 47' 28"
Long. W. 66° 9' 20"

The light will in future be a revolving white light, showing three bright flashes with intervals of 20 seconds between their points of greatest brilliancy, followed by an interval of 40 seconds, during the greater part of which the light will be eclipsed; the light thus completing a revolution in 80 seconds.

The fixed white light temporarily maintained during the progress of the improvements will be discontinued from the time the revolving light is put in operation.

This notice affects Admiralty charts Nos. 352, 2537, 2538 and 2670 and Canadian List of Lights and Fog Signals No. 432.

TO ADVERTISERS IN THE *GAZETTE*.

PARTIES sending advertisements to be inserted in "The Canada Gazette," will please observe the following rules :

1st. Address "The Canada Gazette, Ottawa, Canada."
2nd. Indicate the number of insertions required.
3rd. Invariably remit the fees for such advertisements, together with the price of one Gazette, as below. Otherwise they will not be inserted. The rates are ten cts. for the first insertion, and five cents for each subsequent insertion per line of nine words, each figure counting as one word. No advertisement is inserted for a less charge than one dollar.

By settled or understood practice as prescribed by law, the rules of Parliament or decisions of the Department of Justice, notices receive the following insertions :—

Notices of applications for divorce—27 insertions.

Notices of the withdrawal of deposits of Insurance Companies—13 insertions.

Notices of ordinary applications to Parliament—9 insertions.

Notices of applications for Letters Patent—6 insertions.

Notices of dividends and meetings of Banks and Insurance Companies—1 calendar month, or 5 insertions.

Subscribers will also notice that the subscription, $4 per annum, is invariably payable in advance, and that the "Gazette" will be stopped from them at the end of the period paid for. Single numbers will be charged ten cts. each, and when more than one are required by advertisers, must be remitted for likewise.

APPLICATIONS TO PARLIAMENT.

Rules relating to Notices for Private Bills.

All applications for Private Bills, properly the subjects of legislation by the Parliament of Canada, within the purview of "The British North America Act, 1867," whether for the erection of a Bridge, the making of a Railroad, Turnpike Road or Telegraph Line ; the construction or improvement of a Harbour, Canal, Lock, Dam or Slide, or other like work ; the granting the right of Ferry ; the incorporation of any particular Trade or Calling, or of any Banking or other Joint Stock Company ; or otherwise for the granting to any individual or individuals, any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which, in its operation, would affect the rights or property of other parties, or relate to any particular class of the community ; or for making any amendment of a like nature to any former Act, shall require a Notice, clearly and distinctly specifying the nature and object of the application, and (except in the case of existing corporations) signed by, or on behalf of the applicants, to be published as follows, viz :

In the Provinces of Quebec and Manitoba.

A notice inserted in the *Canada Gazette*, in the English and French languages, and in one newspaper in the English, and in one in the French language in the District affected, or in both languages in one paper, if there be but one in the said District, or if there be no paper published therein, then, in both languages, in a paper in the nearest District in which a newspaper is published.

In any other Province or Territory.

A notice inserted in the *Canada Gazette*, and in one newspaper published in the County or District, or Union of Counties affected, or if there be no paper published therein, then in a newspaper in the nearest County or District in which a newspaper is published. Such Notices to be continued in each case, for a period of two months during the interval of time between the close of the next preceding Session and the consideration of the Petition. And copies of the newspapers containing the first and last insertion of such notice shall be sent to the Clerk of each House.

When a Petition is for leave to bring in a Private Bill for the erection of a Toll Bridge, the petitioner or petitioners, upon giving the notice prescribed by the preceding Rule, shall also, at the same time, and in the same manner, give notice of the rates which they intend to ask ; the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and whether they intend to erect a drawbridge, and the dimensions of the same.

Any person seeking to obtain any Private Bill shall, eight days before the meeting of Parliament, deposit with the Clerk of the House, in which the bill is to originate, a copy of such bill in the English or French language, with a sum sufficient to pay for translating and printing the same—600 copies to be printed in English, and 200 copies in French—the translation to be done by the officers of the House, and the printing by the contractor. The applicant shall be also required to pay the Clerk of the Senate, or the accountant of the House of Commons (as the case may be) a sum of $200 and the cost of printing the Act in the Statutes, and lodge the receipt of the same with the Clerk of the Committee to which such Bill is referred—such payment to be made immediately after the second reading, and before the consideration of the Bill by such Committee.

The fee payable on any Private Bill is paid only in the House in which it originates.

No Petition for a Private Bill is received by either House after the first ten days of the session.

EDOUARD J. LANGEVIN,
Clerk of the Senate.

JOHN GEORGE BOURINOT,
Clerk of the Commons.

Additional Rules of the House of Commons respecting Private Bills.

All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the *clauses* of the *General Acts* relating to the details to be provided for by such Bills ;—special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof, in which the *General Act* is proposed to be departed from ;—Bills which are not framed in accordance with this *Rule*, shall be re-cast by the promoters, and reprinted at their expense, before any Committee passes upon the *Clauses*.

51*a*. All Private Bills for Acts of incorporation of, or in amendment of Acts incorporating Railway Companies, shall be drawn in accordance with the Model Bill adopted by the House on 23rd June, 1887, copies of which may be obtained from the Clerk of the House.

(*a.*) The provisions contained in any Bill which are not in accord with the Model Bill, shall be inserted between brackets, and when revised by the proper officer shall be so printed, and bills which are not in accordance with this Rule shall be returned to the promoters to be re-cast before being revised and printed ;

(*b.*) Any sections of existing Acts which are proposed to be amended shall be re-printed in full with the amendments inserted in their proper places and between brackets ;

(*c.*) Any exceptional provisions that it may be proposed to insert in any Bill shall be clearly specified in the Notice of Application for the same.

51*b*. No Bill for the incorporation of a Railway Company, or for changing the route of the railway of any company already incorporated, shall be considered by the Railway Committee until there has been filed with the Committee, at least one week before the consideration of the Bill :—

(*a.*) A Map or Plan drawn upon a scale of not less than half an inch to the mile, showing the location upon which it is intended to construct the proposed work, and showing also the lines of existing or authorized works of a similar character within, or in any way affecting the district, or any part thereof, which the proposed work is intended to serve, and such map

or plan shall be signed by the Engineer or other person making the same ;

(b.) An exhibit showing the total amount of capital proposed to be raised for the purposes of the undertaking, and the manner in which it is proposed to raise the same, whether by ordinary shares, bonds, debentures, or other securities, and the amount of each, respectively.

JOHN GEORGE BOURINOT,
Clerk of the Commons.

—

SUBSTANCE OF RULES OF THE SENATE RELATING TO NOTICES AND APPLICATIONS FOR BILLS OF DIVORCE.

Every applicant for a Bill of Divorce shall give notice of his or her intended application, and shall specify therein from whom and for what cause such divorce is sought, and shall cause such notice to be published during six months before the presentation of his or her petition for the said Bill, in the CANADA GAZETTE and in two newspapers published in the District in Quebec, Manitoba, British Columbia or the North-West Territories, or in the County or Union of Counties in other Provinces, wherein such applicant usually resided at the time of the separation of the parties ; but if the requisite number of papers cannot be found therein, then in an adjoining District or County or Union of Counties. Notices given in the Provinces of Quebec and Manitoba are to be published in one English and one French newspaper, if there be such newspapers published in the District, but otherwise shall be published in each newspaper in both languages.

A copy of the said Notice shall, not less than one month before the date of the presentation of the Petition, at the instance of the applicant, be served personally on the person from whom the divorce is sought, when that can be done.

No petition for divorce shall be received after the first thirty days of each session.

The petition of an applicant for divorce must be fairly written and must be signed by the Petitioner, and should briefly set forth the marriage, when, where and by whom the ceremony was performed, the grounds on which relief is asked and the nature of the relief prayed, and should also negative condonation, collusion and connivance. The allegations of the petition must be verified by declaration of the Petitioner, under the "*Act respecting Extra-Judicial Oaths.*"

The applicant shall deposit with the Clerk of the Senate, eight days before the opening of Parliament, a copy, in the English or French language, of the proposed Bill of Divorce, and therewith a sum sufficient to pay for translating and printing 600 copies thereof in English and 200 copies in French.

No petition for a Bill of Divorce shall be presented unless the applicant has paid into the hands of the Clerk of the Senate the sum of two hundred dollars ($200).

The petition when presented shall be accompanied by the evidence of the publication of the notice, and by declaration in evidence of the service of a copy thereof, and by a copy of the proposed Bill.

EDOUARD J. LANGEVIN,
Clerk of the Senate.

A tous ceux qui les présentes verront ou qu'icelles pourront concerner,—SALUT :

PROCLAMATION.

ROBT. SEDGEWICK, Député du ministre de la Justice, Canada. } ATTENDU qu'en vertu des dispositions de l'Acte de tempérance du Canada, l'avis suivant a été adressé au Secrétaire d'Etat pour le Canada, accompagné de la pétition ci-jointe :—

"A l'honorable Secrétaire d'Etat du Canada,—

"MONSIEUR,—Nous, soussignés, électeurs du comté "de Northumberland, vous prions de prendre connais-"sance que nous désirons présenter la pétition ci-

"dessous à Son Excellence le Gouverneur général "du Canada en conseil :

"'La pétition des électeurs du comté de Northum-"'berland, dans la province du Nouveau-Brunswick, "'ayant qualité et capacité pour voter à l'élection "'d'un membre de la Chambre des Communes, dans "'le dit comté,—Expose respectueusement,—

"'Que vos pétitionnaires désirent que l'arrêté en "'conseil mettant en vigueur dans le dit comté la "'seconde partie de l'Acte de tempérance du Canada "'soit révoqué, et en conséquence vos pétitionnaires "'prient humblement qu'il plaise à Votre Excellence "'par un arrêté en conseil en vertu du neuvième article "'de "l'Acte à l'effet de modifier l'Acte de tempérance "'du Canada, 1888," de déclarer que le dit arrêté en "'conseil mettant en vigueur, dans le dit comté, telle "'seconde partie du dit "Acte de tempérance du "'Canada," ne sera plus en vigueur.

"'Et vos requérants ne cesseront de prier, etc.'

"Et que nous désirons que les votes de tous les "électeurs du dit comté soient enregistrés pour et "contre la révocation du dit arrêté en conseil."

Et attendu que la deuxième partie du dit Acte a été mise en vigueur dans le dit comté de Northumberland, dans la province du Nouveau-Brunswick, par un ordre en conseil du quatrième jour de novembre, dans l'année de Notre-Seigneur mil huit cent quatre-vingt ;

Et attendu qu'il appert à la satisfaction du Gouverneur général en conseil que cette pétition est revêtue des signatures authentiques d'un quart ou plus de tous les électeurs du dit comté de Northumberland, dans la province du Nouveau-Brunswick ; qu'il est constaté que les signatures apposées à la pétition sont des signatures authentiques au nombre de mille neuf cent vingt-un, et que les autres exigences de l'acte ont été observées ;

Et attendu qu'un ordre du Gouverneur général en conseil a été passé, ordonnant que les votes de tous les électeurs dit comté de Northumberland soient enregistrés pour ou contre l'adoption de la dite pétition,—

SACHEZ maintenant, que, par les présentes et en vertu de l'autorité qui Nous est conférée par le dit acte et le dit ordre en conseil, Nous proclamons et déclarons que jeudi, le vingt-neuvième jour de septembre prochain, un poll sera tenu dans le dit comté de Northumberland, pour y recevoir les votes des électeurs pour et contre la dite pétition. Que ces votes seront enregistrés au scrutin secret depuis neuf heures du matin jusqu'à cinq heures de l'après-midi de ce jour-là.

Que John Shirreff, de Newcastle, dans le dit comté, écuyer, shérif du dit comté de Northumberland, a été nommé officier-rapporteur dans le but de recevoir ce jour-là les votes des électeurs pour et contre la pétition, de compter ensuite les votes, et puis de faire rapport du résultat au Gouverneur général en conseil. Que le dit officier-rapporteur est autorisé et requis de nommer un sous-officier-rapporteur à et pour chaque bureau de votation. Que l'officier-rapporteur nommera les différentes personnes qui devront se tenir aux différents bureaux de votation, et qui devront faire le décompte final des votes, au nom des personnes autorisées à favoriser ou à s'opposer respectivement à l'adoption de la pétition, au bureau du Shérif, à Newcastle susdit, lundi, le vingt-sixième jour de septembre prochain, à dix heures de l'avant-midi. Que les votes des électeurs seront comptés, et le résultat de la votation annoncé par l'officier-rapporteur au bureau du Shérif à Newcastle susdit, lundi, le troisième jour d'octobre prochain, à dix heures de l'avant-midi.

Et, dans le cas d'adoption de la pétition par les électeurs, le Gouverneur général en conseil pourra, en tout temps après l'expiration d'une période de trente jours depuis la date de l'adoption de la dite pétition, et après l'expiration de trois années à compter du jour de l'entrée en vigueur de la deuxième partie du dit acte dans le dit comté de Northumberland, en vertu du dit ordre en conseil en date du quatrième jour de novembre mil huit cent quatre-vingt, par un ordre en conseil publié dans la *Gazette du Canada*, révoquer le dit ordre en conseil du quatrième jour de novembre mil huit cent quatre-vingt, par lequel la deuxième partie de l'Acte de tempérance du Canada devenait exécutoire dans le dit comté de Northumberland, tel que y mentionné.

De ce qui précède Nos féaux sujets et tous ceux que les présentes peuvent concerner, sont par les présentes requis d'en prendre avis et d'agir en conséquence.

EN FOI DE QUOI, Nous avons fait émettre nos présentes Lettres Patentes et à icelles fait apposer le Grand Sceau du Canada. TÉMOIN, Notre très fidèle et bien-aimé le Très-honorable Sir FREDERICK ARTHUR STANLEY, Baron Stanley de Preston, dans le comté de Lancaster, dans la Pairie du Royaume-Uni, Chevalier Grand-croix de Notre Très-honorable Ordre du Bain ; Gouverneur général du Canada.

ARRÊTÉS EN CONSEIL.

HOTEL DU GOUVERNEMENT A OTTAWA.

Mardi, le 16e jour d'août 1892.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu des pouvoirs qui lui sont conférés par l'article 2 de "l'Acte concernant la quarantaine," chap. 68 des Statuts Revisés du Canada, et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner, et il est par le présent ordonné, que la Belgique et l'Allemagne soient ajoutées à la liste des pays d'où il est défendu d'importer des guenilles au Canada.

JOHN J. McGEE,
9–4 Greffier du Conseil privé.

HOTEL DU GOUVERNEMENT A OTTAWA.

Mardi, le 2e jour d'août 1892.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT que le parlement du Canada, à sa dernière session, a passé un acte, 55-56 Victoria, chapitre 19, intitulé "Acte modifiant de nouveau l'Acte d'inspection des bateaux à vapeur," dans lequel il est entre autres choses statué, par les articles 4 et 5, que le Gouverneur en conseil pourra faire les règlements qu'il jugera à propos au sujet des canots, ceintures de sauvetage, et autres appareils de sauvetage que devront porter les bateaux à vapeur ou autres navires mentionnés au dit acte ;

Et considérant qu'il est en outre statué que le dit acte entrera en vigueur à compter d'une date désignée par proclamation du Gouverneur en conseil, et que Son Excellence le Gouverneur général en conseil, par une proclamation datée le 2e jour d'août 1892, a déclaré que le dit acte deviendrait exécutoire le quinzième jour d'août 1892,—

Il plaît à Son Excellence, en vertu des pouvoirs qui lui sont conférés par les articles 4 et 5 du susdit acte, et par et avec l'avis du Conseil privé de la Reine pour le Canada, de faire les règlements ci-dessous concernant les canots, ceintures et autres appareils de sauvetage que devront porter les bateaux à vapeur ou autres vaisseaux mentionnés dans le dit acte, ces dits règlements devenant exécutoires à compter du jour qui suivra le jour fixé par la susdite proclamation, comme celui auquel le dit acte 55-56 Victoria, chapitre 19, entrera en vigueur au Canada.

JOHN J. McGEE,
Greffier du Conseil privé.

RÈGLES ET RÈGLEMENTS concernant l'inspection des canots, bouées et autres appareils de sauvetage que devront porter les bateaux à vapeur ou autres vaisseaux sous l'empire de l'Acte d'inspection des bateaux à vapeur, et ses amendements.

Canots.

Art. 1. On observera les dispositions ci-jointes au sujet des canots que devront porter les bateaux à vapeur :—

(*a.*) Nul bateau à vapeur ayant des passagers à bord ne prendra la mer d'un port ou endroit en Canada, ou ne partira d'un port ou endroit, ou ne naviguera sur aucun des lacs Saint-Jean, Memphremagog, Ontario, Erié, Huron ou Baie Georgienne, Simcoe, ou Supérieur, ou sur le fleuve Saint-Laurent, ou sur les rivières Ottawa, ou Saint-Jean, ou sur aucun lac ou rivière dans le Manitoba, la Colombie-Britannique ou les Territoires du Nord-Ouest, ou le district de Kéwatin, qui aura plus d'un mille de largeur à un point quelconque sur la route de ce bateau à vapeur ;

(*b.*) Sans avoir à bord, ou attachés à ce bateau à vapeur, des canots solides bien équipés et en bonne condition, d'au moins dix-sept pieds de quille chacun, et munis de six rames et autres agrès nécessaires, et pouvant soutenir chacun au moins douze personnes adultes à part l'équipage du canot.

Ces canots seront dans la proportion suivante quant au tonnage de registre de ce bateau à vapeur, savoir :—

Au moins un canot pour chaque bateau à vapeur de moins de cinquante tonneaux ;

Au moins deux canots pour chaque bateau à vapeur de cinquante tonneaux et plus, mais de moins de (300) trois cents tonneaux ;

Au moins trois canots pour chaque bateau à vapeur de trois cents tonneaux et plus ; et

(*c.*) Si ce bateau à vapeur est du tonnage de registre de cent tonneaux ou plus de (300) trois cents tonneaux, sans qu'il ait à bord ou y attachés en sus des canots ci-dessus exigés,—

Un bon et solide canot de sauvetage capable de soutenir à l'intérieur trente personnes. Ce canot de sauvetage sera censé être d'une capacité suffisante s'il a les dimensions suivantes : Longueur de quille, vingt-deux pieds ; largeur du bau en dehors, cinq pieds six pouces ; profondeur depuis le dessus de la quille jusqu'au dessus du plat-bord, en bas des toletières ; deux pieds neuf pouces ; ou

Deux bons et solides canots de sauvetage, chacun capable de soutenir à l'intérieur vingt personnes. Ces canots de sauvetage seront censés d'une capacité suffisante s'ils ont les dimensions suivantes : Longueur de quille, dix-huit pieds, largeur à l'extérieur, cinq pieds deux pouces ; profondeur depuis le dessus de la quille jusqu'au dessus du plat-bord, deux pieds deux pouces ;

(*d.*) Si ce bateau à vapeur a un tonnage de registre de (300) trois cents tonneaux ou plus jusqu'à six cents tonneaux ou plus (alors que le nombre des canots de sauvetage pourra être augmenté à la satisfaction de l'inspecteur), sans qu'il ait à bord ou y attachés, en sus des canots exigés,—

Deux bons et solides canots de sauvetage capables de soutenir à l'intérieur trente personnes, ou quatre bons et solides canots de sauvetage chacun capable de soutenir à l'intérieur vingt personnes, et chacun de la grandeur décrite à (*c*) au moins.

Art. 2. Chaque canot de sauvetage sera fait de métal convenable d'une épaisseur égale au fil métallique n° 18, ou de bois sur le modèle des baleinières, avec une tonture d'environ $\frac{3}{4}$ de pouce par pied, s'élevant également depuis le milieu du canot jusqu'à l'avant et derrière. Il aura de bons compartiments imperméables à l'air aux bouts et aux côtés, faits de bois ou de métal ; ces compartiments auront une capacité en pieds cubes de un dixième de la capacité du canot. Cette capacité se trouve en multipliant la longueur et la largeur à l'extérieur, et la profondeur en dedans depuis le dessous des toletières ou dessus du plat-bord en pieds, et par ·6, le resultat égale les pieds cubes voulus dans les compartiments intérieurs et extérieurs, dont environ la moitié doit être à l'extérieur ; et en divisant par 10, donnera le nombre de personnes que le canot de sauvetage sera censé pouvoir porter. A l'extérieur on pourra employer du liége solide au lieu de compartiments imperméables à l'air ; 1·25 pied cube de liége étant considéré égal à 1 pied cube de compartiment à air ;

(*a.*) On ne doit pas employer de zinc dans la construction d'un canot de sauvetage ou de ses compartiments à air, lesquels doivent être d'un métal approuvé par le bureau d'inspection des bateaux à vapeur, ou par le président.

(*b.*) Les compartiments imperméables à l'air seront distribués de manière à donner au canot la légèreté et la solidité convenables. Il sera laissé au choix du propriétaire de placer les compartiments à air, soit sous les bancs, soit dans les bouts ou le long des côtés, pourvu qu'un canot de sauvetage efficace soit fourni à la satisfaction de l'inspecteur ;

(*c.*) Les espaces remplis ou contenant quelques matières ne seront pas censés être des espaces à air ;

(*d.*) Un bateau à poupe carrée ne sera pas considéré être un canot de sauvetage ;

(*e.*) Des cordes de sauvetage avec bouées seront convenablement attachées aux côtés ou plats-bords du canot de sauvetage.

Art. 3. Les canots de sauvetage seront munis d'un assortiment complet de rames, une pour chaque toletière, et deux rames de rechange, bien assujéties et prêtes à servir ;

(*a.*) Avec deux tampons pour chaque trou, attachés avec des aiguillettes ou des chaînes, et un jeu et demi de tolets attachés au canot par des aiguillettes et prêts à mettre en place ;

(*b.*) Avec une ancre du large, un gouvernail et un timon, et des cordes de gouvernail, une amarre assez longue pour atteindre des daviers au canot lorsqu'il est à l'eau, et le remorquer, une écope, une petite hache à chaque bout du canot, et une gaffe, aussi attachés au canot par une bonne aiguillette ;

(*c.*) Si le bateau à vapeur navigue en mer (sur l'eau salée) on devra garder à bord de chaque canot un vaisseau rempli d'eau douce (et un canot de sauvetage au moins doit être gréé d'un mât ou de mâts, et d'une voile ou de voiles et agrès), et d'une bonne boussole et un gallon d'huile animale ou végétale, et un vaisseau ou appareil d'un modèle approuvé pour la répandre sur l'eau dans le mauvais temps, et d'un fanal rempli d'huile capable de durer huit heures ;

(*d.*) On devra prendre des moyens pour détacher instantanément le canot de sauvetage des dernières poulies du davier. On ne tolèrera pas de crochet ordinaire dans la dernière poulie. Les daviers du bateau devront être assez forts et assez espacés pour pouvoir lancer le canot sans travail inutile, que les cales du canot puissent être enlevées facilement, et que le canot ne frappe pas le flanc du navire en descendant lorsque le navire n'a pas de bande, et que tous les agrès, daviers, palans, poulies, boulons à œillet et anneaux, etc., soient d'une force suffisante pour pouvoir descendre le canot avec son équipage au complet.

Art. 4. Chaque canot sera entretenu en bonne condition, étanche et prêt à servir immédiatement ; quand on se sert de bois pour chauffer les chaudières des bateaux à haute pression (non condenseurs) les abris de ces canots seront faits de bois recouvert de zinc ; et chaque canot aura le nom du bateau à vapeur auquel il appartient, ainsi que le nom de son port d'enregistrement distinctement peinturés à l'avant et à l'arrière.

Art. 5. Chaque tel bateau à vapeur sera muni de moyens suffisants pour descendre à l'eau sûrement et promptement les canots qui sont ci-dessus requis d'être à bord ou attachés à ce bateau à vapeur ; et les capitaines de bateaux à vapeur diviseront leurs équipages par escouades et les dresseront à descendre et manœuvrer les dits canots et canots de sauvetage au moins une fois par semaine, alternativement.

Art. 6. Chaque tel canot sera pendu à des daviers distincts, avec des agrès complets et prêts à le descendre sans délai ; pourvu que dans le cas où un tel bateau à vapeur porte deux canots de sauvetage, un des autres canots pourra être porté sur le pont supérieur sans daviers.

Art. 7. Nul bateau à vapeur employé principalement au transport du fret, lorsqu'il ne porte pas plus que vingt-cinq passagers, ne sera obligé d'avoir à bord ou attaché à ce bateau à vapeur que deux canots en sus d'un canot de sauvetage.

Art. 8. Le ministre de la Marine et des Pêcheries pourra autoriser l'usage dans certains cas particuliers, d'un nombre plus ou moins grand de canots, ou de dimensions différentes de ceux ci-dessus spécifiés ; et avec cette autorisation il suffira que tout tel bateau à vapeur porte et soit muni de canots des dimensions spécifiées dans telle autorisation.

Art. 9. Les bateaux à vapeur restreints à la navigation de la rivière Saint-Jean en amont de Frédéricton, les eaux du district de Muskoka, le comté de Victoria, et le comté de Peterborough dans la province d'Ontario, et les eaux de la rivière Ottawa et ses tributaires en amont de la cité d'Ottawa, ou des lacs ou rivières dont la largeur n'excèdera pas un mille à un point quelconque sur la route de ce bateau à vapeur, et qui sont employés au transport des passagers, portera au moins un bon canot muni de quatre rames, et assez grand pour pouvoir contenir au moins douze personnes, à part l'équipage.

Art. 10. Chaque bateau à vapeur employé au transport de passagers, et ne naviguant que sur des rivières ou eaux intérieures, autres que les rivières et eaux intérieures ci-dessus spécifiées, devra, si ce bateau à vapeur dépasse cent cinquante tonneaux de registre, porter au moins deux bons canots munis de quatre rames chacun, et d'une capacité suffisante pour pouvoir porter avec sûreté au moins douze personnes à part l'équipage ; et si ce bateau à vapeur ne dépasse pas cent cinquante tonneaux de registre et n'a pas moins que cinquante tonneaux de registre, il ne sera pas tenu de porter plus qu'un tel canot ; et si ce bateau à vapeur a moins que cinquante tonneaux de registre, il portera un bon canot, des grandeur et description, et gréé selon que l'approuvera l'inspecteur dans chaque cas.

Art. 11. Chaque bateau à vapeur non employé au transport des passagers, et chaque bateau à vapeur auquel les dispositions précédentes du présent article ne s'appliquent pas, devra en tout temps, lorsque son équipage est à bord, avoir à bord ou attaché à ce bateau à vapeur, dans quelque endroit propice, un bon canot solide, ou de bons canots solides, en bonne condition et convenablement équipés, et munis de rames en nombre suffisant et autres agrès nécessaires, et d'une capacité suffisante pour pouvoir porter tout l'équipage de ce bateau à vapeur, avec des moyens suffisants pour descendre ce canot ou ces canots sûrement et promptement.

Art. 12. Le nombre de personnes que ces canots pourront porter sera déterminé en multipliant la longueur de la quille par la largeur à l'extérieur, et par la profondeur depuis le dessus de la quille jusqu'au dessous des toletières en pieds, et divisant par 10, le quotient donnera le nombre de personnes que chaque canot pourra porter.

Radeaux et bouées de sauvetage.

Art. 13. Les radeaux de sauvetage doivent être approuvés par le bureau d'inspection des bateaux à vapeur avant de déterminer le nombre de personnes qu'ils pourront porter ; pourvu que trois pieds cubes au moins de forts et bons compartiments à air construits de façon que l'eau n'y puisse pénétrer seront le montant d'espace d'air alloué à chaque personne portée sur le radeau.

Art. 14. Pour qu'un appareil flottant soit approuvé il ne faut pas qu'il soit nécessaire de le gonfler avant de s'en servir ; il devra être de construction approuvée, et marqué de façon à indiquer distinctement le nombre de personnes adultes qu'il peut porter.

La légèreté de cet appareil, en proportion du nombre de personnes à porter, peut être déterminée en divisant par 32 le nombre de livres de fer qu'il peut supporter dans l'eau douce.

Art. 15. Une bouée de sauvetage approuvée sera faite de liège solide capable de flotter sur l'eau pendant au moins 24 heures, avec 32 livres de fer y attachées ; ou—

(*a.*) Une forte bouée de sauvetage de tout autre modèle et de matériaux approuvés, pourvu qu'elle soit capable de flotter sur l'eau pendant au moins 24 heures avec 32 livres de fer y attachées, et pourvu qu'elle ne soit pas bourrée d'ajoncs, de râpures de liège ou autres planures, ou de liège granulé ou autre matière libre, et n'ait pas besoin d'être gonflée avant de servir. Chaque bateau à passagers que la loi oblige à porter deux canots, devra avoir au moins deux bouées de sauvetage, avec une bonne corde de longueur suffisante attachée à chaque bouée, et tenues toujours prêtes à servir à tout instant.

(*b.*) Les boîtes à air pour les radeaux de sauvetage ne doivent pas excéder la longueur approuvée par le bureau (quatre pieds), avec joints agrafés, martelés et soudés, ou rivés, et si elles sont en fer, ce fer sera galvanisé ; elles seront solidement entourées de bois à joints bien clos.

La couverture des boîtes à air dans les canots doivent être assujéties au moyen de vis de cuivre, de façon à pouvoir être facilement enlevée pour examiner les boîtes à air.

Des canots qui s'emboîtent pourront être employés s'ils sont approuvés par un inspecteur, avec le consentement du président.

Art. 16. Nul nouveau modèle ou matière pour les canots, radeaux ou bouées de sauvetage ne sera passé avant d'être approuvé par le bureau d'inspection des bateaux à vapeur.

Ceintures de sauvetage.

Art. 17. Nul bateau à vapeur transportant des passagers ne prendra la mer d'un port ou endroit en

Canada, ou ne partira d'un port ou endroit, ou ne naviguera sur aucun des lacs Saint-Jean, Memphrémagog, Ontario, Erié, Huron ou Baie Georgienne, Simcoe ou Supérieur, ou sur le fleuve Saint-Laurent, ou sur les rivières Ottawa, ou Saint-Jean, ou sur aucun lac ou rivière dans le Manitoba, la Colombie-Britannique ou les Territoires du Nord-Ouest, ou le district de Kéwatin, qui aura plus d'un mille de largeur à un point quelconque sur le route de ce bateau à vapeur ; ni ne naviguera dans une baie ou bras de mer en Canada, sans avoir à bord à chaque voyage,—

(*a.*) Deux cents ceintures de sauvetage, si ce bateau est de deux cents tonneaux et plus de registre ; ou (*b*) trois ceintures de sauvetage par chaque cinq tonneaux, si ce bateau a moins que deux cents tonneaux de registre.

Art. 18. Chaque bateau à vapeur transportant des passagers sur des rivières et eaux intérieures autres que les lacs et rivières spécifiés dans l'article immédiatement précédent, s'il a deux cents tonneaux et plus de registre, devra avoir à bord à chaque voyage, pas moins que cent ceintures de sauvetage, et s'il a moins que deux cents tonneaux de registre, ce bateau portera à bord à chaque voyage cinquante ceintures de sauvetage.

Art. 19. Pourvu toujours que le nombre maximum de ces ceintures de sauvetage que chaque bateau à vapeur est tenu d'avoir à bord, n'excèdera pas deux cents ; mais si un bateau à vapeur n'a pas le nombre de canots et de ceintures de sauvetage proportionné au nombre de passagers que son certificat d'inspection lui permet de porter, on suppléera à ce déficit au moyen de flotteurs en bois, équivalant chacun en légèreté à un pied cube de pin blanc séché, égal au nombre de passagers et de l'équipage pour lesquels il n'y a pas de canots ni de ceintures de sauvetage.

Art. 20. Nul bateau à vapeur employé principalement au transport du fret, lorsqu'il transportera pas plus que soixante passagers, ne sera tenu d'avoir à bord, dans un voyage, plus d'une ceinture de sauvetage pour chaque passager, et une ceinture de sauvetage pour chacun de l'équipage alors à bord de tel bateau.

Art. 21. Chaque bateau à vapeur non employé au transport de passagers, et chaque bateau à vapeur auquel les articles 17, 18, 19 et 20 ne s'appliquent pas, devra avoir, en tous temps lorsque l'équipage est à bord, une ceinture de sauvetage pour chacun de l'équipage.

Art. 22. Chacune de ces ceintures de sauvetage sera capable de flotter dans l'eau douce pendant 24 heures, avec 15 livres de fer y attachées. Elles seront échancrées de 2 pouces sous les aisselles, et ajustées et assujéties de façon à ne pas se déranger une fois mises, avec bretelles et ceinturon, ou autres moyens approuvés par l'inspecteur. Si d'autre matière que du liège solide est employée pour faire flotter, elle sera d'abord approuvée spécialement par le bureau d'inspection des bateaux à vapeur, et les ceintures de sauvetage seront en tous temps gardées dans un endroit accessible et à la main dans les cabines ou sur le pont du bateau, bien abritées et prêtes à servir à tout instant.

Art. 23. Un gilet de liége avec bretelles et ceinturons pour le fixer autour du corps, ou toute autre espèce de ceinture de sauvetage que le Gouverneur général en conseil pourra approuver, sera la forme de ceinture de sauvetage à employer sur les bateaux à passagers.

Barges à passagers à la remorque.

Art. 24. Avant qu'une barge, chaloupe, bateau, chalan ou vaisseau non ponté ayant des passagers à bord, toué par un remorqueur, reçoive un certificat d'inspection, il devra être muni d'un canot ou de canots, de ceintures, bouées et radeaux de sauvetage, ou de tous et chacun des équipements mentionnés au présent, en sus de l'équipement mentionné à l'article 9 de l'acte du parlement du Canada, intitulé " Acte modifiant de nouveau l'Acte d'inspection des bateaux à vapeur," et sanctionné le 10e jour de mai 1892, à la satisfaction de l'inspecteur des bateaux à vapeur qui l'inspecte, qui exigera qu'il soit équipé d'un appareil convenable pour sauver la vie pour les eaux sur lesquelles il navigue, ainsi que les commodités convenables pour l'usage des passagers ;

(*a.*) Les canots et équipements exigés devront être tel que spécifié dans l'article 1 (*b.*) des présents règlements, et afin qu'ils aient la capacité voulue pour porter douze personnes adultes avec l'équipage, ou dix-sept personnes en tout, ils devront avoir 17 pieds de quille et 5 pieds de bau sur 2 pieds de profondeur, cette capacité étant déterminée en multipliant longueur, largeur et profondeur, et divisant par 10.

HOTEL DU GOUVERNEMENT À OTTAWA.

Mardi, le 26e jour de juillet 1892.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

VU que la maladie du choléra est répandue en France, que cette maladie peut se propager par les chiffons ou hardes, et qu'il convient de suspendre jusqu'à nouvel ordre l'importation de chiffons de la France,—

Il plaît à Son Excellence, par et avec l'avis du Conseil privé pour le Canada, d'ordonner et déclarer que l'importation de chiffons de la France soit et elle est par le présent défendue.

7-4 Greffier du Conseil privé.

HOTEL DU GOUVERNEMENT À OTTAWA.

Mardi, le 26e jour de juillet 1892.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu des pouvoirs qui lui sont conférés par l'article 234 de "l'Acte du revenu de l'intérieur" (tel qu'amendé par l'acte 52 Vic., chap. 15, article 9), et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner comme suit :—

1. Chaque fois que dans une fabrique en entrepôt il est employé de l'alcool pour manufacturer des spiritueux parfumés, cet alcool ne sera soumis, à sa sortie de l'entrepôt pour être employé dans telle fabrique, qu'à un droit de soixante-quinze centins par gallon de preuve.

2. L'emploi de cet alcool et la manufacture de ces spiritueux parfumés seront sous le contrôle des règlements que le ministère du Revenu de l'Intérieur prescrira ; toutefois, ces règlements pourvoiront à ce que le coût réel de la production de ces spiritueux parfumés, dans la manufacture desquels entre de l'alcool au taux ci-dessus, ne soit pas moindre que le prix de vente de l'alcool qui a payé le plein droit.

AUX ANNONCEURS DANS LA *GAZETTE*.

CEUX qui envoient des annonces pour être insérées dans la *Gazette du Canada* voudront bien se conformer aux règles ci-dessous :

1. Adresser "Gazette du Canada, Ottawa, Canada."
2. Indiquer le nombre d'insertions voulues.
3. Transmettre invariablement le prix de l'annonce ainsi que le prix d'un exemplaire de la *Gazette*, tels que donnés plus bas ; sans cela l'annonce ne sera pas publiée.

Les prix sont de dix cts. pour la première insertion, et cinq cts. pour chaque insertion subséquente par ligne de neuf mots, chaque chiffre comptant pour un mot. Aucune annonce n'est insérée pour moins d'une piastre.

D'après la pratique établie et reconnue, telle que prescrite par la loi, les règlements du parlement et les décisions du ministre de la Justice, les avis reçoivent le nombre d'insertions ci-dessous :—

Les avis de demandes de divorce—27 insertions.

Les avis de retrait de dépôts des compagnies d'assurance—13 insertions.

Les avis de demandes ordinaires au parlement—9 insertions.

Les avis de demandes de lettres patentes—6 insertions.

Les avis de dividendes et d'assemblées de banques et de compagnies d'assurances,—1 mois de calendrier ou 5 insertions.

Les abonnés observeront aussi que le prix d'abonnement, $4 par année, est invariablement payable d'avance, et que l'envoi de la *Gazette* sera arrêté à l'expiration de la période payée. Chaque exemplaire coûte dix cts., et quand les annonceurs en veulent plus qu'un, ils devront faire une remise en conséquence.

DEMANDES AU PARLEMENT.

Règles relatives aux avis de bills privés.

Dans le cas de toute demande de bill privé, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, et ayant pour objet, soit la construction d'un pont, d'un chemin de fer, d'un chemin à barrières ou d'une ligne télégraphique ; soit la construction ou l'amélioration d'un port, d'un canal, d'une écluse, d'une digue ou d'une glissoire ou autre ouvrage semblable ; soit la concession d'un droit de passage d'eau, l'incorporation de professions ou métiers, ou d'une compagnie de banque ou autre compagnie par actions, soit la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, soit le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement de même nature à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande, et signé (excepté s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part, est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Un avis doit être inséré dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Un avis doit être inséré dans la *Gazette du Canada*, et et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie.

La publication de ces avis durera, dans chaque cas la période de deux mois pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Un exemplaire des numéros des journaux, reproduisant la première et la dernière insertion de l'avis, devra être transmis au greffier de chaque Chambre.

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, le pétitionnaire ou les pétitionnaires devront, en même temps qu'ils donneront l'avis prescrit par la règle précédente, donner aussi, de la même manière, avis des péages qu'ils entendent exiger, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piliers pour le passage des radeaux et des navires ; et mentionner de plus s'ils se proposent de construire un pont mobile, et quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Il en sera imprimé 600 exemplaires en anglais et 200 en français ; la traduction devra être faite par les officiers de la Chambre, et l'impression par l'entrepreneur des impressions. Le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) une somme de $200, plus le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé—le dit paiement sera effectué immédiatement après la seconde lecture, et avant la prise en considération du bill par le comité.

L'honoraire payable sur tout bill privé, ne sera payé que dans la Chambre où il a pris naissance.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par l'une ou par l'autre Chambre après les dix premiers jours de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.
JOHN GEORGE BOURINOT,
Greffier des Communes.

—

Règles additionnelles de la Chambre des Communes concernant les bills privés.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle adopté par la Chambre, le 23 juin 1887, dont copie peut être obtenue du greffier de la Chambre ;

(*a*.) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression ;

(*b*.) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets ;

(*c*.) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le tracé du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer

à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(a.) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés, dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière ; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait ;

(b.) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

JOHN GEORGE BOURINOT,
Greffier des Communes.

SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré, durant six mois, entre l'expiration de la dernière session parlementaire avant l'avis et la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district ; autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire, faite en vertu de "l'Acte concernant les serments extrajudiciaires."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition en obtention d'un bill de divorce n'est présentée que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $200.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.

EDOUARD J. LANGEVIN,

VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, &c., &c., &c.

To all to whom these presents shall come, or whom the same may in anywise concern,—Greeting :

A PROCLAMATION.

ROBT. SEDGEWICK, Deputy of the Minister of Justice, Canada. } WHEREAS in pursuance of the provisions of the Canada Temperance Act, the following notice has been addressed to the Secretary of State for Canada, embodying the petition therein set forth :

" To the Honourable the Secretary of State of " Canada,—

" Sir,—We, the undersigned electors of the County " of Northumberland, request you to take notice that

" we propose presenting the following petition to His " Excellency the Governor General of Canada in " Council :

" ' The petition of the electors of the County of " ' Northumberland, in the Province of New Brunswick, " ' qualified and competent to vote at the election of " ' a member of the House of Commons, in the said " ' County,

" ' Respectfully shews, that your petitioners are " ' desirous that the Order in Council passed for " ' bringing into force within the said County, the " ' second part of "The Canada Temperance Act," " ' should be revoked, wherefore, your petitioners " ' humbly pray that Your Excellency will be pleased " ' by an Order in Council under section nine of "The " ' Canada Temperance Amendment Act, 1888," to " ' declare that the said Order in Council which brought " ' into force and effect the said second part of the said " ' "The Canada Temperance Act," in the said County, " ' shall no longer be in force.

" ' And your petitioners will ever pray, &c.'

"And that we desire that the votes of the electors " of the said County be taken for and against the " revocation of the said Order in Council."

AND WHEREAS the second part of the said Act was brought into force in the said County of Northumberland, in the Province of New Brunswick, by an Order in Council dated the fourth day of November, in the year of Our Lord one thousand eight hundred and eighty :

AND WHEREAS it appears by evidence to the satisfaction of the Governor General in Council that such petition has appended to it the genuine signatures of one-fourth or more of all the electors of the said County of Northumberland, in the Province of New Brunswick, the number of the signatures to the petition proved to be genuine being nineteen hundred and twenty-one, and that the other requirements of the law have been observed ;

AND WHEREAS an Order of the Governor General in Council has been passed directing that the votes of all the electors of the said County of Northumberland be taken for and against the adoption of the said petition,—

NOW KNOW YE, that We do hereby, and by virtue of the authority vested in Us by the said Act and Order in Council, proclaim and declare, that on Thursday, the twenty-ninth day of September next, a poll will be held in the said County of Northumberland for taking the votes of the electors for and against the said petition ; That such votes will be taken between the hours of nine o'clock in the forenoon and five o'clock in the afternoon of that day and by ballot ; That John Shirreff, of Newcastle, in the said County, Esquire, Sheriff of the said County of Northumberland, has been appointed Returning Officer for the purpose of taking on that day the votes of the electors for and against the petition, and of afterwards summing up the same and making a return of the result to the Governor General in Council ; That the said Returning Officer is empowered and required to appoint a Deputy Returning Officer at and for each polling place or station ; That the Returning Officer will appoint persons to attend at the various polling stations and at the final summing up of votes, on behalf of the persons interested in and promoting or opposing, respectively, the adoption of the petition, at the office of the Sheriff, in Newcastle aforesaid, on Monday, the twenty-sixth day of September next, at ten of the clock in the forenoon. That the votes of the electors will be summed up and the result of the polling declared by the Returning Officer at the office of the Sheriff, in Newcastle aforesaid, on Monday, the third day of October next, at ten of the clock in the forenoon.

And in the event of the petition being adopted by the electors, the Governor General in Council may, at any time after the expiration of thirty days from the day on which the same was adopted, and after the expiration of three years from the day of the coming into force of the second part of the said Act in the said County of Northumberland, under the said Order in Council dated the fourth day of November, one thousand eight hundred and eighty, by Order in Council published in the *Canada Gazette*, revoke the said Order in Council of the fourth day of November, one thousand eight hundred and eighty, by which the second part of "The Canada Temperance Act" was brought into force in the said County, as therein mentioned.

Of all which Our loving subjects and all others whom these presents may concern, are hereby required to take notice and to govern themselves accordingly.

IN TESTIMONY WHEREOF, We have caused these Our Letters to be made Patent, and the Great Seal of Canada to be hereunto affixed. WITNESS, Our Right Trusty and Well-Beloved the Right Honourable Sir FREDERICK ARTHUR STANLEY, Baron Stanley of Preston, in the County of Lancaster, in the Peerage of the United Kingdom ; Knight Grand Cross of Our Most Honourable Order of the Bath ; Governor General of Canada.

At Our Government House, in Our CITY of OTTAWA, this SIXTEENTH day of AUGUST, in the year of Our Lord one thousand eight hundred and ninety-two, and in the Fifty-sixth year of Our Reign.

By Command,

J. C. PATTERSON,
9-3 Secretary of State.

STANLEY OF PRESTON.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Friday, the 19th day of August, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada, has this day been pleased to approve of the following Resolution passed by the Board of Trade at Halifax, abolishing the payment of fees on all shipments of grain in bags, not in connection with grain in bulk, shipped with other general cargo :—

Resolved, "That the Port Wardens' fees on all ship-"ments of grain in bags, not in connection with grain "in bulk shipped with other general cargo from "Halifax, either in steamers or sailing vessels, be "abolished."

JOHN J. McGEE,
10–4 Clerk, Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Saturday, the 20th day of August, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, in virtue of the provisions of the "Bounty Act of 1891," 54-55 Victoria, chapter 42, and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the following regulations governing the payment of fishing bounties, be approved :—

REGULATIONS governing the payment of fishing bounties, as provided by section 6 of the Bounty Act of 1891, 54-55 Victoria, chapter 42.

1. Fishermen who have been engaged in deep sea fishing, for fish other than shell-fish, salmon and shad, or fish taken in rivers or mouths of rivers, for at least three months, and have caught not less than 2,500 pounds of sea-fish, shall be entitled to a bounty, provided always that no bounty shall be paid to men fishing in boats measuring less than 13 feet keel, and not more than three men (the owner included) will be allowed as claimants in boats under twenty feet.

2. Only one claim will be allowed in one season, even though the claimant may have fished in two vessels, or in a vessel and a boat, or in two boats.

3. The owners of boats measuring not less than thirteen feet keel, which have been engaged during a period of not less than three months in deep-sea fishing for fish other than shell-fish, salmon or shad, or fish taken in rivers or mouths of rivers, shall be entitled to a bounty on each such boat.

4. Canadian registered vessels of 10 tons and upwards (up to 80 tons) which have been *exclusively* engaged during a period of not less than *three months* in the catch of sea-fish other than shell-fish, salmon or shad, or fish taken in rivers or mouths of rivers, shall be entitled to a bounty to be calculated on the registered tonnage, one half of which bounty shall be payable to the owner or owners, and the other half to the crew, except in cases where one or more of the crew shall have failed to comply with the regulations, then such share or shares shall not be paid.

5. Owners or masters of vessels intending to fish and claim bounty on their vessels, must, before proceeding on a fishing voyage procure a license from the nearest Collector of customs, or Fishery Overseer, said license to be attached to the claim when sent in for payment.

6. Dates and localities of fishing must be stated in the claim, as well as the quantity and kinds of sea-fish caught.

7. Ages of men must be given. Boys under 14 years of age are not eligible as claimants.

8. Claims must be sworn to as true and correct in all their particulars.

9. Claims must be filed on or before the 30th November in each year.

10. Officers authorized to receive claims will supply the requisite blanks, free of charge, and after certifying the same will transmit them to the Department of Marine and Fisheries.

11. No claim in which an error has been made by the claimant or claimants shall be amended after it has been signed and sworn to as correct.

12. Any person or persons detected in making returns that are false or fraudulent in any particular, will be debarred from any future participation in the bounty, and be prosecuted according to the utmost rigour of the law.

13. The amount of the bounty to be paid to fishermen and owners of boats and vessels will be fixed from time to time by the Governor in Council.

JOHN J. McGEE,
10–4 Clerk, Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 16th day of August, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada, and in virtue of the powers conferred on him by chapter 78 of the Revised Statutes, intituled "An Act respecting the Inspection of Steam-boats, and the examination and licensing of Engineers employed on them," and the amendments thereto, is pleased to approve of the following amendments to the Regulations with respect to the Inspection of Boilers and Compasses of Steam-boats, and the new regulations relating to the Inspection of Steam-boat Shafts, and the testing of new engines of passenger steam-boats, which have been passed by the Board of Steam-boat Inspectors.

—

AMENDMENTS TO THE RULES RELATING TO THE INSPECTION OF BOILERS OF STEAM-BOATS.

Boilers.

1. Sec. 40, part I, and sec. 74, part II, are hereby amended by adding ten per cent to the result of the formula (*b*) :—

$$\frac{90{,}000 \times T^2}{(L + I) \times D} = \text{Working pressure, where}$$

T = Thickness of plate in inches.
D = Diameter of flue outside in inches.
L = Length of flue or furnace in feet, or the length between the rings in feet, if it is strengthened by suitable rings or Adamson joints.

2. Sec. 36 (*r*) and sec. 41 (*a*), part I, and sec. 75 (*a*), part II, are hereby amended by using 14,000 instead of 12,500 in the formula :

$$\frac{12{,}500 \times \text{thickness in inches}}{\text{Mean diameter in inches}} = \text{Working pressure per square inch.}$$

3. Sec. 30, part I, and sec. 68, part II, are hereby amended by adding thereto as follows :—

"When a superheater is constructed with a tube "subject to external pressure, the working pressure "should be ascertained by the rules given for circular "iron furnaces, but the constants should be reduced "as thirty is to forty-seven :

"If steel is proposed to be used in superheaters, the "particulars should be submitted to the Board of "Steam-boat Inspection or to the Chairman, if the "board is not sitting, for consideration, but in all "cases it should be discouraged for this purpose ; this "applies to the unshielded uptakes of all boilers, "including ordinary vertical donkey boilers."

AMENDMENT TO THE RULES RELATING TO THE INSPECTION OF COMPASSES ON BOARD STEAM-BOATS.

Compasses.

Sec. 22, part VII, is hereby amended, by substituting for the word "Inspector" in the fifth line, the words "competent person," and adding thereto the words "of inspection," after the word "certificate" in the last line.

—

RULES RELATING TO THE INSPECTION OF STEAM-BOAT SHAFTS.

Shafts.

4. Main, tunnel, propeller and paddle shafts should not be passed if less in diameter than that found by the following formulæ, without previously submitting the case to the Chairman of the Board of Steam-boat Inspection.

For compound condensing engines with two or more cylinders, when the cranks are not overhung :—

$$S = \sqrt[3]{\frac{C \times P \times D^2}{f\left(2 + \frac{D^2}{d^2}\right)}}$$

$$P = \frac{f \times S^3}{C \times D^2}\left(2 + \frac{D^2}{d^2}\right)$$

Where S = diameter of shaft in inches.

Where d^2 = square of diameter of high pressure cylinder in inches or sum of squares of diameters, when there are two or more high pressure cylinders.

Where D^2 = square of diameter of low pressure cylinder in inches or sum of squares of diameters, when there are two or more low pressure cylinders.

Where P = absolute pressure in lbs. per square inch, that is boiler pressure *plus* 15 lbs.

Where C = length of crank in inches.

Where f = constant from following table.

NOTE.—Intermediate pressure cylinder do not appear in the formulæ.

For ordinary condensing engines, with one, two, or more cylinders, when the cranks are not overhung :—

$$S = \sqrt[3]{\frac{C \times P \times D^2}{3 \times f}}$$

$$P = \frac{3 \times f \times S^3}{C \times D^2}$$

Where S = Diameter of shaft in inches.
D^2 = Square of diameter of cylinder in inches, or sum of squares of diameters when there are two or more cylinders.
P = Absolute pressure in lbs. per square inch, that is boiler pressure *plus* 15 lbs.
C = Length of crank in inches.
f = Constant from following table :—

RULES RELATING TO THE TESTING OF NEW ENGINES ON PASSENGER STEAM-BOATS.

In the case of new engines on passenger steam-boats, Inspectors should see them tested while under way, with full steam, in order to assure as far as possible that no flaws in the several parts of the engine have escaped the examination made by the Inspector, as provided by section 15 of the Act 49 Vict., chap. 78.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 2nd day of August, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS the Parliament of Canada at the last Session thereof passed an Act, 55-56 Victoria, chapter 19, intituled "An Act to further amend the Steam-boat Inspection Act" in which it was amongst other things enacted, by the 4th and 5th sections thereof, that the Governor General in Council may make such rules as are deemed advisable with respect

to boats, life-preservers, and other life-saving appliances to be carried by steam-boats or by other vessels mentioned in the said Act;

And whereas it was further enacted that the said Act shall come into force on and after a day to be proclaimed by Proclamation of the Governor in Council, and His Excellency the Governor General in Council, by a Proclamation dated the 2nd day of August, 1892, has declared that the said Act shall be brought into and be in force on the fifteenth day of August, 1892,—

His Excellency, under the authority conferred upon him by the 4th and 5th sections of the above cited Act, and by and with the advice of the Queen's Privy Council for Canada, is pleased to make the following Regulations with respect to boats, life-preservers and other life-saving appliances to be carried by steamboats or other vessels mentioned in the said Act, such Regulations to be in force and take effect on and after the day succeeding the day fixed by the aforesaid Proclamation as the day upon which the said Act 55-56 Victoria, chapter 19, shall come into force in Canada.

JOHN J. McGEE,
Clerk, Privy Council.

—

RULES AND REGULATIONS respecting the inspection of boats, life-preservers and other life-saving appliances, to be carried on steam-boats or other vessels, under the authority of the Steam-boat Inspection Act and amendments thereto.

Boats.

Sec. 1. The following provisions shall be observed with respect to boats to be carried on steam-boats :—

(*a.*) No steam-boat with passengers on board shall proceed to sea from any port or place in Canada, or depart from any port or place, or ply on any of the Lakes St. John, Memphremagog, Ontario, Erie, Huron or Georgian Bay, Simcoe, or Superior, or on the River St. Lawrence, or on the Rivers Ottawa or St. John, or any lake or river in Manitoba, British Columbia, or the North-west Territories, or the District of Keewatin, which is, at any point on the route of such steam-boat, more than one mile broad.

(*b.*) Unless there are on board thereof, or attached to such steam-boat, good, suitable, sufficient and properly equipped boats in good condition, each having not less than seventeen feet length of keel, and at least six oars and other necessary tackle, and sufficient capacity to carry not less than twelve adult persons, exclusive of the crew of such boat.

Which boats shall be in the following proportion to the registered tonnage of such steam-boat, that is to say :—

At least one boat for every steam-boat of less than fifty tons;

At least two boats for every steam-boat of fifty tons and upwards, but less than (300) three hundred tons;

At least three boats for every steam-boat of three hundred tons and upwards; and

(*c.*) If such steam-boat is of the registered tonnage of one hundred tons or upwards to (300) three hundred tons, unless, in addition to the boats hereinbefore required, there is on board thereof or attached thereto,—

One good and sufficient life-boat capable of sustaining inside thirty persons, which life-boat may be considered of sufficient capacity if made of the following dimensions: Length of keel, twenty-two feet; breadth of beam outside, five feet six inches; depth from top of keel to top of gunwale at bottom of rowlock, two feet nine inches; or

Two good and sufficient life-boats, each capable of sustaining inside twenty persons, which life-boats may be considered of sufficient capacity if made of the following dimensions: Length of keel, eighteen feet; breadth outside, five feet two inches; depth from top of keel to top of gunwale, two feet two inches.

(*d.*) If such steam-boat is of the registered tonnage of (300) three hundred tons or upwards to six hundred tons or upwards (when the life-boats may be increased to the satisfaction of the Inspector), unless in addition to the boats hereinbefore required there is on board or attached thereto;—

Two good and sufficient life-boats, capable of each sustaining inside thirty persons, or four good and sufficient life-boats capable of each sustaining inside twenty persons, each to be at least of the dimensions described in (*c*).

Sec. 2. Every life-boat shall be made of suitable metal, in thickness not less than No. 18 wire gauge, or of wood, and built whale-boat fashion, with a sheer of about ¾ inch to 1 foot length from midships, rising equally to the stem and stern, with sufficient air-tight compartments in the ends and sides made of suitable metal or of wood, and so constructed as to be air-tight and serviceable, the air-tight compartments to have a capacity in cubic feet of one-tenth the capacity of the life-boat, which is found by multiplying the length and breadth outside and the depth inside from bottom of rowlocks or top of gunwale in feet, and by ·6, the result equals the cubic feet required in the inside and outside compartments, about one-half of which should be on the outside; and dividing by 10, gives the number of persons the life-boat shall be deemed fit to carry. Solid cork may be used instead of air-tight compartments on the outside, 1·25 cubic feet of cork being considered equal to 1 cubic foot of air case.

(*a.*) Zinc shall not be used in the construction of a life-boat or of her air-tight compartments, which must be of a metal approved by the Board of Steam-boat Inspection, or by the Chairman.

(*b.*) The air-tight compartments must be so distributed as to give the boat good buoyancy and stability; whether a part of the air-tight buoyancy apparatus should be under the thwarts, or whether it should be in the ends and along the sides, will be, so long as an efficient life-boat is obtained, left to the option of the maker or owner, but the Inspector must be satisfied that the life-boat is efficient.

(*c.*) Spaces filled with or containing any material are not to be deemed air spaces.

(*d.*) A square stern boat is not to be passed as a life-boat.

(*e.*) Suitable life lines with sustaining buoys shall be securely attached to the sides or gunwales of the life-boats.

Sec. 3. The life-boats must be provided with the full complement of oars, one for each rowlock, and two spare oars, all securely lashed inside ready for use.

(*a.*) With two plugs for each plug hole, attached with lanyards or chains, and one and one half sets of thole pins or crutches attached to the boat by lanyards and ready to slip in place.

(*b.*) With a sea anchor, a rudder and tiller, or yoke and yoke lines, a painter of sufficient length to reach from the davits to the boat when in the water and to tow her, a bailer, a hatchet in each end of boat, and a boat-hook each attached to the boat with a good sound lanyard.

(*c.*) If the steam-boat is plying at sea (on salt water) a vessel must be kept in each boat filled with fresh water, (and at least one life-boat must be fitted with a mast or masts, and sail or sails and proper gear for each), and an efficient compass and one gallon of vegetable or animal oil, and a vessel or apparatus of approved pattern for distributing it on the water in rough weather, and with a lantern trimmed with oil in its receiver sufficient to burn eight hours.

(*d.*) Means for detaching quickly the life-boat from the lower blocks of the davits must be provided, an ordinary fixed hook in the lower block should not be allowed, the boat's davits must be strong enough and so spaced that the boat can be swung out readily, so that the boat's chocks can be readily removed, and that the boat will not foul the ship's sides in lowering when the ship has no list, and that the whole of the tackling, davits, falls, blocks, eye bolts, and apparatus are of sufficient strength to lower the boat with its full complement of crew and apparatus on board.

Sec. 4. Every boat shall be kept in good condition, water tight and ready for immediate use; when wood is used as fuel for heating the boilers of high pressure (non condensing) steam-boats, the covers of such boats shall be made of wood covered with zinc; and every boat shall have the name of the steam-boat to which it belongs, and the name of her port of registry, legibly painted on her bows and stern.

Sec. 5. Every such steam-boat shall be provided with sufficient means for lowering from on board safely and expeditiously the boats hereinbefore required to be on board of or attached to such steam-boat ; and Masters of steam-boats shall detail their crews and exercise them in lowering and handling the said boats, and life-boats at least once a week, alternately.

Sec. 6. Every such boat shall be hung in separate davits, with lowering apparatus complete and ready for instant lowering ; provided, that in any case where any such steam-boat carries two life-boats, one of the other boats may be carried on the hurricane deck without davits.

Sec. 7. No steamboat employed chiefly in the carriage of freight, when carrying not more than twenty-five passengers, shall be required to have on board or attached to such steam-boat more than two boats in addition to a life-boat.

Sec. 8. The Minister of Marine and Fisheries may authorize the use in individual, specified cases, of a greater or less number of boats, or of different dimensions from those hereinbefore specified, and upon such authorization being granted, it shall be sufficient for any such steam-boat to carry and be provided with boats of the dimensions specified in such authorization :

Sec. 9. Steam-boats confined to the navigation of the River St. John above Fredericton, the waters in the District of Muskoka, the County of Victoria, and the County of Peterborough, in the Province of Ontario, and the waters of the Ottawa river and its tributaries above the City of Ottawa, or of lakes or rivers not exceeding one mile in width at any point on the route of such steam-boat, and which are employed in the carriage of passengers, shall carry at least one good boat provided with four oars, and of sufficient capacity to carry not less than twelve persons besides the crew.

Sec. 10. Every steam-boat employed in the carriage of passengers, and used only in the navigation of rivers or inland waters, other than the rivers and inland waters hereinbefore provided for, shall, if such steam-boat exceeds one hundred and fifty tons registered tonnage carry at least two good boats provided with four oars each, and of sufficient capacity to carry with safety at least twelve persons besides the crew ; and if such steam-boat does not exceed one hundred and fifty tons and is not less than fifty tons registered tonnage, she shall not be required to carry more than one such boat ; and if such steam-boat is less than fifty tons registered tonnage, she shall carry one good boat of the size and description, and provided in the manner approved of in each case by the Inspector.

Sec. 11. Every steam-boat not employed in the carriage of passengers, and every steam-boat to which the foregoing provisions of this section do not apply, shall at all times, when the crew thereof is on board, be provided with and have on board or attached to such steam-boat in some convenient place a good, suitable and sufficient boat, or good, suitable and sufficient boats, in good condition and properly equipped, and provided with oars in sufficient number and other necessary tackle, and of sufficient capacity to carry all the crew of such steam-boat, and with sufficient mean for lowering such boat or boats from on board safely and expeditiously.

Sec. 12. The carrying capacity in the number of persons of boats shall be determined by multiplying the length of keel by the breadth outside, and by the depth from top of keel to bottom of rowlock in feet, and divide by 10, the quotient being the number of persons allowed to each boat.

Life-Rafts and Life-Buoys.

Sec. 13. Life-rafts must be approved by the Board of Steam-boat Inspection before the number of persons they may be allowed to carry can be determined, provided that not less than three cubic feet of strong serviceable inclosed air-tight compartments, constructed so that water cannot find its way into them, shall be the amount of air space to each person carried on the raft.

Sec. 14. Approved buoyant apparatus must not require to be inflated before use, shall be of approved construction and marked in such a way as to plainly indicate the number of adult persons it can carry.

The buoyancy of such apparatus for the number of persons to be carried may be ascertained by dividing the number of pounds of iron it is capable of supporting in fresh water by 32.

Sec. 15. An approved life-buoy may be built of solid cork capable of floating in the water for at least 24 hours with 32 pounds of iron suspended from it ; or—

(*a.*) A strong life-buoy of any other approved pattern and material, provided that it is capable of floating in the water for at least 24 hours with 32 pounds of iron suspended from it, and provided that it is not stuffed with rushes, cork shavings, or other shavings, or loose granulated cork or other loose material, and does not require inflation before use. There must not be a less number than two life-buoys on each passenger steamboat carrying by-law two boats, with good line of suitable length attached to each buoy and kept at all times ready for instant use.

(*b.*) The air cases for life-rafts are not to exceed the length approved by the Board (four feet), with hooked, hammered and soldered joints, or riveted, and if made of iron to be galvanized, to be substantially enclosed with wood to be close-jointed.

The covering of the air cases in boats should be fastened with brass screws so they can be readily taken off to examine the air cases.

Collapsible boats may be used if approved by an Inspector, with the consent of the Chairman.

Sec. 16. No new pattern of or material in life-boats, life-rafts or life-buoys is to be passed unless approved by the Board of Steam-boat Inspection.

Life-Preservers.

Sec. 17. No steam-boat carrying passengers shall proceed to sea from any port or place in Canada, or depart from any port or place, or ply on any of the Lakes St. John, Memphremagog, Ontario, Erie, Huron, Georgian Bay, Simcoe, or Superior, or on the River St. Lawrence, or on the Rivers Ottawa or St. John, or on any lake or river in Manitoba, British Columbia, or the North-west Territories, or the District of Keewatin, which is, at any point on the route of such steamer, more than one mile broad, or shall navigate in a bay or arm of the sea in Canada, unless she is provided with and carries on board thereof on every such voyage,—

(*a.*) Two hundred life-preservers (life-belts), if such steam-boat is of the registered tonnage of two hundred tons and upwards ; or (*b*) three life-preservers for every five tons, if such steam-boat is of less than two hundred tons registered tonnage.

Sec. 18. Every steam-boat carrying passengers on rivers or inland waters other than the lakes and rivers provided for in the next preceding section, if of the registered tonnage of two hundred tons and upwards, shall be provided with and shall carry on board thereof on every voyage, not less than one hundred life-preservers, and if of less than two hundred tons registered tonnage, such steam-boat shall be provided with and shall carry on board thereof on every voyage fifty life-preservers.

Sec. 19. Provided always, that the maximum number of such life-preservers required on any steam-boat shall not exceed two hundred ; but in any steam-boat, as to which the boat capacity, and the number of life-preservers together, fall short of the number of passengers she is allowed to carry by her certificate of inspection, such deficiency shall be supplied by a number of wooden floats, each equal in buoyancy to one cubic foot of seasoned white pine, equal to the number of passengers and crew not provided for in the boats, together with the life-preservers.

Sec. 20. No steam-boat employed chiefly in the carriage of freight, when carrying not more than sixty passengers, shall be required to be provided with or carry on board on any voyage, more than one life-preserver for each passenger, and one life-preserver for each of the crew then on board of such steam-boat.

Sec. 21. Every steam-boat not employed in the carriage of passengers, and every steam-boat to which the preceding sections 17, 18, 19 and 20, do not apply, shall, at all times when the crew thereof is on board, be provided with a life-preserver for each one of the crew.

Sec. 22. Each of such life-preservers (life-belts) shall be capable of floating in fresh water for 24 hou

with 15 pounds of iron suspended from it. It should be cut out 2 inches under the arm-pits, and fitted and secured so as to remain securely in its place when put on, with shoulder straps and waist belt, or by other means approved by the Inspector. When any other material than solid cork is use for buoyancy it must first be specially approved by the Board of Steam-boat Inspection, and the life-preservers (life-belts) shall at all times be kept in convenient and accessible places in the state rooms or on the deck of such steam-boat, under cover and in readiness for immediate use.

Sec. 23. A cork jacket with shoulder straps and waist lines for fastening the same around the body, or such other description of life-preserver as the Governor in Council may approve, shall be the form of life-preserver to be used on passenger steam-boats.

Passenger Barges, Towed.

Sec. 24. Any barge, boat, bateau, scow, or undecked vessel having passengers on board, towed by a tug. before being granted a certificate of inspection, must be equipped with a boat or boats, life-preservers, life-buoys, and life-rafts, or any or all of the equipment named herein in addition to the equipment named in section 9 of the Act of the Parliament of Canada, intituled: "An Act further to amend the Steam-boat Inspection Act," and assented to on the 10th May, 1892, to the satisfaction of the Steam-boat Inspector who inspects her, who shall require her to be equipped with suitable life-saving equipment for the waters on which she is to ply, as well as suitable private conveniences or closets for the use of passengers.

(*a.*) The boats and boat equipment required must not be less than specified in section 1 (*b.*) of these rules, and in order to have the capacity required to carry twelve adult persons with the crew, or seventeen persons in all, on 17 feet length of keel must be 5 feet beam, by 2 feet depth, the capacity being found by multiplying length, breadth and depth, and dividing by 10. 8-4

NOTICE TO MARINERS.

No. 33 of 1892.

CHANGE IN DESCRIPTION OF ENTRANCE ISLAND LIGHT.

The catoptric light hitherto shown from Entrance Island Lighthouse, Strait of Georgia, British Columbia, has been replaced by a fifth order dioptric fixed white light with a red sector.

Lat. N. 49° 12' 50"
Long. W. 123° 48' 45"

The light shows fixed white or bright from all points seaward, except through an arc of 7½ degrees, between the bearings of W. (N. 67° W. true) and W. by N. ⅓ N. (N. 59½° W. true), which is covered by a sector of red light shown over Gabriola Reef. On the last-named bearing, and from points to the southward of it, the light is obscured by Flat Top Islands and Gabriola Island. The red light is intended as a guide to vessels coming from the southward which, when near Gabriola Reef should not alter their course to the westward until the light changes from red to white. The light will change when bearing west, this bearing clearing Gabriola Reef Buoy, moored one cable north-east of Thrasher Rock, half a mile to the northward.

In all other respects the light and station will remain as heretofore.

This notice affects Admiralty charts Nos. 579 and 1917, and Canadian List of Lights and Fog Signals No. 506.

WM. SMITH,
Deputy Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 13th August, 1892.

☞ All bearings are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy Minister of Marine, Ottawa, Canada. 9–3

NOTICE TO MARINERS.

No. 34 of 1892.

CHANGE IN CAPE FOURCHU LIGHT.

Referring to Notice to Mariners No. 6 of 1892, notice is hereby given that the improvement in the illuminating apparatus of Cape Fourchu Lighthouse, in the County of Yarmouth, on the Bay of Fundy coast of Nova Scotia, has been completed, and the changed light will be put in operation for the first time on the night of the 20th instant.

Lat. N. 43° 47' 28"
Long. W. 66° 9' 20"

The light will in future be a revolving white light, showing three bright flashes with intervals of 20 seconds between their points of greatest brilliancy, followed by an interval of 40 seconds, during the greater part of which the light will be eclipsed ; the light thus completing a revolution in 80 seconds.

The fixed white light temporarily maintained during the progress of the improvements will be discontinued from the time the revolving light is put in operation.

This notice affects Admiralty charts Nos. 352, 2537, 2538 and 2670 and Canadian List of Lights and Fog Signals No. 432.

WM. SMITH,
Deputy Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 18th August, 1892.

☞ All bearings are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy Minister of Marine, Ottawa, Canada. 9–3

TO ADVERTISERS IN THE *GAZETTE*.

PARTIES sending advertisements to be inserted in "The Canada Gazette," will please observe the following rules :

1st. Address "The Canada Gazette, Ottawa, Canada."
2nd. Indicate the number of insertions required.
3rd. Invariably remit the fees for such advertisements, together with the price of one Gazette, as below. Otherwise they will not be inserted. The rates are ten cts. for the first insertion, and five cents for each subsequent insertion per line of nine words, each figure counting as one word. No advertisement is inserted for a less charge than one dollar.

By settled or understood practice as prescribed by law, the rules of Parliament or decisions of the Department of Justice, notices receive the following insertions :—

Notices of applications for divorce—27 insertions.

Notices of the withdrawal of deposits of Insurance Companies—13 insertions.

Notices of ordinary applications to Parliament—9 insertions.

Notices of applications for Letters Patent—6 insertions.

Notices of dividends and meetings of Banks and Insurance Companies—1 calendar month, or 5 insertions.

Subscribers will also notice that the subscription, $4 per annum, is invariably payable in advance, and that the "Gazette" will be stopped from them at the end of the period paid for. Single numbers will be charged ten cts. each, and when more than one are required by advertisers, must be remitted for likewise.

APPLICATIONS TO PARLIAMENT.

Rules relating to Notices for Private Bills.

All applications for Private Bills, properly the subjects of legislation by the Parliament of Canada, within the purview of "The British North America Act, 1867," whether for the erection of a Bridge, the making of a Railroad, Turnpike Road or Telegraph Line ; the construction or improvement of a Harbour, Canal, Lock, Dam or Slide, or other like work ; the granting the right of Ferry ; the incorporation of any particular Trade or Calling, or of any Banking or other Joint Stock Company ; or otherwise for the granting to any individual or individuals, any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which, in its operation, would affect the rights or property of other parties, or relate to any particular class of the community ; or for making any amendment of a like nature to any former Act, shall require a Notice, clearly and distinctly specifying the nature and object of the application, and (except in the case of existing corporations) signed by, or on behalf of the applicants, to be published as follows, viz :

In the Provinces of Quebec and Manitoba.

A notice inserted in the *Canada Gazette*, in the English and French languages, and in one newspaper in the English, and in one in the French language in the District affected, or in both languages in one paper, if there be but one in the said District, or if there be no paper published therein, then, in both languages, in a paper in the nearest District in which a newspaper is published.

In any other Province or Territory.

A notice inserted in the *Canada Gazette*, and in one newspaper published in the County or District, or Union of Counties affected, or if there be no paper published therein, then in a newspaper in the nearest County or District in which a newspaper is published. Such Notices to be continued in each case, for a period of two months during the interval of time between the close of the next preceding Session and the consideration of the Petition. And copies of the newspapers containing the first and last insertion of such notice shall be sent to the Clerk of each House.

When a Petition is for leave to bring in a Private Bill for the erection of a Toll Bridge, the petitioner or petitioners, upon giving the notice prescribed by the preceding Rule, shall also, at the same time, and in the same manner, give notice of the rates which they intend to ask ; the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and whether they intend to erect a drawbridge, and the dimensions of the same.

Any person seeking to obtain any Private Bill shall, eight days before the meeting of Parliament, deposit with the Clerk of the House, in which the bill is to originate, a copy of such bill in the English or French language, with a sum sufficient to pay for translating and printing the same—600 copies to be printed in English, and 200 copies in French—the translation to be done by the officers of the House, and the printing by the contractor. The applicant shall be also required to pay the Clerk of the Senate, or the accountant of the House of Commons (as the case may be) a sum of $200 and the cost of printing the Act in the Statutes, and lodge the receipt of the same with the Clerk of the Committee to which such Bill is referred—such payment to be made immediately after the second reading, and before the consideration of the Bill by such Committee.

The fee payable on any Private Bill is paid only in the House in which it originates.

No Petition for a Private Bill is received by either House after the first ten days of the session.

EDOUARD J. LANGEVIN,
Clerk of the Senate.

JOHN GEORGE BOURINOT,
Clerk of the Commons.

Additional Rules of the House of Commons respecting Private Bills.

All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the *clauses* of the *General Acts* relating to the details to be provided for by such Bills ;—special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof, in which the *General Act* is proposed to be departed from ;—Bills which are not framed in accordance with this *Rule*, shall be re-cast by the promoters, and reprinted at their expense, before any Committee passes upon the *Clauses*.

51*a*. All Private Bills for Acts of incorporation of, or in amendment of Acts incorporating Railway Companies, shall be drawn in accordance with the Model Bill adopted by the House on 23rd June, 1887, copies of which may be obtained from the Clerk of the House.

(a.) The provisions contained in any Bill which are not in accord with the Model Bill, shall be inserted between brackets, and when revised by the proper officer shall be so printed, and bills which are not in accordance with this Rule shall be returned to the promoters to be re-cast before being revised and printed ;

(b.) Any sections of existing Acts which are proposed to be amended shall be re-printed in full with the amendments inserted in their proper places and between brackets ;

(c.) Any exceptional provisions that it may be proposed to insert in any Bill shall be clearly specified in the Notice of Application for the same.

51*b*. No Bill for the incorporation of a Railway Company, or for changing the route of the railway of any company already incorporated, shall be considered by the Railway Committee until there has been filed with the Committee, at least one week before the consideration of the Bill :—

(a.) A Map or Plan drawn upon a scale of not less than half an inch to the mile, showing the location upon which it is intended to construct the proposed work, and showing also the lines of existing or authorized works of a similar character within, or in any way affecting the district, or any part thereof, which the proposed work is intended to serve, and such map

or plan shall be signed by the Engineer or other person making the same ;

(b.) An exhibit showing the total amount of capital proposed to be raised for the purposes of the undertaking, and the manner in which it is proposed to raise the same, whether by ordinary shares, bonds, debentures, or other securities, and the amount of each, respectively.

JOHN GEORGE BOURINOT,
Clerk of the Commons.

SUBSTANCE OF RULES OF THE SENATE RELATING TO NOTICES AND APPLICATIONS FOR BILLS OF DIVORCE.

Every applicant for a Bill of Divorce shall give notice of his or her intended application, and shall specify therein from whom and for what cause such divorce is sought, and shall cause such notice to be published during six months before the presentation of his or her petition for the said Bill, in the CANADA GAZETTE and in two newspapers published in the District in Quebec, Manitoba, British Columbia or the North-West Territories, or in the County or Union of Counties in other Provinces, wherein such applicant usually resided at the time of the separation of the parties ; but if the requisite number of papers cannot be found therein, then in an adjoining District or County or Union of Counties. Notices given in the Provinces of Quebec and Manitoba are to be published in one English and one French newspaper, if there be such newspapers published in the District, but otherwise shall be published in each newspaper in both languages.

A copy of the said Notice shall, not less than one month before the date of the presentation of the Petition, at the instance of the applicant, be served personally on the person from whom the divorce is sought, when that can be done.

No petition for divorce shall be received after the first thirty days of each session.

The petition of an applicant for divorce must be fairly written and must be signed by the Petitioner, and should briefly set forth the marriage, when, where and by whom the ceremony was performed, the grounds on which relief is asked and the nature of the relief prayed, and should also negative condonation, collusion and connivance. The allegations of the petition must be verified by declaration of the Petitioner, under the "*Act respecting Extra-Judicial Oaths.*"

The applicant shall deposit with the Clerk of the Senate, eight days before the opening of Parliament, a copy, in the English or French language, of the proposed Bill of Divorce, and therewith a sum sufficient to pay for translating and printing 600 copies thereof in English and 200 copies in French.

No petition for a Bill of Divorce shall be presented unless the applicant has paid into the hands of the Clerk of the Senate the sum of two hundred dollars ($200).

The petition when presented shall be accompanied by the evidence of the publication of the notice, and by declaration in evidence of the service of a copy thereof, and by a copy of the proposed Bill.

EDOUARD J. LANGEVIN,
Clerk of the Senate.

NOTICE is hereby given that application will be made to the Parliament of Canada, for an Act to incorporate a company for the purpose of constructing, equipping, maintaining and operating a line of railway to run from a point at or near Penticton at the foot of Okanagan Lake, in the Province of British Columbia, to some point at or near the Narrows of Lake Osooyos in said Province, with power to construct, equip, maintain and operate branch lines, and also to construct and operate telegraph and telephone lines in connection with the said railway, together with the usual powers to acquire lands, privileges, bonuses or aids from the Dominion or Provincial Governments and to make traffic and other arrangements with railway, steamboat and other companies, and for all other usual and necessary powers, rights and privileges.

DAVIS & MARSHALL,

ROBT. SEDGEWICK, Député du ministre de la Justice, Canada. } ATTENDU qu'en vertu des dispositions de l'Acte de tempérance du Canada, l'avis suivant a été adressé au Secrétaire d'Etat pour le Canada, accompagné de la pétition ci-jointe :—

"A l'honorable Secrétaire d'Etat du Canada,—

"MONSIEUR,—Nous, soussignés, électeurs du comté "de Northumberland, vous prions de prendre connais- "sance que nous désirons présenter la pétition ci- „dessous à Son Excellence le Gouverneur général „du Canada en conseil :

"'La pétition des électeurs du comté de Northum- "'berland, dans la province du Nouveau-Brunswick, "'ayant qualité et capacité pour voter à l'élection "'d'un membre de la Chambre des Communes, dans "'le dit comté,—Expose respectueusement,—

"'Que vos pétitionnaires désirent que l'arrêté en "'conseil mettant en vigueur dans le dit comté la "'seconde partie de l'Acte de tempérance du Canada "'soit révoqué, et en conséquence vos pétitionnaires "'prient humblement qu'il plaise à Votre Excellence "'par un arrêté en conseil en vertu du neuvième article "'de "l'Acte à l'effet de modifier l'Acte de tempérance "'du Canada, 1888," de déclarer que le dit arrêté en "'conseil mettant en vigueur, dans le dit comté, telle "'seconde partie du dit "Acte de tempérance du "'Canada," ne sera plus en vigueur.

"'Et vos requérants ne cesseront de prier, etc.'

"Et que nous désirons que les votes de tous les "électeurs du dit comté soient enregistrés pour et "contre la révocation du dit arrêté en conseil."

Et attendu que la deuxième partie du dit Acte a été mise en vigueur dans le dit comté de Northumberland, dans la province du Nouveau-Brunswick, par un ordre en conseil du quatrième jour de novembre, dans l'année de Notre-Seigneur mil huit cent quatre-vingt ;

Et attendu qu'il appert à la satisfaction du Gouverneur général en conseil que cette pétition est revêtue des signatures authentiques d'un quart ou plus de tous les électeurs du dit comté de Northumberland, dans la province du Nouveau-Brunswick ; qu'il est constaté que les signatures apposées à la pétition sont des signatures authentiques au nombre de mille neuf cent vingt-un, et que les autres exigences de l'acte ont été observées ;

Et attendu qu'un ordre du Gouverneur général en conseil a été passé, ordonnant que les votes de tous les électeurs dit comté de Northumberland soient enregistrés pour ou contre l'adoption de la dite pétition,—

SACHEZ maintenant, que, par les présentes et en vertu de l'autorité qui Nous est conférée par le dit acte et le dit ordre en conseil, Nous proclamons et déclarons que jeudi, le vingt-neuvième jour de septembre prochain, un poll sera tenu dans le dit comté de Northumberland, pour y recevoir les votes des électeurs pour et contre la dite pétition. Que ces votes seront enregistrés au scrutin secret depuis neuf heures du matin jusqu'à cinq heures de l'après-midi de ce jour-là.

Que John Shirreff, de Newcastle, dans le dit comté, écuyer, shérif du dit comté de Northumberland, a été nommé officier-rapporteur dans le but de recevoir ce jour-là les votes des électeurs pour et contre la pétition, de compter ensuite les votes, et puis de faire rapport du résultat au Gouverneur général en conseil. Que le dit officier-rapporteur est autorisé et requis de nommer un sous-officier-rapporteur à et pour chaque bureau de votation. Que l'officier-rapporteur nommera les différentes personnes qui devront se tenir aux différents bureaux de votation, et qui devront faire le décompte final des votes, au nom des personnes autorisées à favoriser ou à s'opposer respectivement à l'adoption de la pétition, au bureau du Shérif, à Newcastle susdit, lundi, le vingt-sixième jour de septembre prochain, à dix heures de l'avant-midi. Que les votes des électeurs seront comptés, et le résultat de la votation annoncé par l'officier-rapporteur au bureau du Shérif à Newcastle susdit, lundi, le troisième jour d'octobre prochain, à dix heures de l'avant-midi.

Et, dans le cas d'adoption de la pétition par les électeurs, le Gouverneur général en conseil pourra, en tout temps après l'expiration d'une période de trente jours depuis la date de l'adoption de la dite pétition, et après l'expiration de trois années à compter du jour de l'entrée en vigueur de la deuxième partie du dit acte dans le dit comté de Northumberland, en vertu du dit ordre en conseil en date du quatrième jour de novembre mil huit cent quatre-vingt, par un ordre en conseil publié dans la *Gazette du Canada*, révoquer le dit ordre en conseil du quatrième jour de novembre mil huit cent quatre-vingt, par lequel la deuxième partie de l'Acte de tempérance du Canada devenait exécutoire dans le dit comté de Northumberland, tel que y mentionné.

De ce qui précède Nos féaux sujets et tous ceux que les présentes peuvent concerner, sont par les présentes requis d'en prendre avis et d'agir en conséquence.

EN FOI DE QUOI, Nous avons fait émettre nos présentes Lettres Patentes et à icelles fait apposer le Grand Sceau du Canada. TÉMOIN, Notre très fidèle et bien-aimé le Très-honorable Sir FREDERICK ARTHUR STANLEY, Baron Stanley de Preston, dans le comté de Lancaster, dans la Pairie du Royaume-Uni, Chevalier Grand-croix de Notre Très-honorable Ordre du Bain ; Gouverneur général du Canada.

A Notre Hôtel du Gouvernement, en Notre CITÉ d'OTTAWA, ce SEIZIÈME jour d'AOUT, dans l'année de Notre-Seigneur, mil huit cent quatre-vingt-douze, et de Notre Règne la cinquante-sixième.

Par ordre,

CANADA.

VICTORIA, par la Grâce de Dieu, Reine du Royaume-Uni de la Grande-Bretagne et d'Irlande, défenseur de la foi, etc., etc., etc.

A tous ceux qui les présentes verront ou qu'icelles pourront concerner,—SALUT :

PROCLAMATION.

ROBT. SEDGEWICK, Député du ministre de la Justice, Canada. } ATTENDU que par un acte fait et passé par le parlement du Canada dans la cinquante-cinquième année de Notre règne, chapitre

dix-neuvième, et intitulé " Acte modifiant de nouveau l'Acte d'inspection des bateaux à vapeur " il est entre autres choses établi que le dit acte deviendra exécutoire le jour désigné par une proclamation du Gouverneur en conseil ;

ET ATTENDU qu'il est expédient que tel acte devienne exécutoire au Canada le et après le quinzième jour d'août, en l'année de Notre-Seigneur mil huit cent quatre-vingt-douze,—

SACHEZ MAINTENANT que, par et de l'avis de Notre Conseil privé pour le Canada, Nous déclarons par cette présente proclamation que le dit acte passé par le parlement du Canada, pendant la cinquante-cinquième année de Notre règne, chapitre dix-neuvième, et intitulé " Acte modifiant de nouveau l'Acte " d'inspection des bateaux à vapeur " deviendra exécutoire au Canada le et après le quinzième jour d'août, en l'année de Notre-Seigneur mil huit cent quatre-vingt-douze.

De ce qui précède, Nos féaux sujets et tous ceux que les présentes peuvent concerner, sont par les présentes requis d'en prendre avis et d'agir en conséquence.

EN FOI DE QUOI, Nous avons fait émettre Nos présentes Lettres Patentes, et à icelles fait apposer le Grand Sceau du Canada. TÉMOIN, Notre très-fidèle et bien-aimé le Très-honorable Sir FREDERICK ARTHUR STANLEY, Baron Stanley de Preston, dans le comté de Lancaster, dans la Pairie du Royaume-Uni, Chevalier Grand-croix de Notre Très-honorable Ordre du Bain ; Gouverneur général du Canada.

A Notre Hôtel du Gouvernement, en Notre CITÉ d'OTTAWA, ce DEUXIÈME jour d'AOUT, dans l'année de Notre-Seigneur mil huit cent quatre-vingt-douze, et de Notre Règne la cinquante-sixième.

Par ordre,

J. C. PATTERSON,
Secrétaire d'Etat.

ARRÊTÉS EN CONSEIL.

HOTEL DU GOUVERNEMENT À OTTAWA.

Samedi, le 20e jour d'août 1892.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu des dispositions de "l'Acte des primes de pêche de 1891," 54-55 Victoria, chapitre 42, et par et de l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que les règlements suivants concernant le paiement des primes de pêche, soient approuvés :—

RÈGLEMENTS concernant le paiement des primes de pêche, tel que pourvu par la section 6 de l'Acte des primes de pêche de 1891, 54-55 Victoria, chapitre 42.

1. Les pêcheurs qui ont été employés à faire la pêche en eau profonde pour d'autres poissons que le homard, le saumon et l'alose ou le poisson qui se prend dans, ou à l'embouchure des rivières, pendant au moins trois mois et qui n'ont pas pris moins de 2,500 livres de poisson de mer, auront droit à une prime, pourvu toujours que nulle prime ne sera payée à ceux qui feront la pêche dans des bateaux mesurant moins de 13 pieds de quille, et le nombre des réclamants est limité à trois (y inclus le propriétaire, pour les bateaux au-dessous de 20 pieds.

2. Aucun pêcheur ne pourra réclamer plus d'une fois par saison, soit qu'il ait pêché dans deux vaisseaux, ou dans un vaisseau et un bateau de pêche ou dans deux bateaux.

3. Les propriétaires de vaisseaux de pas moins de 13 pieds de quille, qui ont été employés pendant au moins trois mois à la pêche en eau profonde pour d'autres poissons que le homard, le saumon ou l'alose ou le poisson qui se prend dans ou à l'embouchure des rivières, auront droit à une prime sur chacun des dits bateaux.

4. Les vaisseaux canadiens enregistrés de dix tonneaux et au-dessus (jusqu'à 80 tonneaux), employés pendant au moins trois mois à la pêche en eau profonde pour d'autres poissons que le homard, le saumon ou l'alose, ou le poisson qui se prend dans, ou à l'embouchure des rivières, auront droit à une prime qui devra être calculée sur le tonnage enregistré, dont une moitié sera payable au propriétaire ou propriétaires et l'autre moitié à l'équipage, excepté dans les cas où un ou plusieurs membres de l'équipage auraient manqué de se conformer aux règlements, auxquels cas la dite ou les dites parts ne seront pas payées.

5. Les propriétaires ou capitaines de vaisseaux qui ont l'intention de faire la pêche et réclamer la prime devront, avant de partir pour un voyage de pêche, se procurer une licence du percepteur des douanes ou du garde-pêche le plus voisin, la dite licence sera attachée à la réclamation lorsque cette dernière sera envoyée pour être payée.

6. Les dates et les endroits de pêche devront être précisés dans la réclamation ainsi que la quantité et les espèces de poisson pris.

7. Les âges des hommes devront être donnés. Les garçons au-dessous de 14 ans ne sont pas acceptés comme réclamants.

8. Les réclamations devront être assermentées comme étant vraies et correctes dans tous leurs détails.

9. Les réclamations doivent être filées le ou avant le 30 novembre de chaque année.

10. Les officiers autorisés à recevoir les réclamations devront fournir les formes nécessaires, gratis, et après les avoir certifiées devront les transmettre au Département de la Marine et des Pêcheries.

11. Une réclamation dans laquelle le réclamant ou les réclamants auront fait une erreur ne pourra être amendée après avoir été signée et assermentée comme étant correcte.

12. Quiconque sera reconnu avoir fait des retours faux ou frauduleux dans aucun détail, sera exclu de participation dans la prime et poursuivi avec toute la sévérité de la loi.

13. Le montant de la prime à être payée aux pêcheurs et aux propriétaires de bateaux et vaisseaux sera fixé de temps à autre par le Gouverneur en Conseil.

JOHN J. McGEE,
Greffier du Conseil privé.

HOTEL DU GOUVERNEMENT À OTTAWA.

Mardi, le 16e jour d'août 1892.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, par et avec l'avis du Conseil privé de la Reine pour le Canada, et en vertu des pouvoirs qui lui sont conférés par le chapitre 78 des Statuts Revisés, intitulé "Acte concernant l'inspection des bateaux à vapeur, et l'examen et les commissions des mécaniciens qui y sont employés," et ses modifications, d'approuver les modifications ci-dessous apportées aux Règlements concernant l'inspection des chaudières et boussoles des bateaux à vapeur, et les nouveaux règlements concernant l'inspection des arbres moteurs de bateaux à vapeur, et l'épreuve des nouvelles machines de bateaux à vapeur, qui ont été passés par le Bureau d'inspection des bateaux à vapeur.

—

MODIFICATIONS AUX RÈGLEMENTS CONCERNANT L'INSPECTION DES CHAUDIÈRES DE BATEAUX À VAPEUR.

Chaudières.

1. L'art. 40, partie I, et l'art. 74, partie II, sont par le présent modifiés en ajoutant dix pour cent au résultat de la formule (*b*) :—

$$\frac{90{,}000 \times T^2}{(L + 1) \times D} = \text{la pression effective, lorsque}$$

T = l'épaisseur de la tôle en pouces.
D = le diamètre extérieur du carneau en pouces.

L = la longueur du carneau ou du fourneau en pieds, ou la longueur entre les anneaux en pieds, s'il est renforcé par des anneaux propices ou des joints Adamson.

2. L'art. 36 (*r*) et l'art. 41 (*a*), partie I, et l'art. 75 (*a*), partie II, sont par le présent modifiés en employant 14,000 au lieu de 12,500 dans la formule :—

$$\frac{12{,}500 \times \text{l'épaisseur en pouces}}{\text{Diamètre moyen en pouces}} = \text{la pression effective par pouce carré.}$$

3. L'article 30, partie I, et l'art. 68, partie II, sont par le présent modifiés en y ajoutant les paragraphes suivants :—

" Lorsqu'un surchauffeur est muni d'un tube soumis " à une pression extérieure, on devra constater la pres- " sion effective au moyen des règlements donnés pour " les fourneaux circulaires en fer, mais les constantes " devraient être réduites comme trente est à quarante- " sept.

" Si l'on se propose d'employer de l'acier dans des " surchauffeurs, les détails devraient être soumis au " Bureau d'inspection des bateaux à vapeur, ou au pré- " sident, si le Bureau ne siège pas, pour sa considé- " ration ; mais on ne doit jamais encourager une telle " chose ; ceci s'applique aux courants de flammes non " munis d'écrans de toutes les chaudières, y compris " les petites chaudières alimentaires verticales ordi- " naires."

—

MODIFICATIONS AUX RÈGLEMENTS CONCERNANT L'INSPECTION DES BOUSSOLES À BORD DES BATEAUX À VAPEUR.

Boussoles.

L'art. 22, partie VII, est par le présent modifié en substituant les mots "personne compétente" au mot "inspecteur," dans la cinquième ligne, et en ajoutant les mots "d'inspection" après le mot "certificat" dans la dernière ligne.

—

RÈGLEMENTS CONCERNANT L'INSPECTION DES ARBRES MOTEURS DES BATEAUX À VAPEUR.

Arbres moteurs.

4. Aucun arbre moteur, arbre de couche, arbre droit ou arbre des roues ayant un moindre diamètre que celui trouvé par la formule suivante, ne devrait être accepté sans avoir d'abord soumis le cas au président du Bureau d'inspection des bateaux à vapeur.

Pour les machines mixtes à condenser avec deux cylindres ou plus, lorsque les axes coudés ne sont pas suspendus :—

$$S = \sqrt[3]{\frac{C \times P \times D^2}{f\left(2 + \frac{D^2}{d^2}\right)}}$$

$$P = \frac{f \times S^3}{C \times D^2}\left(2 + \frac{D^2}{d^2}\right)$$

Lorsque S = le diamètre de l'arbre en pouces.

Lorsque d^2 = le carré du diamètre du cylindre à haute pression en pouces, ou la somme des carrés des diamètres, dans les cas où il y a deux cylindres à haute pression ou plus.

Lorsque D^2 = le carré du diamètre d'un cylindre à basse pression en pouces, ou la somme des carrés des diamètres dans les cas où il y a deux cylindres à basse pression ou plus.

Lorsque P = la pression absolue en livres par pouce carré, c'est-à-dire, la pression de chaudière *plus* 15 livres.

Lorsque C = la longueur de l'axe coudé en pouces.

Lorsque f = la constante d'après la table suivante.

NOTE.—Les cylindres à pression intermédiaire ne paraissent pas dans la formule.

Pour les machines à condenser ordinaires, avec un ou deux cylindres et plus, alors que les axes coudés ne sont pas suspendus :—

$$S = \sqrt[3]{\frac{C \times P \times D^2}{3 \times f}}$$

$$P = \frac{3 \times f \times S^3}{C \times D^2}$$

Lorsque S = le diamètre de l'arbre en pouces.

D^2 = le carré du diamètre du cylindre en pouces, ou la somme des carrés des diamètres, dans les cas où il y a deux cylindres ou plus.

P = la pression absolue en livres par pouce carré, c'est-à-dire la pression de chaudière, *plus* 15 livres.

C = la longueur de l'axe coudé en pouces.

f = la constante d'après la table suivante :

TABLE.

Pour deux axes coudés. Angles entre les axes.	Pour arbres moteurs et de manivelle. f.	Pour arbres droits. f.
90°	Pour les machines à roues d'un modèle ordinaire, multipliez la constante dans cette colonne pour l'angle des axes coudés par 1·4. 1,047	1,221
100°	996	1,128
110°	904	1,055
120°	855	997
130°	817	953
140°	788	919
150°	766	894
160°	751	877
170°	743	867
180°	740	864
Pour trois axes coudés 120°.	1,110	1,295

NOTE.—Lorsqu'il n'y a qu'un axe coudé, les constantes applicables sont celles dans la table vis-à-vis 180°.

RÈGLEMENTS CONCERNANT L'ÉPREUVE DE NOUVELLES MACHINES À BORD DE VAPEURS À PASSAGERS.

Dans le cas de nouvelles machines à bord de vapeurs à passagers, les inspecteurs devront les voir éprouver lorsque les bateaux sont en marche, à pleine vapeur, afin de s'assurer autant que possible qu'il n'existe pas de défauts dans les diverses parties de la machine qui auraient échappé à l'examen de l'inspecteur, tel que prescrit par l'article 15 de l'acte 49 Victoria, chap. 78.

JOHN J. McGEE,
10–4 Greffier du Conseil privé.

HOTEL DU GOUVERNEMENT À OTTAWA.

Mardi, le 16e jour d'août 1892.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu des pouvoirs qui lui sont conférés par l'article 2 de "l'Acte concernant la quarantaine," chap. 68 des Statuts Revisés du Canada, et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner, et il est par le présent ordonné, que la Belgique et l'Allemagne soient ajoutées à la liste des pays d'où il est défendu d'importer des guenilles au Canada.

JOHN J. McGEE,
9–4 Greffier du Conseil privé.

HOTEL DU GOUVERNEMENT À OTTAWA.

Mardi, le 2e jour d'août 1892.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT que le parlement du Canada, à sa dernière session, a passé un acte, 55-56 Victoria, chapitre 19, intitulé "Acte modifiant de nouveau l'Acte d'inspection des bateaux à vapeur," dans lequel il est entre autres choses statué, par les articles 4 et 5, que le Gouverneur en conseil pourra faire les règlements qu'il jugera à propos au sujet des canots, ceintures de sauvetage, et autres appareils de sauvetage que devront porter les bateaux à vapeur ou autres navires mentionnés au dit acte ;

Et considérant qu'il est en outre statué que le dit acte entrera en vigueur à compter d'une date désignée par proclamation du Gouverneur en conseil, et que Son Excellence le Gouverneur général en conseil, par une proclamation datée le 2e jour d'août 1892, a déclaré que le dit acte deviendrait exécutoire le quinzième jour d'août 1892,—

Il plaît à Son Excellence, en vertu des pouvoirs qui lui sont conférés par les articles 4 et 5 du susdit acte, et par et avec l'avis du Conseil privé de la Reine pour le Canada, de faire les règlements ci-dessous concernant les canots, ceintures et autres appareils de sauvetage que devront porter les bateaux à vapeur ou autres vaisseaux mentionnés dans le dit acte, ces dits règlements devenant exécutoires à compter du jour qui suivra le jour fixé par la susdite proclamation, comme celui auquel le dit acte 55-56 Victoria, chapitre 19, entrera en vigueur au Canada.

JOHN J. McGEE,
Greffier du Conseil privé.

—

RÈGLES ET RÈGLEMENTS concernant l'inspection des canots, bouées et autres appareils de sauvetage que devront porter les bateaux à vapeur ou autres vaisseaux sous l'empire de l'Acte d'inspection des bateaux à vapeur, et ses amendements.

Canots.

Art. 1. On observera les dispositions ci-jointes au sujet des canots que devront porter les bateaux à vapeur :—

(*a.*) Nul bateau à vapeur ayant des passagers à bord ne prendra la mer d'un port ou endroit en Canada, ou ne partira d'un port ou endroit, ou ne naviguera sur aucun des lacs Saint-Jean, Memphremagog, Ontario, Erié, Huron ou Baie Georgienne, Simcoe, ou Supérieur, ou sur le fleuve Saint-Laurent, ou sur les rivières Ottawa, ou Saint-Jean, ou sur aucun lac ou rivière dans le Manitoba, la Colombie-Britannique ou les Territoires du Nord-Ouest, ou le district de Kéwatin, qui aura plus d'un mille de largeur à un point quelconque sur la route de ce bateau à vapeur ;

(*b.*) Sans avoir à bord, ou attachés à ce bateau à vapeur, des canots solides bien équipés et en bonne condition, d'au moins dix-sept pieds de quille chacun, et munis de six rames et autres agrès nécessaires, et pouvant soutenir chacun au moins douze personnes adultes à part l'équipage du canot.

Ces canots seront dans la proportion suivante quant au tonnage de registre de ce bateau à vapeur, savoir :—

Au moins un canot pour chaque bateau à vapeur de moins de cinquante tonneaux ;

Au moins deux canots pour chaque bateau à vapeur de cinquante tonneaux et plus, mais de moins de (300) trois cents tonneaux ;

Au moins trois canots pour chaque bateau à vapeur de trois cents tonneaux et plus ; et

(*c.*) Si ce bateau à vapeur est du tonnage de registre de cent tonneaux ou plus de (300) trois cents tonneaux, sans qu'il ait à bord ou y attachés en sus des canots ci-dessus exigés,—

Un bon et solide canot de sauvetage capable de soutenir à l'intérieur trente personnes. Ce canot de sauvetage sera censé être d'une capacité suffisante s'il a les dimensions suivantes : Longueur de quille, vingt-deux pieds ; largeur du bau en dehors, cinq pieds six pouces ; profondeur depuis le dessus de la quille jusqu'au dessus du plat-bord, en bas des toletières ; deux pieds neuf pouces ; ou

Deux bons et solides canots de sauvetage, chacun capable de soutenir à l'intérieur vingt personnes. Ces canots de sauvetage seront censés d'une capacité suffisante s'ils ont les dimensions suivantes : Longueur de quille, dix-huit pieds, largeur à l'extérieur, cinq pieds deux pouces ; profondeur depuis le dessus de la quille jusqu'au dessus du plat-bord, deux pieds deux pouces ;

(*d.*) Si ce bateau à vapeur a un tonnage de registre de (300) trois cents tonneaux ou plus jusqu'à six cents tonneaux ou plus (alors que le nombre des canots de sauvetage pourra être augmenté à la satisfaction de l'inspecteur), sans qu'il ait à bord ou y attachés, en sus des canots exigés,—

Deux bons et solides canots de sauvetage capables de soutenir à l'intérieur trente personnes, ou quatre bons et solides canots de sauvetage chacun capable de soutenir à l'intérieur vingt personnes, et chacun de la grandeur décrite à (*c*) au moins.

Art. 2. Chaque canot de sauvetage sera fait de métal convenable d'une épaisseur égale au fil métallique n° 18, ou de bois sur le modèle des baleinières, avec une tonture d'environ ¾ de pouce par pied, s'élevant également depuis le milieu du canot jusqu'à l'avant et derrière. Il aura de bons compartiments imperméables à l'air aux bouts et aux côtés, faits de bois ou de métal ; ces compartiments auront une capacité en pieds cubes de un dixième de la capacité du canot. Cette capacité se trouve en multipliant la longueur et la largeur à l'extérieur, et la profondeur en dedans depuis le dessous des toletières ou dessus du plat-bord en pieds, et par ·6, le resultat égale les pieds cubes voulus dans les compartiments intérieurs et extérieurs, dont environ la moitié doit être à l'extérieur ; et en divisant par 10, donnera le nombre de personnes que le canot de sauvetage sera censé pouvoir porter. A l'extérieur on pourra employer du liége solide au lieu de compartiments imperméables à l'air ; 1·25 pied cube de liége étant considéré égal à 1 pied cube de compartiment à air ;

(*a.*) On ne doit pas employer de zinc dans la construction d'un canot de sauvetage ou de ses compartiments à air, lesquels doivent être d'un métal approuvé par le bureau d'inspection des bateaux à vapeur, ou par le président.

(*b.*) Les compartiments imperméables à l'air seront distribués de manière à donner au canot la légèreté et la solidité convenables. Il sera laissé au choix du propriétaire de placer les compartiments à air, soit sous les bancs, soit dans les bouts ou le long des côtés, pourvu qu'un canot de sauvetage efficace soit fourni a la satisfaction de l'inspecteur ;

(*c.*) Les espaces remplis ou contenant quelques matières ne seront pas censés être des espaces à air ;

(*d.*) Un bateau à poupe carrée ne sera pas considéré être un canot de sauvetage ;

(*e.*) Des cordes de sauvetage avec bouées seront convenablement attachées aux côtés ou plats-bords du canot de sauvetage.

Art. 3. Les canots de sauvetage seront munis d'un assortiment complet de rames, une pour chaque toletière, et deux rames de rechange, bien assujéties et prêtes à servir ;

(*a.*) Avec deux tampons pour chaque trou, attachés avec des aiguillettes ou des chaînes, et un jeu et demi de tolets attachés au canot par des aiguillettes et prêts à mettre en place ;

(*b.*) Avec une ancre du large, un gouvernail et un timon, et des cordes de gouvernail, une amarre assez longue pour atteindre des daviers au canot lorsqu'il est à l'eau, et le remorquer, une écope, une petite hache à chaque bout du canot, et une gaffe, aussi attachés au canot par une bonne aiguillette ;

(*c.*) Si le bateau à vapeur navigue en mer (sur l'eau salée) on devra garder à bord de chaque canot un vaisseau rempli d'eau douce (et un canot de sauvetage au moins doit être gréé d'un mât ou de mâts, et d'une voile ou de voiles et agrès), et d'une bonne boussole et un gallon d'huile animale ou végétale, et un vaisseau ou appareil d'un modèle approuvé pour la répandre sur l'eau dans le mauvais temps, et d'un fanal rempli d'huile capable de durer huit heures ;

(*d.*) On devra prendre des moyens pour détacher instantanément le canot de sauvetage des dernières poulies du davier. On ne tolèrera pas de crochet ordinaire dans la dernière poulie. Les daviers du bateau devront être assez forts et assez espacés pour pouvoir lancer le canot sans travail inutile, que les cales du canot puissent être enlevées facilement, et que le canot ne frappe pas le flanc du navire en descendant lorsque le navire n'a pas de bande, et que tous les agrès, daviers, palans, poulies, boulons à œillet et anneaux, etc., soient d'une force suffisante pour pouvoir descendre le canot avec son équipage au complet.

Art. 4. Chaque canot sera entretenu en bonne condition, étanche et prêt à servir immédiatement ; quand on se sert de bois pour chauffer les chaudières des bateaux à haute pression (non condenseurs) les abris de ces canots seront faits de bois recouvert de zinc ; et chaque canot aura le nom du bateau à vapeur auquel il

appartient, ainsi que le nom de son port d'enregistrement distinctement peinturés à l'avant et à l'arrière.

Art. 5. Chaque tel bateau à vapeur sera muni de moyens suffisants pour descendre à l'eau sûrement et promptement les canots qui sont ci-dessus requis d'être à bord ou attachés à ce bateau à vapeur ; et les capitaines de bateaux à vapeur diviseront leurs équipages par escouades et les dresseront à descendre et manœuvrer les dits canots et canots de sauvetage au moins une fois par semaine, alternativement.

Art. 6. Chaque tel canot sera pendu à des daviers distincts, avec des agrès complets et prêts à le descendre sans délai ; pourvu que dans le cas où un tel bateau à vapeur porte deux canots de sauvetage, un des autres canots pourra être porté sur le pont supérieur sans daviers.

Art. 7. Nul bateau à vapeur employé principalement au transport du fret, lorsqu'il ne porte pas plus que vingt-cinq passagers, ne sera obligé d'avoir à bord ou attaché à ce bateau à vapeur que deux canots en sus d'un canot de sauvetage.

Art. 8. Le ministre de la Marine et des Pêcheries pourra autoriser l'usage dans certains cas particuliers, d'un nombre plus ou moins grand de canots, ou de dimensions différentes de ceux ci-dessus spécifiés ; et avec cette autorisation il suffira que tout tel bateau à vapeur porte et soit muni de canots des dimensions spécifiées dans telle autorisation.

Art. 9. Les bateaux à vapeur restreints à la navigation de la rivière Saint-Jean en amont de Frédéricton, les eaux du district de Muskoka, le comté de Victoria, et le comté de Peterborough dans la province d'Ontario, et les eaux de la rivière Ottawa et ses tributaires en amont de la cité d'Ottawa, ou des lacs ou rivières dont la largeur n'excèdera pas un mille à un point quelconque sur la route de ce bateau à vapeur, et qui sont employés au transport des passagers, portera au moins un bon canot muni de quatre rames, et assez grand pour pouvoir contenir au moins douze personnes, à part l'équipage.

Art. 10. Chaque bateau à vapeur employé au transport de passagers, et ne naviguant que sur des rivières ou eaux intérieures, autres que les rivières et eaux intérieures ci-dessus spécifiées, devra, si ce bateau à vapeur dépasse cent cinquante tonneaux de registre, porter au moins deux bons canots munis de quatre rames chacun, et d'une capacité suffisante pour pouvoir porter avec sûreté au moins douze personnes à part l'équipage ; et si ce bateau à vapeur ne dépasse pas cent cinquante tonneaux de registre et n'a pas moins que cinquante tonneaux de registre, il ne sera pas tenu de porter plus qu'un tel canot ; et si ce bateau à vapeur a moins que cinquante tonneaux de registre, il portera un bon canot, des grandeur et description, et gréé selon que l'approuvera l'inspecteur dans chaque cas.

Art. 11. Chaque bateau à vapeur non employé au transport des passagers, et chaque bateau à vapeur auquel les dispositions précédentes du présent article ne s'appliquent pas, devra en tout temps, lorsque son équipage est à bord, avoir à bord ou attaché à ce bateau à vapeur, dans quelque endroit propice, un bon canot solide, ou de bons canots solides, en bonne condition et convenablement équipés, et munis de rames en nombre suffisant et autres agrès nécessaires, et d'une capacité suffisante pour pouvoir porter tout l'équipage de ce bateau à vapeur, avec des moyens suffisants pour descendre ce canot ou ces canots sûrement et promptement.

Art. 12. Le nombre de personnes que ces canots pourront porter sera déterminé en multipliant la longueur de la quille par la largeur à l'extérieur, et par la profondeur depuis le dessus de la quille jusqu'au dessous des toletières en pieds, et divisant par 10, le quotient donnera le nombre de personnes que chaque canot pourra porter.

Radeaux et bouées de sauvetage.

Art. 13. Les radeaux de sauvetage doivent être approuvés par le bureau d'inspection des bateaux à vapeur avant de déterminer le nombre de personnes qu'ils pourront porter ; pourvu que trois pieds cubes au moins de forts et bons compartiments à air construits de façon que l'eau n'y puisse pénétrer seront le montant d'espace d'air alloué à chaque personne portée sur le radeau.

Art. 14. Pour qu'un appareil flottant soit approuvé il ne faut pas qu'il soit nécessaire de le gonfler avant de s'en servir ; il devra être de construction approuvée, et marqué de façon à indiquer distinctement le nombre de personnes adultes qu'il peut porter.

La légèreté de cet appareil, en proportion du nombre de personnes à porter, peut être déterminée en divisant par 32 le nombre de livres de fer qu'il peut supporter dans l'eau douce.

Art. 15. Une bouée de sauvetage approuvée sera faite de liège solide capable de flotter sur l'eau pendant au moins 24 heures, avec 32 livres de fer y attachées ; ou—

(*a.*) Une forte bouée de sauvetage de tout autre modèle et de matériaux approuvés, pourvu qu'elle soit capable de flotter sur l'eau pendant au moins 24 heures avec 32 livres de fer y attachées, et pourvu qu'elle ne soit pas bourrée d'ajoncs, de râpures de liège ou autres planures, ou de liège granulé ou autre matière libre, et n'ait pas besoin d'être gonflée avant de servir. Chaque bateau à passagers que la loi oblige à porter deux canots, devra avoir au moins deux bouées de sauvetage, avec une bonne corde de longueur suffisante attachée à chaque bouée, et tenues toujours prêtes à servir à tout instant.

(*b.*) Les boîtes à air pour les radeaux de sauvetage ne doivent pas excéder la longueur approuvée par le bureau (quatre pieds), avec joints agrafés, martelés et soudés, ou rivés, et si elles sont en fer, ce fer sera galvanisé ; elles seront solidement entourées de bois à joints bien clos.

La couverture des boîtes à air dans les canots doivent être assujéties au moyen de vis de cuivre, de façon à pouvoir être facilement enlevée pour examiner les boîtes à air.

Des canots qui s'emboîtent pourront être employés s'ils sont approuvés par un inspecteur, avec le consentement du président.

Art. 16. Nul nouveau modèle ou matière pour les canots, radeaux ou bouées de sauvetage ne sera passé avant d'être approuvé par le bureau d'inspection des bateaux à vapeur.

Ceintures de sauvetage.

Art. 17. Nul bateau à vapeur transportant des passagers ne prendra la mer d'un port ou endroit en Canada, ou ne partira d'un port ou endroit, ou ne naviguera sur aucun des lacs Saint-Jean, Memphrémagog, Ontario, Erié, Huron ou Baie Georgienne, Simcoe ou Supérieur, ou sur le fleuve Saint-Laurent, ou sur les rivières Ottawa, ou Saint-Jean, ou sur aucun lac ou rivière dans le Manitoba, la Colombie-Britannique ou les Territoires du Nord-Ouest, ou le district de Kéwatin, qui aura plus d'un mille de largeur à un point quelconque sur le route de ce bateau à vapeur ; ni ne naviguera dans une baie ou bras de mer en Canada, sans avoir à bord à chaque voyage,—

(*a.*) Deux cents ceintures de sauvetage, si ce bateau est de deux cents tonneaux et plus de registre ; ou (*b*) trois ceintures de sauvetage par chaque cinq tonneaux, si ce bateau a moins que deux cents tonneaux de registre.

Art. 18. Chaque bateau à vapeur transportant des passagers sur des rivières et eaux intérieures autres que les lacs et rivières spécifiés dans l'article immédiatement précédent, s'il a deux cents tonneaux et plus de registre, devra avoir à bord à chaque voyage, pas moins que cent ceintures de sauvetage, et s'il a moins que deux cents tonneaux de registre, ce bateau portera à bord à chaque voyage cinquante ceintures de sauvetage.

Art. 19. Pourvu toujours que le nombre maximum de ces ceintures de sauvetage que chaque bateau à vapeur est tenu d'avoir à bord, n'excèdera pas deux cents ; mais si un bateau à vapeur n'a pas le nombre de canots et de ceintures de sauvetage proportionné au nombre de passagers que son certificat d'inspection lui permet de porter, on suppléera à ce déficit au moyen de flotteurs en bois, équivalant chacun en légèreté à un pied cube de pin blanc séché, égal au nombre de passagers et de l'équipage pour lesquels il n'y a pas de canots ni de ceintures de sauvetage.

Art. 20. Nul bateau à vapeur employé principalement au transport du fret, lorsqu'il transportera pas plus que soixante passagers, ne sera tenu d'avoir à

bord, dans un voyage, plus d'une ceinture de sauvetage pour chaque passager, et une ceinture de sauvetage pour chacun de l'équipage alors à bord de tel bateau.

Art. 21. Chaque bateau à vapeur non employé au transport de passagers, et chaque bateau à vapeur auquel les articles 17, 18, 19 et 20 ne s'appliquent pas, devra avoir, en tous temps lorsque l'équipage est à bord, une ceinture de sauvetage pour chacun de l'équipage.

Art. 22. Chacune de ces ceintures de sauvetage sera capable de flotter dans l'eau douce pendant 24 heures, avec 15 livres de fer y attachées. Elles seront échancrées de 2 pouces sous les aisselles, et ajustées et assujéties de façon à ne pas se déranger une fois mises, avec bretelles et ceinturon, ou autres moyens approuvés par l'inspecteur. Si d'autre matière que du liège solide est employée pour faire flotter, elle sera d'abord approuvée spécialement par le bureau d'inspection des bateaux à vapeur, et les ceintures de sauvetage seront en tous temps gardées dans un endroit accessible et à la main dans les cabines ou sur le pont du bateau, bien abritées et prêtes à servir à tout instant.

Art. 23. Un gilet de liége avec bretelles et ceinturons pour le fixer autour du corps, ou toute autre espèce de ceinture de sauvetage que le Gouverneur général en conseil pourra approuver, sera la forme de ceinture de sauvetage à employer sur les bateaux à passagers.

Barges à passagers à la remorque.

Art. 24. Avant qu'une barge, chaloupe, bateau, chalan ou vaisseau non ponté ayant des passagers à bord, toué par un remorqueur, reçoive un certificat d'inspection, il devra être muni d'un canot ou de canots, de ceintures, bouées et radeaux de sauvetage, ou de tous et chacun des équipements mentionnés au présent, en sus de l'équipement mentionné à l'article 9 de l'acte du parlement du Canada, intitulé " Acte modifiant de nouveau l'Acte d'inspection des bateaux à vapeur," et sanctionné le 10e jour de mai 1892, à la satisfaction de l'inspecteur des bateaux à vapeur qui l'inspecte, qui exigera qu'il soit équipé d'un appareil convenable pour sauver la vie pour les eaux sur lesquelles il navigue, ainsi que les commodités convenables pour l'usage des passagers ;

(*a.*) Les canots et équipements exigés devront être tel que spécifié dans l'article 1 (*b.*) des présents règlements, et afin qu'ils aient la capacité voulue pour porter douze personnes adultes avec l'équipage, ou dix-sept personnes en tout, ils devront avoir 17 pieds de quille et 5 pieds de bau sur 2 pieds de profondeur, cette capacité étant déterminée en multipliant longueur, largeur et profondeur, et divisant par 10.

HOTEL DU GOUVERNEMENT À OTTAWA.

Mardi, le 26e jour de juillet 1892.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

VU que la maladie du choléra est répandue en France, que cette maladie peut se propager par les chiffons ou hardes, et qu'il convient de suspendre jusqu'à nouvel ordre l'importation de chiffons de la France,—

Il plaît à Son Excellence, par et avec l'avis du Conseil privé pour le Canada, d'ordonner et déclarer que l'importation de chiffons de la France soit et elle est par le présent défendue.

JOHN J. McGEE,
7–4 Greffier du Conseil privé.

AVIS DU GOUVERNEMENT.

AUX ANNONCEURS DANS LA *GAZETTE*.

CEUX qui envoient des annonces pour être insérées dans la *Gazette du Canada* voudront bien se conformer aux règles ci-dessous :

1. Adresser "Gazette du Canada, Ottawa, Canada."
2. Indiquer le nombre d'insertions voulues.
3. Transmettre invariablement le prix de l'annonce ainsi que le prix d'un exemplaire de la *Gazette*, tels que donnés plus bas ; sans cela l'annonce ne sera pas publiée.

Les prix sont de dix cts. pour la première insertion, et cinq cts. pour chaque insertion subséquente par ligne de neuf mots, chaque chiffre comptant pour un mot. Aucune annonce n'est insérée pour moins d'une piastre.

D'après la pratique établie et reconnue, telle que prescrite par la loi, les règlements du parlement et les décisions du ministre de la Justice, les avis reçoivent le nombre d'insertions ci-dessous :—

Les avis de demandes de divorce—27 insertions.

Les avis de retrait de dépôts des compagnies d'assurance—13 insertions.

Les avis de demandes ordinaires au parlement—9 insertions.

Les avis de demandes de lettres patentes—6 insertions.

Les avis de dividendes et d'assemblées de banques et de compagnies d'assurances,—1 mois de calendrier ou 5 insertions.

Les abonnés observeront aussi que le prix d'abonnement, $4 par année, est invariablement payable d'avance, et que l'envoi de la *Gazette* sera arrêté à l'expiration de la période payée. Chaque exemplaire coûte dix cts., et quand les annonceurs en veulent plus qu'un, ils devront faire une remise en conséquence.

DEMANDES AU PARLEMENT.

Règles relatives aux avis de bills privés.

Dans le cas de toute demande de bill privé, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, et ayant pour objet, soit la construction d'un pont, d'un chemin de fer, d'un chemin à barrières ou d'une ligne télégraphique ; soit la construction ou l'amélioration d'un port, d'un canal, d'une écluse, d'une digue ou d'une glissoire ou autre ouvrage semblable ; soit la concession d'un droit de passage d'eau, l'incorporation de professions ou métiers, ou d'une compagnie de banque ou autre compagnie par actions, soit la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, soit le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement de même nature à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande, et signé (excepté s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part, est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Un avis doit être inséré dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Un avis doit être inséré dans la *Gazette du Canada*, et et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie.

La publication de ces avis durera, dans chaque cas la période de deux mois pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Un exemplaire des numéros des journaux, reproduisant la première et la dernière insertion de l'avis, devra être transmis au greffier de chaque Chambre.

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, le pétitionnaire ou les pétitionnaires devront, en même temps qu'ils donneront l'avis prescrit par la règle précédente, donner aussi, de la même manière, avis des péages qu'ils entendent exiger, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piliers pour le passage des radeaux et des navires ; et mentionner de plus s'ils se proposent de construire un pont mobile, et quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Il en sera imprimé 600 exemplaires en anglais et 200 en français ; la traduction devra être faite par les officiers de la Chambre, et l'impression par l'entrepreneur des impressions. Le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) une somme de $200, plus le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé—le dit paiement sera effectué immédiatement après la seconde lecture, et avant la prise en considération du bill par le comité.

L'honoraire payable sur tout bill privé, ne sera payé que dans la Chambre où il a pris naissance.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par l'une ou par l'autre Chambre après les dix premiers jours de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.
JOHN GEORGE BOURINOT,
Greffier des Communes.

—

Règles additionnelles de la Chambre des Communes concernant les bills privés.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle adopté par la Chambre, le 23 juin 1887, dont copie peut être obtenue du greffier de la Chambre ;

(*a*.) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression ;

(*b*.) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets ;

(*c*.) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le tracé du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer

à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(a.) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés, dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière ; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait ;

(b.) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

JOHN GEORGE BOURINOT,
Greffier des Communes.

SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré, durant six mois, entre l'expiration de la dernière session parlementaire avant l'avis et la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district ; autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire, faite en vertu de "l'Acte concernant les serments extra-judiciaires."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition en obtention d'un bill de divorce n'est présentée que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $200.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.

VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, QUEEN, Defender of the Faith, &c., &c., &c.

To all to whom these presents shall come, or whom the same may in anywise concern,—GREETING:

A PROCLAMATION.

ROBT. SEDGEWICK, Deputy of the Minister of Justice, Canada. } WHEREAS in pursuance of the provisions of the Canada Temperance Act, the following notice has been addressed to the Secretary of State for Canada, embodying the petition therein set forth:

"To the Honourable the Secretary of State of "Canada,—

"SIR,—We, the undersigned electors of the County "of Northumberland, request you to take notice that "we propose presenting the following petition to His "Excellency the Governor General of Canada in "Council:

"'The petition of the electors of the County of "'Northumberland, in the Province of New Brunswick, "'qualified and competent to vote at the election of "'a member of the House of Commons, in the said "'County,

"'Respectfully shews, that your petitioners are "'desirous that the Order in Council passed for "'bringing into force within the said County, the "'second part of "The Canada Temperance Act," "'should be revoked, wherefore, your petitioners "'humbly pray that Your Excellency will be pleased "'by an Order in Council under section nine of "The "'Canada Temperance Amendment Act, 1888," to "'declare that the said Order in Council which brought "'into force and effect the said second part of the said "'"The Canada Temperance Act," in the said County, "'shall no longer be in force.

"'And your petitioners will ever pray, &c.'

"And that we desire that the votes of the electors "of the said County be taken for and against the "revocation of the said Order in Council."

AND WHEREAS the second part of the said Act was brought into force in the said County of Northumberland, in the Province of New Brunswick, by an Order in Council dated the fourth day of November, in the year of Our Lord one thousand eight hundred and eighty :

AND WHEREAS it appears by evidence to the satisfaction of the Governor General in Council that such petition has appended to it the genuine signatures of one-fourth or more of all the electors of the said County of Northumberland, in the Province of New Brunswick, the number of the signatures to the petition proved to be genuine being nineteen hundred and twenty-one, and that the other requirements of the law have been observed ;

AND WHEREAS an Order of the Governor General in Council has been passed directing that the votes of all the electors of the said County of Northumberland be taken for and against the adoption of the said petition,—

NOW KNOW YE, that We do hereby, and by virtue of the authority vested in Us by the said Act and Order in Council, proclaim and declare, that on Thursday, the twenty-ninth day of September next, a poll will be held in the said County of Northumberland for taking the votes of the electors for and against the said petition ; That such votes will be taken between the hours of nine o'clock in the forenoon and five o'clock in the afternoon of that day and by ballot ; That John Shirreff, of Newcastle, in the said County, Esquire, Sheriff of the said County of Northumberland, has been appointed Returning Officer for the purpose of taking on that day the votes of the electors for and against the petition, and of afterwards summing up the same and making a return of the result to the Governor General in Council ; That the said Returning Officer is empowered and required to appoint a Deputy Returning Officer at and for each polling place or station ; That the Returning Officer will appoint persons to attend at the various polling stations and at the final summing up of votes, on behalf of the persons interested in and promoting or opposing, respectively, the adoption of the petition, at the office of the Sheriff, in Newcastle aforesaid, on Monday, the twenty-sixth day of September next, at ten of the clock in the forenoon. That the votes of the electors will be summed up and the result of the polling declared by the Returning Officer at the office of the Sheriff, in Newcastle aforesaid, on Monday, the third day of October next, at ten of the clock in the forenoon.

And in the event of the petition being adopted by the electors, the Governor General in Council may, at any time after the expiration of thirty days from the day on which the same was adopted, and after the expiration of three years from the day of the coming into force of the second part of the said Act in the said County of Northumberland, under the said Order in Council dated the fourth day of November, one thousand eight hundred and eighty, by Order in Council published in the *Canada Gazette*, revoke the said Order in Council of the fourth day of November, one thousand eight hundred and eighty, by which the second part of "The Canada Temperance Act" was brought into force in the said County, as therein mentioned.

Of all which Our loving subjects and all others whom these presents may concern, are hereby required to take notice and to govern themselves accordingly.

IN TESTIMONY WHEREOF, We have caused these Our Letters to be made Patent, and the Great Seal of Canada to be hereunto affixed. WITNESS, Our Right Trusty and Well-Beloved the Right Honourable Sir FREDERICK ARTHUR STANLEY, Baron Stanley of Preston, in the County of Lancaster, in the Peerage of the United Kingdom ; Knight Grand Cross of Our Most Honourable Order of the Bath ; Governor General of Canada.

At Our Government House, in Our CITY of OTTAWA, this SIXTEENTH day of AUGUST, in the year of Our Lord one thousand eight hundred and ninety-two, and in the Fifty-sixth year of Our Reign.

By Command,

J. C. PATTERSON,
Secretary of State.

ERRATUM.

In the Order in Council of July 26, 1892, p. 253, col. 1, concerning the cancellation of a road allowance on Goose Island in Lake Winnipeg, instead of Range 6 *west* of the Principal Meridian, read Range 6 *east* of the Principal Meridian. 8–4

AT THE GOVERNMENT HOUSE AT OTTAWA.

Saturday, the 27th day of August, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS by section 190 of "The Inland Revenue Act" it is provided that the security to be given is a sum equal to the duties estimated to accrue on goods to be manufactured during one month, and such further amount as the Collector deems sufficient to cover the duty on goods remaining in warehouse from time to time during the currency of the license ;

And whereas the increase of duty on malt from one to two cents per pound has caused the requirements of the law as above set forth as to the amount of bonds to be given by maltsters to become unduly oppressive,—

His Excellency, in virtue of the power vested in him by "The Inland Revenue Act," and by and with the advice of the Queen's Privy Council for Canada, is pleased to grant authority to the Minister of Inland Revenue to determine the amount of security to be given by maltsters, and such authority is hereby granted accordingly.

JOHN J. McGEE,
Clerk, Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Friday, the 19th day of August, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada, has this day been pleased to approve of the following Resolution passed by the Board of Trade at Halifax, abolishing the payment of fees on all shipments of grain in bags, not in connection with grain in bulk, shipped with other general cargo :—

Resolved, "That the Port Wardens' fees on all shipments of grain in bags, not in connection with grain in bulk shipped with other general cargo from Halifax, either in steamers or sailing vessels, be abolished."

JOHN J. McGEE,
Clerk, Privy Council.

10–4

AT THE GOVERNMENT HOUSE AT OTTAWA.

Saturday, the 20th day of August, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, in virtue of the provisions of the "Bounty Act of 1891," 54-55 Victoria, chapter 42, and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the following regulations governing the payment of fishing bounties, be approved :—

REGULATIONS governing the payment of fishing bounties, as provided by section 6 of the Bounty Act of 1891, 54-55 Victoria, chapter 42.

1. Fishermen who have been engaged in deep-sea fishing, for fish other than shell-fish, salmon and shad, or fish taken in rivers or mouths of rivers, for at least three months, and have caught not less than 2,500 pounds of sea-fish, shall be entitled to a bounty, pro-

vided always that no bounty shall be paid to men fishing in boats measuring less than 13 feet keel, and not more than three men (the owner included) will be allowed as claimants in boats under twenty feet.

2. Only one claim will be allowed in one season, even though the claimant may have fished in two vessels, or in a vessel and a boat, or in two boats.

3. The owners of boats measuring not less than thirteen feet keel, which have been engaged during a period of not less than three months in deep-sea fishing for fish other than shell-fish, salmon or shad, or fish taken in rivers or mouths of rivers, shall be entitled to a bounty on each such boat.

4. Canadian registered vessels of 10 tons and upwards (up to 80 tons) which have been *exclusively* engaged during a period of not less than *three months* in the catch of sea-fish other than shell-fish, salmon or shad, or fish taken in rivers or mouths of rivers, shall be entitled to a bounty to be calculated on the registered tonnage, one half of which bounty shall be payable to the owner or owners, and the other half to the crew, except in cases where one or more of the crew shall have failed to comply with the regulations, then such share or shares shall not be paid.

5. Owners or masters of vessels intending to fish and claim bounty on their vessels, must, before proceeding on a fishing voyage procure a license from the nearest Collector of customs, or Fishery Overseer, said license to be attached to the claim when sent in for payment.

6. Dates and localities of fishing must be stated in the claim, as well as the quantity and kinds of sea-fish caught.

7. Ages of men must be given. Boys under 14 years of age are not eligible as claimants.

8. Claims must be sworn to as true and correct in all their particulars.

9. Claims must be filed on or before the 30th November in each year.

10. Officers authorized to receive claims will supply the requisite blanks, free of charge, and after certifying the same will transmit them to the Department of Marine and Fisheries.

11. No claim in which an error has been made by the claimant or claimants shall be amended after it has been signed and sworn to as correct.

12. Any person or persons detected in making returns that are false or fraudulent in any particular, will be debarred from any future participation in the bounty, and be prosecuted according to the utmost rigour of the law.

13. The amount of the bounty to be paid to fishermen and owners of boats and vessels will be fixed from time to time by the Governor in Council.

JOHN J. McGEE,
10–4 Clerk, Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 16th day of August, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, in virtue of the powers vested in him by section 2 of the "Act respecting quarantine," chapter 68 of the Revised Statutes of Canada, and by and with the advice of the Queen's Privy Council for Canada, is pleased to order, and it is hereby ordered, that Belgium and Germany be added to the list of countries from which the importation of rags into Canada is prohibited.

JOHN J. McGEE,
9–4 Clerk, Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 16th day of August, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada, and in virtue of the powers conferred on him by chapter 78 of the Revised Statutes, intituled "An Act respecting the Inspection of Steam-boats, and the examination and licensing of Engineers employed on them," and the amendments thereto, is pleased to approve of the following amendments to the Regulations with respect to the Inspection of Boilers and Compasses of Steam-boats, and the new regulations relating to the Inspection of Steam-boat Shafts, and the testing of new engines of passenger steam-boats, which have been passed by the Board of Steam-boat Inspectors.

AMENDMENTS TO THE RULES RELATING TO THE INSPECTION OF BOILERS OF STEAM-BOATS.

Boilers.

1. Sec. 40, part I, and sec. 74, part II, are hereby amended by adding ten per cent to the result of the formula (*b*) :—

$$\frac{90{,}000 \times T^2}{(L + 1) \times D} = \text{Working pressure, where}$$

T = Thickness of plate in inches.
D = Diameter of flue outside in inches.
L = Length of flue or furnace in feet, or the length between the rings in feet, if it is strengthened by suitable rings or Adamson joints.

2. Sec. 36 (*r*) and sec. 41 (*a*), part I, and sec. 75 (*a*), part II, are hereby amended by using 14,000 instead of 12,500 in the formula :

$$\frac{12{,}500 \times \text{thickness in inches}}{\text{Mean diameter in inches}} = \text{Working pressure per square inch.}$$

3. Sec. 30, part I, and sec. 68, part II, are hereby amended by adding thereto as follows :—

"When a superheater is constructed with a tube "subject to external pressure, the working pressure "should be ascertained by the rules given for circular "iron furnaces, but the constants should be reduced "as thirty is to forty-seven :

"If steel is proposed to be used in superheaters, the "particulars should be submitted to the Board of "Steam-boat Inspection or to the Chairman, if the "board is not sitting, for consideration, but in all "cases it should be discouraged for this purpose ; this "applies to the unshielded uptakes of all boilers, "including ordinary vertical donkey boilers."

AMENDMENT TO THE RULES RELATING TO THE INSPECTION OF COMPASSES ON BOARD STEAM-BOATS.

Compasses.

Sec. 22, part VII, is hereby amended, by substituting for the word "Inspector" in the fifth line, the words "competent person," and adding thereto the words "of inspection," after the word "certificate" in the last line.

RULES RELATING TO THE INSPECTION OF STEAM-BOAT SHAFTS.

Shafts.

4. Main, tunnel, propeller and paddle shafts should not be passed if less in diameter than that found by the following formulæ, without previously submitting the case to the Chairman of the Board of Steam-boat Inspection.

For compound condensing engines with two or more cylinders, when the cranks are not overhung :—

$$S = \sqrt[3]{\frac{C \times P \times D^2}{f\left(2 + \frac{D^2}{d^2}\right)}}$$

$$P = \frac{f \times S^3}{C \times D^2}\left(2 + \frac{D^2}{d^2}\right)$$

Where S = diameter of shaft in inches.
Where d^2 = square of diameter of high pressure cylinder in inches or sum of squares of diameters, when there are two or more high pressure cylinders.
Where D^2 = square of diameter of low pressure cylinder in inches or sum of squares of diameters, when there are two or more low pressure cylinders.
Where P = absolute pressure in lbs. per square inch, that is boiler pressure *plus* 15 lbs.
Where C = length of crank in inches.

Where f = constant from following table.

NOTE.—Intermediate pressure cylinder do not appear in the formulæ.

For ordinary condensing engines, with one, two, or more cylinders, when the cranks are not overhung :—

$$S = \sqrt[3]{\frac{C \times P \times D^2}{3 \times f}}$$

$$P = \frac{3 \times f \times S^3}{C \times D^2}$$

Where S = Diameter of shaft in inches.

D^2 = Square of diameter of cylinder in inches, or sum of squares of diameters when there are two or more cylinders.

P = Absolute pressure in lbs. per square inch, that is boiler pressure *plus* 15 lbs.

C = Length of crank in inches.

f = Constant from following table :—

TABLE.

For two Cranks. Angle between Cranks.	For Crank and Propeller Shafts. f.		For Tunnel Shafts. f.
90°	For paddle engines of ordinary type multiply constant in this column suitable for angle of cranks by 1·4.	1,047	1,221
100°		996	1,128
110°		904	1,055
120°		855	997

RULES RELATING TO THE TESTING OF NEW ENGINES ON PASSENGER STEAM-BOATS.

In the case of new engines on passenger steam-boats, Inspectors should see them tested while under way, with full steam, in order to assure as far as possible that no flaws in the several parts of the engine have escaped the examination made by the Inspector, as provided by section 15 of the Act 49 Vict., chap. 78.

JOHN J. McGEE,
10–4 Clerk, Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 26th day of July, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, under the provisions of section 8 of "The Dominion Lands Act," chapter 54 of the Revised Statutes, and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the road allowance on Goose Island, in Lake Winnipeg, which lies in Township 25, Ranges 5 and 6, shall be and the same is hereby cancelled and its area thrown into Section 30, Township 25, Range 6, east of the Principal Meridian.

JOHN J. McGEE,
8–4 Clerk, Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 2nd day of August, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS the Parliament of Canada at the last Session thereof passed an Act, 55-56 Victoria, chapter 19, intituled "An Act to further amend the Steam-boat Inspection Act" in which it was amongst other things enacted, by the 4th and 5th sections thereof, that the Governor General in Council may make such rules as are deemed advisable with respect to boats, life-preservers, and other life-saving appliances to be carried by steam-boats or by other vessels mentioned in the said Act ;

And whereas it was further enacted that the said Act shall come into force on and after a day to be proclaimed by Proclamation of the Governor in Council, and His Excellency the Governor General in Council, by a Proclamation dated the 2nd day of August, 1892, has declared that the said Act shall be brought into and be in force on the fifteenth day of August, 1892,—

His Excellency, under the authority conferred upon him by the 4th and 5th sections of the above cited Act, and by and with the advice of the Queen's Privy Council for Canada, is pleased to make the following Regulations with respect to boats, life-preservers and other life-saving appliances to be carried by steamboats or other vessels mentioned in the said Act, such Regulations to be in force and take effect on and after the day succeeding the day fixed by the aforesaid Proclamation as the day upon which the said Act 55-56 Victoria, chapter 19, shall come into force in Canada.

JOHN J. McGEE,
Clerk, Privy Council.

—

RULES AND REGULATIONS respecting the inspection of boats, life-preservers and other life-saving appliances, to be carried on steam-boats or other vessels, under the authority of the Steam-boat Inspection Act and amendments thereto.

Boats.

Sec. 1. The following provisions shall be observed with respect to boats to be carried on steam-boats :—

(*a.*) No steam-boat with passengers on board shall proceed to sea from any port or place in Canada, or depart from any port or place, or ply on any of the Lakes St. John, Memphremagog, Ontario, Erie, Huron or Georgian Bay, Simcoe, or Superior, or on the River St. Lawrence, or on the Rivers Ottawa or St. John, or any lake or river in Manitoba, British Columbia, or the North-west Territories, or the District of Keewatin, which is, at any point on the route of such steam-boat, more than one mile broad.

(*b.*) Unless there are on board thereof, or attached to such steam-boat, good, suitable, sufficient and properly equipped boats in good condition, each having not less than seventeen feet length of keel, and at least six oars and other necessary tackle, and sufficient capacity to carry not less than twelve adult persons, exclusive of the crew of such boat.

Which boats shall be in the following proportion to the registered tonnage of such steam-boat, that is to say :—

At least one boat for every steam-boat of less than fifty tons ;

At least two boats for every steam-boat of fifty tons and upwards, but less than (300) three hundred tons ;

At least three boats for every steam-boat of three hundred tons and upwards ; and

(*c.*) If such steam-boat is of the registered tonnage of one hundred tons or upwards to (300) three hundred tons, unless, in addition to the boats hereinbefore required, there is on board thereof or attached thereto,—

One good and sufficient life-boat capable of sustaining inside thirty persons, which life-boat may be considered of sufficient capacity if made of the following dimensions : Length of keel, twenty-two feet ; breadth of beam outside, five feet six inches ; depth from top of keel to top of gunwale at bottom of rowlock, two feet nine inches ; or

Two good and sufficient life-boats, each capable of sustaining inside twenty persons, which life-boats may be considered of sufficient capacity if made of the following dimensions : Length of keel, eighteen feet ; breadth outside, five feet two inches ; depth from top of keel to top of gunwale, two feet two inches.

(*d.*) If such steam-boat is of the registered tonnage of (300) three hundred tons or upwards to six hundred tons or upwards (when the life-boats may be increased to the satisfaction of the Inspector), unless in addition

to the boats hereinbefore required there is on board or attached thereto ;—

Two good and sufficient life-boats, capable of each sustaining inside thirty persons, or four good and sufficient life-boats capable of each sustaining inside twenty persons, each to be at least of the dimensions described in (*c*).

Sec. 2. Every life-boat shall be made of suitable metal, in thickness not less than No. 18 wire gauge, or of wood, and built whale-boat fashion, with a sheer of about $\frac{3}{4}$ inch to 1 foot length from midships, rising equally to the stem and stern, with sufficient air-tight compartments in the ends and sides made of suitable metal or of wood, and so constructed as to be air-tight and serviceable, the air-tight compartments to have a capacity in cubic feet of one-tenth the capacity of the life-boat, which is found by multiplying the length and breadth outside and the depth inside from bottom of rowlocks or top of gunwale in feet, and by ·6, the result equals the cubic feet required in the inside and outside compartments, about one-half of which should be on the outside ; and dividing by 10, gives the number of persons the life-boat shall be deemed fit to carry. Solid cork may be used instead of air-tight compartments on the outside, 1·25 cubic feet of cork being considered equal to 1 cubic foot of air case.

(*a.*) Zinc shall not be used in the construction of a life-boat or of her air-tight compartments, which must be of a metal approved by the Board of Steam-boat Inspection, or by the Chairman.

(*b.*) The air-tight compartments must be so distributed as to give the boat good buoyancy and stability ; whether a part of the air-tight buoyancy apparatus should be under the thwarts, or whether it should be in the ends and along the sides, will be, so long as an efficient life-boat is obtained, left to the option of the maker or owner, but the Inspector must be satisfied that the life-boat is efficient.

(*c.*) Spaces filled with or containing any material are not to be deemed air spaces.

(*d.*) A square stern boat is not to be passed as a life-boat.

(*e.*) Suitable life lines with sustaining buoys shall be securely attached to the sides or gunwales of the life-boats.

Sec. 3. The life-boats must be provided with the full complement of oars, one for each rowlock, and two spare oars, all securely lashed inside ready for use.

(*a.*) With two plugs for each plug hole, attached with lanyards or chains, and one and one half sets of thole pins or crutches attached to the boat by lanyards and ready to slip in place.

(*b.*) With a sea anchor, a rudder and tiller, or yoke and yoke lines, a painter of sufficient length to reach from the davits to the boat when in the water and to tow her, a bailer, a hatchet in each end of boat, and a boat-hook each attached to the boat with a good sound lanyard.

(*c.*) If the steam-boat is plying at sea (on salt water) a vessel must be kept in each boat filled with fresh water, (and at least one life-boat must be fitted with a mast or masts, and sail or sails and proper gear for each), and an efficient compass and one gallon of vegetable or animal oil, and a vessel or apparatus of approved pattern for distributing it on the water in rough weather, and with a lantern trimmed with oil in its receiver sufficient to burn eight hours.

(*d.*) Means for detaching quickly the life-boat from the lower blocks of the davits must be provided, an ordinary fixed hook in the lower block should not be allowed, the boat's davits must be strong enough and so spaced that the boat can be swung out readily, so that the boat's chocks can be readily removed, and that the boat will not foul the ship's sides in lowering when the ship has no list, and that the whole of the tackling, davits, falls, blocks, eye bolts, and apparatus are of sufficient strength to lower the boat with its full complement of crew and apparatus on board.

Sec. 4. Every boat shall be kept in good condition, water tight and ready for immediate use ; when wood is used as fuel for heating the boilers of high pressure (non condensing) steam-boats, the covers of such boats shall be made of wood covered with zinc ; and every boat shall have the name of the steam-boat to which it belongs, and the name of her port of registry, legibly painted on her bows and stern.

Sec. 5. Every such steam-boat shall be provided with sufficient means for lowering from on board safely and expeditiously the boats hereinbefore required to be on board of or attached to such steam-boat ; and Masters of steam-boats shall detail their crews and exercise them in lowering and handling the said boats, and life-boats at least once a week, alternately.

Sec. 6. Every such boat shall be hung in separate davits, with lowering apparatus complete and ready for instant lowering ; provided, that in any case where any such steam-boat carries two life-boats, one of the other boats may be carried on the hurricane deck without davits.

Sec. 7. No steamboat employed chiefly in the carriage of freight, when carrying not more than twenty-five passengers, shall be required to have on board or attached to such steam-boat more than two boats in addition to a life-boat.

Sec. 8. The Minister of Marine and Fisheries may authorize the use in individual, specified cases, of a greater or less number of boats, or of different dimensions from those hereinbefore specified, and upon such authorization being granted, it shall be sufficient for any such steam-boat to carry and be provided with boats of the dimensions specified in such authorization :

Sec. 9. Steam-boats confined to the navigation of the River St. John above Fredericton, the waters in the District of Muskoka, the County of Victoria, and the County of Peterborough, in the Province of Ontario, and the waters of the Ottawa river and its tributaries above the City of Ottawa, or of lakes or rivers not exceeding one mile in width at any point on the route of such steam-boat, and which are employed in the carriage of passengers, shall carry at least one good boat provided with four oars, and of sufficient capacity to carry not less than twelve persons besides the crew.

Sec. 10. Every steam-boat employed in the carriage of passengers, and used only in the navigation of rivers or inland waters, other than the rivers and inland waters hereinbefore provided for, shall, if such steam-boat exceeds one hundred and fifty tons registered tonnage carry at least two good boats provided with four oars each, and of sufficient capacity to carry with safety at least twelve persons besides the crew ; and if such steam-boat does not exceed one hundred and fifty tons and is not less than fifty tons registered tonnage, she shall not be required to carry more than one such boat ; and if such steam-boat is less than fifty tons registered tonnage, she shall carry one good boat of the size and description, and provided in the manner approved of in each case by the Inspector.

Sec. 11. Every steam-boat not employed in the carriage of passengers, and every steam-boat to which the foregoing provisions of this section do not apply, shall at all times, when the crew thereof is on board, be provided with and have on board or attached to such steam-boat in some convenient place a good, suitable and sufficient boat, or good, suitable and sufficient boats, in good condition and properly equipped, and provided with oars in sufficient number and other necessary tackle, and of sufficient capacity to carry all the crew of such steam-boat, and with sufficient mean for lowering such boat or boats from on board safely and expeditiously.

Sec. 12. The carrying capacity in the number of persons of boats shall be determined by multiplying the length of keel by the breadth outside, and by the depth from top of keel to bottom of rowlock in feet, and divide by 10, the quotient being the number of persons allowed to each boat.

Life-Rafts and Life-Buoys.

Sec. 13. Life-rafts must be approved by the Board of Steam-boat Inspection before the number of persons they may be allowed to carry can be determined, provided that not less than three cubic feet of strong serviceable inclosed air-tight compartments, constructed so that water cannot find its way into them, shall be the amount of air space to each person carried on the raft.

Sec. 14. Approved buoyant apparatus must not require to be inflated before use, shall be of approved construction and marked in such a way as to plainly indicate the number of adult persons it can carry.

The buoyancy of such apparatus for the number of persons to be carried may be ascertained by dividing

the number of pounds of iron it is capable of supporting in fresh water by 32.

Sec. 15. An approved life-buoy may be built of solid cork capable of floating in the water for at least 24 hours with 32 pounds of iron suspended from it; or—

(*a.*) A strong life-buoy of any other approved pattern and material, provided that it is capable of floating in the water for at least 24 hours with 32 pounds of iron suspended from it, and provided that it is not stuffed with rushes, cork shavings, or other shavings, or loose granulated cork or other loose material, and does not require inflation before use. There must not be a less number than two life-buoys on each passenger steamboat carrying by law two boats, with good line of suitable length attached to each buoy and kept at all times ready for instant use.

(*b.*) The air cases for life-rafts are not to exceed the length approved by the Board (four feet), with hooked, hammered and soldered joints, or riveted, and if made of iron to be galvanized, to be substantially enclosed with wood to be close-jointed.

The covering of the air cases in boats should be fastened with brass screws so they can be readily taken off to examine the air cases.

Collapsible boats may be used if approved by an Inspector, with the consent of the Chairman.

Sec. 16. No new pattern of or material in life-boats, life-rafts or life-buoys is to be passed unless approved by the Board of Steam-boat Inspection.

Life-Preservers.

Sec. 17. No steam-boat carrying passengers shall proceed to sea from any port or place in Canada, or depart from any port or place, or ply on any of the Lakes St. John, Memphremagog, Ontario, Erie, Huron, Georgian Bay, Simcoe, or Superior, or on the River St. Lawrence, or on the Rivers Ottawa or St. John, or on any lake or river in Manitoba, British Columbia, or the North-west Territories, or the District of Keewatin, which is, at any point on the route of such steamer, more than one mile broad, or shall navigate in a bay or arm of the sea in Canada, unless she is provided with and carries on board thereof on every such voyage,—

(*a.*) Two hundred life-preservers (life-belts), if such steam-boat is of the registered tonnage of two hundred tons and upwards; or (*b*) three life-preservers for every five tons, if such steam-boat is of less than two hundred tons registered tonnage.

Sec. 18. Every steam-boat carrying passengers on rivers or inland waters other than the lakes and rivers provided for in the next preceding section, if of the registered tonnage of two hundred tons and upwards, shall be provided with and shall carry on board thereof on every voyage, not less than one hundred life-preservers, and if of less than two hundred tons registered tonnage, such steam-boat shall be provided with and shall carry on board thereof on every voyage fifty life-preservers.

Sec. 19. Provided always, that the maximum number of such life-preservers required on any steam-boat shall not exceed two hundred; but in any steam-boat, as to which the boat capacity, and the number of life-preservers together, fall short of the number of passengers she is allowed to carry by her certificate of inspection, such deficiency shall be supplied by a number of wooden floats, each equal in buoyancy to one cubic foot of seasoned white pine, equal to the number of passengers and crew not provided for in the boats, together with the life-preservers.

Sec. 20. No steam-boat employed chiefly in the carriage of freight, when carrying not more than sixty passengers, shall be required to be provided with or carry on board on any voyage, more than one life-preserver for each passenger, and one life-preserver for each of the crew then on board of such steam-boat.

Sec. 21. Every steam-boat not employed in the carriage of passengers, and every steam-boat to which the preceding sections 17, 18, 19 and 20, do not apply, shall, at all times when the crew thereof is on board, be provided with a life-preserver for each one of the crew.

Sec. 22. Each of such life-preservers (life-belts) shall be capable of floating in fresh water for 24 hours with 15 pounds of iron suspended from it. It should be cut out 2 inches under the arm-pits, and fitted and secured so as to remain securely in its place when put on, with shoulder straps and waist belt, or by other means approved by the Inspector. When any other material than solid cork is use for buoyancy it must first be specially approved by the Board of Steam-boat Inspection, and the life-preservers (life-belts) shall at all times be kept in convenient and accessible places in the state rooms or on the deck of such steam-boat, under cover and in readiness for immediate use.

Sec. 23. A cork jacket with shoulder straps and waist lines for fastening the same around the body, or such other description of life-preserver as the Governor in Council may approve, shall be the form of life-preserver to be used on passenger steam-boats.

Passenger Barges, Towed.

Sec. 24. Any barge, boat, bateau, scow, or undecked vessel having passengers on board, towed by a tug. before being granted a certificate of inspection, must be equipped with a boat or boats, life-preservers, life-buoys, and life-rafts, or any or all of the equipment named herein in addition to the equipment named in section 9 of the Act of the Parliament of Canada, intituled: "An Act further to amend the Steam-boat Inspection Act," and assented to on the 10th May, 1892, to the satisfaction of the Steam-boat Inspector who inspects her, who shall require her to be equipped with suitable life-saving equipment for the waters on which she is to ply, as well as suitable private conveniences or closets for the use of passengers.

(*a.*) The boats and boat equipment required must not be less than specified in section 1 (*b.*) of these rules, and in order to have the capacity required to carry twelve adult persons with the crew, or seventeen persons in all, on 17 feet length of keel must be 5 feet beam, by 2 feet depth, the capacity being found by multiplying length, breadth and depth, and dividing by 10.

NOTICE TO MARINERS.

No. 34 of 1892.

CHANGE IN CAPE FOURCHU LIGHT.

Referring to Notice to Mariners No. 6 of 1892, notice is hereby given that the improvement in the illuminating apparatus of Cape Fourchu Lighthouse, in the County of Yarmouth, on the Bay of Fundy coast of Nova Scotia, has been completed, and the changed light will be put in operation for the first time on the night of the 20th instant.

Lat. N. 43° 47' 28"
Long. W. 66° 9' 20"

The light will in future be a revolving white light, showing three bright flashes with intervals of 20 seconds between their points of greatest brilliancy, followed by an interval of 40 seconds, during the greater part of which the light will be eclipsed; the light thus completing a revolution in 80 seconds.

The fixed white light temporarily maintained during the progress of the improvements will be discontinued from the time the revolving light is put in operation.

This notice affects Admiralty charts Nos. 352, 2537, 2538 and 2670 and Canadian List of Lights and Fog Signals No. 432.

WM. SMITH,
Deputy Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 18th August, 1892.

☞ All bearings are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy Minister of Marine, Ottawa, Canada. 9–3

NOTICE TO MARINERS.

No. 33 of 1892.

CHANGE IN DESCRIPTION OF ENTRANCE ISLAND LIGHT.

The catoptric light hitherto shown from Entrance Island Lighthouse, Strait of Georgia, British Columbia, has been replaced by a fifth order dioptric fixed white light with a red sector.

Lat. N. 49° 12' 50"
Long. W. 123° 48' 45"

The light shows fixed white or bright from all points seaward, except through an arc of 7½ degrees, between the bearings of W. (N. 67° W. true) and W. by N. ½ N. (N. 59½° W. true), which is covered by a sector of red light shown over Gabriola Reef. On the last-named bearing, and from points to the southward of it, the light is obscured by Flat Top Islands and Gabriola Island. The red light is intended as a guide to vessels coming from the southward which, when near Gabriola Reef should not alter their course to the westward until the light changes from red to white. The light will change when bearing west, this bearing clearing Gabriola Reef Buoy, moored one cable north-east of Thrasher Rock, half a mile to the northward.

In all other respects the light and station will remain as heretofore.

This notice affects Admiralty charts Nos. 579 and 1917, and Canadian List of Lights and Fog Signals No. 506.

TO ADVERTISERS IN THE *GAZETTE*.

PARTIES sending advertisements to be inserted in "The Canada Gazette," will please observe the following rules :

1st. Address "The Canada Gazette, Ottawa, Canada."
2nd. Indicate the number of insertions required.
3rd. Invariably remit the fees for such advertisements, together with the price of one Gazette, as below. Otherwise they will not be inserted. The rates are ten cts. for the first insertion, and five cents for each subsequent insertion per line of nine words, each figure counting as one word. No advertisement is inserted for a less charge than one dollar.

By settled or understood practice as prescribed by law, the rules of Parliament or decisions of the Department of Justice, notices receive the following insertions :—

Notices of applications for divorce—27 insertions.

Notices of the withdrawal of deposits of Insurance Companies—13 insertions.

Notices of ordinary applications to Parliament—9 insertions.

Notices of applications for Letters Patent—6 insertions.

Notices of dividends and meetings of Banks and Insurance Companies—1 calendar month, or 5 insertions.

Subscribers will also notice that the subscription, $4 per annum, is invariably payable in advance, and that the "Gazette" will be stopped from them at the end of the period paid for. Single numbers will be charged ten cts. each, and when more than one are required by advertisers, must be remitted for likewise.

Queen's Printer and Controller of Stationery.
Department of Public Printing and Stationery,
Ottawa, November, 1891.

APPLICATIONS TO PARLIAMENT.

Rules relating to Notices for Private Bills.

All applications for Private Bills, properly the subjects of legislation by the Parliament of Canada, within the purview of "The British North America Act, 1867," whether for the erection of a Bridge, the making of a Railroad, Turnpike Road or Telegraph Line; the construction or improvement of a Harbour, Canal, Lock, Dam or Slide, or other like work; the granting the right of Ferry; the incorporation of any particular Trade or Calling, or of any Banking or other Joint Stock Company; or otherwise for the granting to any individual or individuals, any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which, in its operation, would affect the rights or property of other parties, or relate to any particular class of the community; or for making any amendment of a like nature to any former Act, shall require a Notice, clearly and distinctly specifying the nature and object of the application, and (except in the case of existing corporations) signed by, or on behalf of the applicants, to be published as follows, viz :

In the Provinces of Quebec and Manitoba.

A notice inserted in the *Canada Gazette*, in the English and French languages, and in one newspaper in the English, and in one in the French language in the District affected, or in both languages in one paper, if there be but one in the said District, or if there be no paper published therein, then, in both languages, in a paper in the nearest District in which a newspaper is published.

In any other Province or Territory.

A notice inserted in the *Canada Gazette*, and in one newspaper published in the County or District, or Union of Counties affected, or if there be no paper published therein, then in a newspaper in the nearest County or District in which a newspaper is published. Such Notices to be continued in each case, for a period of two months during the interval of time between the close of the next preceding Session and the consideration of the Petition. And copies of the newspapers containing the first and last insertion of such notice shall be sent to the Clerk of each House.

When a Petition is for leave to bring in a Private Bill for the erection of a Toll Bridge, the petitioner or petitioners, upon giving the notice prescribed by the preceding Rule, shall also, at the same time, and in the same manner, give notice of the rates which they intend to ask; the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and whether they intend to erect a drawbridge, and the dimensions of the same.

Any person seeking to obtain any Private Bill shall, eight days before the meeting of Parliament, deposit with the Clerk of the House, in which the bill is to originate, a copy of such bill in the English or French language, with a sum sufficient to pay for translating and printing the same—600 copies to be printed in English, and 200 copies in French—the translation to be done by the officers of the House, and the printing by the contractor. The applicant shall be also required to pay the Clerk of the Senate, or the accountant of the House of Commons (as the case may be) a sum of $200 and the cost of printing the Act in the Statutes, and lodge the receipt of the same with the Clerk of the Committee to which such Bill is referred—such payment to be made immediately after the second reading, and before the consideration of the Bill by such Committee.

The fee payable on any Private Bill is paid only in the House in which it originates.

No Petition for a Private Bill is received by either House after the first ten days of the session.

EDOUARD J. LANGEVIN,
Clerk of the Senate.

JOHN GEORGE BOURINOT,
Clerk of the Commons.

—

Additional Rules of the House of Commons respecting Private Bills.

All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the *clauses* of the *General Acts* relating to the details to be provided for by such Bills;—special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof, in which the *General Act* is proposed to be departed from;—Bills which are not framed in accordance with this *Rule*, shall be re-cast by the promoters, and reprinted at their expense, before any Committee passes upon the *Clauses*.

51*a*. All Private Bills for Acts of incorporation of, or in amendment of Acts incorporating Railway Companies, shall be drawn in accordance with the Model Bill adopted by the House on 23rd June, 1887, copies of which may be obtained from the Clerk of the House.

(a.) The provisions contained in any Bill which are not in accord with the Model Bill, shall be inserted between brackets, and when revised by the proper officer shall be so printed, and bills which are not in accordance with this Rule shall be returned to the promoters to be re-cast before being revised and printed;

(b.) Any sections of existing Acts which are proposed to be amended shall be re-printed in full with the amendments inserted in their proper places and between brackets;

(c.) Any exceptional provisions that it may be proposed to insert in any Bill shall be clearly specified in the Notice of Application for the same.

51*b*. No Bill for the incorporation of a Railway Company, or for changing the route of the railway of any company already incorporated, shall be considered by the Railway Committee until there has been filed with the Committee, at least one week before the consideration of the Bill :—

(a.) A Map or Plan drawn upon a scale of not less than half an inch to the mile, showing the location upon which it is intended to construct the proposed work, and showing also the lines of existing or authorized works of a similar character within, or in any way affecting the district, or any part thereof, which the proposed work is intended to serve, and such map

or plan shall be signed by the Engineer or other person making the same ;

(b.) An exhibit showing the total amount of capital proposed to be raised for the purposes of the undertaking, and the manner in which it is proposed to raise the same, whether by ordinary shares, bonds, debentures, or other securities, and the amount of each, respectively.

JOHN GEORGE BOURINOT,
Clerk of the Commons.

SUBSTANCE OF RULES OF THE SENATE RELATING TO NOTICES AND APPLICATIONS FOR BILLS OF DIVORCE.

Every applicant for a Bill of Divorce shall give notice of his or her intended application, and shall specify therein from whom and for what cause such divorce is sought, and shall cause such notice to be published during six months before the presentation of his or her petition for the said Bill, in the CANADA GAZETTE and in two newspapers published in the District in Quebec, Manitoba, British Columbia or the North-West Territories, or in the County or Union of Counties in other Provinces, wherein such applicant usually resided at the time of the separation of the parties ; but if the requisite number of papers cannot be found therein, then in an adjoining District or County or Union of Counties. Notices given in the Provinces of Quebec and Manitoba are to be published in one English and one French newspaper, if there be such newspapers published in the District, but otherwise shall be published in each newspaper in both languages.

A copy of the said Notice shall, not less than one month before the date of the presentation of the Petition, at the instance of the applicant, be served personally on the person from whom the divorce is sought, when that can be done.

No petition for divorce shall be received after the first thirty days of each session.

The petition of an applicant for divorce must be fairly written and must be signed by the Petitioner, and should briefly set forth the marriage, when, where and by whom the ceremony was performed, the grounds on which relief is asked and the nature of the relief prayed, and should also negative condonation, collusion and connivance. The allegations of the petition must be verified by declaration of the Petitioner, under the "*Act respecting Extra-Judicial Oaths.*"

The applicant shall deposit with the Clerk of the Senate, eight days before the opening of Parliament, a copy, in the English or French language, of the proposed Bill of Divorce, and therewith a sum sufficient to pay for translating and printing 600 copies thereof in English and 200 copies in French.

No petition for a Bill of Divorce shall be presented unless the applicant has paid into the hands of the Clerk of the Senate the sum of two hundred dollars ($200).

The petition when presented shall be accompanied by the evidence of the publication of the notice, and by declaration in evidence of the service of a copy thereof, and by a copy of the proposed Bill.

EDOUARD J. LANGEVIN,
Clerk of the Senate.

VICTORIA, par la Grâce de Dieu, Reine du Royaume-Uni de la Grande-Bretagne et d'Irlande, défenseur de la foi, etc., etc., etc.

A tous ceux qui les présentes verront ou qu'icelles pourront concerner,—SALUT :

PROCLAMATION.

ROBT. SEDGEWICK, Député du ministre de la Justice, Canada. } ATTENDU qu'en vertu des dispositions de l'Acte de tempérance du Canada, l'avis suivant a été adressé au Secrétaire d'Etat pour le Canada, accompagné de la pétition ci-jointe :—

"A l'honorable Secrétaire d'Etat du Canada,—

"MONSIEUR,—Nous, soussignés, électeurs du comté "de Northumberland, vous prions de prendre connais-"sance que nous désirons présenter la pétition ci-"dessous à Son Excellence le Gouverneur général "du Canada en conseil :

"'La pétition des électeurs du comté de Northum-"'berland, dans la province du Nouveau-Brunswick, "'ayant qualité et capacité pour voter à l'élection "'d'un membre de la Chambre des Communes, dans "'le dit comté,—Expose respectueusement,—

"'Que vos pétitionnaires désirent que l'arrêté en "'conseil mettant en vigueur dans le dit comté la "'seconde partie de l'Acte de tempérance du Canada "'soit révoqué, et en conséquence vos pétitionnaires "'prient humblement qu'il plaise à Votre Excellence "'par un arrêté en conseil en vertu du neuvième article "'de "l'Acte à l'effet de modifier l'Acte de tempérance "'du Canada, 1888," de déclarer que le dit arrêté en "'conseil mettant en vigueur, dans le dit comté, telle "'seconde partie du dit "Acte de tempérance du "'Canada," ne sera plus en vigueur.

"'Et vos requérants ne cesseront de prier, etc.'

"Et que nous désirons que les votes de tous les "électeurs du dit comté soient enregistrés pour et "contre la révocation du dit arrêté en conseil."

Et attendu que la deuxième partie du dit Acte a été mise en vigueur dans le dit comté de Northumberland, dans la province du Nouveau-Brunswick, par un ordre en conseil du quatrième jour de novembre, dans l'année de Notre-Seigneur mil huit cent quatre-vingt ;

Et attendu qu'il appert à la satisfaction du Gouverneur général en conseil que cette pétition est revêtue des signatures authentiques d'un quart ou plus de tous les électeurs du dit comté de Northumberland, dans la province du Nouveau-Brunswick ; qu'il est constaté que les signatures apposées à la pétition sont des signatures authentiques au nombre de mille neuf cent vingt-un, et que les autres exigences de l'acte ont été observées ;

Et attendu qu'un ordre du Gouverneur général en conseil a été passé, ordonnant que les votes de tous les électeurs dit comté de Northumberland soient enregistrés pour ou contre l'adoption de la dite pétition,—

SACHEZ maintenant, que, par les présentes et en vertu de l'autorité qui Nous est conférée par le dit acte et le dit ordre en conseil, Nous proclamons et déclarons que jeudi, le vingt-neuvième jour de septembre prochain, un poll sera tenu dans le dit comté de Northumberland, pour y recevoir les votes des électeurs pour et contre la dite pétition. Que ces votes seront enregistrés au scrutin secret depuis neuf heures du matin jusqu'à cinq heures de l'après-midi de ce jour-là.

Que John Shirreff, de Newcastle, dans le dit comté, écuyer, shérif du dit comté de Northumberland, a été nommé officier-rapporteur dans le but de recevoir ce jour-là les votes des électeurs pour et contre la pétition, de compter ensuite les votes, et puis de faire rapport du résultat au Gouverneur général en conseil. Que le dit officier-rapporteur est autorisé et requis de nommer un sous-officier-rapporteur à et pour chaque bureau de votation. Que l'officier-rapporteur nommera les différentes personnes qui devront se tenir aux différents bureaux de votation, et qui devront faire le décompte final des votes, au nom des personnes autorisées à favoriser ou à s'opposer respectivement à l'adoption de la pétition, au bureau du Shérif, à Newcastle susdit, lundi, le vingt-sixième jour de septembre prochain, à dix heures de l'avant-

midi. Que les votes des électeurs seront comptés, et le résultat de la votation annoncé par l'officier-rapporteur au bureau du Shérif à Newcastle susdit, lundi, le troisième jour d'octobre prochain, à dix heures de l'avant-midi.

Et, dans le cas d'adoption de la pétition par les électeurs, le Gouverneur général en conseil pourra, en tout temps après l'expiration d'une période de trente jours depuis la date de l'adoption de la dite pétition, et après l'expiration de trois années à compter du jour de l'entrée en vigueur de la deuxième partie du dit acte dans le dit comté de Northumberland, en vertu du dit ordre en conseil en date du quatrième jour de novembre mil huit cent quatre-vingt, par un ordre en conseil publié dans la *Gazette du Canada*, révoquer le dit ordre en conseil du quatrième jour de novembre mil huit cent quatre-vingt, par lequel la deuxième partie de l'Acte de tempérance du Canada devenait exécutoire dans le dit comté de Northumberland, tel que y mentionné.

De ce qui précède Nos féaux sujets et tous ceux que les présentes peuvent concerner, sont par les présentes requis d'en prendre avis et d'agir en conséquence.

EN FOI DE QUOI, Nous avons fait émettre nos présentes Lettres Patentes et à icelles fait apposer le Grand Sceau du Canada. TÉMOIN, Notre très fidèle et bien-aimé le Très-honorable Sir FREDERICK ARTHUR STANLEY, Baron Stanley de Preston, dans le comté de Lancaster, dans la Pairie du Royaume-Uni, Chevalier Grand-croix de Notre Très-honorable Ordre du Bain ; Gouverneur général du Canada.

A Notre Hôtel du Gouvernement, en Notre CITÉ d'OTTAWA, ce SEIZIÈME jour d'AOUT, dans l'année de Notre-Seigneur, mil huit cent quatre-vingt-douze, et de Notre Règne la cinquante-sixième.

Par ordre,
J. C. PATTERSON,
Secrétaire d'Etat.

ARRÊTÉS EN CONSEIL.

HOTEL DU GOUVERNEMENT À OTTAWA.

Samedi, le 27e jour d'août 1892.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT que par l'article 190 de "l'Acte du Revenu de l'Intérieur," il est statué que le cautionnement à donner est une somme égale au montant auquel le percepteur estimera que les droits pourront s'élever sur les effets à manufacturer dans le cours d'un mois, et telle autre somme que le percepteur jugera suffisante pour couvrir le droit sur les effets restant en entrepôt de temps à autre dans le cours de la licence ;

Et considérant que l'augmentation du droit de un à deux centins par livre sur le malt a rendu très oppressives les dispositions de la loi précitées quant au montant des cautionnements que doivent donner les malteurs,—

Il plaît à Son Excellence, en vertu du pouvoir qui lui est conféré par "l'Acte du Revenu de l'Intérieur," et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'autoriser le ministre du Revenu de l'intérieur à fixer le montant du cautionnement que doivent donner les malteurs, et cette autorisation est en conséquence conférée.

JOHN J. McGEE,
Greffier du Conseil privé.

11-4

HOTEL DU GOUVERNEMENT À OTTAWA.

Mardi, le 16e jour d'août 1892.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, par et avec l'avis du Conseil privé de la Reine pour le Canada, et en vertu des pouvoirs qui lui sont conférés par le chapitre 78 des Statuts Revisés, intitulé "Acte concernant l'inspection des bateaux à vapeur, et l'examen et les commissions des mécaniciens qui y sont employés," et ses modifications, d'approuver les modifications ci-dessous apportées aux Règlements concernant l'inspection des chaudières et boussoles des bateaux à vapeur, et les nouveaux règlements concernant l'inspection des arbres moteurs de bateaux à vapeur, et l'épreuve des nouvelles machines de bateaux à vapeur, qui ont été passés par le Bureau d'inspection des bateaux à vapeur.

—

MODIFICATIONS AUX RÈGLEMENTS CONCERNANT L'INSPECTION DES CHAUDIÈRES DE BATEAUX À VAPEUR.

Chaudières.

1. L'art. 40, partie I, et l'art. 74, partie II, sont par le présent modifiés en ajoutant dix pour cent au résultat de la formule (*b*) :—

$$\frac{90{,}000 \times T^2}{(L+1) \times D} = \text{la pression effective, lorsque}$$

T = l'épaisseur de la tôle en pouces.
D = le diamètre extérieur du carneau en pouces.
L = la longueur du carneau ou du fourneau en pieds, ou la longueur entre les anneaux en pieds, s'il est renforcé par des anneaux propices ou des joints Adamson.

2. L'art. 36 (*r*) et l'art. 41 (*a*), partie I, et l'art. 75 (*a*), partie II, sont par le présent modifiés en employant 14,000 au lieu de 12,500 dans la formule :—

$$\frac{12{,}500 \times \text{l'épaisseur en pouces}}{\text{Diamètre moyen en pouces}} = \text{la pression effective par pouce carré.}$$

3. L'article 30, partie I, et l'art. 68, partie II, sont par le présent modifiés en y ajoutant les paragraphes suivants :—

"Lorsqu'un surchauffeur est muni d'un tube soumis "à une pression extérieure, on devra constater la pres- "sion effective au moyen des règlements donnés pour "les fourneaux circulaires en fer, mais les constantes "devraient être réduites comme trente est à quarante- "sept.

"Si l'on se propose d'employer de l'acier dans des "surchauffeurs, les détails devraient être soumis au "Bureau d'inspection des bateaux à vapeur, ou au pré- "sident, si le Bureau ne siège pas, pour sa considé- "ration ; mais on ne doit jamais encourager une telle "chose ; ceci s'applique aux courants de flammes non "munis d'écrans de toutes les chaudières, y compris "les petites chaudières alimentaires verticales ordi- "naires."

—

MODIFICATIONS AUX RÈGLEMENTS CONCERNANT L'INSPECTION DES BOUSSOLES À BORD DES BATEAUX À VAPEUR.

Boussoles.

L'art. 22, partie VII, est par le présent modifié en substituant les mots "personne compétente" au mot "inspecteur," dans la cinquième ligne, et en ajoutant les mots "d'inspection" après le mot "certificat" dans la dernière ligne.

—

RÈGLEMENTS CONCERNANT L'INSPECTION DES ARBRES MOTEURS DES BATEAUX À VAPEUR.

Arbres moteurs.

4. Aucun arbre moteur, arbre de couche, arbre droit ou arbre des roues ayant un moindre diamètre que celui trouvé par la formule suivante, ne devrait être accepté sans avoir d'abord soumis le cas au président du Bureau d'inspection des bateaux à vapeur.

Pour les machines mixtes à condenser avec deux cylindres ou plus, lorsque les axes coudés ne sont pas suspendus :—

$$S = \sqrt[3]{\frac{C \times P \times D^2}{f\left(2+\frac{D^2}{d^2}\right)}}$$

$$P = \frac{f \times S^3}{C \times D^2}\left(2+\frac{D^2}{d^2}\right)$$

Lorsque S = le diamètre de l'arbre en pouces.

Lorsque d^2 = le carré du diamètre du cylindre à haute pression en pouces, ou la somme des carrés des diamètres, dans les cas où il y a deux cylindres à haute pression ou plus.

Lorsque D^2 = le carré du diamètre d'un cylindre à basse pression en pouces, ou la somme des carrés des diamètres dans les cas où il y a deux cylindres à basse pression ou plus.

Lorsque P = la pression absolue en livres par pouce carré, c'est-à-dire, la pression de chaudière *plus* 15 livres.

Lorsque C = la longueur de l'axe coudé en pouces.

Lorsque f = la constante d'après la table suivante.

NOTE.—Les cylindres à pression intermédiaire ne paraissent pas dans la formule.

Pour les machines à condenser ordinaires, avec un ou deux cylindres et plus, alors que les axes coudés ne sont pas suspendus :—

$$S = \sqrt[3]{\frac{C \times P \times D^2}{3 \times f}}$$

$$P = \frac{3 \times f \times S^3}{C \times D^2}$$

Lorsque S = le diamètre de l'arbre en pouces.

D^2 = le carré du diamètre du cylindre en pouces, ou la somme des carrés des diamètres, dans les cas où il y a deux cylindres ou plus.

P = la pression absolue en livres par pouce carré, c'est-à-dire la pression de chaudière, *plus* 15 livres.

C = la longueur de l'axe coudé en pouces.

f = la constante d'après la table suivante :

TABLE.

Pour deux axes coudés. Angles entre les axes.	Pour arbres moteurs et de manivelle. *f.*	Pour arbres droits. *f.*
90°	1,047	1,221
100°	996	1,128
110°	904	1,055
120°	855	997
130°	817	953
140°	788	919
150°	766	894
160°	751	877
170°	743	867
180°	740	864
Pour trois axes coudés 120°.	1,110	1,295

Pour les machines à roues d'un modèle ordinaire, multipliez la constante dans cette colonne pour l'angle des axes coudés par 1·4.

NOTE.—Lorsqu'il n'y a qu'un axe coudé, les constantes applicables sont celles dans la table vis-à-vis 180°.

RÈGLEMENTS CONCERNANT L'ÉPREUVE DE NOUVELLES MACHINES À BORD DE VAPEURS À PASSAGERS.

Dans le cas de nouvelles machines à bord de vapeurs à passagers, les inspecteurs devront les voir éprouver lorsque les bateaux sont en marche, à pleine vapeur, afin de s'assurer autant que possible qu'il n'existe pas de défauts dans les diverses parties de la machine qui auraient échappé à l'examen de l'inspecteur, tel que prescrit par l'article 15 de l'acte 49 Victoria, chap. 78.

JOHN J. McGEE,
10–4 Greffier du Conseil privé.

HOTEL DU GOUVERNEMENT À OTTAWA.

Mardi, le 2e jour d'août 1892.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT que le parlement du Canada, à sa dernière session, a passé un acte, 55-56 Victoria, chapitre 19, intitulé "Acte modifiant de nouveau l'Acte d'inspection des bateaux à vapeur," dans lequel il est entre autres choses statué, par les articles 4 et 5, que le Gouverneur en conseil pourra faire les règlements qu'il jugera à propos au sujet des canots, ceintures de sauvetage, et autres appareils de sauvetage que devront porter les bateaux à vapeur ou autres navires mentionnés au dit acte ;

Et considérant qu'il est en outre statué que le dit acte entrera en vigueur à compter d'une date désignée par proclamation du Gouverneur en conseil, et que Son Excellence le Gouverneur général en conseil, par une proclamation datée le 2e jour d'août 1892, a déclaré que le dit acte deviendrait exécutoire le quinzième jour d'août 1892,—

Il plaît à Son Excellence, en vertu des pouvoirs qui lui sont conférés par les articles 4 et 5 du susdit acte, et par et avec l'avis du Conseil privé de la Reine pour le Canada, de faire les règlements ci-dessous concernant les canots, ceintures et autres appareils de sauvetage que devront porter les bateaux à vapeur ou autres vaisseaux mentionnés dans le dit acte, ces dits règlements devenant exécutoires à compter du jour qui suivra le jour fixé par la susdite proclamation, comme celui auquel le dit acte 55-56 Victoria, chapitre 19, entrera en vigueur au Canada.

JOHN J. McGEE,
Greffier du Conseil privé.

—

RÈGLES ET RÈGLEMENTS concernant l'inspection des canots, bouées et autres appareils de sauvetage que devront porter les bateaux à vapeur ou autres vaisseaux sous l'empire de l'Acte d'inspection des bateaux à vapeur, et ses amendements.

Canots.

Art. 1. On observera les dispositions ci-jointes au sujet des canots que devront porter les bateaux à vapeur :—

(*a.*) Nul bateau à vapeur ayant des passagers à bord ne prendra la mer d'un port ou endroit en Canada, ou ne partira d'un port ou endroit, ou ne naviguera sur aucun des lacs Saint-Jean, Memphremagog, Ontario, Erié, Huron ou Baie Georgienne, Simcoe, ou Supérieur, ou sur le fleuve Saint-Laurent, ou sur les rivières Ottawa, ou Saint-Jean, ou sur aucun lac ou rivière dans le Manitoba, la Colombie-Britannique ou les Territoires du Nord-Ouest, ou le district de Kéwatin, qui aura plus d'un mille de largeur à un point quelconque sur la route de ce bateau à vapeur ;

(*b.*) Sans avoir à bord, ou attachés à ce bateau à vapeur, des canots solides bien équipés et en bonne condition, d'au moins dix-sept pieds de quille chacun, et munis de six rames et autres agrès nécessaires, et pouvant soutenir chacun au moins douze personnes adultes à part l'équipage du canot.

Ces canots seront dans la proportion suivante quant au tonnage de registre de ce bateau à vapeur, savoir :—

Au moins un canot pour chaque bateau à vapeur de moins de cinquante tonneaux ;

Au moins deux canots pour chaque bateau à vapeur de cinquante tonneaux et plus, mais de moins de (300) trois cents tonneaux ;

Au moins trois canots pour chaque bateau à vapeur de trois cents tonneaux et plus ; et

(*c.*) Si ce bateau à vapeur est du tonnage de registre de cent tonneaux ou plus de (300) trois cents tonneaux, sans qu'il ait à bord ou y attachés en sus des canots ci-dessus exigés,—

Un bon et solide canot de sauvetage capable de soutenir à l'intérieur trente personnes. Ce canot de sauvetage sera censé être d'une capacité suffisante s'il a les dimensions suivantes : Longueur de quille, vingt-deux pieds ; largeur du bau en dehors, cinq pieds six pouces ; profondeur depuis le dessus de la quille jusqu'au dessus du plat-bord, en bas des toletières ; deux pieds neuf pouces ; ou

Deux bons et solides canots de sauvetage, chacun capable de soutenir à l'intérieur vingt personnes. Ces canots de sauvetage seront censés d'une capacité suffisante s'ils ont les dimensions suivantes : Longueur de quille, dix-huit pieds, largeur à l'extérieur, cinq pieds deux pouces ; profondeur depuis le dessus de la quille jusqu'au dessus du plat-bord, deux pieds deux pouces ;

(*d.*) Si ce bateau à vapeur a un tonnage de registre de (300) trois cents tonneaux ou plus jusqu'à six cents tonneaux ou plus (alors que le nombre des canots de

sauvetage pourra être augmenté à la satisfaction de l'inspecteur), sans qu'il ait à bord ou y attachés, en sus des canots exigés,—

Deux bons et solides canots de sauvetage capables de soutenir à l'intérieur trente personnes, ou quatre bons et solides canots de sauvetage chacun capable de soutenir à l'intérieur vingt personnes, et chacun de la grandeur décrite à (*c*) au moins.

Art. 2. Chaque canot de sauvetage sera fait de métal convenable d'une épaisseur égale au fil métallique n° 18, ou de bois sur le modèle des baleinières, avec une tonture d'environ ¾ de pouce par pied, s'élevant également depuis le milieu du canot jusqu'à l'avant et derrière. Il aura de bons compartiments imperméables à l'air aux bouts et aux côtés, faits de bois ou de métal ; ces compartiments auront une capacité en pieds cubes de un dixième de la capacité du canot. Cette capacité se trouve en multipliant la longueur et la largeur à l'extérieur, et la profondeur en dedans depuis le dessous des toletières ou dessus du plat-bord en pieds, et par ·6, le resultat égale les pieds cubes voulus dans les compartiments intérieurs et extérieurs, dont environ la moitié doit être à l'extérieur ; et en divisant par 10, donnera le nombre de personnes que le canot de sauvetage sera censé pouvoir porter. A l'extérieur on pourra employer du liége solide au lieu de compartiments imperméables à l'air ; 1·25 pied cube de liége étant considéré égal à 1 pied cube de compartiment à air ;

(*a.*) On ne doit pas employer de zinc dans la construction d'un canot de sauvetage ou de ses compartiments à air, lesquels doivent être d'un métal approuvé par le bureau d'inspection des bateaux à vapeur, ou par le président.

(*b.*) Les compartiments imperméables à l'air seront distribués de manière à donner au canot la légèreté et la solidité convenables. Il sera laissé au choix du propriétaire de placer les compartiments à air, soit sous les bancs, soit dans les bouts ou le long des côtés, pourvu qu'un canot de sauvetage efficace soit fourni a la satisfaction de l'inspecteur ;

(*c.*) Les espaces remplis ou contenant quelques matières ne seront pas censés être des espaces à air ;

(*d.*) Un bateau à poupe carrée ne sera pas considéré être un canot de sauvetage ;

(*e.*) Des cordes de sauvetage avec bouées seront convenablement attachées aux côtés ou plats-bords du canot de sauvetage.

Art. 3. Les canots de sauvetage seront munis d'un assortiment complet de rames, une pour chaque toletière, et deux rames de rechange, bien assujéties et prêtes à servir ;

(*a.*) Avec deux tampons pour chaque trou, attachés avec des aiguillettes ou des chaînes, et un jeu et demi de tolets attachés au canot par des aiguillettes et prêts à mettre en place ;

(*b.*) Avec une ancre du large, un gouvernail et un timon, et des cordes de gouvernail, une amarre assez longue pour atteindre des daviers au canot lorsqu'il est à l'eau, et le remorquer, une écope, une petite hache à chaque bout du canot, et une gaffe, aussi attachés au canot par une bonne aiguillette ;

(*c.*) Si le bateau à vapeur navigue en mer (sur l'eau salée) on devra garder à bord de chaque canot un vaisseau rempli d'eau douce (et un canot de sauvetage au moins doit être gréé d'un mât ou de mâts, et d'une voile ou de voiles et agrès), et d'une bonne boussole et un gallon d'huile animale ou végétale, et un vaisseau ou appareil d'un modèle approuvé pour la répandre sur l'eau dans le mauvais temps, et d'un fanal rempli d'huile capable de durer huit heures ;

(*d.*) On devra prendre des moyens pour détacher instantanément le canot de sauvetage des dernières poulies du davier. On ne tolèrera pas de crochet ordinaire dans la dernière poulie. Les daviers du bateau devront être assez forts et assez espacés pour pouvoir lancer le canot sans travail inutile, que les cales du canot puissent être enlevées facilement, et que le canot ne frappe pas le flanc du navire en descendant lorsque le navire n'a pas de bande, et que tous les agrès, daviers, palans, poulies, boulons à œillet et anneaux, etc., soient d'une force suffisante pour pouvoir descendre le canot avec son équipage au complet.

Art. 4. Chaque canot sera entretenu en bonne condition, étanche et prêt à servir immédiatement ; quand on se sert de bois pour chauffer les chaudières des bateaux à haute pression (non condenseurs) les abris de ces canots seront faits de bois recouvert de zinc ; et chaque canot aura le nom du bateau à vapeur auquel il appartient, ainsi que le nom de son port d'enregistrement distinctement peinturés à l'avant et à l'arrière.

Art. 5. Chaque tel bateau à vapeur sera muni de moyens suffisants pour descendre à l'eau sûrement et promptement les canots qui sont ci-dessus requis d'être à bord ou attachés à ce bateau à vapeur ; et les capitaines de bateaux à vapeur diviseront leurs équipages par escouades et les dresseront à descendre et manœuvrer les dits canots et canots de sauvetage au moins une fois par semaine, alternativement.

Art. 6. Chaque tel canot sera pendu à des daviers distincts, avec des agrès complets et prêts à le descendre sans délai ; pourvu que dans le cas où un tel bateau à vapeur porte deux canots de sauvetage, un des autres canots pourra être porté sur le pont supérieur sans daviers.

Art. 7. Nul bateau à vapeur employé principalement au transport du fret, lorsqu'il ne porte pas plus que vingt-cinq passagers, ne sera obligé d'avoir à bord ou attaché à ce bateau à vapeur que deux canots en sus d'un canot de sauvetage.

Art. 8. Le ministre de la Marine et des Pêcheries pourra autoriser l'usage dans certains cas particuliers, d'un nombre plus ou moins grand de canots, ou de dimensions différentes de ceux ci-dessus spécifiés ; et avec cette autorisation il suffira que tout tel bateau à vapeur porte et soit muni de canots des dimensions spécifiées dans telle autorisation.

Art. 9. Les bateaux à vapeur restreints à la navigation de la rivière Saint-Jean en amont de Frédéricton, les eaux du district de Muskoka, le comté de Victoria, et le comté de Peterborough dans la province d'Ontario, et les eaux de la rivière Ottawa et ses tributaires en amont de la cité d'Ottawa, ou des lacs ou rivières dont la largeur n'excèdera pas un mille à un point quelconque sur la route de ce bateau à vapeur, et qui sont employés au transport des passagers, portera au moins un bon canot muni de quatre rames, et assez grand pour pouvoir contenir au moins douze personnes, à part l'équipage.

Art. 10. Chaque bateau à vapeur employé au transport de passagers, et ne naviguant que sur des rivières ou eaux intérieures, autres que les rivières et eaux intérieures ci-dessus spécifiées, devra, si ce bateau à vapeur dépasse cent cinquante tonneaux de registre, porter au moins deux bons canots munis de quatre rames chacun, et d'une capacité suffisante pour pouvoir porter avec sûreté au moins douze personnes à part l'équipage ; et si ce bateau à vapeur ne dépasse pas cent cinquante tonneaux de registre et n'a pas moins que cinquante tonneaux de registre, il ne sera pas tenu de porter plus qu'un tel canot ; et si ce bateau à vapeur a moins que cinquante tonneaux de registre, il portera un bon canot, des grandeur et description, et gréé selon que l'approuvera l'inspecteur dans chaque cas.

Art. 11. Chaque bateau à vapeur non employé au transport des passagers, et chaque bateau à vapeur auquel les dispositions précédentes du présent article ne s'appliquent pas, devra en tout temps, lorsque son équipage est à bord, avoir à bord ou attaché à ce bateau à vapeur, dans quelque endroit propice, un bon canot solide, ou de bons canots solides, en bonne condition et convenablement équipés, et munis de rames en nombre suffisant et autres agrès nécessaires, et d'une capacité suffisante pour pouvoir porter tout l'équipage de ce bateau à vapeur, avec des moyens suffisants pour descendre ce canot ou ces canots sûrement et promptement.

Art. 12. Le nombre de pers nnes que ces canots pourront porter sera déterminé en multipliant la longueur de la quille par la largeur à l'extérieur, et par la profondeur depuis le dessus de la quille jusqu'au dessous des toletières en pieds, et divisant par 10, le quotient donnera le nombre de personnes que chaque canot pourra porter.

Radeaux et bouées de sauvetage.

Art. 13. Les radeaux de sauvetage doivent être approuvés par le bureau d'inspection des bateaux à vapeur avant de déterminer le nombre de personnes qu'ils pourront porter ; pourvu que trois pieds cubes

au moins de forts et bons compartiments à air construits de façon que l'eau n'y puisse pénétrer seront le montant d'espace d'air alloué à chaque personne portée sur le radeau.

Art. 14. Pour qu'un appareil flottant soit approuvé il ne faut pas qu'il soit nécessaire de le gonfler avant de s'en servir ; il devra être de construction approuvée, et marqué de façon à indiquer distinctement le nombre de personnes adultes qu'il peut porter.

La légèreté de cet appareil, en proportion du nombre de personnes à porter, peut être déterminée en divisant par 32 le nombre de livres de fer qu'il peut supporter dans l'eau douce.

Art. 15. Une bouée de sauvetage approuvée sera faite de liège solide capable de flotter sur l'eau pendant au moins 24 heures, avec 32 livres de fer y attachées ; ou—

(*a.*) Une forte bouée de sauvetage de tout autre modèle et de matériaux approuvés, pourvu qu'elle soit capable de flotter sur l'eau pendant au moins 24 heures avec 32 livres de fer y attachées, et pourvu qu'elle ne soit pas bourrée d'ajoncs, de râpures de liège ou autres planures, ou de liège granulé ou autre matière libre, et n'ait pas besoin d'être gonflée avant de servir. Chaque bateau à passagers que la loi oblige à porter deux canots, devra avoir au moins deux bouées de sauvetage, avec une bonne corde de longueur suffisante attachée à chaque bouée, et tenues toujours prêtes à servir à tout instant.

(*b.*) Les boîtes à air pour les radeaux de sauvetage ne doivent pas excéder la longueur approuvée par le bureau (quatre pieds), avec joints agrafés, martelés et soudés, ou rivés, et si elles sont en fer, ce fer sera galvanisé ; elles seront solidement entourées de bois à joints bien clos.

La couverture des boîtes à air dans les canots doivent être assujéties au moyen de vis de cuivre, de façon à pouvoir être facilement enlevée pour examiner les boîtes à air.

Des canots qui s'emboîtent pourront être employés s'ils sont approuvés par un inspecteur, avec le consentement du président.

Art. 16. Nul nouveau modèle ou matière pour les canots, radeaux ou bouées de sauvetage ne sera passé avant d'être approuvé par le bureau d'inspection des bateaux à vapeur.

Ceintures de sauvetage.

Art. 17. Nul bateau à vapeur transportant des passagers ne prendra la mer d'un port ou endroit en Canada, ou ne partira d'un port ou endroit, ou ne naviguera sur aucun des lacs Saint-Jean, Memphrémagog, Ontario, Erié, Huron ou Baie Georgienne, Simcoe ou Supérieur, ou sur le fleuve Saint-Laurent, ou sur les rivières Ottawa, ou Saint-Jean, ou sur aucun lac ou rivière dans le Manitoba, la Colombie-Britannique ou les Territoires du Nord-Ouest, ou le district de Kéwatin, qui aura plus d'un mille de largeur à un point quelconque sur le route de ce bateau à vapeur ; ni ne naviguera dans une baie ou bras de mer en Canada, sans avoir à bord à chaque voyage,—

(*a.*) Deux cents ceintures de sauvetage, si ce bateau est de deux cents tonneaux et plus de registre ; ou (*b*) trois ceintures de sauvetage par chaque cinq tonneaux, si ce bateau a moins que deux cents tonneaux de registre.

Art. 18. Chaque bateau à vapeur transportant des passagers sur des rivières et eaux intérieures autres que les lacs et rivières spécifiés dans l'article immédiatement précédent, s'il a deux cents tonneaux et plus de registre, devra avoir à bord à chaque voyage, pas moins que cent ceintures de sauvetage, et s'il a moins que deux cents tonneaux de registre, ce bateau portera à bord à chaque voyage cinquante ceintures de sauvetage.

Art. 19. Pourvu toujours que le nombre maximum de ces ceintures de sauvetage que chaque bateau à vapeur est tenu d'avoir à bord, n'excèdera pas deux cents ; mais si un bateau à vapeur n'a pas le nombre de canots et de ceintures de sauvetage proportionné au nombre de passagers que son certificat d'inspection lui permet de porter, on suppléera à ce déficit au moyen de flotteurs en bois, équivalant chacun en légèreté à un pied cube de pin blanc séché, égal au nombre de passagers et de l'équipage pour lesquels il n'y a pas de canots ni de ceintures de sauvetage.

Art. 20. Nul bateau à vapeur employé principalement au transport du fret, lorsqu'il transportera pas plus que soixante passagers, ne sera tenu d'avoir à bord, dans un voyage, plus d'une ceinture de sauvetage pour chaque passager, et une ceinture de sauvetage pour chacun de l'équipage alors à bord de tel bateau.

Art. 21. Chaque bateau à vapeur non employé au transport de passagers, et chaque bateau à vapeur auquel les articles 17, 18, 19 et 20 ne s'appliquent pas, devra avoir, en tous temps lorsque l'équipage est à bord, une ceinture de sauvetage pour chacun de l'équipage.

Art. 22. Chacune de ces ceintures de sauvetage sera capable de flotter dans l'eau douce pendant 24 heures, avec 15 livres de fer y attachées. Elles seront échancrées de 2 pouces sous les aisselles, et ajustées et assujéties de façon à ne pas se déranger une fois mises, avec bretelles et ceinturon, ou autres moyens approuvés par l'inspecteur. Si d'autre matière que du liège solide est employée pour faire flotter, elle sera d'abord approuvée spécialement par le bureau d'inspection des bateaux à vapeur, et les ceintures de sauvetage seront en tous temps gardées dans un endroit accessible et à la main dans les cabines ou sur le pont du bateau, bien abritées et prêtes à servir à tout instant.

Art. 23. Un gilet de liége avec bretelles et ceinturons pour le fixer autour du corps, ou toute autre espèce de ceinture de sauvetage que le Gouverneur général en conseil pourra approuver, sera la forme de ceinture de sauvetage à employer sur les bateaux à passagers.

Barges à passagers à la remorque.

Art. 24. Avant qu'une barge, chaloupe, bateau, chalan ou vaisseau non ponté ayant des passagers à bord, toué par un remorqueur, reçoive un certificat d'inspection, il devra être muni d'un canot ou de canots, de ceintures, bouées et radeaux de sauvetage, ou de tous et chacun des équipements mentionnés au présent, en sus de l'équipement mentionné à l'article 9 de l'acte du parlement du Canada, intitulé " Acte modifiant de nouveau l'Acte d'inspection des bateaux à vapeur," et sanctionné le 10e jour de mai 1892, à la satisfaction de l'inspecteur des bateaux à vapeur qui l'inspecte, qui exigera qu'il soit équipé d'un appareil convenable pour sauver la vie pour les eaux sur lesquelles il navigue, ainsi que les commodités convenables pour l'usage des passagers ;

(*a.*) Les canots et équipements exigés devront être tel que spécifié dans l'article 1 (*b.*) des présents règlements, et afin qu'ils aient la capacité voulue pour porter douze personnes adultes avec l'équipage, ou dix-sept personnes en tout, ils devront avoir 17 pieds de quille et 5 pieds de bau sur 2 pieds de profondeur, cette capacité étant déterminée en multipliant longueur, largeur et profondeur, et divisant par 10.

HOTEL DU GOUVERNEMENT À OTTAWA.

Samedi, le 20e jour d'août 1892.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu des dispositions de "l'Acte des primes de pêche de 1891," 54-55 Victoria, chapitre 42, et par et de l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que les règlements suivants concernant le paiement des primes de pêche, soient approuvés :—

RÈGLEMENTS concernant le paiement des primes de pêche, tel que pourvu par la section 6 de l'Acte des primes de pêche de 1891, 54-55 Victoria, chapitre 42.

1. Les pêcheurs qui ont été employés à faire la pêche en eau profonde pour d'autres poissons que le homard, le saumon et l'alose ou le poisson qui se prend dans, ou à l'embouchure des rivières, pendant au moins trois mois et qui n'ont pas pris moins de 2,500 livres de poisson de mer, auront droit à une prime, pourvu toujours que nulle prime ne sera payée à ceux qui feront la pêche dans des bateaux mesurant

moins de 13 pieds de quille, et le nombre des réclamants est limité à trois (y inclus le propriétaire, pour les bateaux au-dessous de 20 pieds.

2. Aucun pêcheur ne pourra réclamer plus d'une fois par saison, soit qu'il ait pêché dans deux vaisseaux, ou dans un vaisseau et un bateau de pêche ou dans deux bateaux.

3. Les propriétaires de vaisseaux de pas moins de 13 pieds de quille, qui ont été employés pendant au moins trois mois à la pêche en eau profonde pour d'autres poissons que le homard, le saumon ou l'alose ou le poisson qui se prend dans ou à l'embouchure des rivières, auront droit à une prime sur chacun des dits bateaux.

4. Les vaisseaux canadiens enregistrés de dix tonneaux et au-dessus (jusqu'à 80 tonneaux), employés pendant au moins trois mois à la pêche en eau profonde pour d'autres poissons que le homard, le saumon ou l'alose, ou le poisson qui se prend dans, ou à l'embouchure des rivières, auront droit à une prime qui devra être calculée sur le tonnage enregistré, dont une moitié sera payable au propriétaire ou propriétaires et l'autre moitié à l'équipage, excepté dans les cas où un ou plusieurs membres de l'équipage auraient manqué de se conformer aux règlements, auxquels cas la dite ou les dites parts ne seront pas payées.

5. Les propriétaires ou capitaines de vaisseaux qui ont l'intention de faire la pêche et réclamer la prime devront, avant de partir pour un voyage de pêche, se procurer une licence du percepteur des douanes ou du garde-pêche le plus voisin, la dite licence sera attachée à la réclamation lorsque cette dernière sera envoyée pour être payée.

6. Les dates et les endroits de pêche devront être précisés dans la réclamation ainsi que la quantité et les espèces de poisson pris.

7. Les âges des hommes devront être donnés. Les garçons au-dessous de 14 ans ne sont pas acceptés comme réclamants.

8. Les réclamations devront être assermentées comme étant vraies et correctes dans tous leurs détails.

9. Les réclamations doivent être filées le ou avant le 30 novembre de chaque année.

10. Les officiers autorisés à recevoir les réclamations devront fournir les formes nécessaires, gratis, et après les avoir certifiées devront les transmettre au Département de la Marine et des Pêcheries.

11. Une réclamation dans laquelle le réclamant ou les réclamants auront fait une erreur ne pourra être amendée après avoir été signée et assermentée comme étant correcte.

12. Quiconque sera reconnu avoir fait des retours faux ou frauduleux dans aucun détail, sera exclu de participation dans la prime et poursuivi avec toute la sévérité de la loi.

13. Le montant de la prime à être payée aux pêcheurs et aux propriétaires de bateaux et vaisseaux sera fixé de temps à autre par le Gouverneur en Conseil.

AUX ANNONCEURS DANS LA *GAZETTE*.

CEUX qui envoient des annonces pour être insérées dans la *Gazette du Canada* voudront bien se conformer aux règles ci-dessous :

1. Adresser "Gazette du Canada, Ottawa, Canada."
2. Indiquer le nombre d'insertions voulues.
3. Transmettre invariablement le prix de l'annonce ainsi que le prix d'un exemplaire de la *Gazette*, tels que donnés plus bas ; sans cela l'annonce ne sera pas publiée.

Les prix sont de dix cts. pour la première insertion, et cinq cts. pour chaque insertion subséquente par ligne de neuf mots, chaque chiffre comptant pour un mot. Aucune annonce n'est insérée pour moins d'une piastre.

D'après la pratique établie et reconnue, telle que prescrite par la loi, les règlements du parlement et les décisions du ministre de la Justice, les avis reçoivent le nombre d'insertions ci-dessous :—

Les avis de demandes de divorce—27 insertions.

Les avis de retrait de dépôts des compagnies d'assurance—13 insertions.

Les avis de demandes ordinaires au parlement—9 insertions.

Les avis de demandes de lettres patentes—6 insertions.

Les avis de dividendes et d'assemblées de banques et de compagnies d'assurances,—1 mois de calendrier ou 5 insertions.

Les abonnés observeront aussi que le prix d'abonnement, $4 par année, est invariablement payable d'avance, et que l'envoi de la *Gazette* sera arrêté à l'expiration de la période payée. Chaque exemplaire coûte dix cts., et quand les annonceurs en veulent plus qu'un, ils devront faire une remise en conséquence.

DEMANDES AU PARLEMENT.

Règles relatives aux avis de bills privés.

Dans le cas de toute demande de bill privé, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, et ayant pour objet, soit la construction d'un pont, d'un chemin de fer, d'un chemin à barrières ou d'une ligne télégraphique ; soit la construction ou l'amélioration d'un port, d'un canal, d'une écluse, d'une digue ou d'une glissoire ou autre ouvrage semblable ; soit la concession d'un droit de passage d'eau, l'incorporation de professions ou métiers, ou d'une compagnie de banque ou autre compagnie par actions, soit la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, soit le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement de même nature à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande, et signé (excepté s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part, est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Un avis doit être inséré dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Un avis doit être inséré dans la *Gazette du Canada*, et et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie.

La publication de ces avis durera, dans chaque cas la période de deux mois pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Un exemplaire des numéros des journaux, reproduisant la première et la dernière insertion de l'avis, devra être transmis au greffier de chaque Chambre.

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, le pétitionnaire ou les pétitionnaires devront, en même temps qu'ils donneront l'avis prescrit par la règle précédente, donner aussi, de la même manière, avis des péages qu'ils entendent exiger, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piliers pour le passage des radeaux et des navires ; et mentionner de plus s'ils se proposent de construire un pont mobile, et quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Il en sera imprimé 600 exemplaires en anglais et 200 en français ; la traduction devra être faite par les officiers de la Chambre, et l'impression par l'entrepreneur des impressions. Le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) une somme de $200, plus le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé—le dit paiement sera effectué immédiatement après la seconde lecture, et avant la prise en considération du bill par le comité.

L'honoraire payable sur tout bill privé, ne sera payé que dans la Chambre où il a pris naissance.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par l'une ou par l'autre Chambre après les dix premiers jours de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.
JOHN GEORGE BOURINOT,
Greffier des Communes.

Règles additionnelles de la Chambre des Communes concernant les bills privés.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle adopté par la Chambre, le 23 juin 1887, dont copie peut être obtenue du greffier de la Chambre ;

(*a*.) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression ;

(*b*.) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets ;

(*c*.) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le tracé du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer

à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(a.) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés, dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière ; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait ;

(b.) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

JOHN GEORGE BOURINOT,
Greffier des Communes.

SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré, durant six mois, entre l'expiration de la dernière session parlementaire avant l'avis et la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district ; autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire, faite en vertu de "l'Acte concernant les serments extrajudiciaires."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition en obtention d'un bill de divorce n'est présentée que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $200.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.

ORDERS IN COUNCIL.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Monday, the 12th day of September, 1892.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS the President of the United States having issued a Proclamation for a quarantine detention of all vessels containing immigrants from cholera infected countries for a period of twenty days, it is advisable in order to prevent such immigrants from using the Canadian routes to enter at the inland ports of the United States for the purpose of avoiding the quarantine at the maritime ports, to extend the provisions of the second paragraph of section 9 of the quarantine regulations established by the Order in Council of the twelfth day of May, 1888, chapter 6 of the Consolidated Orders in Council of Canada, relating

to vessels suspected of having sickness on board, which is in the following words :—

"May be kept under quarantine of observation for a period of not more than three days," so as to read :

"May be kept under a quarantine of observation for a period of twenty days or more, as directed by the Minister of Agriculture," and further that the words "any maritime port in Canada" be substituted for the words "Grosse Isle" in the said paragraph.

His Excellency, in virtue of the powers vested in him by chapter 68 of the Revised Statutes, intituled "An Act respecting Quarantine," and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the second paragraph of Section 9 of the said quarantine regulations shall read as follows, and that such paragraph as amended do stand for a quarantine regulation, namely :—

"Vessels arriving at any maritime port in Canada "from any infected port or place, or one supposed to "be infected, and on board of which no pestilential "disease shall have declared itself during the passage "may be kept under quarantine of observation for a "period of twenty days or more, as directed by the "Minister of Agriculture, during which time the "passengers and crew thereof shall be subjected to a "strict purification under the direction of the Medical "Superintendent."

JOHN J. McGEE,
Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 16th day of August, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada, and in virtue of the powers conferred on him by section 108 of chapter 50 of the Revised Statutes of Canada, intituled "An Act respecting the North-West Territories," is pleased to order and it is hereby ordered, that that portion of the public travelled road or trail from Morley to Banff, which has been surveyed from Canmore to the boundary of the Rocky Mountain Park, be transferred to the Lieutenant Governor of the North-West Territories, for the public uses of the Territories, subject to any rights acquired under patents for lands crossed thereby.

JOHN J. McGEE,
12–4 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Monday, the 12th day of September, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, under the provisions of chapter 68 of the Revised Statutes, and by and with the advice of the Queen's Privy Council for Canada, has been pleased to order and it is hereby ordered, that the importations of rags into Canada from Europe be prohibited.

JOHN J. McGEE,
12–4 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Saturday, the 27th day of August, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS by section 190 of "The Inland Revenue Act" it is provided that the security to be given is a sum equal to the duties estimated to accrue on goods to be manufactured during one month, and such further amount as the Collector deems sufficient to cover the duty on goods remaining in warehouse from time to time during the currency of the license ;

And whereas the increase of duty on malt from one to two cents per pound has caused the requirements of the law as above set forth as to the amount of bonds to be given by maltsters to become unduly oppressive,—

His Excellency, in virtue of the power vested in him by "The Inland Revenue Act," and by and with the advice of the Queen's Privy Council for Canada, is pleased to grant authority to the Minister of Inland Revenue to determine the amount of security to be given by maltsters, and such authority is hereby granted accordingly.

JOHN J. McGEE,
11–4 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Friday, the 19th day of August, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada, has this day been pleased to approve of the following Resolution passed by the Board of Trade at Halifax, abolishing the payment of fees on all shipments of grain in bags, not in connection with grain in bulk, shipped with other general cargo :—

Resolved, "That the Port Wardens' fees on all ship-"ments of grain in bags, not in connection with grain "in bulk shipped with other general cargo from "Halifax, either in steamers or sailing vessels, be "abolished."

JOHN J. McGEE,
10–4 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Saturday, the 20th day of August, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, in virtue of the provisions of the "Bounty Act of 1891," 54-55 Victoria, chapter 42, and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the following regulations governing the payment of fishing bounties, be approved :—

REGULATIONS governing the payment of fishing bounties, as provided by section 6 of the Bounty Act of 1891, 54-55 Victoria, chapter 42.

1. Fishermen who have been engaged in deep-sea fishing, for fish other than shell-fish, salmon and shad, or fish taken in rivers or mouths of rivers, for at least three months, and have caught not less than 2,500 pounds of sea-fish, shall be entitled to a bounty, provided always that no bounty shall be paid to men fishing in boats measuring less than 13 feet keel, and not more than three men (the owner included) will be allowed as claimants in boats under twenty feet.

2. Only one claim will be allowed in one season, even though the claimant may have fished in two vessels, or in a vessel and a boat, or in two boats.

3. The owners of boats measuring not less than thirteen feet keel, which have been engaged during a period of not less than three months in deep-sea fishing for fish other than shell-fish, salmon or shad, or fish taken in rivers or mouths of rivers, shall be entitled to a bounty on each such boat.

4. Canadian registered vessels of 10 tons and upwards (up to 80 tons) which have been *exclusively* engaged during a period of not less than *three months* in the catch of sea-fish other than shell-fish, salmon or shad, or fish taken in rivers or mouths of rivers, shall be entitled to a bounty to be calculated on the registered tonnage, one half of which bounty shall be payable to the owner or owners, and the other half to the crew, except in cases where one or more of the crew shall have failed to comply with the regulations, then such share or shares shall not be paid.

5. Owners or masters of vessels intending to fish and claim bounty on their vessels, must, before proceeding on a fishing voyage procure a license from the nearest Collector of customs, or Fishery Overseer, said license to be attached to the claim when sent in for payment.

6. Dates and localities of fishing must be stated in the claim, as well as the quantity and kinds of sea-fish caught.

7. Ages of men must be given. Boys under 14 years of age are not eligible as claimants.

8. Claims must be sworn to as true and correct in all their particulars.

9. Claims must be filed on or before the 30th November in each year.

10. Officers authorized to receive claims will supply the requisite blanks, free of charge, and after certifying the same will transmit them to the Department of Marine and Fisheries.

11. No claim in which an error has been made by the claimant or claimants shall be amended after it has been signed and sworn to as correct.

12. Any person or persons detected in making returns that are false or fraudulent in any particular, will be debarred from any future participation in the bounty, and be prosecuted according to the utmost rigour of the law.

13. The amount of the bounty to be paid to fishermen and owners of boats and vessels will be fixed from time to time by the Governor in Council.

JOHN J. McGEE,
10-4 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 16th day of August, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, in virtue of the powers vested in him by section 2 of the "Act respecting quarantine," chapter 68 of the Revised Statutes of Canada, and by and with the advice of the Queen's Privy Council for Canada, is pleased to order, and it is hereby ordered, that Belgium and Germany be added to the list of countries from which the importation of rags into Canada is prohibited.

JOHN J. McGEE,
9-4 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 16th day of August, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada, and in virtue of the powers conferred on him by chapter 78 of the Revised Statutes, intituled "An Act respecting the Inspection of Steam-boats, and the examination and licensing of Engineers employed on them," and the amendments thereto, is pleased to approve of the following amendments to the Regulations with respect to the Inspection of Boilers and Compasses of Steam-boats, and the new regulations relating to the Inspection of Steam-boat Shafts, and the testing of new engines of passenger steam-boats, which have been passed by the Board of Steam-boat Inspectors.

—

AMENDMENTS TO THE RULES RELATING TO THE INSPECTION OF BOILERS OF STEAM-BOATS.

Boilers.

1. Sec. 40, part I, and sec. 74, part II, are hereby amended by adding ten per cent to the result of the formula (*b*) :—

$$\frac{90{,}000 \times T^2}{(L + I) \times D} = \text{Working pressure, where}$$

T = Thickness of plate in inches.
D = Diameter of flue outside in inches.
L = Length of flue or furnace in feet, or the length between the rings in feet, if it is strengthened by suitable rings or Adamson joints.

2. Sec. 36 (*r*) and sec. 41 (*a*), part I, and sec. 75 (*a*), part II, are hereby amended by using 14,000 instead of 12,500 in the formula :

$$\frac{12{,}500 \times \text{thickness in inches}}{\text{Mean diameter in inches}} = \text{Working pressure per square inch.}$$

3. Sec. 30, part I, and sec. 68, part II, are hereby amended by adding thereto as follows :—

"When a superheater is constructed with a tube "subject to external pressure, the working pressure "should be ascertained by the rules given for circular "iron furnaces, but the constants should be reduced "as thirty is to forty-seven :

"If steel is proposed to be used in superheaters, the "particulars should be submitted to the Board of "Steam-boat Inspection or to the Chairman, if the "board is not sitting, for consideration, but in all "cases it should be discouraged for this purpose ; this "applies to the unshielded uptakes of all boilers, "including ordinary vertical donkey boilers."

—

AMENDMENT TO THE RULES RELATING TO THE INSPECTION OF COMPASSES ON BOARD STEAM-BOATS.

Compasses.

Sec. 22, part VII, is hereby amended, by substituting for the word "Inspector" in the fifth line, the words "competent person," and adding thereto the words "of inspection," after the word "certificate" in the last line.

—

RULES RELATING TO THE INSPECTION OF STEAM-BOAT SHAFTS.

Shafts.

4. Main, tunnel, propeller and paddle shafts should not be passed if less in diameter than that found by the following formulæ, without previously submitting the case to the Chairman of the Board of Steam-boat Inspection.

For compound condensing engines with two or more cylinders, when the cranks are not overhung :—

$$S = \sqrt[3]{\frac{C \times P \times D^2}{f\left(2 + \frac{D^2}{d^2}\right)}}$$

$$P = \frac{f \times S^3}{C \times D^2}\left(2 + \frac{D^2}{d^2}\right)$$

Where S = diameter of shaft in inches.
Where d^2 = square of diameter of high pressure cylinder in inches or sum of squares of diameters, when there are two or more high pressure cylinders.
Where D^2 = square of diameter of low pressure cylinder in inches or sum of squares of diameters, when there are two or more low pressure cylinders.
Where P = absolute pressure in lbs. per square inch, that is boiler pressure *plus* 15 lbs.
Where C = length of crank in inches.
Where f = constant from following table.

NOTE.—Intermediate pressure cylinder do not appear in the formulæ.

For ordinary condensing engines, with one, two, or more cylinders, when the cranks are not overhung :—

$$S = \sqrt[3]{\frac{C \times P \times D^2}{3 \times f}}$$

$$P = \frac{3 \times f \times S^3}{C \times D^2}$$

Where S = Diameter of shaft in inches.
D^2 = Square of diameter of cylinder in inches, or sum of squares of diameters when there are two or more cylinders.
P = Absolute pressure in lbs. per square inch, that is boiler pressure *plus* 15 lbs.
C = Length of crank in inches.
f = Constant from following table :—

TABLE.

For two Cranks. Angle between Cranks.	For Crank and Propeller Shafts. *f.*	For Tunnel Shafts. *f.*
90°	For paddle engines of ordinary type multiply constant in this column suitable for angle of cranks by 1·4. 1,047	1,221
100°	996	1,128
110°	904	1,055
120°	855	997
130°	817	953
140°	788	919
150°	766	894
160°	751	877
170°	743	867
180°	740	864
For three Cranks 120°	1,110	1,295

NOTE.—When there is only one crank the constants applicable are those in the table opposite 180°.

RULES RELATING TO THE TESTING OF NEW ENGINES ON PASSENGER STEAM-BOATS.

In the case of new engines on passenger steam-boats, Inspectors should see them tested while under way, with full steam, in order to assure as far as possible that no flaws in the several parts of the engine have escaped the examination made by the Inspector, as provided by section 15 of the Act 49 Vict., chap. 78.

JOHN J. McGEE,
10–4 Clerk of the Privy Council.

NOTICE TO MARINERS.

No. 35 of 1892.

ST. MARY'S RIVER LIGHTS.

I.—UNITED STATES LIGHTS.

Notice is given by the Lighthouse Board of the United States of America that the following described aids to navigation have been established on the Michigan side of the St. Mary's River, between Lakes Huron and Superior:

Sweet's Point.—A fixed white lens-lantern light, showing through 360° of arc, on a crib structure standing in 7 feet of water. Marks the turning point in the channel, and guides up the river to the northward and westward.

Winter Point Range.—Two fixed white lens-lantern lights, showing through 270° of arc. The front light is shown from an upright on a cluster of piles and the rear light from an iron skeleton tower on the southern end of Neebish Island. The range guides up to or down from the mid-channel buoy in Mud Lake.

Encampment Crib.—A fixed red tubular-lantern light, shown from an upright on a crib in 8 feet of water, off the southern end of Sailors Encampment. Marks a shoal and the western side of the entrance to Sailors Encampment passage.

East Range, Dark Hole.—Two fixed red tubular-lantern lights, shown from uprights on the upper end of Sailors Encampment. The range intersects with Point of Woods Range to mark the turning point in the channel, and leads to or from an intersectien with the channel marked by the West Range, Dark Hole.

West Range, Dark Hole.—Two fixed white tubular-lantern lights, shown from uprights on the upper end of Sailors Encampment. The range intersects with East Range, Dark Hole, to mark the turning point in the channel, and leads to or from abreast the second black spar buoy below Harwood's Point.

Point of Woods Range.—Two fixed red tubular-lantern lights, shown from uprights on the eastern side of Neebish Island. This range guides through the Dark Hole passage, and by its intersection with the West Range, Dark Hole, marks the turning point to or from the lower reach of Little Mud Lake.

Hen and Chickens (Neebish Island) Range.—Two fixed red tubular-lantern lights, shown from uprights. The front light is on the most easterly of the small group of islands known as the Hen and Chickens, and the rear light is on the north-easterly shore of Neebish Island. The range guides through the passage between Sugar Island and St. Joseph Island (Canadian).

East Neebish Range.—Two fixed red tubular-lantern lights, on uprights on Sugar Island at the foot of East Neebish. The range guides through the upper reach of East Neebish, and its intersection with Indian Point range marks the turning point.

Indian Point Range.—Two fixed white tubular-lantern lights, on uprights on Indian Point, East Neebish. The range guides through the lower reach of East Neebish and its intersection with East Neebish Range marks the turning point.

Duck Island Range.—Two fixed red tubular-lantern lights, on uprights near the water's edge on the channel side of the lower end of Duck Island, above East Neebish. The range shows up stream towards the lower Lake George Crib-light, and the range between these may be followed from the crib down to abreast of the head of Duck Island.

Lower Lake George.—A fixed white tubular-lantern light, on an upright rising from a crib 50 feet from the east side of the lower end of the main Lake George Channel.

Middle Lake George.—A fixed red tubular-lantern light, on top of a dwelling resting on a crib 50 feet from the east side of the main Lake George Channel, at the elbow.

Upper Lake George.—A fixed red lens-lantern light, on an upright rising from a crib 50 feet from the east side of the upper end of the main Lake George Channel, and marks the northerly entrance into the dredged cut.

NOTE.—The three Lake George lights mark the entrance into, the elbow of, and the outlet from the main channel of Lake George.

Church's Point.—A fixed white lens-lantern light, on an upright rising from a crib in 14 feet of water, at the head of Lake George. Marks the approach to the passage between Sugar and Squirrel Islands and is to be left to the westward by vessels bound either way.

Manhattan Shoal.—A fixed red and white lens-lantern light, on an upright rising from a crib on a 10-foot shoal off the N.E. end of Sugar Island. The light shows red up and down stream and white between. The down stream line between the white and red light marks the turn to the eastward to be made midway in the bend, and the like line up stream shows where the deflection is to be made to pass into or from the Garden River reach.

Catholic Mission Range.—Two fixed white tubular-lantern lights on uprights on the south shore of Little Lake George, north end of Sugar Island. The range marks the upper reach of Little Lake George, and its intersection with Payment Range marks the turning point.

Payment Range.—Two fixed red tubular-lantern lights, on uprights on the south shore of Little Lake George, north end of Sugar Island. The range marks the lower reach of Little Lake George, and its intersection with the Catholic Mission Range marks the turning point.

Palmer's Point.—A fixed white lens-lantern light, with two fixed red sectors, on an upright rising from a crib on the channel bank off Palmer's Point, upper end of Little Lake George. The northerly edge of the eastern red sector cuts the first black buoy below the light and the northerly edge of the western red sector cuts the first black buoy above Wilson's Wharf, thus marking the two turning points.

Farmers Ridges Range.—Two fixed red tubular-lantern lights, on uprights on the north-west side of Sugar Island. The range guides through the Farmers Ridges passage.

Partridge Point Range.—Two fixed red tubular-lantern lights, on uprights on the north-western side of Sugar Island. The range intersects with Farmers Ridges range to mark the turning point in the channel abreast of Brusant's Point.

Topsail Island Range.—Two fixed red tubular-lantern lights on uprights on the north-western side of Sugar Island. The range intersects with Sault Range to lead clear of the shoal extending southward from Topsail Island, and also intersects with Farmers Ridges range at the turning point in the channel.

Bayfield Rock Range.—Two fixed white tubular-lantern lights, on uprights on the north-western side of Sugar Island. The range leads past Bayfield Rock to the lower end of the canal, intersecting with Sault range to mark the channel clear of Topsail Island Shoal.

Sault Range.—Two fixed red tubular lantern lights, on uprights on shore below the city of Sault Ste. Marie. Intersects with Bayfield Rock range to mark the channel to the intersection of Topsail Island range, and also marks the turning point in the channel on the Bayfield Rock range leading up to the lower entrance to the canal.

II.—CANADIAN LIGHTS.

Notice is hereby given that, simultaneously with the exhibition of the above described United States lights, the following range lights were established by the Government of the Dominion on the Canadian side of the St. Mary's River, which together form a continuous system of lights from Detour Passage to Sault Ste. Marie.

1.—SAILORS ENCAMPMENT LOWER RANGE.

Two fixed red lantern lights, shown from masts on the west shore of St. Joseph Island, half a mile below Ross wharf. Both lights should be visible 2 miles in, and over a small arc in each side of, the alignment.

The front mast stands on the shore line, and is 17 feet high. The light is elevated 19 feet above the level of the river.

Lat. N. 46° 14' 18"
Long. W. 84° 5' 40"

The back mast stands 64 feet east from the shore line, and is distant 246 feet S. $\frac{7}{8}$ W. (S. 8° W. true) from the front one. It is 22 feet high, and the light is elevated 26 feet above the water.

The two lights in one, S. $\frac{7}{8}$ W., guide vessels down the river past the turn at Johnson's Point. The range should be kept from its intersection with Rains' wharf range till the Encampment (United States) crib light is passed, when the alignment should be left on the port hand.

2.—RAINS' WHARF RANGE.

Two fixed red lantern lights, shown from masts, at William Rains' wharf, on the west shore of St. Joseph Island, opposite Johnson Point, and between the two Sailors Encampment ranges. These lights should be visible 2 miles in, and over a small arc on each side of, the alignment.

The front mast, 17 feet high, stands near the outer end of the wharf. The light is elevated 15 feet above the level of the river.

Lat. N. 46° 15' 0"
Long. W. 84° 5' 20"

The back mast stands 390 feet S. E. (S. 47° E. true) from the front one. It is 22 feet high. The light is 24 feet above the level of the river.

This range is in the same alignment as the Point of Woods (U.S.) range, and is intended to guide vessels going down stream through the Dark Hole Passage, S.E., from its intersection with the alignment of the U.S. East Range, Dark Hole, to its intersection with the two Sailors Encampment ranges.

3.—SAILORS ENCAMPMENT UPPER RANGE.

Two fixed red lantern lights, shown from masts, near the west shore of St. Joseph Island, half a mile below Reed Point. Both lights should be visible 2 miles in, and over a small arc on each side of, the alignment.

The front mast stands on rising ground, 640 feet from the shore of the river in the alignment, and is 17 feet high. The light is elevated 65 feet above the level of the river.

Lat. N. 46° 15' 21"
Long. W. 84° 5' 21"

The back mast, 22 feet high, is 260 feet N. $\frac{7}{8}$ E. (N. 8° E. true) from the front one. The light is 73 feet above the water.

The two lights in one, N. $\frac{7}{8}$ E., guide vessels going up the river past the turn at Johnson Point. The alignment should be taken as soon as the Encampment

crib (U.S.) light is abeam, and kept until the Point of Woods (U.S.) range lights are brought into alignment.

This range and the Sailors Encampment Lower Range, above described, are in the same alignment.

4.—East Neebish Upper Range.

Two fixed red lantern lights shown from masts, on the east or Canadian shore of the St. Mary's River, half a mile above Ned and Indian Points, and 1 mile below Birch Point. Both lights should be visible 2 miles in, and over a small arc on each side of, the alignment.

The front mast stands 159 feet back from the shore in the line of range, and is 16 feet high. The light is elevated 34 feet above the level of the river.

Lat. N. 46° 21' 32"
Long. W. 84° 7' 0"

The back mast stands 302 feet N. ½ E. (N. 3° E. true) from the front one. It is 22 feet high, and the light is 42 feet above the water.

The two lights in one N. ½ E. show the same alignment as the United States East Neebish range, and are intended to guide vessels going up the river through the upper reach of East Neebish from the intersection of the alignment with Indian Point (U.S.) range till abreast of Indian Point, whence a N.N.W. course will lead up the middle of the river clear of all obstructions to the intersection with Duck Island (U.S.) range.

This notice affects Admiralty Charts Nos. 324, 325, 326, 334, 519, 678 and 1507, and the substance of it should be entered in the Canadian List of Lights and Fog Signals next after No. 225.

Note.—The island called on the Admiralty Charts Rains Island, should be Sailors Encampment; that name has sometimes been applied erroneously to Neebish Island.

I. IMPROVEMENT OF BRIGHTON BEACH RANGE LIGHTS.

The masts upon which the range light lanterns were hoisted at Brighton Beach, on the east side of the North River, in Charlottetown Harbour, on the Strait of Northumberland coast of Prince Edward Island, as described in Notice to Mariners No. 3 of 1890, have been replaced by skeleton towers built upon the same sites.

The sides of the towers facing the alignment are closely slatted so as to make conspicuous day marks. The upper parts of the towers are enclosed and surmounted by wooden lanterns.

The towers are painted white with the lanterns brown. The front tower is 40 feet high and the light 41 feet above high water mark. The back tower is 50 feet high and the light 77 feet above high water-mark.

The illuminating apparatus is catoptric.

In other respects the lights will be unaltered and the same sailing directions as formerly used will apply.

This notice affects Admiralty charts Nos. 1709, 1738, 2034 and 2666, and Canadian List of Lights and Fog Signals Nos. 308c and 308d.

II. IMPROVEMENT OF DARNLEY POINT RANGE LIGHTS.

A diamond-shaped, slatwork beacon, 10 feet wide, extending from the top of the mast down to the roof of the lantern shed, facing the line of the range, has been attached to each range light mast at Darnley Point, at the entrance to Malpeque Harbour, Prince Edward Island, so as to make the structures more conspicuous as day marks.

This notice affects Admiralty charts Nos. 1983, 2034, 2516 and 2666, and Canadian List of Lights and Fog Signals Nos. 328a 328b.

See also Notices to Mariners No. 21 of 1889, part 1 of No. 12 of 1889, and No. 29 of 1891.

III. WHISTLING BUOY ON TRYON SHOAL.

An automatic whistling buoy, painted brown, with the words "Tryon Shoal Buoy," in white letters, established by the Government of Canada, has been moored in 7 fathoms water, off the southern extremity of Tryon Shoal, in Northumberland Strait, south-west coast of Prince Edward Island.

The buoy should be left to the starboard going up the Strait to the northwestward, and to port going down

This notice affects Admiralty charts Nos. 2034, 2616, and 2666, and the substance of it should be entered in the Canadian List of Lights and Fog Signals under the No. 305a.

IV. SIGNAL BUOYS REPLACED IN BAY OF FUNDY.

1. *Point Lepreaux Whisling Buoy.*—This buoy was replaced on the 21st May last. See Notice to Mariners No. 10 of 1892.

2. *Blonde Rock Whistling Buoy.*—This buoy was replaced on the 3rd June last.

3. *Lurcher Shoal Whistling Buoy.*—This buoy, the disappearance of which was advertised in Notice to Mariners No. 9 of 1892, was replaced on the 2nd June last.

4. *North-west Ledge Bell Buoy.*—This buoy, which had been off its station for some time, was replaced on the 2nd June last.

V. CHANGE OF BUOY ON OLD MAN LEDGE.

The spar buoy heretofore marking the Old Man Ledge, east of the Tusket Islands, at the entrance to the Bay of Fundy, has been replaced by an iron can buoy painted black.

Lat. N. 43° 36' 28"
Long. W. 66° 0' 10"

The buoy is moored ⅛ mile south-east from the rock in 5 fathoms water.

This notice affects Admiralty charts Nos. 352, 2537 and 2670.

NOTICE TO MARINERS.

No. 38 of 1892.

I. CASTLE ISLET BEACON RE-ERECTED.

The beacon on the summit of Castle Islet, Western Channel of Barclay Sound, on the Pacific Coast of Vancouver Island, British Columbia, which had fallen down, was re-erected by the crew of the Dominion steamer "Sir James Douglas," last month, and now stands as formerly, in range with the beacon on Round Island, to guide into the Western Channel of Barclay Sound, in the approach to Toquart Harbour.

This notice affects Admiralty charts Nos. 584, 592 and 1917.

The two beacons were fully described in Notice to Mariners No. 27 of 1887.

II. ROCKS OFF GOWLLAND AND TABLE ISLANDS, BARCLAY SOUND.

Captain John T. Walbran, Master of the Dominion steamer "Sir James Douglas," reports having found a rock, awash at low water, $1\frac{1}{10}$ cables N. $\frac{1}{2}$ W. (N. 18° E. true) from the northernmost point of Gowlland Island, Western Channel of Barclay Sound, on the west coast of Vancouver Island, British Columbia. The rock is steep-to, and in other respects the channel between Gowlland Island and Table Island is clear of obstructions.

There are also in the same vicinity a rock about $\frac{1}{3}$ cable distant from the most north-westerly point of Table Island; and another $\frac{1}{4}$ cable east of the most easterly point of the Islet north of Table Island,—neither of which is shown on the chart.

This notice affects Admiralty charts Nos. 584, 592 and 1917.

WM. SMITH,
Deputy Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 5th September, 1892.

NOTICE TO MARINERS.

No. 37 of 1892.

PILE BEACONS REPLACED ON STURGEON BANK.

The two pile beacons which had been carried away from the edge of Sturgeon Bank, off the mouth of the Fraser River, in the Strait or Georgia, British Columbia, as advertised in Notice to Mariners No. 62 of 1891, part IV, and No. 23 of 1892, part II, have been replaced. They stand as previously indicated in parts II and III of Notice to Mariners No. 46 of 1891.

This notice affects Admiralty charts Nos. 579, 1917, 1922 and 2689.

TO ADVERTISERS IN THE *GAZETTE*.

PARTIES sending advertisements to be inserted in "The Canada Gazette," will please observe the following rules :

1st. Address "The Canada Gazette, Ottawa, Canada."

2nd. Indicate the number of insertions required.

3rd. Invariably remit the fees for such advertisements, together with the price of one Gazette, as below. Otherwise they will not be inserted. The rates are ten cts. for the first insertion, and five cents for each subsequent insertion per line of nine words, each figure counting as one word. No advertisement is inserted for a less charge than one dollar.

By settled or understood practice as prescribed by law, the rules of Parliament or decisions of the Department of Justice, notices receive the following insertions :—

Notices of applications for divorce—27 insertions.

Notices of the withdrawal of deposits of Insurance Companies—13 insertions.

Notices of ordinary applications to Parliament—9 insertions.

Notices of applications for Letters Patent—6 insertions.

Notices of dividends and meetings of Banks and Insurance Companies—1 calendar month, or 5 insertions.

Subscribers will also notice that the subscription, $4 per annum, is invariably payable in advance, and that the "Gazette" will be stopped from them at the end of the period paid for. Single numbers will be charged ten cts. each, and when more than one are required by advertisers, must be remitted for likewise.

S. E. DAWSON,
Queen's Printer and Controller of Stationery.
Department of Public Printing and Stationery,
Ottawa, November, 1891.

APPLICATIONS TO PARLIAMENT.

Rules relating to Notices for Private Bills.

All applications for Private Bills, properly the subjects of legislation by the Parliament of Canada, within the purview of "The British North America Act, 1867," whether for the erection of a Bridge, the making of a Railroad, Turnpike Road or Telegraph Line; the construction or improvement of a Harbour, Canal, Lock, Dam or Slide, or other like work; the granting the right of Ferry; the incorporation of any particular Trade or Calling, or of any Banking or other Joint Stock Company; or otherwise for the granting to any individual or individuals, any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which, in its operation, would affect the rights or property of other parties, or relate to any particular class of the community; or for making any amendment of a like nature to any former Act, shall require a Notice, clearly and distinctly specifying the nature and object of the application, and (except in the case of existing corporations) signed by, or on behalf of the applicants, to be published as follows, viz :

In the Provinces of Quebec and Manitoba.

A notice inserted in the *Canada Gazette*, in the English and French languages, and in one newspaper in the English, and in one in the French language in the District affected, or in both languages in one paper, if there be but one in the said District, or if there be no paper published therein, then, in both languages, in a paper in the nearest District in which a newspaper is published.

In any other Province or Territory.

A notice inserted in the *Canada Gazette*, and in one newspaper published in the County or District, or Union of Counties affected, or if there be no paper published therein, then in a newspaper in the nearest County or District in which a newspaper is published. Such Notices to be continued in each case, for a period of two months during the interval of time between the close of the next preceding Session and the consideration of the Petition. And copies of the newspapers containing the first and last insertion of such notice shall be sent to the Clerk of each House.

When a Petition is for leave to bring in a Private Bill for the erection of a Toll Bridge, the petitioner or petitioners, upon giving the notice prescribed by the preceding Rule, shall also, at the same time, and in the same manner, give notice of the rates which they intend to ask; the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and whether they intend to erect a drawbridge, and the dimensions of the same.

Any person seeking to obtain any Private Bill shall, eight days before the meeting of Parliament, deposit with the Clerk of the House, in which the bill is to originate, a copy of such bill in the English or French language, with a sum sufficient to pay for translating and printing the same—600 copies to be printed in English, and 200 copies in French—the translation to be done by the officers of the House, and the printing by the contractor. The applicant shall be also required to pay the Clerk of the Senate, or the accountant of the House of Commons (as the case may be) a sum of $200 and the cost of printing the Act in the Statutes, and lodge the receipt of the same with the Clerk of the Committee to which such Bill is referred—such payment to be made immediately after the second reading, and before the consideration of the Bill by such Committee.

The fee payable on any Private Bill is paid only in the House in which it originates.

No Petition for a Private Bill is received by either House after the first ten days of the session.

EDOUARD J. LANGEVIN,
Clerk of the Senate.

JOHN GEORGE BOURINOT,
Clerk of the Commons.

—

Additional Rules of the House of Commons respecting Private Bills.

All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the *clauses* of the *General Acts* relating to the details to be provided for by such Bills ;—special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof, in which the *General Act* is proposed to be departed from;—Bills which are not framed in accordance with this *Rule*, shall be re-cast by the promoters, and reprinted at their expense, before any Committee passes upon the *Clauses*.

51*a*. All Private Bills for Acts of incorporation of, or in amendment of Acts incorporating Railway Companies, shall be drawn in accordance with the Model Bill adopted by the House on 23rd June, 1887, copies of which may be obtained from the Clerk of the House.

(a.) The provisions contained in any Bill which are not in accord with the Model Bill, shall be inserted between brackets, and when revised by the proper officer shall be so printed, and bills which are not in accordance with this Rule shall be returned to the promoters to be re-cast before being revised and printed ;

(b.) Any sections of existing Acts which are proposed to be amended shall be re-printed in full with the amendments inserted in their proper places and between brackets ;

(c.) Any exceptional provisions that it may be proposed to insert in any Bill shall be clearly specified in the Notice of Application for the same.

51*b*. No Bill for the incorporation of a Railway Company, or for changing the route of the railway of any company already incorporated, shall be considered by the Railway Committee until there has been filed with the Committee, at least one week before the consideration of the Bill :—

(*a.*) A Map or Plan drawn upon a scale of not less than half an inch to the mile, showing the location upon which it is intended to construct the proposed work, and showing also the lines of existing or authorized works of a similar character within, or in any way affecting the district, or any part thereof, which the proposed work is intended to serve, and such map

or plan shall be signed by the Engineer or other person making the same ;

(b.) An exhibit showing the total amount of capital proposed to be raised for the purposes of the undertaking, and the manner in which it is proposed to raise the same, whether by ordinary shares, bonds, debentures, or other securities, and the amount of each, respectively.

JOHN GEORGE BOURINOT,
Clerk of the Commons.

SUBSTANCE OF RULES OF THE SENATE RELATING TO NOTICES AND APPLICATIONS FOR BILLS OF DIVORCE.

Every applicant for a Bill of Divorce shall give notice of his or her intended application, and shall specify therein from whom and for what cause such divorce is sought, and shall cause such notice to be published during six months before the presentation of his or her petition for the said Bill, in the CANADA GAZETTE and in two newspapers published in the District in Quebec, Manitoba, British Columbia or the North-West Territories, or in the County or Union of Counties in other Provinces, wherein such applicant usually resided at the time of the separation of the parties ; but if the requisite number of papers cannot be found therein, then in an adjoining District or County or Union of Counties. Notices given in the Provinces of Quebec and Manitoba are to be published in one English and one French newspaper, if there be such newspapers published in the District, but otherwise shall be published in each newspaper in both languages.

A copy of the said Notice shall, not less than one month before the date of the presentation of the Petition, at the instance of the applicant, be served personally on the person from whom the divorce is sought, when that can be done.

No petition for divorce shall be received after the first thirty days of each session.

The petition of an applicant for divorce must be fairly written and must be signed by the Petitioner, and should briefly set forth the marriage, when, where and by whom the ceremony was performed, the grounds on which relief is asked and the nature of the relief prayed, and should also negative condonation, collusion and connivance. The allegations of the petition must be verified by declaration of the Petitioner, under the "*Act respecting Extra-Judicial Oaths.*"

The applicant shall deposit with the Clerk of the Senate, eight days before the opening of Parliament, a copy, in the English or French language, of the proposed Bill of Divorce, and therewith a sum sufficient to pay for translating and printing 600 copies thereof in English and 200 copies in French.

No petition for a Bill of Divorce shall be presented unless the applicant has paid into the hands of the Clerk of the Senate the sum of two hundred dollars ($200).

The petition when presented shall be accompanied by the evidence of the publication of the notice, and by declaration in evidence of the service of a copy thereof, and by a copy of the proposed Bill.

EDOUARD J. LANGEVIN,
Clerk of the Senate.

(FIRE DEPARTMENT).

PUBLIC Notice is hereby given that the "Citizens Insurance Company of Canada" has ceased to transact the business of fire insurance, and has applied to the Honourable the Minister of Finance and Receiver General of Canada, for the release of its securities deposited on account of the Fire Department, on the twelfth (12th) day of October, 1892.

And notice is hereby given that all business of the "Citizens Insurance Company of Canada," in the Provinces of New Brunswick and Nova Scotia, has been taken up and re-insured in the "Phœnix Insurance Company of Hartford," Connecticut, and that the business throughout the Dominion of Canada, with the exception of the Provinces of New Brunswick and Nova Scotia, has been taken up and re-insured in the "Guardian Assurance Company of England."

And notice is hereby given calling upon all Canadian policy-holders in the said company opposing such release to file their opposition with the Honourable the Minister of Finance and Receiver General of Canada, on or before the twelfth (12th) day of October, eighteen hundred and ninety-two (1892).

E. P. HEATON,
General manager.

ARRÊTÉS EN CONSEIL.

HOTEL DU GOUVERNEMENT À OTTAWA.

Lundi, le 12e jour de septembre 1892.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT que le Président des Etats-Unis ayant lancé une proclamation pour une détention quarantenaire de tous navires contenant des immigrants venant de pays infestés du choléra pour une période de vingt jours, il est à propos afin d'empêcher ces immigrants de se servir des routes canadiennes pour pénétrer dans les ports intérieurs des Etats-Unis en vue d'éviter la quarantaine aux ports de mer, d'étendre les dispositions du deuxième paragraphe de l'article 9 des règlements de quarantaine établis par l'arrêté en conseil du 12e jour de mai 1888, chapitre 6 des Arrêtés en conseil refondus du Canada, concernant les navires soupçonnés d'avoir de la maladie à bord, lequel est dans les termes suivants :

" Pourront être mis en quarantaine d'observation pour une période n'excédant pas trois jours, " de manière à se lire comme suit :

" Pourront être mis en quarantaine d'observation pour une période de vingt jours ou plus, selon que l'ordonnera le ministre de l'Agriculture, " et de plus que les mots " tout port de mer du Ca ada, " soient substitués aux mots " Grosse-Ile " dans le dit paragraphe.

Il plaît à Son Excellence, en vertu des pouvoirs qui lui sont conférés par le chapitre 68 des Statuts Revisés, intitulé : " Acte concernant la quarantaine," et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que le deuxième paragraphe de l'article 9 des dits règlements de quarantaine se lira comme ci-dessous, et que le dit paragraphe, tel que modifié sera censé être un règlement de quarantaine, savoir :

" Les navires arrivant à tout port de mer du Canada
" d'aucun port ou lieu infecté ou suspect, et à bord
" desquels aucune maladie pestilentielle se sera dé-
" clarée pendant le passage, pourront être mis en qua-
" rantaine d'observation pour une période de vingt
" jours ou plus, selon que l'ordonnera le ministre de
" l'Agriculture, pendant laquelle les passagers et l'équi-
" page seront sujets à une purification rigoureuse sous
" la direction du surintendant-médical."

JOHN J. McGEE,
Greffier du Conseil Privé.

HOTEL DU GOUVERNEMENT À OTTAWA.

Lundi, le 12e jour de septembre 1892.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu des dispositions du chapitre 68 des Statuts Revisés, et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner, et il est par le présent ordonné, que l'importation de guenilles d'Europe en Canada soit prohibée.

JOHN J. McGEE,
12-4 Greffier du Conseil privé.

HOTEL DU GOUVERNEMENT À OTTAWA.

Mardi, le 16e jour d'août 1892.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, par et avec l'avis du Conseil privé de la Reine pour le Canada, et en vertu des pouvoirs qui lui sont conférés par le chapitre 78 des Statuts Revisés, intitulé "Acte concernant l'inspection des bateaux à vapeur, et l'examen et les commissions des mécaniciens qui y sont employés," et ses modifications, d'approuver les modifications ci-dessous apportées aux Règlements concernant l'inspection des chaudières et boussoles des bateaux à vapeur, et les nouveaux règlements concernant l'inspection des arbres moteurs de bateaux à vapeur, et l'épreuve des nouvelles machines de bateaux à vapeur, qui ont été passés par le Bureau d'inspection des bateaux à vapeur.

—

MODIFICATIONS AUX RÈGLEMENTS CONCERNANT L'INSPECTION DES CHAUDIÈRES DE BATEAUX À VAPEUR.

Chaudières.

1. L'art. 40, partie I, et l'art. 74, partie II, sont par le présent modifiés en ajoutant dix pour cent au résultat de la formule (*b*) :—

$$\frac{90{,}000 \times T^2}{(L+1) \times D} = \text{la pression effective, lorsque}$$

T = l'épaisseur de la tôle en pouces.
D = le diamètre extérieur du carneau en pouces.
L = la longueur du carneau ou du fourneau en pieds, ou la longueur entre les anneaux en pieds, s'il est renforcé par des anneaux propices ou des joints Adamson.

2. L'art. 36 (*r*) et l'art. 41 (*a*), partie I, et l'art. 75 (*a*), partie II, sont par le présent modifiés en employant 14,000 au lieu de 12,500 dans la formule :—

$$\frac{12{,}500 \times \text{l'épaisseur en pouces}}{\text{Diamètre moyen en pouces}} = \text{la pression effective par pouce carré.}$$

3. L'article 30, partie I, et l'art. 68, partie II, sont par le présent modifiés en y ajoutant les paragraphes suivants :—

"Lorsqu'un surchauffeur est muni d'un tube soumis "à une pression extérieure, on devra constater la pres- "sion effective au moyen des règlements donnés pour "les fourneaux circulaires en fer, mais les constantes "devraient être réduites comme trente est à quarante- "sept.

"Si l'on se propose d'employer de l'acier dans des "surchauffeurs, les détails devraient être soumis au "Bureau d'inspection des bateaux à vapeur, ou au pré- "sident, si le Bureau ne siège pas, pour sa considé- "ration ; mais on ne doit jamais encourager une telle "chose ; ceci s'applique aux courants de flammes non "munis d'écrans de toutes les chaudières, y compris "les petites chaudières alimentaires verticales ordi- "naires."

—

MODIFICATIONS AUX RÈGLEMENTS CONCERNANT L'INSPECTION DES BOUSSOLES À BORD DES BATEAUX À VAPEUR.

Boussoles.

L'art. 22, partie VII, est par le présent modifié en substituant les mots "personne compétente" au mot "inspecteur," dans la cinquième ligne, et en ajoutant les mots "d'inspection" après le mot "certificat" dans la dernière ligne.

—

RÈGLEMENTS CONCERNANT L'INSPECTION DES ARBRES MOTEURS DES BATEAUX À VAPEUR.

Arbres moteurs.

4. Aucun arbre moteur, arbre de couche, arbre droit ou arbre des roues ayant un moindre diamètre que celui trouvé par la formule suivante, ne devrait être accepté sans avoir d'abord soumis le cas au président du Bureau d'inspection des bateaux à vapeur.

Pour les machines mixtes à condenser avec deux cylindres ou plus, lorsque les axes coudés ne sont pas suspendus :—

$$S = \sqrt[3]{\frac{C \times P \times D^2}{f\left(2+\frac{D^2}{d^2}\right)}}$$

$$P = \frac{f \times S^3}{C \times D^2}\left(2+\frac{D^2}{d^2}\right)$$

Lorsque S = le diamètre de l'arbre en pouces.
Lorsque d^2 = le carré du diamètre du cylindre à haute pression en pouces, ou la somme des carrés des diamètres, dans les cas où il y a deux cylindres à haute pression ou plus.
Lorsque D^2 = le carré du diamètre d'un cylindre à basse pression en pouces, ou la somme des carrés des diamètres dans les cas où il y a deux cylindres à basse pression ou plus.
Lorsque P = la pression absolue en livres par pouce carré, c'est-à-dire, la pression de chaudière *plus* 15 livres.
Lorsque C = la longueur de l'axe coudé en pouces.
Lorsque *f* = la constante d'après la table suivante.
NOTE.—Les cylindres à pression intermédiaire ne paraissent pas dans la formule.

Pour les machines à condenser ordinaires, avec un ou deux cylindres et plus, alors que les axes coudés ne sont pas suspendus :—

$$S = \sqrt[3]{\frac{C \times P \times D^2}{3 \times f}}$$

$$P = \frac{3 \times f \times S^3}{C \times D^2}$$

Lorsque S = le diamètre de l'arbre en pouces.
D^2 = le carré du diamètre du cylindre en pouces, ou la somme des carrés des diamètres, dans les cas où il y a deux cylindres ou plus.
P = la pression absolue en livres par pouce carré, c'est-à-dire la pression de chaudière, *plus* 15 livres.
C = la longueur de l'axe coudé en pouces.
f = la constante d'après la table suivante :

TABLE.

Pour deux axes coudés. Angles entre les axes.	Pour arbres moteurs et de manivelle. *f*.	Pour arbres droits. *f*.
90°	1,047	1,221
100°	996	1,128
110°	904	1,055
120°	855	997
130°	817	953
140°	788	919
150°	766	894
160°	751	877
170°	743	867
180°	740	864
Pour trois axes coudés 120°.	1,110	1,295

Pour les machines à roues d'un modèle ordinaire, multipliez la constante dans cette colonne pour l'angle des axes coudés par 1·4.

NOTE.—Lorsqu'il n'y a qu'un axe coudé, les constantes applicables sont celles dans la table vis-à-vis 180°.

RÈGLEMENTS CONCERNANT L'ÉPREUVE DE NOUVELLES MACHINES À BORD DE VAPEURS À PASSAGERS.

Dans le cas de nouvelles machines à bord de vapeurs à passagers, les inspecteurs devront les voir éprouver lorsque les bateaux sont en marche, à pleine vapeur, afin de s'assurer autant que possible qu'il n'existe pas de défauts dans les diverses parties de la machine qui auraient échappé à l'examen de l'inspecteur, tel que prescrit par l'article 15 de l'acte 49 Victoria, chap. 78.

Greffier du Conseil privé.

HOTEL DU GOUVERNEMENT À OTTAWA.

Samedi, le 27e jour d'août 1892.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT que par l'article 190 de "l'Acte du Revenu de l'Intérieur," il est statué que le cautionnement à donner est une somme égale au montant auquel le percepteur estimera que les droits pourront s'élever sur les effets à manufacturer dans le cours d'un mois, et telle autre somme que le percepteur jugera suffisante pour couvrir le droit sur les effets restant en entrepôt de temps à autre dans le cours de la licence ;

Et considérant que l'augmentation du droit de un à deux centins par livre sur le malt a rendu très oppressives les dispositions de la loi précitées quant au montant des cautionnements que doivent donner les malteurs,—

Il plaît à Son Excellence, en vertu du pouvoir qui lui est conféré par "l'Acte du Revenu de l'Intérieur," et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'autoriser le ministre du Revenu de l'intérieur à fixer le montant du cautionnement que doivent donner les malteurs, et cette autorisation est en conséquence conférée.

JOHN J. McGEE,
11-4 Greffier du Conseil privé.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu des dispositions de "l'Acte des primes de pêche de 1891," 54-55 Victoria, chapitre 42, et par et de l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que les règlements suivants concernant le paiement des primes de pêche, soient approuvés :—

RÈGLEMENTS concernant le paiement des primes de pêche, tel que pourvu par la section 6 de l'Acte des primes de pêche de 1891, 54-55 Victoria, chapitre 42.

1. Les pêcheurs qui ont été employés à faire la pêche en eau profonde pour d'autres poissons que le homard, le saumon et l'alose ou le poisson qui se prend dans, ou à l'embouchure des rivières, pendant au moins trois mois et qui n'ont pas pris moins de 2,500 livres de poisson de mer, auront droit à une prime, pourvu toujours que nulle prime ne sera payée à ceux qui feront la pêche dans des bateaux mesurant moins de 13 pieds de quille, et le nombre des réclamants est limité à trois (y inclus le propriétaire), pour les bateaux au-dessous de 20 pieds.

2. Aucun pêcheur ne pourra réclamer plus d'une fois par saison, soit qu'il ait pêché dans deux vaisseaux, ou dans un vaisseau et un bateau de pêche ou dans deux bateaux.

3. Les propriétaires de vaisseaux de pas moins de 13 pieds de quille, qui ont été employés pendant au moins trois mois à la pêche en eau profonde pour d'autres poissons que le homard, le saumon ou l'alose ou le poisson qui se prend dans ou à l'embouchure des rivières, auront droit à une prime sur chacun des dits bateaux.

4. Les vaisseaux canadiens enregistrés de dix tonneaux et au-dessus (jusqu'à 80 tonneaux), employés pendant au moins trois mois à la pêche en eau profonde pour d'autres poissons que le homard, le saumon ou l'alose, ou le poisson qui se prend dans, ou à l'embouchure des rivières, auront droit à une prime qui devra être calculée sur le tonnage enregistré, dont une moitié sera payable au propriétaire ou propriétaires et l'autre moitié à l'équipage, excepté dans les cas où un ou plusieurs membres de l'équipage auraient manqué de se conformer aux règlements, auxquels cas la dite ou les dites parts ne seront pas payées.

5. Les propriétaires ou capitaines de vaisseaux qui ont l'intention de faire la pêche et réclamer la prime devront, avant de partir pour un voyage de pêche, se procurer une licence du percepteur des douanes ou du garde-pêche le plus voisin, la dite licence sera attachée à la réclamation lorsque cette dernière sera envoyée pour être payée.

6. Les dates et les endroits de pêche devront être précisés dans la réclamation ainsi que la quantité et les espèces de poisson pris.

7. Les âges des hommes devront être donnés. Les garçons au-dessous de 14 ans ne sont pas acceptés comme réclamants.

8. Les réclamations devront être assermentées comme étant vraies et correctes dans tous leurs détails.

9. Les réclamations doivent être filées le ou avant le 30 novembre de chaque année.

10. Les officiers autorisés à recevoir les réclamations devront fournir les formes nécessaires, gratis, et après les avoir certifiées devront les transmettre au Département de la Marine et des Pêcheries.

11. Une réclamation dans laquelle le réclamant ou les réclamants auront fait une erreur ne pourra être amendée après avoir été signée et assermentée comme étant correcte.

12. Quiconque sera reconnu avoir fait des retours faux ou frauduleux dans aucun détail, sera exclu de participation dans la prime et poursuivi avec toute la sévérité de la loi.

13. Le montant de la prime à être payée aux pêcheurs et aux propriétaires de bateaux et vaisseaux sera fixé de temps à autre par le Gouverneur en Conseil.

DEMANDES AU PARLEMENT.

Règles relatives aux avis de bills privés.

Dans le cas de toute demande de bill privé, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, et ayant pour objet, soit la construction d'un pont, d'un chemin de fer, d'un chemin à barrières ou d'une ligne télégraphique ; soit la construction ou l'amélioration d'un port, d'un canal, d'une écluse, d'une digue ou d'une glissoire ou autre ouvrage semblable ; soit la concession d'un droit de passage d'eau, l'incorporation de professions ou métiers, ou d'une compagnie de banque ou autre compagnie par actions, soit la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, soit le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement de même nature à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande, et signé (excepté s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part, est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Un avis doit être inséré dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Un avis doit être inséré dans la *Gazette du Canada*, et et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie.

La publication de ces avis durera, dans chaque cas la période de deux mois pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Un exemplaire des numéros des journaux, reproduisant la première et la dernière insertion de l'avis, devra être transmis au greffier de chaque Chambre.

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, le pétitionnaire ou les pétitionnaires devront, en même temps qu'ils donneront l'avis prescrit par la règle précédente, donner aussi, de la même manière, avis des péages qu'ils entendent exiger, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piliers pour le passage des radeaux et des navires ; et mentionner de plus s'ils se proposent de construire un pont mobile, et quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Il en sera imprimé 600 exemplaires en anglais et 200 en français ; la traduction devra être faite par les officiers de la Chambre, et l'impression par l'entrepreneur des impressions. Le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) une somme de $200, plus le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé—le dit paiement sera effectué immédiatement après la seconde lecture, et avant la prise en considération du bill par le comité.

L'honoraire payable sur tout bill privé, ne sera payé que dans la Chambre où il a pris naissance.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par l'une ou par l'autre Chambre après les dix premiers jours de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.
JOHN GEORGE BOURINOT,
Greffier des Communes.

—

Règles additionnelles de la Chambre des Communes concernant les bills privés.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle adopté par la Chambre, le 23 juin 1887, dont copie peut être obtenue du greffier de la Chambre ;

(*a*.) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression ;

(*b*.) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets ;

(*c*.) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le tracé du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer

à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(a.) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés, dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière ; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait ;

(b.) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

JOHN GEORGE BOURINOT,
Greffier des Communes.

SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré, durant six mois, entre l'expiration de la dernière session parlementaire avant l'avis et la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district ; autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire, faite en vertu de "l'Acte concernant les serments extra-judiciaires."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition en obtention d'un bill de divorce n'est présentée que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $200.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.

ORDERS IN COUNCIL.

AT THE GOVERNMENT HOUSE AT OTTAWA

Monday, the 12th day of September, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, under the provisions of chapter 97 of the Revised Statutes and Acts amending the same, and by and with the advice of the Queen's Privy Council for Canada, is pleased to approve of the accompanying regulations for the governance of a ferry across the Niagara River, between the Town of Niagara, in the County of Welland, in the Province of Ontario, and Youngstown, in the State of New York, one of the United States of America.

JOHN J. McGEE,
Clerk of the Privy Council.

—

REGULATIONS.

1*st. Limits.*—The limits of the ferry shall be bounded on the south side of the Town of Niagara by Paradeso Grounds of the Government Ordnance lands, and on

the west side of the Town of Niagara at the westerly end of Queen's street in said town, and a point in the Town of Youngstown, in the State of New York, in the United States of America, to be fixed by the municipal authorities in that place.

2nd. *Landing places.*—The wharves and docks shall be secured and at all times maintained by the lessee in a safe condition and available at all states of the river and subject to the approval of the Department of Inland Revenue.

3rd. *The vessel.*—The boats used for the said ferry shall be not less than 24 feet long, 6 feet beam, 2 feet 6 inches in the hold.

The boats shall be in all respects fully equipped, having a respectable and efficient commander, and the Minister of Inland Revenue shall be a liberty to reject any boat which may at any time be placed on said ferry, or the commander thereof, or the said dock or wharf, should he consider them or any of them respectively unsuitable to the service or unsafe or inadequate to meet the wants of the public.

4th. *Free passage.*—The lessee of the ferry, for the time being shall, at all times, during the continuance of the lease, carry across on said ferry, without fee, toll or reward, Her Majesty's mails, and upon requisition by the Postmaster General of Canada, the mails of the United States of America.

5th. *Contraband.*—The lessee shall not at any time carry or convey or permit or suffer to be carried or conveyed over said ferry any contraband articles whatsoever.

6th. *Customs laws.*—The lessee shall observe all Customs and Revenue Laws of the Dominion of Canada and of the United States of America.

7th. *Number of trips.*—During the period commencing the 1st May, until the 1st November in each and every year, the said ferry shall commence to ply at the hour of six o'clock in the morning (Sundays excepted), and shall continue to cross at intervals of every half hour successively thereafter until the hour of eight o'clock at night.

8th. That the charge for fares and tolls to be made on the said ferry shall not at any time exceed the following, that is to say :—

For foot passengers, each way, adults... 15 cts.
" " " children. half price.

9th. Notices of the rates of fares and the rates of tolls on the said ferry shall be put up and kept up, and exhibited at all times in a conspicuous place on or near the said dock or wharf.

10th. That the Governor in Council shall be at liberty to alter and modify the tariff of charges and tolls hereinbefore contained, should it be deemed expedient in the public interests, and after such notification as aforesaid the lessee shall not take or receive any other or larger fares or tolls than those which shall be imposed in such modified tariff during the subsistence thereof.

11th. That the Governor in Council shall be at liberty at any time at which it may be shown that the lessee has failed to observe, perform, fulfil and keep any or other of the said provisoes, restrictions and conditions hereinbefore contained and expressed to declare the lease forfeited and void, whereupon the same shall become and be void to all intents and purposes, as if the same had never been granted, without indemnification to the lessee.

12th. That the said lessee shall not at any time during the existence of the lease, wilfully or knowingly infringe any of the laws, or by-laws or of the regulations of the United States of America, or of the State of New York, or the City of Buffalo, or Black Rock, in reference to ferriage which may be applicable to the said ferry, or such portion thereof as may be within the jurisdiction of any of them, the United States of America, State of New York, or the City of Buffalo or Black Rock, or permit or suffer the same to be infringed by any officer, servant or employé of the said lessee.

13th. Provided always that if the United States of America, or the State of New York, or the City of Buffalo, or Black Rock, shall in any exercise of any authority in any of them existing at any time during the existence of the said lease, prevent or hinder ferriage at or upon the said ferry or such portion thereof as may be within the jurisdiction of such one of them, or put the lessee to any loss, expense, charge, or damage in respect to the same, no claim or demand for compensation, or any right or title thereto shall be made upon or against the Dominion of Canada.

14th. The ferry boat shall be placed on the route immediately on the lease being granted.

15th. The lease will be granted for a period of five (5) years, the rent being payable in advance. The lessee will be required to give two sureties satisfactory to the Department of Inland Revenue, who shall be bound jointly and severally with the principal in the sum of two thousand dollars ($2,000) for the full compliance by the said lessee with the terms of the lease.

16th. The lease shall not be sublet or assigned without the consent of the Governor in Council, but in the event of the death of the lessee, the lease shall inure to the benefit of the lessee's personal representatives, or as by his will he may direct. 13–4

AT THE GOVERNMENT HOUSE AT OTTAWA.

Saturday, the 17th day of September, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS from information received there is reason to believe that the disease of Asiatic Cholera has declared itself in the City of New York, and that five deaths have occurred therefrom ;

And whereas it is advisable to extend the regulations applicable to maritime ports other than regular quarantine stations to the inland ports on the frontier between Canada and the United States in the particulars in which such regulations can be made to apply to an inland port ;

And whereas by section 3 of chapter 68 of the Revised Statutes, intituled "An Act respecting Quarantine" it is provided that the regulations made under it "shall have the force of law, and any person dis-"obeying any such regulation is guilty of a misde-"meanor and liable to fine or imprisonment or both, "as the court directs ; or such person may be sued for "the penalties contained in such regulation ";

And further it is provided in section 4 of the said Act, that—

"The Governor in Council may by such regulations "require the owners or persons in charge of goods or "things conveyed by land to any place in Canada, to "allow the proper officer appointed under such regu-"lations to inspect and examine the same, and to "answer truly all questions asked of them by such "officer concerning the same, and to allow such goods "or things to remain so long in the custody of such "officer and to be so treated, cleansed and purified as "such officer thinks necessary for the purposes of this "Act ; and the Governor in Council may by such "regulations require all persons arriving by land at "any place in Canada to allow themselves to be ins-"pected and examined by the proper officer appointed "under such regulations, and to answer truly all "questions asked of them by such officer, and to "remain so long at such place and to be so treated, "cleansed and purified as such officer thinks necessary "for the purposes of this Act "—

His Excellency, in virtue of the provisions of chapter 68 of the Revised Statutes, intituled "An Act respecting Quarantine," and by and with the advice of the Queen's Privy Council for Canada, is pleased to make the following regulations—the same to stand for Quarantine Regulations in virtue of the provisions of the said Act, namely :—

1. Each Collector of Customs at any frontier port in his quality of quarantine officer as provided in section 31 of chapter 6 of the Consolidated Orders in Council of Canada, shall, by virtue of such office, be a Justice of the Peace under the authority and for the purposes of such Act.

2. Any Collector of Customs in his quality of quarantine officer shall, if he is informed of the presence of any infectious disease such as defined in section 27, chapter 6 of the Consolidated Orders in Council, or if he has reason seriously to suspect the presence of such

disease, forthwith order an inspection to be made of the car, carriage, vehicle, boat, or thing bringing such disease, by a medical man, who shall for such purpose be and is hereby constituted a quarantine medical officer to carry into effect the purposes of the said Act, with the powers specified in the extract from section 4 of the said Act above recited.

3. The fee payable to such medical man for such inspection shall not exceed the sum of four dollars for each visit, and in the event of infectious sickness being found such fee shall be payable by the company or owner of the car, carriage, vehicle, boat, or thing bringing such disease.

4. The Customs Collector in his quality of quarantine officer shall, on the report of such medical quarantine inspector cause the detention of the car, carriage, vehicle, boat or thing bringing such infectious disease until the requirements defined in section 33, chapter 6, Consolidated Orders in Council, are satisfied.

JOHN J. McGEE,
Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 16th day of August, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada, and in virtue of the powers conferred on him by section 108 of chapter 50 of the Revised Statutes of Canada, intituled "An Act respecting the North-West Territories," is pleased to order and it is hereby ordered, that that portion of the public travelled road or trail from Morley to Banff, which has been surveyed from Canmore to the boundary of the Rocky Mountain Park, be transferred to the Lieutenant Governor of the North-West Territories, for the public uses of the Territories, subject to any rights acquired under patents for lands crossed thereby.

JOHN J. McGEE,
12-4 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Monday, the 12th day of September, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, under the provisions of chapter 34, of the Revised Statutes of Canada, intituled "The Inland Revenue Act," and by and with the advice of the Queen's Privy Council for Canada, has been pleased to make and establish the following regulations in respect of tobacco and cigars, and tobacco and cigar manufactories, and the same are hereby made and established.

JOHN J. McGEE,
13-4 Clerk of the Privy Council.

—

TOBACCO AND CIGAR REGULATIONS.

ARTICLE 1.—RAW MATERIAL.

A.—For dealing with raw leaf tobacco, scraps, cuttings, stems, liquorice or other materials, when brought into, produced or used in, or removed from a tobacco or cigar manufactory.

Section 1. So soon as any tobacco or other raw material is received at the manufactory, the quantity thereof shall be ascertained by the manufacturer, under the immediate supervision of the officer in charge, whose duty it shall be to test the accuracy of all weights, and when required so to do by the manufacturer, to ascertain the deduction to be made for moisture.

Sec. 2. Standard tobacco, as defined by the Act, means tobacco which contains 10 per cent of moisture, but it is not intended to notice the discrepancy of 1 or 2 per cent from this standard in either direction.

Sec. 3. When, however, there is an evident excess of moisture beyond the proportion above mentioned, viz., 10 per cent, the manufacturer may, if he desires, have this excess ascertained, and if found to be as much as, or more than 12 per cent, the excess over 10 per cent is to be deducted from the weight found ; in other words, when an account is taken of excessive moisture at all, 10 per cent is to be understood as being the standard, and all over that is to be allowed.

Sec. 4. All samples taken for the purpose of ascertaining the percentage of moisture contained therein are to be furnished by the manufacturer or owner free of cost.

Sec. 5. It is not necessary that samples should be taken from each package ; when two or more packages are, after careful examination, considered by the officer to be about the same as regards moisture, one sample can be taken to represent the lot. It is the desire of the Department that the manufacturer should suffer as little loss as possible by taking his tobacco for the purpose of ascertaining the moisture, and whenever any manufacturer is satisfied that the raw leaf and other unmanufactured tobacco brought into his manufactory at any time is not above or below the standard, he may enter the actual weight upon his books, without submitting a sample to be tested, but in such case the weight shall be considered as standard and no allowance made thereafter if the production in the manufactory should fall below the standard established by law.

Sec. 6. The certificate to be given to the Collector of Customs, under section 312 of "The Inland Revenue Act," is to be made out on the form No. 28. The Collector shall see that this certificate is carefully filled up and attached (with gum) to the customs entry covering the raw leaf tobacco to which it relates.

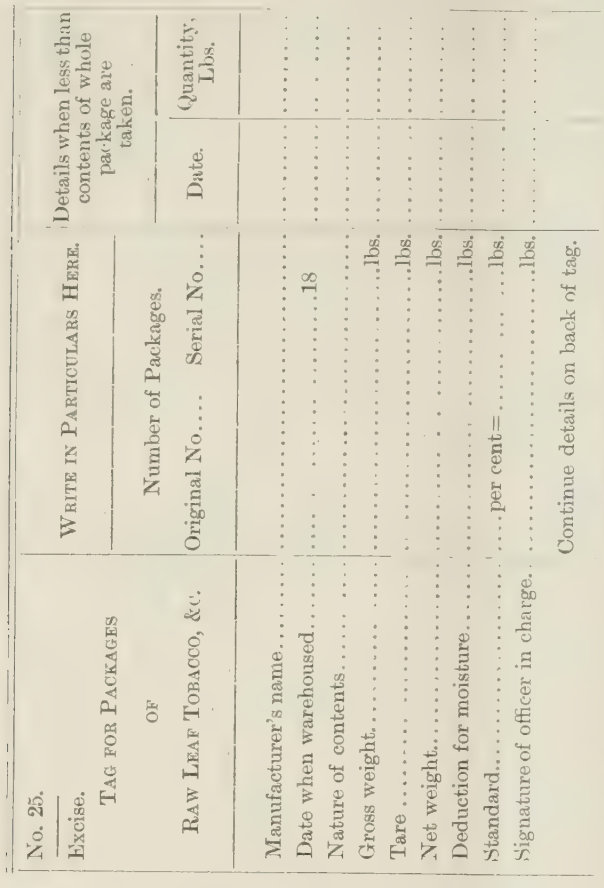
Sec. 7. All stems, scraps, cuttings, clippings, waste or other refuse of tobacco, when produced in, taken for use, removed from or destroyed at or from any tobacco or cigar manufactory, shall be entered in standard pounds.

Sec. 8. All raw leaf tobacco, stems, scraps, cuttings, clippings, waste and tobacco in process of manufacture at the time when stock is taken, shall be stated in standard pounds, and in all such cases care must be taken that samples for drying fairly represent the degree of moisture in each lot from which samples are taken.

Sec. 9. In all cases where it becomes necessary to take an account of the moisture, samples must be carefully taken in such a manner as to give a fair sample—as to moisture—of the whole ; these samples should each be from one-quarter to one-half of one pound in weight, and must be carefully weighed immediately they are taken, and the samples are to be taken from the packages at the time of weighing thereof, and not at a date previous to or after such weighing ; they are then to be carefully dried in the drying oven with which important offices have already been or will be supplied ; the difference between the weight when put in and removed from the dryer will represent the moisture contained therein.

Sec. 10. The principal offices are supplied with scales specially constructed for the purpose, by means of which the percentage of moisture in excess of the standard can be read on the arm of the scale instead of having to resort to computations to ascertain it.

This scale is so constructed that, by filling the counterpoise bucket at the end of the arm with shot sufficient to balance the oven tray on the platform, the weight as shown will be the net weight of the tobacco ; by means of the adjustable weight on the arm the sample can be either one-quarter, one-half or one pound, and by placing this weight at 100 when weighing the tobacco for drying, and then reading after drying on the lower scale on the arm, the exact percentage of moisture to be deducted can be seen at a glance.



Sec. 11. The officer in charge of each tobacco or cigar manufactory shall keep a record of the weight of all packages of raw leaf tobacco or other raw material received into manufactory ; the entry shall be made in a book provided by the Department for that purpose.

Sec. 13. Where stemmed raw leaf tobacco is received at any cigar manufactory the entry thereof, when received and when subsequently taken for use, is to state its character as such, and the quantity so received and taken for use is to be likewise referred to by a foot note on the manufacturer's monthly return (F. 4), and on annual stock statement (G. 15).

Sec. 13. All packages of raw material received into warehouse shall be consecutively numbered, beginning with number one, on the 1st day of July in each year.

Sec. 14. A ticket, or tag, shall be placed upon each package, showing the date when put in warehouse, the original and serial number of the package, the gross weight, the tare and the net actual weight of tobacco or other raw material contained therein, and in the case of raw leaf tobacco, scraps and cuttings, stems and other unmanufactured products of raw leaf tobacco, the pounds,

percentage of moisture and pounds of standard tobacco contained therein. In order that there shall be uniformity of practice, the following is the form of ticket or tag to be used, until otherwise modified or altered by departmental regulations, which tag will be supplied by the Department upon proper requisition being made therefor :—

In the case of liquorice, sugar, gum or other raw materials other than leaf tobacco, cuttings and other unmanufactured products of leaf tobacco, the last two lines will be left blank, as no deduction for moisture is to be made from these articles.

Sec. 15. All leaf tobacco and other materials are, as soon as received and an account of them taken, to be placed in the warehouse provided for that purpose and secured by crown lock, the key thereof being in the possession of the officer in charge.

Sec. 16. Raw leaf tobacco and other raw materials are to be delivered to tobacco and cigar manufacturers in such quantities as may be required for use ; and as they will have access to the warehouse daily, if required, and can take tobacco from as many different packages as if it were under their sole control, it is not necessary that greater quantities should be taken than are required for each day's use : when taken for use by whole packages it must be entered ex-warehouse at the weight marked on the packages when received :

(*a.*) If, in the opinion of the Department, the conveniences afforded by any tobacco or cigar factory will not permit of the storing of all raw leaf tobacco and other raw material within the locked apartment designated for that purpose, without unduly harassing the manufacturer, then the collector may authorize such proportion as he may see fit to be stored in other parts of the factory ; and in such case each such package so withdrawn, if not required for proximate use, shall have placed upon it by the manufacturer a red card of not less than four inches square, with the words "in bond" printed thereupon in letters of not less than one inch in height ; and the removal of such card, or of any of the contents of such package, before the weight contained in such package has been entered to the debit of the "Daily Record" as "taken for use," shall be deemed to be an illegal abstraction of goods from warehouse, and shall subject the manufacturer to like penalty as by law provided ;

(*b.*) When the contents of any package are taken for use at various times, the last entry from the package shall be made to balance the quantity originally warehoused and marked on such package ;

(*c.*) A manufacturer will be permitted to take whole packages or such quantities as he may require for use, but if it is at any time evident that a manufacturer is entering for use quantities far in excess of what his business demands, the collector will apply to the Department for specific instructions.

Sec. 17. All stems produced in any tobacco or cigar manufactory must, unless used or intended for immediate use in the manufactory, or held by the manufacturer with a view to their exportation, be weighed up not less frequently than once a month and either destroyed or locked up as hereinafter provided.

All stems, scraps, cuttings and waste produced in any tobacco or cigar manufactory and charged back to stock and carried to debit of stock book No. 1, shall, unless immediately destroyed, removed or entered for use, be placed in raw-leaf warehouse.

Sec. 18. The destruction shall be by burning, except when some other mode is specifically permitted. Collectors are authorized to deliver from time to time, to known gardeners, tobacco stems to be used for horticultural purposes only. The quantity furnished for such purposes and the security to be taken for the proper use of such stems to be within the discretion of the collector. Forms of bonds (A. 8,) and permits (Bb. 13,) can be had on requisition being made therefor to this Department. Stems may also be delivered to reliable persons for fertilizing purposes in such quantities as the collector may, in his discretion, deem advisable. In this case, however, it is required that the stems should be mixed with manure in the presence and to the satisfaction of an officer of this Department, which being done, no bond will be required. Either the manufacturer or the person receiving the stems, as may be mutually agreed upon, must bear the expense consequent upon the officer's attendance at the place where the stems are so destroyed. Stems delivered for either horticultural or fertilizing purposes will be included in the "Monthly Return of Tobacco Stems," (G. 17).

Sec. 19. Stems, scraps, cuttings or waste must, before they can be entered for removal and destruction, be carried to debit of stock book No. 1.

Sec. 20. Raw leaf tobacco, after being charged in a tobacco or cigar manufacturer's daily record as taken for use, cannot thereafter be removed from factory in an unmanufactured state, unless by special permission, in each case obtained from the collector.

Sec. 21. Raw leaf tobacco and scraps and cuttings when removed from a tobacco or cigar manufactory or tobacco warehouse must, before removal, be re-weighed and tested and deficiency (if any) ascertained, and the quantity shall be entered in standard pounds as thus determined, and must be consigned to the order of the collector of the division to which entered for removal. If any deficiency is found to have arisen on the tobacco or scraps and cuttings while in warehouse, application must be made to the Department for authority to pass a free entry, or to be otherwise dealt with as the Department may determine.

Sec. 22. Where tobacco and other raw materials are secured under crown lock, it is not necessary to weigh each package in the warehouse when taking stock ; only a sufficient number to satisfy the officer that the packages remain as shown on tag : when not secured by crown lock, each package must be carefully weighed.

Sec. 23. As stems and waste do not enter into computation in arriving at the production in cigar manufactories, collectors are requested to see that all such produced are properly charged back to stock book No. 1, so that no balance of same will remain to be included as in process of manufacture at time of stock-taking.

Sec. 24. Flavorings received at a tobacco or cigar manufactory are not to be examined by the officer in charge, but the weights are to be recorded by the manufacturer, as in the case of other raw material.

B.—For sale of scraps, cuttings, stems and sweepings of tobacco in bulk, by one manufacturer to another.

Sec. 25. Whenever any manufacturer of tobacco or cigars desires to sell his refuse scraps, cuttings, stems and sweepings of tobacco, in bulk and as material, to another manufacturer of tobacco or cigars, to be further manipulated or manufactured, he is hereby permitted to do so under the following rules and conditions, viz. :—

(*a.*) The scraps and cuttings, stems and sweepings of tobacco must be put up in separate packages, and in no case mixed, nor must any raw leaf be added thereto to fill up the package. The different classes of tobacco must be kept separate and distinct ;

(*b.*) The removal must be made in bond, and the goods consigned to the order of the collector of Inland Revenue of the division to which the goods are to be removed, in the same manner as provided for manufactured articles ;

(*c.*) The packages containing the goods are to be consecutively numbered, and each to have marked thereon the gross weight, the tare, and the net weight, and also the

standard weight of unmanufactured tobacco contained therein, and shall, in addition, have marked thereon the registered number of the manufactory, number of the warehouse entry, date, and number of the Inland Revenue division ;

(*d.*) No person other than manufacturers of tobacco or cigars will be allowed either to purchase or sell this description of tobacco unless it is packed, stamped, and the duty paid thereon, as provided by law.

Sec. 26. Whenever any manufacturer of tobacco or cigars desires to sell his refuse scraps, cuttings, stems, or sweepings of tobacco for export to a foreign country, he will enter the same for export in bond in the same manner and under the same regulations as govern the shipment and exportation of manufactured goods.

Sec. 27. Cigar manufacturers will not be permitted to put up small packages of cuttings for consumption.

C.—For removal of snuff-flour and fine-cut shorts, from one tobacco manufactory to another.

Sec. 28. Snuff-flour not prepared for use, but which needs to be subjected to further process of sifting, pickling, scenting or otherwise, before it is in a condition fit for use or consumption, may be sold by one tobacco manufacturer directly to another, under the following regulations :—

(*a.*) The snuff-flour shall be put up in packages, and these packages consecutively numbered and marked with the gross weight, the tare, and the net weight thereof, and shall, in addition, have marked thereon the registered number of the factory from which removed, the number of the warehouse entry, date, and number of the Inland Revenue division ;

(*b.*) The snuff-flour shall be removed from one manufactory to another in bond—the necessary warehouse and removal entries and removal bond being passed therefor, as in the case of other removals in bond.

Sec. 29. Fine-cut shorts, the refuse of fine-cut chewing tobacco, may be sold in bulk, like scraps, cuttings, &c., by one manufacturer of tobacco to another ; but when put up for sale and consumption, they must be packed in packages containing one-twentieth, one-sixteenth, one-tenth, one-eighth, one-fifth, one-fourth, one-half or one pound each, and stamped like other small packages of tobacco : the law does not authorize the packing of fine-cut shorts in five pound or ten pound packages, the same as fine-cut chewing.

Sec. 30. Fine-cut shorts may be sold in bulk by one tobacco manufacturer to another, under the following regulations :—

(*a.*) They shall be put up in packages, and these packages consecutively numbered and marked with the gross weight, the tare, and the net weight thereof (the net weight being stated in apparent and also in standard pounds), and shall, in addition, have marked thereon the registered number of the manufactory where put up or from which removed, the number of the warehouse entry, the date and number of the Inland Revenue division ;

(*b.*) The fine-cut shorts, like snuff-flour, shall be removed from one manufactory to another in bond.

Sec. 31. Upon the receipt of the snuff-flour or fine-cut shorts at the manufactory to which it is consigned, it shall be placed in the raw-leaf warehouse, and shall be delivered to the manufacturer in such quantities as he may require for treatment.

Sec. 32. In all books, snuff-flour and fine-cut shorts shall, when entered for removal for further treatment at another licensed tobacco manufactory, be treated as raw material, and as the transactions are not likely to be such as to render it necessary to encumber the books with special columns for these articles, they will be dealt with in the books in the following manner, when removed, viz. :—

(*a.*) The entries to be made in red ink ;

(*b.*) Enter in column No. 21 in daily record when produced, and in columns Nos. 10 and 26 in stock book No. 1, when "charged back to stock" and "removed from manufactory" respectively ;

(*c.*) At receiving manufactory enter in columns Nos. 9 and 25 in stock book No. 1, when "brought in" and "taken for use," respectively, and in column No. 7 in daily record, when "taken for use ;"

(*d.*) Explanations to be made in columns Nos. 2 and 19 in stock book No. 1, and columns Nos. 2 and 15 in daily record ;

(*e.*) Totals of fine-cut shorts and snuff-flour to be also shown in red ink, and separate and distinct from the totals of scraps, cuttings and waste, as shown in the columns referred to.

D—Raw leaf tobacco samples.

Sec. 33. The following regulations as to the manner of dealing with small quantities of raw leaf tobacco imported as sample, and on which the Department has no authority to collect duty, are issued for the guidance of Customs officers at the ports where such samples are imported :—

(*a.*) Such samples must be bonded in a Customs warehouse in the same way as all other imported raw tobacco is bonded ;

(*b.*) The removal of such samples from Customs warehouse in quantities not exceeding one hundred and fifty pounds at any one time may be permitted on a removal bond being executed with the Collector of Customs by the parties who desire to remove the tobacco, and another surety who must be a resident householder, or some responsible person resident at or near the port at which the bond is given ; and each separate parcel or sample must be securely sealed and stamped, so that it may be identified ;

(*c.*) The removal entry shall accurately state the quantity, description and quality of the tobacco, as known to the trade, to be removed, which description shall also include particulars necessary for the identification of the several samples or parcels ;

(*d.*) Each removal paper shall have endorsed on it, by the Collector of Customs, the date at which the removal bond will expire, and shall set forth that the holder of the paper is permitted to carry with him the tobacco therein described for the purpose of exhibiting it to his customers ;

(*e.*) The conditions of the bond are to be that the tobacco shall, within a specified time, be delivered to and entered upon the books of a licensed tobacco or cigar manufacturer, or that it shall be exported ;

(*f.*) And the bond shall only be cancelled on the production of the certificate of an officer of Excise that the tobacco has been entered on the books of a licensed tobacco or cigar manufacturer, or on the certificate of a Customs officer, that the tobacco has been exported and within the time mentioned ;

(*g.*) In addition to the above certificate, when the tobacco is exported all the warehouse regulations then in force in reference to the exportation of Customs goods shall be complied with before the bond is cancelled ;

(*h.*) Whenever the bond is not cancelled in the manner above stated, and within the time stated in the bond, it will be the duty of the Collector of Customs before whom it is taken, to call upon the parties for the immediate payment of the penalty inserted in the bond, which, in accordance with the 312th section of the Inland Revenue Act, will be for a sum equal to 30 cents per pound on the tobacco to which it relates ;

(*i.*) When samples are sent out by the travelling agent of any person duly licensed to warehouse raw leaf tobacco under the Inland Revenue Act, an accurate account of such samples is to be taken by the proper officer of Excise and entered on the warehouseman's books, and the same means adopted for their identification, as is directed with reference to samples just imported ;

(*j.*) A bond will be taken with reference to such samples of the same nature as is directed with reference to samples just imported ; but in lieu of making it an alternative that such samples shall be exported, the conditions shall be that they shall be returned to the warehouse of the licensed warehouseman, and by him entered on his books ;

(*k.*) Whenever any importer desires to do so, he may pay the fee of thirty cents per pound on the raw-leaf samples, and have them stamped with the special raw-leaf tobacco sample stamp provided for that purpose, and may then bring in and exhibit his samples without any restrictions as to the giving a removal bond, procuring the certificate of officers of Excise as to its being entered on a manufacturer's book, or for the exportation of the sample ;

(*l.*) The special raw-leaf tobacco sample stamps are to be destroyed when the tobacco is taken for use in any tobacco or cigar manufactory.

ARTICLE 2.—STAMPS.

A.—Stamps for Tobacco.

Sec. 34. By virtue of the authority of the Inland Revenue Act, the following denominations of stamps for tobacco have been prepared, and their use is hereby prescribed, viz. :—

(*a.*) Small stamps, in sheets, of the denomination of ten, twenty, fifty and one hundred for cigarettes ; one-sixteenth of a pound for snuff, and one-tenth of a pound for cut tobacco ;

(*b.*) Strip stamps, in sheets, of the denomination of one-twentieth, one-sixteenth, one-twelfth, one-tenth, one-ninth, one-eighth, one-sixth, one-fifth, one-fourth, one-half and one pound, for use on all legal packages of cut and granulated tobacco, shorts, clippings, cuttings and sweepings of tobacco.

(*c.*) Strip stamps, in sheets, of the denomination of five and ten pounds for pails, kegs or drums of fine cut chewing tobacco ;

(*d.*) Strip stamps, in sheets, of the denominations of one-sixteenth, one-eighth, one-fourth, one-half and one pound, for packages of snuff, as well as on packages of cut and granulated tobacco, shorts, clippings, cuttings and sweepings as per clause (*b*) above.

(*e.*) Strip stamps, in sheets, of the denominations of five and ten pounds, for packages holding snuff when containing not more than forty per cent of moisture ;

(*f.*) Strip stamps, in sheets, of the denominations of five, ten and twenty pounds, for packages holding snuff, when containing more than forty per cent of moisture ;

(*g.*) Coupon stamp, in books, of the denominations of one, five, ten, fifteen and twenty with one-half pound coupons ; thirty-five, sixty, seventy and one hundred with one-pound coupons.

Sec. 35. No stamp of a denomination less than one-tenth of a pound is provided for tobacco solely the product of Canadian raw leaf.

Sec. 36. It is the duty of every officer in charge of any tobacco or cigar manufactory to see that no greater quantity of tobacco or cigars in contained in the packages to which the stamps are attached than the stamp is intended to cover, and the packages must in all cases be full, *i. e.*, a ten-pound stamp must not be placed upon a package capable of holding fifteen to twenty pounds, even if the package only contains ten pounds of tobacco. Should any package containing tobacco or cigars at any time be discovered with stamps thereon for a quantity less than the package contains, it is the duty of every officer to detain such packages as forfeited, and report the circumstances to this Department through the Collector of the division.

Sec. 37. Stamps for use on packages of tobacco or cigars shall be of such colour and description as the Department of Inland Revenue may provide.

B.—Stamps for Cigars.

Sec. 38. The Commissioner of Inland Revenue has caused to be prepared for the payment of duty on cigars, the following denominations of cigar stamps :—

(*a.*) Strip stamps issued in sheets, for boxes or packages containing three, six, ten, twenty-five, fifty, one hundred and two hundred cigars each ;

(*b.*) Strip stamps issued in sheets, for sample boxes of cigars containing twenty-five cigars each ;

(*c.*) Strip stamps, issued in sheets, for boxes of imported cigars (rate of duty being on the pound as heretofore) ;

(*d.*) Manufacturers must each time make requisition for a quantity of either three-cigar or six-cigar stamps not less than sufficient to cover 1,000 cigars.

Sec. 39. Stamps for use on sample boxes of cigars are coloured yellow, with the letter "F" thereon when used on cigars the product of foreign leaf, and "C" thereon when used on cigars the product of Canadian leaf.

C.—Stamps for Canada Twist.

Sec. 40. Stamps for Canada twist are supplied of the denominations one-fourth, one-half and one pound each.

Sec. 41. Stamps of the above denominations will be supplied to postmasters or other persons throughout the country, who will keep a record of the names of the persons to whom they sell stamps, and of the license number and the number and denomination of stamps sold to each (selling them only to licensed persons), for which purpose a suitable book is supplied ; the register of sales above referred to is to be open at all times for the inspection of officers of Inland Revenue.

Sec. 42. In regard to the sale of stamps for "Canada Twist," the following regulations are to be observed :—

(*a.*) A return of the sales is to be made daily (or as often as they occur), as is done in the case of other collections. Form D. 12 is to be used, and must show : (a.) The names of the purchasers ; (b.) The denomination and consecutive numbers of the stamps ; (c.) The total weight represented by the stamps ; and (d.) The total amount of duty :

(*b.*) It is not necessary to make a separate entry paper for each sale when more than one sale is made in a day ; but the sales to persons who are authorized to sell stamps on commission should not appear on the same entry with sales to other persons :

(*c.*) In the case of stamps sold on commission, the full amount of the duty chargeable upon the weight represented by the stamps is to be deposited to the credit of the Receiver General, the Collector taking the amount of the commission from his advance for contingencies :

(*d.*) At the end of each month (or oftener if necessary) the Collector will forward to the Department a statement of the amounts allowed for commission, quoting the number of each entry, the total amount of duty which it represents, and the amount of commission allowed thereon. The statement will be audited, and, if found correct, a cheque for the amount will be issued :

(*e.*) If at any time stamps are used for "Canada Twist" which has been seized, a separate entry paper must be used for them, or they may appear on the entry paper used to account for the proceeds of the seizure.

Sec. 43. Canada twist cannot be manufactured for sale by the cultivator unless he has taken out a license, paying therefor the sum of two dollars, and the law imposes a heavy penalty on any cultivator who shall manufacture for sale any Canada twist without taking out a license ; Collectors of Inland Revenue and others acting for this Department will, therefore, take all the means in their power to acquaint cultivators with the necessity of taking out such license and stamping the Canada twist before offering it for sale.

Sec. 44. The stamps will be attached to the roll or coil by interlacing it through the coil when made and bringing the two ends of the stamp once around the coil and fastening securely by gum or paste. The stamp is to be attached in all cases by means of good strong gum, and every officer of this Department is instructed, so far as it lies in his power, to impress upon cultivators who manufacture Canada twist for sale, that the firm adherence of the stamp to the tobacco is necessary in order to protect it from seizure, for if any packages are found anywhere except in the possession of the licensed cultivator, manufacturer, or in the premises of a licensed tobacco manufacturer of Canadian leaf tobacco only, without a stamp properly attached, they will certainly be seized and confiscated, in accordance with the law.

Sec. 45. The law also imposes heavy penalties on any person who shall open a package of tobacco without breaking the stamp thereon, or in whose possession a package unlawfully opened shall be found, or in whose possession any used stamps shall be found.

Every officer will, therefore, avail himself of every opportunity for bringing these matters under the notice of those concerned.

D.—Bonded Removal Permit Stamps.

Sec. 46. The bonded removal permit stamps to be used on packages of tobacco when ex-warehoused for removal in bond, are of the following denominations, viz. :—

(*a.*) For use on pails, kegs, drums or other packages of fine-cut chewing tobacco, weighing five and ten pounds each ;

(*b.*) For use on five, ten and twenty pound packages of snuff ;

(*c.*) For use on packages of plug tobacco weighing from five to twenty-five pounds ;

(*d.*) For use on packages of plug tobacco weighing from thirty-five to one hundred and ten pounds ;

(*e.*) For use on packages of cigars.

Sec. 47. They are to be attached as follows :—

(*a.*), (*b.*) and (*e.*) are to be attached to the package in such a manner as to be about equally attached to the cover and the body of the package :

(*c.*) and (*d.*) are to be attached at the same place on caddy or box as reserved for regular duty-paid stamp, viz. " over one corner or angle of the box or caddy, at equal distances from each end, attaching about equally to each side."

Sec. 48. Each package of tobacco or cigars removed in bond must be covered by a bonded removal permit stamp, of a denomination provided for the class of package upon which it is placed, and is to be attached to the package and cancelled by the manufacturer or his agent ; the cancellation will be by means of the roller stamp used for the first cancellation on the regular duty-paid stamps ; if the manufacturer so desires it, the bonded removal permit stamps may be placed upon the packages intended for removal at the time the tobacco or cigars are put in the warehouse. As this is solely for the accommodation of the manufacturer, the understanding must be that he shall only ask for these stamps to attach to packages that he *knows* will be entered for removal or transfer in bond. If he cannot do this the stamps can only be furnished at the time of entry of goods for removal or transfer. Officers in charge of tobacco or cigar factories are required to see that these stamps are properly used.

E.—Stamps for Customs.

Sec. 49. Arrangements have been made with the Department of Customs, that in future stamps for imported tobacco shall be supplied by this Department, through the Collectors of Inland Revenue. Collectors will therefore put themselves in communication with the Collectors of Customs, who may require to obtain supplies through

the Excise office, and request them to make requisitions on the Collectors of Inland Revenue for such stamps as they are likely to require at their respective ports.

Sec. 50. As it takes considerable time to obtain stamps, when not in stock at the time the requisition is received, the Collector of Inland Revenue aforesaid will request the Collectors of Customs to make their requisitions as early as possible.

Sec. 51. The denominations of stamps for imported tobacco and cigars are the same as those for like articles manufactured in Canada, with the addition of a stamp for raw leaf tobacco samples, cigar stamps at rate of duty per pound instead of per M. and cigarette stamps of the denominations of one-fortieth and one-twentieth of a pound.

F.—Supply of Stamps.

Sec. 52. Stamps will be supplied by the Department upon proper requisition being made therefor by the Collector of Inland Revenue, who will make requisition sufficiently in advance to insure having a supply always on hand equal to the probable demand for three months, as required by section 280 of the Inland Revenue Act: on receipt of a parcel of stamps the Collector or other officer receiving them is immediately to count them, and if they are found to be in accordance with the receipt accompanying the parcel, he is to sign, date and return the receipt to the Department by the next mail, and enter the stamps so received on the debit side of his "General Record of Tobacco Stamps (K. 21a);" if they are not found to be correct, he must immediately advise the Department of the error, and enter the exact number received by him to the debit of his stamp account: Collectors and other officers must account for every stamp acknowledged to have been received by them.

Sec. 53. A separate account is to be opened for each denomination of stamp, and kept in the manner shown on first folio of stamp book, stating on the debit side the number received, and on the credit side the number issued. On opening the account the debit side is to commence with the number of stamps then on hand of the description to which it relates.

Sec. 54. Collectors are instructed to forward to the Department, by mail, registered, on the first day of each month, all books containing marginal stubs and unused coupons, the last stamps from which were detached during the previous month. The covers thereof are to be neatly cut even with the stubs, and those portions of the covers so detached need not be returned to the department, and all books containing coupon stubs so returned must show on the blank space opposite each sheet of coupons the number of pounds represented thereby on that page; and that a statement be attached to the fly leaf in front of each book, showing the number of pounds represented by the unused coupons on each page in detail and the total thereof. Collectors will take credit in their General Record of Tobacco Stamps (K. 21a) for the coupons so returned.

G.—Mode of affixing Tobacco and Cigar Stamps.

Sec. 55. Under the authority of section 280 of the Inland Revenue Act, it is hereby prescribed that stamps shall be affixed to packages of tobacco and cigars in the following manner, viz.:—All packages of tobacco, except fine-cut chewing and snuff, containing five pounds and upwards, shall have affixed a registered coupon stamp of a denomination corresponding with the net weight of the tobacco contained therein: for example, packages containing from ten to twenty-five, and from sixty to eighty pounds, can be, and must be covered by a single stamp, by using coupons attached to stamps, when the weight of the package is not precisely ten, fifteen, twenty, sixty or seventy pounds (in which case the stamp alone is used, without the coupons attached): when the weight of tobacco contained in the package ranges between ten and twenty-five, and between sixty and eighty pounds, the coupons are used in connection with the stamp bearing such weight, so that with one or more of the coupons attached thereto it will correspond with the weight required: half pounds will not be allowed on packages containing twenty-five pounds and upwards: all other packages of tobacco are to be covered by stamps of the denomination provided by the Department, and one stamp only is to be used on each package.

Sec. 56. Upon all descriptions of boxes and caddies of cavendish, plug, twist, or other description of tobacco, the stamp shall be affixed over one corner or angle of the box or caddy, at equal distances from each end, attaching about equally to each side: and on all such packages, when made of wood, a groove not less than one thirty-second of an inch deep shall be made to admit the stamp, and prevent its being torn or rubbed off by transportation.

Sec. 57. Upon all kegs, drums, pails, or other packages containing five and ten pounds of fine cut chewing, and five, ten and twenty pounds of snuff, as permitted by law, the stamp, being a strip stamp, shall be placed across the cover, so as to extend down each side of the package, and to effectually seal it.

Sec. 58. Strip stamps, whether used for packages containing smoking tobacco, fine-cut chewing, snuff, cigars or cigarettes, must be so attached as to effectually seal the package, and render it impossible to open the same or remove its contents without destroying or breaking the stamps: stamps on cigar boxes must be placed at least three-fourths of an inch from the end of the box.

Sec. 59. The practice of putting up cigarettes in small parcels held together by a narrow band, and these parcels placed in a large package, which alone is stamped, will not be permitted. All cigarettes must be put up in packages as provided by the Act, and each package must bear the proper revenue stamp.

Sec. 60. The strip stamps for tobacco are made sufficiently long to pass over both ends of the package and turn the opposite angles, thus effectually sealing the package, and they must be so affixed; and when applied to bags which open only at one end, they must be affixed so as to effectually close that end.

Sec. 61. The stamps are to be affixed to the packages by using an adhesive material that will cause them to stick to the wood, paper or other packages, securely and permanently: after the stamps on wooden or metal packages of tobacco have become dry, and the cancellation has been made, as herein described, they must be varnished over thoroughly, but not so as to obscure or obliterate the impression upon the stamp.

Sec. 62. Tobacco or cigar stamps will not adhere to tin-foil with ordinary gum or paste; the manufacturer must therefore either envelop the tin-foil in an outer wrapper of paper or provide some kind of gum or paste by which the stamps may be so attached that they cannot be removed without destroying them.

Sec. 63. Manufactures or importers of cigars will not be allowed to wrap the box or package containing cigars in an outer covering of paper or other material and attach the stamp to the outer covering; the stamp must be attached to each package proper, so as to remain thereon as an evidence of its being legally in the possession of the holder thereof.

Recipes.

Sec. 64. The following recipes for cheap and practical paste and varnish, which have been fully tested, are prescribed for use:—

For *paste*,—Dissolve one pound of gum arabic in one and three-fourths pints of boiling water; add from two to four ounces of acetic acid, and keep it corked when not in use; apply evenly to the stamp or notice and press it firmly upon the wood or other material of which the package is composed:

For *varnish*,—Place in a bottle of sufficient size one half pound of bleached gum shellac, broken fine, and add strong alcohol; shake occasionally until entirely dissolved, and keep is corked to prevent evaporation; should the varnish at any time become too thick, add a small quantity of alcohol.

Sec. 65. Stamps on packages of tobacco and cigars are to be attached at the manufactory, by the manufacturer or his agent, at the licensed bonding warehouse by the warehouseman or his agent, and at the Customs bonding warehouse by the Customs officer; although the responsibility of stamping tobacco ex-warehoused from a merchant's Excise bonding warehouse remains with the owner of the warehouse, the officer delivering the tobacco is expected to aid in the attaching and cancelling of the stamps, where this can be done immediately after the delivery of the goods from warehouse.

H.—Cancelling Dies and Stamps.

Sec. 66. By virtue of the authority conferred by section 281 of the Inland Revenue Act, the Commissioner of Inland Revenue will furnish steel dies for the cancellation of all stamps used on wooden packages, or packages made partly of wood and partly of other materials, containing tobacco: these dies will be forwarded to the several Collectors of Inland Revenue, and they will be loaned by them to the manufacturer of tobacco or other person mentioned in their requisition therefor and to no other.

Sec. 67. In effecting such cancellation, the die will be required to be applied twice to the stamp upon the package, once in the place on the stamp marked "cancellation by steel die," and a second time over and upon the vignette on the stamp.

Sec. 68. A steel cutting roller is also supplied for the cancellation of stamps on tin caddies or boxes of tobacco, which instrument is to be drawn across the stamp and on to the metal of which the package is composed: this instrument should be so used as to sever the stamp and continue the line of separation on to the metal: it is to be applied to the stamp on each side of the package, but is to be done in such a manner as not to disfigure the cancellation made by the rubber stamp.

Sec. 69. Collectors will keep an account of all steel dies and other instruments intrusted to them, and a record of the names of all persons to whom they are furnished (furnishing them only to the legally authorized tobacco manufacturers and others, as instructed by the Department) and the date of their delivery: whenever any die shall have become broken or damaged in the hands of any manufacturer or other person, so as to be unfit for use, or whenever any person receiving such Government die shall have no longer any legitimate use for the same, it must be returned to the Collector, and held by him subject to departmental orders, and the person accredited therefor.

Sec. 70. The law makes it imperative upon every manufacturer of tobacco, putting up his tobacco in packages as heretofore described, and upon every person ex-warehousing tobacco from an Excise bonding warehouse, to use this die, and no stamps on such packages will be regarded as properly cancelled, and the packages and their contents will be liable to seizure, whenever found, unless the stamps are cancelled with a Government die, and in the manner hereinafter named, viz., the stamp must be so cancelled that a portion of every stamp shall be *driven into and lodged within the wood* of the package, or when on metal, by severing the stamp, and continuing the line of separation on to the metal of which the package is made.

Sec. 71. Roller stamps, for the cancellation of tobacco and cigar stamps, will also be supplied by the department, upon proper requisition being make therefor.

These roller cancellation stamps are as follows, viz. :—

(*a.*) For tobacco manufacturers' use in cancelling strip stamps used on tobacco put up in packages of paper, linen, or other soft yielding material, and for the first cancellation on all other stamps used on packages of tobacco:

(*b.*) For cigar manufacturers' use in cancelling strip stamps used on cigar boxes;

(*c.*) For the use of persons having licensed bonding warehouses, in cancelling (in addition to steel die or instrument) the stamps on packages of tobacco ex-warehoused for duty from a warehouse other than the manufacturer's where tobacco was made;

(*d.*) For Collector's use in cancelling stamps on packages of tobacco and cigars removed in bond under the provisions of section 25 of Warehousing Regulations and to cancel stamps on tobacco ex-warehoused from an Inland Revenue bonding warehouse established under authority of section 65 of the Inland Revenue Act;

(*e.*) For Customs officers' use in cancelling strip stamps used on imported tobacco put up in packages of paper, linen or other soft or yielding material, and for the first cancellation on all other stamps used on packages of tobacco.

(*f.*) For Customs officers' use in cancelling strip stamps used on cigar boxes.

Sec. 72. In asking for these roller stamps the following formula should be used, for the sake of uniformity. Quote factory number or warehouse letter, division number, and name of applicant, thus:—

1.30. Tobacco Factory roller for J. E. Tuckett.
2.28. Cigar Factory roller for S. Myers.
A. 17. Tobacco Warehouse roller for D. C. Brosseau.
A. 17. Cigar do do do
30 Tobacco } General Excise Warehouse Roller for
30 Cigars } the division of (*Hamilton*).

If required for Customs use, the port should be named thus:—

Customs, Tobacco, Weymouth, N.S.
Customs, Cigars, Woodstock, N.B.

Sec. 73. The names of new applicants must be registered at Department before the roller is supplied. When through ordinary wear and tear new rubber bands or repairs are required, a new stamp complete will be supplied on requisition, on receipt of which the old stamp will be returned to the Department.

Sec. 74. Collectors must keep an account of all cancellation stamps intrusted to them, as in the case of the steel cancellation dies.

Sec. 75. The law requires that all stamps upon packages of tobacco and cigars shall be cancelled by a Government stamp or die and it is now prescribed that when the stamps are upon other than wooden boxes and caddies of cavendish that the cancellation shall be by means of the roller stamp recognized by the Department; the stamps on wooden packages of tobacco being cancelled in addition to the above, by the steel die, and those on metal packages by the steel cutting roller supplied for that purpose.

I.—Mode of cancelling tobacco and cigar stamps.

Sec. 76. All stamps are to be cancelled immediately after being placed upon the packages, but the cancellation by the roller stamp, except in the case of cigars, may be made by the manufacturer or other party, immediately before being placed thereon.

Sec. 77. Stamps for tobacco must be cancelled by imprinting upon each stamp, in the oblong blank space left for that purpose, the registered number of the manufactory, or letter of dealer's bonding warehouse, and the number of the Inland Revenue Division. Rubber roller hand stamps will be furnished by the Department for this purpose, but if any manufacturer desires to use a stamp applied by any other means, permission may be granted for this form of cancellation only.

Sec. 78. Stamps used on five or ten pound packages of fine-cut chewing, on five, ten and twenty pound packages of snuff, and on quarter caddies, half caddies, caddies and boxes of tobacco, when made of wood, must, in addition to the above, also be cancelled by means of the steel die supplied for that purpose, which die drives a portion of the stamp into the wood of which the package is composed —the die being applied to the stamp twice, once in the space reserved for this cancellation, and again on the vignette on the stamp: the further cancellation of stamps on metal packages will be by means of the steel cutting roller supplied for that purpose, which severs the stamp, and continues the line of separation beyond the stamp and on to the metal of which the package is made; the application being made to the stamp on each side of the package.

Sec. 79. Stamps on packages of imported tobacco shall be cancelled as follows, viz.: stamps on packages composed of paper, cotton, tin-foil or other soft or yielding material, by means of a roller stamp, which shall imprint upon the stamp the name of the port where entered for duty or this information may be written in on the stamps: stamps on wooden packages of plug, fine-cut chewing, and packages of snuff shall be cancelled as above, but in addition thereto shall be further cancelled by means of the steel die; stamps on packages made of metal, when imported, shall, in addition to the above, be cancelled by means of the steel cutting roller supplied for that purpose, which severs the stamp and continues the line of separation beyond the stamp and on the metal of which the package is made.

Sec. 80. Stamps on packages of tobacco ex-warehoused for consumption by a merchant or person other than a manufacturer and at the manufactory where made or put up, shall be cancelled by the person ex-warehousing the same by means of the roller stamps, which will imprint upon the stamp, in the oblong space reserved for that purpose, the letter of the warehouse, and the number of the Inland Revenue Division. Stamps, when on wooden packages, shall be further cancelled by means of the steel die supplied for that purpose, which die drives a portion of the stamp into the wood of which the package is composed; and when on metal packages, by means of the steel cutting roller provided for that purpose, which instrument severs the stamp and continues the lines of separation beyond the stamp and on the metal of which the package is made.

Sec. 81. Stamps on packages of tobacco ex-warehoused from the manufactory where made or put up, shall be cancelled as described by sections seventy-nine (79) and eighty (80) of these regulations.

Sec. 82. The stamps on cigar boxes will be cancelled by means of a roller stamp supplied for that purpose, which stamp carries the impression beyond the duty-paid Inland Revenue stamps, and on to the wood of which the package is made: in all cases the impression is to be made across the stamp continuously, the lettering being distinctly imprinted over space reserved for cancellation: this cancellation stamp, so used, must imprint upon the stamp the registered number of the manufactory, and the number of the Inland Revenue Division, as required on all other stamps.

Sec. 83. The cancellation of Customs stamps upon packages of cigars will be by means of the roller stamp, as per the next preceding section, but the information to be imprinted upon the space reserved for cancellation will be the name of the port where ex-warehoused for duty.

Sec. 84. In cancelling stamps by imprinting, as herein prescribed, where blank spaces are left on the stamps for that purpose, they must always be used.

Sec. 85. The cancellation of tobacco or cigar stamps will be done by the following persons, viz.:—

(*a.*) At a tobacco or cigar manufactory, by the manufacturer or his agent;

(*b.*) At a warehouse (other than the manufacturer's where tobacco or cigars were made), by the person who ex-warehoused the tobacco or cigars; and—

(*c.*) Stamps on imported tobacco or cigars, by the Customs officers at the port where the tobacco or cigars were ex-warehoused for duty.

Sec. 86. The importance to be attached to the cancellation of all stamps has been shown by the severe fines and penalties imposed upon any person who shall remove from any manufactory or place where tobacco or cigars are made, any such goods without stamps affixed and properly cancelled, and also the fines and penalties imposed upon any person who shall sell, or offer for sale, or have in his possession, any tobacco or cigars, the stamps upon which are *not properly cancelled*: the interest of the Government and the safety and protection of all who deal in tobacco or cigars require that manufacturers and others shall properly affix and cancel all stamps.

J.—Destruction of the stamps on packages of tobacco and cigars when emptied.

Sec. 87. Section 263 of the Inland Revenue Act makes it the duty of every person who empties any stamped box, bag, vessel, wrapper or envelope of any kind, containing tobacco or cigars, to destroy the stamp thereon; and any person who neglects or refuses so to do, is liable to a penalty for each such offence not exceeding one hundred dollars.

Sec. 88. This provision of the law applies not only to retail dealers who empty legal packages by retailing their contents, but also to every person who purchases tobacco or cigars for his own use, and empties such packages, who must destroy the stamp thereon.

Sec. 89. Collectors and other officers are informed that while section 263 of the Act requires that the destruction of a stamp shall consist of the removal of every part thereof from the package the Department for the present will not prosecute where the stamp is destroyed by disfiguring or destroying it in such a manner as to render it incapable of being used again. This may be done by the removal of portions of the stamp from different places on each of the sides of the package, the proportion so removed to be equal in the aggregate to at least one-fourth of the stamp.

K.—Caution Notices—Tobacco and Cigars.

Sec. 90. Upon every package of tobacco, weighing over one pound, whether put up in wooden packages or otherwise, the law requires that there shall be printed, or securely fixed by pasting thereon, a label, on which shall be printed the number of the manufactory, and the number of the division in which it is situated, together with the following notice:—

"Notice.—The manufacturer of this tobacco has complied with all the requirements of the law. The following caution is to be strictly observed under the penalties provided by the Statutes of Canada:—

1st. This package is to be opened in such a manner as to break the stamp.

2nd. This package is not to be used for any other tobacco when the present contents are removed.

3rd. The contents are not to be removed except for immediate sale; and

4th. When the package is empty the stamp must be destroyed.

Sec. 91. When used on boxes, caddies, kegs, pails, drums or other packages of tobacco, weighing more than one pound, the label on which the above notice is to be printed is required to be not less than four and not more than six inches long, and not less than two and one half inches in width, and to contain, in addition to the caution notice, the following facts, printed in plain, open and legible letters, viz.: (1) the number of the manufactory, and (2) the number of the Inland Revenue Division. These labels will be in the following form, viz.:

"Factory, No.....Inland Revenue Division, No....."

Notice.—The manufacturer of this tobacco has complied with all the requirements of the law. The following caution is to be strictly observed under the penalties provided by the Statutes of Canada:—

1st. This package is to be opened in such a manner as to break the stamp;

2nd. This package is not to be used for any other tobacco when the present contents are removed;

3rd. The contents are not to be removed except for immediate sale; and

4th. When the package is empty the stamp must be destroyed.

Sec. 92. The law provides that "every manufacturer of cigars shall securely affix, by pasting on each box containing cigars manufactured by or for him, a label, on which shall be printed, besides the number of the manufactory, and the number of the division in which it is situated," a caution notice in the following form:—

"Factory, No.....Inland Revenue Division, No....."

Notice.—The manufacturer of the cigars herein contained has complied with all the requirements of the law. The following caution is to be strictly observed under the penalties provided by the Statutes of Canada:—

1st. This package is to be opened in such a manner as to break the stamp;

2nd. The package is not to be used again when the present contents are removed:

3rd. The contents are not to be removed except for immediate sale; and

4th. When the package is empty the stamp and package must be both destroyed.

Sec. 93. This label for all cigar boxes is to be not less than three inches in length and two inches in width; or, if made in circular or oval form, it shall cover not less than six square inches of paper and be of a size sufficient to contain, in addition to the caution notice prescribed in plain, open and legible letters, these facts: (1) the number of the manufactory, and (2) the number of the Inland Revenue Division.

Sec. 94. The following form of caution notice is prescribed and must be used on outer packages containing cigarettes when put up in packages of ten (10) or twenty (20) cigarettes each, and cut tobacco and snuff in packages of one pound and under, the caution notice on each of the small packages constituting the contents, not being necessary.

"Factory, No.....Inland Revenue Division, No....."

Notice.—The manufacturer of the cigarettes (cut tobacco or snuff) herein contained has complied with all the requirements of the law. Every person is cautioned not to use this package for packing cigarettes (cut tobacco or snuff) again, nor to use the stamp, nor the stamped wrappers upon the packages of cigarettes (cut tobacco or snuff) constituting the contents of this package, under the penalties provided by law in such cases.

The words "Factory No.," "Inland Revenue Division No.," and "manufacturer," should be omitted when the notice is attached to packages of imported cigarettes (cut tobacco or snuff) and "the name of the port where," and "the number of the entry under which the cigarettes (cut tobacco or snuff) are ex-warehoused for duty," and the word "importer" respectively submitted therefor.

Sec. 95. The following form of "Special Caution Notice" is to be used on packages of tobacco or cigars that have been seized and confiscated and sold under authority of this department, and will be supplied upon requisition being made therefor:—

C. S.

EXCISE.

TOBACCO OR CIGARS.

Seizure No.....

Special Caution Notice.

Inland Revenue Division of.....

Notice.—The following caution is to be strictly observed under the penalties provided by the Statutes of Canada:—

1st. This package is to be opened in such a manner as to break the stamp;

2nd. This package is not to be used for any other tobacco when the present contents are removed;

3rd. The contents are not to be removed except for immediate sale; and

4th. When the package is empty the stamp must be destroyed and in the case of cigars the package also.

The information required to be placed upon the packages by a manufacturer may, in this case, be stencilled, and in addition to this regular information, the seizure No. will be placed thereon.

Sec. 96. Cigars when put up in packages of three (3) and six (6) cigars each, will not require a caution notice attached to such small packages, but the outer package in which they are placed must bear the following form of caution notice: "Notice.—The manufacturer of the cigars herein contained has complied with all the requirements of the law. Every person is cautioned not to use again the stamped packages of cigars constituting the contents of this package, under the penalties provided by law in such cases."

If imported, the word "Importer" is to be substituted for "Manufacturer."

Sec. 97. Importers of tobacco and cigars are also required by law to place a caution notice on each package of tobacco weighing more than one pound and on each package of cigars when in packages containing ten cigars and upwards imported by or for them.

Sec. 98. The affixing of this label or caution notice is made the duty of the manufacturer or importer; it is to be a printed label, or the necessary information may be imprinted on or impressed into the material of which the package is made. It is to be supplied and affixed by the manufacturer or importer before the tobacco or cigars are to be removed from the places where they were made or at which imported. No person has a right or will be allowed in any case to tamper with this caution notice, to remove it from the box, or package, to substitute another label for it, or to cover it up with a label either of his own or of any other person.

Sec. 99. This label or notice is to be distinctly and clearly the label required by law. The labels must be affixed to the package in a conspicuous place, where they will not be broken in opening the packages and where they will be exposed as little as possible to be worn or rubbed off, and in a manner so as not to be covered up or concealed by any other labels or marks, and so as not to conceal by them any other marks or brands required by law to be placed upon them.

Sec. 100. The law imposes a penalty of $50 on every manufacturer or importer of tobacco or cigars who neglects to affix such label to any package containing tobacco or cigars, made or imported by or for him, and on every person who removes any such label, so affixed, from any such package, such fine being for each package in respect to which such offence is committed.

If the manufacturer desires to do so, he may increase the size of the paper on which the caution notice is printed, so as to allow the printing, *separate and distinct from the label*, of his name and trade-mark.

Article 3.—Manufactured tobacco and cigars.

Special provisions for warehousing tobacco and cigars and for stamping same when ex-warehoused for removal in bond, for consumption, or for branding same when for exportation.

In addition to the General Warehousing Regulations established by Order in Council, the following apply specifically to tobacco and cigars :—

Sec. 101. On all packages of tobacco and cigars, when placed in warehouse by the manufacturer thereof, all marks, numbers, weights and other information required by law, must be written or branded thereon before the warehouse entry can be accepted, which entry must be compared with the packages of tobacco or cigars, and certified correct by the officer in charge of the manufactory, before it will be accepted by the Collector of Inland Revenue: Collectors will therefore permit the principal manufacturers to use out-numbers in order that these instructions may be fully complied with.

Sec. 102. As all marks, numbers, weights, &c., are required to be placed upon the packages before the warehouse entry can be accepted by the officer for comparison, and as no stamps are required prior to being placed in bond, the tobacco must be placed in warehouse immediately upon the receipt by the officer of the proper warrant: in large manufactories, where an exact compliance with this regulation is impossible, from the quantities involved, the Collector may, at his discretion, extend the time for placing in the warehouse,—such extension not, at any time, to exceed three days.

Sec. 103. The following are the only sized packages of tobacco that may be removed in bond, viz. :—

(*a.*) Fine-cut chewing tobacco, in packages of five and ten pounds each;

(*b.*) Snuff, in packages of five, ten and twenty pounds each;

(*c.*) Cavendish, plug or twist, in packages of from one to four pounds inclusive, five to twenty-five pounds inclusive, or from thirty-five to forty-five pounds inclusive, or from sixty to eighty pounds inclusive, or from one hundred to one hundred and ten pounds inclusive; and—

(*d.*) Cigars in packages of twenty-five and upwards.

Sec. 104. Tobacco in smaller packages than those above mentioned shall not be removed in bond, nor shall the product of Canadian leaf tobacco be so removed when in packages containing less than ten pounds.

Sec. 105. Packages of tobacco or cigars when ex-warehoused at the manufactory for removal in bond to another Division, or transferred to another person within the same Division, shall be stamped by the manufacturer with the bonded removal permit stamp provided by the Department for that purpose, denoting the class of such goods. Packages of tobacco or cigars which have been placed in warehouse prior to the coming into effect of the provisions of The Consolidated Inland Revenue Act, 1883, and which may or may not be covered by the old red stamp, when ex-warehoused from any warehouse for removal or transfer must be covered by a bonded removal permit stamp. If previously stamped the old form of stamps must be scraped off the package and destroyed by the officer ex-warehousing the goods; each package removed or transferred in bond must bear one of these bonded removal permit stamps, which must be cancelled by the manufacturer or other person ex-warehousing the tobacco by means of the roller stamp provided for that purpose. Subsequent removals of same tobacco or cigars do not require additional stamping by bonded removal permit stamp.

Sec. 106. Tobacco and cigars when entered ex-warehouse, whether for removal for transfer or for consumption, will require to be stamped with new form of stamps when so ex-warehoused, even if previously stamped under the requirements of regulations in force prior to July 1, 1883.

Sec. 107. When ex-warehoused for consumption the regular duty-paid stamp is to be attached to the package and cancelled in the manner herein provided: when tobacco or cigars are ex-warehoused for consumption from a warehouse other than the manufacturer's where made, —the packages then bearing a bonded removal permit stamp,—the duty-paid stamp is to be placed over the bonded removal permit stamp, so as to cover it as much as possible and the cancellation is to be made through both. The stamps for packages entered for consumption either by the manufacturer or merchant will be supplied upon receipt of proper entry papers ex-warehouse for consumption, the duty on the goods to be ex-warehoused, the warrant properly filled up, and a requisition on the form prescribed and issued by the Department, which requisition must show, for tobacco, the number of stamps at each weight required to cover the tobacco ex-warehoused, and in the case of cigars the number of stamps of each denomination necessary to cover the cigars ex-warehoused, the aggregate number of packages and pounds of tobacco, or packages and number of cigars, agreeing with the entry ex-warehouse for consumption.

Sec. 108. The stamps are in all cases to be attached and cancelled by the manufacturer or person ex-warehousing the goods, and in accordance with regulations herein established.

Sec. 109. Packages of tobacco or cigars, when ex-warehoused for exportation to a foreign country, shall be branded under the personal supervision of the officer in charge, with a brand of the following nature :—

EXPN

Tobacco—9-10-8-83.

For tobacco read *cigars* when used on cigar boxes,—the first numeral or set of numerals representing the factory number, the second the number of the Inland Revenue Division, and the third and fourth numbers the month and year respectively: when ex-warehoused from a warehouse other than that at the manufactory where tobacco and cigars were made, the factory number shall be omitted and letter or number of warehouse substituted therefor.

Sec. 110. This brand is to be placed upon all wooden packages by means of a hot iron and upon metal packages by means of steel dies, or by such other means as shall leave the necessary information legibly and indelibly impressed into the metal of which the package is made. On either wooden or metal packages the above brand is to be placed upon the side of the package. These dies must be furnished by the exporter, and the letters and figures thereon are not to be less than one-fourth of an inch in height.

Sec. 111. When the holder of tobacco or cigars in bond, which have already been stamped under the provisions of previous Acts, desires to export such tobacco or cigars, the stamps on the packages are to be removed by the officer in charge of the manufactory or warehouse, in the presence of another officer specially detailed therefor by the Collector of Inland Revenue: a record is to be kept by the aforesaid officers, giving the following information, which record is to be signed by them, and filed in the office of the Collector of Inland Revenue, viz.:—

(*a.*) The number of each stamp removed and destroyed, and the weight of the tobacco or cigars covered thereby; and,—

(*b.*) The license number of the manufactory where the tobacco or cigars were put up and the name of the Division where stamp was issued:

The export papers cannot be finally accepted as complete until this has been done.

Sec. 112. When packages of tobacco weighing one pound and less, intended for exportation, are packed in large cases, it will only be required that the brand, as given in section one hundred and nine (109) of these regulations, be placed upon the outer cases,—which cases must be consecutively numbered and have marked on them the total number of packages, at each weight, and the total weight of tobacco contained therein.

Sec. 113. Tobacco and cigars, when exported, cannot be packed in the same case.

Sec. 114. All goods entered for exportation must be examined by the officer ex-warehousing the same, and, in order to do so, packages must be opened to such extent as the Collector of Inland Revenue may determine.

Sec. 115. Scraps and cuttings, or stems, when put up for exportation must be packed under the personal supervision of an officer of Inland Revenue, and unless the whole case is packed at one time, the packing thereof shall be done in the raw leaf warehouse.

Sec. 116. Each case or package when filled, shall be marked by the officer, with his name, and date when packed, and in such a manner as to be distinctly and clearly seen, and so that it can be identified by him and must be branded with the letters EXPN, as in the case of other tobacco for exportation.

Article 4.

For packing and stamping imported tobacco and cigars, cancelling the stamps thereon, and for removal of same in bond, from one Customs port to another, before being packed in packages similar to those used for like articles manufactured in Canada.

Sec. 117. The Inland Revenue Act states that "all manufactured tobacco or cigars imported from foreign countries, shall have the stamps affixed and cancelled while they are in the custody of the proper Custom house officers," and that "such tobacco and cigars shall not pass out of the custody of the said officers until the stamps have been so affixed and cancelled."

Sec. 118. The cancellation of the stamps on tobacco, when put up in packages of paper, linen, or other soft or yielding material, shall be by means of the roller stamp provided for that purpose.

Sec. 119. The cancellation of the stamps on wooden packages containing imported tobacco, shall be by sinking into the wood of which the package is composed, a portion of the stamp by means of a steel die, which die shall be applied twice to every stamp, once in the place on the stamp reserved for cancellation and again on the vignette; and in addition to the cancellation by the steel die, they shall be further cancelled by means of the roller stamp supplied for that purpose,—the cancellation by roller stamp to be made in the space reserved on the stamps for that purpose, and it may be done immediately before the stamps are placed upon the packages if found more convenient; the cancellation of the stamps on metal packages containing tobacco, will be made by means of the steel cutting roller supplied for that purpose, which severs the stamp and continues the line of separation beyond the stamp and on to the metal of which the package is made: this instrument is to be applied to the stamp on each side of the package; the stamp is, in addition to this cancellation, to be further cancelled by means of the roller stamps used to cancel all stamps on packages containing tobacco.

Sec. 120. The stamps upon packages containing imported cigars, will be cancelled by means of a roller stamp of the design furnished by the Department; this cancelling stamp shall be so used that the imprint shall project beyond the stamp on to the wood of which the box is made; in all cases the impression is to be made across the cigar stamp.

Sec. 121. These cancellation dies and stamps will be furnished to the different collectors of Customs upon requisition being made therefor; and no package containing tobacco or cigars, as defined by the Inland Revenue Act, shall be handed over to the importer or owner until the stamps on the same are cancelled, as herein directed.

Sec. 122. The Inland Revenue Act further states that "imported tobacco and cigars shall be put up in packages as prescribed by law for like articles manufactured in Canada, before the stamps are affixed:" Every collector of Customs will, therefore, see that these regulations are fully complied with.

Sec. 123. The sizes of the different packages into which tobacco and cigars must be packed, as permitted by law, are as follows, viz.:—

(*a.*) All cavendish, plug and twist in rectangular wooden boxes containing from one to four pounds inclusive, five to twenty-five pounds inclusive, thirty-five to forty-five pounds inclusive, or from sixty to eighty pounds inclusive, or from one hundred to one hundred and ten pounds inclusive.

(*b.*) All fine-cut chewing tobacco, and all other kinds of tobacco not otherwise provided for, in packages containing one-twentieth, one-sixteenth, one-twelfth, one-tenth, one-ninth, one-eighth, one-sixth, one-fifth, one-fourth, one-half, or one pound, except that fine-cut chewing tobacco, when of a quality and description approved of by the Commissioner of Inland Revenue, may, at the option of the importer, be put up in wooden packages containing five or ten pounds each;

(*c.*) All cut and granulated tobacco, other than fine-cut chewing, all shorts, the refuse of fine-cut chewing tobacco, which has passed through a riddle of thirty-six meshes to the square inch, in packages containing one-twentieth, one-sixteenth, one-twelfth, one-tenth, one-ninth, one-eighth, one-sixth, one-fifth, one-fourth, one-half, or one pound each;

(*d.*) All snuff in packages containing one-sixteenth, one-eighth, one-fourth, one-half, one pound, and in wooden packages containing five or ten pounds each,—except that snuff when containing more than 40 per cent of moisture, may, in addition to the above, be put up in packages containing twenty pounds each, actual weight;

(*e.*) All cigarettes in packages containing ten, twenty, fifty or one hundred cigarettes each;

(*f.*) All cigars in boxes containing three, six, ten, twenty-five, fifty, one hundred and two hundred cigars each, except that Manilla cigars or cheroots, but not imitations thereof, may, when imported from abroad, be contained in addition to the above-named quantities, in original packages containing five hundred each.

Sec. 124. The stamps are to be put on or affixed to the packages in the following manner:—

(*a.*) All packages of tobacco, except fine-cut chewing and snuff containing five pounds and over, shall have affixed a registered coupon stamp of a denomination corresponding with the net weight of the tobacco contained therein; for example, packages containing from ten to twenty-five pounds and from sixty to eighty pounds, can be and must be covered by a single stamp, by using coupons attached to stamps when the weight of the package is not precisely ten, fifteen, twenty, sixty or seventy pounds (in which case the stamp alone is used without the coupons attached); when the weight of the tobacco contained in the package ranges between ten and twenty-five pounds, and between sixty and eighty pounds, the coupons are used in connection with the stamp bearing such weight, so that with one or more coupons attached thereto it will correspond with the weight required; half pounds will not be allowed on packages containing twenty-five pounds and upwards.

(*b.*) All other packages of tobacco are to be covered by stamps of the denomination provided by law, and one stamp only is to be used on each package;

(*c.*) Upon all descriptions of boxes and caddies of cavendish, plug, twist or other description of tobacco, the stamp shall be affixed over one corner or angle of the box or caddy, at equal distances from each end, attaching about equally to each side;

(*d.*) Upon all kegs, drums, pails or other packages containing five and ten pounds of fine-cut chewing, and five, ten and twenty pounds of snuff, as permitted by law, the stamp being a strip stamp, shall be placed across the cover, so as to extend down each side of the package and to effectually seal it;

(*e.*) Strip stamps, whether used for packages containing smoking tobacco, fine-cut chewing, snuff or cigarettes, must be so attached as to effectually seal the package and render it impossible to open the same or remove the contents without destroying or breaking the stamp;

(*f.*) Strip stamps, used for cigar boxes, must be so attached as to effectually seal the package;

(*g.*) The stamps are to be affixed to the packages by using an adhesive material that will cause them to stick to the wood, paper or other package, securely and permanently: after the stamps on wooden packages have become dry and the cancellation has been made, as herein described, they must be varnished thoroughly but not so as to obscure or obliterate the impressions upon the stamps;

(*h.*) Tobacco stamps will not adhere to tin-foil with ordinary gum or paste: the importer or owner of the goods must, therefore, either envelop the tin-foil in an outer wrapper of paper, or provide some kind of gum or paste by which the stamps may be so attached that they cannot be removed without destroying them.

Sec. 125. The Inland Revenue Act further provides that,—Every importer of tobacco shall, in addition to complying with all other requirements of this Act relating to imported tobacco, print on each package, or securely

affix by pasting on each package containing tobacco, imported by or for him, a label on which shall be printed the name of the port where, and the number of the entry under which, such tobacco is ex-warehoused for duty, and these words :—

Notice: The importer of this tobacco has complied with all the requirements of the law. The following caution is to be strictly observed under the penalties provided by the Statutes of Canada :—

1st. This package is to be opened in such a manner as to break the stamp.

2nd. This package is not to be used for any other tobacco when the present contents are removed.

3rd. The contents are not to be removed except for immediate sale ; and

4th. When the package is empty the stamp must be destroyed.

Sec. 126. Every importer of cigars is also required to affix to each package of cigars imported by or for him, a label showing, in addition to the name of the port where, and the number of the entry under which such cigars were ex-warehoused for duty, these words : —

Notice : The importer of the cigars herein contained has complied with all the requirements of the law. The following caution is to be strictly observed under the penalties provided by the Statutes of Canada :—

1st. This package is to be opened in such a manner as to break the stamp.

2nd. The package is not to be used again when the present contents are removed.

3rd. The contents are not to be removed except for immediate sale ; and

4th. When the package is empty the stamp and package must both be destroyed.

Sec. 127. This caution notice, when used on boxes, caddies, kegs, pails, drums or other large packages of tobacco, is required to be not less than four nor more than six inches long, and not less than two and one-half inches in width, and must be affixed to the package in a conspicuous place, where it will be exposed as little as possible to be worn, or rubbed off, or broken, in opening the package, and in a manner so as not to be covered up or concealed by any other labels or marks, and so as not to conceal by it any other marks or brands required by law to be placed upon the package.

Sec. 128. The caution notice label, when used on boxes of cigars, is to be not less than three inches in length and two in width ; or if made in circular or oval form, it shall cover not less than six square inches of paper, and is likewise to be affixed to the box or package, in a conspicuous place, and where it will not be covered up by the stamp, or otherwise obscured, or concealed, or broken, in opening the package.

Sec. 129. If the importer desires to do so, he may increase the size of the paper on which the caution notice is printed, so as to allow the printing, *separate and distinct from the label*, of his name and trade-mark.

Sec. 130. A separate and distinct label will not be required on packages of imported tobacco containing one pound and under, nor on packages containing ten or twenty cigarettes each, provided the importer shall cause to be printed on each outer package the caution notice as herein required, where it will not be covered up by the stamp or otherwise obscured or concealed : the name of the port and the number of the entry for duty may be written in on the label or imprinted with a rubber stamp. The packing and stamping must be done in accordance with the provisions of the Inland Revenue Act.

Sec. 131. The Inland Revenue Act also provides that "tobacco and cigars intented for removal in bond to another port or place within the Dominion of Canada may be removed to such other port, under regulations to be established by the Governor in Council," which regulations are as follows :—

(*a.*) That the tobacco or cigars must be consigned to the order of the Collector of Customs at the port to which the goods are bonded ;

(*b.*) A removal bond is to be taken from the owner or importer by the Collector of Customs for double the Customs duty accruing on the goods so removed ; and the bond shall be conditioned for the delivery of the goods into the possession of the Collector of Customs to whom consigned ;

(*c.*) This bond will be cancelled by the certificate of the Collector of Customs at the port to which the goods are consigned, certifying that they have been received by him and re-warehoused, and that a bond has been duly executed and that the goods shall be re-packed into packages similar to like articles when manufactured in Canada, and duly stamped or entered for exportation or destruction.

Article 5.

For Sale of Manufactured Tobacco and Cigars.—Size and Form of Packages, &c.

Sec. 132. The sale of tobacco can only be made by manufacturers in whole packages,—each package bearing a stamp properly affixed and cancelled (or when entered for exportation, the packages containing the same, properly branded), and the package itself being according to the description and limitation prescribed in the Inland Revenue Act, and no other.

Sec. 133. Dealers in manufactured tobacco must also sell whole packages, each package bearing the properly cancelled stamp, except that retail dealers are permitted to sell plug tobacco at retail from half caddies, caddies, half boxes or boxes ; fine-cut chewing tobacco from five and ten pound packages ; and snuff from five, ten and twenty pound packages, legally stamped, marked and labelled and put up as prescribed by law : with the exception of snuff, which at times may require to be dampened, the dealers must not withdraw the goods from the stamped package until actually offered for sale.

Sec. 134. The stamp upon the package from which goods are being retailed is *primâ facie* evidence that the duty on such goods has been paid ; the absence of such stamp is *primâ facie* evidence of the non-payment of the duty : dealers in manufactured tobacco will not be allowed to cut a package in two and to sell the divided portions of the package, nor to retail tobacco therefrom.

Sec. 135. The law provides that all cigars shall be packed in boxes not before used for that purpose, containing definite and limited numbers, and positively prohibits the sale in any other form, except by retail dealers : retail dealers are allowed to retail cigars from boxes packed, stamped and branded in the manner prescribed by law ; but this provision does not authorize or warrant the practice of retailing cigars from show cases : sales can legally be made only from the stamped package in which originally put up and excised.

Sec. 136. Manufacturers of cigars shall only sell original and unbroken packages from their manufactory premises.

Sec. 137. Collectors of Inland Revenue are hereby instructed to divide their Divisions into surveys, under the charge of such officers as they, or the inspecting officer of Inland Revenue may designate. It shall be the duty of these surveying officers to visit all places where manufactured tobacco or cigars are stored or kept, or where it is exposed for sale, and ascertain if the law is being strictly complied with in respect of the stamping, branding, cancelling and sale of tobacco and cigars, and to take such action as the law directs in case of discovery of any infraction of the law.

Article 6.

For Using Wood, Metal, Paper or Other Material for Packing Tobacco or Cigars.

Sec. 138. Any manufacturer of tobacco or cigars, wishing to avail himself of the privilege which the law authorizes, of substituting for the wooden box now used for packing cigars, or for packing fine-cut chewing, Cavendish, plug, snuff or twist tobacco, packages made of other material, will be required to submit to the Commissioner of Inland Revenue samples of such packages, for his approval, and if the same are of such a character as to admit of the proper marks, brands, labels, &c., being applied to them, and the stamps to be securely and permanently attached, and properly cancelled, permission may be issued granting their use.

Sec. 139. All sample packages forwarded to the Commissioner for his approval must be accompanied by a statement, setting forth the materials of which the packages are made, the description of goods intended to be packed therein, and the capacity of the package, in pounds, if intended for tobacco, and if intended for cigars, the number of cigars to be packed in each, and showing also, by samples, the mode in which the marks, brands, labels and stamps may be put upon the packages, and the law in those respects fully complied with.

Article 7.

A.—Stamping tobacco or cigars, abandoned, condemned or forfeited, when sold for the benefit of the Dominion of Canada.

Sec. 140. All tobacco and cigars, whether imported or of domestic manufacture, sold by any officer of the Government for the benefit of the Dominion of Canada, must, before being delivered, have affixed to the packages containing the same, the proper Inland Revenue or Customs stamps, denoting the duty thereon ; and such

stamps shall only be used for this purpose upon the whole circumstances of the intended sale being reported to the proper department, and the necessary permission being obtained to use the same.

Sec. 141. When abandoned, condemned, or forfeited tobacco or cigars are offered for sale, if such goods will not bring a price equal to the duty thereon, that the law forbids the sale to be made for consumption in the Dominion of Canada; such goods may, however, be sold for immediate export to a foreign country, and be covered by the ordinary exportation brand.

B.—Destruction of abandoned, condemned or forfeited tobacco or cigars.

Sec. 142. Abandoned, condemned or forfeited tobacco or cigars, may be destroyed by order of the Commissioner, whenever they will not sell for an amount equal to the duty due and payable thereon.

Sec. 143. Collectors of Inland Revenue or Customs having such goods in their custody which have been offered for sale, and upon which they have been unable to realize an amount equal to the duty thereon, and who desire permission to destroy the same, will make application therefor to the Commissioner.

Sec. 144. In making such application they will give a complete history of the goods, also the kind, quantity, their present condition, and what efforts have been made to sell them, and if it shall appear to the Commissioner to be to the interest of the Government that the goods shall be destroyed, he will give an order for such destruction.

ARTICLE 8.

A.—For the reworking of Tobacco.

Sec. 145. Before any tobacco can be reworked, twenty-four hours' notice must be given by the manufacturer to, and special permission must be obtained therefor from, the Collector of Inland Revenue of the division where the manufactory is situated.

Sec. 146. The manufacturer, in making application for permission to rework tobacco, must give full particulars as to the quantity and description of the tobacco to be reworked, stating whether the tobacco is of his own manufacture or the product of another manufactory, and if the latter, the name of the manufacturer: he will also state the reason for desiring permission to rework the tobacco in question.

Sec. 147. The tobacco, when taken for reworking, shall be so credited on stock book No. 2 (and an entry ex-warehouse passed on the form provided for that purpose, when taken from the bonding warehouse), and the quantity carried to Dr. of daily record, and treated as raw material, the product of which will be accounted for as manufactured tobacco, in the usual manner, and stamped and treated as tobacco the original product of the leaf.

Sec. 148. When the tobacco to be reworked has paid duty, the stamps upon the packages must be destroyed in the presence of two officers of Inland Revenue, one of whom shall be the officer in charge of the manufactory, and the other an officer detailed therefor by the collector of the division, and these officers shall keep a record of, and shall furnish the collector with a certificate, showing the numbers on each stamp, the weight of tobacco contained in each package covered thereby, and the registered number of the manufactory (or, if manufactured prior to the 1st day of July, 1883, the name or license number of the manufacturer), where manufactured or put up.

Sec. 149. When the bonded tobacco to be reworked has been stamped under the provisions of previous Acts, the stamps on the packages are to be removed and destroyed under the same regulations as are herein provided when the tobacco to be reworked has paid duty.

Sec. 150. The Collector of Inland Revenue will compare the numbers of these stamps and the weights thereon, with the record of stamps issued, kept in his office; and if the stamps have been issued in another division, shall forward to the Collector of that division a detailed statement of the number and weight on each stamp so destroyed, as well as the number of the manufactory where, (or the name of the manufacturer by whom) the tobacco was originally put up; the Collector so receiving the same shall compare this statement with his register of stamps issued to such manufacturer or manufacturers as are mentioned therein, and shall at once return said statement to the Collector from whom received, with a certificate as to its correctness or otherwise.

Sec. 151. So soon as the stamps have been taken account of and destroyed, the packages, if they have been previously stamped or if the out-put of a factory other than that where the tobacco is to be reworked, are to be also destroyed, and the tobacco contained therein broken up and steamed or treated in such a way that it cannot be removed from factory for sale without being reworked.

Sec. 152. No rebate will be allowed or paid when the stamps on the packages containing tobacco have not been taken an account of, and the said stamps destroyed in the presence of the officers herein mentioned, nor when the record of stamps destroyed does not accord with the stamp book of the Collector by whom issued.

Sec. 153. When the tobacco to be reworked has paid duty, a rebate of the duty paid, less five cents per pound to cover cost of supervision, stamps, &c., on the quantity of tobacco entered for remanufacture, will be allowed to the manufacturer and will be paid by the Department upon the receipt of a sworn statement from the manufacturer that the tobacco so taken has been reworked and entered to the debit of stock book No. 2 as produced, accompanied by the certificate of the officer in charge of the manufactory that the stamps, and where necessary, the packages were destroyed in his presence, and that the tobacco was broken up and steamed or so treated that it could not be removed from the manufactory for sale without being reworked, which certificate must be countersigned by the Collector of the division.

Sec. 154. No fee for supervision will be charged for bonded tobacco reworked or where plug tobacco is merely taken from the caddy to rub or wipe the plugs. In the latter case, however, the operation must be carried on under the supervision of the officer in charge and to the satisfaction of the Collector

Sec. 155. (*a.*) The reworking of the product of Canadian raw leaf tobacco is permitted, but no rebate of duty shall be allowed thereon.

(*b.*) Imported tobacco shall only be reworked, duty paid.

B.—For the Reworking of Cigars.

Sec. 156. Before any cigars can be reworked twenty-four hours' notice must be given by the manufacturer to, and special permission must be obtained therefor from, the Collector of Inland Revenue of the division where the manufactory is situated.

Sec. 157. The manufacturer, in making application for permission to rework must give full particulars as to the quantity of cigars to be reworked, stating that the cigars are of his own manufacture. He will also state the reason for desiring permission to rework the cigars in question.

Sec. 158. The cigars when taken for reworking shall be so credited on stock book No. 2 (and an entry ex-warehouse passed on the form provided for that purpose when taken from the bonding warehouse), the cigars weighed and the quantity carried to Dr. of daily record, and treated as raw material, the product of which will be accounted for as manufactured cigars, in the usual manner, and stamped and treated as cigars the original product of the leaf.

Sec. 159. When the cigars to be reworked have paid duty, the stamps upon the packages must be destroyed in the presence of two officers of Inland Revenue, one of whom shall be the officer in charge of the manufactory, and the other an officer detailed therefor by the Collector of the division, and these officers shall keep a record of, and shall furnish the Collector with a certificate showing the numbers on each stamp, the number of cigars contained in each package covered thereby, and the registered number of the manufactory (or, if manufactured prior to the 1st day of July, 1883, the name or license number of the manufacturer), where manufactured or put up.

Sec. 160. When the bonded cigars to be reworked have been stamped under the provisions of previous Acts, the stamps on the packages are to be removed and destroyed under the same regulations as are herein provided when the cigars to be reworked have paid duty.

Sec. 161. The Collector of Inland Revenue will compare the numbers of these stamps and the denominations thereof with the record of stamps issued, kept in his office.

Sec. 162. So soon as the stamps have been taken account of and destroyed, the packages are to be also destroyed, and the wrappers removed from the cigars contained therein or the cigars treated in such a way that they cannot be removed from factory for sale without being reworked.

Sec. 163. No rebate will be allowed or paid when the stamps on the packages containing cigars have not been taken an account of and the said stamps destroyed in the presence of the officers herein mentioned, nor when the record of stamps destroyed does not accord with the stamp book of the collector by whom issued.

Sec. 164. When the cigars to be reworked have paid duty, a rebate of the duty paid, less seventy-five cents per thousand to cover cost of supervision, stamps, &c., on the quantity of cigars entered for manufacture, will be allowed the manufacturer, and will be paid by the department, upon receipt of a sworn statement from the manufacturer, that the cigars so taken have been reworked and entered to the debit of stock book No. 2 as produced, accompanied by the certificate of the officer in charge of the manufactory, that the stamps and the packages were destroyed in his presence, and that the cigars were so treated that they could not be removed from the manufactory for sale without being reworked, which certificate must be countersigned by the collector of the division.

Sec. 165. No fee for supervision will be charged when the bonded cigars reworked are the product of the manufactory where the operation is to be carried on.

Sec. 166. The reworking of the product of one manufacturer by another will not be permitted unless under special permission obtained from the department in each case.

Sec. 167. The blank forms used when tobacco is taken for remanufacture may also be used for cigars, the necessary alterations being made thereon.

ARTICLE 9.

A.—Marking or Branding Cigar Boxes.

Sec. 168 (*a.*) The law provides that there shall be burned, stamped, indented or impressed into every box containing cigars, in a legible and durable manner, the registered number of the factory, the number of the Inland Revenue division in which the factory is situated and the number of cigars contained in each box; the number of cigars contained in each box may, however, if desired, be stencilled on the surface of the wood or other material of which the package is made; but the registered number of the factory, and the number of the Inland Revenue division, must be burned, stamped, indented or impressed into every box, as required by law;

(*b.*) Empty cigar boxes which may have become broken or otherwise rendered unfit for use, may be destroyed in the presence of the officer in charge of the manufactory and credit taken therefor in the Daily Record.

B.—Cull Cigars.

Sec. 169. As in some cigar factories manufacturers have more or less cigars made, which are unfit for packing, collectors are hereby instructed that manufacturers may, upon application on the Form C 3, supplied by the Department, be permitted to take credit for such cigars when they are counted and broken up in the presence of the officer in charge. The credit entry will be made in column 9 of Daily Record, the entries being totalled to date and the proper deduction made. Every such entry must be initialled by the officer as an evidence of its correctness.

C.—Cigar Samples.

Sec. 170. In addition to the provisions of the Act in respect of sample boxes of cigars, the following regulations are hereby prescribed:—

(*a.*) A manufacturer of cigars may be permitted to take from the warehouse, under permit from the collector in each case, one package containing not more than one hundred cigars of each brand manufactured by him—these packages to remain on the factory premises unstamped, for the sole purpose of exhibiting the contents to his customers, and, when required for consumption, the regular ex-warehouse entry to be passed therefor, the duty paid and the packages stamped, as if just taken from the warehouse;

(*b.*) A manufacturer removing any of these packages without the ex-warehouse entry being passed, the duty paid, and the packages regularly stamped, branded and labelled, will be deemed to have illegally abstracted the same from warehouse, and will render himself liable to the penalties imposed in the Act for such offence: the goods, although in the possession of the manufacturer, will be considered as still in the warehouse and treated as such until the ex-warehouse entry is passed: the officer delivering such packages of cigars on permit, will keep a record of the number and capacity of packages of cigars so delivered and will mark such packages so that they can afterwards be identified by him;

(*c.*) Should any cigar manufacturer abuse the privilege hereby granted to him, by taking from the warehouse a greater number of packages than are deemed necessary by the inspector of tobacco, the Department reserves the right to withdraw from such manufacturer the privilege now granted to all.

Sec. 171. Duty-paid boxes of cigars may be permitted to remain open in any licensed cigar factory, upon the following,—and only upon the following conditions:—

(*a.*) That the number of boxes thus remaining open in any factory premises shall not at any time exceed three;

(*b.*) That the stamps thereon shall be cut or broken in the presence of an officer of Inland Revenue, unless the packages are taken from those which may have been brought in with cut stamps and placed in bonding warehouse as hereinafter provided;

(*c.*) That the officer shall forthwith so mark the package by writing date when opened and placing his signature thereon, that it can be hereafter identified by him;

(*d.*) Immediately every such package is emptied the manufacturer shall inform the officer of the fact, when said empty package and the stamp thereon shall be completely destroyed in the presence of said officer and a credit entry made in stock book No. 2 for the original contents thereof.

D.—As to return of packages with cut stamps.

Sec. 172. The stamps on cigar boxes which may have been cut after being removed from the manufactory, and which the manufacturer may in the course of business desire to have returned thereto, may be brought into the manufactory under the following conditions:—

(*a.*) That they be brought into the manufactory only after notice in writing, of his intention to do so, has been served by the manufacturer on the Collector and at a time when an officer of Inland Revenue is present to take an account of the same;

(*b.*) That the packages with cut stamps be at once placed in the bonding "cigar" or "raw leaf" warehouse and kept separate from all other goods therein, and that they shall remain in said warehouse until such time as the manufacturer may desire them for immediate removal from the manufactory or for use, as per sections 168, 169 and 170 of these regulations;

(*c.*) That the regular entries be made in stock book No. 2, when the packages are brought into or removed from manufactory, in the same manner as for other duty-paid cigars; and,—

(*d.*) That any packages with cut stamps brought into manufactory without due notice being given, an account taken of them by an officer of this Department, and the packages and contents secured in bonding warehouse, or which may be found in any manufactory premises with stamps cut otherwise than as herein provided, shall render the manufacturer so offending liable to all penalties prescribed therefor under the Inland Revenue Act.

E.—Warehousing and Ex-warehousing of Cigars.

Sec. 173. The following provisions made by the Department of Inland Revenue in respect of the warehousing and ex-warehousing of cigars, are hereby established and confirmed, viz.:—

(*a.*) Packages containing cigars when entered for warehouse need not be marked with the number of the entry under which warehoused, but only with the number of the month and year in addition to the specific information required by section 261 of "The Inland Revenue Act"

(*b.*) When ex-warehousing cigars, the manufacturer may take the cigars from any lot in warehouse, provided the number of packages and denomination are the same as those upon which he has paid duty.

(*c.*) Cigars when placed in warehouse, shall be stowed and arranged in lots according to denomination of packages.

(*d.*) Under this system it will not be necessary for Collectors to open an account with each warehouse entry, but only a general account with each individual. On the entry papers it will be unnecessary to show marks and numbers.

(*e.*) The above instructions are subject to the provisions of section 54 of "The Inland Revenue Act."

ARTICLE 10.

Cutting Machines.

Sec. 174. (*a*). No person not having a license to manufacture tobacco or cigars shall be permitted to use, nor (without having notified the Collector of Inland Revenue thereof in writing) to have in possession any machine for the purpose of cutting tobacco; except that persons dealing in manufactured tobacco at retail may, upon signing a declaration that such machine will be used solely for cutting duty-paid "plug" or "cavendish" tobacco for immediate sale thereof to their customers, receive a permit to use the same during the pleasure of the Minister of Inland Revenue; but the said dealers will not be allowed to keep on hand any tobacco so cut, the cutting

machine only to be used for cutting tobacco at the request of a customer, and for immediate delivery to him.

(*b*). All persons (other than those hereinbefore excepted) having in their possession any tobacco-cutting machines, are required to notify the Collector of Inland Revenue of the same, and it shall be the duty of the said Collector to cause the same to be so fastened or sealed as to render it incapable of being used without removal of the said seal, and any such machine found unsealed, whether such machine had been sealed by an officer of Inland Revenue or not, shall be seized and forfeited to the Crown.

(*c*). All tobacco-cutting machines found in possession of any person other than those hereinbefore mentioned, or in the possession of other than a private individual not dealing in tobacco, and using the same for cutting tobacco for his own use, (which machine must not be a rotary cutting machine,) are forfeited and may be seized and removed by any officer of Inland Revenue.

Article 11.—Assessment for Deficiencies.

Tobacco.

Sec. 175. Section 268 of The Inland Revenue Act, provides that the deficiency in any tobacco manufactory shall not, at any time, exceed six per cent.

Cigars.

Sec. 176. Section 269 of said Act directs that "there shall be produced from each and every twenty-five pounds of unsteamed raw leaf scraps, cuttings or other material taken for use in a cigar manufactory at least one thousand cigars, but if at any time the Department of Inland Revenue determines that the standard herein established exceeds or falls short of what is hereafter ascertained to be the true standard, the Governor in Council may amend or alter such standard by regulation to the extent of three pounds."

(*a*). Under such direction the standard for the production of 1,000 cigars is reduced from 25 lbs. of raw leaf tobacco to 22 lbs., and such standard is made applicable to all transactions subsequent to the 1st day of July, 1884;

(*b*.) Allowance will be made for leaf tobacco sold or returned, or for cuttings or clippings when they are of such a character that they may be made into cigars, or are sold or removed for that purpose. Officers are, however, to understand that the scraps and cuttings, if to be credited against the production account, must be free from dust, sand and tobacco-dust. No allowance will be made for stems, or for ordinary scraps and waste incidental to the business. In the making of finer grades of cigars, particularly of Havana tobacco, manufacturers often use only the best portion of the leaf and sell the balance to be used as filling for a lower or cheaper grade of cigars: in such cases an allowance will be made for such stock when sold or removed;

(*c*.) The annual stock statements have been prepared so that officers can readily understand the mode upon which the production is ascertained;

(*d*.) The Commissioner of Inland Revenue is empowered by section 273 of the said Act to make an assessment, and to order the collection from the manufacturer of the duty at the highest rate chargeable on the tobacco or cigars produced in the manufactory where the deficiency is found to exist.

Article 12.

Additional Forfeiture.

Sec. 177. Any tobacco or cigars not made by the manufacturer whose name or factory number is marked or branded on the package in which contained; and any tobacco or cigars not of the brand represented by the manufacturer's label on the package in which contained, shall be seized and remain forfeited to the Crown.

Article 13.

Stock Statement.

Sec. 178. In preparing statement B. of annual stock statement (G 15.) all stemmed raw leaf tobacco taken for use, and all stemmed raw leaf tobacco in process of manufacture at beginning and end of period, is to be treated as if resulting from raw leaf tobacco which contained twenty-five per cent of stems, *i.e.*, $\frac{1}{3}$ is to be added to the weight of stemmed leaf. This does not apply to scraps and cuttings.

Sec. 179. All unpacked cigars on hand at time of stock-taking are to be computed at a uniform rate of twenty-two (22) pounds per thousand.

Sec. 180. The Collector will attach to each cigar manufacturer's stock statement the certificate of the officer in charge as to any deficiency or surplus that may be found in the unpacked cigar account. When the account comes out correct, the officer's certificate must state so. All possible care must be used in stock-taking.

Sec. 181. Collectors, unless otherwise advised, will collect from the tobacco and cigar manufacturers of their respective divisions the duty upon the quantity of tobacco or cigars deficient of the standard established by law and also the duty on the quantity of cigars found deficient in unpacked cigar account as shown by stock statements each year.

Sec. 182. The manufacturer may then take credit in column 9 of his Daily Record for the quantity so deficient in unpacked cigar account in order to bring that book in accord with stock.

Sec. 183. When a surplus is found it should be at once charged up in the same column.

Sec. 184. The duties under the foregoing instructions will be accounted for on the Form D. 11, which must contain full explanations of the source from which they are derived.

Sec. 185. All tobacco and cigar stock statements are to be forwarded to the Department in duplicate, one copy for the Inspector of tobacco factories and the other for the Department.

Article 14.

Reward for Information in Regard to Illicit Manufacture and Sale of Tobacco or Cigars.

Sec. 186. (*a*.) For such information as will lead to the discovery and seizure of an illicit tobacco or cigar manufactory, or any illicit tobacco or cigars, one-half of the appraised value of the articles seized.

(*b*.) For such information as will lead to the conviction of the parties owning or working an illicit tobacco or cigar manufactory, one-half the amount of the penalties recovered, not exceeding $200.

(*c*.) If the parties convicted are unable to pay the penalties imposed, and are committed to gaol for non payment, the Department will make good to the informer one-fourth of the penalties imposed.

(*d*.) The names of the parties giving the information are not to be made known, unless by their own desire or consent.

Article 15.

Drawback.

Sec. 187. In accordance with the provisions of section 259 of the Inland Revenue Act, as to drawback on cut tobacco and cigarettes in certain cases, the Department of Inland Revenue is authorized to pay over such drawback upon receiving the certificates of the Collectors of Inland Revenue, setting forth the number of stamps, of denominations applicable to packages mentioned in section 259, aforesaid, delivered and paid for during the currency of each month, and entered upon the monthly return of the manufacturer, such payments to be treated as "Refunds of Excise Revenue."

(*a*.) It is provided by subsection added by section 7 of the Act 53 Victoria, chapter 23, to section 259 of "The Inland Revenue Act," that "a drawback of five per cent "on the value of the stamps used shall be allowed to "manufacturers of foreign leaf tobacco licensed under "the Act in respect of uncut plug or Cavendish tobacco "manufactured by them and put up in packages containing four pounds or less, which drawback shall be paid "under such regulations as the Governor in Council "establishes in that behalf."

(*b*.) In virtue of such provisions the following regulations are hereby established, namely:—

1st. That the application for the drawback be made quarterly, and be accompanied by a statement showing the number of packages of tobacco at each weight, the aggregate quantity of tobacco, the aggregate duty and the amount of drawback claimed.

2nd. The statement attached to the application must bear the certificate of the officer in charge of the factory as to its correctness, and also the certificate of the Collector of the Division—that the quantity of tobacco referred to was covered by stamps of a denomination of four pounds or under, and that it was entered for consumption, and the duty paid by the manufacturer in whose factory it was produced.

ARTICLE 16.

Ports of Entry for Raw Leaf Tobacco.

Sec. 188. The following are constituted ports of entry at which raw leaf tobacco may be imported into Canada, in addition to those mentioned in Section 307 of "The Inland Revenue Act":—

Yarmouth, in the Province of Nova Scotia.
O. C. March 5, 1877.
The Village of Percé, in the Province of Quebec.
O. C. September 18, 1879.
The City of Three Rivers, in the Province of Quebec.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Saturday, the 17th day of September, 1892.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, under the autority granted by Section 2 of the Act 55-56 Vic., chap. 23, and by and with the advice of the Queen's Privy Council for Canada, has been pleased to appoint the following persons for the purpose of choosing samples of wheat and other grain grown East of Port Arthur, to be standards by which inspectors of grain shall be governed in the work of inspection, viz.:—

Montreal.

W. W. Ogilvie, D. G. McBean, Adam G. Thomson, R. M. Esdaile.

Toronto.

W. D. Matthews, (chairman), G. A. Chapman, Thomas Flynn, M. McLaughlan, T. O. Kemp. E. Adamson, inspector.

The Board so appointed to meet in the City of Toronto, between the 25th day of September and the 10th day of October, at the call of the chairman, who shall be directed to give due notice of such time and place of meeting by advertisement in the Montreal "*Gazette*" and Toronto "*Empire.*"

His Excellency has been further pleased, under the authority and by and with the advice above cited, to appoint the following persons for the same purpose in respect of wheat and other grain grown west of Port Arthur, viz:—

N. Bawlf, chairman; S. A. McGaw, S. Spink, Kenneth Campbell, Brandon; H. S. Patterson, Portage-la-Prairie; Chas. Braithwaite, J. D. Sibbald, M. McLaughlan, R. M. Esdaile, John Benson, Hugh N. Baird, Frank E. Gibbs, inspector, David Horn, inspector.

Such Board to meet at the call of the chairman, between the 15th of September and the 10th of October.

JOHN J. McGEE,
13–4 Clerk, Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Monday, the 12th day of September, 1892.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS the President of the United States having issued a Proclamation for a quarantine detention of all vessels containing immigrants from cholera infected countries for a period of twenty days, it is advisable in order to prevent such immigrants from using the Canadian routes to enter at the inland ports of the United States for the purpose of avoiding the quarantine at the maritime ports, to extend the provisions of the second paragraph of section 9 of the quarantine regulations established by the Order in Council of the twelfth day of May, 1888, chapter 6 of the Consolidated Orders in Council of Canada, relating to vessels suspected of having sickness on board, which is in the following words:—

"May be kept under quarantine of observation for a period of not more than three days," so as to read:

"May be kept under a quarantine of observation for a period of twenty days or more, as directed by the Minister of Agriculture," and further that the words "any maritime port in Canada" be substituted for the words "Grosse Isle" in the said paragraph.

His Excellency, in virtue of the powers vested in him by chapter 68 of the Revised Statutes, intituled "An Act respecting Quarantine," and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the second paragraph of Section 9 of the said quarantine regulations shall read as follows, and that such paragraph as amended do stand for a quarantine regulation, namely:—

"Vessels arriving at any maritime port in Canada "from any infected port or place, or one supposed to "be infected, and on board of which no pestilential "disease shall have declared itself during the passage "may be kept under quarantine of observation for a "period of twenty days or more, as directed by the "Minister of Agriculture, during which time the "passengers and crew thereof shall be subjected to a "strict purification under the direction of the Medical "Superintendent."

JOHN J. McGEE,
12–4 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Monday, the 12th day of September, 1892.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, under the provisions of chapter 68 of the Revised Statutes, and by and with the advice of the Queen's Privy Council for Canada, has been pleased to order and it is hereby ordered, that the importations of rags into Canada from Europe be prohibited.

JOHN J. McGEE,
12–4 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Saturday, the 27th day of August, 1892.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS by section 190 of "The Inland Revenue Act" it is provided that the security to be given is a sum equal to the duties estimated to accrue on goods to be manufactured during one month, and such further amount as the Collector deems sufficient to cover the duty on goods remaining in warehouse from time to time during the currency of the license;

And whereas the increase of duty on malt from one to two cents per pound has caused the requirements of the law as above set forth as to the amount of bonds to be given by maltsters to become unduly oppressive,—

His Excellency, in virtue of the power vested in him by "The Inland Revenue Act," and by and with the advice of the Queen's Privy Council for Canada, is pleased to grant authority to the Minister of Inland Revenue to determine the amount of security to be given by maltsters, and such authority is hereby granted accordingly.

JOHN J. McGEE,
11–4 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Friday, the 19th day of August, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada, has this day been pleased to approve of the following Resolution passed by the Board of Trade at Halifax, abolishing the payment of fees on all shipments of grain in bags, not in connection with grain in bulk, shipped with other general cargo :—

Resolved, "That the Port Wardens' fees on all shipments of grain in bags, not in connection with grain in bulk shipped with other general cargo from Halifax, either in steamers or sailing vessels, be abolished."

JOHN J. McGEE,
10-4 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Saturday, the 20th day of August, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, in virtue of the provisions of the "Bounty Act of 1891," 54-55 Victoria, chapter 42, and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the following regulations governing the payment of fishing bounties, be approved :—

REGULATIONS governing the payment of fishing bounties, as provided by section 6 of the Bounty Act of 1891, 54-55 Victoria, chapter 42.

1. Fishermen who have been engaged in deep-sea fishing, for fish other than shell-fish, salmon and shad, or fish taken in rivers or mouths of rivers, for at least three months, and have caught not less than 2,500 pounds of sea-fish, shall be entitled to a bounty, provided always that no bounty shall be paid to men fishing in boats measuring less than 13 feet keel, and not more than three men (the owner included) will be allowed as claimants in boats under twenty feet.

2. Only one claim will be allowed in one season, even though the claimant may have fished in two vessels, or in a vessel and a boat, or in two boats.

3. The owners of boats measuring not less than thirteen feet keel, which have been engaged during a period of not less than three months in deep-sea fishing for fish other than shell-fish, salmon or shad, or fish taken in rivers or mouths of rivers, shall be entitled to a bounty on each such boat.

4. Canadian registered vessels of 10 tons and upwards (up to 80 tons) which have been *exclusively* engaged during a period of not less than *three months* in the catch of sea-fish other than shell-fish, salmon or shad, or fish taken in rivers or mouths of rivers, shall be entitled to a bounty to be calculated on the registered tonnage, one half of which bounty shall be payable to the owner or owners, and the other half to the crew, except in cases where one or more of the crew shall have failed to comply with the regulations, then such share or shares shall not be paid.

5. Owners or masters of vessels intending to fish and claim bounty on their vessels, must, before proceeding on a fishing voyage procure a license from the nearest Collector of customs, or Fishery Overseer, said license to be attached to the claim when sent in for payment.

6. Dates and localities of fishing must be stated in the claim, as well as the quantity and kinds of sea-fish caught.

7. Ages of men must be given. Boys under 14 years of age are not eligible as claimants.

8. Claims must be sworn to as true and correct in all their particulars.

9. Claims must be filed on or before the 30th November in each year.

10. Officers authorized to receive claims will supply the requisite blanks, free of charge, and after certifying the same will transmit them to the Department of Marine and Fisheries.

11. No claim in which an error has been made by the claimant or claimants shall be amended after it has been signed and sworn to as correct.

12. Any person or persons detected in making returns that are false or fraudulent in any particular, will be debarred from any future participation in the bounty, and be prosecuted according to the utmost rigour of the law.

13. The amount of the bounty to be paid to fishermen and owners of boats and vessels will be fixed from time to time by the Governor in Council.

JOHN J. McGEE,
10-4 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 16th day of August, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada, and in virtue of the powers conferred on him by chapter 78 of the Revised Statutes, intituled "An Act respecting the Inspection of Steam-boats, and the examination and licensing of Engineers employed on them," and the amendments thereto, is pleased to approve of the following amendments to the Regulations with respect to the Inspection of Boilers and Compasses of Steam-boats, and the new regulations relating to the Inspection of Steam-boat Shafts, and the testing of new engines of passenger steam-boats, which have been passed by the Board of Steam-boat Inspectors.

—

AMENDMENTS TO THE RULES RELATING TO THE INSPECTION OF BOILERS OF STEAM-BOATS.

Boilers.

1. Sec. 40, part I, and sec. 74, part II, are hereby amended by adding ten per cent to the result of the formula (*b*) :—

$$\frac{90{,}000 \times T^2}{(L+1) \times D} = \text{Working pressure, where}$$

T = Thickness of plate in inches.
D = Diameter of flue outside in inches.
L = Length of flue or furnace in feet, or the length between the rings in feet, if it is strengthened by suitable rings or Adamson joints.

2. Sec. 36 (*r*) and sec. 41 (*a*), part I, and sec. 75 (*a*), part II, are hereby amended by using 14,000 instead of 12,500 in the formula :

$$\frac{12{,}500 \times \text{thickness in inches}}{\text{Mean diameter in inches}} = \text{Working pressure per square inch.}$$

3. Sec. 30, part I, and sec. 68, part II, are hereby amended by adding thereto as follows :—

"When a superheater is constructed with a tube "subject to external pressure, the working pressure "should be ascertained by the rules given for circular "iron furnaces, but the constants should be reduced "as thirty is to forty-seven :

"If steel is proposed to be used in superheaters, the "particulars should be submitted to the Board of "Steam-boat Inspection or to the Chairman, if the "board is not sitting, for consideration, but in all "cases it should be discouraged for this purpose ; this "applies to the unshielded uptakes of all boilers, "including ordinary vertical donkey boilers."

—

AMENDMENT TO THE RULES RELATING TO THE INSPECTION OF COMPASSES ON BOARD STEAM-BOATS.

Compasses.

Sec. 22, part VII, is hereby amended, by substituting for the word "Inspector" in the fifth line, the

words "competent person," and adding thereto the words "of inspection," after the word "certificate" in the last line.

—

RULES RELATING TO THE INSPECTION OF STEAM-BOAT SHAFTS.

Shafts.

4. Main, tunnel, propeller and paddle shafts should not be passed if less in diameter than that found by the following formulæ, without previously submitting the case to the Chairman of the Board of Steam-boat Inspection.

For compound condensing engines with two or more cylinders, when the cranks are not overhung :—

$$S=\sqrt[3]{\frac{C\times P\times D^2}{f\left(2+\frac{D^2}{d^2}\right)}}$$

$$P=\frac{f\times S^3}{C\times D^2}\left(2+\frac{D^2}{d^2}\right)$$

Where S = diameter of shaft in inches.

Where d^2 = square of diameter of high pressure cylinder in inches or sum of squares of diameters, when there are two or more high pressure cylinders.

Where D^2 = square of diameter of low pressure cylinder in inches or sum of squares of diameters, when there are two or more low pressure cylinders.

Where P = absolute pressure in lbs. per square inch, that is boiler pressure *plus* 15 lbs.

Where C = length of crank in inches.

Where f = constant from following table.

NOTE.—Intermediate pressure cylinder do not appear in the formulæ.

For ordinary condensing engines, with one, two, or more cylinders, when the cranks are not overhung :—

$$S=\sqrt[3]{\frac{C\times P\times D^2}{3\times f}}$$

$$P=\frac{3\times f\times S^3}{C\times D^2}$$

Where S = Diameter of shaft in inches.

D^2 = Square of diameter of cylinder in inches, or sum of squares of diameters when there are two or more cylinders.

P = Absolute pressure in lbs. per square inch, that is boiler pressure *plus* 15 lbs.

C = Length of crank in inches.

f = Constant from following table :—

TABLE.

For two Cranks. Angle between Cranks.	For Crank and Propeller Shafts. f.	For Tunnel Shafts. f.
90°	1,047	1,221
100°	996	1,128
110°	904	1,055
120°	855	997
130°	817	953
140°	788	919
150°	766	894
160°	751	877
170°	743	867
180°	740	864
For three Cranks 120°	1,110	1,295

For paddle engines of ordinary type multiply constant in this column suitable for angle of cranks by 1·4.

NOTE.—When there is only one crank the constants applicable are those in the table opposite 180°.

—

RULES RELATING TO THE TESTING OF NEW ENGINES ON PASSENGER STEAM-BOATS.

In the case of new engines on passenger steam-boats, Inspectors should see them tested while under way, with full steam, in order to assure as far as possible that no flaws in the several parts of the engine have escaped the examination made by the Inspector, as provided by section 15 of the Act 49 Vict., chap. 78.

ROCK IN DISCOVERY PASSAGE, BRITISH COLUMBIA.

Information has been received from Rear Admiral Charles F. Hotham, C.B., R.N., Commander-in-Chief on the Pacific Station, respecting the rock on which H. M. S. "Warspite" struck on the 10th August last, the exact position having been ascertained by personal examination by the officers of H. M. S. "Nymphe."

This rock is situated N.E. (N. 68° E. true) 1½ cables from the point between Race Point and Duncan Bay, in Discovery Passage, on the north-east coast of Vancouver Island, British Columbia.

Lat. N. 50° 5' 36"
Long. W. 125° 19' 52"

It has a least depth of 4 feet at low water springs, and within the five-fathom line is about 80 yards in diameter. It is steep-to on its northern and eastern sides, and between it and the point are depths of 6 and 8 fathoms.

It is marked by kelp which does not show when the tide is running strong.

This notice affects Admiralty charts Nos. 538, 580 and 1,917, and British Columbia Pilot, 1888, page 202.

ST. MARY'S RIVER LIGHTS.

I.—UNITED STATES LIGHTS.

Notice is given by the Lighthouse Board of the United States of America that the following described aids to navigation have been established on the Michigan side of the St. Mary's River, between Lakes Huron and Superior :

Sweet's Point.—A fixed white lens-lantern light, showing through 360° of arc, on a crib structure standing in 7 feet of water. Marks the turning point in the channel, and guides up the river to the northward and westward.

Winter Point Range.—Two fixed white lens-lantern lights, showing through 270° of arc. The front light is shown from an upright on a cluster of piles and the rear light from an iron skeleton tower on the southern end of Neebish Island. The range guides up to or down from the mid-channel buoy in Mud Lake.

Encampment Crib.—A fixed red tubular-lantern light, shown from an upright on a crib in 8 feet of water, off the southern end of Sailors Encampment. Marks a shoal and the western side of the entrance to Sailors Encampment passage.

East Range, Dark Hole.—Two fixed red tubular-lantern lights, shown from uprights on the upper end of Sailors Encampment. The range intersects with Point of Woods Range to mark the turning point in the channel, and leads to or from an intersectien with the channel marked by the West Range, Dark Hole.

West Range, Dark Hole.—Two fixed white tubular-lantern lights, shown from uprights on the upper end of Sailors Encampment. The range intersects with East Range, Dark Hole, to mark the turning point in the channel, and leads to or from abreast the second black spar buoy below Harwood's Point.

Point of Woods Range.—Two fixed red tubular-lantern lights, shown from uprights on the eastern side of Neebish Island. This range guides through the Dark Hole passage, and by its intersection with the West Range, Dark Hole, marks the turning point to or from the lower reach of Little Mud Lake.

Hen and Chickens (Neebish Island) Range.—Two fixed red tubular-lantern lights, shown from uprights. The front light is on the most easterly of the small group of islands known as the Hen and Chickens, and the rear light is on the north-easterly shore of Neebish Island. The range guides through the passage between Sugar Island and St. Joseph Island (Canadian).

East Neebish Range.—Two fixed red tubular-lantern lights, on uprights on Sugar Island at the foot of East Neebish. The range guides through the upper reach of East Neebish, and its intersection with Indian Point range marks the turning point.

Indian Point Range.—Two fixed white tubular-lantern lights, on uprights on Indian Point, East Neebish. The range guides through the lower reach of East Neebish and its intersection with East Neebish Range marks the turning point.

Duck Island Range.—Two fixed red tubular-lantern lights, on uprights near the water's edge on the channel side of the lower end of Duck Island, above East Neebish. The range shows up stream towards the lower Lake George Crib-light, and the range between these may be followed from the crib down to abreast of the head of Duck Island.

Lower Lake George.—A fixed white tubular-lantern light, on an upright rising from a crib 50 feet from the east side of the lower end of the main Lake George Channel.

Middle Lake George.—A fixed red tubular-lantern light, on top of a dwelling resting on a crib 50 feet from the east side of the main Lake George Channel, at the elbow.

Upper Lake George.—A fixed red lens-lantern light, on an upright rising from a crib 50 feet from the east side of the upper end of the main Lake George Channel, and marks the northerly entrance into the dredged cut.

NOTE.—The three Lake George lights mark the entrance into, the elbow of, and the outlet from the main channel of Lake George.

Church's Point.—A fixed white lens-lantern light, on an upright rising from a crib in 14 feet of water, at the head of Lake George. Marks the approach to the passage between Sugar and Squirrel Islands and is to be left to the westward by vessels bound either way.

Manhattan Shoal.—A fixed red and white lens-lantern light, on an upright rising from a crib on a 10-foot shoal off the N.E. end of Sugar Island. The light shows red up and down stream and white between. The down stream line between the white and red light marks the turn to the eastward to be made midway in the bend, and the like line up stream shows where the deflection is to be made to pass into or from the Garden River reach.

Catholic Mission Range.—Two fixed white tubular-lantern lights on uprights on the south shore of Little Lake George, north end of Sugar Island. The range marks the upper reach of Little Lake George, and its intersection with Payment Range marks the turning point.

Payment Range.—Two fixed red tubular-lantern lights, on uprights on the south shore of Little Lake George, north end of Sugar Island. The range marks the lower reach of Little Lake George, and its intersection with the Catholic Mission Range marks the turning point.

Palmer's Point.—A fixed white lens-lantern light, with two fixed red sectors, on an upright rising from a crib on the channel bank off Palmer's Point, upper end of Little Lake George. The northerly edge of the eastern red sector cuts the first black buoy below the light and the northerly edge of the western red sector cuts the first black buoy above Wilson's Wharf, thus marking the two turning points.

Farmers Ridges Range.—Two fixed red tubular-lantern lights, on uprights on the north-west side of Sugar Island. The range guides through the Farmers Ridges passage.

Partridge Point Range.—Two fixed red tubular-lantern lights, on uprights on the north-western side of Sugar Island. The range intersects with Farmers Ridges range to mark the turning point in the channel abreast of Brusant's Point.

Topsail Island Range.—Two fixed red tubular-lantern lights on uprights on the north-western side of Sugar Island. The range intersects with Sault Range to lead clear of the shoal extending southward from Topsail Island, and also intersects with Farmers Ridges range at the turning point in the channel.

Bayfield Rock Range.—Two fixed white tubular-lantern lights, on uprights on the north-western side of Sugar Island. The range leads past Bayfield Rock to the lower end of the canal, intersecting with Sault range to mark the channel clear of Topsail Island Shoal.

Sault Range.—Two fixed red tubular lantern lights, on uprights on shore below the city of Sault Ste. Marie. Intersects with Bayfield Rock range to mark the channel to the intersection of Topsail Island range, and also marks the turning point in the channel on the Bayfield Rock range leading up to the lower entrance to the canal.

II.—CANADIAN LIGHTS.

Notice is hereby given that, simultaneously with the exhibition of the above described United States lights,

the following range lights were established by the Government of the Dominion on the Canadian side of the St. Mary's River, which together form a continuous system of lights from Detour Passage to Sault Ste. Marie.

1.—Sailors Encampment Lower Range.

Two fixed red lantern lights, shown from masts on the west shore of St. Joseph Island, half a mile below Ross wharf. Both lights should be visible 2 miles in, and over a small arc in each side of, the alignment.

The front mast stands on the shore line, and is 17 feet high. The light is elevated 19 feet above the level of the river.

Lat. N. 46° 14' 18"
Long. W. 84° 5' 40"

The back mast stands 64 feet east from the shore line, and is distant 246 feet S. $\frac{7}{8}$ W. (S. 8° W. true) from the front one. It is 22 feet high, and the light is elevated 26 feet above the water.

The two lights in one, S. $\frac{7}{8}$ W., guide vessels down the river past the turn at Johnson's Point. The range should be kept from its intersection with Rains' wharf range till the Encampment (United States) crib light is passed, when the alignment should be left on the port hand.

2.—Rains' Wharf Range.

Two fixed red lantern lights, shown from masts, at William Rains' wharf, on the west shore of St. Joseph Island, opposite Johnson Point, and between the two Sailors Encampment ranges. These lights should be visible 2 miles in, and over a small arc on each side of, the alignment.

The front mast, 17 feet high, stands near the outer end of the wharf. The light is elevated 15 feet above the level of the river.

Lat. N. 46° 15' 0"
Long. W. 84° 5' 20"

The back mast stands 390 feet S. E. (S. 47° E. true) from the front one. It is 22 feet high. The light is 24 feet above the level of the river.

This range is in the same alignment as the Point of Woods (U.S.) range, and is intended to guide vessels going down stream through the Dark Hole Passage, S.E., from its intersection with the alignment of the U.S. East Range, Dark Hole, to its intersection with the two Sailors Encampment ranges.

3.—Sailors Encampment Upper Range.

Two fixed red lantern lights, shown from masts, near the west shore of St. Joseph Island, half a mile below Reed Point. Both lights should be visible 2 miles in, and over a small arc on each side of, the alignment.

The front mast stands on rising ground, 640 feet from the shore of the river in the alignment, and is 17 feet high. The light is elevated 65 feet above the level of the river.

Lat. N. 46° 15' 21"
Long. W. 84° 5' 21"

The back mast, 22 feet high, is 260 feet N. $\frac{7}{8}$ E. (N. 8° E. true) from the front one. The light is 73 feet above the water.

The two lights in one, N. $\frac{7}{8}$ E., guide vessels going up the river past the turn at Johnson Point. The alignment should be taken as soon as the Encampment crib (U.S.) light is abeam, and kept until the Point of Woods (U.S.) range lights are brought into alignment.

This range and the Sailors Encampment Lower Range, above described, are in the same alignment.

4.—East Neebish Upper Range.

Two fixed red lantern lights shown from masts, on the east or Canadian shore of the St. Mary's River, half a mile above Ned and Indian Points, and 1 mile below Birch Point. Both lights should be visible 2 miles in, and over a small arc on each side of, the alignment.

The front mast stands 159 feet back from the shore in the line of range, and is 16 feet high. The light is elevated 34 feet above the level of the river.

Lat. N. 46° 21' 32"
Long. W. 84° 7' 0"

The back mast stands 302 feet N. $\frac{1}{2}$ E. (N. 3° E. true) from the front one. It is 22 feet high, and the light is 42 feet above the water.

The two lights in one N. $\frac{1}{2}$ E. show the same alignment as the United States East Neebish range, and are intended to guide vessels going up the river through the upper reach of East Neebish from the intersection of the alignment with Indian Point (U.S.) range till abreast of Indian Point, whence a N.N.W. course will lead up the middle of the river clear of all obstructions to the intersection with Duck Island (U.S.) range.

This notice affects Admiralty Charts Nos. 324, 325, 326, 334, 519, 678 and 1507, and the substance of it should be entered in the Canadian List of Lights and Fog Signals next after No. 225.

Note.—The island called on the Admiralty Charts Rains Island, should be Sailors Encampment; that name has sometimes been applied erroneously to Neebish Island.

WM. SMITH,
Deputy Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 24th August, 1892.

NOTICE TO MARINERS.

No. 36 of 1892.

I. IMPROVEMENT OF BRIGHTON BEACH RANGE LIGHTS.

The masts upon which the range light lanterns were hoisted at Brighton Beach, on the east side of the North River, in Charlottetown Harbour, on the Strait of Northumberland coast of Prince Edward Island, as described in Notice to Mariners No. 3 of 1890, have been replaced by skeleton towers built upon the same sites.

The sides of the towers facing the alignment are closely slatted so as to make conspicuous day marks. The upper parts of the towers are enclosed and surmounted by wooden lanterns.

The towers are painted white with the lanterns brown. The front tower is 40 feet high and the light 41 feet above high water mark. The back tower is 50 feet high and the light 77 feet above high water-mark.

The illuminating apparatus is catoptric.

In other respects the lights will be unaltered and the same sailing directions as formerly used will apply.

This notice affects Admiralty charts Nos. 1709, 1738, 2034 and 2666, and Canadian List of Lights and Fog Signals Nos. 308c and 308d.

II. IMPROVEMENT OF DARNLEY POINT RANGE LIGHTS.

A diamond-shaped, slatwork beacon, 10 feet wide, extending from the top of the mast down to the roof of the lantern shed, facing the line of the range, has been attached to each range light mast at Darnley Point, at the entrance to Malpeque Harbour, Prince Edward Island, so as to make the structures more conspicuous as day marks.

This notice affects Admiralty charts Nos. 1983, 2034, 2516 and 2666, and Canadian List of Lights and Fog Signals Nos. 328a 328b.

See also Notices to Mariners No. 21 of 1889, part 1 of No. 12 of 1889, and No. 29 of 1891.

III. WHISTLING BUOY ON TRYON SHOAL.

An automatic whistling buoy, painted brown, with the words "Tryon Shoal Buoy," in white letters, established by the Government of Canada, has been moored in 7 fathoms water, off the southern extremity of Tryon Shoal, in Northumberland Strait, south-west coast of Prince Edward Island.

The buoy should be left to the starboard going up the Strait to the northwestward, and to port going down

This notice affects Admiralty charts Nos. 2034, 2616, and 2666, and the substance of it should be entered in the Canadian List of Lights and Fog Signals under the No. 305a.

IV. SIGNAL BUOYS REPLACED IN BAY OF FUNDY.

1. *Point Lepreaux Whisling Buoy.*—This buoy was replaced on the 21st May last. See Notice to Mariners No. 10 of 1892.

2. *Blonde Rock Whistling Buoy.*—This buoy was replaced on the 3rd June last.

3. *Lurcher Shoal Whistling Buoy.*—This buoy, the disappearance of which was advertised in Notice to Mariners No. 9 of 1892, was replaced on the 2nd June last.

4. *North-west Ledge Bell Buoy.*—This buoy, which had been off its station for some time, was replaced on the 2nd June last.

V. CHANGE OF BUOY ON OLD MAN LEDGE.

The spar buoy heretofore marking the Old Man Ledge, east of the Tusket Islands, at the entrance to the Bay of Fundy, has been replaced by an iron can buoy painted black.

Lat. N. 43° 36' 28"
Long. W. 66° 0' 10"

The buoy is moored $\frac{1}{8}$ mile south-east from the rock in 5 fathoms water.

This notice affects Admiralty charts Nos. 352, 2537 and 2670.

NOTICE TO MARINERS.

No. 38 of 1892.

I. CASTLE ISLET BEACON RE-ERECTED.

The beacon on the summit of Castle Islet, Western Channel of Barclay Sound, on the Pacific Coast of Vancouver Island, British Columbia, which had fallen down, was re-erected by the crew of the Dominion steamer "Sir James Douglas," last month, and now stands as formerly, in range with the beacon on Round Island, to guide into the Western Channel of Barclay Sound, in the approach to Toquart Harbour.

This notice affects Admiralty charts Nos. 584, 592 and 1917.

The two beacons were fully described in Notice to Mariners No. 27 of 1887.

II. ROCKS OFF GOWLLAND AND TABLE ISLANDS, BARCLAY SOUND.

Captain John T. Walbran, Master of the Dominion steamer "Sir James Douglas," reports having found a rock, awash at low water, $1\frac{1}{10}$ cables N. $\frac{1}{2}$ W. (N. 18° E. true) from the northernmost point of Gowlland Island, Western Channel of Barclay Sound, on the west coast of Vancouver Island, British Columbia. The rock is steep-to, and in other respects the channel between Gowlland Island and Table Island is clear of obstructions.

There are also in the same vicinity a rock about $\frac{1}{3}$ cable distant from the most north-westerly point of Table Island; and another $\frac{1}{4}$ cable east of the most easterly point of the Islet north of Table Island,—neither of which is shown on the chart.

This notice affects Admiralty charts Nos. 584, 592 and 1917.

NOTICE TO MARINERS.

No. 37 of 1892.

PILE BEACONS REPLACED ON STURGEON BANK.

The two pile beacons which had been carried away from the edge of Sturgeon Bank, off the mouth of the Fraser River, in the Strait or Georgia, British Columbia, as advertised in Notice to Mariners No. 62 of 1891, part IV, and No. 23 of 1892, part II, have been replaced. They stand as previously indicated in parts II and III of Notice to Mariners No. 46 of 1891.

This notice affects Admiralty charts Nos. 579, 1917, 1922 and 2689.

TO ADVERTISERS IN THE *GAZETTE*.

PARTIES sending advertisements to be inserted in "The Canada Gazette," will please observe the following rules :

1st. Address "The Canada Gazette, Ottawa, Canada."

2nd. Indicate the number of insertions required.

3rd. Invariably remit the fees for such advertisements, together with the price of one Gazette, as below. Otherwise they will not be inserted. The rates are ten cts. for the first insertion, and five cents for each subsequent insertion per line of nine words, each figure counting as one word. No advertisement is inserted for a less charge than one dollar.

By settled or understood practice as prescribed by law, the rules of Parliament or decisions of the Department of Justice, notices receive the following insertions :—

Notices of applications for divorce—27 insertions.

Notices of the withdrawal of deposits of Insurance Companies—13 insertions.

Notices of ordinary applications to Parliament—9 insertions.

Notices of applications for Letters Patent—6 insertions.

Notices of dividends and meetings of Banks and Insurance Companies—1 calendar month, or 5 insertions.

Subscribers will also notice that the subscription, $4 per annum, is invariably payable in advance, and that the "Gazette" will be stopped from them at the end of the period paid for. Single numbers will be charged ten cts. each, and when more than one are required by advertisers, must be remitted for likewise.

S. E. DAWSON,
Queen's Printer and Controller of Stationery.
Department of Public Printing and Stationery,
Ottawa, November, 1891.

APPLICATIONS TO PARLIAMENT.

Rules relating to Notices for Private Bills.

All applications for Private Bills, properly the subjects of legislation by the Parliament of Canada, within the purview of "The British North America Act, 1867," whether for the erection of a Bridge, the making of a Railroad, Turnpike Road or Telegraph Line ; the construction or improvement of a Harbour, Canal, Lock, Dam or Slide, or other like work ; the granting the right of Ferry ; the incorporation of any particular Trade or Calling, or of any Banking or other Joint Stock Company ; or otherwise for the granting to any individual or individuals, any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which, in its operation, would affect the rights or property of other parties, or relate to any particular class of the community ; or for making any amendment of a like nature to any former Act, shall require a Notice, clearly and distinctly specifying the nature and object of the application, and (except in the case of existing corporations) signed by, or on behalf of the applicants, to be published as follows, viz :

In the Provinces of Quebec and Manitoba.

A notice inserted in the *Canada Gazette*, in the English and French languages, and in one newspaper in the English, and in one in the French language in the District affected, or in both languages in one paper, if there be but one in the said District, or if there be no paper published therein, then, in both languages, in a paper in the nearest District in which a newspaper is published.

In any other Province or Territory.

A notice inserted in the *Canada Gazette*, and in one newspaper published in the County or District, or Union of Counties affected, or if there be no paper published therein, then in a newspaper in the nearest County or District in which a newspaper is published. Such Notices to be continued in each case, for a period of two months during the interval of time between the close of the next preceding Session and the consideration of the Petition. And copies of the newspapers containing the first and last insertion of such notice shall be sent to the Clerk of each House.

When a Petition is for leave to bring in a Private Bill for the erection of a Toll Bridge, the petitioner or petitioners, upon giving the notice prescribed by the preceding Rule, shall also, at the same time, and in the same manner, give notice of the rates which they intend to ask ; the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and whether they intend to erect a drawbridge, and the dimensions of the same.

Any person seeking to obtain any Private Bill shall, eight days before the meeting of Parliament, deposit with the Clerk of the House, in which the bill is to originate, a copy of such bill in the English or French language, with a sum sufficient to pay for translating and printing the same—600 copies to be printed in English, and 200 copies in French—the translation to be done by the officers of the House, and the printing by the contractor. The applicant shall be also required to pay the Clerk of the Senate, or the accountant of the House of Commons (as the case may be) a sum of $200 and the cost of printing the Act in the Statutes, and lodge the receipt of the same with the Clerk of the Committee to which such Bill is referred—such payment to be made immediately after the second reading, and before the consideration of the Bill by such Committee.

The fee payable on any Private Bill is paid only in the House in which it originates.

No Petition for a Private Bill is received by either House after the first ten days of the session.

EDOUARD J. LANGEVIN,
Clerk of the Senate.

JOHN GEORGE BOURINOT,
Clerk of the Commons.

—

Additional Rules of the House of Commons respecting Private Bills.

All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the *clauses* of the *General Acts* relating to the details to be provided for by such Bills ;—special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof, in which the *General Act* is proposed to be departed from ;—Bills which are not framed in accordance with this *Rule*, shall be re-cast by the promoters, and reprinted at their expense, before any Committee passes upon the *Clauses*.

51*a*. All Private Bills for Acts of incorporation of, or in amendment of Acts incorporating Railway Companies, shall be drawn in accordance with the Model Bill adopted by the House on 23rd June, 1887, copies of which may be obtained from the Clerk of the House.

(a.) The provisions contained in any Bill which are not in accord with the Model Bill, shall be inserted between brackets, and when revised by the proper officer shall be so printed, and bills which are not in accordance with this Rule shall be returned to the promoters to be re-cast before being revised and printed ;

(b.) Any sections of existing Acts which are proposed to be amended shall be re-printed in full with the amendments inserted in their proper places and between brackets ;

(c.) Any exceptional provisions that it may be proposed to insert in any Bill shall be clearly specified in the Notice of Application for the same.

51*b*. No Bill for the incorporation of a Railway Company, or for changing the route of the railway of any company already incorporated, shall be considered by the Railway Committee until there has been filed with the Committee, at least one week before the consideration of the Bill :—

(a.) A Map or Plan drawn upon a scale of not less than half an inch to the mile, showing the location upon which it is intended to construct the proposed work, and showing also the lines of existing or authorized works of a similar character within, or in any way affecting the district, or any part thereof, which the proposed work is intended to serve, and such map

or plan shall be signed by the Engineer or other person making the same ;

(b.) An exhibit showing the total amount of capital proposed to be raised for the purposes of the undertaking, and the manner in which it is proposed to raise the same, whether by ordinary shares, bonds, debentures, or other securities, and the amount of each, respectively.

JOHN GEORGE BOURINOT,
Clerk of the Commons.

—

SUBSTANCE OF RULES OF THE SENATE RELATING TO NOTICES AND APPLICATIONS FOR BILLS OF DIVORCE.

Every applicant for a Bill of Divorce shall give notice of his or her intended application, and shall specify therein from whom and for what cause such divorce is sought, and shall cause such notice to be published during six months before the presentation of his or her petition for the said Bill, in the CANADA GAZETTE and in two newspapers published in the District in Quebec, Manitoba, British Columbia or the North-West Territories, or in the County or Union of Counties in other Provinces, wherein such applicant usually resided at the time of the separation of the parties ; but if the requisite number of papers cannot be found therein, then in an adjoining District or County or Union of Counties. Notices given in the Provinces of Quebec and Manitoba are to be published in one English and one French newspaper, if there be such newspapers published in the District, but otherwise shall be published in each newspaper in both languages.

A copy of the said Notice shall, not less than one month before the date of the presentation of the Petition, at the instance of the applicant, be served personally on the person from whom the divorce is sought, when that can be done.

No petition for divorce shall be received after the first thirty days of each session.

The petition of an applicant for divorce must be fairly written and must be signed by the Petitioner, and should briefly set forth the marriage, when, where and by whom the ceremony was performed, the grounds on which relief is asked and the nature of the relief prayed, and should also negative condonation, collusion and connivance. The allegations of the petition must be verified by declaration of the Petitioner, under the "*Act respecting Extra-Judicial Oaths.*"

The applicant shall deposit with the Clerk of the Senate, eight days before the opening of Parliament, a copy, in the English or French language, of the proposed Bill of Divorce, and therewith a sum sufficient to pay for translating and printing 600 copies thereof in English and 200 copies in French.

No petition for a Bill of Divorce shall be presented unless the applicant has paid into the hands of the Clerk of the Senate the sum of two hundred dollars ($200).

The petition when presented shall be accompanied by the evidence of the publication of the notice, and by declaration in evidence of the service of a copy thereof, and by a copy of the proposed Bill.

EDOUARD J. LANGEVIN,
Clerk of the Senate.

ARRÊTÉS EN CONSEIL.

HOTEL DU GOUVERNEMENT À OTTAWA.

Samedi, le 17e jour de septembre 1892.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT que d'après des informations reçues il y a raison de croire que la maladie du choléra asiatique s'est déclarée dans la cité de New-York, et qu'elle y a causé cinq décès ;

Et considérant qu'il est à propos d'étendre les règlements applicables aux ports de mer autres que les stations régulières de quarantaine, aux ports de l'intérieur sur la frontière entre le Canada et les Etats-Unis, en tant que ces règlements peuvent s'appliquer à un port de l'intérieur ;

Et considérant que par l'article 3 du chapitre 68 des Statuts Revisés, intitulé "Acte concernant la quarantaine," il est statué que les règlements faits en vertu du dit acte, "auront force de loi ; et toute personne "qui désobéit à quelqu'un de ces règlements est coupable de délit et passible d'amende ou d'emprisonnement, ou des deux peines, selon que la cour l'ordonnera,—ou elle peut être poursuivie pour les peines portées aux dits règlements."

Et de plus il est statué dans l'article 4 du dit acte, que—

"Le Gouverneur en conseil peut, par ces règlements, requérir les propriétaires ou les personnes chargées du soin ou de la garde de marchandises ou choses transportées par terre à quelque lieu en Canada, de permettre à l'officier à ce préposé en vertu de ces règlements de faire la visite et l'examen de ces marchandises ou choses, de répondre suivant la vérité à toutes les questions qui leur seront faites par cet officier relativement à ces marchandises ou choses,—et de permettre que celles-ci restent sous la garde du dit officier durant l'espace de temps, et soient nettoyées, désinfectées et purifiées de la manière qu'il croira nécessaire pour les fins du présent acte ; et le Gouverneur en Conseil peut, par ces règlements, ordonner que les personnes arrivant par terre en quelque lieu que ce soit en Canada se laissent visiter et examiner par l'officier qu'il appartiendra, nommé en vertu des dits règlements,—qu'elles répondent suivant la vérité à toutes les questions qui leur seront faites par cet officier,—et qu'elles séjournent au dit lieu, durant l'espace de temps, et se laissent traiter, purifier et désinfecter de la manière que le dit officier croira nécessaire pour les fins du présent acte"—

Il plaît à Son Excellence, en vertu des dispositions du chapitre 68 des Statuts Revisés, intitulé "Acte concernant la quarantaine," et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'établir les règlements suivants, qui seront censés être des règlements de quarantaine en vertu des dispositions du dit acte, savoir :—

1. Chaque percepteur des douanes à un port de la frontière, en sa capacité d'officier de la quarantaine tel que prescrit par l'article 31 du chapitre 6 des Arrêtés en conseil refondus du Canada, sera, en vertu de cette charge un juge de paix sous l'empire et pour les fins de tel acte.

2. Tout percepteur des douanes en sa capacité d'officier de la quarantaine devra, s'il est informé de la présence d'une maladie infectieuse telle que définie dans l'article 27 du chapitre 6 des Arrêtés en conseil refondus, ou s'il a raison grave de soupçonner la présence de telle maladie, immédiatement ordonner qu'une inspection soit faite par un médecin du wagon, voiture, véhicule, bateau ou chose apportant telle maladie, et ce médecin sera pour la dite fin, et il est par le présent constitué médecin autorisé de quarantaine pour mettre à exécution les prescriptions du dit acte et sera revêtu des pouvoirs spécifiés dans l'extrait de l'article 4 du dit acte ci-dessus cité.

3. L'honoraire payable à ce médecin pour cette inspection ne devra pas excéder la somme de quatre piastres pour chaque visite, et dans le cas où il serait découvert quelque maladie infectieuse cet honoraire sera payable par la compagnie ou propriétaire du wagon, voiture, véhicule, bateau ou chose apportant cette maladie.

4. Le percepteur des douanes, en sa capacité d'officier de la quarantaine devra, sur le rapport de ce médecin inspecteur de quarantaine, faire détenir le wagon, voiture, véhicule, bateau ou chose apportant cette maladie infectieuse jusqu'à ce qu'on ait rempli les formalités prescrites par l'article 33 du chapitre 6 des Arrêtés en conseil refondus.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu de l'autorité qui lui est conférée par l'article 2 de l'acte 55-56 Vic., chap. 23, et par et avec l'avis du Conseil privé de la Reine pour le Canada, de nommer les personnes suivantes pour faire un choix d'échantillons de blé et autre grain cultivé à l'est de Port Arthur, afin de servir comme types pour guider les inspecteurs dans leur travail d'inspection, savoir :—

Montréal.

W. W. Ogilvie, D. D. McBean, Adam G. Thomson, R. M. Esdaile.

Toronto.

W. D. Matthews (président), G. A. Chapman, Thomas Flynn, M. McLaughlan, T. O. Kemp. A. Adamson, inspecteur.

Le bureau ainsi nommé se réunira en la cité de Toronto entre le 25e jour de septembre et le 10e jour d'octobre, sur l'invitation du président, qui sera enjoint de donner un avis raisonnable de l'époque et de l'endroit de la réunion par annonce dans la *Gazette* de Montréal, et l'*Empire* de Toronto.

Il a plu aussi à Son Excellence, en vertu de l'autorité susdite et par et avec l'avis susdit, de nommer les personnes suivantes pour le même objet au sujet du blé et autre grain cultivé à l'ouest de Port-Arthur, savoir :—

N. Bawlf, président, S. A. McGaw, S. Spink, Kenneth Campbell, Brandon ; H. S. Patterson, Portage-la-Prairie ; Chas. Braithwaite, J. D. Sibbald, M. McLaughlan, R. M. Esdaile, John Benson, Hugh N. Baird. Frank E. Gibbs, inspecteur, David Horn, inspecteur.

Ce bureau se réunira sur l'invitation du président, entre le 15e jour de septembre et le 10e jour d'octobre.

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT que le Président des Etats-Unis ayant lancé une proclamation pour une détention quarantenaire de tous navires contenant des immigrants venant de pays infestés du choléra pour une période de vingt jours, il est à propos afin d'empêcher ces immigrants de se servir des routes canadiennes pour pénétrer dans les ports intérieurs des Etats-Unis en vue d'éviter la quarantaine aux ports de mer, d'étendre les dispositions du deuxième paragraphe de l'article 9 des règlements de quarantaine établis par l'arrêté en conseil du 12e jour de mai 1888, chapitre 6 des Arrêtés en conseil refondus du Canada, concernant les navires soupçonnés d'avoir de la maladie à bord, lequel est dans les termes suivants :

" Pourront être mis en quarantaine d'observation pour une période n'excédant pas trois jours, " de manière à se lire comme suit :

" Pourront être mis en quarantaine d'observation pour une période de vingt jours ou plus, selon que l'ordonnera le ministre de l'Agriculture, " et de plus que les mots " tout port de mer du Canada, " soient substitués aux mots " Grosse-Ile " dans le dit paragraphe.

Il plaît à Son Excellence, en vertu des pouvoirs qui lui sont conférés par le chapitre 68 des Statuts Revisés, intitulé : " Acte concernant la quarantaine," et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que le deuxième paragraphe de l'article 9 des dits règlements de quarantaine se lira comme ci-dessous, et que le dit paragraphe, tel que modifié sera censé être un règlement de quarantaine, savoir :

" Les navires arrivant à tout port de mer du Canada " d'aucun port ou lieu infecté ou suspect, et à bord " desquels aucune maladie pestilentielle se sera dé- " clarée pendant le passage, pourront être mis en qua- " rantaine d'observation pour une période de vingt " jours ou plus, selon que l'ordonnera le ministre de " l'Agriculture, pendant laquelle les passagers et l'équi- " page seront sujets à une purification rigoureuse sous " la direction du surintendant-médical."

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, par et avec l'avis du Conseil privé de la Reine pour le Canada, et en vertu des pouvoirs qui lui sont conférés par le chapitre 78 des Statuts Revisés, intitulé " Acte concernant l'inspection des bateaux à vapeur, et l'examen et les commissions des mécaniciens qui y sont employés," et ses modifications, d'approuver les modifications ci-dessous apportées aux Règlements concernant l'inspection des chaudières et boussoles des bateaux à vapeur, et les nouveaux règlements concernant l'inspection des arbres moteurs de bateaux à vapeur, et l'épreuve des nouvelles machines de bateaux à vapeur, qui ont été passés par le Bureau d'inspection des bateaux à vapeur.

—

MODIFICATIONS AUX RÈGLEMENTS CONCERNANT L'INSPECTION DES CHAUDIÈRES DE BATEAUX À VAPEUR.

Chaudières.

1. L'art. 40, partie I, et l'art. 74, partie II, sont par le présent modifiés en ajoutant dix pour cent au résultat de la formule (*b*) :—

$$\frac{90{,}000 \times T^2}{(L+1) \times D} = \text{la pression effective, lorsque}$$

T = l'épaisseur de la tôle en pouces.
D = le diamètre extérieur du carneau en pouces.
L = la longueur du carneau ou du fourneau en pieds, ou la longueur entre les anneaux en pieds, s'il est renforcé par des anneaux propices ou des joints Adamson.

2. L'art. 36 (*r*) et l'art. 41 (*a*), partie I, et l'art. 75 (*a*), partie II, sont par le présent modifiés en employant 14,000 au lieu de 12,500 dans la formule :—

$$\frac{12{,}500 \times \text{l'épaisseur en pouces}}{\text{Diamètre moyen en pouces}} = \text{la pression effective par pouce carré.}$$

3. L'article 30, partie I, et l'art. 68, partie II, sont par le présent modifiés en y ajoutant les paragraphes suivants :—

" Lorsqu'un surchauffeur est muni d'un tube soumis " à une pression extérieure, on devra constater la pres- " sion effective au moyen des règlements donnés pour " les fourneaux circulaires en fer, mais les constantes " devraient être réduites comme trente est à quarante- " sept.

" Si l'on se propose d'employer de l'acier dans des " surchauffeurs, les détails devraient être soumis au " Bureau d'inspection des bateaux à vapeur, ou au pré- " sident, si le Bureau ne siège pas, pour sa considé- " ration ; mais on ne doit jamais encourager une telle " chose ; ceci s'applique aux courants de flammes non " munis d'écrans de toutes les chaudières, y compris " les petites chaudières alimentaires verticales ordi- " naires."

—

MODIFICATIONS AUX RÈGLEMENTS CONCERNANT L'INSPECTION DES BOUSSOLES À BORD DES BATEAUX À VAPEUR.

Boussoles.

L'art. 22, partie VII, est par le présent modifié en substituant les mots " personne compétente " au mot " inspecteur," dans la cinquième ligne, et en ajoutant les mots " d'inspection " après le mot " certificat " dans la dernière ligne.

—

RÈGLEMENTS CONCERNANT L'INSPECTION DES ARBRES MOTEURS DES BATEAUX À VAPEUR.

Arbres moteurs.

4. Aucun arbre moteur, arbre de couche, arbre droit ou arbre des roues ayant un moindre diamètre que celui trouvé par la formule suivante, ne devrait être accepté sans avoir d'abord soumis le cas au président du Bureau d'inspection des bateaux à vapeur.

Pour les machines mixtes à condenser avec deux cylindres ou plus, lorsque les axes coudés ne sont pas suspendus :—

$$S = \sqrt[3]{\frac{C \times P \times D^2}{f\left(2 + \frac{D^2}{d^2}\right)}}$$

$$P = \frac{f \times S^3}{C \times D^2}\left(2 + \frac{D^2}{d^2}\right)$$

Lorsque S = le diamètre de l'arbre en pouces.
Lorsque d^2 = le carré du diamètre du cylindre à haute pression en pouces, ou la somme des carrés des diamètres, dans les cas où il y a deux cylindres à haute pression ou plus.

Lorsque D^2 = le carré du diamètre d'un cylindre à basse pression en pouces, ou la somme des carrés des diamètres dans les cas où il y a deux cylindres à basse pression ou plus.

Lorsque P = la pression absolue en livres par pouce carré, c'est-à-dire, la pression de chaudière *plus* 15 livres.

Lorsque C = la longueur de l'axe coudé en pouces.

Lorsque f = la constante d'après la table suivante.

NOTE.—Les cylindres à pression intermédiaire ne paraissent pas dans la formule.

Pour les machines à condenser ordinaires, avec un ou deux cylindres et plus, alors que les axes coudés ne sont pas suspendus :—

$$S = \sqrt[3]{\frac{C \times P \times D^2}{3 \cdot f}}$$

$$P = \frac{3 \times f \times S^3}{C \times D^2}$$

Lorsque S = le diamètre de l'arbre en pouces.

D^2 = le carré du diamètre du cylindre en pouces, ou la somme des carrés des diamètres, dans les cas où il y a deux cylindres ou plus.

P = la pression absolue en livres par pouce carré, c'est-à-dire la pression de chaudière, *plus* 15 livres.

C = la longueur de l'axe coudé en pouces.

f = la constante d'après la table suivante :

TABLE.

Pour deux axes coudés. Angles entre les axes.	Pour arbres moteurs et de manivelle. f.	Pour arbres droits. f.
90°	Pour les machines à roues d'un modèle ordinaire, multipliez la constante dans cette colonne pour l'angle des axes coudés par 1·4. 1,047	1,221
100°	996	1,128
110°	904	1,055
120°	855	997
130°	817	953
140°	788	919
150°	766	894
160°	751	877
170°	743	867
180°	740	864
Pour trois axes coudés 120°.	1,110	1,295

NOTE.—Lorsqu'il n'y a qu'un axe coudé, les constantes applicables sont celles dans la table vis-à-vis 180°.

RÈGLEMENTS CONCERNANT L'ÉPREUVE DE NOUVELLES MACHINES À BORD DE VAPEURS À PASSAGERS.

Dans le cas de nouvelles machinés à bord de vapeurs à passagers, les inspecteurs devront les voir éprouver lorsque les bateaux sont en marche, à pleine vapeur, afin de s'assurer autant que possible qu'il n'existe pas de défauts dans les diverses parties de la machine qui auraient échappé à l'examen de l'inspecteur, tel que prescrit par l'article 15 de l'acte 49 Victoria, chap. 78.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT que par l'article 190 de "l'Acte du Revenu de l'Intérieur," il est statué que le cautionnement à donner est une somme égale au montant auquel le percepteur estimera que les droits pourront s'élever sur les effets à manufacturer dans le cours d'un mois, et telle autre somme que le percepteur jugera suffisante pour couvrir le droit sur les effets restant en entrepôt de temps à autre dans le cours de la licence ;

Et considérant que l'augmentation du droit de un à deux centins par livre sur le malt a rendu très oppressives les dispositions de la loi précitées quant au montant des cautionnements que doivent donner les malteurs,—

Il plaît à Son Excellence, en vertu du pouvoir qui lui est conféré par "l'Acte du Revenu de l'Intérieur," et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'autoriser le ministre du Revenu de l'intérieur à fixer le montant du cautionnement que doivent donner les malteurs, et cette autorisation est en conséquence conférée.

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu des dispositions de "l'Acte des primes de pêche de 1891," 54-55 Victoria, chapitre 42, et par et de l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que les règlements suivants concernant le paiement des primes de pêche, soient approuvés :—

RÈGLEMENTS concernant le paiement des primes de pêche, tel que pourvu par la section 6 de l'Acte des primes de pêche de 1891, 54-55 Victoria, chapitre 42.

1. Les pêcheurs qui ont été employés à faire la pêche en eau profonde pour d'autres poissons que le homard, le saumon et l'alose ou le poisson qui se prend dans, ou à l'embouchure des rivières, pendant au moins trois mois et qui n'ont pas pris moins de 2,500 livres de poisson de mer, auront droit à une prime, pourvu toujours que nulle prime ne sera payée à ceux qui feront la pêche dans des bateaux mesurant moins de 13 pieds de quille, et le nombre des réclamants est limité à trois (y inclus le propriétaire), pour les bateaux au-dessous de 20 pieds.

2. Aucun pêcheur ne pourra réclamer plus d'une fois par saison, soit qu'il ait pêché dans deux vaisseaux, ou dans un vaisseau et un bateau de pêche ou dans deux bateaux.

3. Les propriétaires de vaisseaux de pas moins de 13 pieds de quille, qui ont été employés pendant au moins trois mois à la pêche en eau profonde pour d'autres poissons que le homard, le saumon ou l'alose ou le poisson qui se prend dans ou à l'embouchure des rivières, auront droit à une prime sur chacun des dits bateaux.

4. Les vaisseaux canadiens enregistrés de dix tonneaux et au-dessus (jusqu'à 80 tonneaux), employés pendant au moins trois mois à la pêche en eau profonde pour d'autres poissons que le homard, le saumon ou l'alose, ou le poisson qui se prend dans, ou à l'embouchure des rivières, auront droit à une prime qui devra être calculée sur le tonnage enregistré, dont une moitié sera payable au propriétaire ou propriétaires et l'autre moitié à l'équipage, excepté dans les cas où un ou plusieurs membres de l'équipage auraient manqué de se conformer aux règlements, auxquels cas la dite ou les dites parts ne seront pas payées.

5. Les propriétaires ou capitaines de vaisseaux qui ont l'intention de faire la pêche et réclamer la prime devront, avant de partir pour un voyage de pêche, se procurer une licence du percepteur des douanes ou du garde-pêche le plus voisin, la dite licence sera attachée à la réclamation lorsque cette dernière sera envoyée pour être payée.

6. Les dates et les endroits de pêche devront être précisés dans la réclamation ainsi que la quantité et les espèces de poisson pris.

7. Les âges des hommes devront être donnés. Les garçons au-dessous de 14 ans ne sont pas acceptés comme réclamants.

8. Les réclamations devront être assermentées comme étant vraies et correctes dans tous leurs détails.

9. Les réclamations doivent être filées le ou avant le 30 novembre de chaque année.

10. Les officiers autorisés à recevoir les réclamations devront fournir les formes nécessaires, gratis, et après

les avoir certifiées devront les transmettre au Département de la Marine et des Pêcheries.

11. Une réclamation dans laquelle le réclamant ou les réclamants auront fait une erreur ne pourra être amendée après avoir été signée et assermentée comme étant correcte.

12. Quiconque sera reconnu avoir fait des retours faux ou frauduleux dans aucun détail, sera exclu de participation dans la prime et poursuivi avec toute la sévérité de la loi.

13. Le montant de la prime à être payée aux pêcheurs et aux propriétaires de bateaux et vaisseaux sera fixé de temps à autre par le Gouverneur en Conseil.

JOHN J. McGEE,
Greffier du Conseil privé.

AUX ANNONCEURS DANS LA *GAZETTE*.

CEUX qui envoient des annonces pour être insérées dans la *Gazette du Canada* voudront bien se conformer aux règles ci-dessous :

1. Adresser "Gazette du Canada, Ottawa, Canada."
2. Indiquer le nombre d'insertions voulues.
3. Transmettre invariablement le prix de l'annonce ainsi que le prix d'un exemplaire de la *Gazette*, tels que donnés plus bas ; sans cela l'annonce ne sera pas publiée.

Les prix sont de dix cts. pour la première insertion, et cinq cts. pour chaque insertion subséquente par ligne de neuf mots, chaque chiffre comptant pour un mot. Aucune annonce n'est insérée pour moins d'une piastre.

D'après la pratique établie et reconnue, telle que prescrite par la loi, les règlements du parlement et les décisions du ministre de la Justice, les avis reçoivent le nombre d'insertions ci-dessous :—

Les avis de demandes de divorce—27 insertions.

Les avis de retrait de dépôts des compagnies d'assurance—13 insertions.

Les avis de demandes ordinaires au parlement—9 insertions.

Les avis de demandes de lettres patentes—6 insertions.

Les avis de dividendes et d'assemblées de banques et de compagnies d'assurances,—1 mois de calendrier ou 5 insertions.

Les abonnés observeront aussi que le prix d'abonnement, $4 par année, est invariablement payable d'avance, et que l'envoi de la *Gazette* sera arrêté à l'expiration de la période payée. Chaque exemplaire coûte dix cts., et quand les annonceurs en veulent plus qu'un, ils devront faire une remise en conséquence.

DEMANDES AU PARLEMENT.

Règles relatives aux avis de bills privés.

Dans le cas de toute demande de bill privé, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, et ayant pour objet, soit la construction d'un pont, d'un chemin de fer, d'un chemin à barrières ou d'une ligne télégraphique ; soit la construction ou l'amélioration d'un port, d'un canal, d'une écluse, d'une digue ou d'une glissoire ou autre ouvrage semblable ; soit la concession d'un droit de passage d'eau, l'incorporation de professions ou métiers, ou d'une compagnie de banque ou autre compagnie par actions, soit la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, soit le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement de même nature à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande, et signé (excepté s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part, est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Un avis doit être inséré dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Un avis doit être inséré dans la *Gazette du Canada*, et et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie.

La publication de ces avis durera, dans chaque cas la période de deux mois pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Un exemplaire des numéros des journaux, reproduisant la première et la dernière insertion de l'avis, devra être transmis au greffier de chaque Chambre.

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, le pétitionnaire ou les pétitionnaires devront, en même temps qu'ils donneront l'avis prescrit par la règle précédente, donner aussi, de la même manière, avis des péages qu'ils entendent exiger, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piliers pour le passage des radeaux et des navires ; et mentionner de plus s'ils se proposent de construire un pont mobile, et quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Il en sera imprimé 600 exemplaires en anglais et 200 en français ; la traduction devra être faite par les officiers de la Chambre, et l'impression par l'entrepreneur des impressions. Le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) une somme de $200, plus le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé—le dit paiement sera effectué immédiatement après la seconde lecture, et avant la prise en considération du bill par le comité.

L'honoraire payable sur tout bill privé, ne sera payé que dans la Chambre où il a pris naissance.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par l'une ou par l'autre Chambre après les dix premiers jours de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.
JOHN GEORGE BOURINOT,
Greffier des Communes.

—

Règles additionnelles de la Chambre des Communes concernant les bills privés.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle adopté par la Chambre, le 23 juin 1887, dont copie peut être obtenue du greffier de la Chambre ;

(*a*.) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression ;

(*b*.) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets ;

(*c*.) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le tracé du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer

à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(a.) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés, dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière ; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait ;

(b.) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

JOHN GEORGE BOURINOT,
Greffier des Communes.

SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré, durant six mois, entre l'expiration de la dernière session parlementaire avant l'avis et la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district ; autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire, faite en vertu de "l'Acte concernant les serments extrajudiciaires."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition en obtention d'un bill de divorce n'est présentée que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $200.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

DESPATCHES.

(Circular.)

DOWNING STREET,
29th August, 1892.

MY LORD,—I have the honour to transmit to you, for publication in the colony under your government, a copy of a treaty between the Governments of Great Britain and the United States of America relative to Merchant Seamen Deserters, signed at Washington on the 3rd of June, and of which the ratifications were exchanged at Washington on 1st August last, together with a copy of an Order of the Queen in Council, dated the 18th of August, extending the provisions of the "Foreign Deserters Act, 1852," to the United States.

I have the honour to be,
My Lord,
Your most obedient, humble servant,
RIPON.

The Officer Administering
the Government of Canada.

Extract from the "London Gazette" of Tuesday, 23rd August, 1892.

SEAMEN DESERTERS (UNITED STATES).

OSBORNE HOUSE, ISLE OF WIGHT,
18th August, 1892.

AT the Court at Osborne House, Isle of Wight, the 18th day of August, 1892.

PRESENT:

The QUEEN's Most Excellent Majesty.
Lord Chancellor.
Lord President.
Lord Privy Seal.
Marquess of Salisbury.
Marquess of Lothian.
Lord George Hamilton.
Viscount Cross.
Secretary Lord Knutsford.
Mr. Secretary Stanhope.
Mr. Goschen.
Mr. Balfour.
Sir J. Parker Deane.

WHEREAS by "The Foreign Deserters Act, 1852," it is provided that, whenever it is made to appear to Her Majesty that due facilities are or will be given for recovering and apprehending seamen who desert from British merchant ships in the territories of any foreign power, Her Majesty may, by Order in Council, stating that such facilities are or will be given, declare that seamen, not being slaves, who desert from merchant ships belonging to a subject of such power when within Her Majesty's dominions, shall be liable to be apprehended and carried on board their respective ships, and may limit the operation of such order, and may render the operation thereof subject to such conditions and qualifications, if any, as may be deemed expedient:

And whereas it hath been made to appear to Her Majesty that due facilities for recovering and apprehending seamen (not being citizens of the United States) who desert from British merchant ships in the territories belonging to the said United States will be given under a treaty between Her Majesty and the President of the United States signed at Washington on the third day of June, one thousand eight hundred and ninety-two the ratifications of which were exchanged on the first day of August, one thousand eight hundred and ninety-two:

Now, therefore, Her Majesty, by virtue of the power vested in Her by the said "Foreign Deserters Act, 1852," and by and with the advice of Her Privy Council, is pleased to order and declare, and it is hereby ordered and declared, that from and after the publication hereof in the *London Gazette*, seamen, not being slaves, and not being British subjects, who, within Her Majesty's dominions, desert from merchant ships belonging to citizens of the United States shall be liable to be apprehended and carried on board their respective ships: Provided always, that if any such deserter has committed any crime in Her Majesty's dominions he may be detained till he has been tried by a competent court, and until his sentence, if any, has been carried into effect:

And the Secretary of State for the Home Department, the Secretary of State for the Colonies, and the Secretary of State for India in Council, are to give the necessary directions herein accordingly.

C. L. PEEL.

—

TREATY between Great Britain and the United States respecting Merchant Seamen deserters. Signed at Washington, June 3, 1892. [Ratifications exchanged at Washington, August 1, 1892.]

WHEREAS the Governments of Great Britain and the United States of America are desirous to make provision for the apprehension, recovery, and restoration of persons who may desert from merchant vessels of their respective countries while in the ports of the other country, and to conclude a Treaty for the above purpose, the High Contracting Parties have accordingly appointed as their Plenipotentiaries to conclude the said Treaty, that is to say:

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, Sir Julian Pauncefote, G.C.M.G., K.C.B., Her Majesty's Envoy Extraordinary and Minister Plenipotentiary to the United States; and

The President of the United States of America, James G. Blaine, Secretary of State of the United States;

Who, after having communicated to each other their respective full powers found in due and good form, have agreed upon the following Articles:—

ARTICLE I.

The Consuls-General, Consuls, Vice-Consuls, and Consular Agents of either of the High Contracting Parties, residing in the dominions, possessions, or colonies of the other, shall have power to require from the proper authorities the assistance provided by law for the apprehension, recovery, and restoration of seamen who may desert from any ship belonging to a subject or citizen of their respective countries while in the ports of the other country. If, however, any such deserter shall have committed any crime or offence in the country where he is found, his surrender or restoration may be delayed until the proper tribunal before which the case shall be pending, or may be cognizable, shall have pronounced its sentence, and the sentence shall have been carried into effect.

It is understood that the preceding stipulations shall not apply to the subjects or citizens of the country where the desertion shall take place.

ARTICLE II.

The present Treaty shall be ratified, and the ratifications shall be exchanged at London or at Washington without delay.

ARTICLE III.

The present Treaty shall come into operation at the expiration of thirty days from the date of the exchange of ratifications. It shall remain in force for five years after that date, and thereafter until terminated by a

twelve months' notice to be given by either High Contracting Party to the other.

In faith whereof we, the respective Plenipotentiaries, have signed this Treaty, and have hereunto affixed our seals.

Done in duplicate at Washington, this third day of June, one thousand eight hundred and ninety-two.

(L.S.) JULIAN PAUNCEFOTE.

ORDERS IN COUNCIL.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Saturday, the 17th day of September, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the reserve of two townships in width along the boundary line between Canada and the United States, from the western boundary of Manitoba to the Rocky Mountains, for the purpose of serving as a quarantine ground along which animals in quarantine will be allowed to graze, shall be and the same is hereby abolished, and that the reservations hereinafter described shall be, and the same are hereby declared to be permanent reservations for quarantine purposes in lieu thereof, namely :—

1st. Townships 1, Ranges 19, 20, 21, 22 and 23, in part, being that section of the country lying between the north and south branches of the Milk River in Township 1.

2nd. Townships 1, Ranges 12, 13, 14 and 15 in part, Townships 2, Ranges 12, 13, 14 and 15, in part, being that section of the country between the Milk River on the north and the international boundary on the south, with Writing Stone Coulée on the east and the right of way of the Alberta Railway and Coal Company's line on the west.

3rd. Townships 1, Ranges 4, 5 and 6 in part, Townships 2, Ranges 4, 5 and 6 in part, being that section of country between the Milk River on the west and south and the Many Berries Creek on the east, all within Townships 1 and 2,—all the range numbers given being those officially known as being west of the Fourth Meridian.

JOHN J. McGEE,
14-4 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Monday, the 26th day of September, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS the Secretary of State represents that from the report of the Returning Officer appointed to take the votes of the electors of the County of Drummond, in the Province of Quebec, for and against a certain petition to revoke an Order in Council dated the 8th day of May, 1885, declaring "The Canada Temperance Act, 1878," in force in the said County of Drummond, from and after the date mentioned in the said Order in Council and in the manner therein prescribed, it appears that the said petition has been adopted by the electors of the said county, more than one-half of all the votes polled having been for the adoption of the said petition, and that the proceedings held by the Returning Officer have been in conformity with the Act ;

And whereas more than thirty days have elapsed since the day on which the said petition was adopted,—

His Excellency, under the authority conferred upon him by the section substituted by section 3 of the Act 51 Victoria, chapter 35, intituled "An Act in amendment of the Canada Temperance Act," for section 96 of "The Canada Temperance Act," and by and with the advice of the Queen's Privy Council for Canada, is pleased to order and declare that the said Order in Council of the 8th day of May, 1885, whereby the second part of "The Canada Temperance Act" was brought into force in the said County of Drummond, shall be and the same is hereby revoked.

JOHN J. McGEE,
14-4 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA

Monday, the 12th day of September, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, under the provisions of chapter 97 of the Revised Statutes and Acts amending the same, and by and with the advice of the Queen's Privy Council for Canada, is pleased to approve of the accompanying regulations for the governance of a ferry across the Niagara River, between the Town of Niagara, in the County of Welland, in the Province of Ontario, and Youngstown, in the State of New York, one of the United States of America.

JOHN J. McGEE,
Clerk of the Privy Council.

—

REGULATIONS.

1*st. Limits.*—The limits of the ferry shall be bounded on the south side of the Town of Niagara by Paradeso Grounds of the Government Ordnance lands, and on the west side of the Town of Niagara at the westerly end of Queen's street in said town, and a point in the Town of Youngstown, in the State of New York, in the United States of America, to be fixed by the municipal authorities in that place.

2*nd. Landing places.*—The wharves and docks shall be secured and at all times maintained by the lessee in a safe condition and available at all states of the river and subject to the approval of the Department of Inland Revenue.

3*rd. The vessel.*—The boats used for the said ferry shall be not less than 24 feet long, 6 feet beam, 2 feet 6 inches in the hold.

The boats shall be in all respects fully equipped, having a respectable and efficient commander, and the Minister of Inland Revenue shall be at liberty to reject any boat which may at any time be placed on said ferry, or the commander thereof, or the said dock or wharf, should he consider them or any of them respectively unsuitable to the service or unsafe or inadequate to meet the wants of the public.

4*th. Free passage.*—The lessee of the ferry, for the time being shall, at all times, during the continuance of the lease, carry across on said ferry, without fee, toll or reward, Her Majesty's mails, and upon requisition by the Postmaster General of Canada, the mails of the United States of America.

5*th. Contraband.*—The lessee shall not at any time carry or convey or permit or suffer to be carried or conveyed over said ferry any contraband articles whatsoever.

6*th. Customs laws.*—The lessee shall observe all Customs and Revenue Laws of the Dominion of Canada and of the United States of America.

7*th. Number of trips.*—During the period commencing the 1st May, until the 1st November in each and every year, the said ferry shall commence to ply at the hour of six o'clock in the morning (Sundays excepted), and shall continue to cross at intervals of every half hour successively thereafter until the hour of eight o'clock at night.

8th. That the charge for fares and tolls to be made on the said ferry shall not at any time exceed the following, that is to say :—

For foot passengers, each way, adults... 15 cts.
" " " children. half price.

9th. Notices of the rates of fares and the rates of tolls on the said ferry shall be put up and kept up, and exhibited at all times in a conspicuous place on or near the said dock or wharf.

10th. That the Governor in Council shall be at liberty to alter and modify the tariff of charges and

tolls hereinbefore contained, should it be deemed expedient in the public interests, and after such notification as aforesaid the lessee shall not take or receive any other or larger fares or tolls than those which shall be imposed in such modified tariff during the subsistence thereof.

11th. That the Governor in Council shall be at liberty at any time at which it may be shown that the lessee has failed to observe, perform, fulfil and keep any or other of the said provisoes, restrictions and conditions hereinbefore contained and expressed to declare the lease forfeited and void, whereupon the same shall become and be void to all intents and purposes, as if the same had never been granted, without indemnification to the lessee.

12th. That the said lessee shall not at any time during the existence of the lease, wilfully or knowingly infringe any of the laws, or by-laws or of the regulations of the United States of America, or of the State of New York, or the City of Buffalo, or Black Rock, in reference to ferriage which may be applicable to the said ferry, or such portion thereof as may be within the jurisdiction of any of them, the United States of America, State of New York, or the City of Buffalo or Black Rock, or permit or suffer the same to be infringed by any officer, servant or employé of the said lessee.

13th. Provided always that if the United States of America, or the State of New York, or the City of Buffalo, or Black Rock, shall in any exercise of any authority in any of them existing at any time during the existence of the said lease, prevent or hinder ferriage at or upon the said ferry or such portion thereof as may be within the jurisdiction of such one of them, or put the lessee to any loss, expense, charge, or damage in respect to the same, no claim or demand for compensation, or any right or title thereto shall be made upon or against the Dominion of Canada.

14th. The ferry boat shall be placed on the route immediately on the lease being granted.

15th. The lease will be granted for a period of five (5) years, the rent being payable in advance. The lessee will be required to give two sureties satisfactory to the Department of Inland Revenue, who shall be bound jointly and severally with the principal in the sum of two thousand dollars ($2,000) for the full compliance by the said lessee with the terms of the lease.

16th. The lease shall not be sublet or assigned without the consent of the Governor in Council, but in the event of the death of the lessee, the lease shall inure to the benefit of the lessee's personal representatives, or as by his will he may direct. 13–4

AT THE GOVERNMENT HOUSE AT OTTAWA.

Saturday, the 17th day of September, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS from information received there is reason to believe that the disease of Asiatic Cholera has declared itself in the City of New York, and that five deaths have occurred therefrom ;

And whereas it is advisable to extend the regulations applicable to maritime ports other than regular quarantine stations to the inland ports on the frontier between Canada and the United States in the particulars in which such regulations can be made to apply to an inland port ;

And whereas by section 3 of chapter 68 of the Revised Statutes, intituled "An Act respecting Quarantine" it is provided that the regulations made under it "shall have the force of law, and any person dis-"obeying any such regulation is guilty of a misde-"meanor and liable to fine or imprisonment or both, "as the court directs ; or such person may be sued for "the penalties contained in such regulation ";

And further it is provided in section 4 of the said Act, that—

"The Governor in Council may by such regulations "require the owners or persons in charge of goods or "things conveyed by land to any place in Canada, to "allow the proper officer appointed under such regu-"lations to inspect and examine the same, and to "answer truly all questions asked of them by such "officer concerning the same, and to allow such goods "or things to remain so long in the custody of such "officer and to be so treated, cleansed and purified as "such officer thinks necessary for the purposes of this "Act ; and the Governor in Council may by such "regulations require all persons arriving by land at "any place in Canada to allow themselves to be ins-"pected and examined by the proper officer appointed "under such regulations, and to answer truly all "questions asked of them by such officer, and to "remain so long at such place and to be so treated, "cleansed and purified as such officer thinks necessary "for the purposes of this Act "—

His Excellency, in virtue of the provisions of chapter 68 of the Revised Statutes, intituled "An Act respecting Quarantine," and by and with the advice of the Queen's Privy Council for Canada, is pleased to make the following regulations—the same to stand for Quarantine Regulations in virtue of the provisions of the said Act, namely :—

1. Each Collector of Customs at any frontier port in his quality of quarantine officer as provided in section 31 of chapter 6 of the Consolidated Orders in Council of Canada, shall, by virtue of such office, be a Justice of the Peace under the authority and for the purposes of such Act.

2. Any Collector of Customs in his quality of quarantine officer shall, if he is informed of the presence of any infectious disease such as defined in section 27, chapter 6 of the Consolidated Orders in Council, or if he has reason seriously to suspect the presence of such disease, forthwith order an inspection to be made of the car, carriage, vehicle, boat, or thing bringing such disease, by a medical man, who shall for such purpose be and is hereby constituted a quarantine medical officer to carry into effect the purposes of the said Act, with the powers specified in the extract from section 4 of the said Act above recited.

3. The fee payable to such medical man for such inspection shall not exceed the sum of four dollars for each visit, and in the event of infectious sickness being found such fee shall be payable by the company or owner of the car, carriage, vehicle, boat, or thing bringing such disease.

4. The Customs Collector in his quality of quarantine officer shall, on the report of such medical quarantine inspector cause the detention of the car, carriage, vehicle, boat or thing bringing such infectious disease until the requirements defined in section 33, chapter 6, Consolidated Orders in Council, are satisfied.

JOHN J. McGEE,
13–4 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 16th day of August, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada, and in virtue of the powers conferred on him by section 108 of chapter 50 of the Revised Statutes of Canada, intituled "An Act respecting the North-West Territories," is pleased to order and it is hereby ordered, that that portion of the public travelled road or trail from Morley to Banff, which has been surveyed from Canmore to the boundary of the Rocky Mountain Park, be transferred to the Lieutenant Governor of the North-West Territories, for the public uses of the Territories, subject to any rights acquired under patents for lands crossed thereby.

JOHN J. McGEE,
12-4 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Monday, the 12th day of September, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, under the provisions of chapter 34, of the Revised Statutes of Canada, intituled "The Inland Revenue Act," and by and with the advice of the Queen's Privy Council for Canada, has been pleased to make and establish the following regulations in respect of tobacco and cigars, and tobacco and cigar manufactories, and the same are hereby made and established.

JOHN J. McGEE,
13-4 Clerk of the Privy Council.

TOBACCO AND CIGAR REGULATIONS.

ARTICLE 1.—RAW MATERIAL.

A.—For dealing with raw leaf tobacco, scraps, cuttings, stems, liquorice or other materials, when brought into, produced or used in, or removed from a tobacco or cigar manufactory.

Section 1. So soon as any tobacco or other raw material is received at the manufactory, the quantity thereof shall be ascertained by the manufacturer, under the immediate supervision of the officer in charge, whose duty it shall be to test the accuracy of all weights, and when required so to do by the manufacturer, to ascertain the deduction to be made for moisture.

Sec. 2. Standard tobacco, as defined by the Act, means tobacco which contains 10 per cent of moisture, but it is not intended to notice the discrepancy of 1 or 2 per cent from this standard in either direction.

Sec. 3. When, however, there is an evident excess of moisture beyond the proportion above mentioned, viz., 10 per cent, the manufacturer may, if he desires, have this excess ascertained, and if found to be as much as, or more than 12 per cent, the excess over 10 per cent is to be deducted from the weight found ; in other words, when an account is taken of excessive moisture at all, 10 per cent is to be understood as being the standard, and all over that is to be allowed.

Sec. 4. All samples taken for the purpose of ascertaining the percentage of moisture contained therein are to be furnished by the manufacturer or owner free of cost.

Sec. 5. It is not necessary that samples should be taken from each package ; when two or more packages are, after careful examination, considered by the officer to be about the same as regards moisture, one sample can be taken to represent the lot. It is the desire of the Department that the manufacturer should suffer as little loss as possible by taking his tobacco for the purpose of ascertaining the moisture, and whenever any manufacturer is satisfied that the raw leaf and other unmanufactured tobacco brought into his manufactory at any time is not above or below the standard, he may enter the actual weight upon his books, without submitting a sample to be tested, but in such case the weight shall be considered as standard and no allowance made thereafter if the production in the manufactory should fall below the standard established by law.

Sec. 6. The certificate to be given to the Collector of Customs, under section 312 of "The Inland Revenue Act," is to be made out on the form No. 28. The Collector shall see that this certificate is carefully filled up and attached (with gum) to the customs entry covering the raw leaf tobacco to which it relates.

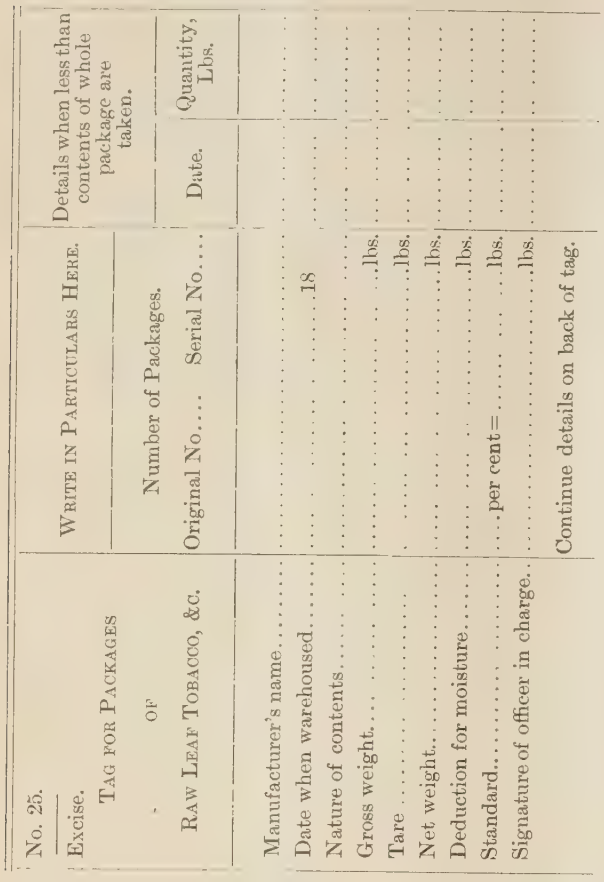
Sec. 7. All stems, scraps, cuttings, clippings, waste or other refuse of tobacco, when produced in, taken for use, removed from or destroyed at or from any tobacco or cigar manufactory, shall be entered in standard pounds.

Sec. 8. All raw leaf tobacco, stems, scraps, cuttings, clippings, waste and tobacco in process of manufacture at the time when stock is taken, shall be stated in standard pounds, and in all such cases care must be taken that samples for drying fairly represent the degree of moisture in each lot from which samples are taken.

Sec. 9. In all cases where it becomes necessary to take an account of the moisture, samples must be carefully taken in such a manner as to give a fair sample—as to moisture—of the whole ; these samples should each be from one-quarter to one-half of one pound in weight, and must be carefully weighed immediately they are taken, and the samples are to be taken from the packages at the time of weighing thereof, and not at a date previous to or after such weighing ; they are then to be carefully dried in the drying oven with which important offices have already been or will be supplied ; the difference between the weight when put in and removed from the dryer will represent the moisture contained therein.

Sec. 10. The principal offices are supplied with scales specially constructed for the purpose, by means of which the percentage of moisture in excess of the standard can be read on the arm of the scale instead of having to resort to computations to ascertain it.

This scale is so constructed that, by filling the counterpoise bucket at the end of the arm with shot sufficient to balance the oven tray on the platform, the weight as shown will be the net weight of the tobacco ; by means of the adjustable weight on the arm the sample can be either one-quarter, one-half or one pound, and by placing this weight at 100 when weighing the tobacco for drying, and then reading after drying on the lower scale on the arm, the exact percentage of moisture to be deducted can be seen at a glance.



Sec. 11. The officer in charge of each tobacco or cigar manufactory shall keep a record of the weight of all packages of raw leaf tobacco or other raw material received into manufactory ; the entry shall be made in a book provided by the Department for that purpose.

Sec. 13. Where stemmed raw leaf tobacco is received at any cigar manufactory the entry thereof, when received and when subsequently taken for use, is to state its character as such, and the quantity so received and taken for use is to be likewise referred to by a foot note on the manufacturer's monthly return (F. 4), and on annual stock statement (G. 15).

Sec. 13. All packages of raw material received into warehouse shall be consecutively numbered, beginning with number one, on the 1st day of July in each year.

Sec. 14. A ticket, or tag, shall be placed upon each package, showing the date when put in warehouse, the original and serial number of the package, the gross weight, the tare and the net actual weight of tobacco or other raw material contained therein, and in the case of raw leaf tobacco, scraps and cuttings, stems and other unmanufactured products of raw leaf tobacco, the pounds,

percentage of moisture and pounds of standard tobacco contained therein. In order that there shall be uniformity of practice, the following is the form of ticket or tag to be used, until otherwise modified or altered by departmental regulations, which tag will be supplied by the Department upon proper requisition being made therefor :—

In the case of liquorice, sugar, gum or other raw materials other than leaf tobacco, cuttings and other unmanufactured products of leaf tobacco, the last two lines will be left blank, as no deduction for moisture is to be made from these articles.

Sec. 15. All leaf tobacco and other materials are, as soon as received and an account of them taken, to be placed in the warehouse provided for that purpose and secured by crown lock, the key thereof being in the possession of the officer in charge.

Sec. 16. Raw leaf tobacco and other raw materials are to be delivered to tobacco and cigar manufacturers in such quantities as may be required for use ; and as they will have access to the warehouse daily, if required, and can take tobacco from as many different packages as if it were under their sole control, it is not necessary that greater quantities should be taken than are required for each day's use : when taken for use by whole packages it must be entered ex-warehouse at the weight marked on the packages when received :

(*a.*) If, in the opinion of the Department, the conveniences afforded by any tobacco or cigar factory will not permit of the storing of all raw leaf tobacco and other raw material within the locked apartment designated for that purpose, without unduly harassing the manufacturer, then the collector may authorize such proportion as he may see fit to be stored in other parts of the factory ; and in such case each such package so withdrawn, if not required for proximate use, shall have placed upon it by the manufacturer a red card of not less than four inches square, with the words " in bond " printed thereupon in letters of not less than one inch in height ; and the removal of such card, or of any of the contents of such package, before the weight contained in such package has been entered to the debit of the " Daily Record " as " taken for use," shall be deemed to be an illegal abstraction of goods from warehouse, and shall subject the manufacturer to like penalty as by law provided ;

(*b.*) When the contents of any package are taken for use at various times, the last entry from the package shall be made to balance the quantity originally warehoused and marked on such package ;

(*c.*) A manufacturer will be permitted to take whole packages or such quantities as he may require for use, but if it is at any time evident that a manufacturer is entering for use quantities far in excess of what his business demands, the collector will apply to the Department for specific instructions.

Sec. 17. All stems produced in any tobacco or cigar manufactory must, unless used or intended for immediate use in the manufactory, or held by the manufacturer with a view to their exportation, be weighed up not less frequently than once a month and either destroyed or locked up as hereinafter provided.

All stems, scraps, cuttings and waste produced in any tobacco or cigar manufactory and charged back to stock and carried to debit of stock book No. 1, shall, unless immediately destroyed, removed or entered for use, be placed in raw-leaf warehouse.

Sec. 18. The destruction shall be by burning, except when some other mode is specifically permitted. Collectors are authorized to deliver from time to time, to known gardeners, tobacco stems to be used for horticultural purposes only. The quantity furnished for such purposes and the security to be taken for the proper use of such stems to be within the discretion of the collector. Forms of bonds (A. 8,) and permits (Bb. 13,) can be had on requisition being made therefor to this Department. Stems may also be delivered to reliable persons for fertilizing purposes in such quantities as the collector may, in his discretion, deem advisable. In this case, however, it is required that the stems should be mixed with manure in the presence and to the satisfaction of an officer of this Department, which being done, no bond will be required. Either the manufacturer or the person receiving the stems, as may be mutually agreed upon, must bear the expense consequent upon the officer's attendance at the place where the stems are so destroyed. Stems delivered for either horticultural or fertilizing purposes will be included in the " Monthly Return of Tobacco Stems," (G. 17).

Sec. 19. Stems, scraps, cuttings or waste must, before they can be entered for removal and destruction, be carried to debit of stock book No. 1.

Sec. 20. Raw leaf tobacco, after being charged in a tobacco or cigar manufacturer's daily record as taken for use, cannot thereafter be removed from factory in an unmanufactured state, unless by special permission, in each case obtained from the collector.

Sec. 21. Raw leaf tobacco and scraps and cuttings when removed from a tobacco or cigar manufactory or tobacco warehouse must, before removal, be re-weighed and tested and deficiency (if any) ascertained, and the quantity shall be entered in standard pounds as thus determined, and must be consigned to the order of the collector of the division to which entered for removal. If any deficiency is found to have arisen on the tobacco or scraps and cuttings while in warehouse, application must be made to the Department for authority to pass a free entry, or to be otherwise dealt with as the Department may determine.

Sec. 22. Where tobacco and other raw materials are secured under crown lock, it is not necessary to weigh each package in the warehouse when taking stock ; only a sufficient number to satisfy the officer that the packages remain as shown on tag : when not secured by crown lock, each package must be carefully weighed.

Sec. 23. As stems and waste do not enter into computation in arriving at the production in cigar manufactories, collectors are requested to see that all such produced are properly charged back to stock book No. 1, so that no balance of same will remain to be included as in process of manufacture at time of stock-taking.

Sec. 24. Flavorings received at a tobacco or cigar manufactory are not to be examined by the officer in charge, but the weights are to be recorded by the manufacturer, as in the case of other raw material.

B.—For sale of scraps, cuttings, stems and sweepings of tobacco in bulk, by one manufacturer to another.

Sec. 25. Whenever any manufacturer of tobacco or cigars desires to sell his refuse scraps, cuttings, stems and sweepings of tobacco, in bulk and as material, to another manufacturer of tobacco or cigars, to be further manipulated or manufactured, he is hereby permitted to do so under the following rules and conditions, viz. :—

(*a.*) The scraps and cuttings, stems and sweepings of tobacco must be put up in separate packages, and in no case mixed, nor must any raw leaf be added thereto to fill up the package. The different classes of tobacco must be kept separate and distinct ;

(*b.*) The removal must be made in bond, and the goods consigned to the order of the collector of Inland Revenue of the division to which the goods are to be removed, in the same manner as provided for manufactured articles ;

(*c.*) The packages containing the goods are to be consecutively numbered, and each to have marked thereon the gross weight, the tare, and the net weight, and also the

standard weight of unmanufactured tobacco contained therein, and shall, in addition, have marked thereon the registered number of the manufactory, number of the warehouse entry, date, and number of the Inland Revenue division ;

(*d.*) No person other than manufacturers of tobacco or cigars will be allowed either to purchase or sell this description of tobacco unless it is packed, stamped, and the duty paid thereon, as provided by law.

Sec. 26. Whenever any manufacturer of tobacco or cigars desires to sell his refuse scraps, cuttings, stems, or sweepings of tobacco for export to a foreign country, he will enter the same for export in bond in the same manner and under the same regulations as govern the shipment and exportation of manufactured goods.

Sec. 27. Cigar manufacturers will not be permitted to put up small packages of cuttings for consumption.

C.—For removal of snuff-flour and fine-cut shorts, from one tobacco manufactory to another.

Sec. 28. Snuff-flour not prepared for use, but which needs to be subjected to further process of sifting, pickling, scenting or otherwise, before it is in a condition fit for use or consumption, may be sold by one tobacco manufacturer directly to another, under the following regulations :—

(*a.*) The snuff-flour shall be put up in packages, and these packages consecutively numbered and marked with the gross weight, the tare, and the net weight thereof, and shall, in addition, have marked thereon the registered number of the factory from which removed, the number of the warehouse entry, date, and number of the Inland Revenue division ;

(*b.*) The snuff-flour shall be removed from one manufactory to another in bond—the necessary warehouse and removal entries and removal bond being passed therefor, as in the case of other removals in bond.

Sec. 29. Fine-cut shorts, the refuse of fine-cut chewing tobacco, may be sold in bulk, like scraps, cuttings, &c., by one manufacturer of tobacco to another ; but when put up for sale and consumption, they must be packed in packages containing one-twentieth, one-sixteenth, one-tenth, one-eighth, one-fifth, one-fourth, one-half or one pound each, and stamped like other small packages of tobacco : the law does not authorize the packing of fine-cut shorts in five pound or ten pound packages, the same as fine-cut chewing.

Sec. 30. Fine-cut shorts may be sold in bulk by one tobacco manufacturer to another, under the following regulations :—

(*a.*) They shall be put up in packages, and these packages consecutively numbered and marked with the gross weight, the tare, and the net weight thereof (the net weight being stated in apparent and also in standard pounds), and shall, in addition, have marked thereon the registered number of the manufactory where put up or from which removed, the number of the warehouse entry, the date and number of the Inland Revenue division ;

(*b.*) The fine-cut shorts, like snuff-flour, shall be removed from one manufactory to another in bond.

Sec. 31. Upon the receipt of the snuff-flour or fine-cut shorts at the manufactory to which it is consigned, it shall be placed in the raw-leaf warehouse, and shall be delivered to the manufacturer in such quantities as he may require for treatment.

Sec. 32. In all books, snuff-flour and fine-cut shorts shall, when entered for removal for further treatment at another licensed tobacco manufactory, be treated as raw material, and as the transactions are not likely to be such as to render it necessary to encumber the books with special columns for these articles, they will be dealt with in the books in the following manner, when removed, viz. :

(*a.*) The entries to be made in red ink ;

(*b.*) Enter in column No. 21 in daily record when produced, and in columns Nos. 10 and 26 in stock book No. 1, when "charged back to stock" and "removed from manufactory" respectively ;

(*c.*) At receiving manufactory enter in columns Nos. 9 and 25 in stock book No. 1, when "brought in" and "taken for use," respectively, and in column No. 7 in daily record, when "taken for use ;"

(*d.*) Explanations to be made in columns Nos. 2 and 19 in stock book No. 1, and columns Nos. 2 and 15 in daily record ;

(*e.*) Totals of fine-cut shorts and snuff-flour to be also shown in red ink, and separate and distinct from the totals of scraps, cuttings and waste, as shown in the columns referred to.

D—Raw leaf tobacco samples.

Sec. 33. The following regulations as to the manner of dealing with small quantities of raw leaf tobacco imported as sample, and on which the Department has no authority to collect duty, are issued for the guidance of Customs officers at the ports where such samples are imported :—

(*a.*) Such samples must be bonded in a Customs warehouse in the same way as all other imported raw tobacco is bonded ;

(*b.*) The removal of such samples from Customs warehouse in quantities not exceeding one hundred and fifty pounds at any one time may be permitted on a removal bond being executed with the Collector of Customs by the parties who desire to remove the tobacco, and another surety who must be a resident householder, or some responsible person resident at or near the port at which the bond is given ; and each separate parcel or sample must be securely sealed and stamped, so that it may be identified ;

(*c.*) The removal entry shall accurately state the quantity, description and quality of the tobacco, as known to the trade, to be removed, which description shall also include particulars necessary for the identification of the several samples or parcels ;

(*d.*) Each removal paper shall have endorsed on it, by the Collector of Customs, the date at which the removal bond will expire, and shall set forth that the holder of the paper is permitted to carry with him the tobacco therein described for the purpose of exhibiting it to his customers ;

(*e.*) The conditions of the bond are to be that the tobacco shall, within a specified time, be delivered to and entered upon the books of a licensed tobacco or cigar manufacturer, or that it shall be exported ;

(*f.*) And the bond shall only be cancelled on the production of the certificate of an officer of Excise that the tobacco has been entered on the books of a licensed tobacco or cigar manufacturer, or on the certificate of a Customs officer, that the tobacco has been exported and within the time mentioned ;

(*g.*) In addition to the above certificate, when the tobacco is exported all the warehouse regulations then in force in reference to the exportation of Customs goods shall be complied with before the bond is cancelled ;

(*h.*) Whenever the bond is not cancelled in the manner above stated, and within the time stated in the bond, it will be the duty of the Collector of Customs before whom it is taken, to call upon the parties for the immediate payment of the penalty inserted in the bond, which, in accordance with the 312th section of the Inland Revenue Act, will be for a sum equal to 30 cents per pound on the tobacco to which it relates ;

(*i.*) When samples are sent out by the travelling agent of any person duly licensed to warehouse raw leaf tobacco under the Inland Revenue Act, an accurate account of such samples is to be taken by the proper officer of Excise and entered on the warehouseman's books, and the same means adopted for their identification, as is directed with reference to samples just imported ;

(*j.*) A bond will be taken with reference to such samples of the same nature as is directed with reference to samples just imported ; but in lieu of making it an alternative that such samples shall be exported, the conditions shall be that they shall be returned to the warehouse of the licensed warehouseman, and by him entered on his books ;

(*k.*) Whenever any importer desires to do so, he may pay the fee of thirty cents per pound on the raw-leaf samples, and have them stamped with the special raw-leaf tobacco sample stamp provided for that purpose, and may then bring in and exhibit his samples without any restrictions as to the giving a removal bond, procuring the certificate of officers of Excise as to its being entered on a manufacturer's book, or for the exportation of the sample ;

(*l.*) The special raw-leaf tobacco sample stamps are to be destroyed when the tobacco is taken for use in any tobacco or cigar manufactory.

ARTICLE 2.—STAMPS.

A.—Stamps for Tobacco.

Sec. 34. By virtue of the authority of the Inland Revenue Act, the following denominations of stamps for tobacco have been prepared, and their use is hereby prescribed, viz. :—

(*a.*) Small stamps, in sheets, of the denomination of ten, twenty, fifty and one hundred for cigarettes ; one-sixteenth of a pound for snuff, and one-tenth of a pound for cut tobacco ;

(*b.*) Strip stamps, in sheets, of the denomination of one-twentieth, one-sixteenth, one-twelfth, one-tenth, one-ninth, one-eighth, one-sixth, one-fifth, one-fourth, one-half and one pound, for use on all legal packages of cut and granulated tobacco, shorts, clippings, cuttings and sweepings of tobacco.

(*c.*) Strip stamps, in sheets, of the denomination of five and ten pounds for pails, kegs or drums of fine cut chewing tobacco ;

(*d.*) Strip stamps, in sheets, of the denominations of one-sixteenth, one-eighth, one-fourth, one-half and one pound, for packages of snuff, as well as on packages of cut and granulated tobacco, shorts, clippings, cuttings and sweepings as per clause (*b*) above.

(*e.*) Strip stamps, in sheets, of the denominations of five and ten pounds, for packages holding snuff when containing not more than forty per cent of moisture ;

(*f.*) Strip stamps, in sheets, of the denominations of five, ten and twenty pounds, for packages holding snuff, when containing more than forty per cent of moisture ;

(*g.*) Coupon stamp, in books, of the denominations of one, five, ten, fifteen and twenty with one-half pound coupons ; thirty-five, sixty, seventy and one hundred with one-pound coupons.

Sec. 35. No stamp of a denomination less than one-tenth of a pound is provided for tobacco solely the product of Canadian raw leaf.

Sec. 36. It is the duty of every officer in charge of any tobacco or cigar manufactory to see that no greater quantity of tobacco or cigars in contained in the packages to which the stamps are attached than the stamp is intended to cover, and the packages must in all cases be full, *i. e.*, a ten-pound stamp must not be placed upon a package capable of holding fifteen to twenty pounds, even if the package only contains ten pounds of tobacco. Should any package containing tobacco or cigars at any time be discovered with stamps thereon for a quantity less than the package contains, it is the duty of every officer to detain such packages as forfeited, and report the circumstances to this Department through the Collector of the division.

Sec. 37. Stamps for use on packages of tobacco or cigars shall be of such colour and description as the Department of Inland Revenue may provide.

B.—Stamps for Cigars.

Sec. 38. The Commissioner of Inland Revenue has caused to be prepared for the payment of duty on cigars, the following denominations of cigar stamps :—

(*a.*) Strip stamps issued in sheets, for boxes or packages containing three, six, ten, twenty-five, fifty, one hundred and two hundred cigars each ;

(*b.*) Strip stamps issued in sheets, for sample boxes of cigars containing twenty-five cigars each ;

(*c.*) Strip stamps, issued in sheets, for boxes of imported cigars (rate of duty being on the pound as heretofore) ;

(*d.*) Manufacturers must each time make requisition for a quantity of either three-cigar or six-cigar stamps not less than sufficient to cover 1,000 cigars.

Sec. 39. Stamps for use on sample boxes of cigars are coloured yellow, with the letter "F" thereon when used on cigars the product of foreign leaf, and "C" thereon when used on cigars the product of Canadian leaf.

C.—Stamps for Canada Twist.

Sec. 40. Stamps for Canada twist are supplied of the denominations one-fourth, one-half and one pound each.

Sec. 41. Stamps of the above denominations will be supplied to postmasters or other persons throughout the country, who will keep a record of the names of the persons to whom they sell stamps, and of the license number and the number and denomination of stamps sold to each (selling them only to licensed persons), for which purpose a suitable book is supplied ; the register of sales above referred to is to be open at all times for the inspection of officers of Inland Revenue.

Sec. 42. In regard to the sale of stamps for "Canada Twist," the following regulations are to be observed :—

(*a.*) A return of the sales is to be made daily (or as often as they occur), as is done in the case of other collections. Form D. 12 is to be used, and must show : (a.) The names of the purchasers ; (b.) The denomination and consecutive numbers of the stamps ; (c.) The total weight represented by the stamps ; and (d.) The total amount of duty :

(*b.*) It is not necessary to make a separate entry paper for each sale when more than one sale is made in a day ; but the sales to persons who are authorized to sell stamps on commission should not appear on the same entry with sales to other persons :

(*c.*) In the case of stamps sold on commission, the full amount of the duty chargeable upon the weight represented by the stamps is to be deposited to the credit of the Receiver General, the Collector taking the amount of the commission from his advance for contingencies :

(*d.*) At the end of each month (or oftener if necessary) the Collector will forward to the Department a statement of the amounts allowed for commission, quoting the number of each entry, the total amount of duty which it represents, and the amount of commission allowed thereon. The statement will be audited, and, if found correct, a cheque for the amount will be issued :

(*e.*) If at any time stamps are used for "Canada Twist" which has been seized, a separate entry paper must be used for them, or they may appear on the entry paper used to account for the proceeds of the seizure.

Sec. 43. Canada twist cannot be manufactured for sale by the cultivator unless he has taken out a license, paying therefor the sum of two dollars, and the law imposes a heavy penalty on any cultivator who shall manufacture for sale any Canada twist without taking out a license ; Collectors of Inland Revenue and others acting for this Department will, therefore, take all the means in their power to acquaint cultivators with the necessity of taking out such license and stamping the Canada twist before offering it for sale.

Sec. 44. The stamps will be attached to the roll or coil by interlacing it through the coil when made and bringing the two ends of the stamp once around the coil and fastening securely by gum or paste. The stamp is to be attached in all cases by means of good strong gum, and every officer of this Department is instructed, so far as it lies in his power, to impress upon cultivators who manufacture Canada twist for sale, that the firm adherence of the stamp to the tobacco is necessary in order to protect it from seizure, for if any packages are found anywhere except in the possession of the licensed cultivator, manufacturer, or in the premises of a licensed tobacco manufacturer of Canadian leaf tobacco only, without a stamp properly attached, they will certainly be seized and confiscated, in accordance with the law.

Sec. 45. The law also imposes heavy penalties on any person who shall open a package of tobacco without breaking the stamp thereon, or in whose possession a package unlawfully opened shall be found, or in whose possession any used stamps shall be found.

Every officer will, therefore, avail himself of every opportunity for bringing these matters under the notice of those concerned.

D.—Bonded Removal Permit Stamps.

Sec. 46. The bonded removal permit stamps to be used on packages of tobacco when ex-warehoused for removal in bond, are of the following denominations, viz. :—

(*a.*) For use on pails, kegs, drums or other packages of fine-cut chewing tobacco, weighing five and ten pounds each ;

(*b.*) For use on five, ten and twenty pound packages of snuff ;

(*c.*) For use on packages of plug tobacco weighing from five to twenty-five pounds ;

(*d.*) For use on packages of plug tobacco weighing from thirty-five to one hundred and ten pounds ;

(*e.*) For use on packages of cigars.

Sec. 47. They are to be attached as follows :—

(*a.*), (*b.*) and (*e.*) are to be attached to the package in such a manner as to be about equally attached to the cover and the body of the package :

(*c.*) and (*d.*) are to be attached at the same place on caddy or box as reserved for regular duty-paid stamp, viz. "over one corner or angle of the box or caddy, at equal distances from each end, attaching about equally to each side."

Sec. 48. Each package of tobacco or cigars removed in bond must be covered by a bonded removal permit stamp, of a denomination provided for the class of package upon which it is placed, and is to be attached to the package and cancelled by the manufacturer or his agent ; the cancellation will be by means of the roller stamp used for the first cancellation on the regular duty-paid stamps ; if the manufacturer so desires it, the bonded removal permit stamps may be placed upon the packages intended for removal at the time the tobacco or cigars are put in the warehouse. As this is solely for the accommodation of the manufacturer, the understanding must be that he shall only ask for these stamps to attach to packages that he *knows* will be entered for removal or transfer in bond. If he cannot do this the stamps can only be furnished at the time of entry of goods for removal or transfer. Officers in charge of tobacco or cigar factories are required to see that these stamps are properly used.

E.—Stamps for Customs.

Sec. 49. Arrangements have been made with the Department of Customs, that in future stamps for imported tobacco shall be supplied by this Department, through the Collectors of Inland Revenue. Collectors will therefore put themselves in communication with the Collectors of Customs, who may require to obtain supplies through

the Excise office, and request them to make requisitions on the Collectors of Inland Revenue for such stamps as they are likely to require at their respective ports.

Sec. 50. As it takes considerable time to obtain stamps, when not in stock at the time the requisition is received, the Collector of Inland Revenue aforesaid will request the Collectors of Customs to make their requisitions as early as possible.

Sec. 51. The denominations of stamps for imported tobacco and cigars are the same as those for like articles manufactured in Canada, with the addition of a stamp for raw leaf tobacco samples, cigar stamps at rate of duty per pound instead of per M. and cigarette stamps of the denominations of one-fortieth and one-twentieth of a pound.

F.—Supply of Stamps.

Sec. 52. Stamps will be supplied by the Department upon proper requisition being made therefor by the Collector of Inland Revenue, who will make requisition sufficiently in advance to insure having a supply always on hand equal to the probable demand for three months, as required by section 280 of the Inland Revenue Act: on receipt of a parcel of stamps the Collector or other officer receiving them is immediately to count them, and if they are found to be in accordance with the receipt accompanying the parcel, he is to sign, date and return the receipt to the Department by the next mail, and enter the stamps so received on the debit side of his "General Record of Tobacco Stamps (K. 21a);" if they are not found to be correct, he must immediately advise the Department of the error, and enter the exact number received by him to the debit of his stamp account: Collectors and other officers must account for every stamp acknowledged to have been received by them.

Sec. 53. A separate account is to be opened for each denomination of stamp, and kept in the manner shown on first folio of stamp book, stating on the debit side the number received, and on the credit side the number issued. On opening the account the debit side is to commence with the number of stamps then on hand of the description to which it relates.

Sec. 54. Collectors are instructed to forward to the Department, by mail, registered, on the first day of each month, all books containing marginal stubs and unused coupons, the last stamps from which were detached during the previous month. The covers thereof are to be neatly cut even with the stubs, and those portions of the covers so detached need not be returned to the department, and all books containing coupon stubs so returned must show in the blank space opposite each sheet of coupons the number of pounds represented thereby on that page; and that a statement be attached to the fly leaf in front of each book, showing the number of pounds represented by the unused coupons on each page in detail and the total thereof. Collectors will take credit in their General Record of Tobacco Stamps (K. 21a) for the coupons so returned.

G.—Mode of affixing Tobacco and Cigar Stamps.

Sec. 55. Under the authority of section 280 of the Inland Revenue Act, it is hereby prescribed that stamps shall be affixed to packages of tobacco and cigars in the following manner, viz.:—All packages of tobacco, except fine-cut chewing and snuff, containing five pounds and upwards, shall have affixed a registered coupon stamp of a denomination corresponding with the net weight of the tobacco contained therein: for example, packages containing from ten to twenty-five, and from sixty to eighty pounds, can be, and must be covered by a single stamp, by using coupons attached to stamps, when the weight of the package is not precisely ten, fifteen, twenty, sixty or seventy pounds (in which case the stamp alone is used, without the coupons attached): when the weight of tobacco contained in the package ranges between ten and twenty-five and between sixty and eighty pounds, the coupons are used in connection with the stamp bearing such weight, that with one or more of the coupons attached thereto it will correspond with the weight required: half pounds will not be allowed on packages containing twenty-five pounds and upwards: all other packages of tobacco are to be covered by stamps of the denomination provided by the Department, and one stamp only is to be used on each package.

Sec. 56. Upon all descriptions of boxes and caddies of cavendish, plug, twist, or other description of tobacco, the stamp shall be affixed over one corner or angle of the box or caddy, at equal distances from each end, attaching about equally to each side: and on all such packages, when made of wood, a groove not less than one thirty-second of an inch deep shall be made to admit the stamp, and prevent its being torn or rubbed off by transportation.

Sec. 57. Upon all kegs, drums, pails, or other packages containing five and ten pounds of fine cut chewing, and five, ten and twenty pounds of snuff, as permitted by law, the stamp, being a strip stamp, shall be placed across the cover, so as to extend down each side of the package, and to effectually seal it.

Sec. 58. Strip stamps, whether used for packages containing smoking tobacco, fine-cut chewing, snuff, cigars or cigarettes, must be so attached as to effectually seal the package, and render it impossible to open the same or remove its contents without destroying or breaking the stamps: stamps on cigar boxes must be placed at least three-fourths of an inch from the end of the box.

Sec. 59. The practice of putting up cigarettes in small parcels held together by a narrow band, and these parcels placed in a large package, which alone is stamped, will not be permitted. All cigarettes must be put up in packages as provided by the Act, and each package must bear the proper revenue stamp.

Sec. 60. The strip stamps for tobacco are made sufficiently long to pass over both ends of the package and turn the opposite angles, thus effectually sealing the package, and they must be so affixed; and when applied to bags which open only at one end, they must be affixed so as to effectually close that end.

Sec. 61. The stamps are to be affixed to the packages by using an adhesive material that will cause them to stick to the wood, paper or other packages, securely and permanently: after the stamps on wooden or metal packages of tobacco have become dry, and the cancellation has been made, as herein described, they must be varnished over thoroughly, but not so as to obscure or obliterate the impression upon the stamp.

Sec. 62. Tobacco or cigar stamps will not adhere to tin-foil with ordinary gum or paste; the manufacturer must therefore either envelop the tin-foil in an outer wrapper of paper or provide some kind of gum or paste by which the stamps may be so attached that they cannot be removed without destroying them.

Sec. 63. Manufactures or importers of cigars will not be allowed to wrap the box or package containing cigars in an outer covering of paper or other material and attach the stamp to the outer covering; the stamp must be attached to each package proper, so as to remain thereon as an evidence of its being legally in the possession of the holder thereof.

Recipes.

Sec. 64. The following recipes for cheap and practical paste and varnish, which have been fully tested, are prescribed for use:—

For *paste*,—Dissolve one pound of gum arabic in one and three-fourths pints of boiling water; add from two to four ounces of acetic acid, and keep it corked when not in use; apply evenly to the stamp or notice and press it firmly upon the wood or other material of which the package is composed:

For *varnish*,—Place in a bottle of sufficient size one half pound of bleached gum shellac, broken fine, and add strong alcohol; shake occasionally until entirely dissolved, and keep is corked to prevent evaporation; should the varnish at any time become too thick, add a small quantity of alcohol.

Sec. 65. Stamps on packages of tobacco and cigars are to be attached at the manufactory, by the manufacturer or his agent, at the licensed bonding warehouse by the warehouseman or his agent, and at the Customs bonding warehouse by the Customs officer; although the responsibility of stamping tobacco ex-warehoused from a merchant's Excise bonding warehouse remains with the owner of the warehouse, the officer delivering the tobacco is expected to aid in the attaching and cancelling of the stamps, where this can be done immediately after the delivery of the goods from warehouse.

H.—Cancelling Dies and Stamps.

Sec. 66. By virtue of the authority conferred by section 281 of the Inland Revenue Act, the Commissioner of Inland Revenue will furnish steel dies for the cancellation of all stamps used on wooden packages, or packages made partly of wood and partly of other materials, containing tobacco: these dies will be forwarded to the several Collectors of Inland Revenue, and they will be loaned by them to the manufacturer of tobacco or other person mentioned in their requisition therefor and to no other.

Sec. 67. In effecting such cancellation, the die will be required to be applied twice to the stamp upon the package, once in the place on the stamp marked "cancellation by steel die," and a second time over and upon the vignette on the stamp.

Sec. 68. A steel cutting roller is also supplied for the cancellation of stamps on tin caddies or boxes of tobacco, which instrument is to be drawn across the stamp and on to the metal of which the package is composed: this instrument should be so used as to sever the stamp and continue the line of separation on to the metal: it is to be applied to the stamp on each side of the package, but is to be done in such a manner as not to disfigure the cancellation made by the rubber stamp.

Sec. 69. Collectors will keep an account of all steel dies and other instruments intrusted to them, and a record of the names of all persons to whom they are furnished (furnishing them only to the legally authorized tobacco manufacturers and others, as instructed by the Department) and the date of their delivery: whenever any die shall have become broken or damaged in the hands of any manufacturer or other person, so as to be unfit for use, or whenever any person receiving such Government die shall have no longer any legitimate use for the same, it must be returned to the Collector, and held by him subject to departmental orders, and the person accredited therefor.

Sec. 70. The law makes it imperative upon every manufacturer of tobacco, putting up his tobacco in packages as heretofore described, and upon every person ex-warehousing tobacco from an Excise bonding warehouse, to use this die, and no stamps on such packages will be regarded as properly cancelled, and the packages and their contents will be liable to seizure, whenever found, unless the stamps are cancelled with a Government die, and in the manner hereinafter named, viz., the stamp must be so cancelled that a portion of every stamp shall be *driven into and lodged within the wood* of the package, or when on metal, by severing the stamp, and continuing the line of separation on to the metal of which the package is made.

Sec. 71. Roller stamps, for the cancellation of tobacco and cigar stamps, will also be supplied by the department, upon proper requisition being made therefor.

These roller cancellation stamps are as follows, viz.:—

(*a.*) For tobacco manufacturers' use in cancelling strip stamps used on tobacco put up in packages of paper, linen, or other soft yielding material, and for the first cancellation on all other stamps used on packages of tobacco:

(*b.*) For cigar manufacturers' use in cancelling strip stamps used on cigar boxes;

(*c.*) For the use of persons having licensed bonding warehouses, in cancelling (in addition to steel die or instrument) the stamps on packages of tobacco ex-warehoused for duty from a warehouse other than the manufacturer's where tobacco was made;

(*d.*) For Collector's use in cancelling stamps on packages of tobacco and cigars removed in bond under the provisions of section 25 of Warehousing Regulations and to cancel stamps on tobacco ex-warehoused from an Inland Revenue bonding warehouse established under authority of section 65 of the Inland Revenue Act;

(*e.*) For Customs officers' use in cancelling strip stamps used on imported tobacco put up in packages of paper, linen or other soft or yielding material, and for the first cancellation on all other stamps used on packages of tobacco.

(*f.*) For Customs officers' use in cancelling strip stamps used on cigar boxes.

Sec. 72. In asking for these roller stamps the following formula should be used, for the sake of uniformity. Quote factory number or warehouse letter, division number, and name of applicant, thus:—

1.30. Tobacco Factory roller for J. E. Tuckett.
2.28. Cigar Factory roller for S. Myers.
A. 17. Tobacco Warehouse roller for D. C. Brosseau.
A. 17. Cigar do do do
30 Tobacco } General Excise Warehouse Roller for
30 Cigars } the division of (*Hamilton*).

If required for Customs use, the port should be named thus:—

Customs, Tobacco, Weymouth, N.S.
Customs, Cigars, Woodstock, N.B.

Sec. 73. The names of new applicants must be registered at Department before the roller is supplied. When through ordinary wear and tear new rubber bands or repairs are required, a new stamp complete will be supplied on requisition, on receipt of which the old stamp will be returned to the Department.

Sec. 74. Collectors must keep an account of all cancellation stamps intrusted to them, as in the case of the steel cancellation dies.

Sec. 75. The law requires that all stamps upon packages of tobacco and cigars shall be cancelled by a Government stamp or die and it is now prescribed that when the stamps are upon other than wooden boxes and caddies of cavendish that the cancellation shall be by means of the roller stamp recognized by the Department; the stamps on wooden packages of tobacco being cancelled in addition to the above, by the steel die, and those on metal packages by the steel cutting roller supplied for that purpose.

I.—Mode of cancelling tobacco and cigar stamps.

Sec. 76. All stamps are to be cancelled immediately after being placed upon the packages, but the cancellation by the roller stamp, except in the case of cigars, may be made by the manufacturer or other party, immediately before being placed thereon.

Sec. 77. Stamps for tobacco must be cancelled by imprinting upon each stamp, in the oblong blank space left for that purpose, the registered number of the manufactory, or letter of dealer's bonding warehouse, and the number of the Inland Revenue Division. Rubber roller hand stamps will be furnished by the Department for this purpose, but if any manufacturer desires to use a stamp applied by any other means, permission may be granted for this form of cancellation only.

Sec. 78. Stamps used on five or ten pound packages of fine-cut chewing, on five, ten and twenty pound packages of snuff, and on quarter caddies, half caddies, caddies and boxes of tobacco, when made of wood, must, in addition to the above, also be cancelled by means of the steel die supplied for that purpose, which die drives a portion of the stamp into the wood of which the package is composed—the die being applied to the stamp twice, once in the space reserved for this cancellation, and again on the vignette on the stamp: the further cancellation of stamps on metal packages will be by means of the steel cutting roller supplied for that purpose, which severs the stamp, and continues the line of separation beyond the stamp and on to the metal of which the package is made; the application being made to the stamp on each side of the package.

Sec. 79. Stamps on packages of imported tobacco shall be cancelled as follows, viz.: stamps on packages composed of paper, cotton, tin-foil or other soft or yielding material, by means of a roller stamp, which shall imprint upon the stamp the name of the port where entered for duty or this information may be written in on the stamps: stamps on wooden packages of plug, fine-cut chewing, and packages of snuff shall be cancelled as above, but in addition thereto shall be further cancelled by means of the steel die; stamps on packages made of metal, when imported, shall, in addition to the above, be cancelled by means of the steel cutting roller supplied for that purpose which severs the stamp and continues the line of separation beyond the stamp and on the metal of which the package is made.

Sec. 80. Stamps on packages of tobacco ex-warehoused for consumption by a merchant or person other than a manufacturer and at the manufactory where made or put up, shall be cancelled by the person ex-warehousing the same by means of the roller stamps, which will imprint upon the stamp, in the oblong space reserved for that purpose, the letter of the warehouse, and the number of the Inland Revenue Division. Stamps, when on wooden packages, shall be further cancelled by means of the steel die supplied for that purpose, which die drives a portion of the stamp into the wood of which the packages composed; and when on metal packages, by means of the steel cutting roller provided for that purpose, which instrument severs the stamp and continues the lines of separation beyond the stamp and on the metal of which the package is made.

Sec. 81. Stamps on packages of tobacco ex-warehoused from the manufactory where made or put up, shall be cancelled as described by sections seventy-nine (79) and eighty (80) of these regulations.

Sec. 82. The stamps on cigar boxes will be cancelled by means of a roller stamp supplied for that purpose, which stamp carries the impression beyond the duty-paid Inland Revenue stamps, and on to the wood of which the package is made: in all cases the impressions to be made across the stamp continuously, the lettering being distinctly imprinted over space reserved for cancellation: this cancellation stamp, so used, must imprint upon the stamp the registered number of the manufactory, and the number of the Inland Revenue Division as required on all other stamps.

Sec. 83. The cancellation of Customs stamps upon packages of cigars will be by means of the roller stamp, as per the next preceding section, but the information to be imprinted upon the space reserved for cancellation will be the name of the port where ex-warehoused for duty.

Sec. 84. In cancelling stamps by printing, as herein prescribed, where blank spaces are on the stamps for that purpose, they must always be ed.

Sec. 85. The cancellation of tobacco or cigar stamps will be done by the following persons, viz.:—

(*a.*) At a tobacco or cigar manufactory, by the manufacturer or his agent;

(*b.*) At a warehouse (other than the manufacturer's where tobacco or cigars were made), by the person who ex-warehoused the tobacco or cigars; and—

(*c.*) Stamps on imported tobacco or cigars, by the Customs officers at the port where the tobacco or cigars were ex-warehoused for duty.

Sec. 86. The importance to be attached to the cancellation of all stamps has been shown by the severe fines and penalties imposed upon any person who shall remove from any manufactory or place where tobacco or cigars are made, any such goods without stamps affixed and properly cancelled, and also the fines and penalties imposed upon any person who shall sell, or offer for sale, or have in his possession, any tobacco or cigars, the stamps upon which are *not properly cancelled*: the interest of the Government and the safety and protection of all who deal in tobacco or cigars require that manufacturers and others shall properly affix and cancel all stamps.

J.—Destruction of the stamps on packages of tobacco and cigars when emptied.

Sec. 87. Section 263 of the Inland Revenue Act makes it the duty of every person who empties any stamped box, bag, vessel, wrapper or envelope of any kind, containing tobacco or cigars, to destroy the stamp thereon; and any person who neglects or refuses so to do, is liable to a penalty for each such offence not exceeding one hundred dollars.

Sec. 88. This provision of the law applies not only to retail dealers who empty legal packages by retailing their contents, but also to every person who purchases tobacco or cigars for his own use, and empties such packages, who must destroy the stamp thereon.

Sec. 89. Collectors and other officers are informed that while section 263 of the Act requires that the destruction of a stamp shall consist of the removal of every part thereof from the package the Department for the present will not prosecute where the stamp is destroyed by disfiguring or destroying it in such a manner as to render it incapable of being used again. This may be done by the removal of portions of the stamp from different places on each of the sides of the package, the proportion so removed to be equal in the aggregate to at least one-fourth of the stamp.

K.—Caution Notices—Tobacco and Cigars.

Sec. 90. Upon every package of tobacco, weighing over one pound, whether put up in wooden packages or otherwise, the law requires that there shall be printed, or securely fixed by pasting thereon, a label, on which shall be printed the number of the manufactory, and the number of the division in which it is situated, together with the following notice:—

"Notice.—The manufacturer of this tobacco has complied with all the requirements of the law. The following caution is to be strictly observed under the penalties provided by the Statutes of Canada:—

1st. This package is to be opened in such a manner as to break the stamp.

2nd. This package is not to be used for any other tobacco when the present contents are removed.

3rd. The contents are not to be removed except for immediate sale; and

4th. When the package is empty the stamp must be destroyed.

Sec. 91. When used on boxes, caddies, kegs, pails, drums or other packages of tobacco, weighing more than one pound, the label on which the above notice is to be printed is required to be not less than four and not more than six inches long, and not less than two and one half inches in width, and to contain, in addition to the caution notice, the following facts, printed in plain, open and legible letters, viz.: (1) the number of the manufactory, and (2) the number of the Inland Revenue Division. These labels will be in the following form, viz.:

"Factory, No.....Inland Revenue Division, No....."

Notice.—The manufacturer of this tobacco has complied with all the requirements of the law. The following caution is to be strictly observed under the penalties provided by the Statutes of Canada:—

1st. This package is to be opened in such a manner as to break the stamp;

2nd. This package is not to be used for any other tobacco when the present contents are removed;

3rd. The contents are not to be removed except for immediate sale; and

4th. When the package is empty the stamp must be destroyed.

Sec. 92. The law provides that "every manufacturer of cigars shall securely affix, by pasting on each box containing cigars manufactured by or for him, a label, on which shall be printed, besides the number of the manufactory, and the number of the division in which it is situated," a caution notice in the following form:—

"Factory, No.....Inland Revenue Division, No....."

Notice.—The manufacturer of the cigars herein contained has complied with all the requirements of the law. The following caution is to be strictly observed under the penalties provided by the Statutes of Canada:—

1st. This package is to be opened in such a manner as to break the stamp;

2nd. The package is not to be used again when the present contents are removed:

3rd. The contents are not to be removed except for immediate sale; and

4th. When the package is empty the stamp and package must be both destroyed.

Sec. 93. This label for all cigar boxes is to be not less than three inches in length and two inches in width; or, if made in circular or oval form, it shall cover not less than six square inches of paper and be of a size sufficient to contain, in addition to the caution notice prescribed in plain, open and legible letters, these facts: (1) the number of the manufactory, and (2) the number of the Inland Revenue Division.

Sec. 94. The following form of caution notice is prescribed and must be used on outer packages containing cigarettes when put up in packages of ten (10) or twenty (20) cigarettes each, and cut tobacco and snuff in packages of one pound and under, the caution notice on each of the small packages constituting the contents, not being necessary.

"Factory, No.....Inland Revenue Division, No....."

Notice.—The manufacturer of the cigarettes (cut tobacco or snuff) herein contained has complied with all the requirements of the law. Every person is cautioned not to use this package for packing cigarettes (cut tobacco or snuff) again, nor to use the stamp, nor the stamped wrappers upon the packages of cigarettes (cut tobacco or snuff) constituting the contents of this package, under the penalties provided by law in such cases.

The words "Factory No.," "Inland Revenue Division No.," and "manufacturer," should be omitted when the notice is attached to packages of imported cigarettes (cut tobacco or snuff) and "the name of the port where," and "the number of the entry under which the cigarettes (cut tobacco or snuff) are ex-warehoused for duty," and the word "importer" respectively substituted therefor.

Sec. 95. The following form of "Special Caution Notice" is to be used on packages of tobacco or cigars that have been seized and confiscated and sold under authority of this department, and will be supplied upon requisition being made therefor:—

C. S.

EXCISE.

TOBACCO OR CIGARS.

Seizure No.....

Special Caution Notice.

Inland Revenue Division of.....

Notice.—The following caution is to be strictly observed under the penalties provided by the Statutes of Canada:—

1st. This package is to be opened in such a manner as to break the stamp;

2nd. This package is not to be used for any other tobacco when the present contents are removed;

3rd. The contents are not to be removed except for immediate sale; and

4th. When the package is empty the stamp must be destroyed and in the case of cigars the package also.

The information required to be placed upon the packages by a manufacturer may, in this case, be stencilled, and in addition to this regular information, the seizure No. will be placed thereon.

Sec. 96. Cigars when put up in packages of three (3) and six (6) cigars each, will not require a caution notice attached to such small packages, but the outer package in which they are placed must bear the following form of caution notice: "Notice.—The manufacturer of the cigars herein contained has complied with all the requirements of the law. Every person is cautioned not to use again the stamped packages of cigars constituting the contents of this package, under the penalties provided by law in such cases."

If imported, the word "Importer" is to be substituted for "Manufacturer."

Sec. 97. Importers of tobacco and cigars are also required by law to place a caution notice on each package of tobacco weighing more than one pound and on each package of cigars when in packages containing ten cigars and upwards imported by or for them.

Sec. 98. The affixing of this label or caution notice is made the duty of the manufacturer or importer; it is to be a printed label, or the necessary information may be imprinted on or impressed into the material of which the package is made. It is to be supplied and affixed by the manufacturer or importer before the tobacco or cigars are to be removed from the places where they were made or at which imported. No person has a right or will be allowed in any case to tamper with this caution notice, to remove it from the box, or package, to substitute another label for it, or to cover it up with a label either of his own or of any other person.

Sec. 99. This label or notice is to be distinctly and clearly the label required by law. The labels must be affixed to the package in a conspicuous place, where they will not be broken in opening the packages and where they will be exposed as little as possible to be worn or rubbed off, and in a manner so as not to be covered up or concealed by any other labels or marks, and so as not to conceal by them any other marks or brands required by law to be placed upon them.

Sec. 100. The law imposes a penalty of $50 on every manufacturer or importer of tobacco or cigars who neglects to affix such label to any package containing tobacco or cigars, made or imported by or for him, and on every person who removes any such label, so affixed, from any such package, such fine being for each package in respect to which such offence is committed.

If the manufacturer desires to do so, he may increase the size of the paper on which the caution notice is printed, so as to allow the printing, *separate and distinct from the label*, of his name and trade-mark.

Article 3.—Manufactured tobacco and cigars.

Special provisions for warehousing tobacco and cigars and for stamping same when ex-warehoused for removal in bond, for consumption, or for branding same when for exportation.

In addition to the General Warehousing Regulations established by Order in Council, the following apply specifically to tobacco and cigars :—

Sec. 101. On all packages of tobacco and cigars, when placed in warehouse by the manufacturer thereof, all marks, numbers, weights and other information required by law, must be written or branded thereon before the warehouse entry can be accepted, which entry must be compared with the packages of tobacco or cigars, and certified correct by the officer in charge of the manufactory, before it will be accepted by the Collector of Inland Revenue: Collectors will therefore permit the principal manufacturers to use out-numbers in order that these instructions may be fully complied with.

Sec. 102. As all marks, numbers, weights, &c., are required to be placed upon the packages before the warehouse entry can be accepted by the officer for comparison, and as no stamps are required prior to being placed in bond, the tobacco must be placed in warehouse immediately upon the receipt by the officer of the proper warrant: in large manufactories, where an exact compliance with this regulation is impossible, from the quantities involved, the Collector may, at his discretion, extend the time for placing in the warehouse,—such extension not, at any time, to exceed three days.

Sec. 103. The following are the only sized packages of tobacco that may be removed in bond, viz. :—

(*a.*) Fine-cut chewing tobacco, in packages of five and ten pounds each;

(*b.*) Snuff, in packages of five, ten and twenty pounds each;

(*c.*) Cavendish, plug or twist, in packages of from one to four pounds inclusive, five to twenty-five pounds inclusive, or from thirty-five to forty-five pounds inclusive, or from sixty to eighty pounds inclusive, or from one hundred to one hundred and ten pounds inclusive; and—

(*d.*) Cigars in packages of twenty-five and upwards.

Sec. 104. Tobacco in smaller packages than those above mentioned shall not be removed in bond, nor shall the product of Canadian leaf tobacco be so removed when in packages containing less than ten pounds.

Sec. 105. Packages of tobacco or cigars when ex-warehoused at the manufactory for removal in bond to another Division, or transferred to another person within the same Division, shall be stamped by the manufacturer with the bonded removal permit stamp provided by the Department for that purpose, denoting the class of such goods. Packages of tobacco or cigars which have been placed in warehouse prior to the coming into effect of the provisions of The Consolidated Inland Revenue Act, 1883, and which may or may not be covered by the old red stamp, when ex-warehoused from any warehouse for removal or transfer must be covered by a bonded removal permit stamp. If previously stamped the old form of stamps must be scraped off the package and destroyed by the officer ex-warehousing the goods; each package removed or transferred in bond must bear one of these bonded removal permit stamps, which must be cancelled by the manufacturer or other person ex-warehousing the tobacco by means of the roller stamp provided for that purpose. Subsequent removals of same tobacco or cigars do not require additional stamping by bonded removal permit stamp.

Sec. 106. Tobacco and cigars when entered ex-warehouse, whether for removal for transfer or for consumption, will require to be stamped with new form of stamps when so ex-warehoused, even if previously stamped under the requirements of regulations in force prior to July 1, 1883.

Sec. 107. When ex-warehoused for consumption the regular duty-paid stamp is to be attached to the package and cancelled in the manner herein provided: when tobacco or cigars are ex-warehoused for consumption from a warehouse other than the manufacturer's where made, —the packages then bearing a bonded removal permit stamp,—the duty-paid stamp is to be placed over the bonded removal permit stamp, so as to cover it as much as possible and the cancellation is to be made through both. The stamps for packages entered for consumption either by the manufacturer or merchant will be supplied upon receipt of proper entry papers ex-warehouse for consumption, the duty on the goods to be ex-warehoused, the warrant properly filled up, and a requisition on the form prescribed and issued by the Department, which requisition must show, for tobacco, the number of stamps at each weight required to cover the tobacco ex-warehoused, and in the case of cigars the number of stamps of each denomination necessary to cover the cigars ex-warehoused, the aggregate number of packages and pounds of tobacco, or packages and number of cigars, agreeing with the entry ex-warehouse for consumption.

Sec. 108. The stamps are in all cases to be attached and cancelled by the manufacturer or person ex-warehousing the goods, and in accordance with regulations herein established.

Sec. 109. Packages of tobacco or cigars, when ex-warehoused for exportation to a foreign country, shall be branded under the personal supervision of the officer in charge, with a brand of the following nature :—

EXPN

Tobacco—9-10-8-83.

For tobacco read *cigars* when used on cigar boxes,—the first numeral or set of numerals representing the factory number, the second the number of the Inland Revenue Division, and the third and fourth numbers the month and year respectively: when ex-warehoused from a warehouse other than that at the manufactory where tobacco and cigars were made, the factory number shall be omitted and letter or number of warehouse substituted therefor.

Sec. 110. This brand is to be placed upon all wooden packages by means of a hot iron and upon metal packages by means of steel dies, or by such other means as shall leave the necessary information legibly and indelibly impressed into the metal of which the package is made. On either wooden or metal packages the above brand is to be placed upon the side of the package. These dies must be furnished by the exporter, and the letters and figures thereon are not to be less than one-fourth of an inch in height.

Sec. 111. When the holder of tobacco or cigars in bond, which have already been stamped under the provisions of previous Acts, desires to export such tobacco or cigars, the stamps on the packages are to be removed by the officer in charge of the manufactory or warehouse, in the presence of another officer specially detailed therefor by the Collector of Inland Revenue: a record is to be kept by the aforesaid officers, giving the following information, which record is to be signed by them, and filed in the office of the Collector of Inland Revenue, viz.:—

(*a.*) The number of each stamp removed and destroyed, and the weight of the tobacco or cigars covered thereby; and,—

(*b.*) The license number of the manufactory where the tobacco or cigars were put up and the name of the Division where stamp was issued:

The export papers cannot be finally accepted as complete until this has been done.

Sec. 112. When packages of tobacco weighing one pound and less, intended for exportation, are packed in large cases, it will only be required that the brand, as given in section one hundred and nine (109) of these regulations, be placed upon the outer cases,—which cases must be consecutively numbered and have marked on them the total number of packages, at each weight, and the total weight of tobacco contained therein.

Sec. 113. Tobacco and cigars, when exported, cannot be packed in the same case.

Sec. 114. All goods entered for exportation must be examined by the officer ex-warehousing the same, and, in order to do so, packages must be opened to such extent as the Collector of Inland Revenue may determine.

Sec. 115. Scraps and cuttings, or stems, when put up for exportation must be packed under the personal supervision of an officer of Inland Revenue, and unless the whole case is packed at one time, the packing thereof shall be done in the raw leaf warehouse.

Sec. 116. Each case or package when filled, shall be marked by the officer, with his name, and date when packed, and in such a manner as to be distinctly and clearly seen, and so that it can be identified by him and must be branded with the letters EXPN, as in the case of other tobacco for exportation.

ARTICLE 4.

For packing and stamping imported tobacco and cigars, cancelling the stamps thereon, and for removal of same in bond, from one Customs port to another, before being packed in packages similar to those used for like articles manufactured in Canada.

Sec. 117. The Inland Revenue Act states that "all manufactured tobacco or cigars imported from foreign countries, shall have the stamps affixed and cancelled while they are in the custody of the proper Customhouse officers," and that "such tobacco and cigars shall not pass out of the custody of the said officers until the stamps have been so affixed and cancelled."

Sec. 118. The cancellation of the stamps on tobacco, when put up in packages of paper, linen, or other soft or yielding material, shall be by means of the roller stamp provided for that purpose.

Sec. 119. The cancellation of the stamps on wooden packages containing imported tobacco, shall be by sinking into the wood of which the package is composed, a portion of the stamp by means of a steel die, which die shall be applied twice to every stamp, once in the place on the stamp reserved for cancellation and again on the vignette; and in addition to the cancellation by the steel die, they shall be further cancelled by means of the roller stamp supplied for that purpose,—the cancellation by roller stamp to be made in the space reserved on the stamps for that purpose, and it may be done immediately before the stamps are placed upon the packages if found more convenient; the cancellation of the stamps on metal packages containing tobacco, will be made by means of the steel cutting roller supplied for that purpose, which severs the stamp and continues the line of separation beyond the stamp and on to the metal of which the package is made: this instrument is to be applied to the stamp on each side of the package; the stamp is, in addition to this cancellation, to be further cancelled by means of the roller stamps used to cancel all stamps on packages containing tobacco.

Sec. 120. The stamps upon packages containing imported cigars, will be cancelled by means of a roller stamp of the design furnished by the Department; this cancelling stamp shall be so used that the imprint shall project beyond the stamp on to the wood of which the box is made; in all cases the impression is to be made across the cigar stamp.

Sec. 121. These cancellation dies and stamps will be furnished to the different collectors of Customs upon requisition being made therefor; and no package containing tobacco or cigars, as defined by the Inland Revenue Act, shall be handed over to the importer or owner until the stamps on the same are cancelled, as herein directed.

Sec. 122. The Inland Revenue Act further states that "imported tobacco and cigars shall be put up in packages as prescribed by law for like articles manufactured in Canada, before the stamps are affixed:" Every collector of Customs will, therefore, see that these regulations are fully complied with.

Sec. 123. The sizes of the different packages into which tobacco and cigars must be packed, as permitted by law, are as follows, viz.:

(*a.*) All cavendish, plug and twist in rectangular wooden boxes containing from one to four pounds inclusive, five to twenty-five pounds inclusive, thirty-five to forty-five pounds inclusive, or from sixty to eighty pounds inclusive, or from one hundred to one hundred and ten pounds inclusive.

(*b.*) All fine-cut chewing tobacco, and all other kinds of tobacco not otherwise provided for, in packages containing one-twentieth, one-sixteenth, one-twelfth, one-tenth, one-ninth, one-eighth, one-sixth, one-fifth, one-fourth, one-half, or one pound, except that fine-cut chewing tobacco, when of a quality and description approved of by the Commissioner of Inland Revenue, may, at the option of the importer, be put up in wooden packages containing five or ten pounds each;

(*c.*) All cut and granulated tobacco, other than fine-cut chewing, all shorts, the refuse of fine-cut chewing tobacco, which has passed through a riddle of thirty-six meshes to the square inch, in packages containing one-twentieth, one-sixteenth, one-twelfth, one-tenth, one-ninth, one-eighth, one-sixth, one-fifth, one-fourth, one-half, or one pound each;

(*d.*) All snuff in packages containing one-sixteenth, one-eighth, one-fourth, one-half, one pound, and in wooden packages containing five or ten pounds each,—except that snuff when containing more than 40 per cent of moisture, may, in addition to the above, be put up in packages containing twenty pounds each, actual weight;

(*e.*) All cigarettes in packages containing ten, twenty, fifty or one hundred cigarettes each;

(*f.*) All cigars in boxes containing three, six, ten, twenty-five, fifty, one hundred and two hundred cigars each, except that Manilla cigars or cheroots, but not imitations thereof, may, when imported from abroad, be contained in addition to the above-named quantities, in original packages containing five hundred each.

Sec. 124. The stamps are to be put on or affixed to the packages in the following manner:—

(*a.*) All packages of tobacco, except fine-cut chewing and snuff containing five pounds and over, shall have affixed a registered coupon stamp of a denomination corresponding with the net weight of the tobacco contained therein; for example, packages containing from ten to twenty-five pounds and from sixty to eighty pounds, can be and must be covered by a single stamp, by using coupons attached to stamps when the weight of the package is not precisely ten, fifteen, twenty, sixty or seventy pounds (in which case the stamp alone is used without the coupons attached); when the weight of the tobacco contained in the package ranges between ten and twenty-five pounds, and between sixty and eighty pounds, the coupons are used in connection with the stamp bearing such weight, so that with one or more coupons attached thereto it will correspond with the weight required; half pounds will not be allowed on packages containing twenty-five pounds and upwards.

(*b.*) All other packages of tobacco are to be covered by stamps of the denomination provided by law, and one stamp only is to be used on each package;

(*c.*) Upon all descriptions of boxes and caddies of cavendish, plug, twist or other description of tobacco, the stamp shall be affixed over one corner or angle of the box or caddy, at equal distances from each end, attaching about equally to each side;

(*d.*) Upon all kegs, drums, pails or other packages containing five and ten pounds of fine-cut chewing, and five, ten and twenty pounds of snuff, as permitted by law, the stamp being a strip stamp, shall be placed across the cover, so as to extend down each side of the package and to effectually seal it;

(*e.*) Strip stamps, whether used for packages containing smoking tobacco, fine-cut chewing, snuff or cigarettes, must be so attached as to effectually seal the package and render it impossible to open the same or remove the contents without destroying or breaking the stamp;

(*f.*) Strip stamps, used for cigar boxes, must be so attached as to effectually seal the package;

(*g.*) The stamps are to be affixed to the packages by using an adhesive material that will cause them to stick to the wood, paper or other package, securely and permanently: after the stamps on wooden packages have become dry and the cancellation has been made, as herein described, they must be varnished thoroughly but not so as to obscure or obliterate the impressions upon the stamps;

(*h.*) Tobacco stamps will not adhere to tin-foil with ordinary gum or paste: the importer or owner of the goods must, therefore, either envelop the tin-foil in an outer wrapper of paper, or provide some kind of gum or paste by which the stamps may be so attached that they cannot be removed without destroying them.

Sec. 125. The Inland Revenue Act further provides that,—Every importer of tobacco shall, in addition to complying with all other requirements of this Act relating to imported tobacco, print on each package, or securely

affix by pasting on each package containing tobacco, imported by or for him, a label on which shall be printed the name of the port where, and the number of the entry under which, such tobacco is ex-warehoused for duty, and these words :—

Notice : The importer of this tobacco has complied with all the requirements of the law. The following caution is to be strictly observed under the penalties provided by the Statutes of Canada :—

1st. This package is to be opened in such a manner as to break the stamp.

2nd. This package is not to be used for any other tobacco when the present contents are removed.

3rd. The contents are not to be removed except for immediate sale ; and

4th. When the package is empty the stamp must be destroyed.

Sec. 126. Every importer of cigars is also required to affix to each package of cigars imported by or for him, a label showing, in addition to the name of the port where, and the number of the entry under which such cigars were ex-warehoused for duty, these words :—

Notice : The importer of the cigars herein contained has complied with all the requirements of the law. The following caution is to be strictly observed under the penalties provided by the Statutes of Canada :—

1st. This package is to be opened in such a manner as to break the stamp.

2nd. The package is not to be used again when the present contents are removed.

3rd. The contents are not to be removed except for immediate sale ; and

4th. When the package is empty the stamp and package must both be destroyed.

Sec. 127. This caution notice, when used on boxes, caddies, kegs, pails, drums or other large packages of tobacco, is required to be not less than four nor more than six inches long, and not less than two and one-half inches in width, and must be affixed to the package in a conspicuous place, where it will be exposed as little as possible to be worn, or rubbed off, or broken, in opening the package, and in a manner so as not to be covered up or concealed by any other labels or marks, and so as not to conceal by it any other marks or brands required by law to be placed upon the package.

Sec. 128. The caution notice label, when used on boxes of cigars, is to be not less than three inches in length and two in width ; or if made in circular or oval form, it shall cover not less than six square inches of paper, and is likewise to be affixed to the box or package, in a conspicuous place, and where it will not be covered up by the stamp, or otherwise obscured, or concealed, or broken, in opening the package.

Sec. 129. If the importer desires to do so, he may increase the size of the paper on which the caution notice is printed, so as to allow the printing, *separate and distinct from the label*, of his name and trade-mark.

Sec. 130. A separate and distinct label will not be required on packages of imported tobacco containing one pound and under, nor on packages containing ten or twenty cigarettes each, provided the importer shall cause to be printed on each outer package the caution notice as herein required, where it will not be covered up by the stamp or otherwise obscured or concealed : the name of the port and the number of the entry for duty may be written in on the label or imprinted with a rubber stamp. The packing and stamping must be done in accordance with the provisions of the Inland Revenue Act.

Sec. 131. The Inland Revenue Act also provides that "tobacco and cigars intented for removal in bond to another port or place within the Dominion of Canada may be removed to such other port, under regulations to be established by the Governor in Council," which regulations are as follows :—

(*a.*) That the tobacco or cigars must be consigned to the order of the Collector of Customs at the port to which the goods are bonded ;

(*b.*) A removal bond is to be taken from the owner or importer by the Collector of Customs for double the Customs duty accruing on the goods so removed ; and the bond shall be conditioned for the delivery of the goods into the possession of the Collector of Customs to whom consigned ;

(*c.*) This bond will be cancelled by the certificate of the Collector of Customs at the port to which the goods are consigned, certifying that they have been received by him and re-warehoused, and that a bond has been duly executed and that the goods shall be re-packed into packages similar to like articles when manufactured in Canada, and duly stamped or entered for exportation or destruction.

Article 5.

For Sale of Manufactured Tobacco and Cigars.—Size and Form of Packages, &c.

Sec. 132. The sale of tobacco can only be made by manufacturers in whole packages,—each package bearing a stamp properly affixed and cancelled (or when entered for exportation, the packages containing the same, properly branded), and the package itself being according to the description and limitation prescribed in the Inland Revenue Act, and no other.

Sec. 133. Dealers in manufactured tobacco must also sell whole packages, each package bearing the properly cancelled stamp, except that retail dealers are permitted to sell plug tobacco at retail from half caddies, caddies, half boxes or boxes ; fine-cut chewing tobacco from five and ten pound packages ; and snuff from five, ten and twenty pound packages, legally stamped, marked and labelled and put up as prescribed by law : with the exception of snuff, which at times may require to be dampened, the dealers must not withdraw the goods from the stamped package until actually offered for sale.

Sec. 134. The stamp upon the package from which goods are being retailed is *primâ facie* evidence that the duty on such goods has been paid ; the absence of such stamp is *primâ facie* evidence of the non-payment of the duty : dealers in manufactured tobacco will not be allowed to cut a package in two and to sell the divided portions of the package, nor to retail tobacco therefrom.

Sec. 135. The law provides that all cigars shall be packed in boxes not before used for that purpose, containing definite and limited numbers, and positively prohibits the sale in any other form, except by retail dealers : retail dealers are allowed to retail cigars from boxes packed, stamped and branded in the manner prescribed by law ; but this provision does not authorize or warrant the practice of retailing cigars from show cases : sales can legally be made only from the stamped package in which originally put up and excised.

Sec. 136. Manufacturers of cigars shall only sell original and unbroken packages from their manufactory premises.

Sec. 137. Collectors of Inland Revenue are hereby instructed to divide their Divisions into surveys, under the charge of such officers as they, or the inspecting officer of Inland Revenue may designate. It shall be the duty of these surveying officers to visit all places where manufactured tobacco or cigars are stored or kept, or where it is exposed for sale, and ascertain if the law is being strictly complied with in respect of the stamping, branding, cancelling and sale of tobacco and cigars, and to take such action as the law directs in case of discovery of any infraction of the law.

Article 6.

For Using Wood, Metal, Paper or Other Material for Packing Tobacco or Cigars.

Sec. 138. Any manufacturer of tobacco or cigars, wishing to avail himself of the privilege which the law authorizes, of substituting for the wooden box now used for packing cigars, or for packing fine-cut chewing, Cavendish, plug, snuff or twist tobacco, packages made of other material, will be required to submit to the Commissioner of Inland Revenue samples of such packages, for his approval, and if the same are of such a character as to admit of the proper marks, brands, labels, &c., being applied to them, and the stamps to be securely and permanently attached, and properly cancelled, permission may be issued granting their use.

Sec. 139. All sample packages forwarded to the Commissioner for his approval must be accompanied by a statement, setting forth the materials of which the packages are made, the description of goods intended to be packed therein, and the capacity of the package, in pounds, if intended for tobacco, and if intended for cigars, the number of cigars to be packed in each, and showing also, by samples, the mode in which the marks, brands, labels and stamps may be put upon the packages, and the law in those respects fully complied with.

Article 7.

A.—Stamping tobacco or cigars, abandoned, condemned or forfeited, when sold for the benefit of the Dominion of Canada.

Sec. 140. All tobacco and cigars, whether imported or of domestic manufacture, sold by any officer of the Government for the benefit of the Dominion of Canada, must, before being delivered, have affixed to the packages containing the same, the proper Inland Revenue or Customs stamps, denoting the duty thereon ; and such

stamps shall only be used for this purpose upon the whole circumstances of the intended sale being reported to the proper department, and the necessary permission being obtained to use the same.

Sec. 141. When abandoned, condemned, or forfeited tobacco or cigars are offered for sale, if such goods will not bring a price equal to the duty thereon, that the law forbids the sale to be made for consumption in the Dominion of Canada; such goods may, however, be sold for immediate export to a foreign country, and be covered by the ordinary exportation brand.

B.—Destruction of abandoned, condemned or forfeited tobacco or cigars.

Sec. 142. Abandoned, condemned or forfeited tobacco or cigars, may be destroyed by order of the Commissioner, whenever they will not sell for an amount equal to the duty due and payable thereon.

Sec. 143. Collectors of Inland Revenue or Customs having such goods in their custody which have been offered for sale, and upon which they have been unable to realize an amount equal to the duty thereon, and who desire permission to destroy the same, will make application therefor to the Commissioner.

Sec. 144. In making such application they will give a complete history of the goods, also the kind, quantity, their present condition, and what efforts have been made to sell them, and if it shall appear to the Commissioner to be to the interest of the Government that the goods shall be destroyed, he will give an order for such destruction.

ARTICLE 8.

A.—For the reworking of Tobacco.

Sec. 145. Before any tobacco can be reworked, twenty-four hours' notice must be given by the manufacturer to, and special permission must be obtained therefor from, the Collector of Inland Revenue of the division where the manufactory is situated.

Sec. 146. The manufacturer, in making application for permission to rework tobacco, must give full particulars as to the quantity and description of the tobacco to be reworked, stating whether the tobacco is of his own manufacture or the product of another manufactory, and if the latter, the name of the manufacturer: he will also state the reason for desiring permission to rework the tobacco in question.

Sec. 147. The tobacco, when taken for reworking, shall be so credited on stock book No. 2 (and an entry ex-warehouse passed on the form provided for that purpose, when taken from the bonding warehouse), and the quantity carried to Dr. of daily record, and treated as raw material, the product of which will be accounted for as manufactured tobacco, in the usual manner, and stamped and treated as tobacco the original product of the leaf.

Sec. 148. When the tobacco to be reworked has paid duty, the stamps upon the packages must be destroyed in the presence of two officers of Inland Revenue, one of whom shall be the officer in charge of the manufactory, and the other an officer detailed therefor by the collector of the division, and these officers shall keep a record of, and shall furnish the collector with a certificate, showing the numbers on each stamp, the weight of tobacco contained in each package covered thereby, and the registered number of the manufactory (or, if manufactured prior to the 1st day of July, 1883, the name or license number of the manufacturer), where manufactured or put up.

Sec. 149. When the bonded tobacco to be reworked has been stamped under the provisions of previous Acts, the stamps on the packages are to be removed and destroyed under the same regulations as are herein provided when the tobacco to be reworked has paid duty.

Sec. 150. The Collector of Inland Revenue will compare the numbers of these stamps and the weights thereon, with the record of stamps issued, kept in his office; and if the stamps have been issued in another division, shall forward to the Collector of that division a detailed statement of the number and weight on each stamp so destroyed, as well as the number of the manufactory where, (or the name of the manufacturer by whom) the tobacco was originally put up; the Collector so receiving the same shall compare this statement with his register of stamps issued to such manufacturer or manufacturers as are mentioned therein, and shall at once return said statement to the Collector from whom received, with a certificate as to its correctness or otherwise.

Sec. 151. So soon as the stamps have been taken account of and destroyed, the packages, if they have been previously stamped or if the out-put of a factory other than that where the tobacco is to be reworked, are to be also destroyed, and the tobacco contained therein broken up and steamed or treated in such a way that it cannot be removed from factory for sale without being reworked.

Sec. 152. No rebate will be allowed or paid when the stamps on the packages containing tobacco have not been taken an account of, and the said stamps destroyed in the presence of the officers herein mentioned, nor when the record of stamps destroyed does not accord with the stamp book of the Collector by whom issued.

Sec. 153. When the tobacco to be reworked has paid duty, a rebate of the duty paid, less five cents per pound to cover cost of supervision, stamps, &c., on the quantity of tobacco entered for remanufacture, will be allowed to the manufacturer and will be paid by the Department upon the receipt of a sworn statement from the manufacturer that the tobacco so taken has been reworked and entered to the debit of stock book No. 2 as produced, accompanied by the certificate of the officer in charge of the manufactory that the stamps, and where necessary, the packages were destroyed in his presence, and that the tobacco was broken up and steamed or so treated that it could not be removed from the manufactory for sale without being reworked, which certificate must be countersigned by the Collector of the division.

Sec. 154. No fee for supervision will be charged for bonded tobacco reworked or where plug tobacco is merely taken from the caddy to rub or wipe the plugs. In the latter case, however, the operation must be carried on under the supervision of the officer in charge and to the satisfaction of the Collector

Sec. 155. (*a.*) The reworking of the product of Canadian raw leaf tobacco is permitted, but no rebate of duty shall be allowed thereon.

(*b.*) Imported tobacco shall only be reworked, duty paid.

B.—For the Reworking of Cigars.

Sec. 156. Before any cigars can be reworked twenty-four hours' notice must be given by the manufacturer to, and special permission must be obtained therefor from, the Collector of Inland Revenue of the division where the manufactory is situated.

Sec. 157. The manufacturer, in making application for permission to rework must give full particulars as to the quantity of cigars to be reworked, stating that the cigars are of his own manufacture. He will also state the reason for desiring permission to rework the cigars in question.

Sec. 158. The cigars when taken for reworking shall be so credited on stock book No. 2 (and an entry ex-warehouse passed on the form provided for that purpose when taken from the bonding warehouse), the cigars weighed and the quantity carried to Dr. of daily record, and treated as raw material, the product of which will be accounted for as manufactured cigars, in the usual manner, and stamped and treated as cigars the original product of the leaf.

Sec. 159. When the cigars to be reworked have paid duty, the stamps upon the packages must be destroyed in the presence of two officers of Inland Revenue, one of whom shall be the officer in charge of the manufactory, and the other an officer detailed therefor by the Collector of the division, and these officers shall keep a record of, and shall furnish the Collector with a certificate showing the numbers on each stamp, the number of cigars contained in each package covered thereby, and the registered number of the manufactory (or, if manufactured prior to the 1st day of July, 1883, the name or license number of the manufacturer), where manufactured or put up.

Sec. 160. When the bonded cigars to be reworked have been stamped under the provisions of previous Acts, the stamps on the packages are to be removed and destroyed under the same regulations as are herein provided when the cigars to be reworked have paid duty.

Sec. 161. The Collector of Inland Revenue will compare the numbers of these stamps and the denominations thereof with the record of stamps issued, kept in his office.

Sec. 162. So soon as the stamps have been taken account of and destroyed, the packages are to be also destroyed, and the wrappers removed from the cigars contained therein or the cigars treated in such a way that they cannot be removed from factory for sale without being reworked.

Sec. 163. No rebate will be allowed or paid when the stamps on the packages containing cigars have not been taken an account of and the said stamps destroyed in the presence of the officers herein mentioned, nor when the record of stamps destroyed does not accord with the stamp book of the collector by whom issued.

Sec. 164. When the cigars to be reworked have paid duty, a rebate of the duty paid, less seventy-five cents per thousand to cover cost of supervision, stamps, &c., on the quantity of cigars entered for manufacture, will be allowed the manufacturer, and will be paid by the department, upon receipt of a sworn statement from the manufacturer, that the cigars so taken have been reworked and entered to the debit of stock book No. 2 as produced, accompanied by the certificate of the officer in charge of the manufactory, that the stamps and the packages were destroyed in his presence, and that the cigars were so treated that they could not be removed from the manufactory for sale without being reworked, which certificate must be countersigned by the Collector of the division.

Sec. 165. No fee for supervision will be charged when the bonded cigars reworked are the product of the manufactory where the operation is to be carried on.

Sec. 166. The reworking of the product of one manufacturer by another will not be permitted unless under special permission obtained from the department in each case.

Sec. 167. The blank forms used when tobacco is taken for remanufacture may also be used for cigars, the necessary alterations being made thereon.

Article 9.

A.—Marking or Branding Cigar Boxes.

Sec. 168 (*a.*) The law provides that there shall be burned, stamped, indented or impressed into every box containing cigars, in a legible and durable manner, the registered number of the factory, the number of the Inland Revenue division in which the factory is situated and the number of cigars contained in each box; the number of cigars contained in each box may, however, if desired, be stencilled on the surface of the wood or other material of which the package is made; but the registered number of the factory, and the number of the Inland Revenue division, must be burned, stamped, indented or impressed into every box, as required by law;

(*b.*) Empty cigar boxes which may have become broken or otherwise rendered unfit for use, may be destroyed in the presence of the officer in charge of the manufactory and credit taken therefor in the Daily Record.

B.—Cull Cigars.

Sec. 169. As in some cigar factories manufacturers have more or less cigars made, which are unfit for packing, collectors are hereby instructed that manufacturers may, upon application on the Form C 3, supplied by the Department, be permitted to take credit for such cigars when they are counted and broken up in the presence of the officer in charge. The credit entry will be made in column 9 of Daily Record, the entries being totalled to date and the proper deduction made. Every such entry must be initialled by the officer as an evidence of its correctness.

C.—Cigar Samples.

Sec. 170. In addition to the provisions of the Act in respect of sample boxes of cigars, the following regulations are hereby prescribed:—

(*a.*) A manufacturer of cigars may be permitted to take from the warehouse, under permit from the collector in each case, one package containing not more than one hundred cigars of each brand manufactured by him—these packages to remain on the factory premises unstamped, for the sole purpose of exhibiting the contents to his customers, and, when required for consumption, the regular ex-warehouse entry to be passed therefor, the duty paid and the packages stamped, as if just taken from the warehouse;

(*b.*) A manufacturer removing any of these packages without the ex-warehouse entry being passed, the duty paid, and the packages regularly stamped, branded and labelled, will be deemed to have illegally abstracted the same from warehouse, and will render himself liable to the penalties imposed in the Act for such offence: the goods, although in the possession of the manufacturer, will be considered as still in the warehouse and treated as such until the ex-warehouse entry is passed: the officer delivering such packages of cigars on permit, will keep a record of the number and capacity of packages of cigars so delivered and will mark such packages so that they can afterwards be identified by him;

(*c.*) Should any cigar manufacturer abuse the privilege hereby granted to him, by taking from the warehouse a greater number of packages than are deemed necessary by the inspector of tobacco, the Department reserves the right to withdraw from such manufacturer the privilege now granted to all.

Sec. 171. Duty-paid boxes of cigars may be permitted to remain open in any licensed cigar factory, upon the following,—and only upon the following conditions:—

(*a.*) That the number of boxes thus remaining open in any factory premises shall not at any time exceed three;

(*b.*) That the stamps thereon shall be cut or broken in the presence of an officer of Inland Revenue, unless the packages are taken from those which may have been brought in with cut stamps and placed in bonding warehouse as hereinafter provided;

(*c.*) That the officer shall forthwith so mark the package by writing date when opened and placing his signature thereon, that it can be hereafter identified by him;

(*d.*) Immediately every such package is emptied the manufacturer shall inform the officer of the fact, when said empty package and the stamp thereon shall be completely destroyed in the presence of said officer and a credit entry made in stock book No. 2 for the original contents thereof.

D.—As to return of packages with cut stamps.

Sec. 172. The stamps on cigar boxes which may have been cut after being removed from the manufactory, and which the manufacturer may in the course of business desire to have returned thereto, may be brought into the manufactory under the following conditions:—

(*a.*) That they be brought into the manufactory only after notice in writing, of his intention to do so, has been served by the manufacturer on the Collector and at a time when an officer of Inland Revenue is present to take an account of the same;

(*b.*) That the packages with cut stamps be at once placed in the bonding "cigar" or "raw leaf" warehouse and kept separate from all other goods therein, and that they shall remain in said warehouse until such time as the manufacturer may desire them for immediate removal from the manufactory or for use, as per sections 168, 169 and 170 of these regulations;

(*c.*) That the regular entries be made in stock book No. 2, when the packages are brought into or removed from manufactory, in the same manner as for other duty-paid cigars; and,—

(*d.*) That any packages with cut stamps brought into manufactory without due notice being given, an account taken of them by an officer of this Department, and the packages and contents secured in bonding warehouse, or which may be found in any manufactory premises with stamps cut otherwise than as herein provided, shall render the manufacturer so offending liable to all penalties prescribed therefor under the Inland Revenue Act.

E.—Warehousing and Ex-warehousing of Cigars.

Sec. 173. The following provisions made by the Department of Inland Revenue in respect of the warehousing and ex-warehousing of cigars, are hereby established and confirmed, viz.:—

(*a.*) Packages containing cigars when entered for warehouse need not be marked with the number of the entry under which warehoused, but only with the number of the month and year in addition to the specific information required by section 261 of "The Inland Revenue Act"

(*b.*) When ex-warehousing cigars, the manufacturer may take the cigars from any lot in warehouse, provided the number of packages and denomination are the same as those upon which he has paid duty.

(*c.*) Cigars when placed in warehouse, shall be stowed and arranged in lots according to denomination of packages.

(*d.*) Under this system it will not be necessary for Collectors to open an account with each warehouse entry, but only a general account with each individual. On the entry papers it will be unnecessary to show marks and numbers.

(*e.*) The above instructions are subject to the provisions of section 54 of "The Inland Revenue Act."

Article 10.

Cutting Machines.

Sec. 174. (*a*). No person not having a license to manufacture tobacco or cigars shall be permitted to use, nor (without having notified the Collector of Inland Revenue thereof in writing) to have in possession any machine for the purpose of cutting tobacco; except that persons dealing in manufactured tobacco at retail may, upon signing a declaration that such machine will be used solely for cutting duty-paid "plug" or "cavendish" tobacco for immediate sale thereof to their customers, receive a permit to use the same during the pleasure of the Minister of Inland Revenue; but the said dealers will not be allowed to keep on hand any tobacco so cut, the cutting

machine only to be used for cutting tobacco at the request of a customer, and for immediate delivery to him.

(*b*). All persons (other than those hereinbefore excepted) having in their possession any tobacco-cutting machines, are required to notify the Collector of Inland Revenue of the same, and it shall be the duty of the said Collector to cause the same to be so fastened or sealed as to render it incapable of being used without removal of the said seal, and any such machine found unsealed, whether such machine had been sealed by an officer of Inland Revenue or not, shall be seized and forfeited to the Crown.

(*c*). All tobacco-cutting machines found in possession of any person other than those hereinbefore mentioned, or in the possession of other than a private individual not dealing in tobacco, and using the same for cutting tobacco for his own use, (which machine must not be a rotary cutting machine,) are forfeited and may be seized and removed by any officer of Inland Revenue.

Article 11.—Assessment for Deficiencies.

Tobacco.

Sec. 175. Section 268 of The Inland Revenue Act, provides that the deficiency in any tobacco manufactory shall not, at any time, exceed six per cent.

Cigars.

Sec. 176. Section 269 of said Act directs that "there shall be produced from each and every twenty-five pounds of unsteamed raw leaf scraps, cuttings or other material taken for use in a cigar manufactory at least one thousand cigars, but if at any time the Department of Inland Revenue determines that the standard herein established exceeds or falls short of what is hereafter ascertained to be the true standard, the Governor in Council may amend or alter such standard by regulation to the extent of three pounds."

(*a*). Under such direction the standard for the production of 1,000 cigars is reduced from 25 lbs. of raw leaf tobacco to 22 lbs., and such standard is made applicable to all transactions subsequent to the 1st day of July, 1884;

(*b*.) Allowance will be made for leaf tobacco sold or returned, or for cuttings or clippings when they are of such a character that they may be made into cigars, or are sold or removed for that purpose. Officers are, however, to understand that the scraps and cuttings, if to be credited against the production account, must be free from dust, sand and tobacco-dust. No allowance will be made for stems, or for ordinary scraps and waste incidental to the business. In the making of finer grades of cigars, particularly of Havana tobacco, manufacturers often use only the best portion of the leaf and sell the balance to be used as filling for a lower or cheaper grade of cigars: in such cases an allowance will be made for such stock when sold or removed;

(*c*.) The annual stock statements have been prepared so that officers can readily understand the mode upon which the production is ascertained;

(*d*.) The Commissioner of Inland Revenue is empowered by section 273 of the said Act to make an assessment, and to order the collection from the manufacturer of the duty at the highest rate chargeable on the tobacco or cigars produced in the manufactory where the deficiency is found to exist.

Article 12.

Additional Forfeiture.

Sec. 177. Any tobacco or cigars not made by the manufacturer whose name or factory number is marked or branded on the package in which contained; and any tobacco or cigars not of the brand represented by the manufacturer's label on the package in which contained, shall be seized and remain forfeited to the Crown.

Article 13.

Stock Statements

Sec. 178. In preparing statement B. of annual stock statement (G 15.) all stemmed raw leaf tobacco taken for use, and all stemmed raw leaf tobacco in process of manufacture at beginning and end of period, is to be treated as if resulting from raw leaf tobacco which contained twenty-five per cent of stems, *i.e.*, $\frac{1}{3}$ is to be added to the weight of stemmed leaf. This does not apply to scraps and cuttings.

Sec. 179. All unpacked cigars on hand at time of stock-taking are to be computed at a uniform rate of twenty-two (22) pounds per thousand.

Sec. 180. The Collector will attach to each cigar manufacturer's stock statement the certificate of the officer in charge as to any deficiency or surplus that may be found in the unpacked cigar account. When the account comes out correct, the officer's certificate must state so. All possible care must be used in stock-taking.

Sec. 181. Collectors, unless otherwise advised, will collect from the tobacco and cigar manufacturers of their respective divisions the duty upon the quantity of tobacco or cigars deficient of the standard established by law and also the duty on the quantity of cigars found deficient in unpacked cigar account as shown by stock statements each year.

Sec. 182. The manufacturer may then take credit in column 9 of his Daily Record for the quantity so deficient in unpacked cigar account in order to bring that book in accord with stock.

Sec. 183. When a surplus is found it should be at once charged up in the same column.

Sec. 184. The duties under the foregoing instructions will be accounted for on the Form D. 11, which must contain full explanations of the source from which they are derived.

Sec. 185. All tobacco and cigar stock statements are to be forwarded to the Department in duplicate, one copy for the Inspector of tobacco factories and the other for the Department.

Article 14.

Reward for Information in Regard to Illicit Manufacture and Sale of Tobacco or Cigars.

Sec. 186. (*a*.) For such information as will lead to the discovery and seizure of an illicit tobacco or cigar manufactory, or any illicit tobacco or cigars, one-half of the appraised value of the articles seized.

(*b*.) For such information as will lead to the conviction of the parties owning or working an illicit tobacco or cigar manufactory, one-half the amount of the penalties recovered, not exceeding $200.

(*c*.) If the parties convicted are unable to pay the penalties imposed, and are committed to gaol for non payment, the Department will make good to the informer one-fourth of the penalties imposed.

(*d*.) The names of the parties giving the information are not to be made known, unless by their own desire or consent.

Article 15.

Drawback.

Sec. 187. In accordance with the provisions of section 259 of the Inland Revenue Act, as to drawback on cut tobacco and cigarettes in certain cases, the Department of Inland Revenue is authorized to pay over such drawback upon receiving the certificates of the Collectors of Inland Revenue, setting forth the number of stamps, of denominations applicable to packages mentioned in section 259, aforesaid, delivered and paid for during the currency of each month, and entered upon the monthly return of the manufacturer, such payments to be treated as "Refunds of Excise Revenue."

(*a*.) It is provided by subsection added by section 7 of the Act 53 Victoria, chapter 23, to section 259 of "The Inland Revenue Act," that "a drawback of five per cent "on the value of the stamps used shall be allowed to "manufacturers of foreign leaf tobacco licensed under "the Act in respect of uncut plug or Cavendish tobacco "manufactured by them and put up in packages contain-"ing four pounds or less, which drawback shall be paid "under such regulations as the Governor in Council "establishes in that behalf."

(*b*.) In virtue of such provisions the following regulations are hereby established, namely:—

1st. That the application for the drawback be made quarterly, and be accompanied by a statement showing the number of packages of tobacco at each weight, the aggregate quantity of tobacco, the aggregate duty and the amount of drawback claimed.

2nd. The statement attached to the application must bear the certificate of the officer in charge of the factory as to its correctness, and also the certificate of the Collector of the Division—that the quantity of tobacco referred to was covered by stamps of a denomination of four pounds or under, and that it was entered for consumption, and the duty paid by the manufacturer in whose factory it was produced.

ARTICLE 16.

Ports of Entry for Raw Leaf Tobacco.

Sec. 188. The following are constituted ports of entry at which raw leaf tobacco may be imported into Canada, in addition to those mentioned in Section 307 of "The Inland Revenue Act":—

AT THE GOVERNMENT HOUSE AT OTTAWA.

Monday, the 12th day of September, 1892.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, under the provisions of chapter 68 of the Revised Statutes, and by and with the advice of the Queen's Privy Council for Canada, has been pleased to order and it is hereby ordered, that the importations of rags into Canada from Europe be prohibited.

JOHN J. McGEE,
12-4 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Saturday, the 27th day of August, 1892.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS by section 190 of "The Inland Revenue Act" it is provided that the security to be given is a sum equal to the duties estimated to accrue on goods to be manufactured during one month, and such further amount as the Collector deems sufficient to cover the duty on goods remaining in warehouse from time to time during the currency of the license;

And whereas the increase of duty on malt from one to two cents per pound has caused the requirements of the law as above set forth as to the amount of bonds to be given by maltsters to become unduly oppressive,—

His Excellency, in virtue of the power vested in him by "The Inland Revenue Act," and by and with the advice of the Queen's Privy Council for Canada, is pleased to grant authority to the Minister of Inland Revenue to determine the amount of security to be given by maltsters, and such authority is hereby granted accordingly.

JOHN J. McGEE,
11-4 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Monday, the 12th day of September, 1892.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS the President of the United States having issued a Proclamation for a quarantine detention of all vessels containing immigrants from cholera infected countries for a period of twenty days, it is advisable in order to prevent such immigrants from using the Canadian routes to enter at the inland ports of the United States for the purpose of avoiding the quarantine at the maritime ports, to extend the provisions of the second paragraph of section 9 of the quarantine regulations established by the Order in Council of the twelfth day of May, 1888, chapter 6 of the Consolidated Orders in Council of Canada, relating to vessels suspected of having sickness on board, which is in the following words:—

"May be kept under quarantine of observation for a period of not more than three days," so as to read:

"May be kept under a quarantine of observation for a period of twenty days or more, as directed by the Minister of Agriculture," and further that the words "any maritime port in Canada" be substituted for the words "Grosse Isle" in the said paragraph.

His Excellency, in virtue of the powers vested in him by chapter 68 of the Revised Statutes, intituled "An Act respecting Quarantine," and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the second paragraph of Section 9 of the said quarantine regulations shall read as follows, and that such paragraph as amended do stand for a quarantine regulation, namely:—

"Vessels arriving at any maritime port in Canada "from any infected port or place, or one supposed to "be infected, and on board of which no pestilential "disease shall have declared itself during the passage "may be kept under quarantine of observation for a "period of twenty days or more, as directed by the "Minister of Agriculture, during which time the "passengers and crew thereof shall be subjected to a "strict purification under the direction of the Medical "Superintendent."

JOHN J. McGEE,
12-4 Clerk of the Privy Council.

ROCK IN DISCOVERY PASSAGE, BRITISH COLUMBIA.

Information has been received from Rear Admiral Charles F. Hotham, C.B., R.N., Commander-in-Chief on the Pacific Station, respecting the rock on which H. M. S. "Warspite" struck on the 10th August last, the exact position having been ascertained by personal examination by the officers of H. M. S. "Nymphe."

This rock is situated N.E. (N. 68° E. true) 1½ cables from the point between Race Point and Duncan Bay, in Discovery Passage, on the north-east coast of Vancouver Island, British Columbia.

Lat. N. 50° 5' 36"
Long. W. 125° 19' 52"

It has a least depth of 4 feet at low water springs, and within the five-fathom line is about 80 yards in diameter. It is steep-to on its northern and eastern sides, and between it and the point are depths of 6 and 8 fathoms.

It is marked by kelp which does not show when the tide is running strong.

This notice affects Admiralty charts Nos. 538, 580 and 1,917, and British Columbia Pilot, 1888, page 202.

ST. MARY'S RIVER LIGHTS.

I.—UNITED STATES LIGHTS.

Notice is given by the Lighthouse Board of the United States of America that the following described aids to navigation have been established on the Michigan side of the St. Mary's River, between Lakes Huron and Superior:

Sweet's Point.—A fixed white lens-lantern light, showing through 360° of arc, on a crib structure standing in 7 feet of water. Marks the turning point in the channel, and guides up the river to the northward and westward.

Winter Point Range.—Two fixed white lens-lantern lights, showing through 270° of arc. The front light is shown from an upright on a cluster of piles and the rear light from an iron skeleton tower on the southern end of Neebish Island. The range guides up to or down from the mid-channel buoy in Mud Lake.

Encampment Crib.—A fixed red tubular-lantern light, shown from an upright on a crib in 8 feet of water, off the southern end of Sailors Encampment. Marks a shoal and the western side of the entrance to Sailors Encampment passage.

East Range, Dark Hole.—Two fixed red tubular-lantern lights, shown from uprights on the upper end of Sailors Encampment. The range intersects with Point of Woods Range to mark the turning point in the channel, and leads to or from an intersectien with the channel marked by the West Range, Dark Hole.

West Range, Dark Hole.—Two fixed white tubular-lantern lights, shown from uprights on the upper end of Sailors Encampment. The range intersects with East Range, Dark Hole, to mark the turning point in the channel, and leads to or from abreast the second black spar buoy below Harwood's Point.

Point of Woods Range.—Two fixed red tubular-lantern lights, shown from uprights on the eastern side of Neebish Island. This range guides through the Dark Hole passage, and by its intersection with

the West Range, Dark Hole, marks the turning point to or from the lower reach of Little Mud Lake.

Hen and Chickens (Neebish Island) Range.—Two fixed red tubular-lantern lights, shown from uprights. The front light is on the most easterly of the small group of islands known as the Hen and Chickens, and the rear light is on the north-easterly shore of Neebish Island. The range guides through the passage between Sugar Island and St. Joseph Island (Canadian).

East Neebish Range.—Two fixed red tubular-lantern lights, on uprights on Sugar Island at the foot of East Neebish. The range guides through the upper reach of East Neebish, and its intersection with Indian Point range marks the turning point.

Indian Point Range.—Two fixed white tubular-lantern lights, on uprights on Indian Point, East Neebish. The range guides through the lower reach of East Neebish and its intersection with East Neebish Range marks the turning point.

Duck Island Range.—Two fixed red tubular-lantern lights, on uprights near the water's edge on the channel side of the lower end of Duck Island, above East Neebish. The range shows up stream towards the lower Lake George Crib-light, and the range between these may be followed from the crib down to abreast of the head of Duck Island.

Lower Lake George.—A fixed white tubular-lantern light, on an upright rising from a crib 50 feet from the east side of the lower end of the main Lake George Channel.

Middle Lake George.—A fixed red tubular-lantern light, on top of a dwelling resting on a crib 50 feet from the east side of the main Lake George Channel, at the elbow.

Upper Lake George.—A fixed red lens-lantern light, on an upright rising from a crib 50 feet from the east side of the upper end of the main Lake George Channel, and marks the northerly entrance into the dredged cut.

NOTE.—The three Lake George lights mark the entrance into, the elbow of, and the outlet from the main channel of Lake George.

Church's Point.—A fixed white lens-lantern light, on an upright rising from a crib in 14 feet of water, at the head of Lake George. Marks the approach to the passage between Sugar and Squirrel Islands and is to be left to the westward by vessels bound either way.

Manhattan Shoal.—A fixed red and white lens-lantern light, on an upright rising from a crib on a 10-foot shoal off the N.E. end of Sugar Island. The light shows red up and down stream and white between. The down stream line between the white and red light marks the turn to the eastward to be made midway in the bend, and the like line up stream shows where the deflection is to be made to pass into or from the Garden River reach.

Catholic Mission Range.—Two fixed white tubular-lantern lights on uprights on the south shore of Little Lake George, north end of Sugar Island. The range marks the upper reach of Little Lake George, and its intersection with Payment Range marks the turning point.

Payment Range.—Two fixed red tubular-lantern lights, on uprights on the south shore of Little Lake George, north end of Sugar Island. The range marks the lower reach of Little Lake George, and its intersection with the Catholic Mission Range marks the turning point.

Palmer's Point.—A fixed white lens-lantern light, with two fixed red sectors, on an upright rising from a crib on the channel bank off Palmer's Point, upper end of Little Lake George. The northerly edge of the eastern red sector cuts the first black buoy below the light and the northerly edge of the western red sector cuts the first black buoy above Wilson's Wharf, thus marking the two turning points.

Farmers Ridges Range.—Two fixed red tubular-lantern lights, on uprights on the north-west side of Sugar Island. The range guides through the Farmers Ridges passage.

Partridge Point Range.—Two fixed red tubular-lantern lights, on uprights on the north-western side of Sugar Island. The range intersects with Farmers Ridges range to mark the turning point in the channel abreast of Brusant's Point.

Topsail Island Range.—Two fixed red tubular-lantern lights on uprights on the north-western side of Sugar Island. The range intersects with Sault Range to lead clear of the shoal extending southward from Topsail Island, and also intersects with Farmers Ridges range at the turning point in the channel.

Bayfield Rock Range.—Two fixed white tubular-lantern lights, on uprights on the north-western side of Sugar Island. The range leads past Bayfield Rock to the lower end of the canal, intersecting with Sault range to mark the channel clear of Topsail Island Shoal.

Sault Range.—Two fixed red tubular lantern lights, on uprights on shore below the city of Sault Ste. Marie. Intersects with Bayfield Rock range to mark the channel to the intersection of Topsail Island range, and also marks the turning point in the channel on the Bayfield Rock range leading up to the lower entrance to the canal.

II.—CANADIAN LIGHTS.

Notice is hereby given that, simultaneously with the exhibition of the above described United States lights, the following range lights were established by the Government of the Dominion on the Canadian side of the St. Mary's River, which together form a continuous system of lights from Detour Passage to Sault Ste. Marie.

1.—SAILORS ENCAMPMENT LOWER RANGE.

Two fixed red lantern lights, shown from masts on the west shore of St. Joseph Island, half a mile below Ross wharf. Both lights should be visible 2 miles in, and over a small arc in each side of, the alignment.

The front mast stands on the shore line, and is 17 feet high. The light is elevated 19 feet above the level of the river.

Lat. N. 46° 14' 18"
Long. W. 84° 5' 40"

The back mast stands 64 feet east from the shore line, and is distant 246 feet S. $\frac{7}{8}$ W. (S. 8° W. true) from the front one. It is 22 feet high, and the light is elevated 26 feet above the water.

The two lights in one, S. $\frac{7}{8}$ W., guide vessels down the river past the turn at Johnson's Point. The range should be kept from its intersection with Rains' wharf range till the Encampment (United States) crib light is passed, when the alignment should be left on the port hand.

2.—RAINS' WHARF RANGE.

Two fixed red lantern lights, shown from masts, at William Rains' wharf, on the west shore of St. Joseph Island, opposite Johnson Point, and between the two Sailors Encampment ranges. These lights should be visible 2 miles in, and over a small arc on each side of, the alignment.

The front mast, 17 feet high, stands near the outer end of the wharf. The light is elevated 15 feet above the level of the river.

Lat. N. 46° 15' 0"
Long. W. 84° 5' 20"

The back mast stands 390 feet S. E. (S. 47° E. true) from the front one. It is 22 feet high. The light is 24 feet above the level of the river.

This range is in the same alignment as the Point of Woods (U.S.) range, and is intended to guide vessels going down stream through the Dark Hole Passage, S.E., from its intersection with the alignment of the U.S. East Range, Dark Hole, to its intersection with the two Sailors Encampment ranges.

3.—SAILORS ENCAMPMENT UPPER RANGE.

Two fixed red lantern lights, shown from masts, near the west shore of St. Joseph Island, half a mile below Reed Point. Both lights should be visible 2 miles in, and over a small arc on each side of, the alignment.

The front mast stands on rising ground, 640 feet from the shore of the river in the alignment, and is 17 feet high. The light is elevated 65 feet above the level of the river.

Lat. N. 46° 15' 21"
Long. W. 84° 5' 21"

The back mast, 22 feet high, is 260 feet N. $\frac{7}{8}$ E. (N. 8° E. true) from the front one. The light is 73 feet above the water.

The two lights in one, N. $\frac{7}{8}$ E., guide vessels going up the river past the turn at Johnson Point. The alignment should be taken as soon as the Encampment crib (U.S.) light is abeam, and kept until the Point of Woods (U.S.) range lights are brought into alignment.

This range and the Sailors Encampment Lower Range, above described, are in the same alignment.

4.—East Neebish Upper Range.

Two fixed red lantern lights shown from masts, on the east or Canadian shore of the St. Mary's River, half a mile above Ned and Indian Points, and 1 mile below Birch Point. Both lights should be visible 2 miles in, and over a small arc on each side of, the alignment.

The front mast stands 159 feet back from the shore in the line of range, and is 16 feet high. The light is elevated 34 feet above the level of the river.

Lat. N. 46° 21' 32"
Long. W. 84° 7' 0"

The back mast stands 302 feet N. $\frac{1}{2}$ E. (N. 3° E. true) from the front one. It is 22 feet high, and the light is 42 feet above the water.

The two lights in one N. $\frac{1}{2}$ E. show the same alignment as the United States East Neebish range, and are intended to guide vessels going up the river through the upper reach of East Neebish from the intersection of the alignment with Indian Point (U.S.) range till abreast of Indian Point, whence a N.N.W. course will lead up the middle of the river clear of all obstructions to the intersection with Duck Island (U.S.) range.

This notice affects Admiralty Charts Nos. 324, 325, 326, 334, 519, 678 and 1507, and the substance of it should be entered in the Canadian List of Lights and Fog Signals next after No. 225.

Note.—The island called on the Admiralty Charts Rains Island, should be Sailors Encampment; that name has sometimes been applied erroneously to Neebish Island.

WM. SMITH,
Deputy Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 24th August, 1892.

NOTICE TO MARINERS.

No. 36 of 1892.

I. IMPROVEMENT OF BRIGHTON BEACH RANGE LIGHTS.

The masts upon which the range light lanterns were hoisted at Brighton Beach, on the east side of the North River, in Charlottetown Harbour, on the Strait of Northumberland coast of Prince Edward Island, as described in Notice to Mariners No. 3 of 1890, have been replaced by skeleton towers built upon the same sites.

The sides of the towers facing the alignment are closely slatted so as to make conspicuous day marks. The upper parts of the towers are enclosed and surmounted by wooden lanterns.

The towers are painted white with the lanterns brown. The front tower is 40 feet high and the light 41 feet above high water mark. The back tower is 50 feet high and the light 77 feet above high water-mark.

The illuminating apparatus is catoptric.

In other respects the lights will be unaltered and the same sailing directions as formerly used will apply.

This notice affects Admiralty charts Nos. 1709, 1738, 2034 and 2666, and Canadian List of Lights and Fog Signals Nos. 308c and 308d.

II. IMPROVEMENT OF DARNLEY POINT RANGE LIGHTS.

A diamond-shaped, slatwork beacon, 10 feet wide, extending from the top of the mast down to the roof of the lantern shed, facing the line of the range, has been attached to each range light mast at Darnley Point, at the entrance to Malpeque Harbour, Prince Edward Island, so as to make the structures more conspicuous as day marks.

This notice affects Admiralty charts Nos. 1983, 2034, 2516 and 2666, and Canadian List of Lights and Fog Signals Nos. 328a 328b.

See also Notices to Mariners No. 21 of 1889, part 1 of No. 12 of 1889, and No. 29 of 1891.

III. WHISTLING BUOY ON TRYON SHOAL.

An automatic whistling buoy, painted brown, with the words "Tryon Shoal Buoy," in white letters, established by the Government of Canada, has been moored in 7 fathoms water, off the southern extremity of Tryon Shoal, in Northumberland Strait, south-west coast of Prince Edward Island.

The buoy should be left to the starboard going up the Strait to the northwestward, and to port going down

This notice affects Admiralty charts Nos. 2034, 2616, and 2666, and the substance of it should be entered in the Canadian List of Lights and Fog Signals under the No. 305a.

IV. SIGNAL BUOYS REPLACED IN BAY OF FUNDY.

1. *Point Lepreaux Whisling Buoy.*—This buoy was replaced on the 21st May last. See Notice to Mariners No. 10 of 1892.

2. *Blonde Rock Whistling Buoy.*—This buoy was replaced on the 3rd June last.

3. *Lurcher Shoal Whistling Buoy.*—This buoy, the disappearance of which was advertised in Notice to Mariners No. 9 of 1892, was replaced on the 2nd June last.

4. *North-west Ledge Bell Buoy.*—This buoy, which had been off its station for some time, was replaced on the 2nd June last.

V. CHANGE OF BUOY ON OLD MAN LEDGE.

The spar buoy heretofore marking the Old Man Ledge, east of the Tusket Islands, at the entrance to the Bay of Fundy, has been replaced by an iron can buoy painted black.

Lat. N. 43° 36' 28"
Long. W. 66° 0' 10"

The buoy is moored $\frac{1}{8}$ mile south-east from the rock in 5 fathoms water.

This notice affects Admiralty charts Nos. 352, 2537 and 2670.

NOTICE TO MARINERS.

No. 37 of 1892.

PILE BEACONS REPLACED ON STURGEON BANK.

The two pile beacons which had been carried away from the edge of Sturgeon Bank, off the mouth of the Fraser River, in the Strait or Georgia, British Columbia, as advertised in Notice to Mariners No. 62 of 1891, part IV, and No. 23 of 1892, part II, have been

replaced. They stand as previously indicated in parts II and III of Notice to Mariners No. 46 of 1891.

This notice affects Admiralty charts Nos. 579, 1917, 1922 and 2689.

NOTICE TO MARINERS.

No. 38 of 1892.

I. CASTLE ISLET BEACON RE-ERECTED.

The beacon on the summit of Castle Islet, Western Channel of Barclay Sound, on the Pacific Coast of Vancouver Island, British Columbia, which had fallen down, was re-erected by the crew of the Dominion steamer "Sir James Douglas," last month, and now stands as formerly, in range with the beacon on Round Island, to guide into the Western Channel of Barclay Sound, in the approach to Toquart Harbour.

This notice affects Admiralty charts Nos. 584, 592 and 1917.

The two beacons were fully described in Notice to Mariners No. 27 of 1887.

II. ROCKS OFF GOWLLAND AND TABLE ISLANDS, BARCLAY SOUND.

Captain John T. Walbran, Master of the Dominion steamer "Sir James Douglas," reports having found a rock, awash at low water, $1\frac{1}{10}$ cables N. $\frac{1}{2}$ W. (N. 18° E. true) from the northernmost point of Gowlland Island, Western Channel of Barclay Sound, on the west coast of Vancouver Island, British Columbia. The rock is steep-to, and in other respects the channel between Gowlland Island and Table Island is clear of obstructions.

There are also in the same vicinity a rock about $\frac{1}{3}$ cable distant from the most north-westerly point of Table Island; and another $\frac{1}{4}$ cable east of the most easterly point of the Islet north of Table Island,—neither of which is shown on the chart.

This notice affects Admiralty charts Nos. 584, 592 and 1917.

TO ADVERTISERS IN THE *GAZETTE*.

PARTIES sending advertisements to be inserted in "The Canada Gazette," will please observe the following rules :

1st. Address "The Canada Gazette, Ottawa, Canada."
2nd. Indicate the number of insertions required.
3rd. Invariably remit the fees for such advertisements, together with the price of one Gazette, as below. Otherwise they will not be inserted. The rates are ten cts. for the first insertion, and five cents for each subsequent insertion per line of nine words, each figure counting as one word. No advertisement is inserted for a less charge than one dollar.

By settled or understood practice as prescribed by law, the rules of Parliament or decisions of the Department of Justice, notices receive the following insertions :—

Notices of applications for divorce—27 insertions.

Notices of the withdrawal of deposits of Insurance Companies—13 insertions.

Notices of ordinary applications to Parliament—9 insertions.

Notices of applications for Letters Patent—6 insertions.

Notices of dividends and meetings of Banks and Insurance Companies—1 calendar month, or 5 insertions.

Subscribers will also notice that the subscription, $4 per annum, is invariably payable in advance, and that the "Gazette" will be stopped from them at the end of the period paid for. Single numbers will be charged ten cts. each, and when more than one are required by advertisers, must be remitted for likewise.

S. E. DAWSON,
Queen's Printer and Controller of Stationery.
Department of Public Printing and Stationery,
Ottawa, November, 1891.

APPLICATIONS TO PARLIAMENT.

Rules relating to Notices for Private Bills.

All applications for Private Bills, properly the subjects of legislation by the Parliament of Canada, within the purview of "The British North America Act, 1867," whether for the erection of a Bridge, the making of a Railroad, Turnpike Road or Telegraph Line ; the construction or improvement of a Harbour, Canal, Lock, Dam or Slide, or other like work ; the granting the right of Ferry ; the incorporation of any particular Trade or Calling, or of any Banking or other Joint Stock Company ; or otherwise for the granting to any individual or individuals, any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which, in its operation, would affect the rights or property of other parties, or relate to any particular class of the community ; or for making any amendment of a like nature to any former Act, shall require a Notice, clearly and distinctly specifying the nature and object of the application, and (except in the case of existing corporations) signed by, or on behalf of the applicants, to be published as follows, viz :

In the Provinces of Quebec and Manitoba.

A notice inserted in the *Canada Gazette*, in the English and French languages, and in one newspaper in the English, and in one in the French language in the District affected, or in both languages in one paper, if there be but one in the said District, or if there be no paper published therein, then, in both languages, in a paper in the nearest District in which a newspaper is published.

In any other Province or Territory.

A notice inserted in the *Canada Gazette*, and in one newspaper published in the County or District, or Union of Counties affected, or if there be no paper published therein, then in a newspaper in the nearest County or District in which a newspaper is published. Such Notices to be continued in each case, for a period of two months during the interval of time between the close of the next preceding Session and the consideration of the Petition. And copies of the newspapers containing the first and last insertion of such notice shall be sent to the Clerk of each House.

When a Petition is for leave to bring in a Private Bill for the erection of a Toll Bridge, the petitioner or petitioners, upon giving the notice prescribed by the preceding Rule, shall also, at the same time, and in the same manner, give notice of the rates which they intend to ask ; the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and whether they intend to erect a drawbridge, and the dimensions of the same.

Any person seeking to obtain any Private Bill shall, eight days before the meeting of Parliament, deposit with the Clerk of the House, in which the bill is to originate, a copy of such bill in the English or French language, with a sum sufficient to pay for translating and printing the same—600 copies to be printed in English, and 200 copies in French—the translation to be done by the officers of the House, and the printing by the contractor. The applicant shall be also required to pay the Clerk of the Senate, or the accountant of the House of Commons (as the case may be) a sum of $200 and the cost of printing the Act in the Statutes, and lodge the receipt of the same with the Clerk of the Committee to which such Bill is referred—such payment to be made immediately after the second reading, and before the consideration of the Bill by such Committee.

The fee payable on any Private Bill is paid only in the House in which it originates.

No Petition for a Private Bill is received by either House after the first ten days of the session.

EDOUARD J. LANGEVIN,
Clerk of the Senate.

JOHN GEORGE BOURINOT,
Clerk of the Commons.

Additional Rules of the House of Commons respecting Private Bills.

All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the *clauses* of the *General Acts* relating to the details to be provided for by such Bills ;—special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof, in which the *General Act* is proposed to be departed from ;—Bills which are not framed in accordance with this *Rule*, shall be re-cast by the promoters, and reprinted at their expense, before any Committee passes upon the *Clauses*.

51*a*. All Private Bills for Acts of incorporation of, or in amendment of Acts incorporating Railway Companies, shall be drawn in accordance with the Model Bill adopted by the House on 23rd June, 1887, copies of which may be obtained from the Clerk of the House.

(a.) The provisions contained in any Bill which are not in accord with the Model Bill, shall be inserted between brackets, and when revised by the proper officer shall be so printed, and bills which are not in accordance with this Rule shall be returned to the promoters to be re-cast before being revised and printed ;

(b.) Any sections of existing Acts which are proposed to be amended shall be re-printed in full with the amendments inserted in their proper places and between brackets ;

(c.) Any exceptional provisions that it may be proposed to insert in any Bill shall be clearly specified in the Notice of Application for the same.

51*b*. No Bill for the incorporation of a Railway Company, or for changing the route of the railway of any company already incorporated, shall be considered by the Railway Committee until there has been filed with the Committee, at least one week before the consideration of the Bill :—

(*a.*) A Map or Plan drawn upon a scale of not less than half an inch to the mile, showing the location upon which it is intended to construct the proposed work, and showing also the lines of existing or authorized works of a similar character within, or in any way affecting the district, or any part thereof, which the proposed work is intended to serve, and such map

or plan shall be signed by the Engineer or other person making the same ;

(b.) An exhibit showing the total amount of capital proposed to be raised for the purposes of the undertaking, and the manner in which it is proposed to raise the same, whether by ordinary shares, bonds, debentures, or other securities, and the amount of each, respectively.

JOHN GEORGE BOURINOT,
Clerk of the Commons.

—

SUBSTANCE OF RULES OF THE SENATE RELATING TO NOTICES AND APPLICATIONS FOR BILLS OF DIVORCE.

Every applicant for a Bill of Divorce shall give notice of his or her intended application, and shall specify therein from whom and for what cause such divorce is sought, and shall cause such notice to be published during six months before the presentation of his or her petition for the said Bill, in the CANADA GAZETTE and in two newspapers published in the District in Quebec, Manitoba, British Columbia or the North-West Territories, or in the County or Union of Counties in other Provinces, wherein such applicant usually resided at the time of the separation of the parties ; but if the requisite number of papers cannot be found therein, then in an adjoining District or County or Union of Counties. Notices given in the Provinces of Quebec and Manitoba are to be published in one English and one French newspaper, if there be such newspapers published in the District, but otherwise shall be published in each newspaper in both languages.

A copy of the said Notice shall, not less than one month before the date of the presentation of the Petition, at the instance of the applicant, be served personally on the person from whom the divorce is sought, when that can be done.

No petition for divorce shall be received after the first thirty days of each session.

The petition of an applicant for divorce must be fairly written and must be signed by the Petitioner, and should briefly set forth the marriage, when, where and by whom the ceremony was performed, the grounds on which relief is asked and the nature of the relief prayed, and should also negative condonation, collusion and connivance. The allegations of the petition must be verified by declaration of the Petitioner, under the "*Act respecting Extra-Judicial Oaths.*"

The applicant shall deposit with the Clerk of the Senate, eight days before the opening of Parliament, a copy, in the English or French language, of the proposed Bill of Divorce, and therewith a sum sufficient to pay for translating and printing 600 copies thereof in English and 200 copies in French.

No petition for a Bill of Divorce shall be presented unless the applicant has paid into the hands of the Clerk of the Senate the sum of two hundred dollars ($200).

The petition when presented shall be accompanied by the evidence of the publication of the notice, and by declaration in evidence of the service of a copy thereof, and by a copy of the proposed Bill.

EDOUARD J. LANGEVIN,
Clerk of the Senate.

A la Cour, à Osborne House, Ile de Wight, le 18e jour d'août 1892.

PRÉSENTS :

Sa Très-Excellente Majesté la Reine.
Le lord Chancellier.
Le lord Président.
Le lord du Sceau privé.
Le marquis de Salisbury.
Le marquis de Lothian.
Lord George Hamilton.
Le vicomte Cross.
Le secrétaire lord Knutsford.
M. le secrétaire Stanhope.
M. Goschen.
M. Balfour.
Sir J. Parker Deane.

CONSIDÉRANT que par l'*Acte relatif aux déserteurs étrangers*, 1852, il est statué que lorsqu'il sera démontré à Sa Majesté que des facilités convenables sont ou seront données pour la reprise ou l'arrestation des marins qui désertent des navires marchands britanniques dans les territoires d'une puissance étrangère, Sa Majesté pourra, par arrêté en conseil établissant que ces facilités sont ou seront données, déclarer que les marins non esclaves qui désertent des navires marchands appartenant à un sujet de cette puissance, lorsqu'ils seront dans les limites des possessions de Sa Majesté, pourront être arrêtés et renvoyés à bord de leurs navires respectifs, et pourra limiter l'opération de cet arrêté et en rendre l'opération sujette aux conditions et restrictions, s'il en est, qui seront jugées convenables ;

Et considérant qu'il a été démontré à Sa Majesté que des facilités convenables seront données pour la reprise et l'arrestation des marins (n'étant pas des citoyens des Etats-Unis) qui désertent les navires marchands britanniques dans les territoires appartenant aux dits Etats-Unis, en vertu d'un traité entre Sa Majesté et le Président des Etats-Unis signé à Washington le troisième jour de juin mil huit cent quatre-vingt-douze, et dont les ratifications furent échangées le premier jour d'août mil huit cent quatre-vingt-douze :

A ces causes, il a plu à Sa Majesté, en vertu du pouvoir que lui confère le dit *Acte relatif aux déserteurs étrangers*, 1852, et par et de l'avis de son Conseil privé, ordonner et déclarer, et il est par le présent ordonné et déclaré, qu'à compter de la publication du présent arrêté dans la *London Gazette*, les marins, non esclaves ni sujets britanniques, qui, dans les limites des possessions de Sa Majesté, déserteront de navires marchands appartenant à des citoyens des Etats-Unis, pourront être arrêtés et reconduits à bord de leurs navires respectifs. Pourvu toujours que si un déserteur a commis un crime dans les limites des possessions de Sa Majesté, il puisse être détenu jusqu'à ce qu'il ait subi son procès devant une cour compétente, et jusqu'à ce que sa sentence, s'il en est prononcé, soit exécutée.

Et le Secrétaire d'Etat au département de l'Intérieur, le Secrétaire d'Etat pour les Colonies et le Secrétaire d'Etat pour l'Inde, en conseil, donneront les instructions nécessaires pour l'exécution du présent.

C. L. PEEL.

—

Traité entre la Grande-Bretagne et les Etats-Unis concernant les déserteurs de la marine marchande. Signé à Washington, le 3 juin 1892 ; ratifications échangées à Washington le 1er d'août 1892.

CONSIDÉRANT que les gouvernements de la Grande-Bretagne et des Etats-Unis d'Amérique désirent pourvoir à l'arrestation, la reprise et la réintégration des personnes qui désertent des navires marchands de leurs pays respectifs pendant qu'ils sont dans les ports de l'autre pays, et de conclure un traité à l'effet susdit, les hautes parties contractantes ont en conséquence nommé comme leurs plénipotentiaires pour conclure le dit traité, savoir :—

Sa Majesté la Reine du Royaume-Uni de la Grande-Bretagne et d'Irlande, Sir Julian Pauncefote, G.C.M.G., C.C.B., envoyé extraordinaire et ministre plénipotentiaire de Sa Majesté aux Etats-Unis ; et Le Président des Etats-Unis d'Amérique, James G. Blaine, Secrétaire d'Etat des Etats-Unis ;

Lesquels, après s'être communiqué leurs pleins pouvoirs respectifs trouvés en bonne et due forme, sont convenus des articles ci-dessous :—

Article I.

Les consuls généraux, consuls, vice-consuls et agents consulaires de l'une ou l'autre des hautes parties contractantes, résidant dans les possessions ou colonies de l'autre, auront le pouvoir de requérir des autorités compétentes l'aide que prescrit la loi pour l'arrestation, la reprise et la réintégration des matelots qui désertent d'un navire appartenant à un sujet ou citoyen de leurs pays respectifs pendant qu'ils sont dans les ports de l'autre pays. Toutefois, si tel déserteur avait commis un crime ou une infraction dans le pays où il est trouvé, sa reddition ou réintégration pourra être retardée jusqu'à ce que le tribunal devant lequel la cause est pendante, ou devant lequel elle peut être portée, ait prononcé sa sentence, et que la sentence ait été exécutée.

Il est entendu que les stipulations qui précèdent ne s'appliqueront qu'aux sujets ou citoyens du pays où la désertion aura lieu.

Article II.

Le présent traité sera ratifié et les ratifications seront échangées à Londres ou à Washington sans délai.

ARTICLE III.

Le présent traité deviendra exécutoire à l'expiration de trente jours à compter de la date de l'échange des stipulations. Il restera en vigueur pendant cinq ans après cette date, et ensuite jusqu'à ce qu'il soit terminé par un avis de douze mois donné par une des hautes parties contractantes à l'autre.

En foi de quoi, nous les plénipotentiaires respectifs avons signé le présent traité et y avons apposé nos sceaux.

Fait en double à Washington ce troisième jour de juin mil huit quatre-vingt-douze.

ARRÊTÉS EN CONSEIL.

HOTEL DU GOUVERNEMENT À OTTAWA.

Samedi, le 17e jour de septembre 1892.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que la réserve de deux townships en largeur le long de la ligne frontière entre le Canada et les Etats-Unis partant de la limite ouest du Manitoba et allant jusqu'aux Montagnes-Rocheuses destinées à servir de terrain de quarantaine le long duquel les animaux en quarantaine pourront paître, soit et elle est par le présent abolie, et que les réserves ci-après décrites seront et elles sont par le présent déclarées être des réserves permanentes pour des fins de quarantaine, au lieu de la réserve susdite, savoir :—

1. Les townships 1, rangs 19, 20, 21, 22 et 23, en partie, étant cette région du pays sise entre les bras nord et sud de la rivière au Lait dans le township 1.

2. Les townships 1, rangs 12, 13, 14 et 15 en partie, les townships 2, rangs 12, 13, 14 et 15 en partie, étant cette région du pays sise entre la rivière au Lait au nord et la limite internationale au sud, avec la Coulée de la Pierre-à-écrire à l'est, et le droit de chemin de la ligne de la Compagnie de chemin de fer et de houille d'Alberta à l'ouest.

3. Les townships 1, rangs 4, 5 et 6 en partie, les townships 2, rangs 4, 5 et 6 en partie, étant cette région de pays site entre la rivière au Lait à l'ouest et au sud, et le Creek Many Berries à l'est, le tout dans les townships 1 et 2. Tous les numéros de rangs donnés étant ceux officiellement connus comme étant à l'ouest du quatrième méridien.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT que le Secrétaire d'Etat représente que d'après le rapport de l'officier-rapporteur nommé pour recevoir les votes des électeurs du comté de Drummond, dans la province de Québec, pour et contre une certaine pétition demandant de révoquer un arrêté en conseil daté du 8e jour de mai 1885, déclarant " l'Acte de tempérance du Canada, 1878 " en vigueur dans le dit comté de Drummond, à compter de la date mentionnée dans le dit arrêté en conseil et de la manière y prescrite, il appert que la dite pétition a été adoptée par les électeurs du dit comté, plus de la moitié de tous les votes enregistrés ayant été en faveur de l'adoption de la dite pétition, et que les procédures tenues par le dit officier-rapporteur l'ont été en conformité de l'acte ;

Et considérant que plus de trente jours se sont écoulés depuis le jour où la dite pétition a été adoptée,—

Il plaît à Son Excellence, en vertu de l'autorité qui lui est conférée par l'article substitué par l'article 3 de l'acte 51 Victoria, chapitre 35, intitulé " Acte à l'effet de modifier l'Acte de tempérance du Canada," à l'article 96 de " l'Acte de tempérance du Canada," et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner et déclarer que le dit arrêté en conseil du 8e jour de mai 1885, par lequel la deuxième partie de " l'Acte de tempérance du Canada " était rendue exécutoire dans le dit comté de Drummond, soit et il est par le présent révoqué.

JOHN J. McGEE,
Greffier du Conseil privé.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT que par l'article 190 de "l'Acte du Revenu de l'Intérieur," il est statué que le cautionnement à donner est une somme égale au montant auquel le percepteur estimera que les droits pourront s'élever sur les effets à manufacturer dans le cours d'un mois, et telle autre somme que le percepteur jugera suffisante pour couvrir le droit sur les effets restant en entrepôt de temps à autre dans le cours de la licence ;

Et considérant que l'augmentation du droit de un à deux centins par livre sur le malt a rendu très oppressives les dispositions de la loi précitées quant au montant des cautionnements que doivent donner les malteurs,—

Il plaît à Son Excellence, en vertu du pouvoir qui lui est conféré par "l'Acte du Revenu de l'Intérieur," et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'autoriser le ministre du Revenu de l'intérieur à fixer le montant du cautionnement que doivent donner les malteurs, et cette autorisation est en conséquence conférée.

HOTEL DU GOUVERNEMENT À OTTAWA.

Lundi, le 22e jour de septembre 1892.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu des dispositions du chapitre 34 des Statuts Revisés du Canada, intitulé " Acte du revenu de l'intérieur," et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'établir les règlements suivants au sujet du tabac et des cigares et des manufactures de tabac et de cigares, et les dits règlements sont par le présent faits et établis.

JOHN J. McGEE,
Greffier du Conseil privé.

RÈGLEMENTS CONCERNANT LE TABAC ET LES CIGARES.

TITRE 1.—MATIÈRE PREMIÈRE.

A.—Comment traiter le tabac en feuilles, les déchets, les rognures, les tiges, la réglisse ou autres matières, apportés, produits ou employés dans une manufacture de tabac ou de cigares, ou qui sont sortis de la dite manufacture.

Article 1. Aussitôt que du tabac ou toute autre matière première sera reçu à la manufacture, la quantité en sera vérifiée par le fabricant sous la surveillance immédiate de l'officier préposé, dont le devoir sera de s'assurer de l'exactitude de tous les poids, et, quand il sera requis par le fabricant, de constater la déduction à faire pour l'eau.

Art. 2. Le tabac étalon, tel que défini par l'acte, est celui qui contient 10 pour cent d'eau, mais le département n'a pas l'intention de s'arrêter à une différence d'un ou de deux pour cent en plus ou en moins.

Art. 3. Cependant, quand il y a un excédent d'eau évident au delà de la proportion ci-dessus mentionnée, c'est-à-dire 10 pour cent, le fabricant peut, s'il le désire, le faire constater, et si cet excédent atteint ou dépasse 12 pour cent, le surplus de 10 pour cent doit être déduit du poids total. En d'autres termes, quand le tabac sera trop imprégné d'eau, on déduira 10 pour cent de son poids et on ne tiendra pas compte de la différence en plus.

Art. 4. Tout échantillon pris en vue de constater la proportion d'eau qu'il contient sera fourni gratuitement par le fabricant ou le propriétaire.

Art. 5. Il n'est pas nécessaire de prendre des échantillons de chaque paquet ou colis. Quand, après un examen attentif de deux colis ou plus, le préposé considère que le lot est à peu près uniforme en ce qui regarde la quantité d'eau, il peut choisir un échantillon pour représenter le lot. Le département désire que le fabricant subisse le moins de perte possible par la constatation de la quantité d'eau contenue dans son tabac ; et chaque fois qu'un fabricant est convaincu que le tabac en feuilles ou tout autre tabac non fabriqué apporté à sa manufacture en aucun temps n'est ni au-dessus ni au-dessous de l'étalon, il peut consigner dans ses livres son poids réel sans faire examiner aucun échantillon, mais dans ce cas ce poids sera considéré comme étant le poids étalon et il ne sera fait par la suite aucune remise si la production de la manufacture est au-dessous de l'étalon fixé par la loi.

Art. 6. Pour le certificat qui sera donné au percepteur des douanes, sous l'autorité de l'article 312 de l'*Acte du revenu de l'intérieur*, on emploiera à l'avenir la formule (n° 28). Le percepteur veillera à ce que ce certificat soit soigneusement libellé et annexé (à la gomme) à la déclaration en douane du tabac en feuilles auquel il se rapporte.

Art. 7. Les tiges, déchets, rognures, débris ou autres rebuts de tabac produits, employés, enlevés ou détruits dans ou de toute manufacture de tabac ou de cigares, seront inscrits en livres étalons.

Art. 8. Tous tabacs en feuilles, tiges, déchets, rognures, débris, rebuts et tabacs en voie de fabrication à l'époque où l'inventaire se fera, seront portés en livres étalons, et dans ces cas on aura soin que les échantillons choisis pour le séchage représentent bien la moyenne d'humidité de chacun des lots où on les aura pris.

Art. 9. Chaque fois qu'il sera nécessaire de constater la quantité d'eau qu'ils contiennent, les échantillons devront être choisis avec soin, de façon à donner une moyenne aussi exacte que possible de l'ensemble des lots. Ces échantillons devront peser chacun d'un quarteron à une demi-livre ; on les pèsera soigneusement aussitôt qu'ils auront été pris sur le lot, et on ne devra les y prendre qu'au moment le plus rapproché possible du pesage du lot. On les sèchera ensuite soigneusement dans les fours qui ont déjà été ou seront fournis aux principaux bureaux. La différence de poids avant et après le séchage représentera la quantité d'eau contenue dans le tabac.

Art. 10. Les bureaux les plus importants sont pourvus de balances spéciales qui indiqueront sur le fléau la proportion d'eau au-dessus de l'étalon, ce qui dispensera de bien des calculs.

La balance est construite de telle façon qu'après avoir contrebalancé le poids du plateau de dessiccation au moyen de plomb de chasse versé dans le vaisseau de contrepoids, vous pouvez peser un échantillon d'un quart de livre, d'une demi-livre ou d'une livre, selon que vous aurez arrangé le poids curseur pour peser l'un ou l'autre, en ayant soin de placer le poids curseur à 100 lorsque vous pesez avant que le tabac soit séché ; après la dessiccation la place que prendra le poids curseur sur le fléau pour contrebalancer l'échantillon indiquera sur l'échelle inférieure du fléau le percentage d'eau de l'échantillon.

Art. 11. L'officier préposé à la surveillance d'une manufacture de tabac ou de cigares tiendra registre du poids de tous les colis de tabac en feuilles ou d'autres matières premières qui entreront dans la manufacture. Le département fournira un livre à cette fin.

Art. 12. Lorsqu'il sera reçu du tabac en feuilles privé de ses tiges dans quelque manufacture de cigares, l'entrée qui en sera faite devra mentionner la nature de ce tabac à sa réception ainsi que plus tard lorsqu'il sera pris pour emploi, et la quantité ainsi reçue et prise pour emploi devra être également mentionnée dans une note au bas de la page sur le relevé mensuel du fabricant (F. 4,) et sur l'inventaire annuel, (G. 15).

Art. 13. Tous les paquets ou colis de matières premières reçues dans la manufacture seront numérotés consécutivement, en commençant par le numéro un, le premier jour de juillet de chaque année.

Art. 14. Une étiquette sera mise sur chaque colis, et indiquera la date de son entreposement, le numéro primitif et le numéro de série du colis, son poids brut, la tare, et le poids net et réel du tabac ou de toute autre matière première y contenue, et, s'il s'agit de tabac en feuilles, de déchets et de rognures, de tiges et d'autres produits non manufacturés du tabac en feuilles, les livres, le percentage d'eau et le nombre de livres étalons de tabac y contenus. Pour raison d'uniformité, l'étiquette dont on se servira jusqu'à nouvel ordre du département, se lira comme il suit, et le département la délivrera sur demande :—

On ne remplira pas le blanc des deux dernières lignes s'il s'agit de réglisse, de sucre, de gomme ou de matières premières autres que le tabac en feuilles, ses rognures ou ses autres produits, vu qu'il ne peut être fait de déduction pour la quantité d'eau que ces articles peuvent contenir.

Art. 15. Tous tabacs en feuilles ou autres matières, sur réception et aussitôt qu'on en aura fait un état, seront placés dans l'entrepôt destiné à cette fin et fermé avec un cadenas officiel, dont la clé demeurera entre les mains du préposé.

Art. 16. Les tabacs en feuilles et autres matières premières seront remis aux fabricants de tabac et de cigares en telles quantités qu'ils auront besoin d'employer ; comme ils peuvent avoir accès à l'entrepôt tous les jours, si c'est nécessaire, et prendre du tabac d'autant de colis qu'ils le désireront, comme s'il était sous leur contrôle exclusif, il est inutile d'en emporter en plus grande quantité que les besoins de chaque jour n'en requièrent. Si on prend des colis complets pour les employer, on devra les déclarer à la sortie de l'entrepôt selon le poids marqué sur ces colis à leur entrée.

(a.) Si, dans l'opinion du département, une manufacture de tabac ou de cigares ne possède pas les commodités nécessaires pour emmagasiner tout le tabac en feuilles et les autres matières premières dans la pièce fermée à clef désignée pour cette fin, sans causer trop de tracas au fabricant, le percepteur peut permettre qu'on emmagasine telle quantité qu'il jugera convenable dans d'autres parties de la manufacture ; et dans ce cas le fabricant mettra sur chaque paquet ou colis non destiné à être employé prochainement une carte rouge de pas moins de quatre pouces carrés sur laquelle les mots "En Entrepôt" seront imprimés en lettres hautes de pas moins d'un pouce ; et l'enlèvement de cette carte ou de partie du contenu de ce colis avant que le poids du colis n'ait été porté au débit du "Journal" comme "pris pour emploi," sera considéré comme un enlèvement illégal de marchandises d'un entrepôt et rendra le fabricant passible des pénalités fixées par la loi ;

(b.) Quand le contenu d'un colis est pris pour usage en différentes fois, la dernière déclaration devra faire concorder le total avec la quantité entreposée originairement et marquée sur ce colis ;

(c.) Il sera permis à un fabricant de prendre des colis entiers ou telle portion de colis qu'il aura besoin d'em-

ployer ; mais s'il devient évident en aucun temps que ses déclarations couvrent des quantités qui dépassent les bornes de son commerce, le percepteur demandera au département des instructions particulières.

Art. 17. Toutes les tiges se trouvant dans une manufacture de tabac ou de cigares, à moins d'être utilisées, ou qu'on ait l'intention de les utiliser immédiatement dans la manufacture, ou gardées par le fabricant dans le but de les exporter, devront être pesées une fois par mois au moins et détruites ou mises sous clé de la manière ci-après indiquée.

Les tiges, déchets, rognures et débris produits dans une manufacture de tabac ou de cigares reportés au fonds des existences et portés au débit du Magasinier *(Stock book)* n° 1, à moins d'être détruits ou enlevés, ou qu'on déclare vouloir les utiliser immédiatement, devront être déposés dans un entrepôt de tabac en feuilles.

Art. 18. On les détruira par le feu, mais un autre moyen pourra être autorisé spécialement. Les percepteurs sont autorisés à délivrer de temps à autre aux jardiniers connus des tiges de tabac devant servir uniquement à des fins horticoles. La quantité à fournir et les garanties à prendre pour que ces tiges ne soient pas détournées de leur destination sont laissées à la discrétion du percepteur. On pourra se procurer des formules d'obligation (A. 8,) et des permis (Bb. 13), en en faisant la demande au département. Si des personnes dignes de confiance désirent se servir de tiges de tabac pour engrais, le percepteur pourra leur en livrer en quantités qu'il jugera à propos. Cependant, dans ce cas, les tiges devront être mêlées avec l'engrais, en présence et à la satisfaction du préposé du département ; ce qui étant fait il ne sera exigé aucune obligation. Le fabricant ou la personne qui reçoit les tiges comme il sera réciproquement convenu, devra payer les frais résultant de la présence du préposé du revenu à l'endroit où les tiges sont ainsi détruites. Il sera fait une entrée des tiges fournies soit pour des fins horticoles, soit pour des fins d'engrais dans le *Relevé mensuel des tiges de tabac.* (G. 17.)

Art. 19. Les tiges, déchets, rognures et débris, avant d'être déclarés pour transport ou destruction, seront portés au débit du Magasinier n° 1.

Art. 20. Le tabac en feuilles qui aura été inscrit dans le "Journal" d'un fabricant de tabac ou de cigares comme pris pour emploi, ne pourra ensuite être sorti de la manufacture à l'état brut, à moins d'une permission spéciale obtenue dans chaque cas du percepteur.

Art. 21. Le tabac en feuilles et les déchets et rognures lorsqu'ils seront sortis d'une manufacture de tabac ou de cigares, devront, avant d'être déplacés, être pesés de nouveau et éprouvés et le manquant (s'il y en a) devra être constaté et la quantité ainsi déterminée sera entrée en livres étalons et devra être consignée à l'ordre du percepteur de la division où il sont entrés pour être déplacés. Si on découvre que le manquant est survenu sur le tabac ou les déchets et rognures pendant l'entreposement, il sera fait au département une demande d'entrée libre pour ces articles ou pour qu'ils soient traités autrement, selon que le département le jugera à propos.

Art. 22. En faisant l'inventaire du tabac et des matières premières mis sous cadenas officiel, il ne sera pas nécessaire de peser chacun des colis en entrepôt, mais seulement un nombre suffisant pour faire voir au préposé que les colis sont tels que l'étiquette l'indique. Quand le tabac n'est pas sous cadenas officiel, chaque colis doit être soigneusement pesé.

Art. 23. Comme on ne compte pas les tiges et débris en établissant la production dans les fabriques de cigares, les percepteurs tiendront la main à ce que ces produits soient régulièrement portés au débit du Magasinier n° 1, de façon qu'il n'en reste aucun solde à inscrire comme en voie de fabrication lors de l'inventaire.

Art. 24. Les aromates reçus dans une manufacture de tabac ou de cigares ne seront pas examinés par le préposé, mais le fabricant devra enregistrer leur poids comme dans le cas des autres matières premières.

B.—De la vente en bloc, par un fabricant à un autre, des déchets, rognures, tiges et balayures de tabac.

Art. 25. Chaque fois qu'un fabricant de tabac ou de cigares désirera vendre ses rebuts, déchets, rognures, tiges et balayures de tabac, en bloc et comme matière première, à un autre fabricant de tabac ou de cigares, pour être façonnés ou manufacturés, il lui sera loisible de le faire aux conditions suivantes, savoir :

(a.) Les déchets et les rognures, les tiges et les balayures de tabac, devront être mis en colis séparés et ne devront être mêlés dans aucun cas, et il ne sera pas permis non plus d'y ajouter du tabac en feuilles pour compléter le colis. Les différentes classes de tabac seront séparées et par paquets distincts;

(b.) La mutation devra être faite en entrepôt, et les marchandises consignées à l'ordre du percepteur du revenu de l'intérieur de la division à laquelle les marchandises doivent être transportées, de la même manière que pour les articles manufacturés ;

(c.) Les colis contenant les marchandises seront numérotés consécutivement et porteront chacun le chiffre du poids brut, de la tare, du poids net, et celui du poids étalon du tabac non manufacturé y contenu, plus le numéro de registre de la manufacture, le numéro de la déclaration d'entreposement, sa date, et le numéro de la division du revenu de l'intérieur ;

(d.) Personne autre que les fabricants de tabac et de cigares n'aura la permission soit d'acheter soit de vendre cette qualité de tabac, à moins qu'il ne soit empaqueté et estampillé et n'ait acquitté les droits fixés par la loi.

Art. 26. Si un fabricant de tabac ou de cigares désire vendre ses rebuts, déchets, rognures, tiges ou balayures de tabac pour l'exportation dans un pays étranger, il devra en faire une déclaration d'exportation en entrepôt de la même manière et sous l'empire des règlements qui gouvernent l'expédition et l'exportation des articles manufacturés.

Art. 27. Les fabricants de cigares ne pourront faire de petits paquets de rognures pour la consommation.

C.—De la mutation de la fleur de tabac en poudre et des déchets de tabac à chiquer haché fin d'une manufacture à une autre.

Art. 28. La fleur de tabac en poudre non préparée pour être utilisée, mais qui aura besoin de passer par quelque autre procédé, en la tamisant, marinant, aromatisant, ou autrement, avant qu'elle ne soit en état d'être employée ou consommée, pourra être vendue directement par un fabricant de tabac à un autre conformément aux règlements suivants :—

(a.) La fleur de tabac en poudre sera mise en colis, et ces colis seront numérotés consécutivement et porteront l'indication de leurs poids brut, tare et poids net, et de plus le numéro de registre de la manufacture d'où ils sont retirés, le numéro de la déclaration d'entreposement, sa date, et le numéro de la division du revenu de l'intérieur ;

(b.) La fleur de tabac en poudre ira d'une manufacture à une autre en entrepôt, les déclarations d'entreposement et de sortie et l'obligation de sortie nécessaires devant être faites et données comme dans le cas des autres mutations en entrepôt.

Art. 29. Les déchets de tabac à chiquer fin peuvent être vendus en bloc comme les rognures, débris, etc., par un fabricant de tabac à un autre ; mais s'ils sont mis en paquets pour le débit et la consommation, ces paquets devront contenir un vingtième, un seizième, un dixième, un huitième, un cinquième, un quart de livre, une demi-livre ou une livre chacun, et être estampillés comme les autres petits paquets de tabac. La loi n'autorise pas l'empaquetage des déchets de tabac à chiquer fin par cinq ou dix livres, comme pour le tabac à chiquer fin lui-même.

Art. 30. Les déchets de tabac à chiquer fin peuvent être vendus en bloc par un fabricant de tabac à un autre, conformément aux règlements qui suivent :—

(a.) Ils seront mis en paquets, qui seront numérotés consécutivement et indiqueront leurs poids brut, tare et poids net (ce dernier en livres apparentes et en livres étalons), et de plus le numéro de registre de la manufacture où ils auront été préparés ou dont ils auront été retirés, le numéro de la déclaration d'entreposement, sa date, et le numéro de la division du revenu de l'intérieur ;

(b.) Les déchets de tabac à chiquer fin, de même que la fleur de tabac à priser, seront transportés d'une manufacture à une autre en entrepôt.

Art. 31. Sur réception de la fleur de tabac en poudre ou des déchets de tabac à chiquer fin dans la manufacture où ils seront consignés, on les mettra dans l'entrepôt du tabac en feuilles, et on les délivrera au fabricant en telles quantités dont il aura besoin pour les utiliser.

Art. 32. La fleur de tabac en poudre et les déchets de tabac à chiquer fin, après la déclaration de la sortie en vue de leur préparation dans une autre manufacture de tabac licenciée, seront traités dans tous les livres comme matières premières, et comme ces opérations ne seront probablement pas assez importantes pour qu'il faille surcharger les livres de colonnes particulières à leur sujet, on les y traitera de la manière suivante dans les cas de sortie, savoir :—

(a.) Les inscriptions se feront à l'encre rouge ;

(b.) La date de leur production se fera dans la colonne 21 du "Journal" ; quand ils seront "débités au fonds" et "sortis de la manufacture," on consignera la date dans les colonnes 10 et 26 du Magasinier n° 1, respectivement ;

(c.) Dans la manufacture où ils seront reçus, on indiquera aux colonnes 9 et 25 du Magasinier n° 1, quand ils

seront " apportés " et " pris pour emploi," respectivement, et aussi dans la colonne 7 du Journal, quand ils seront " pris pour emploi."

(d.) Les explications seront consignées dans les colonnes 2 et 19 du Magasinier n° 1 et les colonnes 2 et 15 du Journal ;

(e.) Les totaux relatifs aux déchets de tabac à chiquer fin et de la fleur de tabac à priser seront écrits à l'encre rouge, et distincts et séparés des totaux des débris, rognures et rebuts, tels qu'indiqués aux colonnes ci-haut mentionnées.

D.—Echantillons de tabac en feuilles.

Art. 33. Comme on semble ne pas parfaitement comprendre comment il faut traiter les petites quantités de tabac en feuilles importées comme échantillons, et sur lesquelles le département ne peut percevoir de droits, les règlements suivants sont faits pour l'usage des préposés des douanes aux ports où ces échantillons sont importés :—

(a.) Ces échantillons doivent être entreposés dans un entrepôt de douane de la même manière que tout autre tabac en feuilles importé ;

(b.) La sortie de ces échantillons de l'entrepôt de douane en quantités n'excédant pas cent cinquante livres à la fois pourra être autorisée à la suite d'une obligation de sortie consentie au percepteur des douanes par les personnes qui veulent retirer le tabac, et du cautionnement d'un franc-tenancier résidant, ou d'une autre personne solvable résidant à ou près du port où l'obligation est donnée. Chaque paquet ou échantillon séparé sera soigneusement scellé et estampillé afin de pouvoir être identifié ;

(c.) La déclaration de sortie constatera exactement la quantité, la nature et la qualité du tabac à retirer, telles que connues dans le commerce, y compris tous les détails nécessaires pour reconnaître l'identité des divers échantillons ou paquets ;

(d.) Le percepteur des douanes inscrira sur le dos de chaque papier de sortie la date à laquelle expirera l'obligation de sortie, et y mentionnera que le porteur est autorisé à emporter avec lui le tabac y désigné dans le but de l'exhiber à ses clients ;

(e.) Les conditions de l'obligation seront que, dans un temps spécifié, le tabac devra être livré à un fabricant de tabac ou de cigares licencié et inscrit dans ses livres, ou qu'il sera exporté ;

(f.) L'obligation ne sera annulée que sur la production d'un certificat d'un préposé de l'accise à l'effet que le tabac a été inscrit dans les livres d'un fabricant de tabac ou de cigares licencié, ou d'un certificat d'un préposé des douanes à l'effet que le tabac a été exporté, et cela dans les délais fixés ;

(g.) Outre ce certificat, dans le cas d'exportation, il faudra s'être conformé à tous les règlements d'entreposement en vigueur relativement à l'exportation des marchandises en douane avant que l'obligation ne soit annulée ;

(h.) Chaque fois que l'obligation ne sera pas annulée de la manière ci-dessus, et dans les délais fixés, il sera du devoir du percepteur des douanes devant qui elle aura été consentie de requérir des personnes en cause le paiement immédiat de la somme pénale stipulée dans l'obligation, laquelle, en conformité de l'article 312 de l'*Acte du revenu de l'intérieur*, sera égale à 30 centins par livre du tabac y mentionné ;

(i.) Lorsque des échantillons sont colportés par le commis voyageur d'une personne ayant licence pour entreposer du tabac en feuilles sous l'autorité de l'*Acte du revenu de l'intérieur*, un état exact de ces échantillons sera dressé par le préposé de l'accise et inscrit dans les livres de l'entreposeur, et les mêmes moyens seront pris pour constater leur identité que dans le cas des échantillons qui viennent d'être importés ;

(j.) Il sera consenti à leur sujet une obligation de la même nature que pour les échantillons qui viennent d'être importés, sauf cette différence, qu'au lieu de renfermer l'alternative de l'exportation, les conditions exigeront leur retour à l'entrepôt de l'entreposeur licencié, qui les inscrira dans ses livres ;

(k.) Chaque fois qu'il le voudra, l'importateur pourra payer un droit de trente centins par livre sur les échantillons de tabac en feuilles et y faire apposer l'estampille spéciale des échantillons de tabac en feuilles pourvue à cette fin, et emporter et exhiber ses échantillons sans être tenu de consentir une obligation de sortie, d'avoir le certificat des préposés de l'accise touchant leur inscription dans les livres d'un fabricant, ni à quoi que ce soit concernant l'exportation des échantillons ;

(l.) Les estampilles spéciales des échantillons de tabac en feuilles seront détruites quand le tabac entrera pour être employé dans une manufacture de tabac ou de cigares.

TITRE II.

A.—Estampilles pour le tabac.

Art. 34. Sous l'autorité de l'*Acte du revenu de l'intérieur*, des estampilles des dénominations suivantes ont été gravées, et leur usage est par les présentes prescrit, savoir :—

(a.) Des petites estampilles, en feuilles, de la dénomination de dix, vingt, cinquante et cent pour cigarettes, d'un seizième de livre pour le tabac en poudre, et d'un dixième de livre pour le tabac haché.

(b.) Des bandes estampillées, en feuilles, de la dénomination d'un vingtième, d'un seizième, d'un douzième, d'un dixième, d'un neuvième, d'un huitième, d'un sixième, d'un cinquième, d'un quart, d'une demi-livre et d'une livre, pour tous paquets réguliers de tabac haché et pulvérisé, déchets, tiges, rognures et balayures de tabac ;

(c.) Des bandes estampillées, en feuilles, de la dénomination de cinq et de dix livres, pour seaux, barils ou tambours de tabac à chiquer haché fin ;

(d.) Des bandes estampillées, en feuilles, de la dénomination d'un seizième, d'un huitième, d'un quart, d'une demi-livre et d'une livre, pour paquets ou colis de tabac en poudre, aussi bien que pour les paquets ou colis de tabac haché et pulvérisé, déchets, tiges, rognures et balayures, tel que dans la clause (*b*) ci-dessus ;

(e.) Des bandes estampillées, en feuilles, de la dénomination de cinq et de dix livres, pour paquets ou colis renfermant du tabac en poudre qui ne contient pas plus de quarante pour cent d'eau ;

(f.) Des bandes estampillées, en feuilles, de la dénomination de cinq, dix et vingt livres, pour paquets ou colis de tabac en poudre contenant plus de quarante pour cent d'eau ;

(g.) Coupons estampillés, en livrets, de la dénomination de une, cinq, dix, quinze et vingt livres, avec coupons d'une demi-livre, et de trente-cinq, soixante, soixante-dix et cent livres, avec coupons d'une livre.

Art. 35. Sauf dans le cas de cigarettes, aucune estampille d'une dénomination moindre qu'un huitième de livre n'a été faite pour le tabac produit par la feuille canadienne seule.

Art. 36. Le devoir de tout officier qui a la surveillance d'une manufacture de tabac ou de cigares l'oblige de veiller à ce que les paquets revêtus d'une estampille ne contiennent pas plus de tabac ou de cigares que l'estampille n'en doit couvrir, et les paquets doivent dans tous les cas être complets, c'est-à-dire, qu'on ne mettra pas une estampille de dix livres sur un paquet d'une capacité de quinze à vingt livres, lors même que ce paquet ne contient que dix livres de tabac. S'il découvre en aucun temps des paquets de tabac ou de cigares portant des estampilles représentant une quantité moindre que celle qu'ils contiennent, il est de son devoir de les détenir comme confisqués et de communiquer le cas dans tous ses détails au département par le canal du percepteur de la division.

Art. 37. La couleur et la description des estampilles employées pour les paquets ou colis de tabac et de cigares seront déterminées par le département du Revenu de l'Intérieur.

B.—Estampilles pour les cigares.

Art. 38. Le commissaire du revenu de l'intérieur a fait graver des estampilles de cigares des dénominations suivantes pour le prélèvement des droits sur les cigares :—

(a.) Des bandes estampillées, en feuilles, pour boîtes ou paquets contenant trois, six, dix, vingt-cinq, cinquante, cent et deux cents cigares chacune ;

(b.) Des bandes estampillées, en feuilles, pour boîtes d'échantillons de cigares contenant chacune vingt-cinq cigares ;

(c.) Des bandes estampillées, en feuilles, pour boîtes de cigares importés, (le droit portant sur la livre, comme ci-devant) ;

(d.) Les fabricants devront toujours faire la demande d'estampilles à paquets soit de trois ou de six cigares pour au moins 1,000 cigares.

Art. 39. Les estampilles devant servir pour les boîtes d'échantillons de cigares sont de couleur jaune et portent la lettre " F," si on les emploie pour les cigares qui proviennent du tabac en feuilles étranger, et la lettre " C " si les cigares sont manufacturés avec le tabac en feuilles canadien.

C.—Estampilles pour le tabac canadien (ou blanc) en torquettes.

Art. 40. Les estampilles pour le tabac canadien en torquettes embrassent les dénominations d'un quart de livre, d'une demi-livre et d'une livre chacune.

Art. 41. Les estampilles de ces dénominations seront fournies aux maîtres de poste et à d'autres personnes par

tout le pays, lesquels tiendront un registre des noms de ceux à qui ils vendront des estampilles, ainsi que du numéro de la licence et du numéro et de la dénomination des estampilles vendues à chacun (ayant soin de n'en vendre qu'aux porteurs de licences). On leur fournira un livre à ces fins. Le registres des ventes en question sera en tout temps ouvert à l'examen des préposés du revenu de l'intérieur.

Art. 42. On devra observer les règlements suivants relativement à la vente des estampilles pour le tabac canadien en torquette :—

(a.) Faire un relevé quotidien des ventes (ou aussi souvent qu'il y en a) comme la chose se pratique dans le cas des autres perceptions. Employer la formule D.12, laquelle établira : (*a.*) Les noms des acheteurs ; (*b.*) La dénomination et les numéros consécutifs des estampilles ; (*c.*) Le poids total représenté par les estampilles ; et (*d.*) Le montant total des droits ;

(b.) Lorsqu'il sera fait plus d'une vente le même jour, il ne sera pas nécessaire de faire un papier d'entrée distinct pour chaque vente ; mais les noms des personnes autorisées à vendre des estampilles à commission ne devront pas figurer sur la même entrée que les ventes à d'autres personnes ;

(c.) Dans le cas d'estampilles vendues à commission, le plein montant des droits à percevoir sur le poids représenté par les estampilles devra être déposé au crédit du receveur général, le percepteur prenant le montant de la commission à même l'avance à lui faite pour dépenses imprévues ;

(d.) A la fin de chaque moins (ou plus souvent s'il est nécessaire) le percepteur transmettra au département un état des montants accordés à titre de commission, notant le numéro de chaque entrée, le montant des droits qu'elle représente, et le montant de la commission accordée. Cet état sera vérifié et s'il est exact, il sera émis un chèque pour le montant.

(e.) Si jamais on emploie des estampilles pour du "tabac canadien en torquette" qui a été saisi, on devra se servir d'une feuille de déclaration distincte pour ces estampilles, ou elles pourront encore figurer sur la feuille de déclaration employée pour rendre compte du produit de la saisie.

Art. 43. Le tabac canadien en torquettes ne peut être manufacturé pour le débit par le cultivateur à moins qu'il n'ait pris une licence, qui coûte deux piastres ; et la loi inflige une forte amende à tout cultivateur qui manufacturerait pour le vendre du tabac canadien en torquettes sans avoir pris sa licence. Les percepteurs du revenu de l'intérieur et les autres officiers qui agissent au nom de ce département prendront, en conséquence, tous les moyens en leur pouvoir pour faire savoir aux cultivateurs combien il leur importe de prendre ces permis et d'estampiller le tabac canadien en torquettes avant de le mettre en vente.

Art. 44. Les estampilles doivent être fixées au rôle ou rouleau en les entrelaçant avec celui-ci quand il est terminé, de façon que les deux bouts de l'estampille en fassent une fois le tour, et en les y assujétissant solidement avec de la gomme ou de la colle. Dans tous les cas, l'estampille doit être apposée au moyen de bonne gomme, et chaque officier de ce département est requis, en autant que la chose est en son pouvoir de faire comprendre aux cultivateurs qui manufacturent le tabac canadien en torquettes pour la vente, qu'il est nécessaire que l'estampille adhère fermement au tabac pour protéger celui-ci contre la saisie, car si on découvre, quelque part ailleurs qu'en la possession du cultivateur fabricant licencié ou dans l'établissement d'un fabricant licencié seulement pour le manufacture du tabac canadien en feuilles, des paquets ne portant pas l'estampille dûment apposée, ceux-ci seront certainement saisis et confisqués en conformité de la loi.

Art. 45. La loi inflige aussi de fortes amendes aux personnes qui ouvrent un paquet ou colis de tabac sans briser l'estampille y apposée, ou en la possession desquelles un paquet ouvert irrégulièrement serait trouvé, ou encore des estampilles qui auraient servi.

Chaque officier profitera, en conséquence, de toutes les occasions qu'il aura pour faire connaître ces choses à ceux qu'elles concernent.

D.—Estampilles de mutations en entrepôt.

Art. 46. Les estampilles pour permis de mutation en entrepôt, qui doivent être apposées sur les paquets ou colis de tabac retirés des entrepôts, sont des dénominations suivantes, savoir :—

(a.) Pour apposer sur les seaux, barils, tambours ou autre colis de tabac à chiquer haché fin, pesant cinq et dix livres chacun ;

(b.) Pour apposer sur les paquets de cinq, de dix et de vingt livres de tabac à priser ;

(c.) Pour apposer sur les paquets de tabac en tablettes pesant de cinq à vingt-cinq livres ;

(d.) Pour apposer sur les paquets de tabac en tablettes pesant de trente-cinq à cent dix livres ;

(e.) Pour apposer sur les colis, boîtes ou paquets de cigares.

Art. 47. Il faut les apposer comme il suit :—

(a.), *(b.)* et *(e.)* seront apposées de façon à couvrir à peu près également le couvercle et le corps du colis ou paquet ;

(c.) et *(d.)* devront être apposées à l'endroit même de la boîte ou du colis qui est réservé à l'estampille qui indique le paiement des droits, savoir : sur un coin ou angle de la boîte ou colis, à égale distance des bouts, adhérant à peu près également à chaque côté.

Art. 48. Chaque colis de tabac ou de cigares déplacé en entrepôt devra porter une estampille de mutation en entrepôt désignée pour l'espèce de paquet ou colis dont il s'agit ; l'estampille sera apposée au colis et annulée par le fabricant ou son agent. L'annulation se fera au moyen du timbre à rouleau employé pour la première annulation de l'estampille de droits payés. Si le fabricant le désire, les estampilles de mutation en entrepôt peuvent être mises sur les colis qu'il entend retirer lorsque le tabac ou les cigares sont placés dans l'entrepôt.

Comme ceci est uniquement pour accommoder le fabricant, l'entente doit être qu'il ne demandera ces estampilles que pour les apposer sur les paquets qu'il *sait* devoir être entrés pour mutation ou transfert en entrepôt. S'il ne le peut, les estampilles ne pourront être fournies qu'au temps de l'entrée des articles pour mutation ou transfert. Les préposés aux manufactures de tabac et de cigares sont requis de veiller à ce que ces estampilles soient employées régulièrement.

E.—Estampilles pour la douane.

Art. 49. Des arrangements ont été pris avec le département des douanes pour qu'à l'avenir le département du Revenu de l'Intérieur fournisse, par l'entremise de ses percepteurs, les estampilles pour les tabacs importés. Les percepteurs du revenu de l'intérieur se mettront en conséquence en communication avec le ou les percepteurs des douanes qui peuvent demander à en être munis par le bureau d'accise et les prieront de faire la commande au percepteur du revenu de l'intérieur de la quantité d'estampilles dont ils auront probablement besoin à leurs ports respectifs.

Art. 50. Comme il faut un assez long temps pour se procurer des estampilles quand on n'en a pas à l'époque de la commande, les percepteurs du revenu de l'intérieur susdit, prieront les percepteurs des douanes de faire leur réquisition le plus tôt possible.

Art. 51. Les dénominations d'estampilles pour le tabac et les cigares importés, sont les mêmes que celles servant aux articles de même nature fabriqués en Canada, plus l'addition d'une estampille pour les échantillons de tabac en feuilles, les estampilles de cigares au taux des droits par livre au lieu de par mille, et les estampilles de cigarettes des dénominations de un quarantième et un vingtième d'une livre.

F.—Fourniture des estampilles.

Art. 52. Les estampilles seront fournies par le département sur demande régulière faite par le percepteur du revenu de l'intérieur, qui aura soin de s'y prendre assez à l'avance pour en tenir toujours un approvisionnement égal à la demande probable pour trois mois, comme le veut l'article 280 de l'*Acte du revenu de l'intérieur*. Aussitôt qu'il recevra un envoi d'estampilles, le percepteur ou tout autre préposé les comptera, et si l'envoi concorde avec le reçu qui l'accompagne, il datera et signera celui-ci et le renverra au département par la plus prochaine malle, et il portera les estampilles reçues au débit dans son "Journal général des estampilles de tabac (K. 21*a.*)" S'il y a erreur, il en avertira aussitôt le département, et il portera le nombre exact qu'il aura reçu au débit de son compte d'estampilles. Les percepteurs et les autres officiers devront rendre compte de chaque estampille qu'ils auront reconnu avoir reçue.

Art. 53. Chaque dénomination d'estampilles aura son compte distinct, qui sera tenu en la manière indiquée à la première page des cahiers d'estampilles, c'est-à-dire en portant au débit le nombre reçu et au crédit le nombre émis. En ouvrant ces comptes, on commencera par porter au débit le nombre d'estampilles des diverses dénominations que l'on a en mains.

Art. 54. Les percepteurs sont priés d'envoyer au département, le premier de chaque mois, par la poste et enregistrés, tous les cahiers contenant des souches marginales ou des coupons non employés dont les dernières estampilles auront été détachées dans le cours du mois précédent. On en coupera proprement les couverts à l'égalité des sou-

ches. Les morceaux ainsi détachés ne seront pas envoyés au département. Tous les cahiers contenant des souches de coupons ainsi renvoyés porteront dans l'espace en blanc en regard de chaque feuille de coupons le nombre de livres représenté par les coupons non employés de cette page. A la feuille blanche qui commence chaque cahier sera fait un relevé du nombre de livres représentés par les coupons non employés de chaque feuille en détail avec indication du total. Les percepteurs se créditeront de ces coupons renvoyés dans leur journal général des estampilles pour le tabac (K. 21*a*).

G.—Manière d'apposer les estampilles de tabac et de cigares.

Art. 55. En vertu de l'article 280 de l'*Acte du revenu de l'intérieur*, il est par le présent prescrit que les estampilles seront apposées sur les paquets ou colis de tabac et de cigares de la manière suivante, savoir :—Tous les colis ou paquets de tabac, excepté le tabac à chiquer haché fin et le tabac en poudre, contenant cinq livres et plus, recevront une estampille et des coupons gradués d'une dénomination correspondant au poids net du tabac y contenu. Par exemple, un colis contenant de dix à vingt-cinq livres et de soixante à quatre-vingts livres, peut être et sera couvert d'une seule estampille en employant les coupons attachés à l'estampille si le poids du colis n'est pas exactement de dix, quinze, vingt, soixante ou soixante-dix livres : si le poids est exactement de ces chiffres, on n'emploiera qu'une estampille sans coupons. Quand le poids du tabac contenu dans le colis est entre dix et vingt-cinq livres, et entre soixante et quatre-vingts livres, on se sert des coupons en même temps que de l'estampille qui porte ces chiffres, afin qu'avec un ou plusieurs coupons elle puisse correspondre au poids réel du colis. Il n'est pas permis de se servir de coupons de demi-livre pour les colis contenant vingt-cinq livres et plus. Tous les autres colis de tabac seront revêtus d'estampilles de la dénomination fixée par le département, et il ne sera apposé qu'une seule estampille sur chaque colis.

Art. 56. Sur toute espèce de boîtes ou colis de tabac cavendish, en tablettes, en torquettes, ou de toute autre forme, l'estampille sera apposée sur un coin ou angle de la boîte ou du colis, à égale distance des bouts, et en la fixant à peu près également sur chaque côté. Et toutes les boîtes et colis en bois auront une rainure de pas moins d'un trente-deuxième de pouce de profondeur, afin d'y mettre l'estampille et l'empêcher d'être déchirée ou usée dans le transport.

Art. 57. Sur tous barils, tambours, seaux et autres colis contenant cinq et dix livres de tabac à chiquer fin, et cinq, dix et vingt livres de tabac en poudre, tel que permis par la loi, l'estampille qui a la forme d'une bande sera mise en travers du couvercle, de sorte qu'elle descende de chaque côté du colis et le scelle bien.

Art. 58. Les bandes estampillées, employées soit pour les colis contenant du tabac à fumer, du tabac à chiquer fin, du tabac à priser, des cigares ou des cigarettes. doivent être apposées de façon à sceller efficacement les colis et à rendre impossible leur ouverture ou l'enlèvement de leur contenu sans détruire ou briser les estampilles. Sur les boîtes de cigares on doit les mettre à pas moins de trois quarts de pouce du bout.

Art. 59. La pratique suivie, qui consiste à mettre les cigarettes dans des petits paquets tenus ensemble au moyen d'une bande étroite, et placés dans un grand colis qui est seul estampillé, ne sera plus permise. Toutes les cigarettes devront être mises dans des colis, tel que prévu par l'acte, et chaque colis devra porter l'estampille régulière du revenu.

Art. 60. Les bandes estampillées pour le tabac sont assez longues pour passer sur les deux bouts du colis et contourner les angles opposés, scellant ainsi efficacement le colis, et c'est ainsi qu'on doit les apposer ; quand on s'en sert pour des sacs qui ne s'ouvrent qu'à une seule extrémité, il faut les apposer de façon à bien clore celle-ci.

Art. 61. On appose les estampilles sur les colis en se servant d'une matière adhésive qui les colle au bois, au papier, etc., solidement et permanemment. Après que les estampilles mises sur les colis en bois ou en métal auront séché et qu'elles auront été annulées, tel que prescrit, il faut y passer une couche de vernis, en ayant soin cependant de ne pas obscurcir ni effacer l'impression faite sur l'estampille.

Art. 62. Les estampilles de tabac ou de cigares n'adhéreront pas à l'étain en feuille, avec la gomme ou la colle ordinaires. Le fabricant devra alors ou envelopper l'étain dans un papier, ou se procurer quelque gomme ou colle avec laquelle les estampilles puissent adhérer tellement aux colis qu'il soit impossible de les en enlever sans les détruire.

Art. 63. Il ne sera pas permis aux fabricants ni aux importateurs de cigares d'entourer la boîte ou le colis qui contient les cigares d'une enveloppe extérieure de papier ou autre matière et d'apposer l'estampille sur cette enveloppe. L'estampille doit être mise sur le colis même pour y demeurer comme preuve qu'il est légalement en la possession du propriétaire.

RECETTES.

Art. 64. Voici des recettes pour faire à peu de frais d'excellente colle et d'excellent vernis ; elles ont été essayées et peuvent être recommandées :—

Pour la colle :—Dissoudre une livre de gomme arabique dans une chopine et trois quarts d'eau bouillante ; ajoutez de deux à quatre onces d'acide acétique ; tenir bien bouché quand on ne s'en sert pas. Appliquez également sur l'estampille ou l'avis, et pressez fortement sur le bois ou toute autre matière dont le colis est fait.

Pour le vernis :—Mettre dans une bouteille suffisamment grande une demi-livre de gomme laque blanchie, écrasée fin, et ajoutez de l'alcool très fort ; agitez de temps à autre jusqu'à dissolution parfaite, et tenez bouché pour empêcher l'évaporation. Si le vernis devenait trop épais, ajoutez un peu d'alcool.

Art. 65. Les estampilles doivent être apposées aux colis de tabac ou de cigares, dans la manufacture, par le fabricant ou son agent ; dans l'entrepôt licencié, par l'entreposeur ou son agent, et dans l'entrepôt de douane, par le préposé des douanes. Bien que la responsabilité de l'estampillage du tabac sorti de l'entrepôt d'accise d'un marchand repose sur le propriétaire de l'entrepôt, l'officier livrant le tabac doit l'aider dans l'apposition et l'annulation des estampilles, quand la chose peut se faire aussitôt après la sortie des marchandises de l'entrepôt.

H.—Etampes et poinçons d'annulation.

Art. 66. Autorisé par l'article 281 de l'*Acte du revenu de l'intérieur*, le commissaire du revenu de l'intérieur fournira des poinçons d'acier pour l'annulation de toutes les estampilles apposées sur les colis ou paquets en bois ou faits partie en bois et partie d'autres matériaux et qui contiendront du tabac. Ces poinçons seront expédiés aux divers percepteurs du revenu de l'intérieur et seront par eux prêtés au fabricant de tabac ou à la personne mentionnée dans la réquisition à cet effet, mais à personne autre.

Art. 67. Pour opérer l'annulation, il faudra appliquer deux fois le poinçon sur l'estampille apposée au paquet ou colis, une première fois sur l'endroit de l'estampille marquée *Cancellation by steel die* (Annulation par poinçon d'acier), et la seconde fois sur le haut de la vignette de l'estampille.

Art. 68. Un rouleau d'acier est aussi fourni pour l'oblitération par incision des estampilles apposées sur les boîtes en ferblanc contenant du tabac ; on le passe d'un bord de l'estampille à l'autre et jusque sur le métal dont le colis est fait. Il faut s'en servir de manière à couper l'estampille et à prolonger la ligne de séparation jusque sur le métal. On l'applique sur l'estampille de chaque côté du colis, mais il faut faire en sorte de ne pas toucher à la marque d'annulation faite par l'étampe de caoutchouc.

Art. 69. Les percepteurs tiendront un compte de tous les poinçons d'acier et autres instruments qui leur seront confiés, et une liste des noms de toutes les personnes à qui ils seront fournis, avec la date de leur livraison. Ils ne devront être fournis qu'aux fabricants de tabac dûment autorisés et aux autres personnes d'après les instructions du département. S'il arrive que le poinçon soit brisé ou endommagé entre les mains d'un fabricant ou d'une autre personne au point de devenir inutile, ou quand une personne qui aura reçu ce poinçon officiel cessera d'avoir droit de s'en servir légalement, il sera remis au percepteur qui le gardera en sa possession sujet aux ordres départementaux et porté au crédit de cette personne.

Art. 70. La loi oblige tout fabricant de tabac qui met son tabac en colis, comme ci-dessus, et toute personne qui retire du tabac d'un entrepôt d'accise, à se servir de ce poinçon, et les estampilles apposées sur ces colis ne seront pas considérées comme suffisamment annulées, et les colis et leur contenu seront exposés à la saisie, chaque fois qu'on en découvrira dont les estampilles n'auront pas été annulées avec le poinçon officiel et de la manière ci-après indiquée, savoir : l'estampille doit être annulée de telle façon qu'une partie en soit *enfoncée et logée dans le bois* du colis, ou, si celui-ci est en métal, que l'estampille soit coupée et que la ligne de séparation se prolonge jusque sur le métal.

Art. 71. Les timbres à rouleau pour l'annulation des estampilles de tabac et de cigares seront aussi fournis par le département, sur la demande régulière qui en sera faite.

Ces timbres à rouleau d'annulation sont comme suit, savoir :—

(a.) A l'usage des fabricants de tabac pour annuler les bandes estampillées apposées sur le tabac mis en paquets

de papier, de toile ou d'autre matière molle, et pour la première annulation de toutes les autres estampilles apposées sur des paquets ou colis de tabac ;

(b.) A l'usage des fabricants de cigares pour annuler les bandes estampillées employées pour les boîtes de cigares ;

(c.) A l'usage des personnes qui ont des entrepôts licenciés, pour annuler (en outre de l'annulation par le poinçon d'acier ou autre instrument) les estampilles sur les paquets ou colis sortis d'entrepôt pour le paiement des droits, d'un entrepôt autre que celui du fabricant où le tabac a été manufacturé ;

(d.) A l'usage des percepteurs pour annuler les estampilles sur les paquets ou colis de tabac et de cigares transportés en entrepôt en vertu des dispositions de l'article 25 des *Règlements des entrepôts* et pour annuler les estampilles sur le tabac sorti d'entrepôt d'un entrepôt du revenu de l'intérieur, établi sous l'autorité de l'article 65 de l'*Acte du revenu de l'intérieur*.

(e.) A l'usage des préposés des douanes pour annuler les bandes estampillées apposées sur le tabac importé mis en paquet dans du papier, de la toile ou dans d'autres matières molles, et pour la première annulation de toutes les autres estampilles mises sur des paquets ou colis de tabac ;

(f.) A l'usage des préposés des douanes pour annuler les bandes estampillées mises sur les boîtes de cigares.

Art. 72. En faisant la demande de ces timbres à rouleau on emploiera pour l'uniformité, les formules suivantes : Citez le numéro de la manufacture, ou la lettre de l'entrepôt, le numéro de la division et le nom de la personne qui fait cette demande comme suit :—

1.30. Rouleau de manufacture de tabac, pour J. E. Tuckett.

2.28. Rouleau de manufacture de cigares, pour S. Myers.

A. 17. Rouleau d'entrepôt de tabac, pour D. C. Brosseau.

A. 17. " de cigares "

30 Tabac } Rouleau général d'entrepôt d'accise
30 Cigares } pour la division de *(Hamilton)*.

Si le rouleau est pour l'usage des douanes, le port devrait être indiqué ainsi :—

Douanes, Tabac, Weymouth, N.-E.
Douanes, Cigares, Woodstock, N.-B.

Art. 73. Les personnes qui feront par la suite la demande de timbres à rouleau devront faire enregistrer leurs noms au département avant qu'ils ne leur soient fournis. Lorsque par suite de l'usure ordinaire il sera nécessaire d'avoir de nouvelles bandes en caoutchouc un nouveau timbre complet sera fourni à demande, et à sa réception l'ancien devra être renvoyé au département.

Art. 74. Les percepteurs doivent tenir un compte de toutes les étampes d'annulation qui leur sont confiées comme pour les poinçons d'annulation en acier.

Art. 75. La loi exige que toutes les estampilles mises sur les paquets ou colis de tabac ou de cigares soient annulées au moyen d'une étampe ou d'un poinçon officiels, et il est maintenant prescrit que lorsqu'elles sont sur d'autres boîtes ou colis et que des boîtes en bois ou des colis de cavendish, l'annulation se fera au moyen du timbre à rouleau reconnu par le département ; outre cette annulation, les estampilles apposées sur les boîtes en bois auront à subir celle du poinçon d'acier, et les estampilles apposées sur les colis en métal celles du rouleau d'acier à incision fourni à cette fin.

I.—Mode d'annulation des estampilles de tabac et de cigares.

Art. 76. Toutes les estampilles seront annulées aussitôt après leur apposition sur les colis, mais l'annulation au moyen du timbre à rouleau, sauf dans le cas des cigares, peut être faite par le fabricant ou une autre personne immédiatement avant cette apposition.

Art. 77. Les estampilles de tabac doivent être annulées en mettant sur chacune, dans l'espace oblong laissé à cette fin, l'empreinte du numéro de registre de la manufacture ou de la lettre de l'entrepôt du marchand et du numéro de la division du revenu de l'intérieur. Des timbres à rouleau à main en caoutchouc seront fournis par le département à cette fin, aux frais de la personne qui se les procurera ; mais si un fabricant désire se servir d'un timbre s'appliquant différemment, permission pourra lui être donnée d'employer ce mode d'annulation exclusivement.

Art. 78. Les estampilles employées pour les colis de cinq ou dix livres de tabac à chiquer haché fin, pour les colis de cinq, dix et vingt livres de tabac à priser, et pour les quarts de boîtes, les demi-boîtes et boîtes de tabac, si celles-ci sont en bois, doivent en outre être annulées au moyen du poinçon d'acier fourni à cette fin, lequel renfonce une partie de l'estampille dans le bois du colis et doit être appliqué deux fois, la première fois dans l'espace réservé pour cela, la seconde fois sur la vignette de l'estampille. La seconde annulation des estampilles mises sur les boîtes ou colis en métal se fera au moyen du rouleau d'acier à incision fourni à cette fin, et qui coupe l'estampille et continue la ligne de séparation au delà de l'estampille jusque sur le métal du colis ; on l'applique sur l'estampille des deux côtés du colis.

Art. 79. Les estampilles sur les colis de tabac importé seront annulées de la manière suivante, savoir :—Les estampilles sur les colis composés de papier, de coton, d'étain en feuille ou autre matière molle ou flexible, le seront au moyen d'un timbre à rouleau qui imprimera sur l'estampille le nom du port où a été faite la déclaration pour le paiement des droits, ou bien cette information pourra être écrite sur l'estampille. Les estampilles sur les colis en bois contenant du tabac en tablettes, du tabac haché fin pour chiquer, et des paquets de tabac à priser, seront annulées comme dit plus haut, mais outre cela elles seront aussi annulées au moyen du poinçon d'acier. Les estampilles sur les colis composés de métal, lorsqu'ils sont importés, seront, outre l'annulation ci-dessus, annulées au moyen du rouleau d'acier à incision fourni à cette fin, et qui coupe l'estampille et prolonge la ligne de séparation au delà de l'estampille jusque sur le métal dont le colis est composé.

Art. 80. Les estampilles sur les colis de tabac sorti de l'entrepôt pour la consommation par un marchand ou une personne autre que le fabricant et à la manufacture où le tabac est préparé ou empaqueté, seront annulées par la personne qui le sort d'entrepôt, au moyen d'un timbre à rouleau qui imprime, dans l'espace réservé à cette fin sur l'estampille, la lettre de l'entrepôt, et le numéro de la division du revenu de l'intérieur. Sur les colis en bois, les estampilles seront en outre annulées au moyen du poinçon d'acier fourni à cette fin, lequel poinçon renfonce une partie de l'estampille dans le bois qui forme le colis ; et sur les colis en métal, cette annulation se fera par le rouleau d'acier à incision fourni à cette fin, lequel instrument coupe l'estampille et prolonge la ligne de séparation au delà de l'estampille jusque sur le métal qui forme le colis.

Art. 81. Sur les colis de tabac sortis de l'entrepôt à la manufacture qui a préparé ou empaqueté le tabac, les estampilles seront annulées suivant les prescriptions des articles soixante et dix-neuf (79) et quatre-vingt (80) des présents règlements.

Art. 82. Les estampilles sur les boîtes à cigares seront annulées au moyen d'un timbre à rouleau fourni à cette fin ; l'empreinte de cette étampe dépasse l'estampille des droits payés du revenu de l'intérieur, et se prolonge sur le bois qui forme le colis. L'empreinte doit toujours se continuer sans interruption en travers de l'estampille, le lettrage étant fortement imprimé sur l'espace réservé pour l'annulation. Cette étampe d'annulation ainsi employée doit imprimer sur l'estampille le numéro du registre de la manufacture, et le numéro de la division du revenu de l'intérieur, tel que voulu pour toutes les autres estampilles.

Art. 83. L'annulation des estampilles de douane sur les paquets de cigares se fera au moyen d'un timbre à rouleau, comme il est dit à l'article précédent, mais l'information, qui sera imprimée dans l'espace réservé pour l'annulation, sera le nom du port où ils auront été retirés de l'entrepôt pour le paiement des droits.

Art. 84. En annulant les estampilles au moyen de l'empreinte comme il est ici prescrit, il faudra toujours se servir des espaces laissés en blanc à cette fin sur les estampilles.

Art. 85. L'annulation des estampilles de tabac ou de cigares se fera par les personnes suivantes, savoir :—

(*a.*) A une manufacture de tabac ou de cigares, par le fabricant ou son agent ;

(*b.*) A un entrepôt (autre que celui du fabricant où le tabac ou les cigares ont été fabriquées), par la personne qui retire le tabac ou les cigares de l'entrepôt ; et

(*c.*) Celle des estampilles sur le tabac et les cigares importés, par les préposés des douanes au port où le tabac ou les cigares sont sortis de l'entrepôt pour le paiement des droits.

Art. 86. L'importance qu'on attache à l'annulation de toutes les estampilles est démontrée par les fortes amendes et peines imposées à toute personne qui enlève de quelque fabrique ou endroit destiné à la fabrication du tabac ou des cigares, aucuns de ces effets sans qu'ils portent des estampilles dûment annulées, ainsi que par les amendes et peines imposées à toute personne qui vend ou offre en vente ou a en sa possession du tabac ou des cigares dont les estampilles ne *sont pas convenablement annulées*. L'intérêt du gouvernement, de même que la sûreté et la protection de ceux qui font le commerce du tabac ou des

cigares, exigent que les fabricants et autres apposent et annulent convenablement toutes les estampilles.

J.—Destruction des estampilles sur les colis ou paquets vides de tabac et cigares.

Art. 87. D'après l'article 263 de l'*Acte du revenu de l'intérieur*, toute personne qui vide une boîte, un sac, un vaisseau ou une chemise ou enveloppe quelconque portant une estampille et renfermant du tabac ou des cigares, est obligée d'en détruire l'estampille. Et toute personne qui néglige ou refuse de le faire est passible pour chaque contravention d'une amende n'excédant pas cent piastres.

Art. 88. Cette disposition de la loi s'applique non seulement aux débitants qui vident les paquets ou colis pour en débiter le contenu, mais aussi à toute personne qui achète du tabac ou des cigares pour son propre usage, et qui vide ces paquets ou colis. Cette personne doit détruire l'estampille.

Art. 89. Les percepteurs et autres préposés du revenu sont prévenus que bien que l'article 263 de l'acte exige que la destruction de l'estampille se fasse par l'enlèvement de toutes ses parties du paquet ou colis, le département, pour le présent, ne poursuivra pas dans le cas où l'estampille sera détruite en la défigurant ou en la détruisant de manière à ce qu'elle ne puisse plus servir. Ceci pourra se faire en enlevant les parties de l'estampille des différents endroits sur chacun des côtés du paquet ou colis; la proportion ainsi enlevée devant être en tout égale à au moins un quart de l'estampille.

K.—Étiquette d'avertissement.—Tabac et cigares.

Art. 90. Sur chaque paquet ou colis de tabac pesant plus d'une livre, que ce colis soit en bois ou d'autre matière, la loi veut qu'il y soit imprimé ou fermement collé une étiquette portant le numéro de la manufacture et le numéro de la division dans laquelle elle est située, et l'avis suivant:—

"Avis.—Le fabricant de ce tabac s'est conformé aux prescriptions de la loi. Il faut strictement observer les instructions ci-dessous, sous peine des amendes imposées par les statuts du Canada:—

1. Ouvrir ce colis de manière à briser l'estampille.
2. Ne pas se servir de ce colis pour y mettre d'autre tabac, une fois que le contenu actuel en aura été enlevé.
3. Le contenu ne doit être enlevé que pour vente immédiate, et
4. Lorsque le colis sera vide l'estampille doit être détruite.

Art. 91. Pour les boîtes, barillets, seaux, caisses ou autres colis de tabac pesant plus d'une livre, l'étiquette qui doit porter l'avis précédent devra avoir au moins quatre pouces et pas plus de six pouces de longueur, et pas moins de deux pouces et demi de largeur, et contiendra, en outre de l'avis, les indications suivantes, imprimées en lettres bien lisibles, savoir: (1) le numéro de la manufacture, et (2) le numéro de la division du revenu de l'intérieur. Ces étiquettes seront dans la forme ci-dessous, savoir:—

"Manufacture No.....Division du Revenu de l'Intérieur No.....

"Avis.—Le fabricant de ce tabac s'est conformé aux prescriptions de la loi. Il faut strictement observer les instructions ci-dessous, sous peine des amendes imposées par les statuts du Canada:—

1. Ouvrir ce colis de manière à briser l'estampille.
2. Ne pas se servir de ce colis pour y mettre d'autre tabac, une fois que le contenu actuel en aura été enlevé.
3. Le contenu ne doit être enlevé que pour vente immédiate, et
4. Lorsque le colis sera vide l'estampille doit être détruite.

Art. 92. La loi stipule que "tout fabricant de cigares collera fermement sur chaque boîte ou paquet contenant des cigares fabriqués par ou pour lui, une étiquette sur laquelle seront imprimés le numéro de sa manufacture, le numéro de la division du revenu de l'intérieur dans laquelle elle est située, et les mots suivants:

"Manufacture No....Division du Revenu de l'Intérieur No.....

"Avis.—Le fabricant de ces cigares s'est conformé aux prescriptions de la loi. Il faut strictement observer les instructions ci-dessous, sous peine des amendes imposés par les statuts du Canada:—

1. Ouvrir ce colis de manière à briser l'estampille.
2. Ne pas se servir de ce colis pour y mettre d'autres cigares, une fois que le contenu actuel en aura été enlevé.
3. Le contenu ne doit être enlevé que pour vente immédiate, et
4. Lorsque le colis sera vide l'estampille et le colis doivent être détruits.

Art. 93. Cette étiquette, pour toutes les boîtes de cigares, n'aura pas moins de trois pouces de longueur et deux pouces de largeur; ou, si elle est de forme circulaire ou ovale, elle couvrira pas moins de six pouces carrés de papier, et sera assez grande pour contenir en sus de l'avis prescrit, en lettres distinctes et lisibles: (1) le numéro de la manufacture, et (2) le numéro de la division du revenu de l'intérieur.

Art. 94. La formule suivante d'avertissement est prescrite et devra être employée sur les colis extérieurs contenant des cigarettes lorsque en paquets de dix (10) ou vingt (20) cigarettes chacun, et sur le tabac haché et le tabac en poudre en paquets d'une livre et moins, l'étiquette d'avertissement sur chacun des petits paquets formant le contenu, n'étant pas nécessaire.

"Manufacture No....Division du Revenu de l'Intérieur No....

"Avis.—Le fabricant des cigarettes (tabac haché ou tabac en poudre) ci-contenues s'est conformé à toutes les prescriptions de la loi. Tous sont prévenus de ne pas se servir de ce paquet ou colis pour y mettre des cigarettes (du tabac haché ou du tabac en poudre) de nouveau, ni de se servir de l'estampille, ni des enveloppes estampillées apposées sur les paquets ou colis de cigarettes (tabac haché, tabac en poudre), formant le contenu de ce paquet ou colis, sous peine des amendes prescrites par la loi à cet égard."

Les mots "Manufacture No....," "Division du Revenu de l'Intérieur No....," et "fabricant" seront omis quand l'étiquette sera apposée sur des paquets ou colis de cigarettes importées (de tabac haché importé ou de tabac à priser importé), et remplacés respectivement par le nom du port où importé, et le numéro de la déclaration de sortie d'entrepôt pour paiement des droits, et le mot "importateur."

Art. 95. La formule suivante "d'étiquette spéciale d'avertissement" devra être employée sur les paquets de tabac ou de cigares qui ont été saisis, confisqués, et vendus sous l'autorité de ce département, et sera fournie à demande.

C. S.

ACCISE.

TABAC OU CIGARES.

Saisie No.....

Etiquette spéciale d'avertissement.

Division du Revenu de l'Intérieur de.....

Avis.—On doit se conformer strictement aux instructions ci-dessous sous peine des amendes imposées par les statuts du Canada:—

1. Ouvrir ce colis de manière à briser l'estampille.
2. Ne pas se servir de ce colis pour y mettre d'autre tabac, une fois que le contenu actuel en aura été enlevé.
3. Le contenu ne doit être enlevé que pour vente immédiate, et
4. Aussitôt que le colis sera vide l'estampille doit être détruite, et dans le cas de cigares le colis aussi.

Les renseignements que le fabricant doit mettre sur les paquets ou colis, pourront dans ce cas être marqués au patron découpé, et le numéro de la saisie y sera ajouté.

Art. 96. Relativement aux cigares en paquets de trois (3) et de six (6) cigares chacun, il ne sera pas nécessaire qu'une étiquette soit apposée sur d'aussi petits paquets ou colis, mais les colis extérieurs qui les contiennent devront porter la formule d'avis suivante: "Avis.—Le fabricant des cigares ci-contenus s'est conformé à toutes les prescriptions de la loi. Tous sont prévenus de ne pas se servir de nouveau des paquets de cigares estampillés formant le contenu de ce paquet ou colis sous peine des amendes prescrites par la loi à cet égard."

Si les cigares sont importés le mot "fabricant," sera remplacé par le mot "importateur."

Art. 97. Les importateurs de tabac et de cigares sont aussi tenus par la loi d'apposer un avis sur chaque paquet de tabac pesant plus d'une livre et sur chaque paquet de cigares contenant dix cigares et plus importé par eux ou pour eux.

Art. 98. L'apposition de cette étiquette ou avis est obligatoire pour le fabricant ou l'importateur. Elle doit être imprimée ou le renseignement requis pourra être imprimé ou gravé sur ce qui compose le colis. Elle doit être fournie et apposée par le fabricant ou l'importateur avant que le tabac ou les cigares ne soient enlevés de l'endroit où ils sont fabriqués, ou auquel ils sont importés. Personne n'a le droit et il ne sera permis à personne dans aucun cas de déranger cet avis, de l'enlever de la boîte ou paquet, d'y substituer une autre étiquette, ou de la couvrir d'une étiquette à lui ou celle de toute autre personne.

Art. 99. Cette étiquette ou avis doit être distinctement l'étiquette qu'exige la loi. Les étiquettes seront apposées au colis dans un endroit visible où elles ne seront pas exposées à être déchirées en ouvrant le paquet, et où elles

seront exposées le moins possible à être effacées ou enlevées par le frottement, et de manière à ne pas être recouvertes ou cachées par toute autre étiquette ou marque, et de façon aussi à ne pas cacher toute autre marque ou empreinte que la loi exige d'appliquer sur le paquet.

Art. 100. La loi impose une amende de $50 à chaque fabricant ou importateur de tabac ou de cigares qui néglige d'apposer cette étiquette sur un colis contenant du tabac ou des cigares faits ou importés par ou pour lui, et à toute personne qui enlève d'un colis quelconque une étiquette ainsi apposée ; cette amende est distincte pour tout et chaque colis au sujet duquel l'infraction est commise.

Si le fabricant le désire, il peut augmenter, la grandeur du papier sur lequel l'avis est imprimé, de façon à pouvoir y imprimer, *distinctement et séparément de l'étiquette*, son nom et sa marque de commerce.

Titre 3.—tabac et cigares fabriqués.

Dispositions spéciales pour l'entreposement du tabac et des cigares, et pour les estampiller à la sortie de l'entrepôt, pour mutation en entrepôt, pour la consommation, ou pour les étamper lorsque destinés à l'exportation.

En sus des règlements généraux d'entreposement établis par l'arrêté du conseil, ce qui suit s'applique spécialement au tabac et aux cigares :—

Art. 101. Sur tous les paquets de tabac et de cigares, lorsqu'ils seront mis en entrepôt par le fabricant, toutes marques, numéros, poids et toute autre indication que la loi exige, doivent être écrits ou étampés sur les colis avant que la déclaration à l'entrée de l'entrepôt puisse être acceptée ; cette déclaration doit être comparée avec les colis de tabac ou de cigares, et attestée par l'officier en charge de la manufacture avant d'être acceptée par le percepteur du revenu de l'intérieur. En conséquence, les percepteurs permettront aux principaux fabricants de se servir de numéros spéciaux afin que ces instructions puissent être fidèlement remplies.

Art. 102. Vu que toutes les marques, numéros, poids, etc., doivent être mis sur les colis avant que la déclaration à l'entrée puisse être acceptée par le préposé pour les comparer, et vu qu'aucune estampille n'est nécessaire avant la mise en entrepôt, le tabac doit être entreposé aussitôt que le préposé a reçu le mandat voulu. Dans les grandes manufactures où il est impossible de se conformer strictement à ce règlement, à cause des grandes quantités employées, le percepteur pourra, à sa discrétion, prolonger le délai pour l'entreposement, cette prolongation ne devant, en aucun cas, excéder trois jours.

Art. 103. Voici les seules dimensions des paquets ou colis de tabac qui pourront être transférés en entrepôt :—

(a.) Tabac à chiqué haché fin, en colis de cinq et dix livres chaque ;

(b.) Le tabac à priser, cinq, dix et vingt livres chaque ;

(c.) Le cavendish, en tablettes ou torquettes, en paquets ou colis de une à quatre livres inclusivement, de cinq livres à vingt-cinq livres inclusivement, ou de trente-cinq à quarante-cinq livres inclusivement, ou de soixante à quatre-vingts livres inclusivement, ou de cent à cent-dix livres inclusivement ; et—

(d.) Les cigares en paquets de vingt-cinq et plus.

Art. 104. Le tabac en paquets plus petits que ceux ci-dessus mentionnés ne sera pas transféré en entrepôt, non plus que le tabac en feuille en paquets de moins de dix livres.

Art. 105. Lorsque des paquets ou colis de tabac ou de cigares sont sortis de l'entrepôt à la manufacture pour être transférés en entrepôt à une autre division, ou pour être transférés à une autre personne dans la même division, le fabricant y apposera l'estampille de mutation en entrepôt fournie à cette fin par le département, désignant la classe de ces effets. Les paquets ou colis de tabac ou de cigares qui ont été placés en entrepôt antérieurement à la mise en vigueur de l'*Acte refondu du revenu de l'intérieur*, 1883, et qui portent ou ne portent pas l'ancienne estampille rouge, lorsque sortis d'un entrepôt pour être déplacés ou transférés, devront être munis de l'estampille de mutation en entrepôt. S'ils sont déjà estampillés, la vieille forme d'estampille sera enlevée du colis et détruite par le préposé qui sort les effets de l'entrepôt. Chaque colis déplacé ou transféré en entrepôt doit porter une de ces estampilles de mutation en entrepôt, laquelle sera annulée par le fabricant ou autre personne sortant le tabac de l'entrepôt, au moyen du timbre à rouleau fournie à cette fin. Dans les déplacements subséquents du même tabac ou des mêmes cigares, il ne sera pas nécessaire d'y apposer d'autre estampille de mutation en entrepôt.

Art. 106. Lorsque du tabac ou des cigares sont déclarés à la sortie de l'entrepôt, soit pour être déplacés, pour être transférés ou pour la consommation, il faudra les estampiller avec les nouvelles estampilles lorsqu'ils seront ainsi sortis de l'entrepôt, même s'ils avaient déjà été estampillés en vertu de règlements en force avant le premier juillet 1883.

Art. 107. A la sortie de l'entrepôt pour la consommation, l'estampille de droits payés doit être apposée sur le paquet ou colis de la manière prescrite. Lorsque du tabac ou des cigares sont sortis de l'entrepôt pour la consommation, d'un entrepôt autre que celui du fabricant de ce tabac ou de ces cigares,—ces colis ou paquets portant l'estampille de mutation en entrepôt,—il faut placer l'estampille de droits payés par dessus l'estampille de mutation en entrepôt, de façon à recouvrir cette dernière autant que possible, et l'annulation doit être faite à travers les deux. Les estampilles pour les colis déclarés pour la consommation, soit par le fabricant ou le marchand, seront fournies sur reçu des feuilles de déclaration à la sortie de l'entrepôt pour la consommation, des droits payables sur les effets sortis de l'entrepôt, d'un mandat bien rempli, et d'une réquisition dans la forme prescrite et émise par le département, laquelle réquisition doit indiquer, pour le tabac, le nombre d'estampilles de chaque poids requises pour couvrir le tabac sorti de l'entrepôt, et dans le cas de cigares le nombre d'estampilles de chaque dénomination nécessaire pour couvrir les cigares sortis de l'entrepôt, le nombre collectif de colis et de livres de tabac, ou de paquets, et le nombre de cigares devant concorder avec la déclaration à la sortie de l'entrepôt pour la consommation.

Art. 108. Dans tous les cas les estampilles devront être apposées et annulées par le fabricant ou la personne retirant les effets de l'entrepôt, et conformément aux règlements par le présent établis.

Art. 109. Lorsque des paquets ou colis de tabac ou de cigares seront sortis de l'entrepôt pour être exportés en pays étranger, ils seront étampés sous la surveillance du préposé en charge, d'une marque comme suit :—

EXPN.

Tabac—9-10-8-83.

Pour "tabac" lisez "cigares" lorsque se sont des boîtes de cigares. Le premier chiffre ou série de chiffres représente le numéro de la manufacture, le deuxième le numéro de la division du revenu de l'intérieur, et les troisième et quatrième numéros le mois et l'année respectivement. Lorsque le tabac ou les cigares sont retirés d'un entrepôt autre que celui de la manufacture où ils sont fabriqués, le numéro de la manufacture sera omis et on y substituera la lettre ou le numéro de l'entrepôt.

Art. 110. Cette marque sera mise sur tous les paquets ou colis en bois au moyen de fers chauds, et sur les paquets ou colis à couverture métallique au moyen de poinçons en acier, ou de quelque autre manière par laquelle les indications voulues seront empreintes dans le métal d'une manière lisible et indélibile. Sur les uns comme sur les autres la marque sera placée sur le côté du paquet. Les poinçons et fers seront fournis par l'exportateur, et les lettres et chiffres composant la marque n'auront pas moins d'un quart de pouce de hauteur.

Art. 111. Quand le possesseur de tabac ou de cigares en entrepôt, déjà estampillés en vertu d'actes antérieurs, désire exporter ce tabac ou ces cigares, les estampilles qui se trouvent sur les colis ou paquets doivent être enlevées par le préposé en charge de la manufacture ou de l'entrepôt, en présence d'un autre préposé spécialement nommé à cette fin par le percepteur du revenu de l'intérieur. Les susdits préposés tiendront un registre, signé par eux, et déposé au bureau du percepteur du revenu de l'intérieur, et dans ce registre seront consignés :—

(a). Le numéro de chaque estampille enlevée et détruite, et le poids du tabac ou des cigares qu'elle recouvrait ; et

(b.) Le numéro de licence de la manufacture où le tabac ou les cigares ont été fabriqués, et le nom de la division où l'estampille a été émise.

Les déclarations d'exportation ne seront pas acceptées comme complètes tant que ces choses n'auront pas été faites.

Art. 112. Lorsque des paquets de tabac pesant une demi-livre et moins et destinés à l'exportation sont empaquetés dans de grandes caisses, il suffira que la marque mentionnée à l'article cent neuf (109) des présents règlements, soit placée sur la caisse extérieure ; ces caisses seront numérotées consécutivement, et seront marquées du nombre total de paquets de chaque poids et du poids total du tabac qu'elles contiennent.

Art. 113. Le tabac et les cigares destinés à l'exportation ne peuvent être empaquetés dans la même caisse.

Art. 114. Tous les effets déclarés pour l'exportation doivent être examinés par le préposé qui les sort de l'entrepôt, et dans ce but les colis doivent être ouverts en

telle quantité que le percepteur du revenu de l'intérieur décidera.

Art. 115. Les déchets, rognures ou tiges, lorsqu'ils sont préparés pour l'exportation, doivent être empaquetés sous la surveillance personnelle d'un préposé du revenu de l'intérieur, et à moins que toute la caisse ne soit remplie en une seule fois, l'empaquetage devra se faire dans l'entrepôt de tabac en feuilles.

Art. 116. Quand la caisse ou le colis sera rempli, le préposé y marquera son nom et la date de l'empaquetage, et cela de façon à être distinctement vu, et de façon aussi à ce qu'il puisse le reconnaître. La caisse ou le colis devra être marqué des lettres EXPN, comme dans le cas du tabac pour l'exportation.

TITRE 4.

Empaquetage et étampage du tabac et des cigares, annulation des estampilles, et mutation en entrepôt d'un port de douane à un autre, avant l'empaquetage dans des colis semblables à ceux employés pour les articles similaires fabriqués au Canada.

Art. 117. L'Acte du revenu de l'intérieur prescrit que "les estampilles seront apposées et annulées sur tous les tabacs fabriqués ou cigares importés des pays étrangers pendant qu'ils seront sous la garde des préposés des douanes compétents," et que "ces tabacs ou cigares ne sortiront pas de la garde de ces préposés tant que ces estampilles n'y auront pas été apposées et annulées."

Art. 118. L'annulation des estampilles sur le tabac mis dans des paquets de papier, de toile ou autre matière molle ou flexible, se fera au moyen du timbre à rouleau fourni à cette fin.

Art. 119. L'annulation des estampilles sur les colis en bois contenant du tabac importé se fera en renfonçant dans le bois une partie de l'estampille au moyen d'un poinçon d'acier que l'on appliquera deux fois sur chaque estampille, une fois à l'endroit réservé pour l'anulation et l'autre fois sur la vignette, et de plus au moyen du timbre à rouleau fourni à cette fin. L'annulation par le timbre à rouleau se fera dans l'espace réservé dans ce but sur les estampilles, elle pourra se faire immédiatement avant l'apposition des estampilles sur les colis. L'annulation des estampilles sur les colis de tabac contenu dans le métal se fera au moyen du rouleau d'acier à incision fourni à cette fin, qui fend l'estampille et prolonge la ligne de séparation jusque sur le métal du colis. Il faut appliquer cet instrument sur chaque côté du colis. Outre cela, l'estampille devra être annulée de nouveau au moyen des timbres à rouleau employés pour annuler toutes les estampilles apposées sur les colis de tabac.

Art. 120. Les estampilles sur les colis contenant des cigares importés seront annulées au moyen d'un timbre à rouleau de la forme prescrite par le département. Cette étampe d'annulation sera employée de telle manière que l'empreinte dépassera l'estampille et s'étendra jusque sur le bois de la boîte. L'impression se fera toujours en travers de l'estampille à cigare.

Art. 121. Ces poinçons et étampes d'annulation seront fournis aux divers percepteurs des douanes sur demande à cet effet, et nuls colis de tabac ou de cigares, tel que défini par l'Acte du revenu de l'intérieur, ne sera remis à l'importateur ou propriétaire avant que les estampilles n'en aient été annulées de la manière indiquée.

Art. 122. L'Acte du revenu de l'intérieur exige de plus que "le tabac et les cigares importés seront mis en paquets tel que prescrit par la loi au sujet des articles similaires manufacturés au Canada, avant l'opposition des estampilles." Les percepteurs des douanes veilleront en conséquence à ce que ces règlements soient parfaitement suivis.

Art. 123. Les dimensions des divers paquets ou colis en lesquels le tabac et les cigares doivent être mis d'après la loi sont comme il suit :—

(*a.*) Tout tabac cavendish, en tablettes et en torquettes, dans des boîtes en bois rectangulaires contenant de une à quatre livres inclusivement, de cinq à vingt-cinq livres inclusivement, de trente-cinq à quarante-cinq livres inclusivement, ou de soixante à quatre-vingts livres inclusivement, ou de cent à cent dix livres inclusivement ;

(*b.*) Tout tabac à chiquer haché fin, et toutes autres espèces de tabacs au sujet desquels il n'est pas autrement prescrit, en paquets contenant un vingtième, un seizième, un douzième, un dixième, un neuvième, un huitième, un sixième, un cinquième, un quart de livre, une demi-livre ou une livre ; cependant, le tabac à chiquer haché fin, quand il sera d'une espèce et d'une qualité approuvées par le commissaire du revenu de l'intérieur, pourra, si l'importateur le désire, être empaqueté dans des boîtes en bois contenant cinq ou dix livres chacune ;

(*c.*) Tout tabac haché et pulvérisé, autre que le tabac à chiquer haché fin, les déchets et débris du tabac à chiquer haché fin qui auront passé à travers un tamis de trente-six mailles au pouce carré, en paquets contenant un vingtième, un seizième, un douzième, un dixième, un neuvième, un huitième, un sixième, un cinquième, un quart de livre, une demi-livre ou une livre chacun ;

(*d.*) Tout tabac à priser en colis contenant un seizième, un huitième, un quart de livre, une demi-livre, ou une livre, et dans des colis en bois contenant cinq ou dix livres chacun, sauf que le tabac à priser, lorsqu'il contiendra plus de quarante pour cent d'eau, pourra, outre les quantités ci-dessus mentionnées, être mis en colis contenant vingt livres chacun, poids réel ;

(*e.*) Toutes les cigarettes en paquets contenant dix, vingt, cinquante ou cent cigarettes chacun ;

(*f.*) Tous les cigares sont empaquetés dans des boîtes de trois, six, dix, vingt-cinq, cinquante, cent et deux cents ; cependant, les cigares de Manille et les cheroots, mais non pas les imitations de ces cigares, pourront, lorsqu'ils seront importés de l'étranger, être contenus, outre les quantités ci-dessus mentionnées, dans des boîtes de cinq cents chacune.

Art. 124. Les estampilles seront apposées sur les colis de la manière suivante :—

(*a.*) Tous les colis de tabac, excepté le tabac à chiquer haché fin et le tabac à priser, contenant cinq livres et plus, devront porter un coupon d'estampille d'une dénomination correspondant au poids net du tabac qu'ils contiennent : par exemple, des colis contenant de dix à vingt-cinq livres et de soixante à quatre-vingts livres peuvent et doivent porter une seule estampille, et on se servira des coupons attachés aux estampilles lorsque le poids du colis ne sera pas exactement de dix, quinze, vingt, soixante ou soixante-dix livres : s'il l'était, on se servirait de l'estampille seule, sans les coupons. Lorsque le poids du tabac contenu dans les paquets ou colis variera entre dix et vingt-cinq livres, et entre soixante et quatre-vingts livres, on emploiera les coupons conjointement avec l'estampille qui porte ces chiffres, de sorte qu'avec un ou plusieurs coupons on puisse représenter le poids voulu. Il ne sera pas permis de se servir de coupons d'une demi-livre pour les paquets contenant vingt-cinq livres et plus ;

(*b.*) Tous les autres colis de tabac seront revêtus d'estampilles de la dénomination fixée par la loi, et on n'apposera qu'une estampille par colis ;

(*c.*) Sur toute espèce de boîtes ou de colis de tabac cavendish, en tablettes, en torquettes, ou autre, l'estampille sera apposée sur un coin ou un angle de la boîte ou du colis, à égale distance des bouts, en couvrant à peu près également chaque côté ;

(*d.*) Sur les barils, tambours, seaux ou autres colis contenant cinq ou dix livres de tabac à chiquer haché fin, et cinq, dix et vingt livres de tabac à priser, tel que permis par la loi, la bande estampillée sera mise en travers du couvercle de manière à descendre de chaque côté du colis et à le sceller parfaitement ;

(*e.*) Les bandes estampillées employées pour les colis contenant soit du tabac à fumer, soit du tabac à chiquer fin, soit du tabac à priser, ou des cigarettes, doivent être apposées de façon à bien sceller le colis et à rendre impossible qu'on en enlève le contenu sans briser ou détruire l'estampille ;

(*f.*) Les bandes estampillées pour les boîtes de cigares doivent être apposées de façon à bien sceller celle-ci ;

(*g.*) Les estampilles doivent être apposées aux colis au moyen d'une matière adhésive qui les retienne au bois, au papier ou à toute autre substance solidement et permanemment. Après que les estampilles mises sur les colis en bois auront séché et qu'on les aura annulées tel que prescrit, on les vernira, mais de façon à ne pas effacer ni obscurcir les impressions faites sur les estampilles ;

(*h.*) Les estampilles de tabac n'adhéreront pas à l'étain en feuille si l'on se sert de gomme ou de colle ordinaires. L'importateur ou propriétaire des marchandises doit, en conséquence, recouvrir l'étain d'une enveloppe de papier ou se servir de quelque sorte de gomme ou de colle au moyen de laquelle les estampilles adhéreront si fermement qu'on ne pourra les enlever sans les détruire.

Art. 125. L'Acte du revenu de l'intérieur prescrit en outre que "tout importateur de tabac devra, outre l'observation de toutes les autres prescriptions du présent acte concernant les tabacs importés, imprimer ou coller fermement sur chaque paquet ou colis contenant du tabac importé par ou pour lui, une étiquette portant le nom du port où, et le numéro de la déclaration en vertu de laquelle ces tabacs ont été sortis de l'entrepôt pour le paiement des droits, et les mots suivants :—

AVIS.—L'importateur de ce tabac s'est conformé aux prescriptions de la loi. Il faut strictement observer les instructions ci-dessous, sous peine des amendes imposées par les statuts du Canada :—

1. Ouvrir ce colis de manière à briser l'estampille.
2. Ne pas se servir de ce colis pour y mettre d'autre tabac, une fois que le contenu actuel en aura été enlevé.

3. Le contenu ne doit être enlevé que pour vente immédiate, et

4. Lorsque le colis sera vide l'estampille doit être détruite.

Art. 126. Tout importateur de cigares est aussi tenu de coller sur chaque boîte ou paquet contenant des cigares importés par ou pour lui, une étiquette sur laquelle seront imprimés, outre le nom du port où, et le numéro de la déclaration en vertu de laquelle ces cigares ont été sortis de l'entrepôt pour le paiement des droits, les mots suivants :—

Avis.—L'importateur de ces cigares s'est conformé aux prescriptions de la loi. Il faut strictement observer les instructions ci-dessous, sous peine des amendes imposées par les statuts du Canada :—

1. Ouvrir ce colis de manière à briser l'estampille.

2. Ne pas se servir de ce colis pour y mettre d'autre tabac, une fois que le contenu actuel en aura été enlevé.

3. Le contenu ne doit être enlevé que pour vente immédiate, et

4. Lorsque le colis sera vide l'estampille et le colis doivent être détruits.

Art. 127. Cette étiquette d'avertissement, sur les boîtes, caisses, barillets, seaux, tambours ou autres colis de tabac, doit être d'au moins quatre pouces et d'au plus six pouces de long, et d'au moins deux pouces et demi de large, et doit être placée en vue sur le paquet, dans un endroit où elle sera le moins possible exposée à être usée ou effacée, ou brisée en ouvrant le colis, et de façon à n'être pas couverte ou cachée par d'autres étiquettes ou marques, et de façon à ne cacher elle-même aucune autre marque exigée par la loi.

Art. 128. Sur les boîtes de cigares, l'étiquette d'avertissement doit être d'au moins trois pouces de long et de deux de large ; si elle est de forme circulaire ou ovale, elle doit couvrir au moins six pouces de superficie. Elle doit être placée en vue sur la boîte ou paquet de façon à ne pas être couverte par l'estampille ni autrement cachée ou dissimulée, non plus qu'à être brisée en ouvrant le paquet.

Art. 129. Si l'importateur le désire, il peut faire imprimer l'avis sur un papier plus grand, de façon à porter en même temps, mais *à part*, son nom et sa marque de commerce.

Art. 130. Pour les colis de tabac importé ne contenant qu'une livre ou moins, de même que sur des colis contenant dix ou vingt cigarettes chacun, il n'y a pas besoin d'étiquette distincte et séparée, mais l'importateur doit faire apposer sur chaque colis l'avis voulu, dans un endroit où il ne sera pas couvert par l'estampille ou autrement caché ou dissimulé. Le nom du port et le numéro de la déclaration pour le paiement des droits peuvent être écrits ou marqués avec une étampe en caoutchouc. L'emballage et l'estampillage doivent être faits suivant qu'il est prescrit par l'Acte du revenu de l'intérieur.

Art. 131. L'Acte du revenu de l'intérieur décrète aussi que les " tabacs ou cigares importés destinés à être transportés en entrepôt à un autre port ou lieu dans la Puissance du Canada, peuvent être transportés en entrepôt à cet autre port conformément aux règlements qui pourront être établis par le Gouverneur en conseil ; " et ces règlements sont comme il suit :—

(*a.*) Le tabac et les cigares doivent être consignés à l'ordre du percepteur des douanes au port de destination ;

(*b.*) Le percepteur des douanes exigera du propriétaire ou de l'importateur une obligation pour une somme égale au double du montant des droits de douane dont sont frappés les articles ainsi transportés, la condition de l'obligation étant que les articles seront livrés au percepteur des douanes auquel ils sont consignés ;

(*c.*) Cette obligation sera annulée par le certificat du percepteur des douanes au port de destination, attestant que les articles ont été reçus par lui et remis en entrepôt, et qu'une obligation a été dûment consentie, et que les articles seront mis en nouveaux colis dans les conditions prescrites pour les articles semblables manufacturés en Canada, et régulièrement estampillés ou déclarés pour l'exportation ou la destruction,

Titre 5.

Vente du tabac et des cigares fabriqués.—Dimensions et forme des colis, etc.

Art. 132. Les fabricants ne peuvent vendre le tabac qu'en colis ou paquets intacts, portant chacun une estampille régulièrement apposée et annulée (ou si le tabac est déclaré pour l'exportation, chaque colis ou paquet étant régulièrement étampé), et dans les conditions prescrites par l'*Acte du revenu de l'intérieur*, et non autrement.

Art. 133. Les marchands de tabacs fabriqués doivent aussi vendre en colis entiers, portant chacun une estampille régulièrement annulée ; mais il est permis aux débitants de tabac de vendre au détail le tabac en tablettes contenu dans des boîtes dites demi-*caddies*, *caddies*, demi-boîtes et boîtes, le tabac à chiquer haché fin contenu dans des colis de cinq et de dix livres, et le tabac à priser contenu dans des colis de cinq, dix et vingt livres, régulièrement estampillés, marqués, étiquetés et empaquetés selon la loi. A l'exception du tabac à priser, qui peut quelquefois avoir besoin d'être humecté, les marchands ne doivent retirer le tabac des colis ou des boîtes que lorsqu'ils le mettent réellement en vente.

Art. 134. L'estampille sur le colis contenant le tabac détaillé est une preuve *primâ facie* que le droit a été payé. L'absence de l'estampille est une preuve *primâ facie* que le droit n'a pas été payé. Les marchands de tabacs manufacturés ne pourront pas diviser un colis en deux et vendre les parties du colis ou en détailler le tabac.

Art. 135. La loi décrète que tous cigares doivent être empaquetés dans des boîtes qui n'ont pas encore servi à cette fin, en nombres définis et limités, et défend positivement la vente des cigares sous aucune autre forme excepté par les marchands en détail. Les marchands en détail ont le droit de vendre au détail les cigares contenus dans des boîtes empaquetées, estampillées et étampées ou marquées selon que le prescrit la loi ; mais cela n'autorise ni ne justifie aucunement la pratique de vendre au détail les cigares en montre. Les cigares que l'on vend doivent être tirés du paquet estampillé dans lequel ils ont été empaquetés dès l'origine et frappés de l'accise.

Art. 136. Les fabricants de cigares ne peuvent vendre de l'établissement de fabrication que des colis de première façon et qui n'ont pas été brisés.

Art. 137. Il est par le présent enjoint aux percepteurs du revenu de l'intérieur de subdiviser leurs divisions en circonscriptions qu'ils mettront sous la surveillance d'officiers ou agents qui pourront être désignés par eux ou par l'inspecteur du revenu de l'intérieur. Il sera du devoir de ces agents contrôleurs de visiter tous les endroits où il est emmagasiné, gardé ou exposé en vente du tabac fabriqué ou des cigares, de s'assurer si l'on se conforme rigoureusement à la loi relativement à l'estampillage, la marque, l'annulation et la vente du tabac ou des cigares, et de prendre les mesures prescrites par la loi en cas de contraventions découvertes.

Titre 6.

Emploi de bois, de métal, de papier ou d'autre matière dans l'empaquetage du tabac ou des cigares.

Art. 138. Tout fabricant de tabac ou de cigares qui désire profiter du privilège qu'autorise la loi de substituer des enveloppes d'autres substances aux boîtes de bois employées aujourd'hui pour empaqueter les cigares, le tabac à chiquer haché fin, le cavendish, le tabac en tablettes, le tabac à priser, ou le tabac en torquettes, doit soumettre au commissaire du revenu de l'intérieur des échantillons de ces enveloppes, et si celles-ci sont de nature à permettre l'apposition voulue des marques, étampes, étiquettes, etc., ainsi que l'apposition et l'annulation des estampilles, l'emploi pourra en être autorisé.

Art. 139. Tous les échantillons d'enveloppes soumis à l'approbation du commissaire doivent être accompagnés d'une déclaration relatant de quelles matières sont faites ces enveloppes, la nature des articles qu'elles doivent contenir et leurs quantités, en livres s'il s'agit de tabac, ou, s'il s'agit de cigares, le nombre qui sera empaqueté dans chacun, et indiquant aussi, par des échantillons, comment seront apposées sur les paquets les marques, étampes, étiquettes et estampilles, et que la loi sous ces rapports a été fidèlement observée.

Titre 7.

A.—Estampillage du tabac ou des cigares abandonnés, condamnés ou confisqués, lorsqu'ils seront vendus au bénéfice du Canada.

Art. 140. Tous tabacs et cigares, soit importés, soit de fabrication indigène, vendus par tout officier du gouvernement pour le bénéfice du Canada, devront, avant d'être délivrés, porter sur les paquets qui les contiennent, les estampilles du Revenu de l'Intérieur ou des Douanes convenables, indiquant le droit payable sur ces tabacs et cigares, et ces estampilles ne seront employées que pour cette fin lorsque toutes les circonstances se rattachant à la vente projetée auront été rapportées au département, et que permission aura été obtenue de s'en servir.

Art. 141. Lorsque du tabac ou des cigares abandonnés, condamnés ou confisqués sont offerts en vente et ne rapportent pas un prix égal aux droits imposables, alors la loi en défend la vente pour la consommation au Canada. Ces articles pourront, cependant, être vendus pour l'exportation immédiate en pays étrangers, et porter l'étampe ordinaire d'exportation.

B.—Destruction du tabac ou des cigares abandonnés, condamnés ou confisqués.

Art. 142. Le tabac ou les cigares abandonnés, condamnés ou confisqués pourront être détruits par ordre du commissaire chaque fois que leur vente ne rapportera pas une somme égale aux droits dus et payables sur ces articles.

Art. 143. Les percepteurs du revenu de l'intérieur ou des douanes ayant la garde de ces articles qui ont été offerts en vente et qui n'ont pu réaliser une somme égale aux droits imposables, et qui désirent obtenir la permission de les détruire, la demanderont au commissaire.

Art. 144. En faisant cette demande, ils relateront l'histoire complète de ces articles, indiquant leur espèce, leur qualité, leur condition présente, et quels efforts ils ont faits pour les vendre, et si le commissaire voit qu'il est de l'intérêt du gouvernement de détruire ces articles, il donnera ordre de les détruire.

TITRE 8.

A.—Pour façonner de nouveau le tabac.

Art. 145. Avant qu'aucun tabac puisse être façonné de nouveau, le fabricant devra donner vingt-quatre heures d'avis, et obtenir à cette fin une permission spéciale du percepteur du revenu de l'intérieur de la division où se trouve située la manufacture.

Art. 146. Le fabricant, en demandant la permission de façonner de nouveau le tabac, doit donner des détails complets quant à la quantité et à la sorte de tabac qu'il veut façonner de nouveau ; déclarer si le tabac sort de sa propre manufacture, ou s'il est le produit d'une autre manufacture, et dans ce dernier cas, donner le nom du fabricant. Il devra aussi énoncer la raison pour laquelle il demande la permission de façonner de nouveau le tabac en question.

Art. 147. Le tabac, lorsqu'il sera pris pour être façonné de nouveau, sera crédité comme tel sur le Magasinier No 2 (et une déclaration de sortie d'entrepôt sera faite sous la forme prescrite pour cette fin, lorsqu'il sera sorti de l'entrepôt), et la quantité sera portée au débit du Journal et traitée comme matière première, et il sera rendu compte du produit comme de tabac manufacturé, de la manière ordinaire et estampillé et traité comme tabac provenant originairement de la feuille.

Art. 148. Lorsque le tabac qui devra être façonné de nouveau aura payé les droits, les estampilles des colis devront être détruites en présence de deux préposés du revenu de l'intérieur, dont l'un sera l'officier chargé de la surveillance de la manufacture, et l'autre un officier spécialement envoyé dans ce but par le percepteur de la division, et ces préposés tiendront registre et fourniront au percepteur un certificat des numéros de chaque estampille, du poids du tabac contenu dans chaque colis portant ces estampilles, et du numéro de registre de la manufacture (ou, s'il est manufacturé avant le 1er juillet 1883, le nom ou le numéro de licence du fabricant,) où il a été manufacturé ou mis en colis.

Art. 149. Lorsque le tabac entreposé qui doit être façonné de nouveau a été estampillé en vertu des dispositions d'actes antérieurs, les estampilles sur les colis doivent être enlevées et détruites sous l'autorité des mêmes règlements que ceux prescrits dans le présent acte lorsque le tabac qui doit être façonné de nouveau a payé les droits.

Art. 150. Le percepteur du revenu de l'intérieur comparera les numéros et chiffres de ces estampilles avec le registre des estampilles délivrées tenu dans son bureau ; et si les estampilles ont été délivrées dans une autre division, il transmettra au percepteur de cette division un état détaillé du numéro et chiffre de chaque estampille ainsi détruite, ainsi que le numéro de la manufacture où (ou le nom du fabricant par lequel) le tabac a été originairement mis en colis. Le percepteur qui recevra cet état le comparera avec son registre des estampilles délivrées au fabricant ou aux fabricants qui y seront mentionnés, et renverra de suite cet état au percepteur de qui il l'aura reçu, avec un certificat de son exactitude ou autrement.

Art. 151. Aussitôt qu'il aura été pris note des estampilles et qu'elles auront été détruites, les colis s'ils ont été antérieurement estampillés ou s'ils sont le produit d'une manufacture autre que celle où le tabac doit être façonné de nouveau devront aussi être détruits, et le tabac qu'ils contenaient brisé et chauffé à la vapeur ou traité de manière à ne pouvoir sortir de la manufacture pour être débité sans être façonné de nouveau.

Art. 152. Aucune remise ne sera allouée ou payée lorsqu'il n'aura pas été pris note des estampilles sur les colis contenant du tabac et que ces estampilles n'auront pas été détruites en présence des préposés mentionnés ci-haut, ou lorsque la liste des estampilles détruites ne concordera pas avec la liste des estampilles du percepteur qui les a délivrées.

Art. 153. Lorsque que le tabac qui doit être façonné de nouveau a payé les droits, une remise du montant, moins cinq centins par livre pour défrayer les frais de surveillance, d'estampillage, etc., sur la quantité de tabac déclaré pour être manufacturé de nouveau en sera allouée au fabricant, et sera payée par le département, sur réception d'une déclaration du fabricant, attestée par serment, que le tabac ainsi pris a été façonné de nouveau et porté au débit du Magasinier No 2, tel que produit, accompagnée d'un certificat de l'officier en charge de la manufacture que les estampilles et les colis ont été détruits en sa présence, et que le tabac a été brisé et chauffé à la vapeur, ou traité de manière à ne pouvoir sortir de la manufacture pour être débité sans avoir été façonné de nouveau, lequel certificat devra être contresigné par le percepteur de la division.

Art. 154. Aucun honoraire de surveillance ne sera exigé pour le tabac entreposé et façonné de nouveau, ou lorsque le tabac en tablettes est simplement sorti de la boîte pour être frotté ou essuyé. Dans ce dernier cas, cependant, l'opération doit se faire sous la surveillance de l'officier en charge et à la satisfaction du percepteur.

Art. 155. *(a.)* Il est permis de façonner de nouveau le produit du tabac canadien en feuilles, mais il ne sera accordé aucune remise de droit sur cet article.

(b.) Le tabac importé ne pourra être façonné de nouveau que lorsque les droits auront été payés.

B.—Pour façonner de nouveau les cigares.

Art. 156. Avant qu'aucun cigare puisse être façonné de nouveau, le fabricant devra donner vingt-quatre heures d'avis, et obtenir à cette fin une permission spéciale du percepteur du revenu de l'intérieur de la division où se trouve située la manufacture.

Art. 157. Le fabricant, en demandant la permission de façonner de nouveau, doit donner des détails complets quant à la quantité de cigares qu'il veut façonner de nouveau, déclarant que les cigares sortent de sa propre manufacture. Il devra aussi énoncer la raison pour laquelle il demande la permission de façonner de nouveau les cigares en question.

Art. 158. Les cigares, lorsqu'ils sont pris pour être façonnés de nouveau, seront crédités comme tels sur le Magasinier No 2 (et une déclaration de sortie d'entrepôt sera faite sous la forme prescrite pour cette fin, lorsqu'ils seront sortis de l'entrepôt), les cigares seront pesés et la quantité sera portée au débit du journal et traitée comme matière première, et il sera rendu compte du produit comme des cigares manufacturés, de la manière ordinaire et estampillés et traités comme cigares provenant originairement de la feuille.

Art. 159. Lorsque les cigares qui devront être façonnés de nouveau auront payé les droits, les estampilles des colis devront être détruites en présence de deux préposés du revenu de l'intérieur, dont l'un sera l'officier chargé de la surveillance de la manufacture, et l'autre un officier spécialement envoyé dans ce but par le percepteur de la division, et ces préposés tiendront registre et fourniront au percepteur un certificat en double des numéros de chaque estampille, du nombre de cigares contenus dans chaque colis portant ces estampilles, et du numéro de registre de la manufacture (ou, s'ils sont manufacturés avant le 1er juillet 1883, le nom ou le numéro de licence du fabricant), où il ont été manufacturés ou mis en colis.

Art. 160. Losque les cigares entreposés qui doivent être façonnés de nouveau ont été estampillés en vertu des dispositions d'actes antérieurs, les estampilles sur les colis doivent être enlevées et détruites sous l'autorité des mêmes règlements que ceux prescrits par les présentes lorsque les cigares qui doivent être façonnés de nouveau ont payé les droits.

Art. 161. Le percepteur du revenu de l'intérieur comparera les numéros et la dénomination de ces estampilles avec le registre des estampilles délivrées tenu dans son bureau.

Art. 162. Aussitôt qu'il aura été pris note des estampilles et qu'elles auront été détruites, les colis devront aussi être détruits, et les enveloppes seront enlevées des cigares qu'elles contiennent et les cigares traités de manière à ne pouvoir sortir de la manufacture pour être débités sans êtres façonnés de nouveau.

Art. 163. Aucune remise ne sera allouée ou payée lorsqu'il n'aura pas été pris note des estampilles sur les colis contenant des cigares et que ces estampilles n'auront pas été détruites en présence des préposés mentionnés ci-haut, ou lorsque la liste des estampilles détruites ne concordera pas avec le livre d'estampilles du percepteur qui les a délivrées.

Art. 164. Lorsque les cigares qui doivent être façonnés de nouveau ont payé les droits, une remise des droits payés, moins soixante et quinze centins par mille, pour défrayer les frais de surveillance d'estampillage, etc., sur

la quantité de cigares déclarés pour être manufacturés de nouveau sera allouée au fabricant, et sera payée par le département sur réception d'une déclaration du fabricant, attestée par serment, que les cigares ainsi pris ont été façonnés de nouveau et portés au débit du Magasinier n° 2, tel que produit, accompagnée d'un certificat de l'officier en charge de la manufacture que les estampilles et les colis ont été détruits en sa présence, et que les cigares ont été traités de manière à ne pouvoir sortir de la manufacture pour être débités sans avoir été façonnés de nouveau, lequel certificat devra être contresigné par le percepteur de la division.

Art. 165. Aucun honoraire de surveillance ne sera exigé lorsque les cigares entreposés et façonnés de nouveau sont le produit de la manufacture où l'opération doit se faire.

Art. 166. Les produits dun fabricant ne pourront être façonnés de nouveau par un autre, si ce n'est sous une permission du département, spécialement obtenue dans chaque cas.

Art. 167. Les imprimés (*blank forms*) employés dans le cas de tabac à façonner de nouveau serviront aussi dans le cas de cigares, et seront appropriés au moyen des changements nécessaires.

Titre 9.

A.—Marque ou étampage des boîtes de cigares.

Art. 168. (*a.*) La loi prescrit qu'il sera étampé, incisé, marqué au fer chaud ou empreint sur toutes les boîtes contenant des cigares, d'une manière lisible et durable, le numéro de registre de la manufacture, le numéro de la division du revenu de l'intérieur dans laquelle est située la manufacture, et le nombre de cigares contenus dans chaque boîte. Le nombre de cigares contenus dans chaque boîte peut, cependant, si on le désire, être peint au patron à la surface du bois ou autre matière dont la boîte est faite, mais le numéro de registre de la manufacture et celui de la division du revenu de l'intérieur devront être marqués au fer chaud, étampés, incisés ou imprimés sur chaque boîte, tel que voulu par la loi.

(b.) Les boîtes à cigares vides qui auront été brisés ou seront autrement impropres à l'usage pourront être détruites en présence de l'officier en charge de la manufacture, et le fait en sera congré dans le Journal.

B.—Cigares de rebut.

Art. 169. Comme dans certaines manufactures, les fabricants ont des quantités plus au moins grandes de cigares qui ne sont pas propres à empaqueter, avis est donné aux percepteurs qu'il sera permis aux fabricants qui en feront la demande sur l'imprimé C 3, fourni par le département, de se créditer de ces cigares, lorsque ceux-ci auront été comptés et brisés en présence de l'agent préposé à l'établissement. L'inscription sera faite à la colonne 9 du Journal, les totaux des inscriptions jusqu'à la date seront inscrits et la déduction faite. Chaque inscription de cette nature portera les initiales de l'agent comme preuve de son exactitude.

C.—Echantillons des cigares.

Art. 170. Outre ce que l'acte ordonne au sujet des boîtes d'échantillons de cigares, les règlements suivants sont maintenant prescrits :—

(a.) Un fabricant de cigares pourra avoir la permission du percepteur de prendre dans l'entrepôt une boîte ou un colis ne contenant pas plus de cent cigares de chaque espèce fabriquée par lui. Ces colis pourront rester dans les appartements de la manufacture sans être estampillés, dans le but d'en montrer le contenu aux clients ; quand ils seront requis par la consommation, la déclaration régulière de sortie d'entrepôt sera faite, les droits payés, et les colis estampillés comme s'ils sortaient à l'instant de l'entrepôt.

(b.) Tout fabricant qui retirera quelqu'un de ces colis sans faire cette déclaration de sortie d'entrepôt, sans acquitter les droits et étamper, marquer au fer chaud ou étiqueter ces colis régulièrement, sera censé les avoir soustraits illégalement de l'entrepôt et se rendra passible des pénalités édictées par l'acte pour cette infraction. Bien qu'en la possession du fabricant, les marchandises seront considérées comme étant encore dans l'entrepôt et traitées comme telles jusqu'à ce que la déclaration de sortie soit faite. Le préposé qui livrera ces colis de cigares sur permis tiendra compte du nombre et de la contenance de ces colis et les marquera de façon à pouvoir plus tard constater leur identité.

(c.) Si un fabricant de cigares abusait du privilège qui lui est accordé par le présent, en retirant de l'entrepôt un plus grand nombre de boîtes ou de colis qu'il ne sera jugé nécessaire par l'inspecteur des tabacs, le département pourra priver ce fabricant du privilège accordé à tous.

Art. 171. Des boîtes de cigares sur lesquelles les droits ont été payés pourront rester ouvertes dans une manufacture de cigares, mais seulement aux conditions suivantes :—

(a.) Le nombre de boîtes restant ainsi ouvertes dans une manufacture ne dépassera pas trois en aucun temps ;

(b.) Les estampilles qui les couvriront seront coupées ou déchirées en présence d'un agent du revenu de l'intérieur, à moins que les paquets ne soient tirés de ceux qui ont été apportés et placés en entrepôt, sous estampilles déjà coupées, en conformité des prescriptions ci-dessous ;

(c.) L'agent marquera immédiatement le paquet en y inscrivant la date à laquelle il aura été ouvert et y apposant sa signature, de façon qu'il puisse plus tard en constater l'identité ;

(d.) Aussitôt après que le paquet aura été vidé, le fabricant en informera l'agent du département, et alors l'enveloppe vide et l'estampille y apposée seront complètement détruites en présence de l'agent, et crédit du ci-devant contenu sera passé au Magasinier n° 2.

D.— Paquets portant des estampilles coupées rapportés à la manufacture.

Art. 172. Les boîtes de cigares dont les estampilles pourront avoir été coupées après que les boîtes auront été sorties de la manufacture, et que, dans la poursuite de son commerce, le fabricant pourrait vouloir y faire revenir, pourront être rapportées à la manufacture aux conditions suivantes :—

(a.) Elles ne seront rapportées à la manufacture qu'après que le fabricant aura signifié par écrit au percepteur avis de son intention de faire revenir ces boîtes, et seulement en présence d'un agent du revenu de l'intérieur qui en prendra un état ;

(b.) Les paquets portant des estampilles coupées seront aussitôt placés dans l'entrepôt de cigares ou de feuilles brutes, et y seront tenus à part des autres articles y contenus, et ils resteront ainsi dans le dit entrepôt jusqu'à ce que le fabricant soit prêt à les faire sortir de la manufacture ou à s'en servir en conformité des articles 168, 169 et 170 des présents règlements ;

(c.) Les inspections qu'il convient seront faites dans le Magasinier n° 2 lorsque les paquets seront apportés à la manufacture ou qu'ils en sortiront de la même manière que pour les autres cigares qui ont payé les droits ; et,—

(d.) Tous paquets portant des estampilles coupées apportés à la manufacture sans que le fabricant en ait donné l'avis voulu, sans qu'un agent du département en ait fait un état, et sans que ces paquets et leur contenu aient été déposés dans un entrepôt, ou qui pourront être trouvés avec estampilles coupées dans une manufacture ou ses dépendances, autrement qu'il est ici prescrit, rendront le fabricant intéressé passible de toutes les peines édictées dans la loi à cet égard.

E.—Entreposement des cigares et leur sortie d'entrepôt.

Art. 173. Le règlement suivant établi par le département au sujet de l'entreposement des cigares et de leur sortie d'entrepôt est sanctionné et confirmé :—

(a.) Les paquets qui contiennent des cigares et qu'on a déclarés pour l'entrepôt n'ont pas besoin de porter le numéro de la déclaration en vertu de laquelle ils sont entreposés, mais seulement le chiffre du mois et de l'année en sus des indications spécifiques exigées par l'article 261 de l'Acte du revenu de l'intérieur.

(b.) En sortant des cigares d'entrepôt le fabricant peut prendre ceux qui lui conviennent indépendamment du lot auquel ils appartiennent, pourvu que les paquets ainsi choisis correspondent en nombre et en dénomination à ceux sur lesquels il a payé les droits ;

(c.) Les cigares seront disposés dans l'entrepôt en lots distincts selon la dénomination des paquets ;

(d.) Selon les prescriptions ci-dessus les percepteurs n'auront pas besoin d'ouvrir un compte pour chaque déclaration d'entrepôt, mais il suffira d'un compte général pour chaque individu. Il ne sera nécessaire d'indiquer ni marques ni numéros sur les feuilles de déclaration.

(e.) Les prescriptions qui précèdent sont subordonnées à l'article 54 de l'Acte du revenu de l'intérieur.

Titre 10.

Machines à hacher le tabac.

Art. 174. *(a.)* Quiconque n'est pas porteur d'une licence pour la manufacture du tabac ou des cigares n'aura la permission de se servir, ni (sans avoir notifié le fait par écrit au percepteur du revenu) d'avoir en sa possession aucune machine à hacher le tabac. Cependant, les personnes qui vendent au détail du tabac manufacturé pourront avoir un permis de se servir d'une de ces machines

durant le bon plaisir du ministre du revenu de l'intérieur, après avoir déclaré, sous leur signature, qu'elles n'en feront usage que pour hacher le tabac cavendish ou en tablettes ayant acquitté les droits et devant être vendu immédiatement à leurs clients, mais il ne leur sera pas permis de garder aucune provision de tabac ainsi haché, la machine ne devant servir que pour hacher le tabac à la demande du client et pour livraison immédiata.

(b.) Quiconque (autre que les personnes qui viennent d'être nommées) a en sa possession une machine à hacher le tabac est tenu d'en prévenir le percepteur du revenu de l'intérieur, qui devra le faire attacher ou sceller de telle manière qu'il soit impossible de s'en servir sans enlever le seau, et toute telle machine qui sera trouvée descellée, que cette machine ait été scellée par un employé du revenu de l'intérieur ou non, sera saisie et confisquée au bénéfice de la Couronne.

(c.) Toutes les machines à hacher le tabac qui seront trouvées en la possession d'une personne autre que celles ci-dessus mentionnées, ou d'un particulier qui ne fait pas le commerce de tabac et qui s'en sert pour hacher le tabac à son usage personnel (auquel cas la machine ne doit pas être rotatoire), seront confisquées et pourront être saisies et emportées par tout préposé du revenu de l'intérieur.

Titre 11.—Fixation des déficits.

Tabac.

Art. 175. L'article 268 de l'*Acte du revenu de l'intérieur*, exige qu'en aucun temps et dans aucune manufacture le déficit ne soit jamais de plus de six pour cent.

Cigares.

Art. 176. L'article 269 de la loi prescrit que toute et chaque quantité de vingt-cinq livres de feuilles avec leurs tiges, déchets, rognures ou autres matières, apportée pour être utilisée dans une manufacture de cigares devra produire mille cigares au moins ; mais que si en aucun temps le ministère du revenu de l'intérieur décide que la mesure de production par le présent établie excède ou n'atteint pas ce qui sera plus tard constaté comme étant la véritable mesure de production, le Gouverneur en conseil pourra par règlement modifier ou changer cette mesure dans une limite de trois livres.

(a.) Sous l'autorité de l'article qui précède, la mesure de production est changée de 25 à 22 livres de tabac en feuilles brut pour 1,000 cigares, et cette mesure s'appliquera à toutes les opérations depuis le 1er jour de juillet 1884 ;

(b.) Une diminution sera faite dans le cas du tabac en feuilles vendu ou renvoyé, ou des rognures et retailles quand elles seront susceptibles d'être fabriquées en cigares, ou qu'elles seront vendues ou enlevées à cette fin. Les officiers du revenu devront néanmoins savoir que si les déchets et rognures sont portés au compte de production, ils doivent être exempts de poussière, sable et poussière de tabac. Il ne sera pas fait de diminution pour les tiges ou pour les déchets et rebuts ordinaires du commerce. En manufacturant les meilleures qualités de cigares, surtout avec du tabac de la Havane, les fabricants n'emploient souvent que le meilleur de la feuille et vendent le reste pour le corps de cigares inférieurs et à plus bas prix ; une déduction sera accordée dans ces cas selon la quantité vendue ou achevée.

(c.) Les tableaux d'inventaires annuels ont été faits de façon à ce que les préposés puissent comprendre facilement la manière dont on se rend compte de la production.

(d.) Le commissaire du revenu de l'intérieur a le pouvoir, par l'article 273 de l'acte, d'asseoir le droit et d'en ordonner la perception du fabricant au chiffre le plus élevé imposable sur le tabac fabriqué ou les cigares manquant, si l'inventaire démontre que la production n'a pas atteint la quantité de tabac fabriqué ou de cigares voulue.

Titre 12.

Confiscation annuelle.

Art. 177. Tout paquet ou colis contenant du tabac ou des cigares qu'il sera prouvé n'avoir pas été faits par le fabricant dont le nom ou le numéro de registre est indiqué ou marqué au fer chaud sur le dit paquet ou colis, sera avec son contenu saisi et confisqué au bénéfice de la couronne.

Titre 13.

Etats d'inventaire.

Art. 178. En préparant l'état B de l'inventaire annuel (G 15), tout le tabac en feuilles privé de ses tiges pris pour être employé, et tout le tabac en feuilles privé de ses tiges en voie de fabrication, au commencement et à la fin de la période, sera traité comme s'il provenait de tabac en feuilles brut contenant originairement 25 pour 100 de tiges ; c'est-à-dire qu'on ajoutera $\frac{1}{3}$ au poids du tabac privé de ses tiges. Ceci ne s'applique pas aux déchets et rognures.

Art. 179. Tous les cigares non paquetés à l'époque de l'inventaire seront calculés au taux uniforme de vingt-deux (22) livres au mille

Art. 180. Le percepteur attachera à chaque état d'inventaire de fabricant de cigares le certificat de l'agent compétent, relatif à tout manquant ou tout surplus qui pourra avoir été constaté dans le compte des cigares non paquetés. Quand le compte aura été trouvé exact le certificat de l'agent le mentionnera. L'inventaire doit être fait avec le plus grand soin.

Art. 181. A moins d'instructions contraires, les percepteurs percevront des fabricants de tabac et de cigares de leurs divisions respectives les droits sur les manquants de tabac ou de cigares d'après la mesure de production établie par la loi, ainsi que les droits sur les manquants de cigares accusés par le compte des cigares non paquetés d'après les états d'inventaires chaque année.

Art. 182. Le fabricant pourra se créditer alors, dans la colonne 9 de son Journal, du manquant ainsi accusé par le compte des cigares non paquetés afin de faire concorder ce livre avec son fonds.

Art. 183. Quand il est trouvé un surplus celui-ci doit aussi être porté dans la même colonne.

Art. 184. On rendra compte des droits perçus en conformité des instructions ci-dessus à l'aide de l'imprimé, formule D. 11, où l'on indiquera en détail la provenance de ces droits.

Art. 185. Tous les états d'inventaires de tabac et de cigares seront envoyés au département en double, l'un des exemplaires étant pour l'inspecteur des manufactures de tabac et l'autre pour le département.

Titre 14.

Récompenses pour renseignements fournis sur la fabrication illicite du tabac ou des cigares.

Art. 186. *(a.)* Pour tous renseignements qui conduiront à la découverte ou à la saisie d'une manufacture de tabac ou de cigares inautorisées, ou de tabac ou de cigares fabriqués illicitement, la moitié de la valeur estimée des articles saisis.

(b.) Pour tous renseignements qui conduiront à la condamnation des propriétaires ou des exploitants d'une manufacture de tabac ou de cigares, la moitié du montant des amendes qui seront payées, jusqu'à concurrence de $200, mais pas au-delà.

(c.) Si les personnes trouvées coupables sont incapables de payer les amendes imposées, et sont à défaut de paiement envoyées en prison, le département paiera au dénonciateur le quart des amendes imposées.

(d.) Les noms des dénonciateurs ne seront divulgués que lorsque ceux-ci le désireront ou y consentiront.

Titre 15.

Drawback.

Art. 187. Conformément aux dispositions de l'article 259 de l'Acte du revenu de l'intérieur relatives à un drawbac sur le tabac haché et les cigarettes en certains cas, le département du Revenu de l'Intérieur est autorisé à payer ce drawback lorsqu'il aura reçu les certificats des percepteurs du revenu de l'intérieur relatant le nombre des estampilles, de dénominations applicables aux paquets mentionnés dans le dit article, délivrées et payées dans le cours de chaque mois, et inscrites au bordereau mensuel du fabricant, et ses paiements seront traités comme "Remboursements de recettes d'accise."

(a.) Il est prescrit par le paragraphe ajouté à l'article 259 de "l'Acte du revenu de l'intérieur" par l'article 7 de l'acte 53 Victoria, chapitre 23, que "un drawback de cinq pour cent sur la valeur des estampilles employées sera accordé aux fabricants de tabac en feuille étranger, licenciés en vertu du présent acte, au sujet du tabac en tablettes non haché ou du cavendish fabriqué par eux et mis en colis contenant quatre livres au moins, lequel drawback sera payé en conformité des règlements que le Gouverneur en conseil établira à cet égard."

(b.) Les règlements suivants sont par le présent établis en vertu des dites dispositions, savoir :—

1. Que la demande du drawback sera faite trimestriellement, et sera accompagnée d'un état du nombre des colis ou paquets de tabac des divers poids, la quantité collective du tabac, le chiffre collectif du droit et le montant du drawback réclamé.

2. L'état attaché à la demande devra porter le certificat de l'employé en charge de la fabrique quant à son exactitude, et aussi le certificat du percepteur de la division, que la quantité de tabac dont il est question est couverte

par des timbres d'une dénomination de quatre livres ou moins, et qu'il a été déclaré pour la consommation, et le droit payé par le fabricant dans la fabrique duquel il a été produit.

TITRE 16.

Ports d'entrée pour le tabac en feuilles.

Art. 188. Les ports ci-dessous mentionnés sont constitués port d'entrée pour l'importation du tabac en feuilles au Canada en sus de ceux qui sont mentionnés dans l'article 307 de l'Acte du revenu de l'intérieur.

HOTEL DU GOUVERNEMENT À OTTAWA.

Samedi, le 17e jour de septembre 1892.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT que d'après des informations reçues il y a raison de croire que la maladie du choléra asiatique s'est déclarée dans la cité de New-York, et qu'elle y a causé cinq décès ;

Et considérant qu'il est à propos d'étendre les règlements applicables aux ports de mer autres que les stations régulières de quarantaine, aux ports de l'intérieur sur la frontière entre le Canada et les Etats-Unis, en tant que ces règlements peuvent s'appliquer à un port de l'intérieur ;

Et considérant que par l'article 3 du chapitre 68 des Statuts Revisés, intitulé "Acte concernant la quarantaine," il est statué que les règlements faits en vertu du dit acte, "auront force de loi ; et toute personne "qui désobéit à quelqu'un de ces règlements est coupable de délit et passible d'amende ou d'emprisonnement, ou des deux peines, selon que la cour l'ordonnera,—ou elle peut être poursuivie pour les peines "portées aux dits règlements."

Et de plus il est statué dans l'article 4 du dit acte, que—

"Le Gouverneur en conseil peut, par ces règlements, "requérir les propriétaires ou les personnes chargées "du soin ou de la garde de marchandises ou choses "transportées par terre à quelque lieu en Canada, de "permettre à l'officier à ce préposé en vertu de ces "règlements de faire la visite et l'examen de ces marchandises ou choses, de répondre suivant la vérité à "toutes les questions qui leur seront faites par cet "officier relativement à ces marchandises ou choses,— "et de permettre que celles-ci restent sous la garde du "dit officier durant l'espace de temps, et soient nettoyées, "désinfectées et purifiées de la manière qu'il croira "nécessaire pour les fins du présent acte ; et le Gouverneur en Conseil peut, par ces règlements, ordonner "que les personnes arrivant par terre en quelque lieu "que ce soit en Canada se laissent visiter et examiner "par l'officier qu'il appartiendra, nommé en vertu des "dits règlements,—qu'elles répondent suivant la vérité "à toutes les questions qui leur seront faites par cet "officier,—et qu'elles séjournent au dit lieu, durant "l'espace de temps, et se laissent traiter, purifier et "désinfecter de la manière que le dit officier croira "nécessaire pour les fins du présent acte"—

Il plaît à Son Excellence, en vertu des dispositions du chapitre 68 des Statuts Revisés, intitulé "Acte concernant la quarantaine," et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'établir les règlements suivants, qui seront censés être des règlements de quarantaine en vertu des dispositions du dit acte, savoir :—

1. Chaque percepteur des douanes à un port de la frontière, en sa capacité d'officier de la quarantaine tel que prescrit par l'article 31 du chapitre 6 des Arrêtés en conseil refondus du Canada, sera, en vertu de cette charge un juge de paix sous l'empire et pour les fins de tel acte.

2. Tout percepteur des douanes en sa capacité d'officier de la quarantaine devra, s'il est informé de la présence d'une maladie infectieuse telle que définie dans l'article 27 du chapitre 6 des Arrêtés en conseil refondus, ou s'il a raison grave de soupçonner la présence de telle maladie, immédiatement ordonner qu'une inspection soit faite par un médecin du wagon, voiture, véhicule, bateau ou chose apportant telle maladie, et ce médecin sera pour la dite fin, et il est par le présent constitué médecin autorisé de quarantaine pour mettre à exécution les prescriptions du dit acte et sera revêtu des pouvoirs spécifiés dans l'extrait de l'article 4 du dit acte ci-dessus cité.

3. L'honoraire payable à ce médecin pour cette inspection ne devra pas excéder la somme de quatre piastres pour chaque visite, et dans le cas où il serait découvert quelque maladie infectieuse cet honoraire sera payable par la compagnie ou propriétaire du wagon, voiture, véhicule, bateau ou chose apportant cette maladie.

4. Le percepteur des douanes, en sa capacité d'officier de la quarantaine devra, sur le rapport de ce médecin inspecteur de quarantaine, faire détenir le wagon, voiture, véhicule, bateau ou chose apportant cette maladie infectieuse jusqu'à ce qu'on ait rempli les formalités prescrites par l'article 33 du chapitre 6 des Arrêtés en conseil refondus.

JOHN J. McGEE,
13–4 Greffier du Conseil privé.

HOTEL DU GOUVERNEMENT À OTTAWA.

Samedi, le 17e jour de septembre 1892.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu de l'autorité qui lui est conférée par l'article 2 de l'acte 55–56 Vic., chap. 23, et par et avec l'avis du Conseil privé de la Reine pour le Canada, de nommer les personnes suivantes pour faire un choix d'échantillons de blé et autre grain cultivé à l'est de Port Arthur, afin de servir comme types pour guider les inspecteurs dans leur travail d'inspection, savoir :—

Montréal.

W. W. Ogilvie, D. D. McBean, Adam G. Thomson, R. M. Esdaile.

Toronto.

W. D. Matthews (président), G. A. Chapman, Thomas Flynn, M. McLaughlan, T. O. Kemp. A. Adamson, inspecteur.

Le bureau ainsi nommé se réunira en la cité de Toronto entre le 25e jour de septembre et le 10e jour d'octobre, sur l'invitation du président, qui sera enjoint de donner un avis raisonnable de l'époque et de l'endroit de la réunion par annonce dans la *Gazette* de Montréal, et l'*Empire* de Toronto.

Il a plu aussi à Son Excellence, en vertu de l'autorité susdite et par et avec l'avis susdit, de nommer les personnes suivantes pour le même objet au sujet du blé et autre grain cultivé à l'ouest de Port-Arthur, savoir :—

N. Bawlf, président, S. A. McGaw, S. Spink, Kenneth Campbell, Brandon ; H. S. Patterson, Portage-la-Prairie ; Chas. Braithwaite, J. D. Sibbald, M. McLaughlan, R. M. Esdaile, John Benson, Hugh N. Baird. Frank E. Gibbs, inspecteur, David Horn, inspecteur.

Ce bureau se réunira sur l'invitation du président, entre le 15e jour de septembre et le 10e jour d'octobre.

JOHN J. McGEE,
13–4 Greffier du Conseil privé.

HOTEL DU GOUVERNEMENT À OTTAWA.

Lundi, le 12e jour de septembre 1892.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT que le Président des Etats-Unis ayant lancé une proclamation pour une détention quarantenaire de tous navires contenant des immigrants venant de pays infestés du choléra pour une période de vingt jours, il est à propos afin d'empêcher ces immigrants de se servir des routes canadiennes pour pénétrer dans les ports intérieurs des Etats-Unis en vue d'éviter la quarantaine aux ports de mer, d'étendre les dispositions du deuxième paragraphe de l'article 9 des règlements de quarantaine établis par l'arrêté en conseil du 12e jour de mai 1888, chapitre 6 des Arrêtés en conseil refondus du Canada, concernant les navires soupçonnés d'avoir de la maladie à bord, lequel est dans les termes suivants :

" Pourront être mis en quarantaine d'observation pour une période n'excédant pas trois jours, " de manière à se lire comme suit :

" Pourront être mis en quarantaine d'observation pour une période de vingt jours ou plus, selon que l'ordonnera le ministre de l'Agriculture, " et de plus que les mots " tout port de mer du Canada, " soient substitués aux mots " Grosse-Ile " dans le dit paragraphe.

Il plaît à Son Excellence, en vertu des pouvoirs qui lui sont conférés par le chapitre 68 des Statuts Revisés, intitulé : " Acte concernant la quarantaine," et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que le deuxième paragraphe de l'article 9 des dits règlements de quarantaine se lira comme ci-dessous, et que le dit paragraphe, tel que modifié sera censé être un règlement de quarantaine, savoir :

" Les navires arrivant à tout port de mer du Canada " d'aucun port ou lieu infecté ou suspect, et à bord " desquels aucune maladie pestilentielle se sera dé- " clarée pendant le passage, pourront être mis en qua- " rantaine d'observation pour une période de vingt " jours ou plus, selon que l'ordonnera le ministre de " l'Agriculture, pendant laquelle les passagers et l'équi- " page seront sujets à une purification rigoureuse sous " la direction du surintendant-médical."

AVIS AUX MARINS.

No. 41 de 1892.

I. SIGNAL DE BRUME DU CAP MADELEINE.

Un signal de brume, à vapeur, établi par le gouvernement du Canada à la station de phare du Cap Madeleine, sur la côte sud ou de Gaspé du Golfe Saint-Laurent, sera mis en opération le 24 de septembre courant.

Lat. N. 49° 15' 40"
Long. O. 65° 19' 30"

Le sifflet sonnera trois coups distincts d'une durée de 8 secondes toutes les demi-minutes. En conséquence il y aura un intervalle de 22 secondes entre chaque deux coups.

Le bâtiment du signal de brume est en bois, peinturé blanc, avec une toiture rouge, et est assis au sommet de la falaise, en face et un peu à l'ouest de la tour du phare.

Le sifflet est à une hauteur de 128 pieds au-dessus de la marque des hautes eaux.

Cet avis affecte les cartes de l'Amirauté Nos. 307, 1621 et 2516, et doit être inscrit en substance dans la Liste des phares et signaux de brume canadiens sous le No. 28.

II. FEU AMÉRICAIN SUR LA RIVIÈRE STE-CROIX.

Avis est donné par la Commission côtière et géodésique des Etats-Unis d'Amérique qu'une balise à lumière rouge fixe a récemment été établie sur le côté sud de la rivière Ste-Croix, à environ 2½ milles en aval de Calais, Maine, et à 500 pieds en amont de Whitlock's Mill, le relèvement du feu de Mark Point étant E.N.E. ⅞ E. à la distance d'environ 8 encablures.

Cet avis affecte les cartes de l'Amirauté Nos. 352, 2013 et 2670.

WM. SMITH,
Sous-ministre de la Marine et des Pêcheries.

AUX ANNONCEURS DANS LA *GAZETTE*.

CEUX qui envoient des annonces pour être insérées dans la *Gazette du Canada* voudront bien se conformer aux règles ci-dessous :

1. Adresser "Gazette du Canada, Ottawa, Canada."
2. Indiquer le nombre d'insertions voulues.
3. Transmettre invariablement le prix de l'annonce ainsi que le prix d'un exemplaire de la *Gazette*, tels que donnés plus bas ; sans cela l'annonce ne sera pas publiée.

Les prix sont de dix cts. pour la première insertion, et cinq cts. pour chaque insertion subséquente par ligne de neuf mots, chaque chiffre comptant pour un mot. Aucune annonce n'est insérée pour moins d'une piastre.

D'après la pratique établie et reconnue, telle que prescrite par la loi, les règlements du parlement et les décisions du ministre de la Justice, les avis reçoivent le nombre d'insertions ci-dessous :—

Les avis de demandes de divorce—27 insertions.

Les avis de retrait de dépôts des compagnies d'assurance—13 insertions.

Les avis de demandes ordinaires au parlement—9 insertions.

Les avis de demandes de lettres patentes—6 insertions.

Les avis de dividendes et d'assemblées de banques et de compagnies d'assurances,—1 mois de calendrier ou 5 insertions.

Les abonnés observeront aussi que le prix d'abonnement, $4 par année, est invariablement payable d'avance, et que l'envoi de la *Gazette* sera arrêté à l'expiration de la période payée. Chaque exemplaire coûte dix cts., et quand les annonceurs en veulent plus qu'un, ils devront faire une remise en conséquence.

DEMANDES AU PARLEMENT.

Règles relatives aux avis de bills privés.

Dans le cas de toute demande de bill privé, proprement du ressort législatif du Parlement du Canada suivant les dispositions de l'Acte de l'Amérique Britannique du Nord, 1867, et ayant pour objet, soit la construction d'un pont, d'un chemin de fer, d'un chemin à barrières ou d'une ligne télégraphique ; soit la construction ou l'amélioration d'un port, d'un canal, d'une écluse, d'une digue ou d'une glissoire ou autre ouvrage semblable ; soit la concession d'un droit de passage d'eau, l'incorporation de professions ou métiers, ou d'une compagnie de banque ou autre compagnie par actions, soit la concession à une ou plusieurs personnes de certains droits ou privilèges exclusifs ou particuliers, soit le pouvoir de faire quelque chose qui, dans ses effets, pourrait toucher aux droits ou à la propriété d'autrui, ou concerner une classe particulière de la société ; ou ayant pour objet quelque amendement de même nature à un acte antérieur,—un avis, énonçant d'une manière claire et intelligible la nature et l'objet de la demande, et signé (excepté s'il s'agit de corporations déjà existantes) par les pétitionnaires ou de leur part, est nécessaire et doit être publié comme il suit :—

Dans les provinces de Québec et du Manitoba.

Un avis doit être inséré dans la *Gazette du Canada* en anglais et en français, ainsi que dans un journal anglais et un journal français du district intéressé, ou en anglais et en français dans le même journal, s'il ne s'en publie qu'un seul dans ce district ; ou s'il n'y paraît pas de journal, alors la publication de l'avis en anglais et en français doit se faire dans un journal du district le plus voisin où il s'en publie.

Dans les autres provinces ou territoires.

Un avis doit être inséré dans la *Gazette du Canada*, et et dans un journal du comté, du district ou des comtés-unis intéressés, ou s'il n'y paraît pas de journal alors la publication doit se faire dans un journal du comté ou district le plus voisin où il s'en publie.

La publication de ces avis durera, dans chaque cas la période de deux mois pendant l'intervalle de temps qui s'écoulera entre la clôture de la session précédente et la prise en considération de la pétition. Un exemplaire des numéros des journaux, reproduisant la première et la dernière insertion de l'avis, devra être transmis au greffier de chaque Chambre.

Si la pétition demande l'autorisation de présenter un bill privé ayant pour objet la construction d'un pont de péage, le pétitionnaire ou les pétitionnaires devront, en même temps qu'ils donneront l'avis prescrit par la règle précédente, donner aussi, de la même manière, avis des péages qu'ils entendent exiger, de l'étendue du privilège, de la hauteur des arches, de l'espace à laisser libre entre les culées ou les piliers pour le passage des radeaux et des navires ; et mentionner de plus s'ils se proposent de construire un pont mobile, et quelles en seront les dimensions.

Toute personne désirant obtenir un bill privé devra, dans les huit jours qui précéderont l'ouverture du parlement, déposer au bureau du greffier de la Chambre dans laquelle le bill doit prendre naissance, une copie de ce bill en langue anglaise ou en langue française, avec une somme suffisante pour en payer la traduction et l'impression. Il en sera imprimé 600 exemplaires en anglais et 200 en français ; la traduction devra être faite par les officiers de la Chambre, et l'impression par l'entrepreneur des impressions. Le pétitionnaire aura aussi à payer au greffier du Sénat, ou au comptable de la Chambre des Communes (selon le cas) une somme de $200, plus le coût de l'impression de l'acte dans les Statuts, et remettra le reçu de ce paiement au greffier du comité auquel ce bill aura été renvoyé—le dit paiement sera effectué immédiatement après la seconde lecture, et avant la prise en considération du bill par le comité.

L'honoraire payable sur tout bill privé, ne sera payé que dans la Chambre où il a pris naissance.

Aucune pétition pour l'obtention d'un bill privé ne sera reçue par l'une ou par l'autre Chambre après les dix premiers jours de la session.

EDOUARD J. LANGEVIN,
Greffier du Sénat.
JOHN GEORGE BOURINOT,
Greffier des Communes.

—

Règles additionnelles de la Chambre des Communes concernant les bills privés.

Tous les bills privés demandant des actes constitutifs devront être rédigés de manière à y incorporer, en les spécifiant, les *clauses* des Actes généraux concernant les détails qui font l'objet de ces bills ; des raisons spéciales seront données chaque fois que l'on aura l'intention de se départir de ce principe, ou que l'on voudra y introduire d'autres dispositions touchant ces détails ; et une note sera annexée au bill indiquant les dispositions au sujet desquelles l'on entend s'écarter de l'Acte général ; les bills qui ne seront pas rédigés conformément à cette Règle, devront être remodelés par les auteurs et réimprimés à leurs frais, avant qu'aucun comité en examine les clauses.

51*a*. Tous les bills privés pour chartes ou pour modification de chartes de compagnies de chemins de fer seront rédigés conformément au bill-modèle adopté par la Chambre, le 23 juin 1887, dont copie peut être obtenue du greffier de la Chambre ;

(*a*.) Les dispositions contenues dans un bill quelconque qui ne seront pas conformes au bill-modèle, seront insérées entre crochets, et après avoir été revisées par l'officier compétent, elles seront imprimées ainsi ; et les bills qui ne seront pas rédigés en conformité de cette règle seront renvoyés aux auteurs pour être remodelés avant leur revision et impression ;

(*b*.) Toutes clauses d'actes existants que l'on proposera de modifier, seront imprimées en entier, avec les amendements insérés en leur lieu et place, et entre crochets ;

(*c*.) Toutes dispositions exceptionnelles que l'on proposera d'insérer dans un bill quelconque, seront imprimées dans l'avis publié.

51*b*. Nul bill pour la constitution légale d'une compagnie de chemin de fer ou pour changer le tracé du chemin de fer d'une compagnie déjà constituée ne sera pris en considération par le comité des chemins de fer

à moins qu'il n'ait été donné au comité, au moins une semaine avant la prise en considération du bill—

(a.) Une carte ou plan à l'échelle de pas moins d'un demi-pouce au mille, indiquant le territoire sur lequel l'on se propose de construire les travaux projetés, ainsi que les lignes de travaux analogues existants ou autorisés, dans les limites du district, ou partie du district que la ligne projetée doit desservir, ou affectant le dit district en aucune manière ; cette carte ou plan devra être signé par l'ingénieur ou toute autre personne qui l'aura fait ;

(b.) Un exhibit faisant connaître le montant total du capital que l'on se propose de prélever pour les fins de l'entreprise, et la manière dont on se propose de le prélever, soit au moyen d'actions ordinaires, obligations, débentures ou autres garanties, et le montant respectif de chacune.

JOHN GEORGE BOURINOT,
Greffier des Communes.

SUBSTANCE DES RÈGLES ET FORMES DE PROCÉDER DU SÉNAT CONCERNANT LES BILLS DE DIVORCE.

L'époux qui a l'intention de demander un bill de divorce doit faire connaître cette intention, ainsi que les noms de l'autre époux et la cause du divorce, par avis inséré, durant six mois, entre l'expiration de la dernière session parlementaire avant l'avis et la présentation de sa pétition pour obtenir le bill, dans la *Gazette du Canada* et dans deux journaux du district où il avait sa résidence habituelle à l'époque de séparation d'avec son conjoint, s'il résidait alors dans la province de Québec, le Manitoba, la Colombie-Britannique ou les Territoires du Nord-Ouest,—ou du comté ou des comtés-unis, s'il résidait dans une autre province ; mais si ce nombre de journaux ne s'y trouve pas, l'avis sera publié dans le district, le comté ou les comtés-unis voisins. Dans les provinces de Québec et de Manitoba, les insertions seront faites dans un journal anglais et un journal français, s'il en existe des deux langues dans le district ; autrement, elles se feront en anglais et en français au même journal.

Il doit être signifié, à la diligence de l'époux pétitionnaire, un mois au moins avant la présentation de la pétition, une copie de cet avis à l'autre époux en personne, si cela est possible.

Aucune pétition en divorce n'est reçue après l'expiration des trente premiers jours de la session.

Toute pétition en divorce devra être écrite lisiblement et porter la signature du pétitionnaire. Elle énoncera sommairement le fait du mariage, le lieu et l'époque de sa célébration, les noms du célébrant, les griefs qui donnent lieu à la demande de redressement et la nature du redressement demandé, et en outre contiendra assurance qu'il n'y a pas eu réconciliation, collusion ni connivence. Les allégations de la pétition seront appuyées de la déclaration du pétitionnaire, faite en vertu de "l'Acte concernant les serments extrajudiciaires."

Huit jours avant l'ouverture du Parlement, le pétitionnaire déposera au bureau du greffier du Sénat, une copie en langue anglaise ou française du bill de divorce qui doit être présenté, et en même temps une somme suffisante pour payer la traduction et l'impression et tirage à 600 exemplaires anglais et 200 exemplaires français de ce bill.

La pétition en obtention d'un bill de divorce n'est présentée que lorsque le pétitionnaire a versé au bureau du greffier du Sénat une somme de $200.

La pétition, au moment de sa présentation, doit être accompagnée de la preuve de la publication d'avis, d'une déclaration qu'il a été signifié une copie de l'avis, et d'une copie du bill qui doit être présenté.

EDOUARD J. LANGEVIN,
Greffier du Sénat.

DESPATCHES.

(Circular.)

DOWNING STREET,
29th August, 1892.

MY LORD,—I have the honour to transmit to you, for publication in the colony under your government, a copy of a treaty between the Governments of Great Britain and the United States of America relative to Merchant Seamen Deserters, signed at Washington on the 3rd of June, and of which the ratifications were exchanged at Washington on 1st August last, together with a copy of an Order of the Queen in Council, dated the 18th of August, extending the provisions of the "Foreign Deserters Act, 1852," to the United States.

I have the honour to be,
My Lord,
Your most obedient, humble servant,

RIPON.

The Officer Administering
the Government of Canada.

Extract from the "London Gazette" of Tuesday, 23rd August, 1892.

SEAMEN DESERTERS (UNITED STATES).

OSBORNE HOUSE, ISLE OF WIGHT,
18th August, 1892.

AT the Court at Osborne House, Isle of Wight, the 18th day of August, 1892.

PRESENT:

The QUEEN's Most Excellent Majesty.
Lord Chancellor.
Lord President.
Lord Privy Seal.
Marquess of Salisbury.
Marquess of Lothian.
Lord George Hamilton.
Viscount Cross.
Secretary Lord Knutsford.
Mr. Secretary Stanhope.
Mr. Goschen.
Mr. Balfour.
Sir J. Parker Deane.

WHEREAS by "The Foreign Deserters Act, 1852," it is provided that, whenever it is made to appear to Her Majesty that due facilities are or will be given for recovering and apprehending seamen who desert from British merchant ships in the territories of any foreign power, Her Majesty may, by Order in Council, stating that such facilities are or will be given, declare that seamen, not being slaves, who desert from merchant ships belonging to a subject of such power when within Her Majesty's dominions, shall be liable to be apprehended and carried on board their respective ships, and may limit the operation of such order, and may render the operation thereof subject to such conditions and qualifications, if any, as may be deemed expedient:

And whereas it hath been made to appear to Her Majesty that due facilities for recovering and apprehending seamen (not being citizens of the United States) who desert from British merchant ships in the territories belonging to the said United States will be given under a treaty between Her Majesty and the President of the United States signed at Washington on the third day of June, one thousand eight hundred and ninety-two the ratifications of which were exchanged on the first day of August, one thousand eight hundred and ninety-two:

Now, therefore, Her Majesty, by virtue of the power vested in Her by the said "Foreign Deserters Act, 1852," and by and with the advice of Her Privy Council, is pleased to order and declare, and it is hereby ordered and declared, that from and after the publication hereof in the *London Gazette*, seamen, not being slaves, and not being British subjects, who, within Her Majesty's dominions, desert from merchant ships belonging to citizens of the United States shall be liable to be apprehended and carried on board their respective ships: Provided always, that if any such deserter has committed any crime in Her Majesty's dominions he may be detained till he has been tried by a competent court, and until his sentence, if any, has been carried into effect:

And the Secretary of State for the Home Department, the Secretary of State for the Colonies, and the Secretary of State for India in Council, are to give the necessary directions herein accordingly.

C. L. PEEL.

—

TREATY between Great Britain and the United States respecting Merchant Seamen deserters. Signed at Washington, June 3, 1892. [Ratifications exchanged at Washington, August 1, 1892.]

WHEREAS the Governments of Great Britain and the United States of America are desirous to make provision for the apprehension, recovery, and restoration of persons who may desert from merchant vessels of their respective countries while in the ports of the other country, and to conclude a Treaty for the above purpose, the High Contracting Parties have accordingly appointed as their Plenipotentiaries to conclude the said Treaty, that is to say:

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, Sir Julian Pauncefote, G.C.M.G., K.C.B., Her Majesty's Envoy Extraordinary and Minister Plenipotentiary to the United States; and

The President of the United States of America, James G. Blaine, Secretary of State of the United States;

Who, after having communicated to each other their respective full powers found in due and good form, have agreed upon the following Articles:—

ARTICLE I.

The Consuls-General, Consuls, Vice-Consuls, and Consular Agents of either of the High Contracting Parties, residing in the dominions, possessions, or colonies of the other, shall have power to require from the proper authorities the assistance provided by law for the apprehension, recovery, and restoration of seamen who may desert from any ship belonging to a subject or citizen of their respective countries while in the ports of the other country. If, however, any such deserter shall have committed any crime or offence in the country where he is found, his surrender or restoration may be delayed until the proper tribunal before which the case shall be pending, or may be cognizable, shall have pronounced its sentence, and the sentence shall have been carried into effect.

It is understood that the preceding stipulations shall not apply to the subjects or citizens of the country where the desertion shall take place.

ARTICLE II.

The present Treaty shall be ratified, and the ratifications shall be exchanged at London or at Washington without delay.

ARTICLE III.

The present Treaty shall come into operation at the expiration of thirty days from the date of the exchange of ratifications. It shall remain in force for five years after that date, and thereafter until terminated by a twelve months' notice to be given by either High Contracting Party to the other.

In faith whereof we, the respective Plenipotentiaries, have signed this Treaty, and have hereunto affixed our seals.

Done in duplicate at Washington, this third day of June, one thousand eight hundred and ninety-two.

(L.S.) JULIAN PAUNCEFOTE.

ORDERS IN COUNCIL.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Monday, the 26th day of September, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS the Secretary of State represents that from the report of the Returning Officer appointed to take the votes of the electors of the County of Drummond, in the Province of Quebec, for and against a certain petition to revoke an Order in Council dated the 8th day of May, 1885, declaring "The Canada Temperance Act, 1878," in force in the said County of Drummond, from and after the date mentioned in the said Order in Council and in the manner therein prescribed, it appears that the said petition has been adopted by the electors of the said county, more than one-half of all the votes polled having been for the adoption of the said petition, and that the proceedings held by the Returning Officer have been in conformity with the Act ;

And whereas more than thirty days have elapsed since the day on which the said petition was adopted,—

His Excellency, under the authority conferred upon him by the section substituted by section 3 of the Act 51 Victoria, chapter 35, intituled "An Act in amendment of the Canada Temperance Act," for section 96 of "The Canada Temperance Act," and by and with the advice of the Queen's Privy Council for Canada, is pleased to order and declare that the said Order in Council of the 8th day of May, 1885, whereby the second part of "The Canada Temperance Act" was brought into force in the said County of Drummond, shall be and the same is hereby revoked.

JOHN J. McGEE,
14-4 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Saturday, the 17th day of September, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the reserve of two townships in width along the boundary line between Canada and the United States, from the western boundary of Manitoba to the Rocky Mountains, for the purpose of serving as a quarantine ground along which animals in quarantine will be allowed to graze, shall be and the same is hereby abolished, and that the reservations hereinafter described shall be, and the same are hereby declared to be permanent reservations for quarantine purposes in lieu thereof, namely :—

1st. Townships 1, Ranges 19, 20, 21, 22 and 23, in part, being that section of the country lying between the north and south branches of the Milk River in Township 1.

2nd. Townships 1, Ranges 12, 13, 14 and 15 in part, Townships 2, Ranges 12, 13, 14 and 15, in part, being that section of the country between the Milk River on the north and the international boundary on the south, with Writing Stone Coulée on the east and the right of way of the Alberta Railway and Coal Company's line on the west.

3rd. Townships 1, Ranges 4, 5 and 6 in part, Townships 2, Ranges 4, 5 and 6 in part, being that section of country between the Milk River on the west and south and the Many Berries Creek on the east, all within Townships 1 and 2,—all the range numbers given being those officially known as being west of the Fourth Meridian.

JOHN J. McGEE,
14-4 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA

Monday, the 12th day of September, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, under the provisions of chapter 97 of the Revised Statutes and Acts amending the same, and by and with the advice of the Queen's Privy Council for Canada, is pleased to approve of the accompanying regulations for the governance of a ferry across the Niagara River, between the Town of Niagara, in the County of Welland, in the Province of Ontario, and Youngstown, in the State of New York, one of the United States of America.

JOHN J. McGEE,
Clerk of the Privy Council.

—

REGULATIONS.

1*st. Limits.*—The limits of the ferry shall be bounded on the south side of the Town of Niagara by Paradeso Grounds of the Government Ordnance lands, and on the west side of the Town of Niagara at the westerly end of Queen's street in said town, and a point in the Town of Youngstown, in the State of New York, in the United States of America, to be fixed by the municipal authorities in that place.

2*nd. Landing places.*—The wharves and docks shall be secured and at all times maintained by the lessee in a safe condition and available at all states of the river and subject to the approval of the Department of Inland Revenue.

3*rd. The vessel.*—The boats used for the said ferry shall be not less than 24 feet long, 6 feet beam, 2 feet 6 inches in the hold.

The boats shall be in all respects fully equipped, having a respectable and efficient commander, and the Minister of Inland Revenue shall be a liberty to reject any boat which may at any time be placed on said ferry, or the commander thereof, or the said dock or wharf, should he consider them or any of them respectively unsuitable to the service or unsafe or inadequate to meet the wants of the public.

4*th. Free passage.*—The lessee of the ferry, for the time being shall, at all times, during the continuance of the lease, carry across on said ferry, without fee, toll or reward, Her Majesty's mails, and upon requisition by the Postmaster General of Canada, the mails of the United States of America.

5*th. Contraband.*—The lessee shall not at any time carry or convey or permit or suffer to be carried or conveyed over said ferry any contraband articles whatsoever.

6*th. Customs laws.*—The lessee shall observe all Customs and Revenue Laws of the Dominion of Canada and of the United States of America.

7*th. Number of trips.*—During the period commencing the 1st May, until the 1st November in each and every year, the said ferry shall commence to ply at the hour of six o'clock in the morning (Sundays excepted), and shall continue to cross at intervals of every half hour successively thereafter until the hour of eight o'clock at night.

8th. That the charge for fares and tolls to be made on the said ferry shall not at any time exceed the following, that is to say :—

For foot passengers, each way, adults... 15 cts.
" " " children. half price.

9th. Notices of the rates of fares and the rates of tolls on the said ferry shall be put up and kept up, and exhibited at all times in a conspicuous place on or near the said dock or wharf.

10th. That the Governor in Council shall be at liberty to alter and modify the tariff of charges and tolls hereinbefore contained, should it be deemed expedient in the public interests, and after such notification as aforesaid the lessee shall not take or receive any other or larger fares or tolls than those which shal

be imposed in such modified tariff during the subsistence thereof.

11th. That the Governor in Council shall be at liberty at any time at which it may be shown that the lessee has failed to observe, perform, fulfil and keep any or other of the said provisoes, restrictions and conditions hereinbefore contained and expressed to declare the lease forfeited and void, whereupon the same shall become and be void to all intents and purposes, as if the same had never been granted, without indemnification to the lessee.

12th. That the said lessee shall not at any time during the existence of the lease, wilfully or knowingly infringe any of the laws, or by-laws or of the regulations of the United States of America, or of the State of New York, or the City of Buffalo, or Black Rock, in reference to ferriage which may be applicable to the said ferry, or such portion thereof as may be within the jurisdiction of any of them, the United States of America, State of New York, or the City of Buffalo or Black Rock, or permit or suffer the same to be infringed by any officer, servant or employé of the said lessee.

13th. Provided always that if the United States of America, or the State of New York, or the City of Buffalo, or Black Rock, shall in any exercise of any authority in any of them existing at any time during the existence of the said lease, prevent or hinder ferriage at or upon the said ferry or such portion thereof as may be within the jurisdiction of such one of them, or put the lessee to any loss, expense, charge, or damage in respect to the same, no claim or demand for compensation, or any right or title thereto shall be made upon or against the Dominion of Canada.

14th. The ferry boat shall be placed on the route immediately on the lease being granted.

15th. The lease will be granted for a period of five (5) years, the rent being payable in advance. The lessee will be required to give two sureties satisfactory to the Department of Inland Revenue, who shall be bound jointly and severally with the principal in the sum of two thousand dollars ($2,000) for the full compliance by the said lessee with the terms of the lease.

16th. The lease shall not be sublet or assigned without the consent of the Governor in Council, but in the event of the death of the lessee, the lease shall inure to the benefit of the lessee's personal representatives, or as by his will he may direct. 13-4

AT THE GOVERNMENT HOUSE AT OTTAWA.

Saturday, the 17th day of September, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS from information received there is reason to believe that the disease of Asiatic Cholera has declared itself in the City of New York, and that five deaths have occurred therefrom ;

And whereas it is advisable to extend the regulations applicable to maritime ports other than regular quarantine stations to the inland ports on the frontier between Canada and the United States in the particulars in which such regulations can be made to apply to an inland port ;

And whereas by section 3 of chapter 68 of the Revised Statutes, intituled "An Act respecting Quarantine" it is provided that the regulations made under it "shall have the force of law, and any person disobeying any such regulation is guilty of a misdemeanor and liable to fine or imprisonment or both, as the court directs ; or such person may be sued for the penalties contained in such regulation ";

And further it is provided in section 4 of the said Act, that—

"The Governor in Council may by such regulations require the owners or persons in charge of goods or things conveyed by land to any place in Canada, to allow the proper officer appointed under such regulations to inspect and examine the same, and to answer truly all questions asked of them by such officer concerning the same, and to allow such goods or things to remain so long in the custody of such officer and to be so treated, cleansed and purified as such officer thinks necessary for the purposes of this Act ; and the Governor in Council may by such regulations require all persons arriving by land at any place in Canada to allow themselves to be inspected and examined by the proper officer appointed under such regulations, and to answer truly all questions asked of them by such officer, and to remain so long at such place and to be so treated, cleansed and purified as such officer thinks necessary for the purposes of this Act "—

His Excellency, in virtue of the provisions of chapter 68 of the Revised Statutes, intituled "An Act respecting Quarantine," and by and with the advice of the Queen's Privy Council for Canada, is pleased to make the following regulations—the same to stand for Quarantine Regulations in virtue of the provisions of the said Act, namely :—

1. Each Collector of Customs at any frontier port in his quality of quarantine officer as provided in section 31 of chapter 6 of the Consolidated Orders in Council of Canada, shall, by virtue of such office, be a Justice of the Peace under the authority and for the purposes of such Act.

2. Any Collector of Customs in his quality of quarantine officer shall, if he is informed of the presence of any infectious disease such as defined in section 27, chapter 6 of the Consolidated Orders in Council, or if he has reason seriously to suspect the presence of such disease, forthwith order an inspection to be made of the car, carriage, vehicle, boat, or thing bringing such disease, by a medical man, who shall for such purpose be and is hereby constituted a quarantine medical officer to carry into effect the purposes of the said Act, with the powers specified in the extract from section 4 of the said Act above recited.

3. The fee payable to such medical man for such inspection shall not exceed the sum of four dollars for each visit, and in the event of infectious sickness being found such fee shall be payable by the company or owner of the car, carriage, vehicle, boat, or thing bringing such disease.

4. The Customs Collector in his quality of quarantine officer shall, on the report of such medical quarantine inspector cause the detention of the car, carriage, vehicle, boat or thing bringing such infectious disease until the requirements defined in section 33, chapter 6, Consolidated Orders in Council, are satisfied.

JOHN J. McGEE,
Clerk of the Privy Council.

Montreal.

W. W. Ogilvie, D. G. McBean, Adam G. Thomson, R. M. Esdaile.

Toronto.

W. D. Matthews, (chairman), G. A. Chapman, Thomas Flynn, M. McLaughlan, T. O. Kemp. E. Adamson, inspector.

The Board so appointed to meet in the City of Toronto, between the 25th day of September and the 10th day of October, at the call of the chairman, who shall be directed to give due notice of such time and

place of meeting by advertisement in the Montreal *Gazette* and Toronto *Empire*.

His Excellency has been further pleased, under the authority and by and with the advice above cited, to appoint the following persons for the same purpose in respect of wheat and other grain grown west of Port Arthur, viz :—

N. Bawlf, chairman ; S. A. McGaw, S. Spink, Kenneth Campbell, Brandon ; H. S. Patterson, Portage-la-Prairie ; Chas. Braithwaite, J. D. Sibbald, M. McLaughlan, R. M. Esdaile, John Benson, Hugh N. Baird, Frank E. Gibbs, inspector, David Horn, inspector.

Such Board to meet at the call of the chairman, between the 15th of September and the 10th of October.

JOHN J. McGEE,
13-4 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Tuesday, the 16th day of August, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, by and with the advice of the Queen's Privy Council for Canada, and in virtue of the powers conferred on him by section 108 of chapter 50 of the Revised Statutes of Canada, intituled "An Act respecting the North-West Territories," is pleased to order and it is hereby ordered, that that portion of the public travelled road or trail from Morley to Banff, which has been surveyed from Canmore to the boundary of the Rocky Mountain Park, be transferred to the Lieutenant Governor of the North-West Territories, for the public uses of the Territories, subject to any rights acquired under patents for lands crossed thereby.

JOHN J. McGEE,
12-4 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Monday, the 12th day of September, 1892.

PRESENT :

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, under the provisions of chapter 34, of the Revised Statutes of Canada, intituled "The Inland Revenue Act," and by and with the advice of the Queen's Privy Council for Canada, has been pleased to make and establish the following regulations in respect of tobacco and cigars, and tobacco and cigar manufactories, and the same are hereby made and established.

JOHN J. McGEE,
13-4 Clerk of the Privy Council.

—

TOBACCO AND CIGAR REGULATIONS.

ARTICLE 1.—RAW MATERIAL.

A.—For dealing with raw leaf tobacco, scraps, cuttings, stems, liquorice or other materials, when brought into, produced or used in, or removed from a tobacco or cigar manufactory.

Section 1. So soon as any tobacco or other raw material is received at the manufactory, the quantity thereof shall be ascertained by the manufacturer, under the immediate supervision of the officer in charge, whose duty it shall be to test the accuracy of all weights, and when required so to do by the manufacturer, to ascertain the deduction to be made for moisture.

Sec. 2. Standard tobacco, as defined by the Act, means tobacco which contains 10 per cent of moisture, but it is not intended to notice the discrepancy of 1 or 2 per cent from this standard in either direction.

Sec. 3. When, however, there is an evident excess of moisture beyond the proportion above mentioned, viz., 10 per cent, the manufacturer may, if he desires, have this excess ascertained, and if found to be as much as, or more than 12 per cent, the excess over 10 per cent is to be deducted from the weight found ; in other words, when an account is taken of excessive moisture at all, 10 per cent is to be understood as being the standard, and all over that is to be allowed.

Sec. 4. All samples taken for the purpose of ascertaining the percentage of moisture contained therein are to be furnished by the manufacturer or owner free of cost.

Sec. 5. It is not necessary that samples should be taken from each package ; when two or more packages are, after careful examination, considered by the officer to be about the same as regards moisture, one sample can be taken to represent the lot. It is the desire of the Department that the manufacturer should suffer as little loss as possible by taking his tobacco for the purpose of ascertaining the moisture, and whenever any manufacturer is satisfied that the raw leaf and other unmanufactured tobacco brought into his manufactory at any time is not above or below the standard, he may enter the actual weight upon his books, without submitting a sample to be tested, but in such case the weight shall be considered as standard and no allowance made thereafter if the production in the manufactory should fall below the standard established by law.

Sec. 6. The certificate to be given to the Collector of Customs, under section 312 of "The Inland Revenue Act," is to be made out on the form No. 28. The Collector shall see that this certificate is carefully filled up and attached (with gum) to the customs entry covering the raw leaf tobacco to which it relates.

Sec. 7. All stems, scraps, cuttings, clippings, waste or other refuse of tobacco, when produced in, taken for use, removed from or destroyed at or from any tobacco or cigar manufactory, shall be entered in standard pounds.

Sec. 8. All raw leaf tobacco, stems, scraps, cuttings, clippings, waste and tobacco in process of manufacture at the time when stock is taken, shall be stated in standard pounds, and in all such cases care must be taken that samples for drying fairly represent the degree of moisture in each lot from which samples are taken.

Sec. 9. In all cases where it becomes necessary to take an account of the moisture, samples must be carefully taken in such a manner as to give a fair sample—as to moisture—of the whole ; these samples should each be from one-quarter to one-half of one pound in weight, and must be carefully weighed immediately they are taken, and the samples are to be taken from the packages at the time of weighing thereof, and not at a date previous to or after such weighing ; they are then to be carefully dried in the drying oven with which important offices have already been or will be supplied ; the difference between the weight when put in and removed from the dryer will represent the moisture contained therein.

Sec. 10. The principal offices are supplied with scales specially constructed for the purpose, by means of which the percentage of moisture in excess of the standard can be read on the arm of the scale instead of having to resort to computations to ascertain it.

This scale is so constructed that, by filling the counterpoise bucket at the end of the arm with shot sufficient to balance the oven tray on the platform, the weight as shown will be the net weight of the tobacco ; by means of the adjustable weight on the arm the sample can be either one-quarter, one-half or one pound, and by placing this weight at 100 when weighing the tobacco for drying, and then reading after drying on the lower scale on the arm, the exact percentage of moisture to be deducted can be seen at a glance.

Sec. 11. The officer in charge of each tobacco or cigar manufactory shall keep a record of the weight of all packages of raw leaf tobacco or other raw material received into manufactory ; the entry shall be made in a book provided by the Department for that purpose.

Sec. 13. Where stemmed raw leaf tobacco is received at any cigar manufactory the entry thereof, when received and when subsequently taken for use, is to state its character as such, and the quantity so received and taken for use is to be likewise referred to by a foot note on the manufacturer's monthly return (F. 4), and on annual stock statement (G. 15).

Sec. 13. All packages of raw material received into warehouse shall be consecutively numbered, beginning with number one, on the 1st day of July in each year.

Sec. 14. A ticket, or tag, shall be placed upon each package, showing the date when put in warehouse, the original and serial number of the package, the gross weight, the tare and the net actual weight of tobacco or other raw material contained therein, and in the case of raw leaf tobacco, scraps and cuttings, stems and other unmanufactured products of raw leaf tobacco, the pounds,

percentage of moisture and pounds of standard tobacco contained therein. In order that there shall be uniformity of practice, the following is the form of ticket or tag to be used, until otherwise modified or altered by departmental regulations, which tag will be supplied by the Department upon proper requisition being made therefor :—

In the case of liquorice, sugar, gum or other raw materials other than leaf tobacco, cuttings and other unmanufactured products of leaf tobacco, the last two lines will be left blank, as no deduction for moisture is to be made from these articles.

Sec. 15. All leaf tobacco and other materials are, as soon as received and an account of them taken, to be placed in the warehouse provided for that purpose and secured by crown lock, the key thereof being in the possession of the officer in charge.

Sec. 16. Raw leaf tobacco and other raw materials are to be delivered to tobacco and cigar manufacturers in such quantities as may be required for use ; and as they will have access to the warehouse daily, if required, and can take tobacco from as many different packages as if it were under their sole control, it is not necessary that greater quantities should be taken than are required for each day's use : when taken for use by whole packages it must be entered ex-warehouse at the weight marked on the packages when received :

(*a.*) If, in the opinion of the Department, the conveniences afforded by any tobacco or cigar factory will not permit of the storing of all raw leaf tobacco and other raw material within the locked apartment designated for that purpose, without unduly harassing the manufacturer, then the collector may authorize such proportion as he may see fit to be stored in other parts of the factory ; and in such case each such package so withdrawn, if not required for proximate use, shall have placed upon it by the manufacturer a red card of not less than four inches square, with the words "in bond" printed thereupon in letters of not less than one inch in height ; and the removal of such card, or of any of the contents of such package, before the weight contained in such package has been entered to the debit of the "Daily Record" as "taken for use," shall be deemed to be an illegal abstraction of goods from warehouse, and shall subject the manufacturer to like penalty as by law provided ;

(*b.*) When the contents of any package are taken for use at various times, the last entry from the package shall be made to balance the quantity originally warehoused and marked on such package ;

(*c.*) A manufacturer will be permitted to take whole packages or such quantities as he may require for use, but if it is at any time evident that a manufacturer is entering for use quantities far in excess of what his business demands, the collector will apply to the Department for specific instructions.

Sec. 17. All stems produced in any tobacco or cigar manufactory must, unless used or intended for immediate use in the manufactory, or held by the manufacturer with a view to their exportation, be weighed up not less frequently than once a month and either destroyed or locked up as hereinafter provided.

All stems, scraps, cuttings and waste produced in any tobacco or cigar manufactory and charged back to stock and carried to debit of stock book No. 1, shall, unless immediately destroyed, removed or entered for use, be placed in raw-leaf warehouse.

Sec. 18. The destruction shall be by burning, except when some other mode is specifically permitted. Collectors are authorized to deliver from time to time, to known gardeners, tobacco stems to be used for horticultural purposes only. The quantity furnished for such purposes and the security to be taken for the proper use of such stems to be within the discretion of the collector. Forms of bonds (A. 8,) and permits (Bb. 13,) can be had on requisition being made therefor to this Department. Stems may also be delivered to reliable persons for fertilizing purposes in such quantities as the collector may, in his discretion, deem advisable. In this case, however, it is required that the stems should be mixed with manure in the presence and to the satisfaction of an officer of this Department, which being done, no bond will be required. Either the manufacturer or the person receiving the stems, as may be mutually agreed upon, must bear the expense consequent upon the officer's attendance at the place where the stems are so destroyed. Stems delivered for either horticultural or fertilizing purposes will be included in the "Monthly Return of Tobacco Stems," (G. 17).

Sec. 19. Stems, scraps, cuttings or waste must, before they can be entered for removal and destruction, be carried to debit of stock book No. 1.

Sec. 20. Raw leaf tobacco, after being charged in a tobacco or cigar manufacturer's daily record as taken for use, cannot thereafter be removed from factory in an unmanufactured state, unless by special permission, in each case obtained from the collector.

Sec. 21. Raw leaf tobacco and scraps and cuttings when removed from a tobacco or cigar manufactory or tobacco warehouse must, before removal, be re-weighed and tested and deficiency (if any) ascertained, and the quantity shall be entered in standard pounds as thus determined, and must be consigned to the order of the collector of the division to which entered for removal. If any deficiency is found to have arisen on the tobacco or scraps and cuttings while in warehouse, application must be made to the Department for authority to pass a free entry, or to be otherwise dealt with as the Department may determine.

Sec. 22. Where tobacco and other raw materials are secured under crown lock, it is not necessary to weigh each package in the warehouse when taking stock ; only a sufficient number to satisfy the officer that the packages remain as shown on tag : when not secured by crown lock, each package must be carefully weighed.

Sec. 23. As stems and waste do not enter into computation in arriving at the production in cigar manufactories, collectors are requested to see that all such produced are properly charged back to stock book No. 1, so that no balance of same will remain to be included as in process of manufacture at time of stock-taking.

Sec. 24. Flavorings received at a tobacco or cigar manufactory are not to be examined by the officer in charge, but the weights are to be recorded by the manufacturer, as in the case of other raw material.

B.—For sale of scraps, cuttings, stems and sweepings of tobacco in bulk, by one manufacturer to another.

Sec. 25. Whenever any manufacturer of tobacco or cigars desires to sell his refuse scraps, cuttings, stems and sweepings of tobacco, in bulk and as material, to another manufacturer of tobacco or cigars, to be further manipulated or manufactured, he is hereby permitted to do so under the following rules and conditions, viz. :—

(*a.*) The scraps and cuttings, stems and sweepings of tobacco must be put up in separate packages, and in no case mixed, nor must any raw leaf be added thereto to fill up the package. The different classes of tobacco must be kept separate and distinct ;

(*b.*) The removal must be made in bond, and the goods consigned to the order of the collector of Inland Revenue of the division to which the goods are to be removed, in the same manner as provided for manufactured articles ;

(*c.*) The packages containing the goods are to be consecutively numbered, and each to have marked thereon the gross weight, the tare, and the net weight, and also the

standard weight of unmanufactured tobacco contained therein, and shall, in addition, have marked thereon the registered number of the manufactory, number of the warehouse entry, date, and number of the Inland Revenue division ;

(*d.*) No person other than manufacturers of tobacco or cigars will be allowed either to purchase or sell this description of tobacco unless it is packed, stamped, and the duty paid thereon, as provided by law.

Sec. 26. Whenever any manufacturer of tobacco or cigars desires to sell his refuse scraps, cuttings, stems, or sweepings of tobacco for export to a foreign country, he will enter the same for export in bond in the same manner and under the same regulations as govern the shipment and exportation of manufactured goods.

Sec. 27. Cigar manufacturers will not be permitted to put up small packages of cuttings for consumption.

C.—For removal of snuff-flour and fine-cut shorts, from one tobacco manufactory to another.

Sec. 28. Snuff-flour not prepared for use, but which needs to be subjected to further process of sifting, pickling, scenting or otherwise, before it is in a condition fit for use or consumption, may be sold by one tobacco manufacturer directly to another, under the following regulations :—

(*a.*) The snuff-flour shall be put up in packages, and these packages consecutively numbered and marked with the gross weight, the tare, and the net weight thereof, and shall, in addition, have marked thereon the registered number of the factory from which removed, the number of the warehouse entry, date, and number of the Inland Revenue division ;

(*b.*) The snuff-flour shall be removed from one manufactory to another in bond—the necessary warehouse and removal entries and removal bond being passed therefor, as in the case of other removals in bond.

Sec. 29. Fine-cut shorts, the refuse of fine-cut chewing tobacco, may be sold in bulk, like scraps, cuttings, &c., by one manufacturer of tobacco to another ; but when put up for sale and consumption, they must be packed in packages containing one-twentieth, one-sixteenth, one-tenth, one-eighth, one-fifth, one-fourth, one-half or one pound each, and stamped like other small packages of tobacco : the law does not authorize the packing of fine-cut shorts in five pound or ten pound packages, the same as fine-cut chewing.

Sec. 30. Fine-cut shorts may be sold in bulk by one tobacco manufacturer to another, under the following regulations :—

(*a.*) They shall be put up in packages, and these packages consecutively numbered and marked with the gross weight, the tare, and the net weight thereof (the net weight being stated in apparent and also in standard pounds), and shall, in addition, have marked thereon the registered number of the manufactory where put up or from which removed, the number of the warehouse entry, the date and number of the Inland Revenue division ;

(*b.*) The fine-cut shorts, like snuff-flour, shall be removed from one manufactory to another in bond.

Sec. 31. Upon the receipt of the snuff-flour or fine-cut shorts at the manufactory to which it is consigned, it shall be placed in the raw-leaf warehouse, and shall be delivered to the manufacturer in such quantities as he may require for treatment.

Sec. 32. In all books, snuff-flour and fine-cut shorts shall, when entered for removal for further treatment at another licensed tobacco manufactory, be treated as raw material, and as the transactions are not likely to be such as to render it necessary to encumber the books with special columns for these articles, they will be dealt with in the books in the following manner, when removed, viz. :—

(*a.*) The entries to be made in red ink ;

(*b.*) Enter in column No. 21 in daily record when produced, and in columns Nos. 10 and 26 in stock book No. 1, when "charged back to stock" and "removed from manufactory" respectively ;

(*c.*) At receiving manufactory enter in columns Nos. 9 and 25 in stock book No. 1, when "brought in" and "taken for use," respectively, and in column No. 7 in daily record, when "taken for use ;"

(*d.*) Explanations to be made in columns Nos. 2 and 19 in stock book No. 1, and columns Nos. 2 and 15 in daily record ;

(*e.*) Totals of fine-cut shorts and snuff-flour to be also shown in red ink, and separate and distinct from the totals of scraps, cuttings and waste, as shown in the columns referred to.

D—Raw leaf tobacco samples.

Sec. 33. The following regulations as to the manner of dealing with small quantities of raw leaf tobacco imported as sample, and on which the Department has no authority to collect duty, are issued for the guidance of Customs officers at the ports where such samples are imported :—

(*a.*) Such samples must be bonded in a Customs warehouse in the same way as all other imported raw tobacco is bonded ;

(*b.*) The removal of such samples from Customs warehouse in quantities not exceeding one hundred and fifty pounds at any one time may be permitted on a removal bond being executed with the Collector of Customs by the parties who desire to remove the tobacco, and another surety who must be a resident householder, or some responsible person resident at or near the port at which the bond is given ; and each separate parcel or sample must be securely sealed and stamped, so that it may be identified ;

(*c.*) The removal entry shall accurately state the quantity, description and quality of the tobacco, as known to the trade, to be removed, which description shall also include particulars necessary for the identification of the several samples or parcels ;

(*d.*) Each removal paper shall have endorsed on it, by the Collector of Customs, the date at which the removal bond will expire, and shall set forth that the holder of the paper is permitted to carry with him the tobacco therein described for the purpose of exhibiting it to his customers ;

(*e.*) The conditions of the bond are to be that the tobacco shall, within a specified time, be delivered to and entered upon the books of a licensed tobacco or cigar manufacturer, or that it shall be exported ;

(*f.*) And the bond shall only be cancelled on the production of the certificate of an officer of Excise that the tobacco has been entered on the books of a licensed tobacco or cigar manufacturer, or on the certificate of a Customs officer, that the tobacco has been exported and within the time mentioned ;

(*g.*) In addition to the above certificate, when the tobacco is exported all the warehouse regulations then in force in reference to the exportation of Customs goods shall be complied with before the bond is cancelled ;

(*h.*) Whenever the bond is not cancelled in the manner above stated, and within the time stated in the bond, it will be the duty of the Collector of Customs before whom it is taken, to call upon the parties for the immediate payment of the penalty inserted in the bond, which, in accordance with the 312th section of the Inland Revenue Act, will be for a sum equal to 30 cents per pound on the tobacco to which it relates ;

(*i.*) When samples are sent out by the travelling agent of any person duly licensed to warehouse raw leaf tobacco under the Inland Revenue Act, an accurate account of such samples is to be taken by the proper officer of Excise and entered on the warehouseman's books, and the same means adopted for their identification, as is directed with reference to samples just imported ;

(*j.*) A bond will be taken with reference to such samples of the same nature as is directed with reference to samples just imported ; but in lieu of making it an alternative that such samples shall be exported, the conditions shall be that they shall be returned to the warehouse of the licensed warehouseman, and by him entered on his books ;

(*k.*) Whenever any importer desires to do so, he may pay the fee of thirty cents per pound on the raw-leaf samples, and have them stamped with the special raw-leaf tobacco sample stamp provided for that purpose, and may then bring in and exhibit his samples without any restrictions as to the giving a removal bond, procuring the certificate of officers of Excise as to its being entered on a manufacturer's book, or for the exportation of the sample ;

(*l.*) The special raw-leaf tobacco sample stamps are to be destroyed when the tobacco is taken for use in any tobacco or cigar manufactory.

ARTICLE 2.—STAMPS.

A.—Stamps for Tobacco.

Sec. 34. By virtue of the authority of the Inland Revenue Act, the following denominations of stamps for tobacco have been prepared, and their use is hereby prescribed, viz. :—

(*a.*) Small stamps, in sheets, of the denomination of ten, twenty, fifty and one hundred for cigarettes ; one-sixteenth of a pound for snuff, and one-tenth of a pound for cut tobacco ;

(*b.*) Strip stamps, in sheets, of the denomination of one-twentieth, one-sixteenth, one-twelfth, one-tenth, one-ninth, one-eighth, one-sixth, one-fifth, one-fourth, one-half and one pound, for use on all legal packages of cut and granulated tobacco, shorts, clippings, cuttings and sweepings of tobacco.

(*c.*) Strip stamps, in sheets, of the denomination of five and ten pounds for pails, kegs or drums of fine cut chewing tobacco;

(*d.*) Strip stamps, in sheets, of the denominations of one-sixteenth, one-eighth, one-fourth, one-half and one pound, for packages of snuff, as well as on packages of cut and granulated tobacco, shorts, clippings, cuttings and sweepings as per clause (*b*) above.

(*e.*) Strip stamps, in sheets, of the denominations of five and ten pounds, for packages holding snuff when containing not more than forty per cent of moisture;

(*f.*) Strip stamps, in sheets, of the denominations of five, ten and twenty pounds, for packages holding snuff, when containing more than forty per cent of moisture;

(*g.*) Coupon stamp, in books, of the denominations of one, five, ten, fifteen and twenty with one-half pound coupons; thirty-five, sixty, seventy and one hundred with one-pound coupons.

Sec. 35. No stamp of a denomination less than one-tenth of a pound is provided for tobacco solely the product of Canadian raw leaf.

Sec. 36. It is the duty of every officer in charge of any tobacco or cigar manufactory to see that no greater quantity of tobacco or cigars in contained in the packages to which the stamps are attached than the stamp is intended to cover, and the packages must in all cases be full, *i. e.*, a ten-pound stamp must not be placed upon a package capable of holding fifteen to twenty pounds, even if the package only contains ten pounds of tobacco. Should any package containing tobacco or cigars at any time be discovered with stamps thereon for a quantity less than the package contains, it is the duty of every officer to detain such packages as forfeited, and report the circumstances to this Department through the Collector of the division.

Sec. 37. Stamps for use on packages of tobacco or cigars shall be of such colour and description as the Department of Inland Revenue may provide.

B.—Stamps for Cigars.

Sec. 38. The Commissioner of Inland Revenue has caused to be prepared for the payment of duty on cigars, the following denominations of cigar stamps:—

(*a.*) Strip stamps issued in sheets, for boxes or packages containing three, six, ten, twenty-five, fifty, one hundred and two hundred cigars each;

(*b.*) Strip stamps issued in sheets, for sample boxes of cigars containing twenty-five cigars each;

(*c.*) Strip stamps, issued in sheets, for boxes of imported cigars (rate of duty being on the pound as heretofore);

(*d.*) Manufacturers must each time make requisition for a quantity of either three-cigar or six-cigar stamps not less than sufficient to cover 1,000 cigars.

Sec. 39. Stamps for use on sample boxes of cigars are coloured yellow, with the letter "F" thereon when used on cigars the product of foreign leaf, and "C" thereon when used on cigars the product of Canadian leaf.

C.—Stamps for Canada Twist.

Sec. 40. Stamps for Canada twist are supplied of the denominations one-fourth, one-half and one pound each.

Sec. 41. Stamps of the above denominations will be supplied to postmasters or other persons throughout the country, who will keep a record of the names of the persons to whom they sell stamps, and of the license number and the number and denomination of stamps sold to each (selling them only to licensed persons), for which purpose a suitable book is supplied; the register of sales above referred to is to be open at all times for the inspection of officers of Inland Revenue.

Sec. 42. In regard to the sale of stamps for "Canada Twist," the following regulations are to be observed:—

(*a.*) A return of the sales is to be made daily (or as often as they occur), as is done in the case of other collections. Form D. 12 is to be used, and must show: (a.) The names of the purchasers; (b.) The denomination and consecutive numbers of the stamps; (c.) The total weight represented by the stamps; and (d.) The total amount of duty:

(*b.*) It is not necessary to make a separate entry paper for each sale when more than one sale is made in a day; but the sales to persons who are authorized to sell stamps on commission should not appear on the same entry with sales to other persons:

(*c.*) In the case of stamps sold on commission, the full amount of the duty chargeable upon the weight represented by the stamps is to be deposited to the credit of the Receiver General, the Collector taking the amount of the commission from his advance for contingencies:

(*d.*) At the end of each month (or oftener if necessary) the Collector will forward to the Department a statement of the amounts allowed for commission, quoting the number of each entry, the total amount of duty which it represents, and the amount of commission allowed thereon. The statement will be audited, and, if found correct, a cheque for the amount will be issued:

(*e.*) If at any time stamps are used for "Canada Twist" which has been seized, a separate entry paper must be used for them, or they may appear on the entry paper used to account for the proceeds of the seizure.

Sec. 43. Canada twist cannot be manufactured for sale by the cultivator unless he has taken out a license, paying therefor the sum of two dollars, and the law imposes a heavy penalty on any cultivator who shall manufacture for sale any Canada twist without taking out a license; Collectors of Inland Revenue and others acting for this Department will, therefore, take all the means in their power to acquaint cultivators with the necessity of taking out such license and stamping the Canada twist before offering it for sale.

Sec. 44. The stamps will be attached to the roll or coil by interlacing it through the coil when made and bringing the two ends of the stamp once around the coil and fastening securely by gum or paste. The stamp is to be attached in all cases by means of good strong gum, and every officer of this Department is instructed, so far as it lies in his power, to impress upon cultivators who manufacture Canada twist for sale, that the firm adherence of the stamp to the tobacco is necessary in order to protect it from seizure, for if any packages are found anywhere except in the possession of the licensed cultivator, manufacturer, or in the premises of a licensed tobacco manufacturer of Canadian leaf tobacco only, without a stamp properly attached, they will certainly be seized and confiscated, in accordance with the law.

Sec. 45. The law also imposes heavy penalties on any person who shall open a package of tobacco without breaking the stamp thereon, or in whose possession a package unlawfully opened shall be found, or in whose possession any used stamps shall be found.

Every officer will, therefore, avail himself of every opportunity for bringing these matters under the notice of those concerned.

D.—Bonded Removal Permit Stamps.

Sec. 46. The bonded removal permit stamps to be used on packages of tobacco when ex-warehoused for removal in bond, are of the following denominations, viz.:—

(*a.*) For use on pails, kegs, drums or other packages of fine-cut chewing tobacco, weighing five and ten pounds each;

(*b.*) For use on five, ten and twenty pound packages of snuff;

(*c.*) For use on packages of plug tobacco weighing from five to twenty-five pounds;

(*d.*) For use on packages of plug tobacco weighing from thirty-five to one hundred and ten pounds;

(*e.*) For use on packages of cigars.

Sec. 47. They are to be attached as follows:—

(*a.*), (*b.*) and (*e.*) are to be attached to the package in such a manner as to be about equally attached to the cover and the body of the package:

(*c.*) and (*d.*) are to be attached at the same place on caddy or box as reserved for regular duty-paid stamp, viz. "over one corner or angle of the box or caddy, at equal distances from each end, attaching about equally to each side."

Sec. 48. Each package of tobacco or cigars removed in bond must be covered by a bonded removal permit stamp, of a denomination provided for the class of package upon which it is placed, and is to be attached to the package and cancelled by the manufacturer or his agent; the cancellation will be by means of the roller stamp used for the first cancellation on the regular duty-paid stamps; if the manufacturer so desires it, the bonded removal permit stamps may be placed upon the packages intended for removal at the time the tobacco or cigars are put in the warehouse. As this is solely for the accommodation of the manufacturer, the understanding must be that he shall only ask for these stamps to attach to packages that he *knows* will be entered for removal or transfer in bond. If he cannot do this the stamps can only be furnished at the time of entry of goods for removal or transfer. Officers in charge of tobacco or cigar factories are required to see that these stamps are properly used.

E.—Stamps for Customs.

Sec. 49. Arrangements have been made with the Department of Customs, that in future stamps for imported tobacco shall be supplied by this Department, through the Collectors of Inland Revenue. Collectors will therefore put themselves in communication with the Collectors of Customs, who may require to obtain supplies through

the Excise office, and request them to make requisitions on the Collectors of Inland Revenue for such stamps as they are likely to require at their respective ports.

Sec. 50. As it takes considerable time to obtain stamps, when not in stock at the time the requisition is received, the Collector of Inland Revenue aforesaid will request the Collectors of Customs to make their requisitions as early as possible.

Sec. 51. The denominations of stamps for imported tobacco and cigars are the same as those for like articles manufactured in Canada, with the addition of a stamp for raw leaf tobacco samples, cigar stamps at rate of duty per pound instead of per M. and cigarette stamps of the denominations of one-fortieth and one-twentieth of a pound.

F.—Supply of Stamps.

Sec. 52. Stamps will be supplied by the Department upon proper requisition being made therefor by the Collector of Inland Revenue, who will make requisition sufficiently in advance to insure having a supply always on hand equal to the probable demand for three months, as required by section 280 of the Inland Revenue Act: on receipt of a parcel of stamps the Collector or other officer receiving them is immediately to count them, and if they are found to be in accordance with the receipt accompanying the parcel, he is to sign, date and return the receipt to the Department by the next mail, and enter the stamps so received on the debit side of his "General Record of Tobacco Stamps (K. 21a);" if they are not found to be correct, he must immediately advise the Department of the error, and enter the exact number received by him to the debit of his stamp account: Collectors and other officers must account for every stamp acknowledged to have been received by them.

Sec. 53. A separate account is to be opened for each denomination of stamp, and kept in the manner shown on first folio of stamp book, stating on the debit side the number received, and on the credit side the number issued. On opening the account the debit side is to commence with the number of stamps then on hand of the description to which it relates.

Sec. 54. Collectors are instructed to forward to the Department, by mail, registered, on the first day of each month, all books containing marginal stubs and unused coupons, the last stamps from which were detached during the previous month. The covers thereof are to be neatly cut even with the stubs, and those portions of the covers so detached need not be returned to the department, and all books containing coupon stubs so returned must show on the blank space opposite each sheet of coupons the number of pounds represented thereby on that page; and that a statement be attached to the fly leaf in front of each book, showing the number of pounds represented by the unused coupons on each page in detail and the total thereof. Collectors will take credit in their General Record of Tobacco Stamps (K. 21a) for the coupons so returned.

G.—Mode of affixing Tobacco and Cigar Stamps.

Sec. 55. Under the authority of section 280 of the Inland Revenue Act, it is hereby prescribed that stamps shall be affixed to packages of tobacco and cigars in the following manner, viz.:—All packages of tobacco, except fine-cut chewing and snuff, containing five pounds and upwards, shall have affixed a registered coupon stamp of a denomination corresponding with the net weight of the tobacco contained therein: for example, packages containing from ten to twenty-five, and from sixty to eighty pounds, can be, and must be covered by a single stamp, by using coupons attached to stamps, when the weight of the package is not precisely ten, fifteen, twenty, sixty or seventy pounds (in which case the stamp alone is used, without the coupons attached): when the weight of tobacco contained in the package ranges between ten and twenty-five, and between sixty and eighty pounds, the coupons are used in connection with the stamp bearing such weight, so that with one or more of the coupons attached thereto it will correspond with the weight required: half pounds will not be allowed on packages containing twenty-five pounds and upwards: all other packages of tobacco are to be covered by stamps of the denomination provided by the Department, and one stamp only is to be used on each package.

Sec. 56. Upon all descriptions of boxes and caddies of cavendish, plug, twist, or other description of tobacco, the stamp shall be affixed over one corner or angle of the box or caddy, at equal distances from each end, attaching about equally to each side: and on all such packages, when made of wood, a groove not less than one thirty-second of an inch deep shall be made to admit the stamp, and prevent its being torn or rubbed off by transportation.

Sec. 57. Upon all kegs, drums, pails, or other packages containing five and ten pounds of fine cut chewing, and five, ten and twenty pounds of snuff, as permitted by law, the stamp, being a strip stamp, shall be placed across the cover, so as to extend down each side of the package, and to effectually seal it.

Sec. 58. Strip stamps, whether used for packages containing smoking tobacco, fine-cut chewing, snuff, cigars or cigarettes, must be so attached as to effectually seal the package, and render it impossible to open the same or remove its contents without destroying or breaking the stamps: stamps on cigar boxes must be placed at least three-fourths of an inch from the end of the box.

Sec. 59. The practice of putting up cigarettes in small parcels held together by a narrow band, and these parcels placed in a large package, which alone is stamped, will not be permitted. All cigarettes must be put up in packages as provided by the Act, and each package must bear the proper revenue stamp.

Sec. 60. The strip stamps for tobacco are made sufficiently long to pass over both ends of the package and turn the opposite angles, thus effectually sealing the package, and they must be so affixed; and when applied to bags which open only at one end, they must be affixed so as to effectually close that end.

Sec. 61. The stamps are to be affixed to the packages by using an adhesive material that will cause them to stick to the wood, paper or other packages, securely and permanently: after the stamps on wooden or metal packages of tobacco have become dry, and the cancellation has been made, as herein described, they must be varnished over thoroughly, but not so as to obscure or obliterate the impression upon the stamp.

Sec. 62. Tobacco or cigar stamps will not adhere to tin-foil with ordinary gum or paste; the manufacturer must therefore either envelop the tin-foil in an outer wrapper of paper or provide some kind of gum or paste by which the stamps may be so attached that they cannot be removed without destroying them.

Sec. 63. Manufactures or importers of cigars will not be allowed to wrap the box or package containing cigars in an outer covering of paper or other material and attach the stamp to the outer covering; the stamp must be attached to each package proper, so as to remain thereon as an evidence of its being legally in the possession of the holder thereof.

Recipes.

Sec. 64. The following recipes for cheap and practical paste and varnish, which have been fully tested, are prescribed for use:—

For *paste*,—Dissolve one pound of gum arabic in one and three-fourths pints of boiling water; add from two to four ounces of acetic acid, and keep it corked when not in use; apply evenly to the stamp or notice and press it firmly upon the wood or other material of which the package is composed:

For *varnish*,—Place in a bottle of sufficient size one half pound of bleached gum shellac, broken fine, and add strong alcohol; shake occasionally until entirely dissolved, and keep is corked to prevent evaporation; should the varnish at any time become too thick, add a small quantity of alcohol.

Sec. 65. Stamps on packages of tobacco and cigars are to be attached at the manufactory, by the manufacturer or his agent, at the licensed bonding warehouse by the warehouseman or his agent, and at the Customs bonding warehouse by the Customs officer; although the responsibility of stamping tobacco ex-warehoused from a merchant's Excise bonding warehouse remains with the owner of the warehouse, the officer delivering the tobacco is expected to aid in the attaching and cancelling of the stamps, where this can be done immediately after the delivery of the goods from warehouse.

H.—Cancelling Dies and Stamps.

Sec. 66. By virtue of the authority conferred by section 281 of the Inland Revenue Act, the Commissioner of Inland Revenue will furnish steel dies for the cancellation of all stamps used on wooden packages, or packages made partly of wood and partly of other materials, containing tobacco: these dies will be forwarded to the several Collectors of Inland Revenue, and they will be loaned by them to the manufacturer of tobacco or other person mentioned in their requisition therefor and to no other.

Sec. 67. In effecting such cancellation, the die will be required to be applied twice to the stamp upon the package, once in the place on the stamp marked "cancellation by steel die," and a second time over and upon the vignette on the stamp.

Sec. 68. A steel cutting roller is also supplied for the cancellation of stamps on tin caddies or boxes of tobacco, which instrument is to be drawn across the stamp and on to the metal of which the package is composed: this instrument should be so used as to sever the stamp and continue the line of separation on to the metal: it is to be applied to the stamp on each side of the package, but is to be done in such a manner as not to disfigure the cancellation made by the rubber stamp.

Sec. 69. Collectors will keep an account of all steel dies and other instruments intrusted to them, and a record of the names of all persons to whom they are furnished (furnishing them only to the legally authorized tobacco manufacturers and others, as instructed by the Department) and the date of their delivery: whenever any die shall have become broken or damaged in the hands of any manufacturer or other person, so as to be unfit for use, or whenever any person receiving such Government die shall have no longer any legitimate use for the same, it must be returned to the Collector, and held by him subject to departmental orders, and the person accredited therefor.

Sec. 70. The law makes it imperative upon every manufacturer of tobacco, putting up his tobacco in packages as heretofore described, and upon every person ex-warehousing tobacco from an Excise bonding warehouse, to use this die, and no stamps on such packages will be regarded as properly cancelled, and the packages and their contents will be liable to seizure, whenever found, unless the stamps are cancelled with a Government die, and in the manner hereinafter named, viz., the stamp must be so cancelled that a portion of every stamp shall be *driven into and lodged within the wood* of the package, or when on metal, by severing the stamp, and continuing the line of separation on to the metal of which the package is made.

Sec. 71. Roller stamps, for the cancellation of tobacco and cigar stamps, will also be supplied by the department, upon proper requisition being made therefor.

These roller cancellation stamps are as follows, viz.:—

(*a.*) For tobacco manufacturers' use in cancelling strip stamps used on tobacco put up in packages of paper, linen, or other soft yielding material, and for the first cancellation on all other stamps used on packages of tobacco:

(*b.*) For cigar manufacturers' use in cancelling strip stamps used on cigar boxes;

(*c.*) For the use of persons having licensed bonding warehouses, in cancelling (in addition to steel die or instrument) the stamps on packages of tobacco ex-warehoused for duty from a warehouse other than the manufacturer's where tobacco was made;

(*d.*) For Collector's use in cancelling stamps on packages of tobacco and cigars removed in bond under the provisions of section 25 of Warehousing Regulations and to cancel stamps on tobacco ex-warehoused from an Inland Revenue bonding warehouse established under authority of section 65 of the Inland Revenue Act;

(*e.*) For Customs officers' use in cancelling strip stamps used on imported tobacco put up in packages of paper, linen or other soft or yielding material, and for the first cancellation on all other stamps used on packages of tobacco.

(*f.*) For Customs officers' use in cancelling strip stamps used on cigar boxes.

Sec. 72. In asking for these roller stamps the following formula should be used, for the sake of uniformity. Quote factory number or warehouse letter, division number, and name of applicant, thus:—

1.30. Tobacco Factory roller for J. E. Tuckett.
2.28. Cigar Factory roller for S. Myers.
A. 17. Tobacco Warehouse roller for D. C. Brosseau.
A. 17. Cigar do do do
30 Tobacco } General Excise Warehouse Roller for
30 Cigars } the division of (*Hamilton*).

If required for Customs use, the port should be named thus:—

Customs, Tobacco, Weymouth, N.S.
Customs, Cigars, Woodstock, N.B.

Sec. 73. The names of new applicants must be registered at Department before the roller is supplied. When through ordinary wear and tear new rubber bands or repairs are required, a new stamp complete will be supplied on requisition, on receipt of which the old stamp will be returned to the Department.

Sec. 74. Collectors must keep an account of all cancellation stamps intrusted to them, as in the case of the steel cancellation dies.

Sec. 75. The law requires that all stamps upon packages of tobacco and cigars shall be cancelled by a Government stamp or die and it is now prescribed that when the stamps are upon other than wooden boxes and caddies of cavendish that the cancellation shall be by means of the roller stamp recognized by the Department; the stamps on wooden packages of tobacco being cancelled in addition to the above, by the steel die, and those on metal packages by the steel cutting roller supplied for that purpose.

I.—Mode of cancelling tobacco and cigar stamps.

Sec. 76. All stamps are to be cancelled immediately after being placed upon the packages, but the cancellation by the roller stamp, except in the case of cigars, may be made by the manufacturer or other party, immediately before being placed thereon.

Sec. 77. Stamps for tobacco must be cancelled by imprinting upon each stamp, in the oblong blank space left for that purpose, the registered number of the manufactory, or letter of dealer's bonding warehouse, and the number of the Inland Revenue Division. Rubber roller hand stamps will be furnished by the Department for this purpose, but if any manufacturer desires to use a stamp applied by any other means, permission may be granted for this form of cancellation only.

Sec. 78. Stamps used on five or ten pound packages of fine-cut chewing, on five, ten and twenty pound packages of snuff, and on quarter caddies, half caddies, caddies and boxes of tobacco, when made of wood, must, in addition to the above, also be cancelled by means of the steel die supplied for that purpose, which die drives a portion of the stamp into the wood of which the package is composed—the die being applied to the stamp twice, once in the space reserved for this cancellation, and again on the vignette on the stamp: the further cancellation of stamps on metal packages will be by means of the steel cutting roller supplied for that purpose, which severs the stamp, and continues the line of separation beyond the stamp and on to the metal of which the package is made; the application being made to the stamp on each side of the package.

Sec. 79. Stamps on packages of imported tobacco shall be cancelled as follows, viz.: stamps on packages composed of paper, cotton, tin-foil or other soft or yielding material, by means of a roller stamp, which shall imprint upon the stamp the name of the port where entered for duty or this information may be written in on the stamps: stamps on wooden packages of plug, fine-cut chewing, and packages of snuff shall be cancelled as above, but in addition thereto shall be further cancelled by means of the steel die; stamps on packages made of metal, when imported, shall, in addition to the above, be cancelled by means of the steel cutting roller supplied for that purpose, which severs the stamp and continues the line of separation beyond the stamp and on the metal of which the package is made.

Sec. 80. Stamps on packages of tobacco ex-warehoused for consumption by a merchant or person other than a manufacturer and at the manufactory where made or put up, shall be cancelled by the person ex-warehousing the same by means of the roller stamps, which will imprint upon the stamp, in the oblong space reserved for that purpose, the letter of the warehouse, and the number of the Inland Revenue Division. Stamps, when on wooden packages, shall be further cancelled by means of the steel die supplied for that purpose, which die drives a portion of the stamp into the wood of which the package is composed; and when on metal packages, by means of the steel cutting roller provided for that purpose, which instrument severs the stamp and continues the lines of separation beyond the stamp and on the metal of which the package is made.

Sec. 81. Stamps on packages of tobacco ex-warehoused from the manufactory where made or put up, shall be cancelled as described by sections seventy-nine (79) and eighty (80) of these regulations.

Sec. 82. The stamps on cigar boxes will be cancelled by means of a roller stamp supplied for that purpose, which stamp carries the impression beyond the duty-paid Inland Revenue stamps, and on to the wood of which the package is made: in all cases the impression is to be made across the stamp continuously, the lettering being distinctly imprinted over space reserved for cancellation: this cancellation stamp, so used, must imprint upon the stamp the registered number of the manufactory, and the number of the Inland Revenue Division, as required on all other stamps.

Sec. 83. The cancellation of Customs stamps upon packages of cigars will be by means of the roller stamp, as per the next preceding section, but the information to be imprinted upon the space reserved for cancellation will be the name of the port where ex-warehoused for duty.

Sec. 84. In cancelling stamps by imprinting, as herein prescribed, where blank spaces are left on the stamps for that purpose, they must always be used.

Sec. 85. The cancellation of tobacco or cigar stamps will be done by the following persons, viz.:—

(*a.*) At a tobacco or cigar manufactory, by the manufacturer or his agent;

(*b.*) At a warehouse (other than the manufacturer's where tobacco or cigars were made), by the person who ex-warehoused the tobacco or cigars; and—

(*c.*) Stamps on imported tobacco or cigars, by the Customs officers at the port where the tobacco or cigars were ex-warehoused for duty.

Sec. 86. The importance to be attached to the cancellation of all stamps has been shown by the severe fines and penalties imposed upon any person who shall remove from any manufactory or place where tobacco or cigars are made, any such goods without stamps affixed and properly cancelled, and also the fines and penalties imposed upon any person who shall sell, or offer for sale, or have in his possession, any tobacco or cigars, the stamps upon which are *not properly cancelled*: the interest of the Government and the safety and protection of all who deal in tobacco or cigars require that manufacturers and others shall properly affix and cancel all stamps.

J.—Destruction of the stamps on packages of tobacco and cigars when emptied.

Sec. 87. Section 263 of the Inland Revenue Act makes it the duty of every person who empties any stamped box, bag, vessel, wrapper or envelope of any kind; containing tobacco or cigars, to destroy the stamp thereon; and any person who neglects or refuses so to do, is liable to a penalty for each such offence not exceeding one hundred dollars.

Sec. 88. This provision of the law applies not only to retail dealers who empty legal packages by retailing their contents, but also to every person who purchases tobacco or cigars for his own use, and empties such packages, who must destroy the stamp thereon.

Sec. 89. Collectors and other officers are informed that while section 263 of the Act requires that the destruction of a stamp shall consist of the removal of every part thereof from the package the Department for the present will not prosecute where the stamp is destroyed by disfiguring or destroying it in such a manner as to render it incapable of being used again. This may be done by the removal of portions of the stamp from different places on each of the sides of the package, the proportion so removed to be equal in the aggregate to at least one-fourth of the stamp.

K.—Caution Notices—Tobacco and Cigars.

Sec. 90. Upon every package of tobacco, weighing over one pound, whether put up in wooden packages or otherwise, the law requires that there shall be printed, or securely fixed by pasting thereon, a label, on which shall be printed the number of the manufactory, and the number of the division in which it is situated, together with the following notice:—

"Notice.—The manufacturer of this tobacco has complied with all the requirements of the law. The following caution is to be strictly observed under the penalties provided by the Statutes of Canada:—

1st. This package is to be opened in such a manner as to break the stamp.

2nd. This package is not to be used for any other tobacco when the present contents are removed.

3rd. The contents are not to be removed except for immediate sale; and

4th. When the package is empty the stamp must be destroyed.

Sec. 91. When used on boxes, caddies, kegs, pails, drums or other packages of tobacco, weighing more than one pound, the label on which the above notice is to be printed is required to be not less than four and not more than six inches long, and not less than two and one half inches in width, and to contain, in addition to the caution notice, the following facts, printed in plain, open and legible letters, viz.: (1) the number of the manufactory, and (2) the number of the Inland Revenue Division. These labels will be in the following form, viz.:

"Factory, No.....Inland Revenue Division, No....."

Notice.—The manufacturer of this tobacco has complied with all the requirements of the law. The following caution is to be strictly observed under the penalties provided by the Statutes of Canada:—

1st. This package is to be opened in such a manner as to break the stamp;

2nd. This package is not to be used for any other tobacco when the present contents are removed;

3rd. The contents are not to be removed except for immediate sale; and

4th. When the package is empty the stamp must be destroyed.

Sec. 92. The law provides that "every manufacturer of cigars shall securely affix, by pasting on each box containing cigars manufactured by or for him, a label, on which shall be printed, besides the number of the manufactory, and the number of the division in which it is situated," a caution notice in the following form:—

"Factory, No.....Inland Revenue Division, No....."

Notice.—The manufacturer of the cigars herein contained has complied with all the requirements of the law. The following caution is to be strictly observed under the penalties provided by the Statutes of Canada:—

1st. This package is to be opened in such a manner as to break the stamp;

2nd. The package is not to be used again when the present contents are removed:

3rd. The contents are not to be removed except for immediate sale; and

4th. When the package is empty the stamp and package must be both destroyed.

Sec. 93. This label for all cigar boxes is to be not less than three inches in length and two inches in width; or, if made in circular or oval form, it shall cover not less than six square inches of paper and be of a size sufficient to contain, in addition to the caution notice prescribed in plain, open and legible letters, these facts: (1) the number of the manufactory, and (2) the number of the Inland Revenue Division.

Sec. 94. The following form of caution notice is prescribed and must be used on outer packages containing cigarettes when put up in packages of ten (10) or twenty (20) cigarettes each, and cut tobacco and snuff in packages of one pound and under, the caution notice on each of the small packages constituting the contents, not being necessary.

"Factory, No.....Inland Revenue Division, No....."

Notice.—The manufacturer of the cigarettes (cut tobacco or snuff) herein contained has complied with all the requirements of the law. Every person is cautioned not to use this package for packing cigarettes (cut tobacco or snuff) again, nor to use the stamp, nor the stamped wrappers upon the packages of cigarettes (cut tobacco or snuff) constituting the contents of this package, under the penalties provided by law in such cases.

The words "Factory No.," "Inland Revenue Division No.," and "manufacturer," should be omitted when the notice is attached to packages of imported cigarettes (cut tobacco or snuff) and "the name of the port where," and "the number of the entry under which the cigarettes (cut tobacco or snuff) are ex-warehoused for duty," and the word "importer" respectively substituted therefor.

Sec. 95. The following form of "Special Caution Notice" is to be used on packages of tobacco or cigars that have been seized and confiscated and sold under authority of this department, and will be supplied upon requisition being made therefor:—

C. S.

EXCISE.

TOBACCO OR CIGARS.

Seizure No.....

Special Caution Notice.

Inland Revenue Division of.....

Notice.—The following caution is to be strictly observed under the penalties provided by the Statutes of Canada:—

1st. This package is to be opened in such a manner as to break the stamp;

2nd. This package is not to be used for any other tobacco when the present contents are removed;

3rd. The contents are not to be removed except for immediate sale; and

4th. When the package is empty the stamp must be destroyed and in the case of cigars the package also.

The information required to be placed upon the packages by a manufacturer may, in this case, be stencilled, and in addition to this regular information, the seizure No. will be placed thereon.

Sec. 96. Cigars when put up in packages of three (3) and six (6) cigars each, will not require a caution notice attached to such small packages, but the outer package in which they are placed must bear the following form of caution notice: "Notice.—The manufacturer of the cigars herein contained has complied with all the requirements of the law. Every person is cautioned not to use again the stamped packages of cigars constituting the contents of this package, under the penalties provided by law in such cases."

If imported, the word "Importer" is to be substituted for "Manufacturer."

Sec. 97. Importers of tobacco and cigars are also required by law to place a caution notice on each package of tobacco weighing more than one pound and on each package of cigars when in packages containing ten cigars and upwards imported by or for them.

Sec. 98. The affixing of this label or caution notice is made the duty of the manufacturer or importer; it is to be a printed label, or the necessary information may be imprinted on or impressed into the material of which the package is made. It is to be supplied and affixed by the manufacturer or importer before the tobacco or cigars are to be removed from the places where they were made or at which imported. No person has a right or will be allowed in any case to tamper with this caution notice, to remove it from the box, or package, to substitute another label for it, or to cover it up with a label either of his own or of any other person.

Sec. 99. This label or notice is to be distinctly and clearly the label required by law. The labels must be affixed to the package in a conspicuous place, where they will not be broken in opening the packages and where they will be exposed as little as possible to be worn or rubbed off, and in a manner so as not to be covered up or concealed by any other labels or marks, and so as not to conceal by them any other marks or brands required by law to be placed upon them.

Sec. 100. The law imposes a penalty of $50 on every manufacturer or importer of tobacco or cigars who neglects to affix such label to any package containing tobacco or cigars, made or imported by or for him, and on every person who removes any such label, so affixed, from any such package, such fine being for each package in respect to which such offence is committed.

If the manufacturer desires to do so, he may increase the size of the paper on which the caution notice is printed, so as to allow the printing, *separate and distinct from the label*, of his name and trade-mark.

Article 3.—Manufactured tobacco and cigars.

Special provisions for warehousing tobacco and cigars and for stamping same when ex-warehoused for removal in bond, for consumption, or for branding same when for exportation.

In addition to the General Warehousing Regulations established by Order in Council, the following apply specifically to tobacco and cigars :—

Sec. 101. On all packages of tobacco and cigars, when placed in warehouse by the manufacturer thereof, all marks, numbers, weights and other information required by law, must be written or branded thereon before the warehouse entry can be accepted, which entry must be compared with the packages of tobacco or cigars, and certified correct by the officer in charge of the manufactory, before it will be accepted by the Collector of Inland Revenue : Collectors will therefore permit the principal manufacturers to use out-numbers in order that these instructions may be fully complied with.

Sec. 102. As all marks, numbers, weights, &c., are required to be placed upon the packages before the warehouse entry can be accepted by the officer for comparison, and as no stamps are required prior to being placed in bond, the tobacco must be placed in warehouse immediately upon the receipt by the officer of the proper warrant : in large manufactories, where an exact compliance with this regulation is impossible, from the quantities involved, the Collector may, at his discretion, extend the time for placing in the warehouse,—such extension not, at any time, to exceed three days.

Sec. 103. The following are the only sized packages of tobacco that may be removed in bond, viz. :—

(*a.*) Fine-cut chewing tobacco, in packages of five and ten pounds each ;

(*b.*) Snuff, in packages of five, ten and twenty pounds each ;

(*c.*) Cavendish, plug or twist, in packages of from one to four pounds inclusive, five to twenty-five pounds inclusive, or from thirty-five to forty-five pounds inclusive, or from sixty to eighty pounds inclusive, or from one hundred to one hundred and ten pounds inclusive ; and—

(*d.*) Cigars in packages of twenty-five and upwards.

Sec. 104. Tobacco in smaller packages than those above mentioned shall not be removed in bond, nor shall the product of Canadian leaf tobacco be so removed when in packages containing less than ten pounds.

Sec. 105. Packages of tobacco or cigars when ex-warehoused at the manufactory for removal in bond to another Division, or transferred to another person within the same Division, shall be stamped by the manufacturer with the bonded removal permit stamp provided by the Department for that purpose, denoting the class of such goods. Packages of tobacco or cigars which have been placed in warehouse prior to the coming into effect of the provisions of The Consolidated Inland Revenue Act, 1883, and which may or may not be covered by the old red stamp, when ex-warehoused from any warehouse for removal or transfer must be covered by a bonded removal permit stamp. If previously stamped the old form of stamps must be scraped off the package and destroyed by the officer ex-warehousing the goods ; each package removed or transferred in bond must bear one of these bonded removal permit stamps, which must be cancelled by the manufacturer or other person ex-warehousing the tobacco by means of the roller stamp provided for that purpose. Subsequent removals of same tobacco or cigars do not require additional stamping by bonded removal permit stamp.

Sec. 106. Tobacco and cigars when entered ex-warehouse, whether for removal for transfer or for consumption, will require to be stamped with new form of stamps when so ex-warehoused, even if previously stamped under the requirements of regulations in force prior to July 1, 1883.

Sec. 107. When ex-warehoused for consumption the regular duty-paid stamp is to be attached to the package and cancelled in the manner herein provided : when tobacco or cigars are ex-warehoused for consumption from a warehouse other than the manufacturer's where made, —the packages then bearing a bonded removal permit stamp,—the duty-paid stamp is to be placed over the bonded removal permit stamp, so as to cover it as much as possible and the cancellation is to be made through both. The stamps for packages entered for consumption either by the manufacturer or merchant will be supplied upon receipt of proper entry papers ex-warehouse for consumption, the duty on the goods to be ex-warehoused, the warrant properly filled up, and a requisition on the form prescribed and issued by the Department, which requisition must show, for tobacco, the number of stamps at each weight required to cover the tobacco ex-warehoused, and in the case of cigars the number of stamps of each denomination necessary to cover the cigars ex-warehoused, the aggregate number of packages and pounds of tobacco, or packages and number of cigars, agreeing with the entry ex-warehouse for consumption.

Sec. 108. The stamps are in all cases to be attached and cancelled by the manufacturer or person ex-warehousing the goods, and in accordance with regulations herein established.

Sec. 109. Packages of tobacco or cigars, when ex-warehoused for exportation to a foreign country, shall be branded under the personal supervision of the officer in charge, with a brand of the following nature :—

EXPN

Tobacco—9-10-8-83.

For tobacco read *cigars* when used on cigar boxes,—the first numeral or set of numerals representing the factory number, the second the number of the Inland Revenue Division, and the third and fourth numbers the month and year respectively : when ex-warehoused from a warehouse other than that at the manufactory where tobacco and cigars were made, the factory number shall be omitted and letter or number of warehouse substituted therefor.

Sec. 110. This brand is to be placed upon all wooden packages by means of a hot iron and upon metal packages by means of steel dies, or by such other means as shall leave the necessary information legibly and indelibly impressed into the metal of which the package is made. On either wooden or metal packages the above brand is to be placed upon the side of the package. These dies must be furnished by the exporter, and the letters and figures thereon are not to be less than one-fourth of an inch in height.

Sec. 111. When the holder of tobacco or cigars in bond, which have already been stamped under the provisions of previous Acts, desires to export such tobacco or cigars, the stamps on the packages are to be removed by the officer in charge of the manufactory or warehouse, in the presence of another officer specially detailed therefor by the Collector of Inland Revenue : a record is to be kept by the aforesaid officers, giving the following information, which record is to be signed by them, and filed in the office of the Collector of Inland Revenue, viz. :—

(*a.*) The number of each stamp removed and destroyed, and the weight of the tobacco or cigars covered thereby ; and,—

(*b.*) The license number of the manufactory where the tobacco or cigars were put up and the name of the Division where stamp was issued :

The export papers cannot be finally accepted as complete until this has been done.

Sec. 112. When packages of tobacco weighing one pound and less, intended for exportation, are packed in large cases, it will only be required that the brand, as given in section one hundred and nine (109) of these regulations, be placed upon the outer cases,—which cases must be consecutively numbered and have marked on them the total number of packages, at each weight, and the total weight of tobacco contained therein.

Sec. 113. Tobacco and cigars, when exported, cannot be packed in the same case.

Sec. 114. All goods entered for exportation must be examined by the officer ex-warehousing the same, and, in order to do so, packages must be opened to such extent as the Collector of Inland Revenue may determine.

Sec. 115. Scraps and cuttings, or stems, when put up for exportation must be packed under the personal supervision of an officer of Inland Revenue, and unless the whole case is packed at one time, the packing thereof shall be done in the raw leaf warehouse.

Sec. 116. Each case or package when filled, shall be marked by the officer, with his name, and date when packed, and in such a manner as to be distinctly and clearly seen, and so that it can be identified by him and must be branded with the letters EXPN, as in the case of other tobacco for exportation.

Article 4.

For packing and stamping imported tobacco and cigars, cancelling the stamps thereon, and for removal of same in bond, from one Customs port to another, before being packed in packages similar to those used for like articles manufactured in Canada.

Sec. 117. The Inland Revenue Act states that "all manufactured tobacco or cigars imported from foreign countries, shall have the stamps affixed and cancelled while they are in the custody of the proper Custom-house officers," and that "such tobacco and cigars shall not pass out of the custody of the said officers until the stamps have been so affixed and cancelled."

Sec. 118. The cancellation of the stamps on tobacco, when put up in packages of paper, linen, or other soft or yielding material, shall be by means of the roller stamp provided for that purpose.

Sec. 119. The cancellation of the stamps on wooden packages containing imported tobacco, shall be by sinking into the wood of which the package is composed, a portion of the stamp by means of a steel die, which die shall be applied twice to every stamp, once in the place on the stamp reserved for cancellation and again on the vignette; and in addition to the cancellation by the steel die, they shall be further cancelled by means of the roller stamp supplied for that purpose,—the cancellation by roller stamp to be made in the space reserved on the stamps for that purpose, and it may be done immediately before the stamps are placed upon the packages if found more convenient; the cancellation of the stamps on metal packages containing tobacco, will be made by means of the steel cutting roller supplied for that purpose, which severs the stamp and continues the line of separation beyond the stamp and on to the metal of which the package is made: this instrument is to be applied to the stamp on each side of the package; the stamp is, in addition to this cancellation, to be further cancelled by means of the roller stamps used to cancel all stamps on packages containing tobacco.

Sec. 120. The stamps upon packages containing imported cigars, will be cancelled by means of a roller stamp of the design furnished by the Department; this cancelling stamp shall be so used that the imprint shall project beyond the stamp on to the wood of which the box is made; in all cases the impression is to be made across the cigar stamp.

Sec. 121. These cancellation dies and stamps will be furnished to the different collectors of Customs upon requisition being made therefor; and no package containing tobacco or cigars, as defined by the Inland Revenue Act, shall be handed over to the importer or owner until the stamps on the same are cancelled, as herein directed.

Sec. 122. The Inland Revenue Act further states that "imported tobacco and cigars shall be put up in packages as prescribed by law for like articles manufactured in Canada, before the stamps are affixed:" Every collector of Customs will, therefore, see that these regulations are fully complied with.

Sec. 123. The sizes of the different packages into which tobacco and cigars must be packed, as permitted by law, are as follows, viz.:—

(*a.*) All cavendish, plug and twist in rectangular wooden boxes containing from one to four pounds inclusive, five to twenty-five pounds inclusive, thirty-five to forty-five pounds inclusive, or from sixty to eighty pounds inclusive, or from one hundred to one hundred and ten pounds inclusive.

(*b.*) All fine-cut chewing tobacco, and all other kinds of tobacco not otherwise provided for, in packages containing one-twentieth, one-sixteenth, one-twelfth, one-tenth, one-ninth, one-eighth, one-sixth, one-fifth, one-fourth, one-half, or one pound, except that fine-cut chewing tobacco, when of a quality and description approved of by the Commissioner of Inland Revenue, may, at the option of the importer, be put up in wooden packages containing five or ten pounds each;

(*c.*) All cut and granulated tobacco, other than fine-cut chewing, all shorts, the refuse of fine-cut chewing tobacco, which has passed through a riddle of thirty-six meshes to the square inch, in packages containing one-twentieth, one-sixteenth, one-twelfth, one-tenth, one-ninth, one-eighth, one-sixth, one-fifth, one-fourth, one-half, or one pound each;

(*d.*) All snuff in packages containing one-sixteenth, one-eighth, one-fourth, one-half, one pound, and in wooden packages containing five or ten pounds each,—except that snuff when containing more than 40 per cent of moisture, may, in addition to the above, be put up in packages containing twenty pounds each, actual weight;

(*e.*) All cigarettes in packages containing ten, twenty, fifty or one hundred cigarettes each;

(*f.*) All cigars in boxes containing three, six, ten, twenty-five, fifty, one hundred and two hundred cigars each, except that Manilla cigars or cheroots, but not imitations thereof, may, when imported from abroad, be contained in addition to the above-named quantities, in original packages containing five hundred each.

Sec. 124. The stamps are to be put on or affixed to the packages in the following manner:—

(*a.*) All packages of tobacco, except fine-cut chewing and snuff containing five pounds and over, shall have affixed a registered coupon stamp of a denomination corresponding with the net weight of the tobacco contained therein; for example, packages containing from ten to twenty-five pounds and from sixty to eighty pounds, can be and must be covered by a single stamp, by using coupons attached to stamps when the weight of the package is not precisely ten, fifteen, twenty, sixty or seventy pounds (in which case the stamp alone is used without the coupons attached); when the weight of the tobacco contained in the package ranges between ten and twenty-five pounds, and between sixty and eighty pounds, the coupons are used in connection with the stamp bearing such weight, so that with one or more coupons attached thereto it will correspond with the weight required; half pounds will not be allowed on packages containing twenty-five pounds and upwards.

(*b.*) All other packages of tobacco are to be covered by stamps of the denomination provided by law, and one stamp only is to be used on each package;

(*c.*) Upon all descriptions of boxes and caddies of cavendish, plug, twist or other description of tobacco, the stamp shall be affixed over one corner or angle of the box or caddy, at equal distances from each end, attaching about equally to each side;

(*d.*) Upon all kegs, drums, pails or other packages containing five and ten pounds of fine-cut chewing, and five, ten and twenty pounds of snuff, as permitted by law, the stamp being a strip stamp, shall be placed across the cover, so as to extend down each side of the package and to effectually seal it;

(*e.*) Strip stamps, whether used for packages containing smoking tobacco, fine-cut chewing, snuff or cigarettes, must be so attached as to effectually seal the package and render it impossible to open the same or remove the contents without destroying or breaking the stamp;

(*f.*) Strip stamps, used for cigar boxes, must be so attached as to effectually seal the package;

(*g.*) The stamps are to be affixed to the packages by using an adhesive material that will cause them to stick to the wood, paper or other package, securely and permanently: after the stamps on wooden packages have become dry and the cancellation has been made, as herein described, they must be varnished thoroughly but not so as to obscure or obliterate the impressions upon the stamps;

(*h.*) Tobacco stamps will not adhere to tin-foil with ordinary gum or paste: the importer or owner of the goods must, therefore, either envelop the tin-foil in an outer wrapper of paper, or provide some kind of gum or paste by which the stamps may be so attached that they cannot be removed without destroying them.

Sec. 125. The Inland Revenue Act further provides that,—Every importer of tobacco shall, in addition to complying with all other requirements of this Act relating to imported tobacco, print on each package, or securely

affix by pasting on each package containing tobacco, imported by or for him, a label on which shall be printed the name of the port where, and the number of the entry under which, such tobacco is ex-warehoused for duty, and these words :—

Notice : The importer of this tobacco has complied with all the requirements of the law. The following caution is to be strictly observed under the penalties provided by the Statutes of Canada :—

1st. This package is to be opened in such a manner as to break the stamp.

2nd. This package is not to be used for any other tobacco when the present contents are removed.

3rd. The contents are not to be removed except for immediate sale ; and

4th. When the package is empty the stamp must be destroyed.

Sec. 126. Every importer of cigars is also required to affix to each package of cigars imported by or for him, a label showing, in addition to the name of the port where, and the number of the entry under which such cigars were ex-warehoused for duty, these words :—

Notice : The importer of the cigars herein contained has complied with all the requirements of the law. The following caution is to be strictly observed under the penalties provided by the Statutes of Canada :—

1st. This package is to be opened in such a manner as to break the stamp.

2nd. The package is not to be used again when the present contents are removed.

3rd. The contents are not to be removed except for immediate sale ; and

4th. When the package is empty the stamp and package must both be destroyed.

Sec. 127. This caution notice, when used on boxes, caddies, kegs, pails, drums or other large packages of tobacco, is required to be not less than four nor more than six inches long, and not less than two and one-half inches in width, and must be affixed to the package in a conspicuous place, where it will be exposed as little as possible to be worn, or rubbed off, or broken, in opening the package, and in a manner so as not to be covered up or concealed by any other labels or marks, and so as not to conceal by it any other marks or brands required by law to be placed upon the package.

Sec. 128. The caution notice label, when used on boxes of cigars, is to be not less than three inches in length and two in width ; or if made in circular or oval form, it shall cover not less than six square inches of paper, and is likewise to be affixed to the box or package, in a conspicuous place, and where it will not be covered up by the stamp, or otherwise obscured, or concealed, or broken, in opening the package.

Sec. 129. If the importer desires to do so, he may increase the size of the paper on which the caution notice is printed, so as to allow the printing, *separate and distinct from the label*, of his name and trade-mark.

Sec. 130. A separate and distinct label will not be required on packages of imported tobacco containing one pound and under, nor on packages containing ten or twenty cigarettes each, provided the importer shall cause to be printed on each outer package the caution notice as herein required, where it will not be covered up by the stamp or otherwise obscured or concealed : the name of the port and the number of the entry for duty may be written in on the label or imprinted with a rubber stamp. The packing and stamping must be done in accordance with the provisions of the Inland Revenue Act.

Sec 131. The Inland Revenue Act also provides that "tobacco and cigars intented for removal in bond to another port or place within the Dominion of Canada may be removed to such other port, under regulations to be established by the Governor in Council," which regulations are as follows :—

(*a.*) That the tobacco or cigars must be consigned to the order of the Collector of Customs at the port to which the goods are bonded ;

(*b.*) A removal bond is to be taken from the owner or importer by the Collector of Customs for double the Customs duty accruing on the goods so removed ; and the bond shall be conditioned for the delivery of the goods into the possession of the Collector of Customs to whom consigned ;

(*c.*) This bond will be cancelled by the certificate of the Collector of Customs at the port to which the goods are consigned, certifying that they have been received by him and re-warehoused, and that a bond has been duly executed and that the goods shall be re-packed into packages similar to like articles when manufactured in Canada, and duly stamped or entered for exportation or destruction.

Article 5.

For Sale of Manufactured Tobacco and Cigars.—Size and Form of Packages, &c.

Sec. 132. The sale of tobacco can only be made by manufacturers in whole packages,—each package bearing a stamp properly affixed and cancelled (or when entered for exportation, the packages containing the same, properly branded), and the package itself being according to the description and limitation prescribed in the Inland Revenue Act, and no other.

Sec. 133. Dealers in manufactured tobacco must also sell whole packages, each package bearing the properly cancelled stamp, except that retail dealers are permitted to sell plug tobacco at retail from half caddies, caddies, half boxes or boxes ; fine-cut chewing tobacco from five and ten pound packages ; and snuff from five, ten and twenty pound packages, legally stamped, marked and labelled and put up as prescribed by law : with the exception of snuff, which at times may require to be dampened, the dealers must not withdraw the goods from the stamped package until actually offered for sale.

Sec. 134. The stamp upon the package from which goods are being retailed is *primâ facie* evidence that the duty on such goods has been paid ; the absence of such stamp is *primâ facie* evidence of the non-payment of the duty : dealers in manufactured tobacco will not be allowed to cut a package in two and to sell the divided portions of the package, nor to retail tobacco therefrom.

Sec. 135. The law provides that all cigars shall be packed in boxes not before used for that purpose, containing definite and limited numbers, and positively prohibits the sale in any other form, except by retail dealers : retail dealers are allowed to retail cigars from boxes packed, stamped and branded in the manner prescribed by law ; but this provision does not authorize or warrant the practice of retailing cigars from show cases : sales can legally be made only from the stamped package in which originally put up and excised.

Sec. 136. Manufacturers of cigars shall only sell original and unbroken packages from their manufactory premises.

Sec. 137. Collectors of Inland Revenue are hereby instructed to divide their Divisions into surveys, under the charge of such officers as they, or the inspecting officer of Inland Revenue may designate. It shall be the duty of these surveying officers to visit all places where manufactured tobacco or cigars are stored or kept, or where it is exposed for sale, and ascertain if the law is being strictly complied with in respect of the stamping, branding, cancelling and sale of tobacco and cigars, and to take such action as the law directs in case of discovery of any infraction of the law.

Article 6.

For Using Wood, Metal, Paper or Other Material for Packing Tobacco or Cigars.

Sec. 138. Any manufacturer of tobacco or cigars, wishing to avail himself of the privilege which the law authorizes, of substituting for the wooden box now used for packing cigars, or for packing fine-cut chewing, Cavendish, plug, snuff or twist tobacco, packages made of other material, will be required to submit to the Commissioner of Inland Revenue samples of such packages, for his approval, and if the same are of such a character as to admit of the proper marks, brands, labels, &c., being applied to them, and the stamps to be securely and permanently attached, and properly cancelled, permission may be issued granting their use.

Sec. 139. All sample packages forwarded to the Commissioner for his approval must be accompanied by a statement, setting forth the materials of which the packages are made, the description of goods intended to be packed therein, and the capacity of the package, in pounds, if intended for tobacco, and if intended for cigars, the number of cigars to be packed in each, and showing also, by samples, the mode in which the marks, brands, labels and stamps may be put upon the packages, and the law in those respects fully complied with.

Article 7.

A.—Stamping tobacco or cigars, abandoned, condemned or forfeited, when sold for the benefit of the Dominion of Canada.

Sec. 140. All tobacco and cigars, whether imported or of domestic manufacture, sold by any officer of the Government for the benefit of the Dominion of Canada, must, before being delivered, have affixed to the packages containing the same, the proper Inland Revenue or Customs stamps, denoting the duty thereon ; and such

stamps shall only be used for this purpose upon the whole circumstances of the intended sale being reported to the proper department, and the necessary permission being obtained to use the same.

Sec. 141. When abandoned, condemned, or forfeited tobacco or cigars are offered for sale, if such goods will not bring a price equal to the duty thereon, that the law forbids the sale to be made for consumption in the Dominion of Canada; such goods may, however, be sold for immediate export to a foreign country, and be covered by the ordinary exportation brand.

B.—Destruction of abandoned, condemned or forfeited tobacco or cigars.

Sec. 142. Abandoned, condemned or forfeited tobacco or cigars, may be destroyed by order of the Commissioner, whenever they will not sell for an amount equal to the duty due and payable thereon.

Sec. 143. Collectors of Inland Revenue or Customs having such goods in their custody which have been offered for sale, and upon which they have been unable to realize an amount equal to the duty thereon, and who desire permission to destroy the same, will make application therefor to the Commissioner.

Sec. 144. In making such application they will give a complete history of the goods, also the kind, quantity, their present condition, and what efforts have been made to sell them, and if it shall appear to the Commissioner to be to the interest of the Government that the goods shall be destroyed, he will give an order for such destruction.

ARTICLE 8.

A.—For the reworking of Tobacco.

Sec. 145. Before any tobacco can be reworked, twenty-four hours' notice must be given by the manufacturer to, and special permission must be obtained therefor from, the Collector of Inland Revenue of the division where the manufactory is situated.

Sec. 146. The manufacturer, in making application for permission to rework tobacco, must give full particulars as to the quantity and description of the tobacco to be reworked, stating whether the tobacco is of his own manufacture or the product of another manufactory, and if the latter, the name of the manufacturer: he will also state the reason for desiring permission to rework the tobacco in question.

Sec. 147. The tobacco, when taken for reworking, shall be so credited on stock book No. 2 (and an entry ex-warehouse passed on the form provided for that purpose, when taken from the bonding warehouse), and the quantity carried to Dr. of daily record, and treated as raw material, the product of which will be accounted for as manufactured tobacco, in the usual manner, and stamped and treated as tobacco the original product of the leaf.

Sec. 148. When the tobacco to be reworked has paid duty, the stamps upon the packages must be destroyed in the presence of two officers of Inland Revenue, one of whom shall be the officer in charge of the manufactory, and the other an officer detailed therefor by the collector of the division, and these officers shall keep a record of, and shall furnish the collector with a certificate, showing the numbers on each stamp, the weight of tobacco contained in each package covered thereby, and the registered number of the manufactory (or, if manufactured prior to the 1st day of July, 1883, the name or license number of the manufacturer), where manufactured or put up.

Sec. 149. When the bonded tobacco to be reworked has been stamped under the provisions of previous Acts, the stamps on the packages are to be removed and destroyed under the same regulations as are herein provided when the tobacco to be reworked has paid duty.

Sec. 150. The Collector of Inland Revenue will compare the numbers of these stamps and the weights thereon, with the record of stamps issued, kept in his office; and if the stamps have been issued in another division, shall forward to the Collector of that division a detailed statement of the number and weight on each stamp so destroyed, as well as the number of the manufactory where, (or the name of the manufacturer by whom) the tobacco was originally put up; the Collector so receiving the same shall compare this statement with his register of stamps issued to such manufacturer or manufacturers as are mentioned therein, and shall at once return said statement to the Collector from whom received, with a certificate as to its correctness or otherwise.

Sec. 151. So soon as the stamps have been taken account of and destroyed, the packages, if they have been previously stamped or if the out-put of a factory other than that where the tobacco is to be reworked, are to be also destroyed, and the tobacco contained therein broken up and steamed or treated in such a way that it cannot be removed from factory for sale without being reworked.

Sec. 152. No rebate will be allowed or paid when the stamps on the packages containing tobacco have not been taken an account of, and the said stamps destroyed in the presence of the officers herein mentioned, nor when the record of stamps destroyed does not accord with the stamp book of the Collector by whom issued.

Sec. 153. When the tobacco to be reworked has paid duty, a rebate of the duty paid, less five cents per pound to cover cost of supervision, stamps, &c., on the quantity of tobacco entered for remanufacture, will be allowed to the manufacturer and will be paid by the Department upon the receipt of a sworn statement from the manufacturer that the tobacco so taken has been reworked and entered to the debit of stock book No. 2 as produced, accompanied by the certificate of the officer in charge of the manufactory that the stamps, and where necessary, the packages were destroyed in his presence, and that the tobacco was broken up and steamed or so treated that it could not be removed from the manufactory for sale without being reworked, which certificate must be countersigned by the Collector of the division.

Sec. 154. No fee for supervision will be charged for bonded tobacco reworked or where plug tobacco is merely taken from the caddy to rub or wipe the plugs. In the latter case, however, the operation must be carried on under the supervision of the officer in charge and to the satisfaction of the Collector

Sec. 155. (*a.*) The reworking of the product of Canadian raw leaf tobacco is permitted, but no rebate of duty shall be allowed thereon.

(*b.*) Imported tobacco shall only be reworked, duty paid.

B.—For the Reworking of Cigars.

Sec. 156. Before any cigars can be reworked twenty-four hours' notice must be given by the manufacturer to, and special permission must be obtained therefor from, the Collector of Inland Revenue of the division where the manufactory is situated.

Sec. 157. The manufacturer, in making application for permission to rework must give full particulars as to the quantity of cigars to be reworked, stating that the cigars are of his own manufacture. He will also state the reason for desiring permission to rework the cigars in question.

Sec. 158. The cigars when taken for reworking shall be so credited on stock book No. 2 (and an entry ex-warehouse passed on the form provided for that purpose when taken from the bonding warehouse), the cigars weighed and the quantity carried to Dr. of daily record, and treated as raw material, the product of which will be accounted for as manufactured cigars, in the usual manner, and stamped and treated as cigars the original product of the leaf.

Sec. 159. When the cigars to be reworked have paid duty, the stamps upon the packages must be destroyed in the presence of two officers of Inland Revenue, one of whom shall be the officer in charge of the manufactory, and the other an officer detailed therefor by the Collector of the division, and these officers shall keep a record of, and shall furnish the Collector with a certificate showing the numbers on each stamp, the number of cigars contained in each package covered thereby, and the registered number of the manufactory (or, if manufactured prior to the 1st day of July, 1883, the name or license number of the manufacturer), where manufactured or put up.

Sec. 160. When the bonded cigars to be reworked have been stamped under the provisions of previous Acts, the stamps on the packages are to be removed and destroyed under the same regulations as are herein provided when the cigars to be reworked have paid duty.

Sec. 161. The Collector of Inland Revenue will compare the numbers of these stamps and the denominations thereof with the record of stamps issued, kept in his office.

Sec. 162. So soon as the stamps have been taken account of and destroyed, the packages are to be also destroyed, and the wrappers removed from the cigars contained therein or the cigars treated in such a way that they cannot be removed from factory for sale without being reworked.

Sec. 163. No rebate will be allowed or paid when the stamps on the packages containing cigars have not been taken an account of and the said stamps destroyed in the presence of the officers herein mentioned, nor when the record of stamps destroyed does not accord with the stamp book of the collector by whom issued.

Sec. 164. When the cigars to be reworked have paid duty, a rebate of the duty paid, less seventy-five cents per thousand to cover cost of supervision, stamps, &c., on the quantity of cigars entered for manufacture, will be allowed the manufacturer, and will be paid by the department, upon receipt of a sworn statement from the manufacturer, that the cigars so taken have been reworked and entered to the debit of stock book No. 2 as produced, accompanied by the certificate of the officer in charge of the manufactory, that the stamps and the packages were destroyed in his presence, and that the cigars were so treated that they could not be removed from the manufactory for sale without being reworked, which certificate must be countersigned by the Collector of the division.

Sec. 165. No fee for supervision will be charged when the bonded cigars reworked are the product of the manufactory where the operation is to be carried on.

Sec. 166. The reworking of the product of one manufacturer by another will not be permitted unless under special permission obtained from the department in each case.

Sec. 167. The blank forms used when tobacco is taken for remanufacture may also be used for cigars, the necessary alterations being made thereon.

ARTICLE 9.

A.—Marking or Branding Cigar Boxes.

Sec. 168 (*a.*) The law provides that there shall be burned, stamped, indented or impressed into every box containing cigars, in a legible and durable manner, the registered number of the factory, the number of the Inland Revenue division in which the factory is situated and the number of cigars contained in each box; the number of cigars contained in each box may, however, if desired, be stencilled on the surface of the wood or other material of which the package is made; but the registered number of the factory, and the number of the Inland Revenue division, must be burned, stamped, indented or impressed into every box, as required by law;

(*b.*) Empty cigar boxes which may have become broken or otherwise rendered unfit for use, may be destroyed in the presence of the officer in charge of the manufactory and credit taken therefor in the Daily Record.

B.—Cull Cigars.

Sec. 169. As in some cigar factories manufacturers have more or less cigars made, which are unfit for packing, collectors are hereby instructed that manufacturers may, upon application on the Form C 3, supplied by the Department, be permitted to take credit for such cigars when they are counted and broken up in the presence of the officer in charge. The credit entry will be made in column 9 of Daily Record, the entries being totalled to date and the proper deduction made. Every such entry must be initialled by the officer as an evidence of its correctness.

C.—Cigar Samples.

Sec. 170. In addition to the provisions of the Act in respect of sample boxes of cigars, the following regulations are hereby prescribed:—

(*a.*) A manufacturer of cigars may be permitted to take from the warehouse, under permit from the collector in each case, one package containing not more than one hundred cigars of each brand manufactured by him—these packages to remain on the factory premises unstamped, for the sole purpose of exhibiting the contents to his customers, and, when required for consumption, the regular ex-warehouse entry to be passed therefor, the duty paid and the packages stamped, as if just taken from the warehouse;

(*b.*) A manufacturer removing any of these packages without the ex-warehouse entry being passed, the duty paid, and the packages regularly stamped, branded and labelled, will be deemed to have illegally abstracted the same from warehouse, and will render himself liable to the penalties imposed in the Act for such offence: the goods, although in the possession of the manufacturer, will be considered as still in the warehouse and treated as such until the ex-warehouse entry is passed: the officer delivering such packages of cigars on permit, will keep a record of the number and capacity of packages of cigars so delivered and will mark such packages so that they can afterwards be identified by him;

(*c.*) Should any cigar manufacturer abuse the privilege hereby granted to him, by taking from the warehouse a greater number of packages than are deemed necessary by the inspector of tobacco, the Department reserves the right to withdraw from such manufacturer the privilege now granted to all.

Sec. 171. Duty-paid boxes of cigars may be permitted to remain open in any licensed cigar factory, upon the following,—and only upon the following conditions:—

(*a.*) That the number of boxes thus remaining open in any factory premises shall not at any time exceed three;

(*b.*) That the stamps thereon shall be cut or broken in the presence of an officer of Inland Revenue, unless the packages are taken from those which may have been brought in with cut stamps and placed in bonding warehouse as hereinafter provided;

(*c.*) That the officer shall forthwith so mark the package by writing date when opened and placing his signature thereon, that it can be hereafter identified by him;

(*d.*) Immediately every such package is emptied the manufacturer shall inform the officer of the fact, when said empty package and the stamp thereon shall be completely destroyed in the presence of said officer and a credit entry made in stock book No. 2 for the original contents thereof.

D.—As to return of packages with cut stamps.

Sec. 172. The stamps on cigar boxes which may have been cut after being removed from the manufactory, and which the manufacturer may in the course of business desire to have returned thereto, may be brought into the manufactory under the following conditions:—

(*a.*) That they be brought into the manufactory only after notice in writing, of his intention to do so, has been served by the manufacturer on the Collector and at a time when an officer of Inland Revenue is present to take an account of the same;

(*b.*) That the packages with cut stamps be at once placed in the bonding "cigar" or "raw leaf" warehouse and kept separate from all other goods therein, and that they shall remain in said warehouse until such time as the manufacturer may desire them for immediate removal from the manufactory or for use, as per sections 168, 169 and 170 of these regulations;

(*c.*) That the regular entries be made in stock book No. 2, when the packages are brought into or removed from manufactory, in the same manner as for other duty-paid cigars; and,—

(*d.*) That any packages with cut stamps brought into manufactory without due notice being given, an account taken of them by an officer of this Department, and the packages and contents secured in bonding warehouse, or which may be found in any manufactory premises with stamps cut otherwise than as herein provided, shall render the manufacturer so offending liable to all penalties prescribed therefor under the Inland Revenue Act.

E.—Warehousing and Ex-warehousing of Cigars.

Sec. 173. The following provisions made by the Department of Inland Revenue in respect of the warehousing and ex-warehousing of cigars, are hereby established and confirmed, viz.:—

(*a.*) Packages containing cigars when entered for warehouse need not be marked with the number of the entry under which warehoused, but only with the number of the month and year in addition to the specific information required by section 261 of "The Inland Revenue Act"

(*b.*) When ex-warehousing cigars, the manufacturer may take the cigars from any lot in warehouse, provided the number of packages and denomination are the same as those upon which he has paid duty.

(*c.*) Cigars when placed in warehouse, shall be stowed and arranged in lots according to denomination of packages.

(*d.*) Under this system it will not be necessary for Collectors to open an account with each warehouse entry, but only a general account with each individual. On the entry papers it will be unnecessary to show marks and numbers.

(*e.*) The above instructions are subject to the provisions of section 54 of "The Inland Revenue Act."

ACTICLE 10.

Cutting Machines.

Sec. 174. (*a*). No person not having a license to manufacture tobacco or cigars shall be permitted to use, nor (without having notified the Collector of Inland Revenue thereof in writing) to have in possession any machine for the purpose of cutting tobacco; except that persons dealing in manufactured tobacco at retail may, upon signing a declaration that such machine will be used solely for cutting duty-paid "plug" or "cavendish" tobacco for immediate sale thereof to their customers, receive a permit to use the same during the pleasure of the Minister of Inland Revenue; but the said dealers will not be allowed to keep on hand any tobacco so cut, the cutting

machine only to be used for cutting tobacco at the request of a customer, and for immediate delivery to him.

(*b*). All persons (other than those hereinbefore excepted) having in their possession any tobacco-cutting machines, are required to notify the Collector of Inland Revenue of the same, and it shall be the duty of the said Collector to cause the same to be so fastened or sealed as to render it incapable of being used without removal of the said seal, and any such machine found unsealed, whether such machine had been sealed by an officer of Inland Revenue or not, shall be seized and forfeited to the Crown.

(*c*). All tobacco-cutting machines found in possession of any person other than those hereinbefore mentioned, or in the possession of other than a private individual not dealing in tobacco, and using the same for cutting tobacco for his own use, (which machine must not be a rotary cutting machine,) are forfeited and may be seized and removed by any officer of Inland Revenue.

Article 11.—Assessment for Deficiencies.

Tobacco.

Sec. 175. Section 268 of The Inland Revenue Act, provides that the deficiency in any tobacco manufactory shall not, at any time, exceed six per cent.

Cigars.

Sec. 176. Section 269 of said Act directs that "there shall be produced from each and every twenty-five pounds of unsteamed raw leaf scraps, cuttings or other material taken for use in a cigar manufactory at least one thousand cigars, but if at any time the Department of Inland Revenue determines that the standard herein established exceeds or falls short of what is hereafter ascertained to be the true standard, the Governor in Council may amend or alter such standard by regulation to the extent of three pounds."

(*a*). Under such direction the standard for the production of 1,000 cigars is reduced from 25 lbs. of raw leaf tobacco to 22 lbs., and such standard is made applicable to all transactions subsequent to the 1st day of July, 1884;

(*b.*) Allowance will be made for leaf tobacco sold or returned, or for cuttings or clippings when they are of such a character that they may be made into cigars, or are sold or removed for that purpose. Officers are, however, to understand that the scraps and cuttings, if to be credited against the production account, must be free from dust, sand and tobacco-dust. No allowance will be made for stems, or for ordinary scraps and waste incidental to the business. In the making of finer grades of cigars, particularly of Havana tobacco, manufacturers often use only the best portion of the leaf and sell the balance to be used as filling for a lower or cheaper grade of cigars: in such cases an allowance will be made for such stock when sold or removed;

(*c.*) The annual stock statements have been prepared so that officers can readily understand the mode upon which the production is ascertained;

(*d.*) The Commissioner of Inland Revenue is empowered by section 273 of the said Act to make an assessment, and to order the collection from the manufacturer of the duty at the highest rate chargeable on the tobacco or cigars produced in the manufactory where the deficiency is found to exist.

Article 12.

Additional Forfeiture.

Sec. 177. Any tobacco or cigars not made by the manufacturer whose name or factory number is marked or branded on the package in which contained; and any tobacco or cigars not of the brand represented by the manufacturer's label on the package in which contained, shall be seized and remain forfeited to the Crown.

Article 13.

Stock Statements

Sec. 178. In preparing statement B. of annual stock statement (G 15.) all stemmed raw leaf tobacco taken for use, and all stemmed raw leaf tobacco in process of manufacture at beginning and end of period, is to be treated as if resulting from raw leaf tobacco which contained twenty-five per cent of stems, *i.e.*, $\frac{1}{3}$ is to be added to the weight of stemmed leaf. This does not apply to scraps and cuttings.

Sec. 179. All unpacked cigars on hand at time of stock-taking are to be computed at a uniform rate of twenty-two (22) pounds per thousand.

Sec. 180. The Collector will attach to each cigar manufacturer's stock statement the certificate of the officer in charge as to any deficiency or surplus that may be found in the unpacked cigar account. When the account comes out correct, the officer's certificate must state so. All possible care must be used in stock-taking.

Sec. 181. Collectors, unless otherwise advised, will collect from the tobacco and cigar manufacturers of their respective divisions the duty upon the quantity of tobacco or cigars deficient of the standard established by law and also the duty on the quantity of cigars found deficient in unpacked cigar account as shown by stock statements each year.

Sec. 182. The manufacturer may then take credit in column 9 of his Daily Record for the quantity so deficient in unpacked cigar account in order to bring that book in accord with stock.

Sec. 183. When a surplus is found it should be at once charged up in the same column.

Sec. 184. The duties under the foregoing instructions will be accounted for on the Form D. 11, which must contain full explanations of the source from which they are derived.

Sec. 185. All tobacco and cigar stock statements are to be forwarded to the Department in duplicate, one copy for the Inspector of tobacco factories and the other for the Department.

Article 14.

Reward for Information in Regard to Illicit Manufacture and Sale of Tobacco or Cigars.

Sec. 186. (*a.*) For such information as will lead to the discovery and seizure of an illicit tobacco or cigar manufactory, or any illicit tobacco or cigars, one-half of the appraised value of the articles seized.

(*b.*) For such information as will lead to the conviction of the parties owning or working an illicit tobacco or cigar manufactory, one-half the amount of the penalties recovered, not exceeding $200.

(*c.*) If the parties convicted are unable to pay the penalties imposed, and are committed to gaol for non payment, the Department will make good to the informer one-fourth of the penalties imposed.

(*d.*) The names of the parties giving the information are not to be made known, unless by their own desire or consent.

Article 15.

Drawback.

Sec. 187. In accordance with the provisions of section 259 of the Inland Revenue Act, as to drawback on cut tobacco and cigarettes in certain cases, the Department of Inland Revenue is authorized to pay over such drawback upon receiving the certificates of the Collectors of Inland Revenue, setting forth the number of stamps, of denominations applicable to packages mentioned in section 259, aforesaid, delivered and paid for during the currency of each month, and entered upon the monthly return of the manufacturer, such payments to be treated as "Refunds of Excise Revenue."

(*a.*) It is provided by subsection added by section 7 of the Act 53 Victoria, chapter 23, to section 259 of "The Inland Revenue Act," that "a drawback of five per cent "on the value of the stamps used shall be allowed to "manufacturers of foreign leaf tobacco licensed under "the Act in respect of uncut plug or Cavendish tobacco "manufactured by them and put up in packages containing four pounds or less, which drawback shall be paid "under such regulations as the Governor in Council "establishes in that behalf."

(*b.*) In virtue of such provisions the following regulations are hereby established, namely:—

1st. That the application for the drawback be made quarterly, and be accompanied by a statement showing the number of packages of tobacco at each weight, the aggregate quantity of tobacco, the aggregate duty and the amount of drawback claimed.

2nd. The statement attached to the application must bear the certificate of the officer in charge of the factory as to its correctness, and also the certificate of the Collector of the Division—that the quantity of tobacco referred to was covered by stamps of a denomination of four pounds or under, and that it was entered for consumption, and the duty paid by the manufacturer in whose factory it was produced.

ARTICLE 16.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Monday, the 12th day of September, 1892.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

HIS Excellency, under the provisions of chapter 68 of the Revised Statutes, and by and with the advice of the Queen's Privy Council for Canada, has been pleased to order and it is hereby ordered, that the importations of rags into Canada from Europe be prohibited.

JOHN J. McGEE,
12–4 Clerk of the Privy Council.

AT THE GOVERNMENT HOUSE AT OTTAWA.

Monday, the 12th day of September, 1892.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

WHEREAS the President of the United States having issued a Proclamation for a quarantine detention of all vessels containing immigrants from cholera infected countries for a period of twenty days, it is advisable in order to prevent such immigrants from using the Canadian routes to enter at the inland ports of the United States for the purpose of avoiding the quarantine at the maritime ports, to extend the provisions of the second paragraph of section 9 of the quarantine regulations established by the Order in Council of the twelfth day of May, 1888, chapter 6 of the Consolidated Orders in Council of Canada, relating to vessels suspected of having sickness on board, which is in the following words:—

"May be kept under quarantine of observation for a period of not more than three days," so as to read:

"May be kept under a quarantine of observation for a period of twenty days or more, as directed by the Minister of Agriculture," and further that the words "any maritime port in Canada" be substituted for the words "Grosse Isle" in the said paragraph.

His Excellency, in virtue of the powers vested in him by chapter 68 of the Revised Statutes, intituled "An Act respecting Quarantine," and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the second paragraph of Section 9 of the said quarantine regulations shall read as follows, and that such paragraph as amended do stand for a quarantine regulation, namely:—

"Vessels arriving at any maritime port in Canada "from any infected port or place, or one supposed to "be infected, and on board of which no pestilential "disease shall have declared itself during the passage "may be kept under quarantine of observation for a "period of twenty days or more, as directed by the "Minister of Agriculture, during which time the "passengers and crew thereof shall be subjected to a "strict purification under the direction of the Medical "Superintendent."

JOHN J. McGEE,
12–4 Clerk of the Privy Council.

Ottawa, 9th September, 1892. 11–5

NOTICE TO MARINERS.

No. 42 of 1892.

I. RE-ESTABLISHMENT OF RICH POINT LIGHT.

The Lighthouse at Rich Point, north shore of Ingornachoix Bay, on the west coast of Newfoundland, maintained by the Government of the Dominion of

Canada, which was destroyed by fire in 1890, has been rebuilt, and will be put in operation on the 20th October next.

Lat. N. 50° 42' 0"
Long. W. 57° 24' 30"

The new tower is an octagonal wooden building, painted white, surmounted by an iron lantern painted red. It stands on the site of the old building, near the extreme point, on ground 44 feet above the water. Its height from the ground to the vane on the lantern is 58 feet.

The light will be a revolving catoptric white light, showing two bright flashes, with an interval of fifteen seconds between their points of greatest brilliancy, followed by an interval of 30 seconds, during the greater part of which the light will be eclipsed, the light thus completing a revolution in forty-five seconds. The light is elevated 93 feet above high water mark, and should be visible 15 miles from all points of approach seaward.

This notice affects Admiralty charts Nos. 232*b*, 284, 2516 and 2918, and the Canadian List of Lights and Fog Signals No. 6.

II. IMPROVEMENT OF CITROUILLE POINT LIGHT.

The pole light temporarily maintained on Citrouille Point (Pointe aux Citrouilles), on the north shore of the River St. Lawrence, between the villages of Batiscan and Champlain, in the County of Champlain and Province of Quebec, has been improved by replacing the pole by an enclosed lighthouse standing on a crib-work pier.

Lat. N. 46° 27' 12"
Long. W. 72° 16' 10"

The light, which was put in operation for the first time on the 14th instant, is, as heretofore, fixed white. It is elevated 40 feet above high water mark, and should be visible 11 miles from all points of approach. The illuminating apparatus is dioptric, of small size.

The pier is built on a gravel ridge at the most prominent part of the low-lying point. The lighthouse is a square wooden building, painted white, surmounted by an iron lantern painted red, standing on a platform on the middle of the hip roof. The height from the ground to the vane on the lantern is 41 feet.

This notice affects Admiralty charts Nos. 797, 2780 and 2830*a*, and Canadian List of Lights and Fog Signals No. 81.

III. EXACT POSITION OF TRYON SHOAL WHISTLING BUOY.

Referring to Part III of Notice to Mariners No. 36 of 1892, describing the placing of a whistling buoy on Tryon Shoal, in Northumberland Strait, south-west coast of Prince Edward Island, the exact position of the buoy has since been fixed.

Lat. N. 46° 8' 55"
Long. W. 63° 31' 48"

From the buoy, Crapaud Chapel, bearing N.E. $\frac{1}{4}$ E., distant $5\frac{1}{4}$ miles, is just open of the range lights on the Point; Carleton Point, bearing N.N.W. $\frac{1}{2}$ W., distant $9\frac{2}{3}$ miles, is just open of Cape Traverse, the sextant angle between these two marks being 76 degrees; and the south trend of Indian Point bears W. $\frac{3}{4}$ N. distant $10\frac{2}{3}$ miles.

The buoy is moored in $5\frac{1}{2}$ fathoms, at low water springs.

WM. SMITH,
Deputy Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 23rd September, 1892.

☞ All bearings are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy Minister of Marine, Ottawa, Canada. 15-3

NOTICE TO MARINERS.

No. 40 of 1892.

ST. MARY'S RIVER LIGHTS.

HARWOOD POINT RANGE.

Notice is given by the Lighthouse Board of the United States of America, that two fixed white tubular-lantern lights, shown from uprights about 750 feet apart, were established on the 8th September, 1892, at Harwood Point, south-east end of Sugar Island, on the Michigan shore of the St. Mary's River, between Lakes Huron and Superior. The range intersects with the Dark Hole west range at Little Mud Lake buoy, black No. 13, marking the deflecting point near the upper end of Little Mud Lake from the latter range, and guides N. $\frac{1}{2}$ W. to an intersection with the Hen and Chickens range at Stribling Point buoy, red No. 12.

This notice affects Admiralty charts Nos. 325 and 326.

WM. SMITH,
Deputy Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 16th September, 1892.

☞ All bearings are magnetic and are given from seaward, miles are nautical miles, heights are above high water, and all depths are at mean low water.

Pilots, masters, or others interested are earnestly requested to send information of dangers, changes in aids to navigation, notice of new shoals or channels, errors in publications, or any other facts affecting the navigation of Canadian waters, to the Deputy Minister of Marine, Ottawa, Canada. 14-3

NOTICE TO MARINERS.

No. 41 of 1892.

I. CAPE MAGDALEN FOG WHISTLE.

A steam fog whistle, established by the Government of Canada at Cape Magdalen Light Station, on the south or Gaspé coast of the Gulf of St. Lawrence, will be put in operation on the 24th September, instant.

Lat. N. 49° 15' 40"
Long. W. 65° 19' 30"

The whistle will give single blasts of 8 seconds' duration every half minute. There will consequently be an interval of 22 seconds between every two blasts.

The fog alarm building is of wood, painted white with a brown roof, and stands on top of the cliff, in front, and a little to the west, of the lighthouse tower.

The whistle is elevated about 128 feet above high water mark.

This notice affects Admiralty charts Nos. 307, 1621 and 2516, and the substance of it should be entered in the Canadian List of Lights and Fog Signals under No. 28.

II. AMERICAN LIGHT ON ST. CROIX RIVER.

Notice is given by the United States of America Coast and Geodetic survey of the recent establishment of a fixed red beacon light on the south side of the St. Croix River, about $2\frac{1}{2}$ miles below Calais, Maine, and 500 feet above Whitlock's Mill, Mark Point light bearing E. N. E. $\frac{7}{8}$ E. distant about 8 cables.

This notice affects Admiralty charts Nos. 352, 2013 and 2670.

WM. SMITH,
Deputy Minister of Marine and Fisheries.

Department of Marine and Fisheries,
Ottawa, Canada, 17th September, 1892.

NOTICE TO MARINERS.

No. 39 of 1892.

ROCK IN DISCOVERY PASSAGE, BRITISH COLUMBIA.

Information has been received from Rear Admiral Charles F. Hotham, C.B., R.N., Commander-in-Chief on the Pacific Station, respecting the rock on which H. M. S. "Warspite" struck on the 10th August last, the exact position having been ascertained by personal examination by the officers of H. M. S. "Nymphe."

This rock is situated N.E. (N. 68° E. true) 1½ cables from the point between Race Point and Duncan Bay, in Discovery Passage, on the north-east coast of Vancouver Island, British Columbia.

Lat. N. 50° 5' 36"
Long. W. 125° 19' 52"

It has a least depth of 4 feet at low water springs, and within the five-fathom line is about 80 yards in diameter. It is steep-to on its northern and eastern sides, and between it and the point are depths of 6 and 8 fathoms.

It is marked by kelp which does not show when the tide is running strong.

This notice affects Admiralty charts Nos. 538, 580 and 1,917, and British Columbia Pilot, 1888, page 202.

APPLICATIONS TO PARLIAMENT.

Rules relating to Notices for Private Bills.

All applications for Private Bills, properly the subjects of legislation by the Parliament of Canada, within the purview of "The British North America Act, 1867," whether for the erection of a Bridge, the making of a Railroad, Turnpike Road or Telegraph Line ; the construction or improvement of a Harbour, Canal, Lock, Dam or Slide, or other like work ; the granting the right of Ferry ; the incorporation of any particular Trade or Calling, or of any Banking or other Joint Stock Company ; or otherwise for the granting to any individual or individuals, any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which, in its operation, would affect the rights or property of other parties, or relate to any particular class of the community ; or for making any amendment of a like nature to any former Act, shall require a Notice, clearly and distinctly specifying the nature and object of the application, and (except in the case of existing corporations) signed by, or on behalf of the applicants, to be published as follows, viz :

In the Provinces of Quebec and Manitoba.

A notice inserted in the *Canada Gazette*, in the English and French languages, and in one newspaper in the English, and in one in the French language in the District affected, or in both languages in one paper, if there be but one in the said District, or if there be no paper published therein, then, in both languages, in a paper in the nearest District in which a newspaper is published.

In any other Province or Territory.

A notice inserted in the *Canada Gazette*, and in one newspaper published in the County or District, or Union of Counties affected, or if there be no paper published therein, then in a newspaper in the nearest County or District in which a newspaper is published. Such Notices to be continued in each case, for a period of two months during the interval of time between the close of the next preceding Session and the consideration of the Petition. And copies of the newspapers containing the first and last insertion of such notice shall be sent to the Clerk of each House.

When a Petition is for leave to bring in a Private Bill for the erection of a Toll Bridge, the petitioner or petitioners, upon giving the notice prescribed by the preceding Rule, shall also, at the same time, and in the same manner, give notice of the rates which they intend to ask ; the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts and vessels, and whether they intend to erect a drawbridge, and the dimensions of the same.

Any person seeking to obtain any Private Bill shall, eight days before the meeting of Parliament, deposit with the Clerk of the House, in which the bill is to originate, a copy of such bill in the English or French language, with a sum sufficient to pay for translating and printing the same—600 copies to be printed in English, and 200 copies in French—the translation to be done by the officers of the House, and the printing by the contractor. The applicant shall be also required to pay the Clerk of the Senate, or the accountant of the House of Commons (as the case may be) a sum of $200 and the cost of printing the Act in the Statutes, and lodge the receipt of the same with the Clerk of the Committee to which such Bill is referred—such payment to be made immediately after the second reading, and before the consideration of the Bill by such Committee.

The fee payable on any Private Bill is paid only in the House in which it originates.

No Petition for a Private Bill is received by either House after the first ten days of the session.

EDOUARD J. LANGEVIN,
Clerk of the Senate.

JOHN GEORGE BOURINOT,
Clerk of the Commons.

Additional Rules of the House of Commons respecting Private Bills.

All Private Bills for Acts of Incorporation shall be so framed as to incorporate by reference the *clauses* of the *General Acts* relating to the details to be provided for by such Bills ;—special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof, in which the *General Act* is proposed to be departed from;—Bills which are not framed in accordance with this *Rule*, shall be re-cast by the promoters, and reprinted at their expense, before any Committee passes upon the *Clauses*.

51*a*. All Private Bills for Acts of incorporation of, or in amendment of Acts incorporating Railway Companies, shall be drawn in accordance with the Model Bill adopted by the House on 23rd June, 1887, copies of which may be obtained from the Clerk of the House.

(*a.*) The provisions contained in any Bill which are not in accord with the Model Bill, shall be inserted between brackets, and when revised by the proper officer shall be so printed, and bills which are not in accordance with this Rule shall be returned to the promoters to be re-cast before being revised and printed ;

(*b.*) Any sections of existing Acts which are proposed to be amended shall be re-printed in full with the amendments inserted in their proper places and between brackets ;

(*c.*) Any exceptional provisions that it may be proposed to insert in any Bill shall be clearly specified in the Notice of Application for the same.

51*b*. No Bill for the incorporation of a Railway Company, or for changing the route of the railway of any company already incorporated, shall be considered by the Railway Committee until there has been filed with the Committee, at least one week before the consideration of the Bill :—

(*a.*) A Map or Plan drawn upon a scale of not less than half an inch to the mile, showing the location upon which it is intended to construct the proposed work, and showing also the lines of existing or authorized works of a similar character within, or in any way affecting the district, or any part thereof, which the proposed work is intended to serve, and such map

or plan shall be signed by the Engineer or other person making the same ;

(b.) An exhibit showing the total amount of capital proposed to be raised for the purposes of the undertaking, and the manner in which it is proposed to raise the same, whether by ordinary shares, bonds, debentures, or other securities, and the amount of each, respectively.

JOHN GEORGE BOURINOT,
Clerk of the Commons.

SUBSTANCE OF RULES OF THE SENATE RELATING TO NOTICES AND APPLICATIONS FOR BILLS OF DIVORCE.

Every applicant for a Bill of Divorce shall give notice of his or her intended application, and shall specify therein from whom and for what cause such divorce is sought, and shall cause such notice to be published during six months before the presentation of his or her petition for the said Bill, in the CANADA GAZETTE and in two newspapers published in the District in Quebec, Manitoba, British Columbia or the North-West Territories, or in the County or Union of Counties in other Provinces, wherein such applicant usually resided at the time of the separation of the parties ; but if the requisite number of papers cannot be found therein, then in an adjoining District or County or Union of Counties. Notices given in the Provinces of Quebec and Manitoba are to be published in one English and one French newspaper, if there be such newspapers published in the District, but otherwise shall be published in each newspaper in both languages.

A copy of the said Notice shall, not less than one month before the date of the presentation of the Petition, at the instance of the applicant, be served personally on the person from whom the divorce is sought, when that can be done.

No petition for divorce shall be received after the first thirty days of each session.

The petition of an applicant for divorce must be fairly written and must be signed by the Petitioner, and should briefly set forth the marriage, when, where and by whom the ceremony was performed, the grounds on which relief is asked and the nature of the relief prayed, and should also negative condonation, collusion and connivance. The allegations of the petition must be verified by declaration of the Petitioner, under the "*Act respecting Extra-Judicial Oaths.*"

The applicant shall deposit with the Clerk of the Senate, eight days before the opening of Parliament, a copy, in the English or French language, of the proposed Bill of Divorce, and therewith a sum sufficient to pay for translating and printing 600 copies thereof in English and 200 copies in French.

No petition for a Bill of Divorce shall be presented unless the applicant has paid into the hands of the Clerk of the Senate the sum of two hundred dollars ($200).

The petition when presented shall be accompanied by the evidence of the publication of the notice, and by declaration in evidence of the service of a copy thereof, and by a copy of the proposed Bill.

EDOUARD J. LANGEVIN,
Clerk of the Senate.

CONSIDÉRANT que par l'*Acte relatif aux déserteurs étrangers*, 1852, il est statué que lorsqu'il sera démontré à Sa Majesté que des facilités convenables sont ou seront données pour la reprise ou l'arrestation des marins qui désertent des navires marchands britanniques dans les territoires d'une puissance étrangère, Sa Majesté pourra, par arrêté en conseil établissant que ces facilités sont ou seront données, déclarer que les marins non esclaves qui désertent des navires marchands appartenant à un sujet de cette puissance, lorsqu'ils seront dans les limites des possessions de Sa Majesté, pourront être arrêtés et renvoyés à bord de leurs navires respectifs, et pourra limiter l'opération de cet arrêté et en rendre l'opération sujette aux conditions et restrictions, s'il en est, qui seront jugées convenables ;

Et considérant qu'il a été démontré à Sa Majesté que des facilités convenables seront données pour la reprise et l'arrestation des marins (n'étant pas des citoyens des Etats-Unis) qui désertent les navires marchands britanniques dans les territoires appartenant aux dits Etats-Unis, en vertu d'un traité entre Sa Majesté et le Président des Etats-Unis signé à Washington le troisième jour de juin mil huit cent quatre-vingt-douze, et dont les ratifications furent échangées le premier jour d'août mil huit cent quatre-vingt-douze :

A ces causes, il a plu à Sa Majesté, en vertu du pouvoir que lui confère le dit *Acte relatif aux déserteurs étrangers*, 1852, et par et de l'avis de son Conseil privé, ordonner et déclarer, et il est par le présent ordonné et déclaré, qu'à compter de la publication du présent arrêté dans la *London Gazette*, les marins, non esclaves ni sujets britanniques, qui, dans les limites des possessions de Sa Majesté, déserteront de navires marchands appartenant à des citoyens des Etats-Unis, pourront être arrêtés et reconduits à bord de leurs navires respectifs. Pourvu toujours que si un déserteur a commis un crime dans les limites des possessions de Sa Majesté, il puisse être détenu jusqu'à ce qu'il ait subi son procès devant une cour compétente, et jusqu'à ce que sa sentence, s'il en est prononcé, soit exécutée.

Et le Secrétaire d'Etat au département de l'Intérieur, le Secrétaire d'Etat pour les Colonies et le Secrétaire d'Etat pour l'Inde, en conseil, donneront les instructions nécessaires pour l'exécution du présent.

—

TRAITÉ entre la Grande-Bretagne et les Etats-Unis concernant les déserteurs de la marine marchande. Signé à Washington, le 3 juin 1892 ; ratifications échangées à Washington le 1er d'août 1892.

CONSIDÉRANT que les gouvernements de la Grande-Bretagne et des Etats-Unis d'Amérique désirent pourvoir à l'arrestation, la reprise et la réintégration des personnes qui désertent des navires marchands de leurs pays respectifs pendant qu'ils sont dans les ports de l'autre pays, et de conclure un traité à l'effet susdit, les hautes parties contractantes ont en conséquence nommé comme leurs plénipotentiaires pour conclure le dit traité, savoir :—

Sa Majesté la Reine du Royaume-Uni de la Grande-Bretagne et d'Irlande, Sir Julian Pauncefote, G.C.M.G., C.C.B., envoyé extraordinaire et ministre plénipotentiaire de Sa Majesté aux Etats-Unis ; et Le Président des Etats-Unis d'Amérique, James G. Blaine, Secrétaire d'Etat des Etats-Unis ;

Lesquels, après s'être communiqué leurs pleins pouvoirs respectifs trouvés en bonne et due forme, sont convenus des articles ci-dessous :—

ARTICLE I.

Les consuls généraux, consuls, vice-consuls et agents consulaires de l'une ou l'autre des hautes parties contractantes, résidant dans les possessions ou colonies de l'autre, auront le pouvoir de requérir des autorités compétentes l'aide que prescrit la loi pour l'arrestation, la reprise et la réintégration des matelots qui désertent d'un navire appartenant à un sujet ou citoyen de leurs pays respectifs pendant qu'ils sont dans les ports de l'autre pays. Toutefois, si tel déserteur avait commis un crime ou une infraction dans le pays où il est trouvé, sa reddition ou réintégration pourra etre retardée jusqu'à ce que le tribunal devant lequel la cause est pendante, ou devant lequel elle peut être portée, ait prononcé sa sentence, et que la sentence ait été exécutée.

Il est entendu que les stipulations qui précèdent ne s'appliqueront qu'aux sujets ou citoyens du pays où la désertion aura lieu.

ARTICLE II.

Le présent traité sera ratifié et les ratifications seront échangées à Londres ou à Washington sans délai.

ARTICLE III.

Le présent traité deviendra exécutoire à l'expiration de trente jours à compter de la date de l'échange des stipulations. Il restera en vigueur pendant cinq ans après cette date, et ensuite jusqu'à ce qu'il soit terminé par un avis de douze mois donné par une des hautes parties contractantes à l'autre.

En foi de quoi, nous les plénipotentiaires respectifs avons signé le présent traité et y avons apposé nos sceaux.

Fait en double à Washington ce troisième jour de juin mil huit quatre-vingt-douze.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, par et avec l'avis du Conseil privé de la Reine pour le Canada, d'ordonner que la réserve de deux townships en largeur le long de la ligne frontière entre le Canada et les Etats-Unis partant de la limite ouest du Manitoba et allant jusqu'aux Montagnes-Rocheuses destinées à servir de terrain de quarantaine le long duquel les animaux en quarantaine pourront paître, soit et elle est par le présent abolie, et que les réserves ci-après décrites seront et elles sont par le présent déclarées être des réserves permanentes pour des fins de quarantaine, au lieu de la réserve susdite, savoir :—

1. Les townships 1, rangs 19, 20, 21, 22 et 23, en partie, étant cette région du pays sise entre les bras nord et sud de la rivière au Lait dans le township 1.

2. Les townships 1, rangs 12, 13, 14 et 15 en partie, les townships 2, rangs 12, 13, 14 et 15 en partie, étant cette région du pays sise entre la rivière au Lait au nord et la limite internationale au sud, avec la Coulée de la Pierre-à-écrire à l'est, et le droit de chemin de la ligne de la Compagnie de chemin de fer et de houille d'Alberta à l'ouest.

3. Les townships 1, rangs 4, 5 et 6 en partie, les townships 2, rangs 4, 5 et 6 en partie, étant cette région de pays site entre la rivière au Lait à l'ouest et au sud, et le Creek Many Berries à l'est, le tout dans les townships 1 et 2. Tous les numéros de rangs donnés étant ceux officiellement connus comme étant à l'ouest du quatrième méridien.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

CONSIDÉRANT que d'après des informations reçues il y a raison de croire que la maladie du choléra asiatique s'est déclarée dans la cité de New-York, et qu'elle y a causé cinq décès ;

Et considérant qu'il est à propos d'étendre les règlements applicables aux ports de mer autres que les stations régulières de quarantaine, aux ports de l'intérieur sur la frontière entre le Canada et les Etats-Unis, en tant que ces règlements peuvent s'appliquer à un port de l'intérieur ;

Et considérant que par l'article 3 du chapitre 68 des Statuts Revisés, intitulé "Acte concernant la quarantaine," il est statué que les règlements faits en vertu du dit acte, "auront force de loi ; et toute personne "qui désobéit à quelqu'un de ces règlements est coupable de délit et passible d'amende ou d'emprisonnement, ou des deux peines, selon que la cour l'ordonnera,—ou elle peut être poursuivie pour les peines "portées aux dits règlements."

Et de plus il est statué dans l'article 4 du dit acte, que—

"Le Gouverneur en conseil peut, par ces règlements, "requérir les propriétaires ou les personnes chargées "du soin ou de la garde de marchandises ou choses "transportées par terre à quelque lieu en Canada, de "permettre à l'officier à ce préposé en vertu de ces "règlements de faire la visite et l'examen de ces marchandises ou choses, de répondre suivant la vérité à "toutes les questions qui leur seront faites par cet "officier relativement à ces marchandises ou choses,— "et de permettre que celles-ci restent sous la garde du "dit officier durant l'espace de temps, et soient nettoyées, "désinfectées et purifiées de la manière qu'il croira "nécessaire pour les fins du présent acte ; et le Gouverneur en Conseil peut, par ces règlements, ordonner "que les personnes arrivant par terre en quelque lieu "que ce soit en Canada se laissent visiter et examiner "par l'officier qu'il appartiendra, nommé en vertu des "dits règlements,—qu'elles répondent suivant la vérité "à toutes les questions qui leur seront faites par cet "officier,—et qu'elles séjournent au dit lieu, durant "l'espace de temps, et se laissent traiter, purifier et "désinfecter de la manière que le dit officier croira "nécessaire pour les fins du présent acte"—.

Il plaît à Son Excellence, en vertu des dispositions du chapitre 68 des Statuts Revisés, intitulé "Acte concernant la quarantaine," et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'établir les règlements suivants, qui seront censés être des règlements de quarantaine en vertu des dispositions du dit acte, savoir :—

1. Chaque percepteur des douanes à un port de la frontière, en sa capacité d'officier de la quarantaine tel que prescrit par l'article 31 du chapitre 6 des Arrêtés en conseil refondus du Canada, sera, en vertu de cette charge un juge de paix sous l'empire et pour les fins de tel acte.

2. Tout percepteur des douanes en sa capacité d'officier de la quarantaine devra, s'il est informé de la présence d'une maladie infectieuse telle que définie dans l'article 27 du chapitre 6 des Arrêtés en conseil refondus, ou s'il a raison grave de soupçonner la présence de telle maladie, immédiatement ordonner qu'une inspection soit faite par un médecin du wagon, voiture, véhicule, bateau ou chose apportant telle maladie, et ce médecin sera pour la dite fin, et il est par le présent constitué médecin autorisé de quarantaine pour mettre à exécution les prescriptions du dit acte et sera revêtu des pouvoirs spécifiés dans l'extrait de l'article 4 du dit acte ci-dessus cité.

3. L'honoraire payable à ce médecin pour cette inspection ne devra pas excéder la somme de quatre piastres pour chaque visite, et dans le cas où il serait découvert quelque maladie infectieuse cet honoraire sera payable par la compagnie ou propriétaire du wagon, voiture, véhicule, bateau ou chose apportant cette maladie.

4. Le percepteur des douanes, en sa capacité d'officier de la quarantaine devra, sur le rapport de ce médecin inspecteur de quarantaine, faire détenir le wagon, voiture, véhicule, bateau ou chose apportant cette maladie infectieuse jusqu'à ce qu'on ait rempli les formalités prescrites par l'article 33 du chapitre 6 des Arrêtés en conseil refondus.

JOHN J. McGEE,
13-4 Greffier du Conseil privé.

HOTEL DU GOUVERNEMENT À OTTAWA.

Lundi, le 22e jour de septembre 1892.

PRÉSENT :

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL.

IL plaît à Son Excellence, en vertu des dispositions du chapitre 34 des Statuts Revisés du Canada, intitulé "Acte du revenu de l'intérieur," et par et avec l'avis du Conseil privé de la Reine pour le Canada, d'établir les règlements suivants au sujet du tabac et des cigares et des manufactures de tabac et de cigares, et les dits règlements sont par le présent faits et établis.

JOHN J. McGEE,
Greffier du Conseil privé.

RÈGLEMENTS CONCERNANT LE TABAC ET LES CIGARES.

TITRE 1.—MATIÈRE PREMIÈRE.

A.—Comment traiter le tabac en feuilles, les déchets, les rognures, les tiges, la réglisse ou autres matières, apportés, produits ou employés dans une manufacture de tabac ou de cigares, ou qui sont sortis de la dite manufacture.

Article 1. Aussitôt que du tabac ou toute autre matière première sera reçu à la manufacture, la quantité en sera vérifiée par le fabricant sous la surveillance immédiate de l'officier préposé, dont le devoir sera de s'assurer de l'exactitude de tous les poids, et, quand il sera requis par le fabricant, de constater la déduction à faire pour l'eau.

Art. 2. Le tabac étalon, tel que défini par l'acte, est celui qui contient 10 pour cent d'eau, mais le département n'a pas l'intention de s'arrêter à une différence d'un ou de deux pour cent en plus ou en moins.

Art. 3. Cependant, quand il y a un excédent d'eau évident au delà de la proportion ci-dessus mentionnée, c'est-à-dire 10 pour cent, le fabricant peut, s'il le désire, le faire constater, et si cet excédent atteint ou dépasse 12 pour cent, le surplus de 10 pour cent doit être déduit du poids total. En d'autres termes, quand le tabac sera trop imprégné d'eau, on déduira 10 pour cent de son poids et on ne tiendra pas compte de la différence en plus.

Art. 4. Tout échantillon pris en vue de constater la proportion d'eau qu'il contient sera fourni gratuitement par le fabricant ou le propriétaire.

Art. 5. Il n'est pas nécessaire de prendre des échantillons de chaque paquet ou colis. Quand, après un examen attentif de deux colis ou plus, le préposé considère que le lot est à peu près uniforme en ce qui regarde la quantité d'eau, il peut choisir un échantillon pour représenter le lot. Le département désire que le fabricant subisse le moins de perte possible par la constatation de la quantité d'eau contenue dans son tabac ; et chaque fois qu'un fabricant est convaincu que le tabac en feuilles ou tout autre tabac non fabriqué apporté à sa manufacture en aucun temps n'est ni au-dessus ni au-dessous de l'étalon, il peut consigner dans ses livres son poids réel sans faire examiner aucun échantillon, mais dans ce cas ce poids sera considéré comme étant le poids étalon et il ne sera fait par la suite aucune remise si la production de la manufacture est au-dessous de l'étalon fixé par la loi.

Art. 6. Pour le certificat qui sera donné au percepteur des douanes, sous l'autorité de l'article 312 de l'*Acte du revenu de l'intérieur*, on emploiera à l'avenir la formule (n° 28). Le percepteur veillera à ce que ce certificat soit soigneusement libellé et annexé (à la gomme) à la déclaration en douane du tabac en feuilles auquel il se rapporte.

Art. 7. Les tiges, déchets, rognures, débris ou autres rebuts de tabac produits, employés, enlevés ou détruits dans ou de toute manufacture de tabac ou de cigares, seront inscrits en livres étalons.

Art. 8. Tous tabacs en feuilles, tiges, déchets, rognures, débris, rebuts et tabacs en voie de fabrication à l'époque où l'inventaire se fera, seront portés en livres étalons, et dans ces cas on aura soin que les échantillons choisis pour le séchage représentent bien la moyenne d'humidité de chacun des lots où on les aura pris.

Art. 9. Chaque fois qu'il sera nécessaire de constater la quantité d'eau qu'ils contiennent, les échantillons devront être choisis avec soin, de façon à donner une moyenne aussi exacte que possible de l'ensemble des lots. Ces échantillons devront peser chacun d'un quarteron à une demi-livre ; on les pèsera soigneusement aussitôt qu'ils auront été pris sur le lot, et on ne devra les y prendre qu'au moment le plus rapproché possible du pesage du lot. On les sèchera ensuite soigneusement dans les fours qui ont déjà été ou seront fournis aux principaux bureaux. La différence de poids avant et après le séchage représentera la quantité d'eau contenue dans le tabac.

Art. 10. Les bureaux les plus importants sont pourvus de balances spéciales qui indiqueront sur le fléau la proportion d'eau au-dessus de l'étalon, ce qui dispensera de bien des calculs.

La balance est construite de telle façon qu'après avoir contrebalancé le poids du plateau de dessiccation au moyen de plomb de chasse versé dans le vaisseau de contrepoids, vous pouvez peser un échantillon d'un quart de livre, d'une demi-livre ou d'une livre, selon que vous aurez arrangé le poids curseur pour peser l'un ou l'autre, en ayant soin de placer le poids curseur à 100 lorsque vous pesez avant que le tabac soit séché ; après la dessiccation la place que prendra le poids curseur sur le fléau pour contrebalancer l'échantillon indiquera sur l'échelle inférieure du fléau le percentage d'eau de l'échantillon.

Art. 11. L'officier préposé à la surveillance d'une manufacture de tabac ou de cigares tiendra registre du poids de tous les colis de tabac en feuilles ou d'autres matières premières qui entreront dans la manufacture. Le département fournira un livre à cette fin.

Art. 12. Lorsqu'il sera reçu du tabac en feuilles privé de ses tiges dans quelque manufacture de cigares, l'entrée qui en sera faite devra mentionner la nature de ce tabac à sa réception ainsi que plus tard lorsqu'il sera pris pour emploi, et la quantité ainsi reçue et prise pour emploi devra être également mentionnée dans une note au bas de la page sur le relevé mensuel du fabricant (F. 4,) et sur l'inventaire annuel, (G. 15).

Art. 13. Tous les paquets ou colis de matières premières reçues dans la manufacture seront numérotés consécutivement, en commençant par le numéro un, le premier jour de juillet de chaque année.

Art. 14. Une étiquette sera mise sur chaque colis, et indiquera la date de son entreposement, le numéro primitif et le numéro de série du colis, son poids brut, la tare, et le poids net et réel du tabac ou de toute autre matière première y contenue, et, s'il s'agit de tabac en feuilles, de déchets et de rognures, de tiges et d'autres produits non manufacturés du tabac en feuilles, les livres, le percentage d'eau et le nombre de livres étalons de tabac y contenus. Pour raison d'uniformité, l'étiquette dont on se servira jusqu'à nouvel ordre du département, se lira comme il suit, et le département la délivrera sur demande :—

On ne remplira pas le blanc des deux dernières lignes s'il s'agit de réglisse, de sucre, de gomme ou de matières premières autres que le tabac en feuilles, ses rognures ou ses autres produits, vu qu'il ne peut être fait de déduction pour la quantité d'eau que ces articles peuvent contenir.

Art. 15. Tous tabacs en feuilles ou autres matières, sur réception et aussitôt qu'on en aura fait un état, seront placés dans l'entrepôt destiné à cette fin et fermé avec un cadenas officiel, dont la clé demeurera entre les mains du préposé.

Art. 16. Les tabacs en feuilles et autres matières premières seront remis aux fabricants de tabac et de cigares en telles quantités qu'ils auront besoin d'employer ; comme ils peuvent avoir accès à l'entrepôt tous les jours, si c'est nécessaire, et prendre du tabac d'autant de colis qu'ils le désireront, comme s'il était sous leur contrôle exclusif, il est inutile d'en emporter en plus grande quantité que les besoins de chaque jour n'en requièrent. Si on prend des colis complets pour les employer, on devra les déclarer à la sortie de l'entrepôt selon le poids marqué sur ces colis à leur entrée.

(a.) Si, dans l'opinion du département, une manufacture de tabac ou de cigares ne possède pas les commodités nécessaires pour emmagasiner tout le tabac en feuilles et les autres matières premières dans la pièce fermée à clef désignée pour cette fin, sans causer trop de tracas au fabricant, le percepteur peut permettre qu'on emmagasine telle quantité qu'il jugera convenable dans d'autres parties de la manufacture ; et dans ce cas le fabricant mettra sur chaque paquet ou colis non destiné à être employé prochainement une carte rouge de pas moins de quatre pouces carrés sur laquelle les mots "En Entrepôt" seront imprimés en lettres hautes de pas moins d'un pouce ; et l'enlèvement de cette carte ou de partie du contenu de ce colis avant que le poids du colis n'ait été porté au débit du "Journal" comme "pris pour emploi," sera considéré comme un enlèvement illégal de marchandises d'un entrepôt et rendra le fabricant passible des pénalités fixées par la loi ;

(b.) Quand le contenu d'un colis est pris pour usage en différentes fois, la dernière déclaration devra faire concorder le total avec la quantité entreposée originairement et marquée sur ce colis ;

(c.) Il sera permis à un fabricant de prendre des colis entiers ou telle portion de colis qu'il aura besoin d'em-

ployer ; mais s'il devient évident en aucun temps que ses déclarations couvrent des quantités qui dépassent les bornes de son commerce, le percepteur demandera au département des instructions particulières.

Art. 17. Toutes les tiges se trouvant dans une manufacture de tabac ou de cigares, à moins d'être utilisées, ou qu'on ait l'intention de les utiliser immédiatement dans la manufacture, ou gardées par le fabricant dans le but de les exporter, devront être pesées une fois par mois au moins et détruites ou mises sous clé de la manière ci-après indiquée.

Les tiges, déchets, rognures et débris produits dans une manufacture de tabac ou de cigares reportés au fonds des existences et portés au débit du Magasinier *(Stock book)* n° 1, à moins d'être détruits ou enlevés, ou qu'on déclare vouloir les utiliser immédiatement, devront être déposés dans un entrepôt de tabac en feuilles.

Art. 18. On les détruira par le feu, mais un autre moyen pourra être autorisé spécialement. Les percepteurs sont autorisés à délivrer de temps à autre aux jardiniers connus des tiges de tabac devant servir uniquement à des fins horticoles. La quantité à fournir et les garanties à prendre pour que ces tiges ne soient pas détournées de leur destination sont laissées à la discrétion du percepteur. On pourra se procurer des formules d'obligation (A. 8,) et des permis (Bb. 13), en en faisant la demande au département. Si des personnes dignes de confiance désirent se servir de tiges de tabac pour engrais, le percepteur pourra leur en livrer en quantités qu'il jugera à propos. Cependant, dans ce cas, les tiges devront être mêlées avec l'engrais, en présence et à la satisfaction du préposé du département ; ce qui étant fait il ne sera exigé aucune obligation. Le fabricant ou la personne qui reçoit les tiges comme il sera réciproquement convenu, devra payer les frais résultant de la présence du préposé du revenu à l'endroit où les tiges sont ainsi détruites. Il sera fait une entrée des tiges fournies soit pour des fins horticoles, soit pour des fins d'engrais dans le *Relevé mensuel des tiges de tabac.* (G. 17.)

Art. 19. Les tiges, déchets, rognures et débris, avant d'être déclarés pour transport ou destruction, seront portés au débit du Magasinier n° 1.

Art. 20. Le tabac en feuilles qui aura été inscrit dans le "Journal" d'un fabricant de tabac ou de cigares comme pris pour emploi, ne pourra ensuite être sorti de la manufacture à l'état brut, à moins d'une permission spéciale obtenue dans chaque cas du percepteur.

Art. 21. Le tabac en feuilles et les déchets et rognures lorsqu'ils seront sortis d'une manufacture de tabac ou de cigares, devront, avant d'être déplacés, être pesés de nouveau et éprouvés et le manquant (s'il y en a) devra être constaté et la quantité ainsi déterminée sera entrée en livres étalons et devra être consignée à l'ordre du percepteur de la division où il sont entrés pour être déplacés. Si on découvre que le manquant est survenu sur le tabac ou les déchets et rognures pendant l'entreposement, il sera fait au département une demande d'entrée libre pour ces articles ou pour qu'ils soient traités autrement, selon que le département le jugera à propos.

Art. 22. En faisant l'inventaire du tabac et des matières premières mis sous cadenas officiel, il ne sera pas nécessaire de peser chacun des colis en entrepôt, mais seulement un nombre suffisant pour faire voir au préposé que les colis sont tels que l'étiquette l'indique. Quand le tabac n'est pas sous cadenas officiel, chaque colis doit être soigneusement pesé.

Art. 23. Comme on ne compte pas les tiges et débris en établissant la production dans les fabriques de cigares, les percepteurs tiendront la main à ce que ces produits soient régulièrement portés au débit du Magasinier n° 1, de façon qu'il n'en reste aucun solde à inscrire comme en voie de fabrication lors de l'inventaire.

Art. 24. Les aromates reçus dans une manufacture de tabac ou de cigares ne seront pas examinés par le préposé, mais le fabricant devra enregistrer leur poids comme dans le cas des autres matières premières.

B.—De la vente en bloc, par un fabricant à un autre, des déchets, rognures, tiges et balayures de tabac.

Art. 25. Chaque fois qu'un fabricant de tabac ou de cigares désirera vendre ses rebuts, déchets, rognures, tiges et balayures de tabac, en bloc et comme matière première, à un autre fabricant de tabac ou de cigares, pour être façonnés ou manufacturés, il lui sera loisible de le faire aux conditions suivantes, savoir :

(a.) Les déchets et les rognures, les tiges et les balayures de tabac, devront être mis en colis séparés et ne devront être mêlés dans aucun cas, et il ne sera pas permis non plus d'y ajouter du tabac en feuilles pour compléter le colis. Les différentes classes de tabac seront séparées et par paquets distincts ;

(b.) La mutation devra être faite en entrepôt, et les marchandises consignées à l'ordre du percepteur du revenu de l'intérieur de la division à laquelle les marchandises doivent être transportées, de la même manière que pour les articles manufacturés ;

(c.) Les colis contenant les marchandises seront numérotés consécutivement et porteront chacun le chiffre du poids brut, de la tare, du poids net, et celui du poids étalon du tabac non manufacturé y contenu, plus le numéro de registre de la manufacture, le numéro de la déclaration d'entreposement, sa date, et le numéro de la division du revenu de l'intérieur ;

(d.) Personne autre que les fabricants de tabac et de cigares n'aura la permission soit d'acheter soit de vendre cette qualité de tabac, à moins qu'il ne soit empaqueté et estampillé et n'ait acquitté les droits fixés par la loi.

Art. 26. Si un fabricant de tabac ou de cigares désire vendre ses rebuts, déchets, rognures, tiges ou balayures de tabac pour l'exportation dans un pays étranger, il devra en faire une déclaration d'exportation en entrepôt de la même manière et sous l'empire des règlements qui gouvernent l'expédition et l'exportation des articles manufacturés.

Art. 27. Les fabricants de cigares ne pourront faire de petits paquets de rognures pour la consommation.

C.—De la mutation de la fleur de tabac en poudre et des déchets de tabac à chiquer haché fin d'une manufacture à une autre.

Art. 28. La fleur de tabac en poudre non préparée pour être utilisée, mais qui aura besoin de passer par quelque autre procédé, en la tamisant, marinant, aromatisant, ou autrement, avant qu'elle ne soit en état d'être employée ou consommée, pourra être vendue directement par un fabricant de tabac à un autre conformément aux règlements suivants :—

(a.) La fleur de tabac en poudre sera mise en colis, et ces colis seront numérotés consécutivement et porteront l'indication de leurs poids brut, tare et poids net, et de plus le numéro de registre de la manufacture d'où ils sont retirés, le numéro de la déclaration d'entreposement, sa date, et le numéro de la division du revenu de l'intérieur ;

(b.) La fleur de tabac en poudre ira d'une manufacture à une autre en entrepôt, les déclarations d'entreposement et de sortie et l'obligation de sortie nécessaires devant être faites et données comme dans le cas des autres mutations en entrepôt.

Art. 29. Les déchets de tabac à chiquer fin peuvent être vendus en bloc comme les rognures, débris, etc., par un fabricant de tabac à un autre ; mais s'ils sont mis en paquets pour le débit et la consommation, ces paquets devront contenir un vingtième, un seizième, un dixième, un huitième, un cinquième, un quart de livre, une demi-livre ou une livre chacun, et être estampillés comme les autres petits paquets de tabac. La loi n'autorise pas l'empaquetage des déchets de tabac à chiquer fin par cinq ou dix livres, comme pour le tabac à chiquer fin lui-même.

Art. 30. Les déchets de tabac à chiquer fin peuvent être vendus en bloc par un fabricant de tabac à un autre, conformément aux règlements qui suivent :—

(a.) Ils seront mis en paquets, qui seront numérotés consécutivement et indiqueront leurs poids brut, tare et poids net (ce dernier en livres apparentes et en livres étalons), et de plus le numéro de registre de la manufacture où ils auront été préparés ou dont ils auront été retirés, le numéro de la déclaration d'entreposement, sa date, et le numéro de la division du revenu de l'intérieur ;

(b.) Les déchets de tabac à chiquer fin, de même que la fleur de tabac à priser, seront transportés d'une manufacture à une autre en entrepôt.

Art. 31. Sur réception de la fleur de tabac en poudre ou des déchets de tabac à chiquer fin dans la manufacture où ils seront consignés, on les mettra dans l'entrepôt du tabac en feuilles, et on les délivrera au fabricant en telles quantités dont il aura besoin pour les utiliser.

Art. 32. La fleur de tabac en poudre et les déchets de tabac à chiquer fin, après la déclaration de la sortie en vue de leur préparation dans une autre manufacture de tabac licenciée, seront traités dans tous les livres comme matières premières, et comme ces opérations ne seront probablement pas assez importantes pour qu'il faille surcharger les livres de colonnes particulières à leur sujet, on les y traitera de la manière suivante dans les cas de sortie, savoir :—

(a.) Les inscriptions se feront à l'encre rouge ;

(b.) La date de leur production se fera dans la colonne 21 du "Journal" ; quand ils seront "débités au fonds" et "sortis de la manufacture," on consignera la date dans les colonnes 10 et 26 du Magasinier n° 1, respectivement ;

(c.) Dans la manufacture où ils seront reçus, on indiquera aux colonnes 9 et 25 du Magasinier n° 1, quand ils

seront "apportés" et "pris pour emploi," respectivement, et aussi dans la colonne 7 du Journal, quand ils seront "pris pour emploi."

(d.) Les explications seront consignées dans les colonnes 2 et 19 du Magasinier n° 1 et les colonnes 2 et 15 du Journal ;

(e.) Les totaux relatifs aux déchets de tabac à chiquer fin et de la fleur de tabac à priser seront écrits à l'encre rouge, et distincts et séparés des totaux des débris, rognures et rebuts, tels qu'indiqués aux colonnes ci-haut mentionnées.

D.—Echantillons de tabac en feuilles.

Art. 33. Comme on semble ne pas parfaitement comprendre comment il faut traiter les petites quantités de tabac en feuilles importées comme échantillons, et sur lesquelles le département ne peut percevoir de droits, les règlements suivants sont faits pour l'usage des préposés des douanes aux ports où ces échantillons sont importés :—

(a.) Ces échantillons doivent être entreposés dans un entrepôt de douane de la même manière que tout autre tabac en feuilles importé ;
